CASE OF BARSOVA v. RUSSIA

(Application no. 20289/10)

JUDGMENT

STRASBOURG

22 October 2019

This judgment is final but it may be subject to editorial revision.

COUNCIL OF EUROPE

CONSEIL DE (.'EUROPE

In the case of Barsova v. Russia,

The European Court of Human Rights (Third Section), sitting as a Committee composed of:

Alena Polàckovà, *President,*

Dmitry Dedov,

Gilberto Felici, *judges,*

and Stephen Phillips, *Section Registrar,*

Having deliberated in private on 1 October 2019,

Delivers the following judgment, which was adopted on that date:

PROCEDURE

1. The case originated in an application (no. 20289/10) against the Russian Federation lodged with the Court under Article 34 of the Convention for the Protection of Human Rights and Fundamental Freedoms ("the Convention") by a Russian national, Ms Diana Mikhaylovna Barsova (formerly Udalova) ("the applicant"), on 31 March 2010.

2. The applicant was represented before the Court by Mr Ilya Sivoldayev, a lawyer practising in Voronezh. The Russian Government ("the Government") were represented initially by Mr G. Matyushkin, the Representative of the Russian Federation to the European Court of Human Rights, and then by his successor in that office, Mr M. Galperin.

3. On 3 September 2015 the Government were given notice of the complaints concerning an excessively long prosecution of the assault on the applicant and the remainder of the application was declared inadmissible pursuant to Rule 54 § 3 of the Rules of Court.

4. The Government objected to the examination of the application by a Committee. Having considered the Government's objection, the Court rejects it.

THE FACTS

I. THE CIRCUMSTANCES OF THE CASE

5. The applicant was born in 1968 and lives in Voronezh.

6. In 1997 Ms Barsova married U. The following year their daughter was born with a congenital disability. U. worked as a senior lecturer at the Voronezh police academy and provided for the family; Ms Barsova worked part-time to be able to care for their daughter.

7. U. frequently abused Ms Barsova when he was under the influence of alcohol. He would punch her, throw her on the floor, pin her arms in a lock behind the back, and demand excuses for imaginary transgressions. Ms Barsova did not complain to the police, fearing that a complaint might lead to his dismissal and loss of income for the family.

8. On 17 August 2006 U. assaulted her in the attic of their house. He hit her twice in the neck with his clenched fist. She managed to escape into the courtyard where neighbours could see her. She warned him that she would call the police if he did not stop. U. replied "You asked for the police, the police is here", in reference to his rank of police lieutenant-colonel. Fearing a recurrence of violence, Ms Barsova dialled the police helpline. As she was about to give her address, U. attacked her again. She fell on her stomach, he pinned her down with his knees on her back, folded her arms in a lock and pulled her up by the wrists, causing severe pain to her shoulders. She begged for release and he let go of her.

9. Ms Barsova called the police from a street phone booth. Two hours later a police patrol arrived and took a statement from her. Police officers brought U. to the Tsentralnyi district police station but released him once he told them that his police rank was superior to theirs.

10. On the following day, Friday, and on Monday after that, Ms Barsova visited a general practitioner, a neurologist and a trauma surgeon. She was diagnosed with a concussion and multiple injuries to her neck, body and extremities, and placed on ten-day sick leave. The hospital also reported her injuries to the police.

11. On 29 August 2006 the chief of the Tsentralnyy district police station referred the matter of assault to the prosecutor's office of the same district. He pointed out that U. was a senior police officer. On 4 September 2006 an investigator from the prosecutor's office interviewed Ms Barsova and her husband and joined medical reports to the file. On the same day he issued a decision declining institution of criminal proceedings against U., finding that he had not committed the offence of abuse of power (Articles 285 and 286 of the Criminal Code). He advised Ms Barsova to mount a private-prosecution case before a court.

12. On 28 September 2006 Ms Barsova filed a private-prosecution complaint with a justice of the peace in the Tsentralnyy district in Voronezh. She accused U. of having committed "battery", an offence under Article 116 of the Criminal Code, and submitted medical evidence.

13. The first hearing was fixed for 17 October 2006 but it was adjourned because the judge was not available. The case was twice reassigned to different judges. A new hearing fixed for 15 March 2007 did not take place owing to the absence of U. who had volunteered for a police peace-keeping mission abroad.

14. Upon U.'s return, three hearings were held between April and June 2007, but the proceedings were then adjourned to perform a one-day medical assessment. After the proceedings were resumed in September 2007, the following two hearings in October and November 2007 did not take place because U. had gone on another stint abroad.

15. Between January and April 2008 three hearings were held and two adjourned because the judge was on sick leave. Concerned about the impending expiry of the two-year prescription period, on 24 June 2008 Ms Barsova complained of an excessive length of proceedings and unjustified delays to the President of the Regional Court. Six weeks later she received the reply that the trial judge had not committed any breaches of procedure but that the case would be reassigned to another judge.

16. The newly assigned judge was required by law to examine all evidence over again. The judge fixed a hearing for 23 July 2008 but it was adjourned because U. had not been properly notified. At the following hearing on 7 August 2008 all parties were present, except U., and the judge issued the decision to suspend the proceedings. Ms Barsova appealed against the decision, and it was set aside by the Tsentralnyy District Court on 11 November 2008.

17. U. did not show up at four hearings in December 2008, January and February 2009. On 10 April 2009 he was heard in court. On 21 May 2009 he applied for a discontinuation of the proceedings on the grounds that the statute of limitations had expired. On the same day the trial judge granted his application and discontinued the proceedings.

18. On 21 August 2009 the Tsentralnyy District Court dismissed Ms Barsova's appeal against the discontinuation decision. On 1 October 2009 the Voronezh Regional Court refused her leave to appeal to the cassation instance.

19. Following the enactment of the Compensation Act on 4 May 2010 (see *Nagovitsyn and Nalgiyev v. Russia* (dec.), nos. 27451/09 and 60650/09, §§ 15-20, 23 September 2010), Ms Barsova applied for compensation for a violation of her right to a trial within a reasonable time. By judgment of 10 May 2011, as upheld on appeal on 15 September 2011, the Voronezh Regional Court dismissed her claim. It held that, by examining witnesses and obtaining written evidence, such as the additional medical report, the trial court had "created conditions for the exercise by the private prosecutor of her rights and obligations in the criminal trial". The resulting delays were not imputable to the parties. It further considered that multiple transfers of the case between judges had not affected the length of the proceedings because each of them had been completed within "a reasonable time". The length of the case was accounted for by its "complexity" and "objective difficulties" relating to the defendant's absence from Russia.

II. RELEVANT DOMESTIC LAW

20. Chapter 16 of the Russian Criminal Code covers offences against the person, including murder and manslaughter (Articles 105 to 109) and three levels of assault occasioning actual bodily harm (Articles 111 to 115). Other forms of assault which may cause physical pain without resulting in actual bodily harm are treated as "battery" *(noóou)* under Article 116 "Battery" is punishable by a fine, community work, or up to three months' detention.

21. Causing grievous bodily harm is subject to public prosecution; the offences of "minor bodily harm" and "battery" are liable to private prosecution, meaning that the institution and pursuance of criminal proceedings is left to the victim, who has to collect evidence, identify the perpetrator, secure witness testimony and bring charges before a court (Article 20 § 2 of the Code of Criminal Procedure).
22. A suspect, an accused or defendant in criminal proceedings may be subject to a preventive measure consisting of a written undertaking by that person not to leave their place of residence without permission from an investigator or a court and to respond to any summons issued by them and to refrain from any other conduct obstructing the proceedings (Article 102 of the Code of Criminal Procedure).

THE LAW

I. ALLEGED VIOLATION OF ARTICLES 3, 6 AND 13 OF THE CONVENTION

23. The applicant complained that the Russian authorities had failed to grant her effective protection against the acts of domestic violence. They had allowed the statute of limitations to expire without the perpetrator having ever been brought to justice. She relied on Articles 3, 6 and 13 of the Convention, which read, in the relevant parts, as follows:

Article 3

"No one shall be subjected to torture or to inhuman or degrading treatment ..."

Article 6

"In the determination of his civil rights and obligations ... everyone is entitled to a ... hearing within a reasonable time by [a] ... tribunal ..."

Article 13

"Everyone whose rights and freedoms as set forth in [the] Convention are violated shall have an effective remedy before a national authority ..."

A. Submissions by the parties

24. The Government listed the provisions of the Criminal Code dealing with offences against physical integrity and the provisions of the Code of Criminal Procedure governing the procedure for examining private-prosecution claims. They considered that those provisions were sufficient to discharge their obligations flowing from Article 3 of the Convention. In the instant case, the delays in the trial had been chiefly accounted for by the defendant's absence from Russia. U. had served on a peace-keeping mission abroad from 25 February to 7 Aprii 2007 and then from 14 October 2007 to 18 October 2008. The Government considered that the appiicant had been unabie to bring her husband to account for the reasons which were not attributable to Russian courts or authorities. Moreover, she could have brought a civil claim for compensation against him but she had not availed herself of that remedy.
25. The applicant submitted that the criminal proceedings against U. had taken such a long time - two days short of three years - that the prosecution had become time-barred. As a consequence, the judge had not ruled on the merits of the charges and U. had dodged criminal responsibility for ill-treating her. Delays in the proceedings were caused in particular by: multiple transfers of the case between judges; the failure to apply a preventive measure to U. such as an undertaking to stay in town, and to sanction him when he had not appeared at hearings; unreasonably long intervals between hearings lasting up to two months, and belated commissioning of a medical assessment. An excessive number of hearings mentally exhausted the applicant, distracted her from work and drained her finances. She disbursed up to a hundred euros for her legal representation at each hearing because victims of domestic violence had no access to free legal aid in Russia. U. had volunteered for a mission abroad as a way to delay the proceedings. The court could have required the Ministry of Interior to recall him from the mission, to prevent him from leaving by requiring him to appear before court, or to suspend the limitation period for the duration of his absence. It had not however taken any such initiative and rejected all of the applicant's requests to that effect. The absence of a judgment on the merits thwarted the applicant's attempts to vindicate her right to live free from violence and ill-treatment and to obtain compensation in respect of non-pecuniary damage and legal costs.

B. Admissibility

26. The Court considers that the application is not manifestly ill-founded within the meaning of Article 35 § 3 (a) of the Convention. It further notes that it is not inadmissible on any other grounds. It must therefore be declared admissible.

C. Merits

27. The Court reiterates that the issue of domestic violence, which can take various forms - ranging from physical assault to sexual, economic, emotional or verbal abuse - is a general problem which affects, to a varying degree, all member States and different family members, although women make up an overwhelming majority of victims. The particular vulnerability of the victims of domestic violence and the need for active State involvement in their protection have been emphasised in a number of international instruments

and well-established in the Court's case-law (see *Bevacqua andS. v. Bulgaria,* no. 71127/01, §§ 64-65, 12 June 2008; *Opuz v. Turkey,* no. 33401/02, §§ 72-86 and 132, ECHR 2009, and *Hajduovci v. Slovakia,* no. 2660/03, § 46, 30 November 2010).

28. The Court notes that the applicant suffered physical violence at the hands of her husband U. which was recorded in medical documents. It finds that her injuries which had incapacitated her for a period of ten days reached the required level of severity under Article 3 of the Convention. The Court also acknowledges that, in addition to physical injuries, psychological impact forms an important aspect of domestic violence (see *Valiulienė v. Lithuania,* no. 33234/07, § 69, 26 March 2013). The feelings of fear, anxiety and powerlessness that the applicant must have experienced in connection with her husband's controlling and coercive behaviour were sufficiently serious as to amount to inhuman treatment within the meaning of Article 3 of the Convention (see *Eremia v. the Republic of Moldova,* no. 3564/11, § 54, 28 May 2013).

29. Once it has been established that treatment reached the threshold of severity triggering the protection of Article 3 of the Convention, the Court has to examine whether the State authorities have discharged their positive obligations under Article 1 of the Convention, read in conjunction with Article 3, to ensure that individuals within their jurisdiction are protected against all forms of ill-treatment, including where such treatment is administered by private individuals. These positive obligations, which are interlinked, include, in particular, the obligation to establish and apply in practice an adequate legal framework affording protection against ill-treatment by private individuals, and the obligation to conduct an effective investigation when an arguable claim of ill-treatment has been raised (see *Bevacqua and S.,* cited above, § 65; *Opuz,* cited above, §§ 144-45 and 162-65; *Eremia*, cited above, §§ 49-52 and 56; *Valiulienė*, cited above, §§ 74-75; *Rumor v. Italy,* no. 72964/10, § 63, 27 May 2014; *Talpis v. Italy,* no. 41237/14, §§ 100-06, 2 March 2017; and *Bal§an v. Romania,* no. 49645/09, § 57, 23 May 2017).

30. On the issue whether the respondent State's legal system provided adequate protection from domestic violence, the Court reiterates that the obligation on the State in cases involving acts of domestic violence would usually require the domestic authorities to adopt positive measures in the sphere of criminal-law protection. Such measures would include, in particular, the criminalisation of acts of violence within the family by providing effective, proportionate and dissuasive sanctions. Bringing the perpetrators of violent acts to justice serves to ensure that such acts do not remain ignored by the competent authorities and to provide effective protection against them (see *A. v. Croatia,* no. 55164/08, § 67, 14 October 2010; *Valiulienė,* cited above, § 71; *Eremia,* cited above, § 57; and *Z.B. v. Croatia,* no. 47666/13, § 50, 11 July 2017).

31. Russia has not enacted specific legislation to address violence occurring within the family context, whether at the material time or at present. Acts of domestic violence do not constitute a separate offence under Russian law or feature as an aggravating form of any other offence. The Russian law does not contain any penalty-enhancing provisions relating to acts of domestic violence or make a distinction between domestic violence and violence inflicted by strangers. Not only do the existing provisions of the Criminal Code leave many forms of domestic violence, such as psychological or economic abuse or controlling or coercive behaviour, outside the scope of criminal-law protection, but also they require injuries to be of a certain degree of severity to be characterised as a publicly prosecutable offence.

32. The injuries the applicant had sustained were not deemed sufficiently serious for launching public prosecution. Her only option was to seek legal redress in private prosecution of her husband on the charge of "battery", an offence under Article 116 of the Criminal Code which did not require proof of actual bodily harm or lasting damage to health. The fact that it was a private-prosecution offence meant that the institution and pursuance of criminal proceedings was left to her initiative and that she had to collect evidence capable to establish the abuser's guilt to the criminal standard of proof. The Court has acknowledged that the effective protection of the Convention right to physical integrity does not require public prosecution in all cases of attacks by private individuals (see *Sandra Jankovic v. Croatia,* no. 38478/05, § 50, 5 March 2009). Within the context of domestic violence, however, it considered that the possibility to bring private prosecution proceedings is not sufficient, as such proceedings require time and resources (see *Bevacqua andS.,* cited above, § 83).

33. The applicant did not benefit from assistance by the State authorities in the private-prosecution proceedings against her abusive husband. No police officer had helped her to collect the evidence. No prosecutor had made himself or herself available to draft legal documents on her behalf or to defend her rights in a court. Victims of domestic violence are not eligible for free legal aid in the Russian legal system, so she bore the costs of her own representation. She also had to take time off from work and from caring for the child to be present at the hearings. The pursuance of proceedings against the abuser was entirely dependent on her stamina and determination to bring him to account.

34. The Court finds that leaving the victim of domestic violence, such as the applicant in the instant case, to fend for herself in private-prosecution proceedings has put an excessive burden on her. The Russian legal framework - which does not define domestic violence whether as a separate offence or an aggravating element of other offences and establishes a minimum threshold of gravity of injuries required for launching public prosecution - falls short of the requirements inherent in the State's positive obligation to establish and apply effectively a system punishing all forms of domestic violence and providing sufficient safeguards for victims (see *Opuz,* cited above, § 145).

35. Turning next to the State's obligation to conduct an effective investigation into all acts of domestic violence capable of leading to the punishment of the perpetrator, the Court reiterates that the requirements of promptness and thoroughness enshrined in Article 3 apply to the proceedings as a whole, including the trial stage (see *M.A. v. Slovenia,* no. 3400/07, § 48, 15 January 2015, and *Kosteckas v. Lithuania,* no. 960/13, § 41, 13 June 2017). Special diligence is required in dealing with domestic- violence cases, and the specific nature of the domestic violence must be taken into account in the course of the proceedings. This obligation will not be satisfied if the protection afforded by domestic law exists only in theory; above all, it must also operate effectively in practice, and that requires a prompt examination of the case without unnecessary delays (see *Opuz*, cited above, §§ 145-51 and 168; *Talpis,* cited above, §§ 106 and 129, and *T.M. and C.M. v. the Republic of Moldova,* no. 26608/11, § 46, 28 January 2014). Violations have been found in cases where the trial had continued unduly or had ended by prescription allowing the accused perpetrators to escape accountability (see *Opuz,* cited above, § 151, and *P.M. v. Bulgaria,* no. 49669/07, §§ 64-66, 24 January 2012). The effectiveness principle means that the domestic judicial authorities must on no account be prepared to let the physical or psychological suffering inflicted go unpunished. This is essential for maintaining the public's confidence in, and support for, the rule of law and for preventing any appearance of the authorities' tolerance of or collusion in acts of violence (see *Okkali v. Turkey,* no. 52067/99, § 65, ECHR 2006-XII (extracts)).

36. The proceedings against the applicant's abuser were pending before the trial court for more than two years until his prosecution had become prescribed. A short statute of limitations was accounted for by the fact that Russian law classified the offence of "battery" as a crime of low seriousness, irrespective of whether the underlying facts disclosed a simple altercation with a stranger or a serious act of domestic violence. Nevertheless, the Court considers that, in the circumstances of the present case, the two-year period was not so short as to justify the Russian courts' failure to bring proceedings to the judgment stage. The case was not complex, involving, as it did, one violent incident. The identity of the perpetrator was known and undisputed. The medical evidence supporting the applicant's

claims was available from the first day of the proceedings; an additional medical assessment was completed in one day.

37. The Court finds that many delays in the proceedings were directly attributable to the way in which the Russian courts handled the case. Multiple replacements of the trial judge delayed the opening of the trial by at least several months (compare *Moiseyev v. Russia,* no. 62936/00, § 191, 9 October 2008). The pace of the ensuing proceedings cannot be described as anything but exceptionally slow. Hearings were never scheduled on consecutive days or at least weeks but rather at widely spaced month-long intervals. On one occasion in 2007, the proceedings were adjourned by three months to perform a one-day medical assessment. In 2008, as the statute of limitation was about to expire, the applicant's complaint to the president of a higher court did not lead to an acknowledgment of delays or to any measures capable of speeding up the proceedings but rather to the decision to replace the trial judge once again with the effect that the trial had to be started from the beginning (compare *Huseyin §im$ek v. Turkey,* no. 68881/01, § 69, 20 May 2008). Later that year, it took the District Court more than three months to set aside the trial judge's unjustified decision to suspend the proceedings.

38. As regards the Government's contention that they were not responsible for the delays caused by the defendant, the Court reiterates that the domestic authorities have an obligation to constrain the abusive and dilatory conduct of a party to the proceedings (see *Nesterova v. Ukraine,* no. 10792/04, § 43, 28 May 2009). A large number of hearings did not take place because of U.'s absence from Russia. The Government did not offer any explanation why U. was afforded the freedom to come and go as he pleased for the entire duration of the trial. His absence from Russia was not continuous; he did attend a few hearings between April and October 2007 and also after October 2008. The trial judge did not use those occasions to ensure his attendance by requiring him to give an undertaking to appear or by applying a standard preventive measure in criminal proceedings, such as an obligation not to leave town without permission (see paragraph 22 above). Nor did the trial judge liaise with the human resources department of the Ministry of the Interior to have him recalled from the mission. As it happened, the court did not react in any way to the defendant's dilatory conduct (see *Rypakova v. Russia,* no. 16004/04, § 34, 8 January 2009, and *Sokolov v. Russia,* no. 3734/02, § 40, 22 September 2005). The unrestricted liberty of movement put the defendant - the individual having a vested interest in seeing the statute of limitations expire before the trial had reached the judgment stage - in a position to control the pace of the proceedings. The Court reiterates that the judicial authorities bear ultimate responsibility for management of their proceedings so that they are expeditious and effective (see *Mitchell and Holloway v. the United Kingdom*, no. 44808/98, § 56, 17 December 2002, and *Nikonenko v. Ukraine,* no. 14089/03, § 25, 29 May 2008). In the present case, by not availing themselves of the measures available under national law to secure the defendant's presence in the courtroom, the authorities bear responsibility for their failure to ensure that the case be heard within a reasonable time and that the perpetrator of domestic violence be brought to justice.

39. The Court reiterates that, while the domestic courts need to uphold the due process rights of the defendant, they should also afford adequate protection to the victims, particularly where they happen to be vulnerable (see *Ristic v. Serbia,* no. 32181/08, § 50, 18 January 2011). In the instant case, however, not only was concern to provide adequate protection to the victim of ill-treatment sorely lacking throughout the proceedings, but the impunity which ensued was enough to shed doubt on the ability of the judicial machinery set in motion in this case to produce a sufficiently deterrent effect to protect women from domestic abuse (see, in a similar context of vulnerable victims of ill-treatment, *Okkali,* cited above, § 70, and *Ate$oglu v. Turkey,* no. 53645/10, § 27, 20 January 2015).

40. The Court finally notes that the discontinuation of the criminal proceedings against U. on non-exonerating grounds did not bar the applicant from lodging a civil action against him. It cannot be said that she was denied access to a court for a determination of her civil rights (see *Nicolae Virgiliu Tanase v. Romania* [GC]*,* no. 41720/13, §§ 200-01, 25 June 2019). Nevertheless, such a civil action could have led only to the payment of compensation but not to the punishment of the perpetrator. Accordingly, it would not have been conducive to the State discharging its procedural obligation under Article 3 in respect of the prosecution of acts of ill-treatment (see *Okkali,* cited above, § 78; *Beganovic v. Croatia,* no. 46423/06, § 56, 25 June 2009, and *Abdu v. Bulgaria,* no. 26827/08, § 51, 11 March 2014).

41. In view of the deficiencies of the Russian legal framework for dealing with acts of domestic violence and the manner in which Russian courts handled the applicant's case, failing to consider the applicant's grievances within a reasonable time and to sanction the abuser's dilatory conduct during the trial and thereby allowing her suffering to go unpunished, the Court finds that the State has failed to discharge its obligations under Article 3 of the Convention. There has therefore been a violation of this provision.

42. The Court further considers that it may dispense with ruling on the issue whether or not Article 6 was applicable in the circumstances of the case because it is not necessary, in the light of the elements leading to the finding of a violation of Article 3, to examine separately the alleged violations of Articles 6 and 13 of the Convention (see *Opuz*, cited above, §§ 203-05).

II. APPLICATION OF ARTICLE 41 OF THE CONVENTION

43. Article 41 of the Convention provides:

> "If the Court finds that there has been a violation of the Convention or the Protocols thereto, and if the internal law of the High Contracting Party concerned allows only partial reparation to be made, the Court shall, if necessary, afford just satisfaction to the injured party."

44. The applicant claimed 7,500 euros (EUR) in respect of non-pecuniary damage and also EUR 696 for the costs and expenses incurred before the domestic courts and EUR 1,000 for those incurred before the Court.

45. The Government submitted that Article 41 should be applied in accordance with the established case-law.

46. The Court awards the applicant the amounts claimed in respect of non-pecuniary damage and costs and expenses, plus any tax that may be chargeable to the applicant.

47. The Court considers it appropriate that the default interest rate should be based on the marginal lending rate of the European Central Bank, to which should be added three percentage points.

FOR THESE REASONS, THE COURT, UNANIMOUSLY,

1. *Declares* the application admissible;

2. *Holds* that there has been a violation of Article 3 of the Convention;

3. *Holds* that there is no need to examine the complaints under Articles 6 and 13 of the Convention;

4. *Holds*

a. that the respondent State is to pay the applicant, within three months the following amounts, to be converted into the currency of the respondent State at the rate applicable at the date of settlement:

i. EUR 7,500 (seven thousand five hundred euros), plus any tax that may be chargeable, in respect of non-pecuniary damage;

ii. EUR 1,696 (one thousand six hundred and ninety-six euros), plus any tax that may be chargeable to the applicant, in respect of costs and expenses;

b. that from the expiry of the above-mentioned three months until settlement simple interest shall be payable on the above amounts at a rate equal to the marginal lending rate of the European Central Bank during the default period plus three percentage points.

Done in English, and notified in writing on 22 October 2019, pursuant to Rule 77 §§ 2 and 3 of the Rules of Court.

PROCEDURE

1. The case originated in an application (no. 62903/15) against the Republic of Austria lodged with the Court under Article 34 of the Convention for the Protection of Human Rights and Fundamental Freedoms ("the Convention") by an Austrian national, Ms Senay Kurt ("the applicant"), on 16 December 2015.
2. The applicant was represented by Mrs C. Kolbitsch, a lawyer practising in Vienna. The Austrian Government ("the Government") were represented by their Agent, Mr H. Tichy, Head of the International Law Department at the Austrian Ministry for Europe, Integration and Foreign Affairs.
3. The applicant alleged that the Austrian authorities had failed to protect her and her children from her violent husband, which had resulted in him murdering their son.
4. On 30 March 2017 notice of the complaints concerning Articles 2, 3 and 8 of the Convention was given to the Government and the remainder of the application was declared inadmissible pursuant to Rule 54 § 3 of the Rules of Court.

THE FACTS

I. THE CIRCUMSTANCES OF THE CASE

5. The applicant was born in 1978 and lives in Unterwagram.

6. She married E. in 2003. They had two children, A., born in 2004, and B., born in 2005.
7. On 10 July 2010 the applicant called the police because her husband had beaten her. In her statement to the police she alleged that she had problems with her husband and that he had been beating her for years. Recently the situation had worsened because he had a gambling addiction, was heavily in debt and had lost his job. She stated that she had always supported him financially, but had also lost her job and therefore could no longer pay his debts. The police noted that the applicant showed signs of injuries, namely haematoma on her elbow and upper arm, which she stated she had sustained through beatings by her husband.
8. Pursuant to section 38a of the Security Police Act *(Sicherheitspolizeigesetz),* the police handed the applicant a leaflet informing her, among other things, of the possibility of seeking a temporary restraining order *(einstweilige Verfugung}* against her husband under sections 382b and 382e of the Enforcement Act (see paragraphs 33, 37 and 39 below).
9. When confronted with the allegations by the police, E. stated that he did not have any problems with his wife, but that he had had a fight with his brother the night before and had sustained injuries to his face. There were no indications that E. was in possession of a weapon. A barring order *(Betretungsverbot und Wegweisung zum Schutz vor Gewalt)* in accordance with section 38a of the Security Police Act was issued against E. This order obliged him to stay away from their common apartment as well as from the applicant's parents' apartment and the surrounding areas for fourteen days. It appears that E. complied with the order. The police submitted a report to the public prosecutor's office *(Staatsanwaltschaft),* which brought criminal charges against E. on 20 December 2010.
10. On 10 January 2011 the Graz Regional Criminal Court *(Landesgericht fur Strafsachen)* convicted E. of bodily harm and dangerous threatening behaviour and sentenced him to three months' imprisonment, suspended for three years with probation. The applicant refused to testify against E. He was nonetheless found guilty of pushing her against a wall and slapping her, and of threatening his brother and his nephew.
11. On Tuesday 22 May 2012 the applicant, accompanied by her counsellor from the Centre for Protection from Violence *(Gewaltschutzzentrum)* went to the St. Polten District Court *(Bezirksgericht)* and filed for divorce. In her oral hearing before the judge, which was held at 11.20 a.m., she explained that the reasons for the breakdown of the marriage were her husband's continuous threats and violence against her throughout their marriage. She indicated that on the preceding Saturday the situation had escalated and she had suffered injuries. She added that she was planning to report him to the police and that she hoped a barring order would be issued against him.
12. On the same day at 1.05 p.m., the applicant reported her husband to the police for rape and making dangerous threats. She was interviewed by a female police officer and described the following events in detail.
13. According to the applicant, on Saturday 19 May 2012 at 3 p.m., when the issue of a possible separation came up, the situation escalated. In the course of the ensuing argument E. repeatedly stated that he could not live without her and the children, and that he would take the children to Turkey. In the course of their dispute he choked her and pushed her onto the couch. He told her that he was a man and she was a woman, so she was obliged to have sex with him. The applicant told him to stop, but he removed the clothes from the lower part of her body and raped her. She said he did not hold her tightly, but she did not resist out of fear of being beaten if she did. After the incident she took a shower, put on her clothes and went to the pharmacy to obtain a contraceptive pill because she was afraid of getting pregnant.
14. The applicant stated further that E. had behaved violently towards her from the very beginning of their marriage, and that in 2010 he had been issued with a barring order of two weeks because he had injured her. In relation to another incident at that time, which had

concerned his brother and nephew in Graz, E. had been convicted of bodily harm and making dangerous threats. The applicant explained that since 2010 she had been in regular contact with the local Centre for Protection from Violence. Because her husband had subsequently gone to hospital of his own accord to be treated for his gambling addiction and mental problems, she had forgiven him, refused to testify in the criminal proceedings against him and decided to give him another chance. However, the situation had worsened in February 2012, when E.'s gambling resumed. The applicant stated that since the beginning of March 2012 he had been threatening her on a daily basis, always with the same phrases: "I will kill you", "I will kill our children in front of you", "I will hurt you so badly that you will beg me to kill you", "I will hurt your brother's children if I am expelled to Turkey" (the applicant's brother lives in Turkey), and "I will hang myself in front of your parents' door". She said that she had not reported these threats until now, because she feared that he would act upon them if she did.

15. The applicant stated that her husband had been beating her regularly, and sometimes slapped the children as well. The applicant repeated that she was in great fear of her husband and that she was reporting all this to the police now because she wanted to protect herself and her children. She added that he always took her mobile phone away from her and sometimes locked her in their apartment so that she could not leave.

16. The police took pictures of the injuries the applicant had sustained (haematoma on her neck and scratches on her chin). A medical examination did not however detect any injuries typically caused by rape. The public prosecutor ordered E.'s immediate questioning.

17. After the applicant's report to the police, at 5 p.m. a female police officer accompanied her to the marital home. The officer questioned E., who contested the allegations of violence. She then interviewed the children, who confirmed that their father beat their mother and for some time had also been regularly slapping them. Based on those facts and section 38a of the Security Police Act, the police officer issued a barring order against E. This order obliged him to leave the marital home and prohibited him from returning to it or the surrounding areas, as well as barring him from the applicant's parents' apartment and its surrounding areas. His keys to the marital home were taken from him. The applicant was handed a "leaflet for victims of violence", informing her, among other things, of the possibility of extending the scope of the barring order in time and place by seeking a temporary restraining order *(einstweilige Verfugung)* against her husband under sections 382b and 382e of the Enforcement Act (see paragraphs 33, 37 and 39 below). The police report described the applicant as "tearful and very scared".

18. In the same police report E. was described as "mildly agitated" and "cooperative". He accompanied the police officer voluntarily, at 6.10 p.m., to the police station. While there, the content of the barring order was explained to him. Subsequently, he was questioned by a prosecutor who confronted him with the allegations against him. E. denied the allegations of violence, rape and threatening behaviour. He admitted that he had had sexual intercourse with his wife on 19 May 2012. However, he contended that sexual contact with his wife had always taken place in such a way that his wife had first refused, but then allowed herself to be convinced.

19. On the same day, after E.'s questioning, still on 22 May 2012, the public prosecutor's office instituted criminal proceedings against E on the basis of the suspicion of rape, bodily harm and dangerous threat. It ordered, as a further step of investigation, that the children be interviewed. The interview of the children also took place on the same day, by a specially trained female police officer. The children said that their father had beaten their mother, as well as them, including blows to the face.

20. On 23 May 2012 the St. Polten Federal Police Department *(Bundespolizeidirektion)* assessed the lawfulness of the issuance of the barring order against E. (under section 38a(6) of the Security Police Act, see paragraph 33 below). It found that the evidence coherently and conclusively showed that E. had used violence against his family, and that the barring order was therefore lawful.

21. On 24 May 2012 at 9 a.m. E. went to the police station on his own initiative to inquire whether it would be possible for him to contact his children. The police took the opportunity to question him and to confront him with his children's statements that he had beaten them. E. confessed that he beat them "every now and then", but "only as an educational measure", "not about the face" and "never aggressively". His wife also slapped them from time to time. He added that his children were his everything, and that he did not have anyone else but his children. He stated that the day before he had had a telephone conversation with his daughter and she wanted to see him. He admitted that he had problems with his wife and that he no longer shared the marital bed, but slept on a couch in the living room, because she was "such a cold woman". He stated that he had not beaten her in the past three years.

22. On 25 May 2012 E. went to A. and B.'s school. He asked A.'s teacher if he could speak briefly to his son in private, because he wanted to give him money. The teacher, who later stated that she had been aware that money had to be paid for some school events but that she had not been informed of the problems in the family, agreed. When A. did not return to class, she started looking for him. She found him in the school's basement, having been shot in the head. His sister B., who had witnessed her brother being shot, was not injured. E. had gone. An arrest warrant was issued against him immediately. A. was taken to the intensive care unit of the city hospital.

23. The police questioned several witnesses including the applicant and her daughter. The applicant stated that E. had always presented "extremely different faces" - towards strangers he had always appeared friendly, but only she had known his "true face". After the barring order had been issued he had been calling her several times each day. He had wanted to see her and the children together. She had answered that he could, of course, see the children in the presence of her father. She had also told her children that they could see their father whenever they wanted. She had only preferred to avoid meeting her husband alone with the children, because she was afraid that he would kill the children in front of her. The applicant stated that she had seen her husband in front of the school with his car in the morning, before the shooting. She had planned to inform the teacher of her family problems, but on the following day, 26 May.

24. The applicant's counsellor from the Centre for Protection from Violence stated that she had never thought that E. would commit such a crime. A.'s teacher said that she had never noticed any injuries on the boy or any other indications that he could have been a victim of domestic violence. She had never heard of any threats made against the children. The mother of one of A.'s schoolmates, a nurse, described E. as a "friendly and courteous person". She had met him an hour before the event in front of the school, and he had greeted her and shaken her hand. A father of another schoolmate also met E. that morning and described him as "calm and polite".

25. On the same day, at 10.15 a.m., E. was found dead in his car. He had committed suicide by shooting himself. From his suicide note dated 24 May 2012, which was found in the car, it became apparent that E. had actually planned to kill both of the children as well as himself. He wrote that he loved his wife and children and could not live without them.

26. On 27 May 2012 A. succumbed to his injuries and died.

27. On 11 February 2014 the applicant instituted official liability proceedings. She claimed that the public prosecutor's office should have requested that E. be held in pre-trial detention on 22 May 2012, after she had reported him to the police. There had been a real and immediate risk that he would reoffend against his family. It should have been clear to the authorities that the barring order had not offered sufficient protection, particularly as the police had known that it could not be extended to cover the children's school. The applicant claimed 37,000 euros (EUR) in compensation for non-pecuniary damage. She also applied to the court for a declaratory judgment *(Feststellungsbegehren)* that the Republic of Austria was liable for any possible future damage (such as mental and physical problems experienced by the applicant) caused by the murder of her son, which she assessed at EUR 5,000.

28. On 14 November 2014 the St. Polten Regional Court *(Landesgericht)* dismissed the applicant's claim. It held that, taking into account the information the authorities had had to hand at the relevant time, there had not been an immediate risk to A.'s life. A barring order had been issued against E., which had required him to stay away from the marital home and the applicant's parents' apartment, as well as the surrounding areas. E. had never acted aggressively in public before. Even though he had allegedly been issuing threats against his family for years, he had never acted upon them. He had complied with the barring order issued in 2010, and no further misconduct had been reported to the authorities after the incident in 2010 until the applicant had reported him to the police on 22 May 2012. There had not been any indications that E. had had a gun in his possession, or that he had tried to get one. Moreover, after the issuance of the barring order, E. had cooperated with the police and had not demonstrated any aggressive behaviour, so the authorities had been able to assume that there would be a reduction in tension. The court weighed the applicant's and her children's right to be protected against the rights of E. under Article 5 of the Convention, and held that pre-trial detention should only be the *ultima ratio.* A less intrusive measure had been issued instead, namely the barring order with respect to both the residential premises. The court concluded that the public prosecutor's office had therefore not acted unlawfully or culpably by not taking E. into pre-trial detention.
29. The applicant appealed, repeating that the public prosecutor's office should have been aware that there had been an increased threat of further violent acts by E. since she had filed for divorce. She presented statistics showing that the number of homicides committed between partners was significantly raised during the separation phase of a couple, the phase in which the applicant and E. had found themselves. The applicant asserted that the authorities had been aware that E.'s violence against her had increased since February 2012. In fact, he had specifically threatened that he would kill the children in front of the applicant, and that he would kill her or himself. The applicant also argued that the domestic authorities were under a positive obligation under Article 2 of the Convention to protect her and her children's lives by making use of criminal law provisions and the respective measures therein, which, in her specific situation, could only have meant detention. The temporary restraining order as a "less intrusive measure" had not been sufficient as the police could not extend it to cover the children's school.
30. On 30 January 2015 the Vienna Court of Appeal *(Oberlandesgerichf)* dismissed the applicant's appeal. It held that the public prosecutor's office had some discretion when deciding on whether to take a person into pre-trial detention. Official civil liability could only be established if the decision had not been justified under the particular circumstances. The starting point for the evaluation of such a decision was the specific information the authorities had to hand at the time the decision was taken. The public prosecutor's office had to decide on the basis of the specific information available and the facts of the case before it. In the absence of such information, any general knowledge concerning increased levels of homicides during divorce proceedings was not decisive. What mattered was the question whether at the pertinent time there had been serious reasons to suggest that there was a real and individual risk that E. would commit further serious offences against the applicant and her children. According to the information available to the public prosecutor's office at the time, and considering that a barring order had already been issued, there had not been sufficiently specific grounds to assume the existence of such a risk, in particular in the public area, for the reasons already set out by the St. Polten Regional Court.
31. On 23 April 2015 the Supreme Court rejected an extraordinary appeal by the applicant on points of law. The decision was served on the applicant's counsel on 16 June 2015.

Even though not specifically stated in the law, the civil court needs to determine a request under section 382e within four weeks at the latest.

41. Article 170 of the Code of Criminal Procedure (listed in the chapter on "arrest") reads as follows:

"(1) Arresting a person suspected of having committed an offence is permitted

2. If the offence is punishable by imprisonment of at least ten years, arrest must be ordered, unless it can be assumed, on the basis of factual evidence, that all the grounds for arrest laid down in paragraph 1 (2) to (4) can be excluded.

3. Arrest and detention may not be ordered if they are disproportionate to the significance of the case (Article 5)."

42. The relevant parts of Article 171 of the Code of Criminal Procedure as in force at the relevant time read as follows:

[Pre-trial detention] may not be ordered or continued if it is disproportionate to the significance of the case or if more lenient measures *(gelindere Mittel)* (paragraph 5) would achieve the same result [as pre-trial detention].

(2) A ground for detention is given if, on the basis of certain facts, there is a risk that at liberty the suspect would

1. flee or go into hiding due to the nature and extent of the expected punishment or for other reasons

2. influence witnesses, expert witnesses or co-suspected persons, remove evidence of the offence, or hinder the establishment of the truth in any other way

3. despite the fact that proceedings concerning an offence punishable by imprisonment exceeding six months have been instituted against [the suspect]

d. carry out the attempted or threatened act (Article 74 paragraph 1 (5) of the Austrian Criminal Code) that he or she is suspected of.

(3) Risk of flight shall in any case not be assumed if the suspect is suspected of a criminal offence that is not punishable by imprisonment exceeding five years, is in a stable living environment and has a permanent residence in Austria, unless he or she has already made arrangements to flee. When assessing whether the suspect will commit an offence pursuant to paragraph 2 (3) it shall be of particular weight if the suspect poses a threat to life and limb of a person or if a risk of committing crimes in a criminal organisation or terrorist association emanates from the suspect. Apart from this, the assessment of this ground for detention shall take into consideration to what extent such risk has been reduced by the fact that the circumstances have changed under which the offence that he or she is suspected of has been committed. ...

(5) More lenient measures include, in particular:

1. the pledge to neither flee nor go into hiding nor leave their place of residence without permission from the public prosecution office until the final conclusion of the criminal proceedings

2. the pledge that he or she will not attempt to hinder the investigations

3. in cases of domestic violence (section 38a Security Police Act), the pledge to refrain from any contact with the victim and to comply with the instruction not to enter a specific home or its immediate surroundings or to comply with an existing barring order pursuant to section 38a paragraph 2 of the Security Police Act or an existing temporary restraining order pursuant to section 382b Enforcement Act; including taking away all keys to the home [from the suspect]

5. the instruction to report every change of residence or to report to the police or another authority at certain intervals ..."

44. According to the Austrian Ministry of Justice *(Justizministerium),* pre-trial detention was ordered 8,640 times in 2012. Some 470 cases thereof concerned offences against personal freedom, and 389 concerned offences against life and limb.

B. **International law and practice**

45. The relevant international law has partly been summarised in *Opuz v. Turkey* (no. 33401/02, § 72-90, ECHR 2009).
46. The United Nations Convention on the Elimination of All Forms of Discrimination against Women ("the CEDAW") was adopted in 1979 by the United Nations General Assembly. Austria ratified the CEDAW on 31 March 1982 and the Optional Protocol to that Convention on 6 September 2000.
47. The Council of Europe Convention on Preventing and Combating Violence against Women and Domestic Violence ("the Istanbul Convention") was signed by Austria on 11 May 2011, ratified on 14 November 2013 (hence after the events in question in the instant case) and entered into force on 1 August 2014.

THE LAW

ALLEGED VIOLATION OF ARTICLE 2 OF THE CONVENTION

48. Relying on Articles 2, 3 and 8 of the Convention, the applicant complained that the Austrian authorities had failed to fulfil their positive obligations to protect her and her children from her violent husband. She alleged that the State had failed to protect her son's physical integrity against E.'s lethal attack by not taking E. into pre-trial detention. She had suffered severe psychological problems because of her son's death, which were a direct result of the State providing her family with insufficient protection. Furthermore, the applicant complained that the legislative framework which had been in force in 2012 had not allowed the police to extend barring orders to places outside residential premises, such as the children's school. This was a negligent omission and, as such, a breach of Article 2. In the aftermath of the events, by the amendment made to Article 38a of the Security Police Act, the Austrian state had recognised its failure and nevertheless "evaded" its responsibility in her case.
49. The Court, being master of the characterisation to be given in law to the facts of the case, considers that these complaints essentially cover the same ground and thus finds it appropriate to examine them under the substantive aspect of Article 2 of the Convention (see *Fernandes de Oliveira v. Portugal* [GC], no. 78103/14, § 81, 31 January 2019).
50. The relevant parts of Article 2 of the Convention read as follows:

"1. Everyone's right to life shall be protected by law ..."

A. Admissibility

51. The Government submitted that the complaint concerning the allegedly incomplete legislative framework was inadmissible for non-exhaustion. While it was true that the barring order issued by the police could not, at the relevant time, be extended to the children's school, it had been open to the applicant to request temporary restraining orders under sections 382b and 382e of the Enforcement Act before the competent district court (see paragraphs 37 and 39 above). This was the same district court where she had filed for divorce on the morning of 22 May 2012, even before contacting the police. A temporary restraining order under section 382e of the Act could be issued in relation to any place the court deemed appropriate. The police, based on a legal obligation to do so, had informed the applicant of this possibility on two occasions: following the first barring order against her husband in July 2010 and on 22 May 2012 (see paragraphs 8 and 16 above).
52. The applicant replied that she was aware that district courts were the competent authorities both for divorce proceedings and for temporary restraining orders. However, they had only one dedicated morning per week for applicants who were not represented by lawyers, namely the public court consultation day every Tuesday *(Amtstag).* After the escalation of violence on Saturday 19 May 2012, she had seized the first opportunity to file for divorce on Tuesday, 22 May 2012. On the same day, she had also reported E. to the police and obtained a barring order with respect to the residential premises. The applicant submitted that she had already made an appointment with her counsellor from the Centre for the Protection from Violence for 25 May 2012 in order to make arrangements to

apply for a temporary restraining order at the District Court, but had to wait until the following Tuesday to file such an application, which would have been 29 May 2012. Even if she had applied for a temporary restraining order earlier, that is on the same day she had filed for divorce, the court, in the applicant's view, probably would not have decided on the application within three days, and it was only three days later that her son was killed. In addition, the judge at the court where she had filed for divorce on 22 May 2012 had not informed her that she had that opportunity, despite the allegations she had made about her husband's violent and threatening behaviour.
53. The Court notes that the part of the applicant's complaint that concerns the alleged deficiencies of the legal framework addresses the fact that at the relevant time the police had not had the possibility, under section 38a of the Security Police Act, of extending the barring order beyond the residential premises, in particular to cover the children's school, where the murder was committed. In this context the applicant submitted that on 22 May 2012 she and her children had been in need of immediate protection from further violence by her husband. The Court agrees with the Government that the applicant could have requested a temporary restraining order under section 382e of the Enforcement Act with respect to premises beyond the residences even as early as on 22 May 2012. She was informed of this possibility and had, according to her own submissions, planned an appointment with her counsellor in order to request such a measure. The Court is however not convinced that, even if the applicant had made the request on 22 May 2012, it would have provided her family with immediate protection. It had to be lodged separately with the District Court, and that court had up to four weeks to issue a temporary restraining order. Although it is not impossible, it is also far from certain that the court would have delivered a decision immediately. The Court is not convinced that such an application would have been an effective remedy against the alleged risk in the instant case. It therefore rejects the Government's argument.
54. The Court notes that the complaints under Article 2 of the Convention are not otherwise manifestly ill-founded within the meaning of Article 35 § 3 (a) of the Convention. It further notes that they are not inadmissible on any other grounds. They must therefore be declared admissible.

B. Merits

1. The applicant's arguments

55. The applicant stated that after she had reported E. to the police on 22 May 2012 it should have been obvious to the authorities that a significant risk of new acts of violence by E. existed. She had referred to several risk factors in the course of filing the report, namely his previous criminal convictions for dangerous threatening behaviour and bodily harm, the latter as a result of domestic violence against her; E.'s long history of violence against the applicant and her children; the evidence of the injuries she had sustained during previous attacks; his relapse into gambling in February 2012 and his resulting increased aggression and financial problems; the continuous and very specific threats he had been issuing since March 2012; his non-acceptance of her wish to get a divorce and her resulting fear that he would act upon his threats; his gross trivialisation and denial of the use of violence; and the predictable escalation of the situation because of the divorce proceedings. E.'s sense of ownership over his family had been threatened by the applicant's wish for a separation, which she had manifested by filing for divorce and reporting him to the police. In addition, his own children had testified against him. E. had had nothing to lose, and had taken action.
56. The applicant submitted that the authorities' evaluation of E.'s statements before the police was bewildering. Contradicting the unanimous statements of all three victims, E. told the police that he had not beaten his wife in the three previous years, and had never beaten his children. However, the authorities had E.'s criminal record before them, which showed that he had been convicted on 10 January 2011 for an act of violence committed on 10 July 2010, hence less than two years before the applicant approached the police on 22 May 2012. In addition, there were obvious contradictions in E.'s different statements. In the light of these inconsistencies, seen in conjunction with the choke marks on the applicant's neck, the authorities should not have assumed that the intercourse had been consensual.
57. The applicant emphasised that she had explicitly mentioned in her report to the police that she feared for her children's lives. Nonetheless, they were not mentioned as endangered persons in the police report. The authorities had all the relevant information at hand to make them aware of the increased risk of further criminal offences by E. against his family, but failed to take effective preventive measures. The applicant maintained that E. should have been taken into pre-trial detention, as the legal grounds for such detention had been satisfied (Article 170 § 1 of the Code of Criminal Procedure, see paragraph 38 above), particularly taking into consideration the risk that E. would reoffend or carry out an offence (Article 170 § 1 (4)). In the alternative, as a more lenient measure, it would have been possible under Article 173 § 5 (4) of the Code of Criminal Procedure for the public prosecutor to order E. to stay away from the children's school. This was all the more the case as the police barring order could not be extended to cover such premises. However, neither of these measures was employed. This demonstrated the lack of knowledge by the authorities of the dynamics of violence in cases of intimate partner violence and the profiling of perpetrators. Furthermore, the fact that section 38a of the Security Police Act did not allow the extension of barring orders to childcare facilities, indicated a deficiency in the legislation. The applicant concluded that in the light of the above, the authorities had unlawfully and culpably failed to protect A.'s life, in violation of Article 2 of the Convention.

2. The Government's submissions

58. The Government stated that they understood that the applicant had been under serious pressure from her violent husband, that she herself had been very much intimidated and injured and that she was deeply affected by her son's tragic death. They stressed however that the extent of the State's positive obligations under Article 2 must be construed in such a way that no impossible or unreasonable burden is imposed on them. Hence, not each and every risk obliged the State to take criminal law measures such as pre-trial detention. It had to be "established that the authorities knew or ought to have known at the time of the existence of a real and immediate risk to the life of an identified individual" (see *Osman v. the United Kingdom,* 28 October 1998, § 116, *Reports of Judgments and Decisions* 1998-VIII; *Opuz v. Turkey*, no. 33401/02, §§ 128-30, ECHR 2009; *Talpis v. Italy*, no. 41237/14, § 101, 2 March 2017).
59. The Government argued that in the circumstances of the instant case, the authorities could not have known that the applicant's children's lives were at real and immediate risk after the barring order had been issued and criminal proceedings had been instigated. Prior to the report filed on 22 May 2012, E. had only come to the attention of law-enforcement officials once, namely two years before, in 2010, on account of ill-treatment reported by the applicant. E. had thereafter complied with the barring order which had been issued against him, had undergone medical treatment, and the authorities had been made aware of no further misconduct. Furthermore, the applicant had only reported the alleged rape and choking by E. three days after the events, even though the police could be reached twenty-four hours a day, seven days a week. When law-enforcement officials had interviewed her husband on 22 May 2012 he had presented himself as calm and cooperative. A medical examination of the applicant had been conducted, but no physical evidence of rape had been found. Given that E. had not appeared aggressive or otherwise conspicuous outside the family setting, the authorities

had only had a limited set of facts at their disposal, on the basis of which they had had to assess the potential danger emanating from him. The level of knowledge had not suggested any risk for the children's lives, particularly in a public area, which is why they had not been expressly mentioned in the police report of 22 May 2012 (see paragraph 15 above) as "endangered persons" within the meaning of section 38a of the Security Police Act. Given that the reported episode of violence of 19 May 2012 had been directed only against the applicant, and not in any way against her children, the public prosecutor's office was not obliged to assume that a situation of acute danger existed as provided for in Article 170 § 1 (4) of the Code of Criminal Procedure (see paragraph 41 above). The applicant had not mentioned any further violence occurring between the alleged crime and her reporting the matter to the police three days later.

60. The Government submitted that the investigations carried out during the official liability proceedings had shown that from the information available at the material time it would have been out of the question to arrest the applicant's husband. The grounds for arrest, namely catching the offender in the act, flight risk or suppression of evidence, did not exist (see Article 170 § 1 (1) - (3) of the Code of Criminal Procedure, paragraph 41 above). The ground for arrest contained in Article 170 § 1 (4), namely the risk that an identical offence directed against the same legally protected right would be committed by the alleged perpetrator, or that he or she would carry out the attempted or threatened act of which he or she was suspected, had been ruled out by the public prosecutor after carefully weighing the information available and the conflicting interests involved. The Government considered it justified to confine the measures applied to the issuance of a barring order with immediate effect, combined with the seizure of E.'s keys to the residential property, and to focus on protecting the applicant rather than recognising the children as endangered persons themselves. Restricting E.'s freedom of movement any further than provided for under the barring order would have been inconsistent with Article 5 of the Convention, as it would have been neither necessary nor proportionate. The Government submitted that the positive obligations under Articles 2 and 3 of the Convention to protect victims of violence did not *a priori* include any measures that would obviously be inconsistent with Article 5. As the legal grounds for pre-trial detention had not been made out, an order by the public prosecutor for E. to stay away from the children's school, under Article 173 § 5 (4) of the Code of Criminal Procedure, was also not available. Against this overall backdrop, the Government concluded that the public prosecutor's office could not be blamed for assuming that, despite the barring order, E. did not pose a further risk, in particular with relation to the children. In the light of the circumstances, it appeared sufficient that a barring order - with which E. had complied in the past - was issued in respect of the applicant's and her parents' apartments and their vicinities.

61. Turning to the complaint of the lack of protection of the children at their school, the Government reiterated that the tragic incident at hand was one of the reasons for improving the Security Police Act in order to protect minors under 14 years of age from domestic violence, notably by reinforcing the various methods of violence prevention with respect to children and extending the possibility of issuing barring orders in respect of schools and childcare facilities (see paragraph 35 above). The Government submitted, however, that the legislator should not be blamed for having introduced these improvements in connection with the incident in question. It was in the nature of things that a set of legal provisions which has generally proven effective can also be developed further. Performing evaluations as soon as relevant experience caused them to be identified as necessary should not give rise to criticism. Finally, in the civil proceedings it had, in any event, not been demonstrated that a far-reaching barring order would have been regarded as necessary in the light of the facts that were known to the authorities on 22 May 2012.

3. The Court's assessment

(a) General principles

62. The Court reiterates that Article 2 must be regarded as one of the most fundamental provisions of the Convention and as enshrining one of the core values of the democratic societies making up the Council of Europe (see *Giuliani and Gaggio v. Italy* [GC], no. 24458/02, § 174; *Soering v. the United Kingdom,* 7 July 1989, § 88, Series A no. 161). It requires the State not only to refrain from the "intentional" taking of life, but also to take appropriate steps to safeguard the lives of those within its jurisdiction (see *Fernandes de Oliveira v. Portugal*, cited above, § 104; *Calvelli and Ciglio v. Italy* [GC], no. 32967/96, § 48, ECHR 2002-I).

63. This positive obligation involves, first, a primary duty on the State to secure the right to life by putting in place a legislative and administrative framework designed to provide effective deterrence against threats to the right of life (see, among other authorities, *Oneryildiz v. Turkey,* [GC] no. 48939/99, § 89, ECHR 2004-XII; *Budayeva and Others v. Russia,* nos. 15339/02 and 4 others, § 129, ECHR 2008 (extracts); *Kolyadenko and Others v. Russia,* nos. 17423/05 and 5 others, § 157, 28 February 2012; *Fernandes de Oliveira,* cited above, §§ 103 and 105-107; and *Talpis,* cited above, § 100). Second, in appropriate circumstances there is a positive obligation on the authorities to take preventive operational measures to protect an individual whose life is at risk from the criminal acts of another individual (see *Osman,* cited above, § 115, cited in *Kontrovd v. Slovakia,* no. 7510/04, § 49, 31 May 2007; *Fernandes de Oliveira*, cited above, § 108). Children and other vulnerable individuals in particular are entitled to State protection (see *Talpis*, cited above, § 99).

64. The Court has already held in *Osman* (cited above) that, bearing in mind the difficulties involved in policing modern societies, the unpredictability of human conduct and the operational choices which must be made in terms of priorities and resources, the obligation to take preventive operational measures to protect an individual whose life is at risk from the criminal acts of another individual must be interpreted in a way which does not impose an impossible or disproportionate burden on the authorities. Accordingly, not every claimed risk to life can entail for the authorities a Convention requirement to take operational measures to prevent that risk from materialising (see *Osman,* cited above, § 116; *Opuz,* cited above, § 129; and *Fernandes de Oliveira*, cited above, § 111).

65. For such a positive obligation to arise, it must be established that the authorities knew or ought to have known at the time of the existence of a real and immediate risk to the life of an identified individual from the criminal acts of a third party and that they failed to take measures within the scope of their powers which, judged reasonably, might have been expected to avoid that risk. This is a question which can only be answered in the light of all the circumstances of any particular case (see *Opuz*, cited above, § 130). Another relevant consideration is the need to ensure that the police exercise their powers to control and prevent crime in a manner which fully respects the due process and other guarantees which legitimately place restraints on the scope of their action to investigate crime and bring offenders to justice, including the guarantees contained in Articles 5 and 8 of the Convention (see *Osman*, cited above, § 116; *Opuz*, cited above, § 130; and *Talpis*, cited above, § 101).

(b) Application of these principles to the instant case

66. The Court considers that it needs to establish whether the authorities have complied with their positive obligations under the substantive limb of Article 2 of the Convention.

i. The positive obligation to take preventive operational measures

67. First, the Court will examine the applicant's complaint concerning the state's positive obligation to take preventive operational measures for the protection of her son's life. The Court reiterates that previously, in 2010, the police had issued a barring order against E. with respect to the residential premises, immediately after the applicant had made criminal complaints. E. was criminally convicted only six months after the applicant had reported him to the police, and despite her having made use of her right not to testify. In the following two years the applicant never reported any further incidents to the police. However in 2012, right after the applicant's report of domestic violence, the police again immediately issued a barring order, combined with a seizure of E.'s keys, and another barring order with respect to the applicant's parents' home. The police reported the incident to the public prosecutor right away, and on the same day the latter opened a criminal investigation into the allegations of domestic abuse and rape. Unlike in *Talpis* (cited above, § 117), the Court finds that the authorities reacted immediately to the applicant's reports of domestic violence. While the authorities therefore complied with their duty to act without delay once they had learned of the allegations of violence, it remains for the Court to examine whether their actions in 2012 were also sufficient in the light of their knowledge concerning the risk posed by E.

68. In this context the question to be answered is whether, on the basis of the information available at the time, the authorities could or should have known that E. posed a real and immediate risk to his son's life outside the places in respect of which the barring order had been issued, which could only have been averted by taking him into detention.

69. The Court considers that the facts that gave rise to the instant case must be assessed strictly from the point of view of what was known to the competent authorities at the relevant time, and not with the benefit of hindsight. As stated in *Osman* (cited above, § 116), *Opuz* (cited above, § 129) and *Talpis* (cited above, § 101), the scope of the positive obligation must be interpreted in a way which does not impose an impossible or disproportionate burden on the authorities. The Court is fully conscious of the difficulties encountered by the domestic authorities when deciding, as in the instant case, whether or not to issue a barring order against a suspect or even arrest him or her, on the basis of limited information available, often under time pressure and by nonetheless carefully balancing the rights of the person who poses a threat on the one hand, and the rights of the victim(s) on the other. It is therefore most relevant to recapitulate what was known to the authorities at the time when they decided which measures to take in respect of E., taking into account the competencies accorded to them by the law and a certain discretion offered by this law.

70. The public prosecutor's office had the following information at hand when deciding which measures to take against E.: the applicant's husband had a certain history of violence; two years earlier a barring order had been issued against him; and he had been convicted of causing bodily harm to his wife and uttering dangerous threats towards his brother and his nephew. The sentence had been suspended, but he was still within the three-year probationary period of that conviction, and there was strong evidence that he had committed the very same offences again. In relation to the new allegations of bodily harm, there was physical evidence, namely haematoma on the applicant's neck and scratches on her chin. In addition, there was the accusation of rape, of which, however, no physical evidence was detected. The applicant gave a detailed account of the alleged rape to the police, while E.'s statements contained several contradictions (see paragraphs 18 and 21 above). However, before reporting the alleged rape the applicant had spent three more days in the apartment she shared with him. E.'s alleged violent outbreaks before the killing of his son had been confined to the marital home, from which he had been effectively barred. Moreover, there were no indications that E. had a gun or any other weapon, or that he had tried to get one. When confronted by police officers, E. had remained calm and cooperative, had gone to the police on his own initiative and did not give the appearance of posing an immediate threat to anyone. In addition, he had complied with the barring order in 2010, the authorities had not been made aware of any further violent acts until the incidents in question in May 2012, and there were no indications suggesting an escalation of the situation.

71. Turning to the applicant's argument that there had been contradictions in E.'s different statements to the police (see paragraphs 18 and 21 above), the Court notes that the authorities had in any event found the applicant's statements to be more credible than those of E. That was why the police issued the barring order, combined with a seizure of E.'s keys, and contacted the public prosecutor's office which immediately instituted criminal proceedings against him.

72. The Court reiterates that a risk must be real and immediate in order to trigger a State's positive obligation under Article 2 to take preventive operational measures for life protection. According to the documents on file, what was known to the authorities was that E. had been convicted once for bodily harm against the applicant and for dangerous threatening behaviour towards his brother and his nephew in 2010, and had allegedly started threatening the applicant and her children in March 2012, two months before the events in question, with the same recurring phrases (see paragraph 14 above). These threats, however, were partly ambiguous (for example, on the one hand E. had threatened to kill his children in front of the applicant, on the other he had threatened to take them to Turkey, but he had also threatened to commit suicide) and allegedly were issued on a daily basis over a period of two months without being acted upon. The Court therefore agrees with the authorities that the threats did not indicate an immediate risk for the children's lives outside the residential premises.

73. When it comes to the question of the possession of weapons, the Court notes that unlike in *Kontrova* (cited above, § 53), *Opuz* (cited above, §§ 133 and 141) and *Talpis* (cited above, §§ 34, 46 and 88), there was no indication that the applicant's husband had ever had a gun or any other weapon, or that he would try to obtain one. The applicant never mentioned any weapons in her husband's possession. Therefore the authorities had no reason to believe that there was a specific risk for life emanating from the use of weapons.

74. Hence, after having considered all aspects of the case (unlike the authorities in *Talpis,* cited above, § 118), the public prosecutor decided to start a criminal investigation and decided, after a comprehensive risk assessment, not to take the applicant's husband into detention or to take other measures in addition to the barring order.

75. The Court notes that after the murder, the domestic authorities conducted a comprehensive investigation into the circumstances of A.'s death and the events leading up to it. This was not contested by the applicant. The domestic courts' assessments of the facts in the liability proceedings initiated by the applicant in 2014 were comprehensive, relevant, persuasive and in line with the Court's case-law on the issue. The courts balanced the applicant's rights under Articles 2 and 3 of the Convention on the one hand and E.'s rights under Article 5 on the other. They essentially found that because E. had never been aggressive in public, had never acted upon his threats before, had complied with the terms of a barring order two years earlier, had not been reported for any further incidents for two years and, finally, as the applicant had not contacted the police immediately after the reported incident, it would not have been proportionate to arrest him and take him into pre-trial detention. In addition, no one had known that E. was in possession of a gun or any other weapon or that he had tried to obtain one. In the authorities' view, the public prosecutor had acted lawfully and not culpably, which excluded State liability in the case.

76. The Court agrees with the domestic authorities that on the basis of the above factors, when looked at cumulatively, they were entitled to conclude that the barring order for the applicant's and her parent's homes and vicinities combined with a seizure of E.'s keys, would be sufficient for the protection of the applicant's life, as well as those of A. and B. His violent outbreaks had previously been limited to the vicinity of the home, which a barring order was capable of preventing, especially since he had fully complied with such a measure in 2010. Even though there were indications of a certain escalation of violence because of the pending divorce

proceedings, this did not lead to the conclusion that there was a danger to the children's lives in a public place. In these circumstances, the real and immediate risk of a planned murder by E. obtaining a gun and shooting his son at his school was not detectable (see paragraph 25 above). The Court therefore sees no reason to depart from the domestic authorities' assessment that, considering all circumstances, given that a barring order that prohibited him from returning to the marital home, to the surrounding areas, to the applicant's parents' apartment and to its surrounding areas had been issued on the basis that such an order had been effective two years before, no other incident had been reported in the period from July 2010 until May 2012 and it was not known that E. was in possession of a weapon, there was no discernible real and immediate risk to the children's lives. The Court agrees that they were entitled to conclude that a more serious measure against E. such as pre-trial detention was not warranted under the circumstances known to the authorities.

ii. The positive obligation to put in place a regulatory framework

77. Second, the Court turns to the applicant's complaint that the regulatory framework at the time of the events had been insufficient to protect her son's life. In this context, the Court reiterates that its review of the domestic regulatory framework is not an abstract one, but rather one that assesses the manner in which it affected the applicant in the specific case (see *Fernandes de Oliveira,* cited above, § 116).

78. The applicant complained that the Security Police Act, as worded at the time, had contained a "loophole" as it had not allowed the police to extend the barring order to premises outside the vicinity of the home. In this respect, the Court refers to its reasoning above, that under the circumstances known to the authorities a risk to the applicant's son's life when he was at school was not discernible (see paragraphs 67-76 above). Her argument that the amendment of section 38a of the Security Police Act, adopted after the events in question (see paragraph 35 above), had to be interpreted as a "recognition" of the alleged legal deficiencies and should consequently lead to an award of compensation in her favour, is inconclusive. An improvement made to a legal framework in the aftermath of a crime cannot be interpreted, as such, as recognition of a previous deficiency.

79. The Court finds it worth noting that the applicant herself seemed not to have been aware of the acute danger emanating from her husband in respect of their children following the incident reported on 22 May 2012. She remained in the marital home for three days after that incident before going to the authorities, and there are no indications that she was unable to seek police protection earlier. Furthermore, she knew that she could get a temporary restraining order from the competent district court under section 382b or section 382e of the Enforcement Act, and an order under the latter section could have banned E. from public places beyond the residential premises (see paragraphs 8, 17 and 48 above). The fact that she did not lodge such a request in the aftermath of her husband's violent outbreak indicates that she herself did not see an imminent need for such a measure. In this context the Court also notes that after the issuance of the barring order the applicant told her children that they could see their father whenever they wanted to (see paragraph 23 above). These considerations do not imply any criticism towards the applicant, but show that, although a legai framework for the applicant's and her children's protection existed, full use of it was not made because, tragically, a reai and immediate risk for A.'s life at school was not discernible at that time.

iii. Conclusion

80. In these circumstances, the Court concludes that the competent authorities did not fail to comply with their positive obligations to the life of the applicant's son. The Court therefore finds that there has been no violation of Article 2 of the Convention.

FOR THESE REASONS, THE COURT, UNANIMOUSLY,

1. *Declares* the complaints under Article 2 admissible;

2. *Holds* that there has been no violation of Article 2 of the Convention.

CONCURRING OPINION OF JUDGE HUSEYNOV

1. I agree that in the particular circumstances of this case it would be difficult to conclude that there was a violation of Article 2 of the Convention and that the Austrian authorities failed to comply with their positive obligation to protect the applicant's son. What has nonetheless prompted me to write a separate opinion is that in its judgment the Court has robustly applied the so-called *Osman* test to a domestic violence case. Having done so, the Court has overlooked the peculiarity of domestic violence as a distinctive social phenomenon.

2. The *Osman* test as developed by the Court in the case of *Osman v. the United Kingdom* (28 October 1998, § 116, *Reports of Judgments and Decisions* 1998-VIII), implies that the right to life is violated if the authorities knew or ought to have known at the time of the existence of a real and immediate risk to an identified individual or individuals from the criminal acts of a third party, and they failed to take measures within the scope of their powers which, judged reasonably, might have been expected to avoid that risk.

3. Since then the Court has invariably employed the *Osman* test when deciding on whether the respondent State has complied with its positive obligation to protect an individual whose life is at risk from the criminal acts of another individuai However, in my view, the relevance of this test is questionable in the particular context of domestic violence, that is to say, in cases where domestic violence has fatal results.

4. It is widely recognised that domestic violence often constitutes not just an isolated incident, but rather a continuous practice of intimidation and abuse. Therefore the State authorities should react, with due diligence, to each and every act of domestic violence and take all necessary measures to make sure that such acts do not lead to more serious consequences. It follows that the duty to prevent and protect comes into play when the risk to life is present, even if it is not imminent. In other words, in a domestic violence case, the positive obligation to protect life can be violated even where the risk to life is not immediate. I fully share the view of my learned colleague Judge Pinto De Albuquerque expressed several years ago in his concurring opinion in the case of *Valiuliene v. Lithuania* (see *Valiuliene v. Lithuania,* no. 33234/07, 26 March 2013) that "[r]ealistically speaking, at the stage of an "immediate risk" to the victim it is often too late for the State to intervene. In addition, the recurrence and escalation inherent in most cases of domestic violence makes it somehow artificial, even deleterious, to require an immediacy of the risk". I am of the opinion that seeking to prove the immediacy of the risk to life in domestic violence cases in order to establish a violation of Article 2 would not be consonant with the scope of the due-diligence obligations of States in the field of preventing and combating domestic violence, particularly in the light of the Council of Europe's Convention on Preventing and Combating Violence against Women and Domestic Violence (the Istanbul Convention).

5.The recent *Talpis* judgment *(Talpis v. Italy,* no. 41237/14, 2 March 2017) gave hope that the Court was ready to deviate from an incident-based understanding of domestic violence and reconsider the application of the *Osman* test to the particular situation of domestic violence, or at least to interpret the concept of immediate risk flexibly. I believe that in the present judgment the Court could have followed the emerging positive trend, even without finding a violation of Article 2.

CONSEIL DE (.'EUROPE

In the case of Fisica v. the Republic of Moldova,

The European Court of Human Rights (Second Section), sitting as a Chamber composed of:

Robert Spano, *President,*
Marko Bosnjak,
Julia Laffranque,
Valeriu Cinico.
Ivana Jelic,
Arnfinn Bàrdsen,
Saadet Yuksel, *judges,*

and Stanley Naismith, *Section Registrar,*

Having deliberated in private on 8 October 2019,

Delivers the following judgment, which was adopted on that date:

PROCEDURE

1. The case originated in an application (no. 23641/17) against the Republic of Moldova lodged with the Court under Article 34 of the Convention for the Protection of Human Rights and Fundamental Freedoms ("the Convention") by a Moldovan national, Ms Nelea Pisica ("the applicant", who subsequently changed her name to Mrs Nelea Gamart), on 16 March 2017.

2. The applicant was represented by Ms D. Straisteanu, a lawyer practising in Chisinau. The Moldovan Government ("the Government") were represented by their Agent, Mr O. Rotari.

3. The applicant alleged in particular that by failing to take effective measures so as to ensure her access to her children, the authorities had breached her right to protection of her family life.

4. On 5 May 2017 notice of the application was given to the Government.

THE FACTS

I. THE CIRCUMSTANCES OF THE CASE

5. The applicant was born in 1981 and lives in Ialoveni.

6. The facts of the case, as submitted by the parties, may be summarised as follows.

A. The applicant's divorce and custody of the children

7. On 7 September 2002 the applicant married P. While they were married they had a son, who was born on 14 July 2003.

8. On 6 March 2006 the applicant obtained a divorce. She also obtained custody of her son.

9. The applicant remained in the family house, and after a while she again started cohabiting with her former husband and subsequently gave birth to two more sons (twins) on 5 August 2007. P. acknowledged that he was the father of the two boys.

10. According to the applicant, in 2012 P. started being aggressive towards her. On 26 December 2012 she left the family home with her three children and claimed financial maintenance from P.

11. On 29 July 2013 P. came to the house where the applicant lived and forcibly put the two younger children in his car, driving them to his house without the applicant's permission.

12. Shortly thereafter the applicant lodged a court action, requesting custody of the two younger children. On 31 July 2013 she asked the Ialoveni District Court to examine the case urgently, stating that she was certain that P. was manipulating the children and using various means to turn them against her. She submitted that since their abduction she had not been able to speak to them, and asked the court to order P. not to keep the children away from her. On 31 July 2013 she also complained about the incident of 29 July 2013 to the local police, who allegedly failed to respond.

13. On 19 August 2013 the applicant complained to the Ialoveni Department for Social Assistance and Family Protection ("the DSAFP"). She mentioned that since the children had been taken away from her she had been able to talk to them only sporadically, always in P.'s presence, and for short periods of time. During those meetings P. had been aggressive towards her, had in an authoritarian manner prohibited her from asking certain questions which he perceived as being detrimental to his position, and had prohibited the children from speaking about certain things. She was convinced that P. was manipulating the children and turning them against her.

14. On 3 September 2013 P. returned the children to the applicant. On 4 September 2013, following requests by both parents, the DSAFP recommended a schedule, according to which all three children would stay with their father every second weekend and the rest of the time would stay with their mother.

15. According to the applicant, P. continued to follow and insult her, threatening her with violence. She asked for a protection order and on 10 September 2013 the Ialoveni District Court ordered him not to approach the applicant or the three children for three months. That order was not enforced, and the children remained at P.'s house until an unknown date.

16. On 10 December 2013 P. allegedly went to the applicant's house and forcibly took the two younger children to his own house without her permission. On an unknown date the children were returned to the applicant.

17. On 20 December 2013 the applicant sought and obtained a three- month extension of the protection order of 10 September 2013.

18. On 13 January 2014 the applicant made a complaint to the Ialoveni prosecutor's office, stating that on 26 December 2013 P. had gone to the kindergarten which the two younger children attended and had taken them, despite her protests, promising to bring them back on 1 January 2014. He had done this in spite of the protection order of 20 December 2013. She added that on 10 January 2014 P. had met the children in the street and tried to convince them to go with him, telling them nasty things about the applicant. She insisted that the protection order be enforced.

19. At the Ialoveni District Court's request, on 30 January 2014 the DSAFP issued a conclusion regarding who should have custody of the two younger children. The DSAPF noted that both parents were able and willing to bring up their children. The children loved both parents equally and wanted to be close to both of them.

20. On an unspecified date in April 2014 P. took his older son to his house and refused to return him to the applicant. She complained to the police about that on 19 April 2014.

21. On 8 May 2014 the applicant complained to the police that P. had taken the older child to his house and had prevented her from having contact with him. She stated that subsequently the child had missed several days of school. She had been to see him on a day when he had had exams and had managed to talk to him for about twenty minutes. He had told her that his father took him out with him in his car all day long instead of taking him to school. She had also found out that P. was trying to turn her son against her.

22. On an unspecified date in June 2014 P. took one of the younger children to his house and refused to return him to the applicant. In August 2014 P. asked the applicant to allow the third son to spend the holidays with his brothers, promising that after that all three children would be returned to her house. However, after allowing this, the applicant was unable to see the children.

23. On 13 July 2014 the applicant complained to the local police that her older son was being held by P. without her permission, despite her having custody of the child (see paragraph 8 above). She added that her son was being manipulated by P., and that P. was convincing him that she was a bad mother and that he did not want to live with her.

24. On 14 July 2014 the applicant asked the Ialoveni District Court to issue a protection order in respect of her and the children. She stated, *inter alia,* that P. had acted aggressively towards her, threatening to take the children away, which he had ultimately done. She considered that P.'s actions had negative consequences on the children's psychological well- being.

25. On 15 July 2014 the applicant asked the Ialoveni District Court to accelerate the examination of the case concerning custody of the two younger children, given that it concerned a sensitive issue and P. had caused several unnecessary delays. That request was rejected on 16 July 2014, the court finding that the delays were related to the fact that several judges had withdrawn from the case, and that there was no reason to find that the proceedings had been excessively long.

26. On 15 July 2014 the applicant also complained to the DSAFP that she was unable to see her sons, and that when she called her older son he would talk to her in a way which suggested that there was someone next to him indicating how he should reply. She made a similar complaint to the Human Rights Centre on 16 July 2014, stating that in the previous four months she had lodged many complaints concerning P.'s abusive actions and the breach of her parental rights with various authorities.

27. On 16 July 2014 the Ialoveni District Court rejected the applicant's application for a protection order (see paragraph 24 above). It appears that in the course of 2014 all the judges of the Ialoveni District Court withdrew from the case because they had previously issued protection orders or been otherwise involved in the proceedings. On 26 August 2014 the case was thus transferred to the Hîncesti District Court.

28. On 19 November 2014 the DSAFP issued another conclusion, for the Hîncesti District Court, reiterating its previous findings, but adding that the children's psychological state was being seriously affected. Although they had had a positive attitude towards both parents earlier, they had radically changed their views after living with their father. The DSAFP recommended that a report concerning the children's psychological state be produced, and that they be separated from both parents for a period of one month and placed in a placement centre, in order to receive psychological assistance in the absence of influence by either parent.

29. On 3 December 2014 a psychological report concerning the children was produced. The relevant expert concluded: that the children were being involved in the conflict between the parents; that their initially positive attitude towards both parents had clearly become negative as regards the applicant, as a result of P.'s influence; that depriving the children of contact with their mother was a form of emotional abuse; and that any meeting with their mother would constitute a traumatising event for the children while they continued to live with their father.

30. On 19 January 2015 the DSAFP issued another conclusion, largely reiterating its previous findings. On 6 February 2015 the Hancesti District Court rejected as unfounded the request made by the DSAFP in its conclusion of 19 November 2014 for the children to be temporarily placed in a placement centre.

31. On 6 February 2015 the Hancesti District Court awarded P. custody of the two younger children.

32. On 24 June 2015 the Chisinàu Court of Appeal reversed that judgment, awarding the applicant custody of the two younger children.

33. On 5 August 2015 the applicant complained to the police that P. was continuing to refuse to allow her to have contact with her sons, despite the court judgment of 24 June 2015. She mentioned that P. had insulted her and had told her that while the children were with him they would not be willing to see her. She asked the police to take urgent measures to remove the children from P.'s family and allow specialists in psychology to do their work in assisting the children. She reiterated her complaint to the police on 18 September 2015, also requesting that the children be placed in a placement centre as a matter of urgency, and that P. have no access to them while they were receiving psychological assistance.

34. On 10 November 2015 the applicant complained to the Prosecutor General's Office, stating that P. had managed to influence their children to the extent that they hated her. They suffered from parental alienation syndrome and the authorities had failed to prevent that, despite her many complaints concerning P.'s actions. She asked for the children to be removed from P.'s family as a matter of urgency and placed in a placement centre in order to receive psychological assistance. She also asked for criminal proceedings to be initiated against P. The parties did not inform the Court of any reaction to this complaint.

35. On 11 November 2015 the Supreme Court of Justice rejected an appeal by P. That judgment was final.

B. Enforcement proceedings

36. On 19 January 2016 the applicant submitted a writ of enforcement in respect of the judgment of 24 June 2015 to a bailiff. On the same day the bailiff invited P. to comply with the final judgment by handing over the children. P. did not comply.

37. On 9 February 2016, after the expiry of the time-limit for voluntarily complying with the final judgment, the bailiff went to P.'s house, accompanied by the local social welfare office, a psychologist and the applicant. P. allowed them in, but the children refused to leave, stating that they wanted to stay with their father.

38. The applicant continued to complain to various authorities regarding the failure to reunite her with her children, P.'s influence on them, and how he had turned them against her. She also asked for the children to be temporarily removed from P.'s family and placed in a placement centre, where they would be protected from the influence of both parents.

39. On 29 February 2016 the prosecutor's office initiated a criminal investigation against P. after the applicant complained of domestic violence in the form of his emotional abuse of the children. At the same time, the prosecutor annulled nine previous decisions refusing to initiate criminal proceedings against P., as well as a decision rejecting a complaint by the applicant's lawyer. The case was subsequently sent to court on 17 January 2017, and was ongoing when the latest observations by the parties were received in 2018.

40. On 22 March 2016 the bailiff asked the Chisinau Court of Appeal to give an explanation for the judgment in the applicant's favour. On 11 May 2016 the court rejected that request, since the judgment was clear. In the meantime, on 30 March 2016 the bailiff had asked for a court order allowing forced entry into P.'s house. The court rejected that request on 18 January 2017, finding that the bailiff had unrestricted access to P.'s house.

41. On 15 December 2016 the Ialoveni prosecutor's office obtained a new court protection order in favour of the applicant, obliging P.

to stay away from her and the three children for three months. The court largely relied on the findings in the report of 3 December 2014 (see paragraph 29 above), and found that the children were being subjected to emotional abuse which could lead to the development of parental alienation syndrome.
42. On 16 December 2016 the applicant and her brother went to the school which all three children attended, accompanied by two police officers. Since the decision of 15 December 2016 prohibited P. from approaching the children, the applicant hoped to be able to take them home. However, according to her account of the events, the school administration and the local authorities took measures to prevent this action, notably by calling P.'s relatives and allowing them to enter the room where the children were and influence them, while they also insulted the applicant. Subsequently, the deputy mayor of the village where the children lived (who was acting as a guardian local authority) ordered that the three children be placed with their grandparents (P.'s parents) on an emergency basis for a period of seventy-two hours. He subsequently extended the order for the children's placement with their grandparents for a period of up to forty-five days.
43. On 19 December 2016 another attempt to enforce the judgment failed, owing to the children being opposed to living with their mother.
44. On 27 January and 3 February 2017 the local police and the mayor's office asked the applicant to show more interest in the children's psychological state. In particular, while acknowledging that she was unable to establish contact with them, the applicant was blamed for refusing any form of cooperation, which prevented the mayor's office from adopting any relevant decision. At the same time, P. was not allowed to approach the children and she was the only legal guardian. She was urged to "assume her share of the responsibility", as the only person able to offer the children protection at that time.
45. On 6 February 2017 a psychologist issued a conclusion concerning the state of mind of the children, who were at that time with P.'s parents owing to a protection order preventing him from contacting his children. She found that all three children had been seriously affected by the separation from their father as a result of the protection order, and that any action aimed at rebuilding their relationship with their mother would be premature, as the children were displaying clear signs of resistance against their mother, who was associated with the "loss" of their father.
46. In the weeks that followed, the reconciliation procedure between the applicant and P. continued, with the involvement of a number of officials. Three meetings between various authorities took place on 7, 14 and 17 February 2017, aimed at identifying solutions for enforcing the judgment of 24 June 2015.
47. On 6 and 13 June 2017 P. complained to the DSAFP that the applicant was not interested in rebuilding her relationship with the children, stating that she had only come to their school once every two months, for thirty minutes each time.
48. On 7 June 2017 there was a new attempt to enforce the final court judgment. P. prepared the children's belongings and the applicant was ready to take them to her house. Together with a number of officials, the applicant was able to enter P.'s home and talk with the children. However, they refused to come with her, despite being encouraged by P. to do so.
49. On 9 and 23 June, as well as on 18 and 28 September 2017 the local welfare authorities met in a working group in order to identify ways of restoring the relationship between the applicant and her children.

C. New proceedings concerning custody of the children

50. On 21 March 2018 P. lodged a court action, asking for custody of the children. On 5 July 2018 the Ialoveni District Court allowed that application in part, transferring custody of the two younger children to P., but rejecting the application in respect of the older child.
51. On 5 December 2018 the Chisinàu Court of Appeal upheld the lower court's judgment. It found, *inter alia,* that both younger children, who were eleven by that time, had clearly expressed their wish to live with their father and not their mother. Moreover, the local welfare authority had concluded that the change of custody would be in the best interests of the children, who had strong ties to their father and would suffer from a change in their place of residence.

II. RELEVANT DOMESTIC LAW

52. The relevant provisions of the Code of Civil Procedure read as follows:

Article 394. The legai force of a decision by an appellate court

"The decision of an appellate court shall be final *(definitiva)* from the moment it is adopted, and shall be enforced in accordance with the present Code and other laws."

Article 435. The suspensive effect of an appeal on points of law *(recurs)*

"(1) An appeal on points of law shall suspend the enforcement of a judgment in a case concerning moving boundaries, the destruction of plants and seeds, the demolition of buildings or any other immovable items, and in other cases provided for by law. ...

(8) In non-pecuniary cases, the enforcement of a judgment may be suspended following the reasoned request of an appellant."

THE LAW

I. ALLEGED VIOLATION OF ARTICLE 8 OF THE CONVENTION

53. The applicant complained that the authorities had not fulfilled their positive obligations under Article 8 of the Convention, which reads as follows:

"1. Everyone has the right to respect for his private and family life, his home and his correspondence.

2. There shall be no interference by a public authority with the exercise of this right except such as is in accordance with the law and is necessary in a democratic society in the interests of national security, public safety or the economic well-being of the country, for the prevention of disorder or crime, for the protection of health or morals, or for the protection of the rights and freedoms of others."

54. The Government contested that argument.

A. Admissibility

55. The Court notes that the application is not manifestly ill-founded within the meaning of Article 35 § 3 (a) of the Convention. It further notes that it is not inadmissible on any other grounds. It must therefore be declared admissible.

B. Merits

1. The parties' submissions

(a) The applicant

56. The applicant submitted that since her first complaints in July 2013 the authorities had been well aware of the increasingly serious situation in which she and her children found themselves. In particular, it had been clear that P. had emotionally abused the children and turned them against her, yet no action had been taken against him.

57. She had never given up trying to get her children back, but all her attempts to do so had been met by P.'s hostility and the authorities' indifference. On the one occasion on 16 December 2017 when she had come close to convincing her children to come home with her, the local authorities and the school administration, in cooperation with P.'s relatives, had done everything they could to prevent her being reunited with the children. The applicant's requests for the children to receive psychological assistance away from the influence of both parents had been rejected as inappropriate. Instead, she had been blamed for not being sufficiently interested in rebuilding her relationship with her children, which was not true.

58. The applicant also argued that the failure to enforce the final judgment giving her custody of the children had been in breach of Article 8.

(b) The Government

59. The Government argued that the applicant had failed to submit to the bailiff the writ of enforcement in respect of the judgment of 6 March 2006 within the three-year limitation period established by law. She had not asked the court to extend the period of enforcement. Accordingly, her complaint that there had been a failure to enforce that judgment (which had awarded her custody of her older son, see paragraph 8 above) was manifestly ill-founded.

60. As for the judgment of 24 June 2015, the authorities had taken all reasonable action to ensure its enforcement. The Government argued that the period of delay between 24 June 2015 and 19 January 2016, when the writ of enforcement had been submitted to the bailiff, was not attributable to the authorities, since the judgment of 24 June 2015 had not yet become final. They relied on the Court's case-law to emphasise that the authorities' obligation to facilitate a parent's reunion with his or her children was not absolute. When a child had been living separately from a parent for some time, reunification could require preparatory measures, which could include only limited recourse to coercion, and should always be guided by the child's best interests. The failure to enforce the judgment of 24 June 2015 had mostly been due to the children's refusal to live with the applicant, as was clear from various psychological reports, but had also been due to the applicant's own conduct - her not being sufficiently actively involved in the process of rebuilding her relationship with the children.

61. Moreover, the applicant's access to her children had not been obstructed by P., who had actually encouraged the children to go with her. The authorities had undertaken all reasonable efforts to enforce the judgment on 9 February and 19 December 2016 and 7 June 2017, and to reconcile P. and the applicant on 10, 17 and 22 February 2017. A number of specialised authorities had been involved in 2017, such as the DSAFP, the Psychoeducational Assistance Service of the Ialoveni General Department of Education, the administration of the children's school, teachers, and a psychologist. In addition to the above-mentioned authorities, working groups involving the Ministry of Labour, Social Protection and Family, the Ministry of Justice, the Ombudsman and the National Union of Bailiffs had also been involved. However, the children's strong opposition to living with their mother and the serious animosity between the former spouses had interrupted the process.

62. Lastly, the Government argued that the authorities had not condoned P.'s alleged emotional abuse of the children, since on 29 February 2016 the prosecutor's office had started a criminal investigation into that allegation. Moreover, at the prosecutor's request, a protection order had been issued on 15 December 2016 and the applicant had not objected to any of those actions. Accordingly, the Government considered that they had taken all reasonable measures aimed at reuniting the applicant with her children. An absolute obligation to restore effective ties between the applicant and her children could not be imposed on them.

2. The Court's assessment

(a) General principles

63. The Court reiterates that although the primary object of Article 8 is to protect the individual against arbitrary action by public authorities, there are, in addition, positive obligations inherent in effective "respect" for family life (see, amongst other authorities, *Glaser v. the United Kingdom,* no. 32346/96, § 63). The Court has repeatedly held that in cases concerning parental contact rights, the State has in principle an obligation to take measures with a view to reuniting parents with their children, and an obligation to facilitate such reunions, in so far as the interests of the child dictate that everything must be done to preserve personal relations (see, among other authorities, *Hokkanen v. Finland,* no. 19823/92, § 55, 23 September 1994, *Ignaccolo-Zenide v. Romania,* no. 31679/96, § 94, ECHR 2000-I, and *A.V. v. Slovenia,* no. 878/13, § 73, 9 April 2019).

64. However, the national authorities' obligation to take measures to facilitate a reunion is not absolute, since a reunion between a parent and a child who has lived with other persons for some time may not be able to take place immediately, and may require preparatory measures (ibid., § 58; see also *Ribic v. Croatia,* no. 27148/12, § 94, 2 April 2015, and *A.V. v. Slovenia*, cited above, § 74). What is therefore decisive is whether the domestic authorities have taken all necessary steps to facilitate contact that can reasonably be demanded in the special circumstances of each case (see, *mutatis mutandis, Kuppinger v. Germany,* no. 62198/11, § 101, 15 January 2015, and *A.V. v. Slovenia*, cited above, § 74).

65. There is currently a broad consensus in support of the idea that in all decisions concerning children, their best interests must be paramount (see *Neulinger and Shuruk v. Switzerland* [GC], no. 41615/07, § 135, 6 July 2010, *X. v. Latvia* [GC], no. 27853/09, § 96, ECHR 2013 and *Strand Lobben and Others v. Norway* [GC], no. 37283/13, § 179, 10 September 2019). The child's best interests may, depending on their nature and seriousness, override those of the parents. In particular, a parent cannot be entitled under Article 8 to have such measures taken as would harm the child's health and development (see, for instance, *V.D. and Others v. Russia,* no. 72931/10, § 114, 9 April 2019). However, while the Court's case-law requires children's views to be taken into account, those views are not necessarily immutable, and children's objections, which must be given due weight, are not necessarily sufficient to override the parents' interests, especially their interests in having regular contact with their child (see *K.B. and Others v. Croatia,* no. 36216/13, § 143, 14 March 2017). In particular, children having the right to express their own views should not be interpreted as effectively giving them an unconditional veto power without any other factors being considered and an examination being carried out to determine their best interests *(A.V. v. Slovenia,* cited above, § 72).

66. In cases concerning a person's relationship with his or her child, there is a duty to exercise exceptional diligence, in view of the

risk that the passage of time may result in a *de facto* determination of the matter (see, for example, *Ignaccolo-Zenide*, cited above, § 102; *Sufi v. Germany,* no. 40324/98, § 100, 10 November 2005; *Stromblad v. Sweden,* no. 3684/07, § 80, 5 April 2012; and *Ribic,* cited above, § 92).

(b) Application of these principles to the present case

67. The Court notes that the applicant raised two complaints under Article 8. She referred to the failure to enforce the judgment of 24 June 2015 giving her custody of the two younger children; she also complained that the authorities had failed to take action in line with their positive obligation under Article 8 to prevent the emotional abuse of the children as a result of their alienation from their mother. It considers that these are two aspects of what is essentially the same issue, namely whether the authorities complied with their positive obligations under Article 8 in the present case.

68. In deciding whether the authorities complied with their positive obligations under Article 8, the Court will take into account all relevant elements, such as the manner of enforcing the judgment of 24 June 2015, as well as the authorities' actions throughout the proceedings, not only during the enforcement phase.

69. In respect of the period leading to the adoption of the judgment awarding the applicant custody of the children, it is noted that between July 2013 and November 2015 she complained to the authorities nine times regarding P.'s actions, actions which she believed aimed to alienate the children from her by manipulating them and turning them against her (see paragraphs 12, 13, 18, 21, 23, 24, 26, 33 and 34 above). Her complaints took various forms. The authorities were therefore well aware of the allegations made by the applicant. As a result of the applicant's many complaints (see paragraphs 13, 20, 23 and 26 above), the authorities were also aware that - against their mother's wishes - the children were staying with their father, who thus had ample opportunity to influence them, unlike the applicant. It is also worth noting that after an initial psychological examination of the children in early 2014 had shown that they loved both parents equally, by November 2014 their attitude had clearly changed, and they were rejecting their mother (see paragraphs 19 and 28 above). In view of the complaints made by the applicant and the psychological reports confirming the veracity of her claims, the authorities could not be unaware that P.'s actions were seriously threatening future relations between the applicant and her children.

70. The Court notes that after the first psychological evaluation of the children in January 2014 (see paragraph 19 above) there was no psychological follow-up for almost ten months, despite the applicant complaining on numerous occasions that P.'s manipulation of the children was aimed at turning them against her. When a new evaluation in November 2014 revealed that the children resented their mother (see paragraph 28 above), the DSAFP recommended, *inter alia,* that the children be temporarily separated from both parents in order to receive psychological assistance away from the parents' influence. That recommendation was never followed, despite another report finding, in December 2014, that the children's alienation from their mother as

a result of P.'s actions constituted emotional abuse (see paragraph 29 above).

71. In the absence of any measure aimed at protecting the children from the ongoing emotional abuse, the applicant used the means at her disposal, namely complaints to the authorities and requests for protection orders barring P. from contacting the children. Although such a protection order was issued, P. was able to continue acting with impunity, notably by contacting the children and taking them to his home (see paragraphs 17 and 18 above). In this regard, the Court notes that when in 2016 a prosecutor finally initiated a criminal investigation against P., he annulled nine previous decisions refusing to do just that (see paragraph 39 above).

72. It should also be noted that the contact schedule recommended by the DSAFP which made provision for the children to alternate their stay with both parents (see paragraph 14 above) was not respected by P., who retained the children at his house.

73. It is against this background of increasing alienation of the two children from the applicant that from July 2013 she asked the court to decide the custody case in a swift manner. Despite this request and her many complaints about P.'s actions, the first-instance court took a year and a half to decide (see paragraphs 12 and 31 above). This added to the overall period during which the applicant did not have meaningful contacts with her two children, while P. continued to be able to alienate the children from her (see paragraphs 12, 13, 18, 21, 23, 24, 26, 33 and 34 above). This delay in deciding the case is contrary to the principle of exceptional diligence referred to in paragraph 66 above.

74. As for the enforcement of the judgment itself, the Court notes that the authorities did not remain totally passive, and took a number of relevant measures. In particular, as soon as the applicant submitted the writ of enforcement to the bailiff on 19 January 2016, the bailiff set a date by which P. should voluntarily comply with the judgment (see paragraph 36 above). After P. failed to comply, the bailiff - accompanied by a psychologist, other specialised authorities and the applicant - went to P.'s house on 9 February 2016 and tried to enforce the judgment, but this was frustrated by the children's strong opposition to leaving P.'s house (see paragraph 37 above). Thereafter, on 29 February 2016 a criminal investigation into the applicant's complaint that P. had emotionally abused the children was initiated.

75. However, after the first attempt to enforce the judgment on 9 February 2016, the authorities were apparently inactive, apart from the bailiff needlessly, as determined by the Court of Appeal, asking that court to interpret the judgment and allow forced entry into P.'s house (see paragraph 40 above). The next measure was not taken until 15 December 2016, when a court issued a protection order barring P. from contacting the children.

76. On 16 December 2016 there was a second attempt to persuade the children to go with their mother, at their school. Owing to its lack of direct contact with all those involved, the Court is not in a position to judge the effect of the various actions by the authorities involved, such as P.'s parents being allowed to come and influence the children, as alleged by the applicant (see paragraph 42 above). However, it appears that no domestic authority analysed the situation on that day in order to determine whether the failure to reunite the applicant with her children was due at least in part to the actions of those involved and not just to the children's refusal to cooperate.

77. Thereafter, there were two more attempts to transfer the children to the applicant, but on each occasion the children refused to go with her (see paragraphs 43 and 48 above).

78. The Court accepts that the children's refusal to stay with their mother caused a difficult situation necessitating a variety of complex measures in preparation for their reunification with the applicant. The implementation of such measures would have certainly needed time. However, unlike the serious attempts to find a solution in 2017 (see paragraphs 46 and 49 above), there is no evidence of such activity in 2016, and the Government have given no explanation for the apparent inactivity in 2016.

79. The Court considers that the alienation of the applicant's children, of which the applicant complained much earlier than any judgment concerning their custody was adopted, was a major factor impeding the enforcement of the judgment of 24 June 2015. Therefore, the authorities' failure to react to the applicant's complaints about alienation and to examine the custody case in an urgent matter must be seen as having substantially contributed to the eventual difficulties in enforcing the judgment mentioned above. Moreover, the authorities made only two attempts to enforce the judgment in the first year of the enforcement proceedings (2016). More importantly, in 2016 they did no preparatory psychological work with the children or their parents to facilitate the enforcement,

despite there being clear signs that the children had been psychologically alienated from their mother (see paragraphs 28-30 above) and that complex preparations for the enforcement were therefore necessary (see, for instance, *Mijuskovic v. Montenegro,* no. 49337/07, § 89, 21 September 2010).
80. In the light of the above considerations, the Court finds that, in the present case, the domestic authorities did not act with the exceptional diligence required of them (see paragraphs 66 and 73) or discharge their positive obligations under Article 8 of the Convention. There has therefore been a violation of Article 8 of the Convention in the present case.
81. The Court notes that no separate complaints and arguments were made in the present case concerning the new custody proceedings and the resulting decisions to award custody of the children to their father. Therefore, the failure to enforce the judgments in the applicant's favour mentioned above concerns the period prior to the adoption of the judgment of 5 July 2018 (see paragraph 50 above).

II. APPLICATION OF ARTICLE 41 OF THE CONVENTION

82. Article 41 of the Convention provides:

> "If the Court finds that there has been a violation of the Convention or the Protocols thereto, and if the internal law of the High Contracting Party concerned allows only partial reparation to be made, the Court shall, if necessary, afford just satisfaction to the injured party."

A. Non-pecuniary damage

83. The applicant claimed 50,000 euros (EUR) in respect of non- pecuniary damage.
84. The Government argued that the sum claimed was unsubstantiated, excessive and inconsistent with the Court's case-law in similar cases.
85. The Court considers that the authorities' lack of reaction to the applicant's many complaints caused her great suffering. The courts eventually decided to transfer custody of the younger children from her to the father, a decision which confirms that the applicant suffered one of the most serious interferences with her family life. Accordingly, the Court awards the applicant EUR 12,000 in respect of non-pecuniary damage.

B. Costs and expenses

86. The applicant also claimed 43,896 Moldovan lei (MDL - approximately EUR 2,163) for legal costs. She submitted evidence that she had paid her lawyer MDL 21,287 for her representation before the domestic courts, and relied on detailed lists indicating the hours which her lawyer had spent on her representation before the Court.
87. The Government argued that the sum claim was both unsubstantiated and excessive.
88. The Court reiterates that in order for an award for costs and expenses to be made under Article 41 of the Convention, it must be established that they were actually and necessarily incurred and were reasonable as to quantum (see, for instance, *Matasaru v. the Republic of Moldova,* nos. 69714/16 and 71685/16, § 44, 15 January 2019).
89. In the present case, regard being had to the documents in its possession, the Court considers it reasonable to award the applicant EUR 2,000 for costs and expenses.

C. Default interest

90. The Court considers it appropriate that the default interest rate should be based on the marginal lending rate of the European Central Bank, to which should be added three percentage points.

FOR THESE REASONS, THE COURT, UNANIMOUSLY,

1. *Declares* the application admissible;

2. *Holds* that there has been a violation of Article 8 of the Convention as a result of the State's failure to fully discharge its positive obligations under that provision;

3. *Holds*
   (a) that the respondent State is to pay the applicant, within three months from the date on which the judgment becomes final in accordance with Article 44 § 2 of the Convention, the following amounts, to be converted into Moldovan lei at the rate applicable at the date of settlement:
   (i) EUR 12,000 (twelve thousand euros), plus any tax that may be chargeable, in respect of non-pecuniary damage;

   (ii) EUR 2,000 (two thousand euros), plus any tax that may be chargeable to the applicant, in respect of costs and expenses;

   (b) that from the expiry of the above-mentioned three months until settlement simple interest shall be payable on the above amounts at a rate equal to the marginal lending rate of the European Central Bank during the default period plus three percentage points;

4. *Dismisses* the remainder of the applicant's claim for just satisfaction.

Done in English, and notified in writing on 29 October 2019, pursuant to Rule 77 §§ 2 and 3 of the Rules of Court.

THIRD SECTION

CASE OF BARSOVA v. RUSSIA

(Application no. 20289/10)

JUDGMENT

STRASBOURG

22 October 2019

This judgment is final but it may be subject to editorial revision.

COUNCIL OF EUROPE

CONSEIL DE (.'EUROPE

In the case of Barsova v. Russia,

The European Court of Human Rights (Third Section), sitting as a Committee composed of:

Alena Polàckovà, *President,*

Dmitry Dedov,

Gilberto Felici, *judges,*

and Stephen Phillips, *Section Registrar,*

Having deliberated in private on 1 October 2019,

Delivers the following judgment, which was adopted on that date:

PROCEDURE

1. The case originated in an application (no. 20289/10) against the Russian Federation lodged with the Court under Article 34 of the Convention for the Protection of Human Rights and Fundamental Freedoms ("the Convention") by a Russian national, Ms Diana Mikhaylovna Barsova (formerly Udalova) ("the applicant"), on 31 March 2010.

2. The applicant was represented before the Court by Mr Ilya Sivoldayev, a lawyer practising in Voronezh. The Russian Government ("the Government") were represented initially by Mr G. Matyushkin, the Representative of the Russian Federation to the European Court of Human Rights, and then by his successor in that office, Mr M. Galperin.

3. On 3 September 2015 the Government were given notice of the complaints concerning an excessively long prosecution of the assault on the applicant and the remainder of the application was declared inadmissible pursuant to Rule 54 § 3 of the Rules of Court.

4. The Government objected to the examination of the application by a Committee. Having considered the Government's objection, the Court rejects it.

THE FACTS

I. THE CIRCUMSTANCES OF THE CASE

5. The applicant was born in 1968 and lives in Voronezh.

6. In 1997 Ms Barsova married U. The following year their daughter was born with a congenital disability. U. worked as a senior lecturer at the Voronezh police academy and provided for the family; Ms Barsova worked part-time to be able to care for their daughter.

7. U. frequently abused Ms Barsova when he was under the influence of alcohol. He would punch her, throw her on the floor, pin her arms in a lock behind the back, and demand excuses for imaginary transgressions. Ms Barsova did not complain to the police, fearing that a complaint might lead to his dismissal and loss of income for the family.

8. On 17 August 2006 U. assaulted her in the attic of their house. He hit her twice in the neck with his clenched fist. She managed to escape into the courtyard where neighbours could see her. She warned him that she would call the police if he did not stop. U. replied "You asked for the police, the police is here", in reference to his rank of police lieutenant-colonel. Fearing a recurrence of violence, Ms Barsova dialled the police helpline. As she was about to give her address, U. attacked her again. She fell on her stomach, he pinned her down with his knees on her back, folded her arms in a lock and pulled her up by the wrists, causing severe pain to her shoulders. She begged for release and he let go of her.

9. Ms Barsova called the police from a street phone booth. Two hours later a police patrol arrived and took a statement from her. Police officers brought U. to the Tsentralnyi district police station but released him once he told them that his police rank was superior to theirs.

10. On the following day, Friday, and on Monday after that, Ms Barsova visited a general practitioner, a neurologist and a trauma surgeon. She was diagnosed with a concussion and multiple injuries to her neck, body and extremities, and placed on ten-day sick leave. The hospital also reported her injuries to the police.

11. On 29 August 2006 the chief of the Tsentralnyy district police station referred the matter of assault to the prosecutor's office of the same district. He pointed out that U. was a senior police officer. On 4 September 2006 an investigator from the prosecutor's office interviewed Ms Barsova and her husband and joined medical reports to the file. On the same day he issued a decision declining institution of criminal proceedings against U., finding that he had not committed the offence of abuse of power (Articles 285 and 286 of the Criminal Code). He advised Ms Barsova to mount a private-prosecution case before a court.

12. On 28 September 2006 Ms Barsova filed a private-prosecution complaint with a justice of the peace in the Tsentralnyy district in Voronezh. She accused U. of having committed "battery", an offence under Article 116 of the Criminal Code, and submitted medical evidence.

13. The first hearing was fixed for 17 October 2006 but it was adjourned because the judge was not available. The case was twice reassigned to different judges. A new hearing fixed for 15 March 2007 did not take place owing to the absence of U. who had volunteered for a police peace-keeping mission abroad.

14. Upon U.'s return, three hearings were held between April and June 2007, but the proceedings were then adjourned to perform a one-day medical assessment. After the proceedings were resumed in September 2007, the following two hearings in October and November 2007 did not take place because U. had gone on another stint abroad.

15. Between January and April 2008 three hearings were held and two adjourned because the judge was on sick leave. Concerned about the impending expiry of the two-year prescription period, on 24 June 2008 Ms Barsova complained of an excessive length of proceedings and unjustified delays to the President of the Regional Court. Six weeks later she received the reply that the trial judge had not committed any breaches of procedure but that the case would be reassigned to another judge.

16. The newly assigned judge was required by law to examine all evidence over again. The judge fixed a hearing for 23 July 2008 but it was adjourned because U. had not been properly notified. At the following hearing on 7 August 2008 all parties were present, except U., and the judge issued the decision to suspend the proceedings. Ms Barsova appealed against the decision, and it was set aside by the Tsentralnyy District Court on 11 November 2008.

17. U. did not show up at four hearings in December 2008, January and February 2009. On 10 April 2009 he was heard in court. On 21 May 2009 he applied for a discontinuation of the proceedings on the grounds that the statute of limitations had expired. On the same day the trial judge granted his application and discontinued the proceedings.

18. On 21 August 2009 the Tsentralnyy District Court dismissed Ms Barsova's appeal against the discontinuation decision. On 1 October 2009 the Voronezh Regional Court refused her leave to appeal to the cassation instance.

19. Following the enactment of the Compensation Act on 4 May 2010 (see *Nagovitsyn and Nalgiyev v. Russia* (dec.), nos. 27451/09 and 60650/09, §§ 15-20, 23 September 2010), Ms Barsova applied for compensation for a violation of her right to a trial within a reasonable time. By judgment of 10 May 2011, as upheld on appeal on 15 September 2011, the Voronezh Regional Court dismissed her claim. It held that, by examining witnesses and obtaining written evidence, such as the additional medical report, the trial court had "created conditions for the exercise by the private prosecutor of her rights and obligations in the criminal trial". The resulting delays were not imputable to the parties. It further considered that multiple transfers of the case between judges had not affected the length of the proceedings because each of them had been completed within "a reasonable time". The length of the case was accounted for by its "complexity" and "objective difficulties" relating to the defendant's absence from Russia.

II. RELEVANT DOMESTIC LAW

20. Chapter 16 of the Russian Criminal Code covers offences against the person, including murder and manslaughter (Articles 105 to 109) and three levels of assault occasioning actual bodily harm (Articles 111 to 115). Other forms of assault which may cause physical pain without resulting in actual bodily harm are treated as "battery" *(noóou)* under Article 116 "Battery" is punishable by a fine, community work, or up to three months' detention.

21. Causing grievous bodily harm is subject to public prosecution; the offences of "minor bodily harm" and "battery" are liable to private prosecution, meaning that the institution and pursuance of criminal proceedings is left to the victim, who has to collect evidence, identify the perpetrator, secure witness testimony and bring charges before a court (Article 20 § 2 of the Code of Criminal Procedure).
22. A suspect, an accused or defendant in criminal proceedings may be subject to a preventive measure consisting of a written undertaking by that person not to leave their place of residence without permission from an investigator or a court and to respond to any summons issued by them and to refrain from any other conduct obstructing the proceedings (Article 102 of the Code of Criminal Procedure).

THE LAW

I. ALLEGED VIOLATION OF ARTICLES 3, 6 AND 13 OF THE CONVENTION

23. The applicant complained that the Russian authorities had failed to grant her effective protection against the acts of domestic violence. They had allowed the statute of limitations to expire without the perpetrator having ever been brought to justice. She relied on Articles 3, 6 and 13 of the Convention, which read, in the relevant parts, as follows:

Article 3

"No one shall be subjected to torture or to inhuman or degrading treatment ..."

Article 6

"In the determination of his civil rights and obligations ... everyone is entitled to a ... hearing within a reasonable time by [a] ... tribunal ..."

Article 13

"Everyone whose rights and freedoms as set forth in [the] Convention are violated shall have an effective remedy before a national authority ..."

A. Submissions by the parties

24. The Government listed the provisions of the Criminal Code dealing with offences against physical integrity and the provisions of the Code of Criminal Procedure governing the procedure for examining private-prosecution claims. They considered that those provisions were sufficient to discharge their obligations flowing from Article 3 of the Convention. In the instant case, the delays in the trial had been chiefly accounted for by the defendant's absence from Russia. U. had served on a peace-keeping mission abroad from 25 February to 7 Aprii 2007 and then from 14 October 2007 to 18 October 2008. The Government considered that the appiicant had been unabie to bring her husband to account for the reasons which were not attributable to Russian courts or authorities. Moreover, she could have brought a civil claim for compensation against him but she had not availed herself of that remedy.
25. The applicant submitted that the criminal proceedings against U. had taken such a long time - two days short of three years - that the prosecution had become time-barred. As a consequence, the judge had not ruled on the merits of the charges and U. had dodged criminal responsibility for ill-treating her. Delays in the proceedings were caused in particular by: multiple transfers of the case between judges; the failure to apply a preventive measure to U. such as an undertaking to stay in town, and to sanction him when he had not appeared at hearings; unreasonably long intervals between hearings lasting up to two months, and belated commissioning of a medical assessment. An excessive number of hearings mentally exhausted the applicant, distracted her from work and drained her finances. She disbursed up to a hundred euros for her legal representation at each hearing because victims of domestic violence had no access to free legal aid in Russia. U. had volunteered for a mission abroad as a way to delay the proceedings. The court could have required the Ministry of Interior to recall him from the mission, to prevent him from leaving by requiring him to appear before court, or to suspend the limitation period for the duration of his absence. It had not however taken any such initiative and rejected all of the applicant's requests to that effect. The absence of a judgment on the merits thwarted the applicant's attempts to vindicate her right to live free from violence and ill-treatment and to obtain compensation in respect of non-pecuniary damage and legal costs.

B. Admissibility

26. The Court considers that the application is not manifestly ill-founded within the meaning of Article 35 § 3 (a) of the Convention. It further notes that it is not inadmissible on any other grounds. It must therefore be declared admissible.

C. Merits

27. The Court reiterates that the issue of domestic violence, which can take various forms - ranging from physical assault to sexual, economic, emotional or verbal abuse - is a general problem which affects, to a varying degree, all member States and different family members, although women make up an overwhelming majority of victims. The particular vulnerability of the victims of domestic violence and the need for active State involvement in their protection have been emphasised in a number of international instruments

and well-established in the Court's case-law (see *Bevacqua andS. v. Bulgaria,* no. 71127/01, §§ 64-65, 12 June 2008; *Opuz v. Turkey,* no. 33401/02, §§ 72-86 and 132, ECHR 2009, and *Hajduovci v. Slovakia,* no. 2660/03, § 46, 30 November 2010).

28. The Court notes that the applicant suffered physical violence at the hands of her husband U. which was recorded in medical documents. It finds that her injuries which had incapacitated her for a period of ten days reached the required level of severity under Article 3 of the Convention. The Court also acknowledges that, in addition to physical injuries, psychological impact forms an important aspect of domestic violence (see *Valiulienė v. Lithuania,* no. 33234/07, § 69, 26 March 2013). The feelings of fear, anxiety and powerlessness that the applicant must have experienced in connection with her husband's controlling and coercive behaviour were sufficiently serious as to amount to inhuman treatment within the meaning of Article 3 of the Convention (see *Eremia v. the Republic of Moldova,* no. 3564/11, § 54, 28 May 2013).

29. Once it has been established that treatment reached the threshold of severity triggering the protection of Article 3 of the Convention, the Court has to examine whether the State authorities have discharged their positive obligations under Article 1 of the Convention, read in conjunction with Article 3, to ensure that individuals within their jurisdiction are protected against all forms of ill-treatment, including where such treatment is administered by private individuals. These positive obligations, which are interlinked, include, in particular, the obligation to establish and apply in practice an adequate legal framework affording protection against ill-treatment by private individuals, and the obligation to conduct an effective investigation when an arguable claim of ill-treatment has been raised (see *Bevacqua and S.,* cited above, § 65; *Opuz,* cited above, §§ 144-45 and 162-65; *Eremia*, cited above, §§ 49-52 and 56; *Valiulienė*, cited above, §§ 74-75; *Rumor v. Italy,* no. 72964/10, § 63, 27 May 2014; *Talpis v. Italy,* no. 41237/14, §§ 100-06, 2 March 2017; and *Bal§an v. Romania,* no. 49645/09, § 57, 23 May 2017).

30. On the issue whether the respondent State's legal system provided adequate protection from domestic violence, the Court reiterates that the obligation on the State in cases involving acts of domestic violence would usually require the domestic authorities to adopt positive measures in the sphere of criminal-law protection. Such measures would include, in particular, the criminalisation of acts of violence within the family by providing effective, proportionate and dissuasive sanctions. Bringing the perpetrators of violent acts to justice serves to ensure that such acts do not remain ignored by the competent authorities and to provide effective protection against them (see *A. v. Croatia,* no. 55164/08, § 67, 14 October 2010; *Valiulienė,* cited above, § 71; *Eremia,* cited above, § 57; and *Z.B. v. Croatia,* no. 47666/13, § 50, 11 July 2017).

31. Russia has not enacted specific legislation to address violence occurring within the family context, whether at the material time or at present. Acts of domestic violence do not constitute a separate offence under Russian law or feature as an aggravating form of any other offence. The Russian law does not contain any penalty-enhancing provisions relating to acts of domestic violence or make a distinction between domestic violence and violence inflicted by strangers. Not only do the existing provisions of the Criminal Code leave many forms of domestic violence, such as psychological or economic abuse or controlling or coercive behaviour, outside the scope of criminal-law protection, but also they require injuries to be of a certain degree of severity to be characterised as a publicly prosecutable offence.

32. The injuries the applicant had sustained were not deemed sufficiently serious for launching public prosecution. Her only option was to seek legal redress in private prosecution of her husband on the charge of "battery", an offence under Article 116 of the Criminal Code which did not require proof of actual bodily harm or lasting damage to health. The fact that it was a private-prosecution offence meant that the institution and pursuance of criminal proceedings was left to her initiative and that she had to collect evidence capable to establish the abuser's guilt to the criminal standard of proof. The Court has acknowledged that the effective protection of the Convention right to physical integrity does not require public prosecution in all cases of attacks by private individuals (see *Sandra Jankovic v. Croatia,* no. 38478/05, § 50, 5 March 2009). Within the context of domestic violence, however, it considered that the possibility to bring private prosecution proceedings is not sufficient, as such proceedings require time and resources (see *Bevacqua andS.,* cited above, § 83).

33. The applicant did not benefit from assistance by the State authorities in the private-prosecution proceedings against her abusive husband. No police officer had helped her to collect the evidence. No prosecutor had made himself or herself available to draft legal documents on her behalf or to defend her rights in a court. Victims of domestic violence are not eligible for free legal aid in the Russian legal system, so she bore the costs of her own representation. She also had to take time off from work and from caring for the child to be present at the hearings. The pursuance of proceedings against the abuser was entirely dependent on her stamina and determination to bring him to account.

34. The Court finds that leaving the victim of domestic violence, such as the applicant in the instant case, to fend for herself in private-prosecution proceedings has put an excessive burden on her. The Russian legal framework - which does not define domestic violence whether as a separate offence or an aggravating element of other offences and establishes a minimum threshold of gravity of injuries required for launching public prosecution - falls short of the requirements inherent in the State's positive obligation to establish and apply effectively a system punishing all forms of domestic violence and providing sufficient safeguards for victims (see *Opuz,* cited above, § 145).

35. Turning next to the State's obligation to conduct an effective investigation into all acts of domestic violence capable of leading to the punishment of the perpetrator, the Court reiterates that the requirements of promptness and thoroughness enshrined in Article 3 apply to the proceedings as a whole, including the trial stage (see *M.A. v. Slovenia,* no. 3400/07, § 48, 15 January 2015, and *Kosteckas v. Lithuania,* no. 960/13, § 41, 13 June 2017). Special diligence is required in dealing with domestic- violence cases, and the specific nature of the domestic violence must be taken into account in the course of the proceedings. This obligation will not be satisfied if the protection afforded by domestic law exists only in theory; above all, it must also operate effectively in practice, and that requires a prompt examination of the case without unnecessary delays (see *Opuz*, cited above, §§ 145-51 and 168; *Talpis,* cited above, §§ 106 and 129, and *T.M. and C.M. v. the Republic of Moldova,* no. 26608/11, § 46, 28 January 2014). Violations have been found in cases where the trial had continued unduly or had ended by prescription allowing the accused perpetrators to escape accountability (see *Opuz,* cited above, § 151, and *P.M. v. Bulgaria,* no. 49669/07, §§ 64-66, 24 January 2012). The effectiveness principle means that the domestic judicial authorities must on no account be prepared to let the physical or psychological suffering inflicted go unpunished. This is essential for maintaining the public's confidence in, and support for, the rule of law and for preventing any appearance of the authorities' tolerance of or collusion in acts of violence (see *Okkali v. Turkey,* no. 52067/99, § 65, ECHR 2006-XII (extracts).

36. The proceedings against the applicant's abuser were pending before the trial court for more than two years until his prosecution had become prescribed. A short statute of limitations was accounted for by the fact that Russian law classified the offence of "battery" as a crime of low seriousness, irrespective of whether the underlying facts disclosed a simple altercation with a stranger or a serious act of domestic violence. Nevertheless, the Court considers that, in the circumstances of the present case, the two-year period was not so short as to justify the Russian courts' failure to bring proceedings to the judgment stage. The case was not complex, involving, as it did, one violent incident. The identity of the perpetrator was known and undisputed. The medical evidence supporting the applicant's

claims was available from the first day of the proceedings; an additional medical assessment was completed in one day.

37. The Court finds that many delays in the proceedings were directly attributable to the way in which the Russian courts handled the case. Multiple replacements of the trial judge delayed the opening of the trial by at least several months (compare *Moiseyev v. Russia,* no. 62936/00, § 191, 9 October 2008). The pace of the ensuing proceedings cannot be described as anything but exceptionally slow. Hearings were never scheduled on consecutive days or at least weeks but rather at widely spaced month-long intervals. On one occasion in 2007, the proceedings were adjourned by three months to perform a one-day medical assessment. In 2008, as the statute of limitation was about to expire, the applicant's complaint to the president of a higher court did not lead to an acknowledgment of delays or to any measures capable of speeding up the proceedings but rather to the decision to replace the trial judge once again with the effect that the trial had to be started from the beginning (compare *Huseyin §im$ek v. Turkey,* no. 68881/01, § 69, 20 May 2008). Later that year, it took the District Court more than three months to set aside the trial judge's unjustified decision to suspend the proceedings.

38. As regards the Government's contention that they were not responsible for the delays caused by the defendant, the Court reiterates that the domestic authorities have an obligation to constrain the abusive and dilatory conduct of a party to the proceedings (see *Nesterova v. Ukraine,* no. 10792/04, § 43, 28 May 2009). A large number of hearings did not take place because of U.'s absence from Russia. The Government did not offer any explanation why U. was afforded the freedom to come and go as he pleased for the entire duration of the trial. His absence from Russia was not continuous; he did attend a few hearings between April and October 2007 and also after October 2008. The trial judge did not use those occasions to ensure his attendance by requiring him to give an undertaking to appear or by applying a standard preventive measure in criminal proceedings, such as an obligation not to leave town without permission (see paragraph 22 above). Nor did the trial judge liaise with the human resources department of the Ministry of the Interior to have him recalled from the mission. As it happened, the court did not react in any way to the defendant's dilatory conduct (see *Rypakova v. Russia,* no. 16004/04, § 34, 8 January 2009, and *Sokolov v. Russia,* no. 3734/02, § 40, 22 September 2005). The unrestricted liberty of movement put the defendant - the individual having a vested interest in seeing the statute of limitations expire before the trial had reached the judgment stage - in a position to control the pace of the proceedings. The Court reiterates that the judicial authorities bear ultimate responsibility for management of their proceedings so that they are expeditious and effective (see *Mitchell and Holloway v. the United Kingdom*, no. 44808/98, § 56, 17 December 2002, and *Nikonenko v. Ukraine,* no. 14089/03, § 25, 29 May 2008). In the present case, by not availing themselves of the measures available under national law to secure the defendant's presence in the courtroom, the authorities bear responsibility for their failure to ensure that the case be heard within a reasonable time and that the perpetrator of domestic violence be brought to justice.

39. The Court reiterates that, while the domestic courts need to uphold the due process rights of the defendant, they should also afford adequate protection to the victims, particularly where they happen to be vulnerable (see *Ristic v. Serbia,* no. 32181/08, § 50, 18 January 2011). In the instant case, however, not only was concern to provide adequate protection to the victim of ill-treatment sorely lacking throughout the proceedings, but the impunity which ensued was enough to shed doubt on the ability of the judicial machinery set in motion in this case to produce a sufficiently deterrent effect to protect women from domestic abuse (see, in a similar context of vulnerable victims of ill-treatment, *Okkali,* cited above, § 70, and *Ate$oglu v. Turkey,* no. 53645/10, § 27, 20 January 2015).

40. The Court finally notes that the discontinuation of the criminal proceedings against U. on non-exonerating grounds did not bar the applicant from lodging a civil action against him. It cannot be said that she was denied access to a court for a determination of her civil rights (see *Nicolae Virgiliu Tanase v. Romania* [GC]*,* no. 41720/13, §§ 200-01, 25 June 2019). Nevertheless, such a civil action could have led only to the payment of compensation but not to the punishment of the perpetrator. Accordingly, it would not have been conducive to the State discharging its procedural obligation under Article 3 in respect of the prosecution of acts of ill-treatment (see *Okkali,* cited above, § 78; *Beganovic v. Croatia,* no. 46423/06, § 56, 25 June 2009, and *Abdu v. Bulgaria,* no. 26827/08, § 51, 11 March 2014).

41. In view of the deficiencies of the Russian legal framework for dealing with acts of domestic violence and the manner in which Russian courts handled the applicant's case, failing to consider the applicant's grievances within a reasonable time and to sanction the abuser's dilatory conduct during the trial and thereby allowing her suffering to go unpunished, the Court finds that the State has failed to discharge its obligations under Article 3 of the Convention. There has therefore been a violation of this provision.

42. The Court further considers that it may dispense with ruling on the issue whether or not Article 6 was applicable in the circumstances of the case because it is not necessary, in the light of the elements leading to the finding of a violation of Article 3, to examine separately the alleged violations of Articles 6 and 13 of the Convention (see *Opuz*, cited above, §§ 203-05).

II. APPLICATION OF ARTICLE 41 OF THE CONVENTION

43. Article 41 of the Convention provides:

> "If the Court finds that there has been a violation of the Convention or the Protocols thereto, and if the internal law of the High Contracting Party concerned allows only partial reparation to be made, the Court shall, if necessary, afford just satisfaction to the injured party."

44. The applicant claimed 7,500 euros (EUR) in respect of non-pecuniary damage and also EUR 696 for the costs and expenses incurred before the domestic courts and EUR 1,000 for those incurred before the Court.

45. The Government submitted that Article 41 should be applied in accordance with the established case-law.

46. The Court awards the applicant the amounts claimed in respect of non-pecuniary damage and costs and expenses, plus any tax that may be chargeable to the applicant.

47. The Court considers it appropriate that the default interest rate should be based on the marginal lending rate of the European Central Bank, to which should be added three percentage points.

FOR THESE REASONS, THE COURT, UNANIMOUSLY,

1. *Declares* the application admissible;

2. *Holds* that there has been a violation of Article 3 of the Convention;

3. *Holds* that there is no need to examine the complaints under Articles 6 and 13 of the Convention;

4. *Holds*

a. that the respondent State is to pay the applicant, within three months the following amounts, to be converted into the currency of the respondent State at the rate applicable at the date of settlement:

i. EUR 7,500 (seven thousand five hundred euros), plus any tax that may be chargeable, in respect of non-pecuniary damage;

ii. EUR 1,696 (one thousand six hundred and ninety-six euros), plus any tax that may be chargeable to the applicant, in respect of costs and expenses;

b. that from the expiry of the above-mentioned three months until settlement simple interest shall be payable on the above amounts at a rate equal to the marginal lending rate of the European Central Bank during the default period plus three percentage points.

Done in English, and notified in writing on 22 October 2019, pursuant to Rule 77 §§ 2 and 3 of the Rules of Court.

COUR EUROPÉENNE DES DROITS DE L'HOMME

FIFTH SECTION

CASE OF X AND Y v. BULGARIA

(Application no. 23763/18)

JUDGMENT

STRASBOURG

6 February 2020

This judgment is final but it may be subject to editorial revision.

In the case of X and Y v. Bulgaria,

The European Court of Human Rights (Fifth Section), sitting as a Committee composed of:

Ganna Yudkivska, *President,*

Yonko Grozev,

Lado Chanturia, *judges,*

and Milan Blasko, *Deputy Section Registrar,*

Having deliberated in private on 14 January 2020,

Delivers the following judgment, which was adopted on that date:

PROCEDURE

1. The case originated in an application (no. 23763/18) against the Republic of Bulgaria lodged with the Court under Article 34 of the Convention for the Protection of Human Rights and Fundamental Freedoms ("the Convention") by two Bulgarian nationals, X ("the first applicant") and Y ("the second applicant"), on 11 May 2018. The President of the Section decided not to have their names disclosed (Rule 47 § 4 of the Rules of Court).

2. The applicants were represented by Mr M. Ekimdzhiev and Ms K. Boncheva, lawyers practising in Plovdiv. The Bulgarian Government ("the Government") were represented by their Agent, Ms I. Stancheva-Chinova, from the Ministry of Justice.

3. On 12 October 2018 notice of the application was given to the Government.

THE FACTS

I. THE CIRCUMSTANCES OF THE CASE

4. The first applicant was born in 1978. The second applicant, who is the first applicant's son, was born in 2010. The first applicant brought the application on behalf of both applicants. Both applicants live in Pleven.

A. Background

5. The first applicant and V.D., a well-known local businessman, lived together as a couple from 2009 onwards. In 2010 they had a child together, the second applicant. In 2012 the couple had another child.

6. On 6 December 2012 the first applicant and V.D. separated. The first applicant left the fiat where she lived with V.D. and the children, and went to live with her parents in their apartment, taking the younger child with her.

7. The first applicant's version of the events regarding the run-up to the separation and the period thereafter differs from that of V.D. This is reflected in the paragraphs below.

8. According to the first applicant, V.D. subjected her to psychological, emotional and financial abuse the whole time that they lived together. After their separation V.D. systematically put in place obstacles to the two applicants' living together and it appears that the first applicant had only limited contact with her child. He either did not bring the child to her apartment as agreed, or made her wait for hours in the city for him to bring the child, which he did not always do.

9. According to V.D., he never objected to the two applicants' spending time together, but was only ever concerned about the well-being of his elder child. V.D. repeatedly invited the first applicant to return to live with him, without success.

B. Custody proceedings

1. Atfirst instance

10. The first applicant visited a lawyer on 7 December 2012. According to a sworn statement made by that lawyer and submitted to the Court by the applicant's representative, she had been upset and frightened because V.D. had taken away their elder child the previous day. He had threatened her by saying that she would not see the child if she were to go to court in that regard. Realising that V.D. would not let her live with the child, on 4 July 2013 the first applicant initiated judicial proceedings, seeking custody of the second applicant.

11. At the relevant time the second applicant lived with V.D. and the first applicant had contact with him only occasionally. In a written reply to the Pleven District Court of 27 July 2013, V.D. stated, among other things, that the first applicant had seen the child during the Christmas holidays, as well in February, June and July 2013.

12. On 18 September 2013 the Pleven District Court granted an application by the first applicant for interim measures, awarding her temporary custody while the proceedings were ongoing.

13. During the ensuing proceedings the Pleven District Court admitted two psychological expert reports into evidence. According to the two reports, the first applicant was calm and well-balanced, and had calm conversations with her two children in her home. While living with V.D., she had felt subjugated and like a servant. The second applicant was attached to his father and was in the process of being alienated from his mother, but her involvement in the child's life was of crucial importance for his development and well-being.

14. The Pleven District Court also admitted another report into evidence, a report by the social services, which referred to an incident which had occurred on 28 September 2013 outside the mother's apartment, when V.D. had had to hand over the second applicant to the mother. The report stated that a social worker (it transpired during a court hearing that this was Y.P.) had been off work and absent from the city on that day when V.D had telephoned her telling her the child did not wish to stay with his mother. The social worker had then spoken to the first applicant on the phone, attempting to reason with her. However, the first applicant had not respected the wish of her child and neither had she listened to the social worker's advice, but had behaved aggressively and impertinently on the phone. The report stated that, on the basis of that, it could be concluded that the first applicant's parenting capacity was poor, that she was emotionally unbalanced, lacked tact and patience and was not capable of caring for and bringing up the second applicant.

15. During a hearing before the Pleven District Court on 9 October 2013, Y.P. confirmed that on the day after that incident V.D. had personally visited her at the premises of the social services and had related the details of the event to her. During another hearing before the same court seven days earlier, a police officer, who had reported to the scene on 28 September 2013. after a signal about a disturbance at the first applicant's address, stated that he had not seen the first applicant behave rudely either to the child or to V.D. After speaking with the officer, the child had calmed down and had followed him to the mother's

apartment where he had stayed peacefully.
16. Having heard the parties and witnesses and considered the reports, the Pleven District Court granted the first applicant custody on 27 December 2013. The court determined that there should be extensive contact between the second applicant and V.D. - the child was to spend two weeks every month with him. V.D. was also ordered to pay financial maintenance in the amount of about 60 euros (EUR) monthly for the second applicant's upkeep.

2. At second instance

17. Following appeals by both the first applicant and V.D., on 30 May
2014. the Pleven Regional Court upheld the lower court's judgment as regards custody. However, the court limited V.D.'s contact rights to two weekends a month, two hours every Wednesday, and a month during the summer.
18. The Pleven Regional Court considered a report by social services in which they had been called upon to comment on whether there had been any developments in the situation after October 2013. The report, drawn up by a social worker called S.S., listed at length the circumstances as related by the two parents regarding the whole period after their separation in December 2012. In addition, it pointed briefly to two instances, on 28 September 2013 and 19 January 2014, when the child had been reluctant to go with the mother. After the father had complained to the social services about it, they had met with the child together with a psychologist and the child had said that he had been hit by his grandfather and locked alone in a room. The report concluded that the father was in a position to provide the children with a higher standard of living, and that although the mother was attempting to create a calm environment in which to bring up the second applicant, the important adult in his life was his father. It was advisable not to change the second applicant's habitual place of residence, which was with his father, and to give V.D. custody of the child (see also para 38 below).
19. The court further referred to the report provided before the first- instance court (see paragraph 14 above) and found that the social services' statements in it were not confirmed by the rest of the evidence gathered. It observed that a single telephone conversation could not serve as a basis for a conclusion that the mother was unstable and could not care for her child. This was even more the case, given that the social worker in question had not been personally present at the scene on 28 September 2013.
20. The court then found that it could not be said that one parent had better parenting skills than the other. It was crucial not to allow the process of parental alienation of the mother, which had already started, to develop further. The problems associated with handing over the child to the mother were not unsurmountable. It was understandable and only natural for the child to identify with the only dwelling he called home, his father's apartment, where he had been born and where he had lived continuously ever since, as opposed to the apartment of his maternal grandparents, which he had visited only occasionally and had not grown to accept as his home.
21. The court held that, while moving to live with his mother would undeniably bring about certain adaptation difficulties in the second applicant's life, they would not be the type of difficulties to negatively affect the relationship between mother and son, and were bound to ebb away with time. Moreover, the fact that the father possessed several properties and was in the process of converting a sanatorium into his primary residence, equipped with a swimming pool and a playground, should not be decisive in terms of his child-rearing capacity. The mother's living conditions were acceptable for that purpose. The court concluded that it would be in both children's best interests to live together on a permanent basis with one of the parents - in this case, with the first applicant.

3. Cassation proceedings

22. On 27 November 2014 the Supreme Court of Cassation dismissed an appeal on points of law by V.D., and the judgment of the Pleven Regional Court became final on that date.

C. Situation in practice during 2014 and 2015

23. It appears from the findings of the domestic courts that, while the first applicant has held custody - as an interim measure since 18 September 2013 and on the basis of the judgments thereafter - she has continually experienced difficulties with the transfer of the second applicant to her (see paragraphs 30, 53 and 56 below) and, despite the courts' rulings, the second applicant did not live with the first applicant for lengthy period of time (see paragraphs 18, 20, 21 above and paragraphs 24 and 51 below). She repeatedly put on notice the social services and the bailiff (see paragraphs 24, 34, 35 and 36 below), and the prosecution (see paragraph 29 below), complaining of being prevented from exercising her custodial rights despite the rulings by the courts. Apart from the helpful intervention of the police on two occasions, she continued to be dependent on the other parent's good will concerning when the child would stay with her (see paragraphs 30, 37, 51, 54 and 55 below).

D. Enforcement proceedings

24. The first applicant obtained a writ of enforcement on 7 April 2015, and on 16 April 2015 she sought the bailiffs assistance in implementing the final judgment of November 2014. On six occasions in April and May 2015 the bailiff attempted (unsuccessfully) to summon V.D. so that he could hand over the child to the mother. In particular, the summons officer who was sent to deliver the request for voluntary compliance to V.D. recorded on the summons that no one had answered the door and that, according to a neighbour, V.D. maintained no contact with his neighbours.
25. In February 2016 the first applicant once again asked the bailiff to enforce the judgment. That same month V.D. requested that the bailiff withdraw from the case. The bailiff withdrew on 14 July 2016, on the basis that he had common interests with V.D.
26. A new bailiff took over the case, and on 15 September 2016 he invited V.D. to voluntarily hand over the child to the first applicant. V.D. asked the bailiff to suspend the enforcement until 11 October 2016, as he intended to use resources provided by social services which were aimed at facilitating the child's transfer to the mother.
27. The bailiff summoned V.D. to hand over the child to the first applicant on 18 October 2016; the handover was mandatory. On that date, after a psychologist and a representative from the child protection agency had talked to the second applicant, who refused to leave his father, the bailiff decided to postpone the handover, noting that additional efforts had to be made to enhance the trust between mother and child. He then instructed the parties to make the necessary efforts and meet - in institutional settings and with the assistance of a psychologist - in order to facilitate the prospective handover.
28. In March, August and November 2017 the first applicant asked the bailiff to schedule a new date for the handover, but to no avail. On 9 March 2018 the bailiff wrote to her asking if she had complied with his instructions of October 2016. After she replied that those instructions had been directed at the person against whom the judgment was being enforced, and not at her, the bailiff specified in June 2018 that both parents were concerned. According to the first applicant, that letter only reached her in February 2019.

E. Criminal proceedings against V.D. for non-compliance

29. From March 2015 onwards the first applicant complained to the prosecuting authorities on numerous occasions about V.D.'s obstructing the enforcement of the 2014 final judgment. Initially, the prosecution service repeatedly refused to open criminal proceedings.
30. Thereafter, investigations were closed and reopened several times. In April 2016 the Pleven District Court set aside the latest decision by a prosecutor to terminate such an investigation. In particular, the court found that as the competent civil court had decided the question of custody in a final decision, it was unacceptable for anyone else thereafter - be it the other parent, the prosecution service or the child himself - to take a stance on this issue. The position of a person who had to comply with a judicial decision and yet kept avoiding his obligations was untenable. The situation undoubtedly represented repeated, intentional, demonstrative failures by V.D to act in accordance with the judgment. Moreover, V.D. had not denied those failures, but had instead considered them justified on the basis that they were beneficial for the child. Nothing in the file suggested that V.D. had made any attempt to return the child to the mother, and the prosecution service had wrongly considered that such inadequate conduct could have been prompted by concern for the child's well-being.
31. On 18 July 2016 V.D. was charged, but ultimately on 30 March 2018 the prosecution service terminated the proceedings for lack of an offence. The first applicant was notified of the decision terminating the proceedings on 12 April 2018 and did not appeal against it.

F. Involvement of social Services and the police

1. Actions initiated by the first applicant

32. On two occasions when V.D. had to hand the second applicant over to the mother at her apartment - on 28 September 2013 and 19 January 2014 - it appears that the child refused to stay with his mother and was calmed down and accepted to stay with her only after the intervention of the police, whom she had called for help. Two days after the first incident, the social worker Y.P., who was not present at the incident, drew up a report in which she recommended that the second applicant live with V.D., as separating the two of them would negatively affect the child's fragile psychological state. She also wrote that it was not in the second applicant's interests to live with his mother, who was irritable, emotionally unstable, and lacked patience and parenting ability (see paragraphs 14 and 15 above).
33. In January 2014 the first applicant complained to the director of the local Directorate for Social Assistance ("the Directorate") and the Sofia branch of the State Agency for Child Protection of Y.P.'s inappropriate conduct in the context of her professional duties. In February 2014 the Directorate's head recommended that the first applicant make efforts to improve her communication with V.D., which would facilitate relations among all those concerned. Social worker Y.P. requested to be taken out of the case, following the first applicant's complaints about her, and that request was approved by the Directorate (see also paragraph 48 below).
34. In August 2014 the first applicant sought assistance from the central Directorate in Sofia, so that she could take care of her two children without stress and permanent disturbance. She complained that V.D. had not allowed her to meet with the second applicant between December 2012 and June 2013, and had proposed that she give up her custody rights in favour of him, in exchange for financial support for their second child. As she had refused, he had threatened to cause problems for her for the next fourteen years. Furthermore, on one occasion V.D. had agreed to collect the second applicant for contact on 4 August 2014 instead of 1 August 2014, but then had demanded to collect the child on 1 August. Several days later a bailiff had fined the first applicant EUR 125 for not complying with the court's decision on contact between the second applicant and V.D.
35. The first applicant also complained that V.D. had established personal relations with some officials from social services. One of them, S.S., had kept telling her that she was expected to comply with V.D.'s expectations. She also referred to the report drawn up by S.S. in March 2014 (see paragraph 18 above), and asked that he be taken off her case.
36. In April 2015 the first applicant wrote to the Child Protection Unit ("the CPU") of the Directorate, describing that she had been unable to meet with the second applicant since 13 March 2015, as a result of V.D.'s obstruction. The CPU forwarded her complaint to the prosecution service, which refused to open an investigation. The first applicant collected the child from V.D.'s home on 13 May 2015, and the father retained the child again between 10 and 30 June 2015, against the mother's will. In July 2015 she again complained that V.D. had not handed the child over to her.
37. In August 2016 the first applicant wrote to the Directorate, signalling that for about four years, for reasons outside her control, she had not been able to live with her child. The Directorate replied that she was well acquainted with the reasons why her elder child did not wish to live with her, and there were no grounds for changing the social worker who was dealing with her case, S.S. Thereafter, the first applicant informed a specialised foundation which provided social services that as long as S.S. was in charge of her case, she was opposed to meeting the child at the foundation's premises.

2. Actions initiated by V.D.

38. In January 2014 V.D complained to the social services about the child's unwillingness to go with his mother on two occasions, respectively on 28 September 2013 and 19 January 2014 (see paragraphs 14, 15 and 18 above). On 6 February 2014 the head of the Directorate replied to him that social services had followed up on his complaint and on 27 January 2014 had visited the first applicant's dwelling where both she and her father had vehemently denied ever mistreating the second applicant. Social services had met with the child two days later. It was evident that the child was suffering as a result of his parents' separation and had difficulties adapting to the new rule at his grandfather's home. As a result, social services had written to the first applicant recommending to her that she make an effort to improve her communication with V.D. and with the children. Additionally, she had been invited to seek psychological help for overcoming the conflicts with V.D. (see paragraph 33 above).
39. In April 2015, and again in July 2015, V.D. turned to the Directorate, requesting that measures be implemented to preserve the second applicant's health and well-being. In particular, he asked for the first applicant to be instructed to always meet the second applicant in the presence of a social worker and/or a psychologist, given the anxiety she caused the child. Between April and October 2015 V.D. took the child to a psychologist five times. On 21 July 2015 the Directorate drew up a record of the case, noting, among other things, that the child consistently refused to go and live with his mother and displayed fear and emotional trauma as a result of the negative attitude towards him displayed by his mother and grandmother. The child needed to work with a psychologist in order to overcome the crisis in his relationship with his mother. Both parents were directed to individually use the services of a psychologist, with a view to having meetings at the social services premises and handing over the child to the mother.

3. Further events related to social services

40. Thereafter, four meetings were held at the foundation's premises on consecutive days, starting on 29 July 2015, always in the presence of specialised professionals who produced a report at the end. Both the first applicant and V.D. took part in those meetings,

while the second applicant attended three of them. The conclusion was that, while the child was happy to spend time in the company of his mother, he was categorically opposed to leaving the premises with only her.
41. In February 2016 the Directorate directed V.D. and the second applicant to attend regular preparatory counselling sessions provided by the foundation over a period of three months, with a view to facilitating the child's acceptance of his mother.
42. After the first applicant repeatedly asked the Directorate for help, in March 2016 the Directorate replied that the child was firmly opposed to living with her. It said that in order to overcome this opposition, the authorities had been arranging counselling sessions for the child and the father since February 2016. For optimal results, it was necessary that the first applicant also attend such sessions, and she would have to make a specific application for this.
43. A report of 18 May 2016 prepared by the foundation noted that both parents had expressed willingness to receive assistance in relation to handing the child over to the mother. Another report by the foundation recorded that after 25 April 2016 individual meetings with each parent had taken place. The report concluded by giving a recommendation that the relevant work continue.
44. The foundation's records noted that a meeting between the two applicants had taken place at the foundation's premises in July 2016. V.D. had waited outside the room and the child had asked three times whether his father was waiting for him.
45. In October 2016 the foundation drew up a final report, noting that the necessary preparatory measures which had been envisaged in the context of working with the second applicant and his parents with a view to encouraging him to accept living with his mother had not been carried out. The child did not harbour negative emotions towards his mother, but continued to refuse to live with her. When foundation staff had advised V.D. to motivate the child to go and live with his mother, he had replied that he would act in accordance with the child's wishes.
46. In February 2017 the Directorate wrote to V.D. informing him that, as the first applicant had not agreed to attend the preparatory counselling sessions, it would be impossible to work towards building an emotional closeness between the two applicants.

G. Other court proceedings

47. In June 2015 V.D. discovered a haematoma on the second applicant's cheek, which the child explained was the result of his maternal grandmother slapping him because he had insulted her. V.D. immediately initiated proceedings concerning domestic violence. The proceedings ended with a court decision prohibiting the grandmother from approaching the child for the following six months. On 25 June 2015 she moved out of the apartment which she shared with the first applicant and left the country.
48. In 2016 the social worker Y.P. brought tort proceedings against the first applicant, seeking compensation for non-pecuniary damage, as she had been harmed by the first applicant's complaints to the authorities about her professional conduct. In 2017 the relevant court rejected the claim on the merits, having considered several psychological reports and heard numerous witnesses (see paragraph 33 above).

H. Proceedings for a change of custody

49. In the meantime, as regards the second applicant, in May 2015 V.D. had initiated proceedings for a change of custody.

1. Interim measures

50. On 30 June 2015 the Pleven District Court granted an application by V.D. for interim measures and awarded him temporary custody; the first applicant was given contact rights.

2. Atfirst instance

51. On 14 October 2015, ruling on the merits, the Pleven District Court rejected V.D.'s application for a change of custody. The court observed that it was undisputed that the second applicant had been living with his father before the latter had brought these proceedings. In particular, between March and May 2015 V.D. had retained the child in his home despite custody having been given to the first applicant. No proof had been presented before the court, either orally or in writing, to confirm V.D.'s submissions that he and the first applicant had reached an agreement for the second applicant to live with his father. Further, there had been several complaints by the first applicant to the prosecution service in connection with her inability to have contact with the child as determined by the courts. The second applicant was happy spending time with his mother and younger sibling, and the first applicant was not preventing his contact with his father. However, the child only saw his mother at the premises of the foundation providing social services, and not in the comfort of her own home, which suggested that V.D. had not made efforts to encourage the child to stay with his mother. Continued restrictions to the second applicant's contact with his mother would lead to his being alienated from her, which was not in his best interests. It was also important for him to live with his younger sibling, who was of a similar age.

3. At second instance

52. Following an appeal by V.D., the Pleven Regional Court upheld the lower court's decision in a final judgment of 1 February 2016.
53. The court observed that between December 2012 and November 2013 the second applicant had lived with V.D., and in November 2013 he had started living with the first applicant. Between December 2012 and November 2014 frequent arguments had erupted between the parents, particularly when V.D. had had to hand the child over to his mother. On such occasions the police had been called upon to intervene, as had social services.
54. After November 2014 the first applicant had continually complied with the court's judgment by letting the second applicant see his father even more frequently than the court had determined. Between 16 March 2015 and 13 May 2015 the child had lived exclusively with his father, who had not handed him over to the mother during that period. The first applicant had complained about this to the CPU and the police, and neither authority had assisted her with collecting the child from the father.
55. The Pleven Regional Court further established that between 10 June 2015 and 14 January 2016 the second applicant had again lived with only his father. During that period the applicants had not had any meaningful contact, as they had only seen each other two or three times a month while V.D. had been collecting the younger child.
56. The court held that while earlier the second applicant had showed signs of unease when being handed over to his mother, this had grown into unwillingness on his part to follow her and live with her in her home. V.D. had been wrong to passively encourage the child's resistance to going to stay with his mother. In the period before May 2015 V.D. had regularly failed to comply with the contact regime determined by the courts, by not returning the child to the mother at the set time and on the set day, which had negatively affected both the psychological state of the child and the effectiveness of the contact measures themselves.
57. V.D.'s overall conduct demonstrated that he had not made sufficient efforts to help the second applicant adapt to his mother's

environment. The disregard which V.D. had showed for the final judgment with which he had been obliged to comply was indicative of his lacking parenting capacity. While the second applicant undoubtedly felt ill at ease at his mother's home, this was because of the incident when he had been hit by his grandmother, as well as his father's conduct. The grandmother had since moved abroad, so there was no further danger of violence in the mother's home. Moreover, the first applicant had demonstrated better parenting skills, and if the second applicant continued to be separated from her then there was a real risk that the relationship between the two would collapse. The consequences of such a development would be much graver for the child's well-being than the stress associated with his being handed over to the mother.

I. Current situation

58. The second applicant has been living with his father since 2016. According to the first applicant, she is still not able to live with her elder child or have regular contact with him.

59. According to V.D., the elder child has regular contact with his mother, both in person and over the phone, but refuses to live with her in the apartment of his maternal grandfather. He sees his younger brother frequently, almost every weekend, at V.D.'s apartment. The first applicant sees her elder child for a few minutes when she hands over the younger child to the father. V.D. regularly pays the financial maintenance ordered by the court.

II. RELEVANT DOMESTIC LAW

A. Enforcement of judgments

60. In accordance with Article 404 of the 2007 Code of Civil Procedure ("the 2007 Code"), final judicial decisions can be subject to enforcement. Article 527 of the 2007 Code provides that if a party who is obliged to hand over a child pursuant to a final judicial decision relating to parental rights fails to do so, the bailiff can impose fines on him or her for every failure to comply with the judicial decision. In addition, the bailiff may request assistance from social services and municipal and police authorities. The bailiff can also take the child by force and hand him or her over to the parent in whose favour the decision was made.

B. Criminal sanctions for failure to ensure contact with a child

61. Article 182 § 2 of the 1968 Criminal Code, in force at the time of the events, provides that a parent or another relative who prevents contact with a child or the enforcement of a court judgment on custody can be sentenced to probation, fined up to EUR 153 and, in severe cases, sentenced to up to six months' imprisonment or a fine of up to EUR 1,533. As of April 2010 this is an offence which is subject to public prosecution, therefore only a prosecutor can initiate such proceedings.

C. Protection of children

62. In accordance with section 23 of the Child Protection Act, measures for protecting children in their family environment include, among other things: the provision of pedagogical, psychological and legal assistance to parents who exercise parental responsibility; the provision of appropriate social services, including counselling for the child; and social work aimed at facilitating contact between parents and children and overcoming conflict in their relationship.

THE LAW

I. ALLEGED VIOLATION OF ARTICLE 8 OF THE CONVENTION

63. The applicants complained that they had been unable to live together and enjoy the contact rights determined by the courts, in breach of Article 8 of the Convention, which reads as follows:

> "1. Everyone has the right to respect for his private and family life, his home and his correspondence.
>
> 2. There shall be no interference by a public authority with the exercise of this right except such as is in accordance with the law and is necessary in a democratic society in the interests of national security, public safety or the economic well-being of the country, for the prevention of disorder or crime, for the protection of health or morals, or for the protection of the rights and freedoms of others."

A. Admissibility

1. The Government

64. The Government advanced the argument that the application was inadmissible for failure to comply with the six-month rule. In particular, the first applicant had been expected to apply to the Court within six months of custody being given to V.D. (see paragraph 50 above), but she had failed to do so.

65. Secondly, the first applicant had failed to comply with the bailiff's instructions of 18 October 2016 (see paragraph 27 above) and had not appealed against the decision in 2018 terminating the criminal proceedings against V.D. (see paragraph 31 above). Therefore, she had failed to exhaust domestic remedies.

66. Thirdly, the first applicant had continually refused to cooperate with social services with a view to helping the second applicant accept that he should go and live with her. That represented a failing on her part.

2. The applicants

67. The first applicant submitted that she was complaining of the national authorities' continuing inability, lack of capacity or refusal to protect the two applicants' right to family life. The period between June 2015 and February 2016, when V.D. had had custody of the second applicant, shold not be excluded from the examination, because during that period she had not been able to see the child, contrary to the contact schedule determined by the court.

68. Secondly, the first applicant had understood that the bailiff's instructions had been directed only at V.D. As to the criminal proceedings against V.D., those had lasted almost three years and had had no effect whatsoever on his conduct. The passage of time - while the proceedings had dragged on and she had waited for them to accomplish something - had only contributed to her child becoming alienated from her. In any event, criminally punishing the perpetrator would not bring her child back, so that remedy was irrelevant for her complaint.

69. Lastly, the first applicant submitted that she had not rejected the preparatory measures, aimed at developing her relationship with

the second applicant, proposed by the relevant authorities. However, she had consistently been at a loss after meeting with social services, as she had felt that she had been treated not like a parent with custody of her child, but like an "inadequate mother" and an offender.

3. The Court's assessment

70. The Court observes that the first applicant's complaint concerns her continuing inability to live with her elder child or see him in accordance with the regime determined by the court during the period when his father had custody. Therefore, the Government's objections to the admissibility of the application on the basis of the six-month rule have to be dismissed.
71. The Court further considers that the other objections about non-exhaustion of domestic remedies are closely linked to the merits of the complaint. It will therefore deal with them in its examination of the merits below.
72. The Court notes that a natural parent's standing suffices to afford him or her the necessary power to apply to the Court on his or her child's behalf too, in order to protect his or her interests (see *Scozzari and Giunta v. Italy* [GC], nos. 39221/98 and 41963/98, § 138, ECHR 2000-VIII). Furthermore, in cases arising out of disputes between parents, it is the parent who is entitled to custody who is entrusted with safeguarding the child's interests (see, to the contrary, *Wildgruber v. Germany* (dec.), no. 32817/02, 16 October 2006; see, similarly, *M.R. and D.R. v. Ukraine,* no. 63551/13, § 40 with further reference, 22 May 2018). In the present case, the first applicant is a natural parent who has been given custody of her child, the second applicant. Consequently, she has standing to apply to the Court on his behalf.
73. The Court notes that the application is not manifestly ill-founded within the meaning of Article 35 § 3 (a) of the Convention. It further notes that it is not inadmissible on any other grounds. It must therefore be declared admissible.

B. Merits

1. The applicants

74. The first applicant stated that the lack of enforcement of her custodial and visiting rights was not due to a passive behaviour on her part and that she took all necessary steps in that respect. In particular, what could potentially be interpreted as a passive attitude on her part during the initial months following her separation from V.D. was explained by her experience of systematic psychological abuse during the period when she had lived with him (see paragraphs 8 and 13 above). She also pointed to the findings of the domestic courts which had ruled on the application for a change of custody lodged by V.D. (see paragraphs 51-57 above).
75. The first applicant had approached different competent institutions in order to obtain protection of both her rights and those of the second applicant. She had sought assistance from social services, the prosecution service, the courts and bailiffs. It had been up to the competent institutions to analyse the situation and undertake the necessary measures to reunite the applicants. While she did not challenge the fact that the authorities had a margin of appreciation in that connection, she complained of the ineffectiveness of the measures implemented within that margin.

2. The Government

76. The Government pointed out that the first applicant had significantly contributed to her elder child's alienation from her, as she had not sought contact with him during the crucial initial period, namely for about seven months after she had separated from the father. V.D. had transferred the child to her immediately after the interim measure in her favour had been adopted in September 2013. Thus, between September 2013 and March 2015 the child had lived with her continuously. Even after March 2015 there had been no lack of enforcement of the final judgment of 2014, given that the child had not been transferred to his mother because he had firmly refused. The first applicant had lived with the child in May-June 2015. As regards the period between 10 and 30 June 2015, V.D. had acted responsibly by keeping the second applicant with him, given the violence which the child had experienced in his grandparents' apartment.
77. As regards non-enforcement of a final judgment, this was only relevant in respect of the judgment which had entered into force on 1 February 2016. It had not been enforced in full as a result of the actions of the first applicant, who had not cooperated with either social services or the bailiff.
78. As regards the other parent, V.D., he had continuously demonstrated concern for the child's well-being, had repeatedly sought assistance from the relevant authorities, and had never objected to the child's transfer to the first applicant.
79. All relevant authorities had consistently acted appropriately and promptly. The second applicant was strongly attached to his father, and it was in his interests to live with V.D. and go to his mother only once he readily agreed to do so.

3. The Court's assessment

80. The relevant general principles have been summarised in the case of *StrandLobben and Others v. Norway* ([GC], no. 37283/13, see in particular §§ 202-204, 207 and 211, 10 September 2019).
81. The Court considers that the two applicants' relationship with each other is protected under Article 8.
82. The parties disagree on whether the first applicant's custody and visiting rights, as determined by the domestic courts, have been fully enforced. Relying in particular on the findings of the domestic courts, the Court finds it established that since 18 September 2013, when the domestic courts granted the applicant temporary custody, the first applicant has experienced systematic difficulties in exercising her parental and visiting rights, and that for lengthy stretches of time the two applicants have not been able to live together in violation of the rulings of the domestic courts (see paragraph 23 above). Thus, V.D. retained the child between 16 March 2015 and 13 May 2015, and then again between 10 June 2015 and 14 January 2016 (see paragraphs 53-55 above). Furthermore, before May 2015 V.D. regularly failed to comply with the contact regime as determined by the courts, by not returning the child to the mother on the set date and at the set time (see paragraph 56 above). It appears that after February 2016 the second applicant continued to live with his father, against the mother's wishes and in defiance of two judicial decisions (see paragraph 58 above).
83. Once put on notice of this situation, the authorities were under a positive duty to assist the applicants with enjoying the rights determined by the domestic courts. As within the domestic system different authorities - bailiff, social services, the police, the prosecution service - had responsibilities in facilitating the contact between the applicants in the implementation of the court decisions, the Court will assess the actions of all those authorities. In doing so it will assess whether the national authorities have taken all necessary steps that could reasonably be demanded in the circumstances, aimed at allowing the individuals concerned to reunite and preserve the relationship between them (see *Kriz v. the Czech Republic,* no. 26634/03, § 85, 9 January 2007). Given the child's very young age, the adequacy of the measures pursued by the authorities is to be judged by the swiftness of their implementation, as the passage of time can have irremediable consequences for relations between the child and the parent who does not live with him (see

Edina Tóth v. Hungary, no. 51323/14, § 53 with further reference, 30 January 2018).

84. The Court observes that - twice - the domestic courts examined the situation of the child and both parents, and - twice - they assessed positively the parental skills of the first applicant and the relationship between the first and the second applicant, and concluded that custody should be given to and remain with the first applicant (see paragraphs 16-22 and 51-57 above). In the second set of proceedings they expressly took into account the objections against granting custody to the first applicant, on which the enforcement of the first judgment was obstructed, and rejected them. They gave their rulings after an in-depth consideration of all factual circumstances and a careful weighing of the different interests at stake, with a constant concern for the best interest of the child.

85. Importantly, during the second set of proceedings, the courts specifically established that the failure to comply with the first judgment in the first applicant's favour was due to the other parent's lack of cooperation (paragraphs 51 and 56 above). His disregard for the judgments awarding custody to the mother had been compounded with his passive encouragement of the child's resistance to going to live with her, in defiance of the court's decisions.

86. The domestic courts' conclusions that the other parent persistently obstructed the enforcement of the judicial decisions, however, does not seem to have been met with an appropriate response by the authorities charged with the enforcement of those decisions. Thus, both the bailiff and the prosecution appear to have ignored his conduct and its consequences, given that no compulsory measures whatsoever were undertaken in his regard. The Court is particularly struck in this connection that the only time the first applicant was found not to have complied with the contact regime determined by the courts, she was effectively fined with a non-negligible sum (see paragraph 34 above), while no such measures were ever taken with respect to the other parent, despite his persistent refusal to comply with the judicial decisions.

87. Following the first judgment granting custody to the first applicant, there was a long and unjustified delay in the bailiffs activity due to the failure to summon V.D. to voluntarily comply with the judgment (see paragraphs 24-25 above). In accordance with the relevant domestic legislation, the bailiff could have imposed fines on a parent who failed to hand over the child, in this case V.D., every time this occurred (see paragraph 60 above). However, the bailiffs in the proceedings brought by the first applicant did not make use of this option even once.

88. The bailiffs could also have sought the assistance of the police (see paragraph 60 above), yet they did not attempt to do so. As can be seen from the facts, on the couple of occasions when the first applicant and her father called the police, their intervention was highly effective (see paragraph 32 above). Instead, it appears that after another long delay related to the initial bailiffs withdrawal, the new bailiff who took over the case remained inactive for more than a year after instructing the applicant to make an effort and meet with V.D. in institutional settings in order for the child to be handed over to her (see paragraph 27 above).

89. Turning to the criminal proceedings, the Court notes that the prosecuting authorities repeatedly closed those proceedings without taking any measures for the enforcement of the judgments on custody. This happened even after a court had quashed a prosecution's decision terminating the proceedings, having explicitly found that V.D. had obstructed the implementation of the custody judgments and that it was unacceptable that the prosecution service had adopted a different stance on a question decided by a final judicial decision (see paragraph 30 above). The Court finds that, in view of the prosecution service's continued reluctance to prosecute, despite there being court findings in that regard, the first applicant's failure to appeal against the final decision terminating the proceedings (see paragraph 31 above) was not decisive as regards the authorities' obligation to act in order to protect her right to live with her elder child.

90. The Court finds that the actions of the social services were also deficient. Although the first applicant sought their assistance many times after the court decision on interim measures giving her custody, those authorities did not take measures to implement the judicial decision on custody rights. Rather, they focused on preparing reports assessing whether the first applicant should have custody rights (see paragraphs 14, 18, 39 and 43 above) or recommending that she make an effort to improve her relations with V.D. (see paragraphs 33, 37 and 42 above), when the irreversible rupture in those relations had been the reason why she had sought the authorities' help in the first place.

91. The Court finds particularly telling in that regard the episode where a social worker intervened over the telephone in the transfer of the child, criticising the first applicant for her parental skills, rather than facilitating the transfer. It took the intervention of a police officer on the spot who apparently was more successful in calming the child and proceeding to a successful transfer. This episode also served as a basis for the social services report challenging the first applicant's parenting skills and expressing a view in favour of custody being granted to V.D., a report criticised and rejected by the domestic courts (see paragraph 19 above).

92. The social services do not seem to have taken the necessary and reasonable steps to enforce the first applicant's custody rights after the judicial decision became final either. Several preparatory meetings took place as late as in July 2015, many months after the final decision of the domestic courts granting custody rights to the first applicant. They were organised by a foundation providing social services with a view to facilitating the child's acceptance of the mother, at the foundation's premises and in the presence of V.D. (see paragraphs 40-41 above). None of the above is indicative of the authorities' acting with special diligence and speed when handling the applicants' situation.

93. As regards the first applicant's conduct before, during and after the proceedings for custody of the child, the Court observes that she did not remain passive. She actively sought the implementation of the interim measures. After the adoption of the final judgment granting her custody, she promptly brought enforcement proceedings, which is clearly indicative of her inability to live with the child as determined in the judicial decision. She also complained to the prosecution service numerous times about her inability to recover the child. In addition, she turned to social services on many occasions, particularly throughout 2014. She repeatedly raised concerns about her inability to spend time with her elder child owing to obstacles created by V.D. notwithstanding the judicial decision giving her interim custody. Likewise, she asked different authorities for assistance (see paragraph 23 above).

94. Lastly, the Court observes that the second applicant is still living with V.D. and the first applicant has continued to seek effective assistance from the authorities, although she has been reluctant to continue taking part in meetings at the foundation's premises, considering them futile, given the circumstances in which they had been organised (see paragraphs 40, 41 and 44 above). The bailiff and the social services have continued to follow the case with varying levels of intensity (see paragraphs 28, 45 and 46 above). However, the Court finds that, in the circumstances, the initial period of time was decisive for the effectiveness of any intervention by the authorities. Their omissions in the early stages - in particular in 2014 and 2015 - allowed the difficulties relating to handovers to become worse, and perpetuated the relevant obstacles. This is sufficient for the Court to conclude that the authorities did not do all that was reasonably possible in order to reunite mother and child.

95. In view of the foregoing, the Court dismisses the Government's preliminary objection that the first applicant failed to exhaust all available domestic remedies and, ruling on the merits, finds that there has been a violation of Article 8 of the Convention as regards both applicants.

II. ALLEGED VIOLATION OF ARTICLE 13 OF THE CONVENTION

96. The applicants complained that they had not had an effective domestic remedy in connection with their complaint that they had not been able to be reunited. They relied on Article 13 of the Convention, which reads as follows:

> "Everyone whose rights and freedoms as set forth in [the] Convention are violated shall have an effective remedy before a national authority ..."

97. The Government contested their allegations.
98. The Court notes that this complaint is not manifestly ill-founded within the meaning of Article 35 § 3 (a) of the Convention. It further notes that it is not inadmissible on any other grounds. It must therefore be declared admissible.
99. The Court finds that, in the instant case, the effectiveness of the authorities' actions - actions aimed at allowing the first applicant to have meaningful contact with her elder child, and the second applicant to have contact with his mother - lies at the heart of the applicants' complaint under Article 13. The issues linked to the measures pursued by the authorities in the context of protecting the applicants' right to family life have been examined under Article 8 above, as has the effectiveness of those measures. The Court therefore considers that no separate issue arises under Article 13 (for a similar approach, see *Dimova and Peeva v. Bulgaria,* no. 20440/11, § 47, 19 January 2017).

III. APPLICATION OF ARTICLE 41 OF THE CONVENTION

100. Article 41 of the Convention provides:

> "If the Court finds that there has been a violation of the Convention or the Protocols thereto, and if the internal law of the High Contracting Party concerned allows only partial reparation to be made, the Court shall, if necessary, afford just satisfaction to the injured party."

A. Damage

101. The applicants claimed 40,000 euros (EUR) each in respect of non-pecuniary damage.
102. The Government considered that the above claims were unjustified.
103. The Court considers that the failure to reunite the two applicants must have caused the first applicant frustration and suffering and prevented the second applicant from developing relations with his mother. Accordingly, it awards the applicants EUR 7,500 jointly in respect of non-pecuniary damage.

B. Costs and expenses

104. The applicants also claimed EUR 5,284.75 for the costs and expenses incurred before the Court.
105. The Government submitted that the sum claimed for legal fees, EUR 4,920, was excessive as regards the number of hours claimed (forty-one) and the hourly rate (EUR 120). They also objected to the sums claimed for postage and translation.
106. According to the Court's case-law, an applicant is entitled to the reimbursement of costs and expenses only in so far as it has been shown that these have been actually and necessarily incurred and are reasonable as to quantum. In the present case, regard being had to the documents in its possession and the above criteria, the Court considers it reasonable to award the first applicant the sum of EUR 2,700 for the proceedings before the Court, of which sum EUR 900 is to be paid directly into the bank account of the applicants' representatives. The above amount covers legal fees incurred in the context of the proceedings before the Court and translation expenses. The amount in respect of legal fees is calculated with reference to the hourly rate of EUR 70 applied in respect of applicants' lawyers' fees in recent cases against Bulgaria of comparable complexity (see *Aneva and Others v. Bulgaria,* nos. 66997/13 and 2 others, § 135, 6 April 2017).

C. Default interest

107. The Court considers it appropriate that the default interest rate should be based on the marginal lending rate of the European Central Bank, to which should be added three percentage points.

FOR THESE REASONS, THE COURT, UNANIMOUSLY,

1. *Joins* to the merits the Government's preliminary objection as regards the first applicant's failure to exhaust domestic remedies and dismisses that objection;

2. *Declares* the application admissible;

3. *Holds* that there has been a violation of Article 8 of the Convention;

4. *Holds* that no separate issue arises under Article 13 of the Convention;

5. *Holds*
   a. that the respondent State is to pay the applicants, within three months, the following amounts, to be converted into Bulgarian levs at the rate applicable at the date of settlement:
      i. EUR 7,500 (seven thousand five hundred euros) jointly, plus any tax that may be chargeable, in respect of non-pecuniary damage;
      ii. EUR 2,700 (two thousand seven hundred euros) to the first applicant, plus any tax that may be chargeable to her, in respect of costs and expenses, of which EUR 900 to be paid directly into the bank account of the applicants' representatives;
   b. that from the expiry of the above-mentioned three months until settlement simple interest shall be payable on the above amounts at a
      rate equal to the marginai lending rate of the European Central Bank during the default period plus three percentage points;

6. *Dismisses* the remainder of the applicants' claim for just satisfaction.

Done in English, and notified in writing on 6 February 2020, pursuant to Rule 77 §§ 2 and 3 of the Rules of Court.

EUROPEAN COURT OF HUMAN RIGHTS COUR EUROPÉENNE DES DROITS DE L'HOMME

FOURTH SECTION

DECISION

Application no. 30777/14
Mihaela Mara PÀTRÀUCEANU-IFTIME
against Romania

The European Court of Human Rights (Fourth Section), sitting on 8 January 2019 as a Committee composed of:
Paulo Pinto de Albuquerque, *President,*
Egidijus Kuris,
Iulia Antoanella Motoc, *judges,*
and Andrea Tamietti, *Deputy Section Registrar,*
Having regard to the above application lodged on 9 April 2014,
Having regard to the observations submitted by the respondent Government and the observations in reply submitted by the applicant,
Having deliberated, decides as follows:

THE FACTS

1. The applicant, Ms Mihaela Mara Pàtràuceanu-Iftime, is a Romanian national who was born in 1975 and lives in Ia§i. She was represented before the Court by Ms G. Lupsan, a lawyer practising in Ia§i.
2. The Romanian Government ("the Government") were represented by their Agent, Ms C. Brumar, of the Ministry of Foreign Affairs.

A. The circumstances of the case

3. The facts of the case, as submitted by the parties, may be summarised as follows.
4. In 1997 the applicant married P.I.N. Their children, F.P. and S.S.P., were born in 2001 and 2006 respectively.
5. According to the applicant, P.I.N. was always aggressive and violent towards her, both physically and verbally. The children were often present during the abuse, and they were often threatened with violence, slapped,

COUNCIL OF EUROPE
CONSEIL DE LEUROPE

punched or hit with a belt by their father. She filed for divorce, but withdrew her petition allegedly because of threats received from her husband.

6. On 12 May 2010 the Iasi Forensic Institute issued a medical certificate which attested that the applicant's son presented with ecchymosis, which would need one to two days to heal. According to the applicant, the violence had been perpetrated by her husband on 10 May 2010. She also claimed that on 14 March 2011 her son had been beaten with a belt by his father.

7. On 14 June 2011 the applicant was allegedly physically and verbally assaulted by her husband. She moved out of the marital home. The children remained with their father until September 2011, when the mother took them to the paternal grandfather's home.

8. On 15 June 2011 the applicant lodged a criminal complaint against her husband in respect of the incident of 14 June 2011. On 20 June 2011 P.I.N. confessed that he had injured his wife. On 21 June 2011 the applicant informed the police that she had reconciled with P.I.N. and consequently withdrew her complaint. According to the applicant, the Iasi police had encouraged her to drop the complaint because her injuries were not serious.

9. In a report of 20 July 2011 the police established, on the basis of the parties' statements, that P.I.N. had slapped and pushed the applicant and had pulled her hair. It was also noted that the applicant had not provided a medical certificate. It noted, however, that she had withdrawn her complaint. Consequently, the police decided not to start a criminal prosecution, and its decision was upheld by the prosecutor's office attached to the Ia§i District Court on 2 September 2011. The applicant did not contest that decision before the courts.

1. Divorce proceedings

10. On 30 May 2011 the applicant sought a divorce based on the sole fault of P.I.N. He in turn lodged a counterclaim and asked the court to declare both spouses responsible for the breakdown of their marriage.

11. On 22 June 2012 the Iasi District Court dismissed the applicant's action on the grounds that no fault could be attributed to P.I.N. for the breakdown of their relationship, which had been caused exclusively by the applicant engaging in an extramarital affair. It based its decision on statements by witnesses brought before the court by both parties, medical certificates from the applicant, and a report by the child protection authority. It found as follows:

"In accordance with the applicable legal provisions, a marriage may be dissolved based on the fault of the plaintiff spouse only in the cases referred to in Article 373 (c) (at the request of one of the spouses made after a period of two years' separation). ...

It appears from the witness statements that the relationship between the spouses was normal and that the problems arose when the plaintiff initiated an extramarital affair... In June 2010 the plaintiff left the maritai home and started living with her lover *[concubin],* leaving the children with their father until September, when she took them away. ...

The plaintiff's assertions concerning the defendant's violent behaviour towards the children are not supported by evidence; the medical certificate does not prove that it was the defendant who caused the injuries [sustained by the applicant's son]. ... The severity of such violent behaviour would necessitate more timely and efficient intervention by the plaintiff, such as informing the authorities, but also removing the minors from the violent environment. The plaintiff did not do so, and the fact that she did not take any of the actions mentioned above proves that the violence was not perpetrated by the father.

The plaintiffs allegations are contradicted by her behaviour. In fact, if the minors were subject to violence, and [were in] real danger from the defendant, they should not have been abandoned by their mother. In reality, the plaintiff left her home in June and left the children with their father until September. ...

In the light of the above, it is evident that the plaintiff bears responsibility for the breakdown of the marriage in that she initiated an extramarital affair and left the marital home in June 2011. ...

In the present case, there is no evidence that the defendant [was responsible] for the breakdown of the marriage. ..."

12. On 18 March 2013 the Iasi County Court allowed an appeal by the applicant and granted the divorce based on the fault of both spouses.
13. P.I.N. lodged an appeal on points of law against this decision. He pointed out that he was a priest and that the Statute of the Romanian Orthodox Church would not allow him to continue practising as a priest if the divorce court established that his actions had contributed to the deterioration of the marriage.
14. On 9 October 2013 the Iasi Court of Appeal allowed P.I.N.'s appeal and quashed the County Court's decision. Consequently, the court did not grant the couple's divorce. It found as follows:

"A court may grant a divorce based on the sole fault of the defendant spouse when the relationship between the spouses is severely damaged and the marriage can no longer continue for serious reasons imputable to [the defendant spouse].

A court may grant a divorce based on the fault of both spouses, even when the request is made by only one spouse - if the evidence shows that both spouses are responsible for the breakdown of their marriage. ...

The evidence in the file ... did not prove that the plaintiff had left the marital home because of the defendant ... or that he had been violent with her.

Consequently, it was not proved that the defendant spouse had contributed to the separation.

For this reason, given that the evidence shows that the plaintiff alone was responsible for the breakdown of the marriage, a divorce under Article 373 (b) of the Civil Code cannot be granted.

[As] provided for in Article 373 (c) of the Civil Code, a divorce can be granted based on the sole fault of the plaintiff spouse only if the couple have been separated for a period of two years and the plaintiff spouse admits responsibility for the breakdown of the marriage; in the present case the plaintiff ... does not admit such responsibility."

2. Incident of 27November 2013

15. On 27 November 2013 while the applicant was taking the children to school, P.I.N. blocked her passage, yelled and insulted her, and attacked her with a crowbar. The children became scared and ran away during the attack. The applicant, together with two other individuals, attempted to find the children, while P.I.N. followed her by car.
16. On the same day the applicant and her children were given refuge for a period of fourteen days at a centre for the protection of victims of domestic abuse. On 12 December 2013 their stay there was extended for six months.
17. On 27 November 2013 the applicant lodged a criminal complaint against P.I.N. in respect of the incident which had taken place that morning. On 6 February 2014 the Ia§i police initiated criminal proceedings against P.I.N. for threatening behaviour and domestic violence. On 25 November 2014 the prosecutor's office attached to the Ia§i District Court ended the investigation, as there was no evidence to support the applicant's allegations. The applicant did not contest that decision before the courts.

18. On 11 December 2013 the applicant applied to the Iasi District Court for a protection order against P.I.N. following the incident of 27 November 2013.
19. On 7 February 2014 a psychological assessment established that the violent episode had had a negative impact both on the children and on the applicant. It was noted that the children had been experiencing fear, anger, and intense negative feelings, while the applicant had been suffering from episodes of anxiety and depression.
20. On 13 February 2014 the Iasi District Court allowed the applicant's application (see paragraph 18 above) and issued a protection order against P.I.N. It ordered him to stay at a distance of no less than 20 metres from the applicant and her children, and no less than 100 metres from her place of work and the children's school. The court relied on witness statements, statements by the children (who had expressed negative feelings towards their father) and psychological reports.
21. On 17 February 2014 P.I.N. appealed against the order, but in a final decision of 6 August 2014 the Ia§i County Court dismissed the appeal and upheld the protection order.

3. New divorce proceedings

22. On 18 March 2014 the applicant requested a divorce based on the sole fault of P.I.N. In his counterclaim P.I.N. asked the court to find the applicant solely responsible for the breakdown of their marriage. On the date of the last communication to the Court from the parties on this issue (11 July 2017), the proceedings were pending before the Ia§i District Court.

B. Relevant domestic law

23. The Civil Code, as applicable at the time of the relevant events, provided as follows:

Article 373 - Grounds for divorce

"A divorce may be granted:

a. with the agreement of both spouses or at the request of both spouses or one spouse and accepted by the other spouse;

b. when, for good reasons *[motive temeinice],* the relationship between the spouses has severely deteriorated and their marriage can no longer continue;

c. at the request of one of the spouses, after at least two years of separation;

d. at the request of the spouse whose state of health renders the continuation of the marriage impossible."

Article 379 - Divorces based on fault: conditions

"(1) In the cases referred to in Article 373 paragraph (b), a divorce may be granted if the court establishes the sole fault of one of the spouses for the deterioration of the marriage. However, if both spouses are responsible, the court may grant a divorce based on the fault [of both spouses], even if only one spouse requested the divorce. If the fault lies solely with the claimant, the provisions of Article 388 shall apply.

(2) In the cases referred to in Article 373 paragraph (c), a divorce shall be granted based on the sole fault of the claimant, unless the defendant agrees to the divorce, in which case a divorce shall be granted without the attribution of fault."

Article 388 - Right to compensation

"Notwithstanding the right to compensation provided for in Article 390, the spouse who bears no responsibility for the divorce but who suffers harm as a result of the breakdown of the marriage may request compensation from the spouse who is at fault ..."

24. Under Article 389 of the Civil Code, a spouse who is unable to work may request Financial support and, under Article 390 of the Civil Code, if the marriage lasted for at least twenty years the spouse who was not at fault for the breakdown of the marriage may receive a compensatory allowance in order to rectify any significant alteration in lifestyle caused by the divorce.

25. The relevant provisions of the Criminal Code, the Code of Criminal Procedure, and Law no. 217/2003 on the prevention and fight against domestic violence are summarised in *E.M. v. Romania* (no. 43994/05, §§ 41-45, 30 October 2012).

COMPLAINTS

26. The applicant complained under Article 8 § 1 of the Convention that the refusal to grant her a divorce from her abusive husband had forced her to maintain a marriage which did not correspond to her real-life situation. It had furthermore compelled her and her children to return to a violent environment, which had caused them additional psychological trauma. She submitted that the evidence substantiating her claims of domestic violence had been overlooked by the courts, which had led to a breach of her and her children's right to physical and psychological integrity.

27. The applicant complained under Article 3 of the Convention that the refusal to grant her a divorce had constituted a form of tolerance towards domestic violence, having deprived her and her children of adequate protection from P.I.N.'s subsequent violent behaviour on 27 November 2011.

28. Under Article 5 Protocol No. 7 to the Convention, the applicant complained that her request for a divorce had been refused in order to protect her husband in his capacity as a priest.

THE LAW

A. Complaint under Article 8 of the Convention on account of the divorce proceedings

29. The applicant complained, under Articles 3 and 8 § 1 of the Convention, that the refusal to grant her a divorce from her abusive husband had forced her to maintain a marriage which did not correspond to her real-life situation. Under Article 5 Protocol No. 7, she also complained that her request for a divorce had been refused in order to protect her husband because of his profession.

30. The Court, which is master of the characterisation to be given in law to the facts of the case (see *Radomilja and Others v. Croatia* [GC], nos. 37685/10 and 22768/12, § 114, 20 March 2018), will examine the complaint from the standpoint of Article 8 alone (see, for example and *mutatis mutandis, Cristescu v. Romania,* no. 13589/07, § 50, 10 January 2012, and *Jovanovic v. Sweden,* no. 10592/12, § 53, 22 October 2015).

31. This provision reads as follows:

"1. Everyone has the right to respect for his private and family life, his home and his correspondence.

2. There shall be no interference by a public authority with the exercise of this right except such as is in accordance with the law and is necessary in a democratic society in the interests of national security, public safety or the economic well-being of the country, for the prevention of disorder or crime, for the protection of health or morals, or for the protection of the rights and freedoms of others."

1. The parties' observations

32. The Government accepted that the claim fell within the ambit of Article 8 and that the applicant had suffered an interference with the right to respect for her private life. They nevertheless argued that the interference had been in accordance with the law, specifically Articles 373, 379, 388, and 390 of the Civil Code. More particularly, the Government explained that, under the provisions of Articles 373 (b) and 379 of the Civil Code, the courts could not grant a divorce based on the sole fault of the claimant spouse if the defendant spouse had not requested a divorce as well.

33. They also contended that the interference with the applicant's rights had pursued the legitimate aim of protecting the procedural rights of others.

34. The Government argued that the interference had been proportionate to the legitimate aim pursued. They reiterated that the applicant had not accepted any responsibility for the breakdown of her marriage, thereby making it impossible for the domestic courts to grant the divorce. She could have amended her initial application in order to allow the domestic courts to grant the divorce. However, although she had been assisted by a lawyer, she had not used this avenue. Moreover, the Government pointed out that the divorce had been granted before the incident of 27 November 2013 (see paragraph 15 above).

35. Lastly, the Government pointed out that, in accordance with the applicable law, the applicant had been free to lodge a new petition for divorce, in which case the domestic courts would have examined the situation in the light of the above-mentioned incident.

36. The applicant pointed out that she had not met the requirements set forth in Article 373 (c) of the Civil Code as she had not been separated from her spouse on the date when she had filed for divorce. In any case, she argued that the courts had ignored the evidence pointing to her spouse's violent behaviour, thereby breaching the children's best interests. She submitted that the courts had been influenced by the fact that P.I.N. was a priest and that the divorce would damage his career and tarnish his image as a righteous and gentle person. She also reiterated that in denying her the divorce, the courts had artificially maintained the marriage, in contradiction of her real-life situation. She concluded that the interference with her right to respect for her private life had not been necessary in a democratic society.

2. The Court's assessment

37. The Court makes reference to the general principles that it has established for the protection of the right to respect for private life (see, notably, *Babiarz v. Poland,* no. 1955/10, §§ 46-50, 10 January 2017, with further references). In particular, it reiterates that in the area of framing their divorce laws and implementing them in concrete cases, the Contracting Parties enjoy a wide margin of appreciation in determining the steps to be taken to ensure compliance with the Convention and to reconcile the competing personal interests at stake (ibid., § 47).

38. Turning to the facts of the present case, the Court notes that the domestic courts examined the facts in detail and in the proper context of domestic law. The applicant had an opportunity to present her position to the court and bring evidence. The reasoning of both the first-instance and appellate court contained a detailed explanation of the interests that were taken into account, how the evidence was assessed and what the grounds were for the decision to dismiss her petition for divorce (see paragraphs 11 and 14 above).
39. Moreover, at the time when the courts examined the divorce petition she was unable to produce conclusive evidence of abusive behaviour on the part of her spouse (see, in particular, the findings of the court of first instance, in paragraph 11 above).
40. The Court has previously held that a request for a divorce should not be granted regardless of the procedural and substantive rules of domestic divorce law, by a person simply deciding to leave his or her spouse (see, *mutatis mutandis, Babiarz,* cited above, § 54).
41. Lastly, the Court notes that the applicant was not prevented from submitting a new petition for divorce (see paragraphs 22 and 34 above) which the domestic courts will examine in the light of the new circumstances of the case and on the basis of the evidence that the parties will present.
42. In view of the above, the Court considers that the positive obligations arising under Article 8 of the Convention did not impose a duty on the national authorities to accept the applicant's petition for divorce as formulated by her.
43. Accordingly, this complaint is manifestly ill-founded and must be rejected in accordance with Article 35 §§ 3 (a) and 4 of the Convention.

B. Complaint under Articles 3, 8 and 14 of the Convention on account of domestic violence

44. The applicant complained under Articles 3 and 8 of the Convention that the refusal to grant her a divorce had constituted a form of tolerance towards domestic violence, having deprived her and her children of adequate protection from P.I.N.'s subsequent violent behaviour. The Court will examine this complaint also under Article 14 of the Convention (see paragraph 30 above and *Opuz v. Turkey,* no. 33401/02, § 191, ECHR 2009). Articles 3 and 14 of the Convention read as follows:

Article 3

"No one shall be subjected to torture or to inhuman or degrading treatment or punishment."

Article 14

"The enjoyment of the rights and freedoms set forth in [the] Convention shall be secured without discrimination on any ground such as sex, race, colour, language, religion, political or other opinion, national or social origin, association with a national minority, property, birth or other status."

1. The parties' observations

45. The Government argued that the applicant had not complained that after the incident of 27 November 2013 the authorities had remained passive and had tolerated the domestic violence to which she had fallen victim. Therefore, they considered that the applicant had not raised a complaint under Articles 3, 8 or 14 concerning this aspect. Consequently, such a complaint did not fall within the scope of the application.

46. The Government contended that the applicant had failed to exhaust domestic remedies, in so far as she had not lodged a complaint with the courts against the prosecutor's decision of 25 November 2014 (see paragraph 17 above). Relying on *E.M. v. Romania* (no. 43994/05, § 62, 30 October 2012) the Government argued that the system put in place by the respondent State had offered the applicant an effective remedy for bringing her allegations of domestic violence before the authorities.
47. On the merits, concerning the first criminal complaint (see paragraph 8 above) the Government argued that the applicant had not submitted a medical certificate, thereby rendering it impossible for the authorities to assess the severity of her injuries. In this context, her allegation that the police had advised her to withdraw her complaint for any lack of serious injuries was ill-founded in so far as the authorities had had no means of assessing her injuries.
48. As for the complaint raised under Article 14, the Government pointed out that the police had never tried to dissuade the applicant nor had they considered that the matters were strictly private.
49. The applicant reiterated that the courts had ignored the abuse committed by her husband against her and had taken his side because of his social position and profession. She further argued that in ignoring the abuse, the authorities had enabled the perpetrator and made it possible for more violence to take place, in particular the episode having led to the adoption of the protection order (see paragraphs 15 and 20 above).

2. The Court's assessment

50. At the outset, the Court notes that the Government suggested that the applicant had not raised a complaint concerning domestic violence with the Court. However, the Court will not examine this objection because, in any event, this complaint is inadmissible for the reasons explained below.

51. The Court has already had the opportunity to examine the mechanism put in in place by the respondent State to combat domestic violence. It noted that the law allowed victims to bring their grievances before the domestic authorities and obtain their protection, and that the system was functional (see *E.M. v. Romania,* cited above, § 62).

52. Turning to the facts of the case under examination, the Court notes that the applicant complained to the police on two occasions about her husband's aggressive behaviour (see paragraphs 8 and 17 above). Both times the police investigated the claims (see, in contrast, *Opuz,* cited above, §§ 143-44, and *Talpis v. Italy,* no. 41237/14, § 117, 2 March 2017). With respect to the first incident, the police considered that P.I.N. had injured the applicant, but took note that she no longer wished to pursue her complaint (see paragraph 9 above). The Court does not find any indication that the authorities disregarded the seriousness of the allegations brought by the applicant or that they carried out their duties in a perfunctory manner (see, in contrast, *Opuz,* cited above, §§ 199-200, and *Eremia v. the Republic of Moldova,* no. 3564/11, § 89, 28 May 2013. With respect to the second incident, the prosecutor concluded that there was no evidence to support the allegations of domestic violence (see paragraph 17 above). In both cases, the applicant failed to complain

about the prosecutor's decision.

53. The Court reiterates that there is a duty on the part of the authorities to assess the opportunity of continuing the investigations even when the victim withdraws her action (see *Opuz,* cited above, § 138). However, in the present case, it was not proven that the violence committed by P.I.N. had been sufficiently serious to warrant prosecution and that there had been a constant threat to the applicant's physical integrity (see, in contrast, *Opuz,* cited above, § 168).

54. On this point, the Court reiterates that, under the applicable law, if the applicant considered that the public prosecutor's decision could be argued as not being justified by the available evidence, it was open to her to appeal to the domestic courts which could, on examination of the provisions of the domestic law and the evidence, including witness statements and medical reports, have directed that a prosecution or other investigatory measures be carried out. The Court has already established that such a remedy is effective within the meaning of the Convention (see *Stoica v. Romania*, no. 42722/02, §§ 105-09, 4 March 2008, and *Ciubotaru and Others v. Romania* (dec.), no. 33242/05, § 59, 10 January 2012). The applicant gave no explanation why, in her particular case, it would not have been effective in practice. For this reason, the Court cannot but conclude that the applicant should have pursued the remedy to its completion, and challenged the prosecutor's decisions before a court.

54. The Court also notes that, in addition to the criminal complaint mechanism, the applicant fully benefited from the authorities' protection in the form of her immediate refuge in a centre for the protection of victims of domestic abuse (see paragraph 16 above) and the protection order issued against P.I.N. (see paragraph 20 above, and also, in contrast, *Opuz,* § 172, and *Talpis,* § 144, both judgments cited above).

55. For these reasons, the Court concludes that the mechanism put in place for the protection of victims of domestic violence, in so far as the applicant made use of it, was effective in practice (see, in contrast, *Opuz,* cited above, § 199). The authorities have therefore complied with their positive obligations.

56. Accordingly, this complaint is manifestly ill-founded and must be rejected in accordance with Article 35 §§ 3 (a) and 4 of the Convention.

For these reasons, the Court, unanimously,

Declares the application inadmissible.

OGGETTO: cessazione degli effetti civili del matrimonio.
CONCLUSIONI DELLA RICORRENTE: come da foglio allegato,

CONCLUSIONI DEL RESISTENTE: come da foglio allegato.

MOTIVI IN FATTO ED IN DIRITTO DELLA DECISIONE

La domanda diretta ad ottenere la declaratoria di cessazione degli effettivi civili del matrimonio contratto dalle parti il 25/05/2007 in. è fondata e meritevole di accoglimento. Da quanto risulta, le parti vivono in stato dì separazione fin dalla loro comparizione avanti il Presidente di questo Tribunale, avvenuta il 20/05/2014 nel corso del giudizio di separazione (conclusosi con decreto di omologa del 21/05/2014) e tra loro non vi é più. stata riunione.

Lo stato di separazione protrattosi per anni, l'esistenza del presente ricorso ed il vano esperimento del tentativo di conciliazione dimostrano che l'unione materiale e spirituale tra i coniugi non può essere ricostituita.

Per quanto concerne l'affidamento del minore M deve prendersi atto che l'attrice ha aderito al suggerimento transattivo del Tribunale in ordine alla conferma del regime di affidamento del figlio ai Servizi Sociali di

già disposto dal Giudice Istruttore in corso di causa, con contestuale incarico agli stessi di approntare le più opportune misure a sostegno della genitorialità, stante l'elevata conflittualità tra i due genitori, mentre il resistente, pur accettando l'affidamento del figlio all'ente come soluzione provvisoria, ha di fatto concluso in via definitiva per l'affido condiviso con il collocamento prevalente di M presso di sé. A tale proposito, tuttavia, deve precisarsi che l'ordinario regime di affido condiviso ben può essere oggetto di deroga sulla base di adeguate motivazioni circa l'incapacità dell'altro genitore di assicurare tutte le responsabilità derivanti dal proprio ruolo la quale, di conseguenza, potrebbe pregiudicare il futuro benessere della prole.

Tale conclusione, che si trova affermata dalla giurisprudenza di merito e di legittimità, spesso chiamata all'applicazione dell'art. 337-quater C.C. in combinato

disposto con l'art. 337-ter C.C., individua nella centralità dell'interesse del minore, cui fa riferimento la norma appena citata, quella specie di bussola che serve ad orientare l'interprete nella scelta dell'una o dell'altra forma di affidamento del minore, un interesse da intendersi riferito, come chiarito dalla Suprema Corte (v. ex multis Cass. 22/09/2016 n° 18559) "alle fondamentali ed imprescindibili esigenze dì cura, educazione, istruzione e sana ed equilibrata crescita psico-fisica"; pertanto, la giurisprudenza ha provveduto a fissare alcuni criteri, al riguardo, che possono compendiarsi: nella idoneità o incapacità di uno dei genitori a prendersi cura del minore, che può anche essere resa manifesta da un conclamato disinteresse nei confronti del medesimo; nel rifiuto del minore a rapportarsi con uno dei genitori; nel mancato pagamento, da parte del coniuge obbligato, del contributo di mantenimento a favore del minore rivelando la circostanza un atteggiamento incompatibile con i doveri di cura, assistenza ed educazione del minore (Cass. 26587/2009); nel comportamento del genitore che non rispetti il regime delle visite violando così il primario diritto dei figli minori di mantenere rapporti continuativi con entrambi i genitori (Tribunale di Caltanissetta 30/12/2015; nel comportamento del genitore assente, disinteressato alla vita del figlio minore talvolta, addirittura, irreperibile (Tribunale di Napoli 594/2016).

Nel caso concreto, il Giudice Istruttore aveva preso atto che le divergenze tra le parti avevano assunto un livello talmente elevato da! concretizzare un serio pericolo di pregiudizio per il minore, come era emerso all'udienza del 05/04/2017, in occasione della quale era stato riferito di un intervento dei Carabinieri a seguito del presunto affidamento del bambino a persone che il resistente non aveva reputato adeguate (il fratello della ricorrente, pregiudicato).

Gli stessi Servizi Sociali del Comune di hanno riferito di essere stati costretti più volte ad intervenire a causa del clima di recriminazioni reciproche e di difformità di vedute riguardanti perfino i tempi di permanenza di M presso il padre, l'organizzazione della festa di compleanno ed il passaggio del vestiario in occasione dei trasferimenti del bambino; del resto, l'incomunicabilità tra i coniugi è resa palese perfino dall'impossibilità di avviare in concreto il percorso di mediazione a cui gli stessi- a parole- avevano aderito per poi non accordarsi sulla scelta dell'organismo.

Alla stregua di quanto riferito dai Servizi Sociali anche nell'ultima relazione del 07/12/2018 (che delinea uno stato di perenne conflittualità tra le parti che induce a dubitare dell'esistenza degli stessi presupposti per intraprendere un percorso di mediazione), appare opportuno confermare il già disposto affidamento di M al Comune di

affinché venga predisposto un percorso di sostegno alla genitorialità seguito poi da uno di mediazione familiare presso il o ad altro centro scelto dalle parti, onde ridurre l'elevata conflittualità che interferisce pesantemente con una rispettosa ed efficace comunicazione reciproca e con i rispettivi ruoli genitoriali e ciò pur prendendosi atto delle diverse conclusioni della C.T.U., che propendeva per un affido condiviso di cui allo stato non si ravvisano, tuttavia, i presupposti per le motivazioni sopra addotte; del resto, la stessa dottoressa ha dato atto dell'assenza di una dimensione di reale genitorialità condivisa, una situazione da reputarsi suscettibile di coinvolgere la sfera emotiva del bambino, come nell'episodio dell'iscrizione scolastica.

Per quanto attiene alla regolamentazione del diritto di visita paterno, si reputa, invece, opportuno adottare le modalità suggerite dalla C.T.U. così come precisate con nota dèi 18/05/2018, avendo la dottoressa dato atto dell'esistenza di una solida relazione tra il B ed il figlio che, pur in assenza delle condizioni per un collocamento paritario, deve essere comunque preservata con una dimensione temporale quantitativamente significativa (circostanza che emerge dalla relazione dei Servizi Sociali, che dipinge M come un bambino sereno e vivace, che manifesta sentimenti di affetto per entrambi i genitori).

Per quanto concerne la quantificazione dell'assegno mensile in favore del figlio, si stima equo confermare la misura di € 300 stabilita dal Presidente del Tribunale (corrispondente alla proposta di bonario componimento del Giudice Istruttore, a cui ha aderito la sola ricorrente), cui si aggiungono la rivalutazione annua I.S.T.A.T. ed il 50% delle spese straordinarie come da protocollo della Corte di Appello di Milano, trattandosi di un importo congruo rispetto alle esigenze di M ed alla situazione reddituale delle parti così come esposte in udienza presidenziale (circa € 1.300 mensili comprensivi di assegni familiari per la ricorrente e circa 6 mese per il resistente), successivamente documentate con le dichiarazioni dei redditi.

Infine, può confermarsi l'assegnazione alla ricorrente della casa coniugale in quanto collocataria della prole.

Alla sostanziale soccombenza del resistente in ordine alle domande relative al contributo al mantenimento ed al regime di affidamento/co fiocamente della prole consegue il suo obbligo di rifondere le spese di lite sostenute dalla ricorrente come da quantificazione operata in dispositivo; invece, si reputa equo porre i costi della C.T.U. nella quantificazione già operata dal Giudice in corso di causa a carico delle parti al 50% per ciascuna, posto che tale incombente è stato reso necessario dalla conflittualità alimentata da entrambi.

INTERVENTORE *EX LEGE*

CONCLUSIONI

Le parti concludevano come da verbale dell'udienza del 26.9.18

MOTIVI DELLA DECISIONE

Con ricorso depositato ritualmente L G chiedeva che venisse pronunciato lo scioglimento del matrimonio celebrato con C F: 1' 11.11.2011 a S Riferiva che dal
matrimonio era nata una figlia C (il 21.11.2011) e che tra le parti era venuta meno la comunione materiale e spirituale con sentenza n. 742.15 del Tribunale di -, e che la stessa non potrebbe più ricostituirsi. Chiedeva l'affido esclusivo a sé della figlia con collocazione prevalente presso di sé, la regolamentazione delle modalità di visita tra la madre e la minore attraverso un intervento esterno ed un contributo materno al mantenimento della figlia. Dopo aver ricostruito la vicenda separativa, esponeva in particolare che la C era un genitore completamente inidoneo e aveva tenuto una condotta altamente pregiudizievole per il benessere psico-fisico della figlia, da un lato con un

comportamento trascurante e superficiale persino nelle cure sanitarie di *C* dall'altro con ripetuti episodi di abbandono della figlia e destabilizzanti per la piccola (instaurando diverse relazioni affettive, cambiando spesso dimora, lasciando la figlia con la nonna materna nonostante la precisa contraria prescrizione da parte del Tribunale, ecc.).

Instauratosi il contraddittorio, si costituiva C F (col patrocinio di un altro legale), che contestava tutta l'avversa ricostruzione dei fatti e chiedeva l'affido esclusivo a sé della figlia con collocazione prevalente presso di sé, con la regolamentazione delle modalità di visita tra padre e figlia e stabilire il concorso paterno al mantenimento della figlia, oltre a richiedere la condanna del ricorrente al risarcimento del danno subito ai sensi dell'art.709 *ter* c.p.c.. Dopo aver esposto le ragioni del persistente ed aspro conflitto con il ricorrente (sfociato anche in varie denunce-querèle per fatti gravi), riferiva di continui "atti persecutori" da parte del marito nei propri confronti e della propria volontà di essere presente in modo continuativo nella vita della figlia.

All'udienza fissata a norma dell'art. 4 della Legge 898/70 comparivano le parti e, risultato vano il tentativo di conciliazione, il Presidente f.f.,dopo aver emesso i provvedimenti temporanei ed urgenti ed evidenziato le violazioni delle parti a quanto già statuito dal Tribunale nella fase della separazione e successivamente nonché la mancata attivazione del percorso di sostegno genitoriale già ampiamente sollecitato dal Tribunale, con chiara imposizione alla resistente di non allontanarsi con la minore per oltre 200 km dal luogo di residenza, disponeva la comparizione delle parti avanti al G.I..

Depositate le memorie integrative e trattata la causa, emergeva subito la forte conflittualità tra le parti, sicché era disposta c.t.u, psicologica sull'intero nucleo familiare; le parti richiedevano i termini di cui all'art. 183 c.p.c. e la sentenza parziale di divorzio. Decisa la causa sullo *status,* era poi rimessa sul ruolo istruttorio on la concessione dei termini richiesti. Depositata la c.t.u. psicologica ed acquisite le relazioni dei servizi sociali, la causa era ritenuta matura per la decisione.

Precisate, pertanto, le conclusioni all'udienza del 26.9.18, la causa era rimessa al Collegio per la decisione con la concessione alle parti dei termini di legge di 60 giorni per il deposito di comparse conclusionali e di giorni 20 per il deposito di memorie di replica.

Preliminarmente il Tribunale dà atto che con sentenza n. 1772.17 è già stato dichiarato lo scioglimento del matrimonio tra le parti, con rimessione del fascicolo sul ruolo istruttorio per l'ulteriore corso.

Per quanto concerne le condizioni da porre alla base della sentenza di divorzio, questo Tribunale ha rilevato, all'esito dell'attività istruttoria e delle comparizioni personali delle parti, un'elevatissima conflittualità, che si è riverberata e continua a ripercuotersi inevitabilmente sulla bambina e sul suo equilibrato sviluppo: proprio per questa conflittualità tra i genitori è stata disposta una consulenza psicologica sull'intero nucleo familiare, con monitoraggio da parte dei servizi sociali, al fine di comprendere la reale situazione familiare e verificare in concreto le condizioni psicologiche dei genitori e della figlia, ovvero se vi fossero condizioni ostative all'affido condiviso, o comunque emergessero problemi nell'ambito relazionale genitori-figlia.

Ebbene, disposta la relazione psicologica ed acquisiti i rapporti dei Servizi sociali territorialmente competenti, emergeva sempre una forte conflittualità tra i genitori e che la minore risultava coinvolta in un conflitto molto grave. Ciò in verità si rilevava già dall'esame dei documenti prodotti nel processo, in particolare dalla documentazione dei diversi procedimenti e processi penali a carico delle parti per diverse tipologie di reato (di cui all'art. 574 c.p., all'art. 388 c.p., all'art. 167 D. L.vo 196/2003, all'art. 572 c.p., all'art. 582 c.p., ecc.).

Va premesso che questa complessa e travagliata vicenda, che, come ha rilevato il c.t.u., ha coinvolto e continua a coinvolgere in modo significativo lo sviluppo psico-evolutivo di C , è stata oggetto di precedente precisa analisi peritale nella fase della separazione (ove era stato evidenziato uno scenario caratterizzato da dinamiche genitoriali molto conflittuali, rapporti estremamente instabili tali da avere un negativo e disturbante riflesso sul vissuto della bambina e sul suo bisogno di continuità e di stabilità affettiva e relazionale).

Il c.t.u. dava atto delle carenze e delle criticità che caratterizzavano la relazione genitoriale con la figlia, sì da porre il rischio di una severa compromissione evolutiva derivante dalla sovraesposizione della bambina a situazioni ambientali, emotive e relazionali caratterizzate da imprevedibilità, discontinuità affettiva, instabilità emotiva da parte della figura materna, *"esponendola ad un meccanismo di illusione e disillusione affettiva gravemente lesivo per il suo processo di adattamento e di ri-assestamento emotivo"* (cfr. relazione di c.t.u. del 24.6.16 depositata agli atti).

Nell'elaborato reso in questo processo il c.t.u. ha evidenziato la persistente mancanza di comunicazione tra i genitori (dalla suddivisione dei periodi di vacanza, alia negoziazione per la scelta della figura terapeutica cui affidarsi per i trattamenti di C , dalla modifica del calendario di visita materno alle condizioni sanitarie della bambina, etc.) e la loro continua conflittualità manifestatasi con *"un carteggio frequentissimo, per non dire quasi giornaliero, tra i legali, a conferma della precarietà delle dinamiche osservate anche in chiusura della precedente CTU e della scarsa solidità dell'apparente modifica delle posizioni genitoriali",* nonostante la capillarità delle indicazioni psicologiche già fornite alle parti in fase di separazione e successiva modifica.

Ciò, reputa l'ausiliario del giudice, è gravemente destabilizzante per C *, "trasmettendole e rinnovando un prevedibile e dannoso senso di impotenza, obbligandola al confronto con nuove scissioni ed incertezze con l'inconciliabilità delle sue istanze emotive, con una rappresentazione della figura materna, desiderata ma ancora vissuta come deludente e poco affidabile e del paterno potente e prevalente, ma ancora impegnato a contenere, regolare e stabilizzare le oscillazioni emotive, il senso di smarrimento e di confusione"* (cfr. c.t.u, dep. il 20.5.2018).

Per il c.t.u., nel ricorrente prevale un forte vissuto di risentimento nei confronti della ex moglie per l'anarchia nella gestione dei tempi, delle alternanze infra-settimanali, ecc., ma egli è sempre presente nel tutelare C dalle instabilità materne, e la sua solidità ha consentito a C *"nel riproporsi di eventi e cambiamenti di notevole spessore affettivo-relazionale e di particolare pericolosità per le peculiarità del suo*

funzionamento, di mantenere inalterate quelle coordinate strutturanti che hanno contenuto ed attenuato il suo senso di smarrimento, di arginare le spinte scissionali. La percezione del padre come figura presente e protettiva, capace di contenerla, ha permesso a C di non sentirsi sopraffatta dall'irruzione di sentimenti di sconforto, di confusione emotiva, di impotenza e dalla negazione della sua identità, di poter ancora integrare e riconoscere parti infantili, limitando il sovraccarico del dover gestire le dinamiche adulte, da cui ha rischiato di essere fagocitata e con il rischio di esserne ancora travolta'.

La C , invece, è apparsa in uno stato di evidente imbarazzo emotivo per il proprio comportamento, avendo preso consapevolezza di aver agito sottovalutando i suggerimenti clinici forniti nell'interesse della minore, riferendo di uno stato di disorientamento, di delusione e di malessere soggettivo.

La madre è apparsa piuttosto vulnerabile, il legame della piccola con la madre si è rivelato ambivalente, denso di angosce di perdita e di sensi di abbandono.

La figura paterna, invece, sia pur con i limiti personologici, è stata, nel tempo ed in modo coerente, l'unica figura garante degli equilibri della figlia, offrendole le dovute sicurezze affettive.

Alla fine il c.t.u. conclude ritenendo che C sperimenta solo il contesto di riferimento paterno come solido punto di riferimento, che ha la funzione di rassicurarla, mentre il contesto materno, che C; *"vive come rappresentazione mentale ancora fragile e non funzionale per i suoi bisogni di stabilità e di sicurezza, si connota per una comprensibile ed accentuata ambivalenza, tra desiderio di certezze e di investimenti affettivi che possano garantire la costruzione di un legame di fiducia stabile con la figura materna e sentimenti di delusione affettiva e di scarsa affidabilità".*

Pertanto, le conclusioni del c.t.u. evidenziano la necessità di disporre un affido esclusivo della minore al padre (ma con l'esigenza di verifica dell'andamento della situazione nel tempo) con collocamento prevalente presso l'abitazione patema per il bisogno di dare alla piccola continuità e coesione nonché per la necessità di essere rassicurata contro il rischio di ulteriori comportamenti materni impulsivi, tali da esporre la minore a fattori di pregiudizio, mancando peraltro ipotesi prognostiche affidabili nei confronti della madre,

L'ausiliario del giudice ha precisato che *^affidamento esclusivo proposto non deve essere simbolicamente e nel suo esercizio inteso né come indicazione punitiva o premiale per l uno o per l'altro genitore, né equiparato ad una scelta che voglia sancire un dislivello di potere e di dominanza di un genitore sull'altro, ma finalizzato, come in questa turbolenta situazione, a garantire alla bambina il soddisfacimento di esigenze non differibili, in presenza delle carenze materne non superate ed espresse attraverso azioni, iniziative, contrastanti cambiamenti, che hanno direttamente interferito con la vita di C*

Nel caso concreto, per tutti i motivi sopra indicati, il consulente ha suggerito anche lo svolgimento di un adeguato percorso psicoterapeutico, attraverso persone qualificate, sia per la figlia che per i genitori per aiutarli ad abbattere i conflitti ed iniziare a dialogare in modo proficuo nell'interesse di C

Ne consegue, a parere del Collegio, che, dovendo decidere ai fini dell'interesse dei minori e, quindi, trovare la migliore soluzione tale da evitare maggiori danni causati dalla disgregazione del nucleo familiare onde assicurare loro il miglior sviluppo della personalità in un contesto di vita quanto più adeguato alla soddisfazione delle proprie esigenze materiali, morali e psicologiche, nell'interesse della minore, vada disposto l'affido esclusivo della bimba al padre con collocamento prevalente presso l'abitazione paterna, e sollecitando i percorsi espressamente consigliati dal consulente.

Ebbene, è noto che, dall'interpretazione dell'art. *337-quater* C.C. in combinato disposto con Kart. 337-*ter* C.C., emerge la centralità dell'interesse del minore per orientare l'interprete nella scelta dell'una o dell'altra forma di affidamento della prole, un interesse da intendersi riferito, come chiarito dalla Suprema Corte (v. *ex multis* Cass. 22/09/2016 n° 18559) "*alle fondamentali ed imprescindibili esigenze di cura, educazione, istruzione e sana ed equilibrata crescita psicofisica".*

La legge (art, *337-quater* C.C.) prevede solo che l'affidamento esclusivo ad uno dei genitori possa essere disposto quando l'affidamento all'altro sia contrario all'interesse del minore, non precisando, dunque, gli specifici casi in presenza dei quali il Giudice è tenuto a disporre la misura in questione; pertanto, la giurisprudenza ha provveduto a fissare alcuni criteri al riguardo, che possono compendiarsi: nella idoneità od incapacità di uno dei genitori a prendersi cura del minore, che può anche essere resa manifesta da un conclamato disinteresse nei confronti del medesimo; nel rifiuto del minore a rapportarsi con uno dei genitori; nel mancato pagamento, da parte del coniuge obbligato, del contributo di mantenimento per il minore rivelando la circostanza un atteggiamento incompatibile con i doveri di cura, assistenza ed educazione del minore (v. Cass. 26587/2009); nel comportamento del genitore che non rispetti il regime delle visite violando così il primario diritto dei figli minori di mantenere rapporti continuativi con entrambi i genitori; nel comportamento del genitore assente, disinteressato alla vita del figlio minore talvolta, addirittura, irreperibile, ecc..

D'altro canto, solo un'elevata conflittualità tra i genitori (v. Cass. 22/09/2016 n° 18559), come nella fattispecie concreta in esame, può determinare la scelta dell'affido esclusivo e non anche quando la stessa rimanga nei limiti di una dialettica che non intralci la serenità e la possibilità di sviluppo psico-fisico equilibrato del minore. In effetti, la recente decisione della Corte di Cassazione 27/2017 appare coerente con i risultati interpretativi dei precedenti giurisprudenziali laddove richiama la centralità dell'interesse del minore, chiarendo che *"resistenza di una conflittualità tra i coniugi, derivante dalla particolarità caratteriale di entrambi non costituisce un motivo tale da derogare al regime ordinario dell'affidamento condiviso in favore di quello esclusivo, a meno che il primo sia pregiudizievole per l'interesse dei figli, alterando e ponendo in serio pericolo il sano equilibrio e sviluppo psico-fisico, con la precisazione che, in tal caso, la pronuncia di affidamento esclusivo deve essere sorretta da una puntuale motivazione in ordine, non solo al pregiudizio potenzialmente arrecato ai figli da un affidamento condiviso".*

Per le modalità di visita tra madre e figlia ritiene il Collegio di dover stabilire che queste avvengano con le modalità stabilite dalla c.t.u. e dettagliatamene indicati in dispositivo, tenendo conto anche degli sviluppi dell'attività lavorativa materna, della necessità che C partecipi regolarmene alle attività extra-scolastiche, a centri estivi, ecc..
Deve tenersi conto anche di quanto evidenziato nell'elaborato peritale sull'importanza che C mantenga rapporti significativi con il fratello maggiore e la nonna paterna.
Rispetto alla frequentazione con la nonna materna il c.t.u. ha precisato che la madre potrà affidarle la bambina solo in condizioni di emergenza o residuali.
Infine, i Servizi preposti al nucleo familiare provvederanno sia a monitorare il nucleo familiare, valutando in concreto la possibilità di eventuali modifiche delle modalità di visita tra madre e figlia laddove rilevino un'evoluzione positiva della condotta materna, sia a relazionare, almeno annualmente, salvo i casi d'urgenza, sulla situazione ed in particolare sul percorso della minore, al competente Procuratore della Repubblica presso il Tribunale per i minorenni, evidenziando, ove mai, la sussistenza di eventuali cause di pregiudizio.

Per quanto riguarda le statuizioni di carattere economico per il concorso al mantenimento della figlia, visti i parametri di cui all'art. 337 *quater* c.c. -co. IV- (attuali esigenze dei figli, tenore di vita goduto dai figli in costanza di convivenza dei genitori, tempi di permanenza presso ciascun genitore, risorse economiche di ogni genitore, valenza economica dei compiti domestici e di cura assunti da ogni genitore) e mentre risulta incontestato l'elevato tenore di vita tenuto dalle parti durante gli anni di convivenza, bisogna tenere conto del tempo di permanenza presso i genitori della prole, come sopra stabilito, e delle condizioni precipue degli ex coniugi.
Dall'esame degli atti di causa è emerso che il ricorrente, di circa anni, ha prodotto dichiarazioni "Al dei redditi dell'ultimo triennio passati da oltre €212.000 lordi annui a poco più di €9.000 lordi annui, in quanto, a suo dire, avrebbe cambiato attività lavorativa ed in sede presidenziale ha dichiarato di poter al massimo guadagnare in futuro €30.000 annui; ha riferito di avere un altro figlio, di oltre venti anni, al cui mantenimento contribuisce con €500 mensili e di vivere in una casa in locazione per cui ha documentato di pagare un canone locativo mensile di €700.
La resistente, di anni, ha riferito all'inizio del processo di svolgere l'attività di agente per la vendita di auto, mentre attualmente di essere stata assunta presso un centro medico, ma di cui non si conosce il reddito; ha prodotto solo la dichiarazione dei redditi dell'anno 2016 per €13.600 circa lordi; ha dichiarato di avere una relazione con un altro uomo con cui al momento non convive, e che nelle more ha acquistato una casa di abitazione a mentre prima viveva in una casa in locazione con un canone mensile di €450 mensili.
Ebbene, dall'esame delle condizioni economiche delle parti emerge al momento una sostanziale parità delle rispettive dichiarazioni dei redditi, sebbene siano incontestate da un lato le maggiori sostanze economiche del ricorrente e dall'altro lato la maggiore permanenza della figlia presso il padre.
Ne consegue, a parere del Tribunale, che possa stabilirsi che le parti provvederanno direttamente al mantenimento della figlia quando la minore si troverà presso di loro.
Le spese straordinarie di C, come stabilite nel protocollo della Corte d'Appello di previamente concordate, ovvero in caso d'urgenza, successivamente documentate, graveranno in ragione dell'80% sul padre e del 20% sulla madre, stanti comunque le pregresse migliori condizioni economiche paterne.
Per completezza dì trattazione deve osservarsi che non possono trovare accoglimento le istanze avanzate dalla difesa della resistente in sede di comparsa conclusionale, in quanto tardive e non supportate da valido riscontro probatorio.
Ritiene, poi, il Collegio di dover rigettare le istanze avanzate di condanna ai sensi e per gli effetti di cui alfart.709 *ter* c.p.c., Partendo dall'esame del disposto di cui all'art. 709 *ter* c.p.c., emerge che la *ratio* della norma è quella di consentire al Giudice del processo di pronunciare provvedimenti sanzionatovi quando constati resistenza *"di gravi inadempienze"* quanto all'esercizio della responsabilità genitoriale, o di atti che *"ostacolino il corretto svolgimento delle modalità d'affidamento",* o. più in generale, di atti che *"arrechino pregiudizio al minore".* In questi casi il Giudice può alternativamente o congiuntamente: a) modificare i provvedimenti in vigore, b) ammonire il genitore inadempiente, c) infliggere sanzioni amministrative pecuniarie. d) disporre a carico di uno dei genitori il risarcimento dei danni a favore dell'altro genitore o del figlio.
Mentre appare evidente la natura sanzionataria del provvedimento di ammonizione e dell'applicazione della pena pecuniaria, più controversa è la questione se il risarcimento del danno costituisca una forma di *punlìve damages* ovvero di sanzione privata, o debba più semplicemente ricondursi al paradigma di cui agli artt. 2043 e 2059 c.c..
Senza voler entrare nel merito specifico dell'argomento, si ritiene più corretta la prima ipotesi. Ciò si evince proprio nel caso di risarcimento del danno per mancata attuazione dei provvedimenti di affidamento ovvero di comportamenti che ne hanno ostacolato il corretto svolgimento, campo questo ove ampi sono i poteri officiosi del Giudice che adotta i provvedimenti relativi alla prole con esclusivo riferimento all'interesse morale e materiale dei figli minori: ciò induce a ritenere che i provvedimenti *ex* art. 709 *ter* c.p.c. siano ben diversi rispetto al risarcimento del danno *ex* artt. 2043 e 2059 c.c..
Non va poi sottaciuto che i provvedimenti relativi ai minori non si caratterizzano quali provvedimenti di condanna in senso proprio, con una contrapposizione di interessi tra le parti, ma tendono a realizzare un regolamento di vita nell'interesse prevalente di un terzo, il minore.
Invero, l'obbligazione da adempiere non appare predeterminata nel senso negoziale, ma trattasi di comportamenti imposti dal giudice alle parti secondo una valutazione fatta caso per caso: ne consegue che appare più corretto parlare di un generale dovere di entrambi i genitori di attenersi a comportamenti satisfattivi dell'interesse del minore, al fine di rendere il provvedimento di affidamento attuale ed efficace e di realizzare

effettivamente l'interesse del minore.

Fatta questa breve premessa teorica, va evidenziato che nella fattispecie concreta in esame, all'esito dell'istruttoria espletata ed in particolare dall'esame della c.t.u. psicologica, emerge la sostanziale osservanza dei provvedimenti giudiziali da parte dell'ex marito, mentre non si rileva lo stesso rispetto da parte della resistente. Ed infatti, non emerge che sia stato il comportamento paterno ad impedire gli incontri tra madre e figlia, ma, come rilevato anche dalla c.t.u., è stata la condotta materna a creare una frattura con la minore, o, quanto meno, un profondo senso di delusione di c •

Per quanto concerne le altre domande avanzate dalle parti (risarcimento del danno, ecc.) ritiene il Collegio che tali domande siano inammissibili, come tempestivamente rilevato *ex officio.*

La fattispecie concreta in esame impone di esaminare se sia ammissibile un *simultaneus processus* tra i giudizi di separazione e di divorzio e tali domande: il problema attiene alla possibilità di ammettere domande soggette a riti diversi, quello camerale, per l'azione di separazione o di divorzio, e quello ordinario, relativo al risarcimento del danno, ecc.

In relazione a tali ultime domande, soggette a rito ordinario (come per es. le domande di scioglimento della comunione di beni immobili, di restituzione di beni mobili, di restituzione e pagamento di somme, ecc.) proposte simultaneamente a quella di separazione o di divorzio, la prevalente giurisprudenza della Suprema Corte ritiene che Kart. 40 c.p.c. consenta nello stesso processo il cumulo di domande soggette a riti diversi soltanto in presenza di ipotesi qualificate di connessione (artt. 31, 32, 34, 35, 36), così escludendo la possibilità di proporre più domande connesse soggettivamente ai sensi dell'art, 33 e dell'art. 133 c.p.c. e soggette a riti diversi. E poiché, il giudizio di separazione o di divorzio segue il rito camerale, ne deriva che deve escludersi la possibilità del *simultaneusprocessus,* trattandosi di domande non accessorie e non legate dal vincolo di connessione, ma in tutto autonome e distinte dalla domanda di separazione o di divorzio (in questo senso v. Cass.6660/01, Cass. 27386/14) e comunque ben potendo la parte proporre tali domande una volta passata in giudicato la sentenza di separazione o di divorzio.

La giurisprudenza maggioritaria ritiene che i procedimenti di separazione e di divorzio debbano ritenersi soggetti a rito speciale, in quanto sono introdotti con ricorso e caratterizzati da una prima fase a cognizione sommaria dinanzi al Presidente del Tribunale, anche se poi si sviluppano nella fase a cognizione piena secondo il rito ordinario, con la conseguente inammissibilità della proposizione di domande soggette a rito ordinario al di fuori delle ipotesi di connessione qualificata.

Nella vertenza in esame deve, pertanto, ritenersi l'insussistenza di qualsiasi ragione di connessione ai sensi dell'art.40, co. 3 c.p.c., essendo la pronuncia di divorzio del tutto neutra in relazione a dette ulteriori domande.

Accolta la domanda nei limiti sopra indicati, tutte le ulteriori domande, istanze e deduzioni devono ritenersi assorbite e/o reiette ovvero inammissibili.

Infine, il Tribunale osserva che debba disporsi la revoca dell'ammissione della resistente al beneficio del patrocinio a spese dello Stato, in quanto non-solo ella nulla ha indicato nella parte di modulo relativa all'esposizione dei fatti di causa sulle motivazioni a fondamento della richiesta e delle prove da far valere in giudizio, così incorrendo in una violazione suscettibile di determinare l'inammissibilità dell'istanza *ex* art. 122 del Testo Unico delle Spese di Giustizia, ma inoltre non ha precisato nel corso del processo l'entità degli emolumenti ricevuti per il lavoro svolto (sul punto va sottolineato che secondo la Suprema Corte, sez. IV penale 18/09/2015 n. 40943, *"l'inganno potenziale della falsa attestazione di dati necessari per determinare al momento dell' istanza le condizioni di reddito sussiste quand'anche le alterazioni od omissioni di fatti veri risultino poi influenti per il superamento del limite di reddito"),* gravando comunque sull'interessato indicare, almeno sinteticamente, i mezzi di sussistenza (cfr. Cass. Pen. Sez, IV, 20/10/2010, n. 2616).

In considerazione del parziale accoglimento delle reciproche istanze si ritiene di dover compensare parzialmente le spese di giudizio, che vanno liquidate come indicato in dispositivo.

Le spese di c.t.u. graveranno su entrambe le parti in modo uguale in quanto l'espletamento dell'indagine è apparsa funzionale a meglio comprendere la complessa situazione famigliare.

RAGIONI IN FATTO E IN DIRITTO

Dato atto dell'emissione della sentenza divorzile nel corso del procedimento, vengono esaminate di seguito le ulteriori domande.

Decadenza dalla responsabilità genitoriale

La domanda è riferibile unicamente al figlio M minorenne, posto che il primogenito, D. è divenuto maggiorenne il

Detta domanda è comunque inammissibile, come eccepito da parte ricorrente, in quanto formulata tardivamente (né può intendersi quale accettazione del contraddittorio il fatto che il ricorrente si sia difeso nel merito, avendo egli preliminarmente svolto l'eccezione di che trattasi).

Entrambe le parti, fondamento delle proprie testi in punto di ammissibilità (o meno) della domanda di decadenza, richiamano l'orientamento delle SS, UU, della Cassazione sintetizzato nella pronuncia che segue, alla quale attribuiscono una diversa valenza rispetto al caso di specie: "Za *modificazione della domanda ammessa ex art. 183 cod. proc. civ. pud riguardare anche uno o entrambi gli elementi oggettivi della stessa ("petitum" e "causa petendi"), sempre che la domanda così modificata risulti comunque connessa alla vicenda sostanziale dedotta in giudizio e senza che, perciò solo, si determini la compromissione delle potenzialità difensive della controparte, ovvero l'allungamento dei tempi processuali*" (Cass .SS. UU. sent. n. 12310 del 15/6/2015).

Ad avviso della resistente *"nel caso di specie, la domanda di decadenza della responsabilità genitoriale, rispetto a quella di affido esclusivo, rimane collegata ai medesimi fatti portati in giudizio, sulla base degli stessi risulta più idonea a tutelare l'interesse dei figli e non ha comportato né l'allungamento dei tempi processuali, né alcuna compromissione della difesa del signor S F , che si è ampliamente profuso sulla domanda stessa".*

Osserva il Collegio che il procedimento di decadenza dalla responsabilità genitoriale è un procedimento autonomo e con finalità differenti rispetto a quello inerente alla regolamentazione della responsabilità genitoriale.

Il primo è un giudizio che investe un determinato genitore ed è volto ad accertare se questi violi, trascuri od abusi delle prerogative genitoriali arrecando grave pregiudizio al figlio, così giustificandosi la rimozione del potere decisorio in ordine alle scelte per il minore.

Il secondo è un giudizio che indaga sui rapporti tra entrambi i genitori in relazione alla co-gestione del minore ed è finalizzato ad accertare se l'affido condiviso sia coerente ovvero contrario all'interesse del minore, nel qual caso dovranno essere adottati gli opportuni correttivi, che comunque presuppongono la capacità di entrambi i genitori, pur in modo differente, di svolgere il proprio ruolo (posto che ove così non fosse - e si dovesse accedere all'ipotesi della decadenza dalla potestà - non vi sarebbe nemmeno la necessità di provvedere in punto di affido).

Per questa ragione ai fini della decadenza dalla responsabilità genitoriale è richiesta l'assistenza di una pagina 4 di 10

Difensore a favore del minore (art. 336, ult. co., c.c.), non prevista nell'ambito dei procedimenti divorzili con minori, ed è prevista la legittimazione attiva anche a favore dei parenti e del P.M. (art. 336 c.c.).

Nel caso di specie, oltretutto, le ragioni poste dalla Sig.ra S a fondamento della domanda di decadenza attengono a fatti nuovi, appresi successivamente rispetto alla costituzione in giudizio, a conferma del fatto che quello che si intende ottenere è una richiesta diversa rispetto a quella originaria (affido esclusivo), che impone adempimenti differenti, con conseguente lesione del contraddittorio ed allungamento della tempistica processuale.

Affido di M

La questione principale, sulla quale ha insistito il ricorrente anche nelle comparsa conclusiva, prima che la regolamentazione dell'esercizio della responsabilità genitoriale, è la ripresa del rapporto padre/figli (da riferirsi ora solo a M , interrottosi da vari anni.

Tale aspetto è stato approfondito anzitutto nell'ambito del giudizio di separazione, che si è in parte sovrapposto al presente in quanto il ricorso divorzile è stato promosso dal Sig. F prima che la sentenza di separazione passasse in giudicato (poi intervenuto nel corso del presente giudizio).

Nel corso di tale procedimento - conclusosi con sentenza di addebito al resistente per violazione dell'obbligo di fedeltà coniugale e per le condotte violente del ricorrente - è stata disposta l'audizione dei minori e dei S.S. incaricati di favorire la ripresa dei rapporti padre/figli.

L'assistente sociale, D.ssa , riferiva al riguardo quanto segue: *"la percezione che si ha parlando con i ragazzi è che ci sia stato effettivamente qualcosa (...) (maltrattamenti di una certa portata) io non sono in grado di stabilirlo, anche se devo dire che entrambi, anche separatamente, raccontano le stesse cose e nello stesso modo... essendovi ricordi di fatti che hanno intimorito ì ragazzi. In particolare D I anche con il non detto, con le espressioni del volto, mostra ancora vive le angosce che si porta dentro (un vissuto di ordini, botte, discussioni senza possibilità di replica, di rimproveri e sberle avanti a terzi ed altro). Per quanto riguarda M essendo più piccolo ed essendo stato meno oggetto di questi aspetti traumatici, permane il ricordo, ma il ragazzo non mostra le medesime angosce del fratello, anche perché lui dice di aver solo visto accadere queste cose sul fratello e sulla mamma ".*

Entrambi i fratelli, in sede di audizione, confermavano gli atteggiamenti maneschi e violenti del padre, riferendo delle

perplessità ad accogliere l'invito a cena di quest'ultimo *("noi però non eravamo molto*

rapporti noti può avvenire senza un percorso di avvicinamento di entrambe le parti (padre e figli), laddove il padre si è mostrato indisponibile rispetto a questa prospettiva.

D'altronde non può essere posto a carico unicamente di M - particolarmente provato da questa esperienza (ed oltretutto affetto da una forma benigna di fibroma osseo, il cui aggravamento egli associa alle violenze fisiche subite) - il compito di avvicinarsi al padre.

Piuttosto è quest'ultimo che deve dimostrare di voler fare dei passi in questa direzione, in modo costante e continuo.

In assenza di un mutato atteggiamento non avrebbe alcun senso l'approfondimento a mezzo di CTU della condizione di M il quale ha riferito in modo chiaro e ripetuto quale sia il suo vissuto, la sua sofferenza e quali siano le sue attuali difficoltà.

Tutto questo si riverbera ovviamente anche sulle determinazioni in punto di affido, che non possono essere differenti rispetto a quanto disposto in sede di separazione posto che, nei fatti, nulla è mutato ed anzi si è aggiunta la morosità del ricorrente rispetto al mantenimento dei figli.

Piuttosto, alla luce di quanto esposto e per assicurare un esercizio efficiente e funzionale dell'istituto, deve attribuirsi alla madre la responsabilità genitori al e esclusiva per le questioni straordinarie inerenti alla scuola, alla salute ed al rilascio di documenti validi per l'espatrio a favore di M

Contributo paterno per il mantenimento dei figli

Il ricorrente, artigiano edile, assume che la propria situazione economica è peggiorata in ragione anche dell'inabilità lavorativa che gli è stata riconosciuta, nella misura compresa tra 1/3 ed il 46 %, e chiede pertanto che la contribuzione ordinaria per ciascun figlio sia contenuta nella misura di 150 euro.

Tale affermazione non è credibile per le ss. ragioni.

In primo luogo la certificazione 1NPS allegata in atti non esclude la capacità lavorativa del ricorrente, ma la orienta verso attività simil impiegatizio, meno gravose per il fisico.

In secondo luogo egli, pur non producendo dichiarazioni dei redditi aggiornate (l'ultima è quella del 2014 relativa all'annualità 2013) ha dimostrato di avere continuato a svolgere l'attività imprenditoriale senza far emergere i propri guadagni, come si evince dalla documentazione acquisita anche a mezzo di Polizia Tributaria.

Ne è una riprova l'operazione immobiliare relativa all'acquisto un immobile costituito da 3 appartamenti al prezzo di euro 87 mila euro, senza che risulti l'addebito sul conto corrente degli assegni emessi, immobile che è stato rivenduto il medesimo giorno allo stesso prezzo d'acquisto.

Dovendosi escludere che il ricorrente abbia fatto un'operazione priva di senso, deve ritenersi che ciò abbia prodotto un guadagno, che però non è Cacciabile in base alle fonti in nostro possesso.

D'altro canto egli ha bonificato delle somme all'attuale compagna ('), per un importo di

circa euro 48.800,00, rispetto alle quali non è stata fornita alcuna spiegazione.

E' significativo al riguardo il fatto che l'unico assegno tracciabile dell'operazione di compravendita descritta, assegno per l'importo di euro 23 mila, sia stato versato sul conto corrente del ricorrente e dopo poco bonificato da questi sul conto della compagna.

E' evidente che quest'ultima è in realtà un prestanome per il ricorrente (che oltretutto ha la delega ad operare sul conto corrente della M \ e ciò porta a ritenere che altrettanto valga per il negozio di orologi intestato alla Sig.ra M , non essendo state indicate le disponibilità di quest'ultima (al di fuori di quanto elargitole dal F) e ciò anche prescindendo dalle di parte ricorrente circa la genuinità delle deposizioni dei testi C ed E (che hanno riferito in merito alla presenza del F in negozio) in quanto persone vicine alla resistente.

Infine, il sodalizio imprenditoriale tra il ricorrente e la compagna è stato dimostrato anche nel dibattimento relativo al procedimento a carico di questi ultimi per sfruttamento della prostituzione, conclusosi con sentenza di condanna.

Sebbene questa non sia definitiva, gli elementi acquisiti hanno indubbia rilevanza in questa sede, *in primis* per quanto concerne i riscontri forniti in ordine all'addebito (vd. gli accertamenti fatti dalla P.S., le deposizioni dei clienti della struttura, il materiale rinvenuto, ecc.), *in secundis* per quanto concerne (ed è ciò che rileva in questa sede), la lucrosità di quest'attività, esercitata negli spazi prima adibiati ad ufficio del F , il quale ha ammesso che era a conoscenza dell'utilizzo per massaggi erotici e di avere prestato la propria opera per pubblicizzarlo (vd. sent. in atti).

Il F non è credibile quando nel dibattimento penale nega di avere beneficiato dei lauti guadagni di questa attività, ma è significativo che egli abbia riferito, a supporto del proprio assunto, di avere una propria *'"attività imprenditoriale lucrosa'"* (assunto ribadito dalla difensore, portando argomentazioni volte a provare che il F ' svolga *"un 'attività imprenditoriale di successo",* vd. sent. in atti).

D'altronde sul profilo social egli mostra di fare con la compagna un tenore di vita agiato (come allegato dalla resistente).

Gli elementi esposti stridono con la morosità del ricorrente in relazione alle somme stabilite in sede di separazione e confortano la richiesta di parte resistente di elevazione della contribuzione paterna, tenuto conto dell'incremento delle necessità dei ragazzi e del fatto che di queste si faccia carico in via esclusiva la madre, che non ha certamente le capacità economiche del padre.

Per tale ragione la contribuzione paterna ordinaria viene quantificata in euro 450,00 per ciascun figlio, ferma restando la contribuzione per le spese straordinarie, come stabilite dal protocollo adottato dalla Corte d'Appello di , nella misura del 50 %.

Assegno divorzile per la resistente

La domanda di assegno divorzile svolta dalla resistente va disattesa per difetto di prova.

Era onere della Sig.ra S fornire la prova dell'incolpevole assenza di mezzi adeguati, attraverso i tentativi fatti per il reinserimento nel mondo del lavoro, mentre appare evidente la contraddizione tra la domanda di ammissione al patrocinio a carico dello Stato, ove ha dichiarato un reddito pari a zero, e quanto riferito in sede Presidenziale, ove ha ammesso di svolgere attività di pulizie, senza esplicitare i guadagni.

Ammissione al patrocinio a carico dello Stato della Sig.ra S

Tale ammissione va revocata in ragione dell'incongruenza esposta nel punto precedente ed in considerazione del fatto che è onere della parte beneficiata rappresentare, prima della conclusione del procedimento, le variazioni delle proprie entrate.

Spese di lite

Le spese di lite vanno compensate per 1/3 in ragione della parziale soccombenza della resistente e poste per il residuo a carico del ricorrente, posto che l'attività processuale si è concentrata soprattutto sulle questioni in punto di affido e capacità contributiva per il mantenimento dei figli.

Le spese dovute dal ricorrente si quantificano in euro 4.800,00 per compensi professionali oltre spese generali ed oneri di legge.

P.Q.M.

Il Tribunale, definitivamente pronunciando, dato atto dell'emissione della sentenza di divorzio nel corso del presente procedimento, così provvede:

1. Dichiara inammissibile la domanda di decadenza dalla potestà genitoriale promossa dalla resistente;
2. Conferma l'affido esclusivo materno del figlio M ed i provvedimenti adottati con la sentenza di separazione in ordine agli interventi dei S.S. attribuendo alla madre la responsabilità genitoriale esclusiva per le questioni straordinarie inerenti alla scuola, alla salute ed al rilascio di documenti validi per l'espatrio a favore di M
3. Dispone che il padre contribuisca al mantenimento dei figli, sino alla loro autosufficienza economica, corrispondendo alla resistente entro il 15 di ogni mese la somma di euro 450,00 per ciascun figlio sostenendo altresi il 50 % delle spese straordinarie, come previste dal protocollo adottato dalla Corte d'Appello;
4. Rigetta la domanda di assegno divorzile svolta dalla resistente;
5. Revoca l'ammissione al patrocinio a carico dello Stato a favore della resistente;
6. Compensa per 1/3 le spese di lite e condanna il ricorrente a rifondere alla resistente le spese residue pari ad euro 4.800,00 per compensi professionali oltre spese generali ed oneri di legge.

CONCLUSIONI

Le parti concludevano congiuntamente come da verbale dell'udienza del 25.1.19

MOTIVI DELLA DECISIONE

Con ricorso depositato ritualmente B V chiedeva a questo Tribunale che fosse pronunciata la cessazione degli effetti civili del matrimonio celebrato con C Di

Precisava che avevano contratto matrimonio in il 26\5\2007

ed erano nati due figli, entrambi minori, che tra le parti era venuta meno la comunione materiale e spirituale con decreto di omologa del 18.9.2015 di questo Tribunale e che la stessa non potrebbe più ricostituirsi. Richiedeva altresì provvedimenti in ordine all'affido dei figli, la collocazione prevalente, le modalità di visita nonché per la contribuzione al mantenimento della prole.

Instauratosi il contraddittorio, C D si costituiva in giudizio e, pur non opponendosi alla domanda di cessazione degli effetti civili del matrimonio, richiedeva porsi alla base della sentenza condizioni parzialmente difformi.

All'udienza fissata a norma dell'art. 4 della Legge 898/70, risultato vano il tentativo di conciliazione, il Presidente adottava i provvedimenti temporanei ed urgenti e rimetteva le parti avanti al G.I.

Depositate le memorie integrative e trattata la causa, le parti raggiungevano un accordo sulle condizioni da porre alla base della sentenza di divorzio. Precisate, pertanto, le conclusioni, la causa era rimessa al Collegio per la decisione senza la concessione dei termini di cui all'art. 190 c.p.c.

La domanda di cessazione degli effetti civili del matrimonio è fondata e va accolta.

Invero, emerge dalla documentazione prodotta agli atti come le parti abbiano celebrato matrimonio in
il 26.5.2007.

Fra le parti, inoltre, è intervenuta separazione con decreto di omologa del 18.9.2015 del Tribunale di

Lo stato di separazione legale tra gli stessi sussiste per gli estremi previsti dall'art.3 n.2
B della Legge 1.12.1970 n.898 come successivamente modificato.

Osserva in proposito il Collegio come dalla documentazione in alti e dalle dichiarazioni rese sia emerso che essi vivano ininterrottamente separati di fatto e di diritto dalla data della separazione e che da tale epoca non si è verificato alcun ricongiungimento fra gli stessi.

Anche dal comportamento processuale delle parti si può ritenere provato che la comunione spirituale e materiale tra i coniugi non possa essere mantenuta o ricostituita.

Per quanto concerne le altre statuizioni va rilevato che nel corso del processo le parti hanno raggiunto un accordo in ordine alle condizioni da porre a base della sentenza di divorzio.

Ritiene il Collegio che possano essere confermate le condizioni stabilite dalle parti e, poiché non contrastano con norme inderogabili e sono nell'interesse della prole, le stesse possono essere poste alla base della decisione del Tribunale.

Devono essere eseguite le formalità di legge.

Ritiene il Collegio che le spese di lite vadano completamente compensate in considerazione del comportamento processuale delle parti.

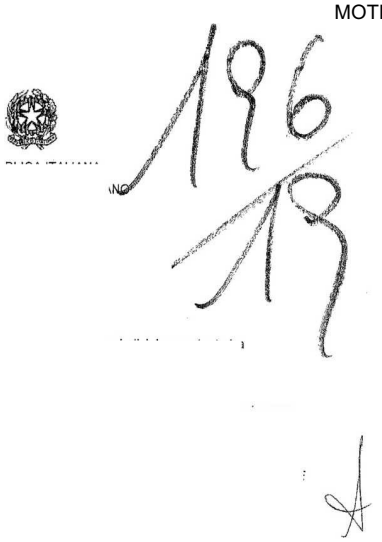
N G V O

NONCHÉ

PROCURATORE DELLA REPUBBLICA PRESSO IL TRIBUNALE DI BUSTO ARSIZIO

La ricorrente concludeva per l'accoglimento delle conclusioni rese in atti.

MOTIVI DELLA DECISIONE



A S G, con l'avv.

Con ricorso depositato ritualmente A S G chiedeva che venisse pronunciata la separazione personale dal coniuge N G V C ai sensi dell'art. 151 c.c,. Precisava di aver contratto matrimonio l'11.6.2011 in e dal matrimonio era nata una figlia nel 2013;

chiedeva l'assegnazione a sé della casa coniugale con gli arredi ivi contenuti, l'affido in via esclusiva a sé della minore e la regolamentazione del diritto di visita del padre, la condanna del coniuge a corrisponderle un assegno a titolo di concorso al mantenimento proprio e della figlia. Chiariva che il matrimonio era oramai naufragato a causa della condotta del marito, che aveva abbandonato la casa coniugale e non si era più preso cura del nucleo familiare.

Instauratosi il contraddittorio, sebbene ritualmente citato, N G V O non si costituiva in giudizio.

Comparsa la sola ricorrente all'udienza a norma dell'art. 706 c.p.c. e risultato vano il tentativo di conciliazione, il Presidente autorizzava i coniugi a vivere separati con l'adozione dei provvedimenti urgenti, rimettendo le parti avanti il G.I.

Depositata la memoria integrativa da parte della ricorrente, veniva trattata la causa e svolta la prova ritenuta ammissibile e rilevante. Ritenuta poi la vertenza matura per la decisione, venivano precisate le conclusioni all'udienza del 21.11.2018 e la causa veniva rimessa al Collegio per la decisione con la concessione alle parti dei termini di cui all'art, 190 c.p.c. per il deposito della comparsa conclusionale, Preliminarmente va dichiarata la contumacia del resistente.

Ritiene questo Collegio che la domanda di separazione personale dei coniugi sia fondata e meritevole di accoglimento.

La ricorrente, infatti, davanti al Presidente, ha confermato la propria volontà di volersi separare giudizialmente, essendo venuta meno quella comunione spirituale e materiale che deve caratterizzare una unione coniugale, con deterioramento al punto tale da rendere intollerabile la prosecuzione della convivenza, peraltro già interrottasi da tempo, e dà far ritenere pertanto fondata la domanda di separazione. Ed infatti, essendosi il rapporto tra i coniugi deteriorato, l'odierna ricorrente ha adito l'Autorità Giudiziaria per ottenere una pronuncia di separazione personale dal coniuge.

Pertanto, deve essere confermata l'autorizzazione ai coniugi a vivere separati.

Per quanto concerne le altre statuizioni, ritiene il Collegio di dover sostanzialmente confermare i provvedimenti resi all'esito dell'udienza presidenziale, non essendo nelle more intervenute circostanze tali da doverne disporre un mutamento: e, quindi, va assegnata la casa coniugale alla moglie con gli arredi ivi contenuti, in quanto la minore vive con la madre; va disposto l'affido esclusivo della minore alla madre - stante il totale disinteresse del padre nei confronti della prole e dell'intero nucleo familiare, sottraendosi egli completamente ai propri obblighi di assistenza familiare come emerge chiaramente anche dalla relazione dei servizi sociali di ove si dà atto del totale stato di abbandono della ricorrente e della figlia (cfr. doc.5 del fascicolo di parte ricorrente), e vista anche l'esigenza ai fini degli adempimenti necessari per le attività medico-sanitarie, scolastiche, sportive, ecc. relative alla minore-; e va disposto che il padre possa incontrare la minore solo previo consenso della madre e alla presenza della stessa.

Per quanto riguarda le statuizioni di carattere economico richieste dalla ricorrente quale concorso al mantenimento della figlia, tenuto conto del reddito goduto dalla ricorrente (la stessa ha dichiarato nel ricorso introduttivo di svolgere lavori precari e di essere aiutata economicamente da amici), mentre rimane sconosciuto il reddito effettivo del resistente, e del dovere di entrambi I genitori di dover contribuire al mantenimento della prole, si ritiene di dover stabilire l'assegno a carico del padre per il mantenimento della figlia in misura che appare equo determinare mensilmente nella somma di €200, rivalutabile annualmente secondo gli indici Istat. Il padre contribuirà altresì al 50% delle spese straordinarie mediche e farmaceutiche non mutuabili, scolastiche, ludiche e sportive della figlia, previamente concordate ovvero, in caso di urgenza, successivamente documentate, secondo quanto stabilito dal protocollo della Corte d'Appello di

In relazione ai redditi del resistente va opportunamente evidenziato che lo stesso non è comparso per rendere l'interrogatorio formale disposto (ove gli si chiedeva se guadagnasse la somma di più di euro 1.600 mensili come animatore), onde tale comportamento va valutato ai sensi e per gli effetti di cui all'art. 232 c.p.c. quale ammissione del fatto dedotti nei capitoli di prova di cui all'interrogatorio formale. Ritiene, ancora, il Collegio, all'esito dell'esame delle risultanze processuali, che non sussistano I presupposti per l'accoglimento della domanda della ricorrente di condanna del resistente al concorso al proprio mantenimento, in quanto è mancata nel caso specifico la prova che la ricorrente si trovi nell'impossibilità oggettiva ed assoluta di procurarsi adeguati mezzi di sostentamento, pur saltuari ed occasionali (avendo ella stessa negli atti di causa riferito di svolgere lavori saltuari), tali da garantirle un minimo tenore di vita, anche in considerazione dell'età giovanissima della stessa.

Infine, il Tribunale deve procedere alla revoca dell'ammissione della ricorrente al beneficio del patrocinio a spese dello Stato, in quanto nel modulo dell'istanza di ammissione al patrocinio a spese dello Stato del 20/10/2017 la stessa ha assunto di non aver percepito alcun reddito e non ha fatto alcun riferimento ai redditi derivanti dai lavori precari descritti nel ricorso introduttivo: ebbene, è risaputo sul punto che secondo la Suprema Corte (cfr. Cass. pen., sez. IV, 18/09/2015 n. 40943) l'inganno potenziale della falsa attestazione di dati necessari per determinare le condizioni di reddito sussiste quand'anche le alterazioni od omissioni di fatti veri risultino poi ininfluenti per il superamento del limite di reddito,

Accolta la domanda nei limiti sopra indicati, tutte le ulteriori domande, istanze e deduzioni devono ritenersi assorbite e/o reiette o comunque devono ritenersi inammissibili o destituite di fondamento.

Devono essere eseguite le formalità di legge.

Le spese seguono la soccombenza principale e si liquidano in favore della ricorrente, cui è stato revocato il beneficio del gratuito patrocinio, come indicato in dispositivo e parzialmente compensate in considerazione dell'effettiva attività processuale espletata.

P.Q.M.

Il Tribunale, definitivamente pronunciando, sulla domanda proposta da A S G nei confronti di N G V O ogni ulteriore domanda ed eccezione disattesa, cosi decide: -pronuncia la separazione personale dei coniugi A S G e N G V O (matrimonio celebrato il in l'11.6.2011, atto n. parte II, serie A anno 2011 di quel

Comune);

- affida la figlia minore in via esclusiva alla madre con collocazione prevalente presso la medesima;
- assegna la casa coniugale alla ricorrente con tutto l'arredo ivi contenuto;
- il padre potrà incontrare la minore solo previo consenso della madre e alla presenza della stessa;
- dispone che il marito versi alla moglie un assegno mensile di €200,00, rivalutabile annualmente secondo gli indici ISTAT, entro il giorno 15 di ogni mese, a titolo di contributo al mantenimento della figlia, oltre il 50% delle spese straordinarie mediche e farmaceutiche non mutuabili, scolastiche, ludiche e sportive della figlia, previamente concordate, o in caso d'urgenza, successivamente documentate, come stabilite nel protocollo della Corte d'Appello di Milano;

-rigetta ogni altra domanda;

- revoca il patrocinio a carico dello Stato a favore della ricorrente, trasmettendo copia della sentenza al P.M. e al Consiglio dell'ordine degli Avvocati;
- condanna il resistente a rifondere le spese di lite di parte ricorrente, che si liquidano, già ridotte, in complessivi 2.500, oltre oneri di legge.

OGGETTO: separazione giudiziale.
CONCLUSIONI DELLE PARTI: come da foglio allegato.

215/19

MOTIVI IN FATTO ED IN DIRITTO DELLA DECISIONE

La domanda diretta a conseguire la pronunzia della separazione personale dei coniugi è fondata e meritevole di accoglimento

La presentazione del presente ricorso e l'adesione prestata dal resistente dimostrano in modo evidente il venir meno dell'interesse dei coniugi alla prosecuzione della loro convivenza; nessun provvedimento deve essere adottato in ordine all'addebito della separazione, avendo la ricorrente rinunziato alla relativa istanza.

Deve, altresì, prendersi atto che in ordine alle restanti questioni circa l'affidamento dei minori K e Si e la determinazione del contributo al mantenimento dei figli della coppia è intervenuto un accordo che ha condotto le parti a precisare le conclusioni in via congiunta.

Tali conclusioni ben possono essere recepite dal Tribunale in quanto rispondenti all'interesse della prole ed adeguate alle condizioni reddituali delle parti.

Sussistono, pertanto, anche le condizioni per compensare integralmente tra le parti le rispettive spese di lite, in conformità, peraltro, alla richiesta delle stesse.

Il Tribunale di così deliberando in via definitiva:

1. Dichiara la separazione personale dei coniugi

2. Affida i minori K e S in via esclusiva alla madre, con facoltà per il padre di vederli e tenerli con sé secondo le modalità concordate dalle parti e meglio esplicitate nell'allegato foglio;

3. Pone a carico del resistente l'obbligo di versare alla ricorrente, entro il giorno 28 di ogni mese a partire da febbraio, un assegno periodico di € 250 rivalutabile annualmente, a titolo di contributo al mantenimento dei figli, oltre il 50% delle spese mediche non mutuabili, scolastiche, sportive e ludiche previamente concordate (salve quelle urgenti) e documentate, da elevarsi a € 500 una volta reperita da parte del convenuto una stabile occupazione con maggiori redditi rispetto a quelli attuali;

RAGIONI IN FATTO E IN DIRITTO

Vengono valutate in questa sede le ulteriori domande, in esito alla pronuncia della domanda divorzile.

Affido dei minori

In punto di affido le posizioni delle parti si sono ammorbidite, convergendo verso la formula dell'affido

condiviso, già adottata in sede di separazione consensuale, ma con posizioni differenti sulle modalità attuati ve, posto che la resistente insiste per la collocazione preferenziale materna mentre il padre chiede una parità di rapporti, escludendo quindi una collocazione preferenziale.

Nei fatti, restano diversità di vedute e di approccio nelle relazioni con i minori, incomprensioni e preoccupazioni.

Il quadro relazionale è stato già approfondito a mezzo di CTU, all'esito della quale è stata emessa l'ordinanza Presidenziale del luglio 2016, da intendersi qui richiamata, che si muoveva ancora nel quadro dell'affido condiviso.

Poco dopo, però, tenuto conto delle indicazioni dei S.S. incaricati - i quali sotto lineavano la necessità di ridurre al limite le occasioni che alimentano la conflittualità tra le parti (già elevata come emerge dagli atti e della CTU) per mettere al riparo i minori da una situazione pregiudizievole per la loro crescita (in particolare G che tra i due è quello attualmente più sofferente) - veniva disposto l'affido dei
minori all'ente (con provvedimento in data 12 novembre 2016, da intendersi qui richiamato).

Le successive vicende processuali sono legate al tentativo di favorire una gestione meno conflittuale e più condivisa.

All'udienza del marzo 2018 veniva quindi fatto il punto della situazione alla presenza anche del CTU e dell'Assistente Sociale B S , la quale dichiarava che era in corso *"l'intervento sistemico da parte del CTA, che svolge il suo servizio in appalto, e ciò proprio per dare attuazione a quanto indicato nella relazione ultima",* aggiungendo che "ù? *ambito scolastico i bambini risultano ben curati ed idonei",* sebbene *"confusi rispetto alla separazione ed alle dinamiche tra i genitori".*

Le parti riferivano che "*I minori fanno tante attività sportive e fanno esperienze anche al di fuori del nucleo familiare, sempre in modo positivo".*

Si tratta di un percorso appena avviato (ritenuto valido anche dalla CTU), i cui frutti matureranno nel tempo.

Ciò detto, nell'attualità non vi sono i presupposti per modificare il quadro normativo derivante dalla stratificazione dei provvedimenti sin qui adottati, primo fra tutti l'affido dei minori all'ente.

Le parti non sono ancora in grado di relazionarsi in modo proficuo rispetto al benessere dei genitori ed anzi ritorna, con periodicità, il tema della difficoltà dei minori a vedere accolte le loro istanze emotive quando sono dal padre, che adotta un regime più rigido, applicato in particolare dalla compagna del Sig. C e non attenuato da quest'ultimo (non accorgendosi che tocca soprattutto a lui, nel contesto del nuovo nucleo costituito, farsi carico delle esigenze dei figli per dare modo a questi ultimi di trovare un rimando naturale alle proprie istanze).

E' significativo al riguardo l'ultimo episodio, di cui hanno riferito i S.S. nell'ultima relazione, avvenuto in data 5/1.2/201.8,

Non si discute in questa sede sulla bontà o meno della decisione presa dal nucleo C /P di vietare ai figli della coppia di mettere i propri letti vicini per il riposo notturno (scelta che può trovare giustificazione nelle ragioni esposte dai predetti ai S.S.), ma vanno evitate reazioni, rispetto al mancato rispetto di questa regola, che possano risultare troppo forti per i minori avuto riguardo alla loro sensibilità ed all'età.

In questo è importante, si ripete, che il padre si ponga in una dimensione più accogliente rispetto ai bisogni dei figli e quindi, ove constati una loro fatica, si faccia carico di proporre un rinforzo emotivo alternativo per consentire a loro di affrontare una situazione che essi vivono come un'imposizione eccessiva.

Il principio secondo il quale i figli sono ormai *"abbastanza grandi",* riferito all'assistente sociale, non deve costituire uno schermo a priori, ma rappresentare un criterio da verificare in concreto, volta per volta (l'assistente sociale ha riferito al riguardo nella relazione: *"invitati a riflettere sul significato e sulla necessita di dormire vicini che i minori dichiarano di avere, il Sig. C e la Sig.ra P non ne colgono lo stato emotivo tantomeno le paure.")*

Situazioni come quella rappresentata giustificano che l'ente affidatario sia investito anche del compito di modificare tempi e modalità di incontro ove si creino per i minori situazioni di eccessiva tensione emotiva, fermo restando che l'obiettivo prioritario è quello dì incidere sulle modalità educative per renderle più funzionali al benessere dei minori.

Contributo al mantenimento della prole

Esclusa dunque la possibilità di adottare un regime paritario di rapporti tra i genitori ed i figli deve riconoscersi la persistenza dell'esigenza di un concorso paterno al mantenimento ordinario per i figli (tenendo conto del fatto che per le spese straordinarie si ribadisce il criterio della pari assunzione di responsabilità),

Anche su questo punto si registra una contrapposizione tra le parti.

Il ricorrente assume che la propria capacità reddituale si è ridotta, avendo cessato l'attività lavorativa che svolgeva all'atto della separazione, allorché aveva un reddito medio annuo al netto delle imposte pari a circa euro 30.000,00, per cui ora, dopo altre esperienze lavorative medio tempore intraprese, il reddito mensile (derivante dalla società , di cui è socio ed amministratore unico) consisterebbe in
euro 700 mensili, al netto di dei contributi, IVA e IRPEF.

Viceversa la. ricorrente, avvocato libero professionista, ha aumentato la propria capacità reddituale, passando da un reddito netto medio mensile di euro 2,873,25 (modello fiscale 2013), all'importo di euro 3.254,00, l'anno successivo e ad euro 4.106,00 in quello ulteriore.

La resistente ha riconosciuto tale incremento, ma lo imputa ad un rapporto di consulenza intrapreso con una società ormai cessato e quindi nell'attualità il reddito non sarebbe difforme da quello esistente all'epoca della separazione.

La resistente inoltre contesta di essere proprietaria dell'immobile in cui vive, in quanto concessole in comodato dalla madre, e ritiene che la società del ricorrente serva ad occultare il reddito di quest'ultimo.

Dagli estratti conto del Sig. C si evince che egli ha fatto bonifici a favore della convivente, che presumibilmente devono essere imputati al menage familiare, oltre ad alcune spese voluttuarie (ristorante).

Inoltre, come si è già sottolineato in corso di causa, egli ha riscosso oltre 50 mila euro per effetto della cessazione del rapporto con il proprio precedente datore di lavoro, ma non ha dato prova di avere assolto all'obbligo contributivo di mantenimento, quantomeno quello ordinario.

Tali elementi portano a ritenere che il Sig. C - che certamente non ha la sicurezza economica derivante dal lavoro che svolgeva all'epoca della separazione (senza però che siano state chiarite le cause dell'interruzione del rapporto) - strumentalizzi in parte la situazione quale alibi per non assolvere compiutamente ai propri obblighi economici (posto che, diversamente, avrebbe provveduto comunque al versamento del contributo di mantenimento - già ridotto per effetto del reclamo - quantomeno in parte)

Nel contempo deve darsi atto che la resistente (la quale anch'essa ha un compagno) ha migliorato la propria condizione reddituale (né la cessazione del rapporto di consulenza significa automaticamente che le entrate si riallinino a quelle ante ricorso divorzile).

Per tali ragioni si ritiene conforme a giustizia quantificare la contribuzione ordinaria paterna in euro 350,00 mensili, annualmente rivalutabili in base agli indici ISTAT.

Spese di lite

Le spese di lite vanno compensate per intero sussistendo giusti motivi in ragione della natura della

controversia e della reciprocità della soccombenza.

P.Q.M.

3. Dispone che il ricorrente concorra al mantenimento dei figli corrispondendo alla resistente entro l'ultimo giorno del mese la somma di euro 350,00, da rivalutarsi annualmente in base agli indici ISTAT, oltre al 50 % delle spese straordinarie come da protocollo adottato dalla Corte d'Appello di Milano;
4. Compensa per intero le spese di lite.

PROCURATORE DELLA REPUBBLICA PRESSO IL TRIBUNALE DI BUSTO ARSIZIO

INTERVENTORE *EX LEGE*

CONCLUSIONI

Le parti concludevano come da verbale del 13.2.19.

MOTIVI DELLA DECISIONE

Con ricorso depositato ritualmente M S chiedeva a questo Tribunale che fosse pronunciata la separazione personale dal proprio coniuge B Y
Precisava che avevano contratto matrimonio in Repubblica del Madagascar (del 20,4.2013 ed era nato un figlio (nel 2014); richiedeva la regolamentazione dei rapporti con la coniuge e la prole. A sostegno della domanda adduceva che tra essi coniugi era oramai cessata *l''affectio coniugalis* a causa del comportamento della moglie, sicché chiedeva l'addebito del fallimento a carico della stessa.
Instauratosi il contraddittorio, si costituiva B Y< che non si opponeva alia domanda di
separazione, ma richiedeva condizioni parzialmente diverse, contestando l'avversa ricostruzione dei fatti.
All'udienza presidenziale, comparse le parti avanti ai Presidente f.f. ma risultato vano il tentativo di conciliazione, i coniugi venivano autorizzati a vivere separatamente, e il Presidente emetteva i provvedimenti temporanei ed urgenti, rimettendo le parti avanti al G.I. per il prosieguo.
All'udienza di trattazione erano concessi i termini di cui all'art. 183 c.p.c.
Nelle more le parti raggiungevano un accordo in ordine alle condizioni da porre a base della separazione giudiziale. Precisate pertanto le conclusioni, la causa veniva rimessa al Collegio per la decisione senza termini di cui all'art. 190 c.p.c, su richiesta delle parti.

Ritiene questo Collegio che la domanda di separazione giudiziale sia fondata e meritevole di accoglimento.
I coniugi, infatti, hanno confermato la propria volontà di volersi separare giudizialmente, essendo venuta meno tra di loro la comunione spirituale e materiale.
Inoltre, dall'esame dell'intero carteggio processuale emerge che non appare possibile una riconciliazione tra le parti, avendo entrambi dichiarato e ribadito che la convivenza è divenuta impossibile, essendo oramai cessata *l'affectio coniugalis.*
Successivamente i coniugi hanno raggiunto un accordo in ordine alle condizioni da porre a base della sentenza di separazione giudiziale.
Ritiene il Collegio che possano essere confermate le condizioni stabilite dalle parti, e, poiché non contrastano con norme inderogabili e sono poste nell'interesse della prole, le stesse possono essere poste alla base della decisione del Tribunale.
Devono essere eseguite le formalità di legge.
Ritiene il Collegio che le spese dì lite vadano completamente compensate, in considerazione del comportamento processuale delle parti.

P.Q.M.

il Tribunale, definitivamente pronunciando, nella causa promossa da M S contro B S Y ogni altra domanda, eccezione e deduzione disattesa, così decide;
1. Pronuncia la separazione giudiziale tra M s e B S Y (matrimonio
celebrato in Repubblica del Madagascar del 20.4.2013 come da foglio allegato che forma parte integrante.

ha pronunciato la seguente nella causa civile iscritta N.4513/18 R.G, avente ad oggetto divorzio giudiziale, promossa da

RICORRENTE
A D , con l'avv. P

M P RESISTENTE contumace
e con l'intervento del P.M. presso il Tribunale di

CONCLUSIONI

La ricorrente concludeva riportandosi ai propri scritti difensivi. /

MOTIVI DELLA DECISIONE

Con ricorso depositato ritualmente A D chiedeva che venisse pronunciata la cessazione degli effetti civili del matrimonio celebrato a il 28.9.2002 con M P chiariva che dal matrimonio erano nati due figli (entrambi minori), che tra le parti era venuta meno la comunione materiale e spirituale con decreto di omologa del 15.2.2008 di questo Tribunale e che la stessa non potrebbe più ricostituirsi. Dava, altresì, atto che nel processo di separazione tra coniugi era stato stabilito l'affido esclusivo dei minori alla madre con relativa regolamentazione delle modalità di visita da parte del padre e l'obbligo di concorso paterno al mantenimento della prole, di cui chiedeva la conferma in sede di sentenza divorzile, non essendosi modificate tra le parti le condizioni presenti al momento della separazione.

All'udienza fissata a norma dell'art. 4 della Legge 898/70 compariva solo la ricorrente, in quanto il resistente rimaneva contumace; il Presidente f.fi, risultato vano il tentativo di conciliazione, confermava le condizioni della separazione giudiziale intercorsa tra le parti, disponendo la comparizione delle parti avanti al Giudice Istruttore.
Depositate le memorie integrative -previa rituale notifica del provvedimento presidenziale-, trattata la causa e ritenuta la causa matura per la decisione, venivano precisate le conclusioni e la causa veniva rimessa al Collegio per la decisione.

Preliminarmente va dichiarata la contumacia del resistente, che, sebbene ritualmente citato, non si è costituito in giudizio. La domanda della ricorrente di cessazione degli effetti civili del matrimonio è fondata e va accolta. Invero, emerge dalla documentazione prodotta agli atti come le parti abbiano celebrato matrimonio a

il 28.9.2002. Fra le parti, inoltre, è intervenuta separazione giudiziale dichiarata con decreto di omologa di qu esto Tribunale del 15.2.2008. Lo stato di separazione legale tra gli stessi sussiste e ricorrono gli estremi previsti dall'art.3 n.2 B della Legge 1.12.1970 n.898, come modificato con Legge 6.3.1987 n.74. Osserva in proposito il Collegio come dalla documentazione in atti e dalle dichiarazioni rese sia emerso che essi vivano ininterrottamente separati di fatto e di diritto dalla data della separazione e che da tale epoca non si è verificato alcun ricongiungimento fra gli stessi. Anche dal comportamento processuale delle parti si può ritenere provato che la comunione spirituale e materiale tra i coniugi non possa essere mantenuta o ricostituita.

Per quanto concerne i provvedimenti accessori, ritiene il Collegio, all'esito dell'esame delle risultanze processuali, che sussistano i presupposti per l'accoglimento della domanda della ricorrente \ volta ad ottenere l'affido esclusivo della prole e relativa regolamentazione delle visite da parte del padre così come regolamentato già in fase di separazione personale tra le parti nonché la previsione della corresponsione di un contributo al mantenimento dei figli con le stesse modalità prescritte nella F predetta sentenza di separazione. Ed invero, le condizioni economiche delle parti ed i rapporti personali non sono affatto mutati nelle more del deposito del ricorso per la declaratoria della cessazione degli effetti civili del matrimonio.

Il contegno processuale tenuto dal resistente, che non ha ritenuto di costituirsi nel presente processo, sebbene ritualmente citato, dimostra la fondatezza dell'assunto della ricorrente.

Per quanto riguarda le statuizioni di carattere economico e patrimoniale richieste dalla ricorrente quale concorso al mantenimento dei figli economicamente non autosufficienti, in considerazione dei parametri di cui all'art.337 *quater* c.c. -co. IV- (attuali esigenze del figlio, tenore di vita goduto dal figlio in costanza di convivenza dei genitori, tempi di permanenza presso ciascun genitore, risorse economiche di ogni genitore, valenza economica dei compiti domestici e di cura assunti da ogni genitore), bisogna tener conto, mancando riscontri sul tenore di vita goduto dalle parti in costanza di matrimonio, dei tempi di permanenza della prole presso i genitori (i figli stanno prevalentemente presso la madre) e delle condizioni precipue dei coniugi rese note nel processo (mentre nulla è dato sapere del resistente, la ricorrente ha prodotto dichiarazioni dei redditi di circa €7.000 annuali), onde si ritiene di dover confermare gli obblighi a carico del resistente di contribuire al mantenimento della prole così come stabilito in sede di udienza presidenziale (non essendo nelle more intervenute modifiche sostanziali delle condizioni economiche-finanziarie delle parti, non avendo le parti impugnato il provvedimento presidenziale, né imponendosi a questo Collegio differenti circostanze tali da indurre ad una modifica del predetto provvedimento non emergendo alcun mutamento dei presupposti di fatto posti alla base di quel provvedimento né tanto meno ravvisandosi l'opportunità di riesaminarne il contenuto) nella somma mensile complessiva di €650, oltre alla rivalutazione monetaria secondo gli indici ISTAT. Il resistente contribuirà al 50% delle spese straordinarie di tipo medico (mediche non coperte dal SSN, anche specialistiche se richieste espressamente dal medico curante, e odontoiatriche, il tutto purché concordato tra le parti, salva l'urgenza, e purché documentate, compresi tickets medici e farmaceutici), di tipo scolastico, sportivo e ludico relativamente alla prole.

Decisa la causa come sopra; tutte le ulteriori istanze devono ritenersi inammissibili e/o reiette.

Pertanto, vanno accolte le domande della ricorrente e confermate le condizioni stabilite nella sentenza di separazione.

È parere del Collegio che sussistano giusti motivi, in considerazione della contumacia di parte resistente, per compensare totalmente le spese di lite.

P.Q.M.

il Tribunale, definitivamente pronunciando sulla domanda proposta da A D (nei confronti di M P, ogni ulteriore domanda eccezione e istanza disattesa, così provvede:

- dichiara la cessazione degli effetti civili del matrimonio celebrato a il 28.9.2002 tra AD e M P, trascritto nei registri dello stato civile di quel Comune, atto n, p, II, s. A, anno 2002;
- manda alla Cancelleria di trasmettere copia autentica della presente sentenza all'ufficiale di stato civile del predetto Comune per le annotazioni e le ulteriori incombenze;
- affida i figli minori in via esclusiva alla madre con collocazione prevalente presso la casa materna, con facoltà per il padre di vederli quando vorrà alla presenza della madre e previo adeguato preavviso;
- dispone che il M corrisponda alla A quale contributo al mantenimento della prole, entro il giorno 15 di ogni mese, la somma complessiva di €650, rivalutabile annualmente secondo gli indici ISTAT, oltre il 50% delle spese mediche non coperte da SSNN, di quelle scolastiche, sportive e ricreative dei figli, queste ultime previamente concordate e salva in ogni caso l'esibizione dei giustificativi di spesa e salva l'urgenza; - compensa tra le parti le spese di lite.

CONCLUSIONI

La parte ricorrente concludeva come segue rinunciando ai termini *ex* art. 190 epe:

1. Pronunciare ai sensi dell'art. 3, n. 2), lett. b), L. 898/1970 lo scioglimento del matrimonio civile contratto in M tra la Sig.ra C L B C i *e il Sig. B G* K *L in data 2008;*

2. disporre l'affidamento super-esclusivo del figlio G A alla signora BC soprattutto con riguardo alle scelte medico-sanitarie (visite mediche specialistiche, terapie farmacologiche da seguire su indicazione medica...), scolastiche ed extrascolastiche (attività sportive e ludico/ricreative), espatrio;
3. disporre che il sig. E, qualora faccia rientro in Italia, possa riprendere a vedere e tenere con sè il figlio G A gradualmente e secondo le esigenze del minore e della madre;

5. Disporre a carico del sig. E t il pagamento di € 400,00 a titolo di contributo al mantenimento del figlio G A, da corrispondersi entro il 05 dì ogni mese, oltre il 50% delle spese straordinarie, con rivalutazione ISTAT,

RAGIONI IN FATTO E IN DIRITTO

I. Sig.ri C L B C e F E L. contraevano matrimonio civile in in data (matrimonio trascritto nei registri degli atti di matrimonio di detto Comune al n , parte I, anno 2008).

Dall'unione nasceva il figlio G A il 1/12/2007.

A seguito di ricorso i coniugi comparivano avanti al Presidente del Tribunale di Busto Arsizio in data 29/5/2017 per la separazione consensuale che veniva ritualmente omologata.

Con atto di ricorso depositato in data 24/7/2018 la Sig.ra C L B C premesso che non era intervenuta alcuna riconciliazione tra i coniugi e che la frattura della comunione spirituale e materiale doveva ritenersi ormai irreversibile, chiedeva, sussistendone i presupposti di legge, l'emissione della pronuncia divorzile.

II. Sig. F I G E L non compariva all'udienza Presidenziale né provvedeva a costituirsi.

Esaurita la fase Presidenziale, la causa veniva rimessa avanti al G.I..

Espletati gli incombenti di rito la causa viene decisa con sentenza.

I fatti dedotti dalla ricorrente sono documentalmente provati (vd. copia dell'atto di matrimonio e del verbale di separazione).

E' pacifico che i coniugi in seguito non si sono più riconciliati, per cui la frattura della loro comunione spirituale e materiale deve ritenersi ormai irreversibile.

Sussistono dunque i presupposti per l'emissione della pronuncia di divorzio ai sensi dell'art. 3, lett. b), 1. 898/1970 e successive modifiche.

Le condizioni indicate dalla ricorrente sono meritevoli di accoglimenti in quanto riproduttive di quelle concordate recentemente in sede di separazione consensuale, ma prevedendo l'attribuzione in via esclusiva alla Sig.ra C L B . della responsabilità genitoriale in considerazione del fatto che il resistente non si occupa in nulla delle esigenze del minore, sia sul piano affettivo che su quello materiale ed economico.

Le spese di lite seguono la soccombenza e vanno pertanto poste interamente a carico del resistente, che con la propria condotta ha necessitato l'adozione dell'affido super esclusivo materno.

P.Q.M.

il Tribunale, definitivamente pronunciando, così provvede:

1. dichiara lo scioglimento del matrimonio contratto dai Sig.ri C L B e C F L, coniugatisi in in data 15/5/2008 (matrimonio trascritto nei registri degli atti di matrimonio di detto Comune al n. parte I, anno 2008);
2. dispone che i rapporti inerenti la gestione della genitorialità siano regolati come da condizioni indicate dalla ricorrente, sopra riprodotte;
3. ordina all'ufficiale di Stato Civile del Comune di di provvedere all'annotazione della presente pronuncia a margine dell'atto di matrimonio;
4. condanna il resistente a rifondere alla ricorrente le spese di lite pari ad euro 1.800,00 per compensi professionali, oltre spese generali ed oneri di legge.

CONCLUSIONI DELLE PARTI: Dichiarare la separazione personale dei coniugi S> C affidare i figli minori D e A al Comune di mantenendone il collocamento presso la madre con cui vivranno nella casa coniugale sita in ed assegnando ai Servizi Sociali il compito di assicurare il ripristino delle visite paterne; porre a carico del ricorrente, a titolo di concorso nel mantenimento dei figli, la somma di Euro 500,00 rivalutabile annualmente, conglobante le spese straordinarie ludiche, sportive e scolastiche, da versarsi entro il giorno 5 di ogni mese, oltre il 50% delle spese mediche straordinarie non coperte dal SSN, da concordarsi preventivamente e da documentarsi; dare atto che le parti concordano che, allorquando il ricorrente avrà reperito una nuova occupazione, il contributo al mantenimento dei figli sarà elevato all'importo di Euro 550,00 rivalutabile annualmente, conglobante le spese straordinarie ludiche, sportive e scolastiche, da versarsi entro il giorno 5 di ogni mese, oltre il 50% delle spese mediche straordinarie non coperte dal SSN, da pattuirsi preventivamente e da documentarsi; dare atto che le parti concordano che lo S si impegna a rimborsare alia C e pregresse spese straordinarie se documentate; spese legali compensate.

MOTIVI IN FATTO ED IN DIRITTO DELLA DECISIONE

La domanda diretta a conseguire la pronunzia della separazione personale dei coniugi S- -C è fondata e meritevole di accoglimento.

La presentazione del presente ricorso e l'adesione prestata dalla resistente all'avversa domanda di separazione dimostrano in modo evidente il venir meno dell'interesse dei coniugi alla prosecuzione della loro convivenza;

Nel contempo, deve prendersi atto che le partì hanno raggiunto nelle more processuali un accordo avente ad oggetto l'affidamento ai Servizi Sociali dei minori C ed A (pur mantenendone il collocamento presso la madre) e la determinazione, a carico del ricorrente, di un assegno di mantenimento in favore dei figli.

Con particolare riguardo alla questione de 11'affidamento, infatti, deve rilevarsi che secondo la relazione predisposta dalla C.T.LL lo S risulta "completamente escluso dalla vita dei propri figli", come si evince dalla circostanza che la C non passa allo stesso alcuna comunicazione, chiedendogli di attingere per notizie presso la scuola o le società sportive

frequentate dai minori, mentre questi ultimi rifiutano anche solo di parlare con il padre.

Viene, pertanto, disposto l'affidamento ai Servizi Sociali (soluzione a cui le parti hanno appunto aderito) affinché gli stessi possano predisporre ogni opportuno intervento di sostegno ai genitorialità condivisa, compresa la terapia familiare suggerita nella relazione in atti e ogni misura idonea ad assicurare il ripristino dei rapporti tra padre e figli, all'uopo elaborando un calendario modulato sugli impegni dei ragazzi e dello S e sull'evoluzione del loro rapporto; in conformità al suggerimento avanzato nella relazione in atti, si invitano, altresì, i Servizi Sociali a favorire un progressivo processo di conoscenza con i nonni paterni, allo stato completamente estranei ai nipoti.

All'accordo raggiunto dalle parti consegue la totale compensazione tra le stesse delle reciproche spese di lite, mentre

i costi della C.T.U. saranno suddivisi al 50% tra i due contendenti.

Il Tribunale di così deliberando in via definitiva:

1. Pronuncia la separazione personale tra i coniugi S C

MOTIVI IN FATTO ED IN DIRITTO DELLA DECISIONE

La domanda di declaratoria di scioglimento del matrimonio civile contratto dalle parti in data 11/10/2008 in è fondata e meritevole di accoglimento.

Da quanto risulta, le parti vivono in stato di separazione fin dalla comparizione della ricorrente avanti il Presidente di questo Tribunale, avvenuta nel 2016 nel corso del giudizio di separazione, conclusosi con sentenza n. 1059/2017 emessa il 30/06/2017 e tra loro non vi é più stata riunione; lo stato di separazione protrattosi per il termine di legge, l'esistenza del presente ricorso e l'impossibilità dell'esperimento del tentativo di conciliazione a causa della contumacia del convenuto dimostrano che l'unione materiale e spirituale tra i coniugi non può essere ricostituita.

Possono confermarsi le condizioni della sentenza di separazione in punto sia di affidamento del minore F in via esclusiva alla madre, non risultando provato il superamento delle problematiche di dipendenza dal gioco e dagli stupefacenti del padre, sia di determinazione del contributo a carico del resistente per il mantenimento del minore e della moglie, non essendosi il convenuto costituito in giudizio per avanzare proprie diverse istanze.

Alla mancata opposizione del convenuto consegue la declaratoria di irripetibilità delle spese di lite sostenute dalla ricorrente.

Il Tribunale di
così deliberando in via definitiva:

1. dichiara lo scioglimento del matrimonio civile contratto dalle parti 1'11/10/2008 in Gallarate;

3. affida il minore F in via esclusiva alla madre, stabilendo che il padre possa vedere il figlio secondo accordi con la madre;
4. pone a carico del resistente un contributo mensile al mantenimento del figlio di € 500, oltre la rivalutazione annua ed oltre il 50% delle spese straordinarie scolastiche, mediche, sportive e ludiche previa, presentazione di documentazione giustificativa;
5. pone a carico del resistente un contributo mensile al mantenimento della moglie di € 200, oltre la rivalutazione annua;
6. dichiara irripetibili le spese di lite sostenute dalla ricorrente.

RAGIONI IN FATTO E IN DIRITTO

I. Sigg.ri B O e W G contraevano matrimonio civile in in data 8/2/2002 (matrimonio trascritto nei registri degli atti di matrimonio di detto Comune al n. , parte I, anno 2002).

Dall'unione nasceva la figlia S in data 2002.

A seguito dì ricorso i coniugi comparivano avanti al Presidente del Tribunale di per la separazione giudiziale che veniva pronunciata con sentenza in data 23/3/2010.

Con atto di ricorso depositato in data 7/9/2018 la Sig.ra B premesso che non era intervenuta alcuna riconciliazione tra i coniugi e che la frattura della comunione spirituale e materiale doveva ritenersi ormai irreversibile, chiedeva, sussistendone i presupposti di legge, l'emissione della pronuncia divorzile.

II. Sig. W G non compariva all'udienza Presidenziale né provvedeva a costituirsi.

Esaurita la fase Presidenziale, la causa veniva rimessa avanti al G.I.

Espletati gli incombenti di rito la causa viene decisa con sentenza.

I fatti dedotti dalla ricorrente sono documentalmente provati (vd. copia dell'atto di matrimonio e della sentenza di separazione).

E' pacifico che i coniugi in seguito non si sono più riconciliati, per cui la frattura della comunione spirituale e materiale deve ritenersi ormai irreversibile.

Sussistono dunque i presupposti per l'emissione della pronuncia di divorzio ai sensi dell'art. 3, lett. b), 1. 898/1970 e successive modifiche.

In punto di affido, atteso il disinteresse del resistente, resosi inadempiente agli obblighi di cura, mantenimento ed educazione della minore, deve disporsi, in luogo del condiviso, l'esclusivo materno, confermando per il resto le condizioni stabilite in sede di separazione (non potendo il resistente essere liberato dai propri obblighi attesa la loro rilevanza pubblica).

Le spese di lite sono irripetibili in ragione della natura della controversia.

P.Q.M.

CONCLUSIONI

Le parti concludevano come da verbale dell'udienza del 5.12.2018.

MOTIVI DELLA DECISIONE

Con ricorso depositato ritualmente T M chiedeva che venisse pronunciato lo scioglimento del matrimonio celebrato con T F. Deduceva che dal matrimonio erano nati due figli (nel 1998 e nel 2002) e che tra le parti era venuta meno la comunione materiale e spirituale con decreto di omologa della separazione del 2012-, e che la stessa non potrebbe più ricostituirsi. Chiedeva l'affido condiviso della prole ai genitori con collocazione prevalente presso il resistente cui andava assegnata la casa coniugale, la regolamentazione delle proprie visite con il figlio minore e stabilire il proprio concorso alle spese straordinarie dei figli. Riferiva di una forte conflittualità ancora persistente con il marito relativa soprattutto alla regolamentazione dei rapporti con i figli, sfociata in diversi provvedimenti giudiziali che avevano disposto l'affido esclusivo dei figli al padre e la decadenza della propria responsabilità geni tortale.
Instauratosi il contraddittorio, si costituiva T F che chiedeva il rigetto delle richieste della ricorrente e disporsi invece l'affido esclusivo a sé della prole e la col locazione prevalente presso di sè.

All'udienza fissata a norma dell'art, 4 della Legge 898/70 comparivano le parti e, risultato vano il tentativo di conciliazione, il Presidente f.f. disponeva la comparizione delle parti avanti al Giudice Istruttore, confermando sostanzialmente i provvedimenti presi in sede di separazione.
Trattata la causa e fallita ogni possibilità transattiva della vertenza, emergeva subito la forte conflittualità tra le parti e, pertanto, era disposta C.T.U. psicologica sull'intero nucleo familiare. Era altresì richiesta la sentenza parziale di divorzio, e, pronunciata la sentenza sullo *status,* la causa era rimessa sul ruolo istruttorio con la concessione dei termini di cui all'alt. 183 c.p.c.. Depositata la c.t.u. ed acquisita la decisione della

Corte d'Appello sul reclamo avverso il provvedimento di decadenza della responsabilità genitoriale della ricorrente pronunciato dal Tribunale per i minorenni di la causa era ritenuta matura per la decisione. Venivano pertanto precisate le conclusioni all'udienza del 5.12.18 e la causa era rimessa al Collegio per la decisione con la concessione alle parti dei termini di legge di 60 giorni per il deposito di comparse conclusionali e di giorni 20 per il deposito di memorie di replica.

Preliminarmente il Tribunale dà atto che con sentenza n. 117/16 è già stato dichiarato lo scioglimento del matrimonio tra le parti con rimessione del fascicolo sul ruolo istruttorio per l'ulteriore corso.

Per quanto concerne le condizioni da porre alla base della sentenza di divorzio questo Collegio ha rilevato, all'esito dell'attività istruttoria e delle comparizioni personali delle parti, un'elevatissima conflittualità, che si è riverberata e continua a ripercuotersi inevitabilmente sulla prole e sul suo equilibrato sviluppo: proprio per questa conflittualità tra i genitori è stata disposta una consulenza psicologica sull'intero nucleo familiare, con monitoraggio da parte dei servizi sociali del Comune di residenza del nucleo familiare, al fine di comprendere la reale situazione e verificare in concreto le condizioni psicologiche dei genitori e dei ragazzi, ovvero se vi fossero condizioni ostative all'affido condiviso, o comunque emergessero problemi nell'ambito relazionale genitori-figli.

Si è ritenuto necessario dare ampio spazio all'audizione del minore nella c.t.u., rappresentando ciò un adempimento obbligatorio nel procedimento in cui il Giudice debba decidere in ordine a situazioni di diretto interesse del fanciullo, in quanto vero e proprio soggetto di diritto e non semplice oggetto di protezione (art. 315 bis -co.2- c.c.). Sull'argomento la Suprema Corte di Cassazione (v. Cass. civ., S.U., 21.10.09 n. 22238) ha affermato che, in relazione all'art. 6 della Convenzione di Strasburgo, ratificata in Italia dalla L. n. 77/ 2003, e all'art. 155 *sexies* c.c., introdotto dalla L.n. 54/06, si deve ritenere necessaria ed obbligatoria l'audizione del minore del cui affidamento deve disporsi, salvo che tale ascolto possa essere in contrasto con i suoi interessi fondamentali e possa recare danni al minore stesso, e dovendosi motivare l'eventuale assenza di discernimento dei minori che possa giustificarne l'omesso ascolto.

L'importanza dell'audizione è, peraltro, ribadita nelle "Linee guida del Consiglio d'Europa per una giustizia a misura di bambino", adottate dal Comitato dei Ministri il 17.11. 2010, dove, nella sezione HI, lett. A, è rimarcato il diritto del minore ad avere la possibilità di esprimere la propria opinione nell'ambito dei procedimenti che lo riguardano.

L'ascolto del minore, invero, affonda le sue radici nei principi costituzionali espressi dall'art. 2 Cost. (sotto il profilo dell'affermazione del primato della dignità della persona) ed in quelli in tema di relazioni familiari e tutela della filiazione (artt. 29 e 30 Cost.). Oggi, peraltro, avendo il nuovo art. 315 *bis* c.c. una valenza generale, si prevede chiaramente che il minore debba essere ascoltato, cioè deve esprimere le sue esigenze, le sue idee, i suoi *desiderata,* ma non quale mezzo istruttorio volto all'accertamento di fatti, ma quale mezzo attraverso il quale si realizza il diritto del minore a far sentire la propria voce, consentendo al Giudice di tener conto delle sue opinioni.

Ebbene, dall'esame dell'intero carteggio processuale e dalla relazione psicologica è emersa una forte conflittualità tra i genitori e che la prole risulta coinvolta in un conflitto molto grave di lealtà. In particolare, come ha rilevato la Corte d'Appello di nel reclamo contro il provvedimento di. decadenza della responsabilità genitoriale nei confronti della ricorrente (depositato il 25.6.2018) dall'esame della consulenza si rileva come *"le cause dell'allontanamento del figli dalla madre siano complesse e molteplici e come alcune condotte materne (che hanno di fatto creato disagio e malessere nei minori, pur se presumibilmente non fosse nelle intenzioni della madre nuocere loro) abbiano le loro radici profonde soprattutto nella aspra conflittualità tra le parti e nella difficoltà da parte della signora T (ma in parte anche del marito) di comprendere quali fossero i comportamenti più tutelanti nei confronti dei figli da assumere una volta preso atto della irrimediabile frattura della unità coniugale, non imputabile ad uno solo dei coniugi, come quasi sempre accade".* Il c.t.u. ha rilevato un rapporto positivo tra i ragazzi ed il padre, che provvede ai loro bisogni di cura e di accudimento materiale, anche se egli fatica a comprendere i bisogni emotivi dei figli. Appare, invece, problematico il rapporto tra la madre e la prole, in particolare con L : il consulente evidenzia l'urgenza di ristrutturare il rapporto con lo stesso, perchè il figlio minore appare *"...a rischio di sviluppare conflitti interni che potrebbero indurre delle scissioni nella sua struttura di personalità che, se non superate e dissolte in una più opportuna integrazione, ostacolerebbero una libera espressione delle sue inclinazioni e disposizioni personali"* (cfr. c.t.u. dep. il 7.3.2017). Da qui la necessità di garantire una presa in carico psicologica a favore del minore *"...con l'obiettivo di aiutarlo ad affrontare e rielaborare le difficoltà personologiche evidenziate, connesse a eventi di vita traumatici, potendo rispondere all'impellente 'bisogno, ma anche intenso desiderio di chiarezza sul rapporto con la madre, avviando un percorso di crescita e di maturazione personale che gli permetta l'integrazione dei suoi vissuti all'interno della struttura di personalità".*

La c.t.u. prosegue riferendo come la Ti sia apparsa *"consapevole dei propri errori e carenze individuali, dimostrando le sue buone intenzioni nel costruire un rapporto con i figli, continuo e costante e non vi sono segnali che possano far ipotizzare la messa in atto di comportamenti aggressivi a danno dei figli",* ed evidenziando l'importanza di una maggiore responsabilizzazione della madre nel rapporto con la prole tramite una presa in carico psicologica orientata in senso psicoterapeutico che le consenta anche di rielaborare gli aspetti di criticità nel rapporto con i figli. Infine, dalle conclusioni del c.t.u. emerge la necessità di un affido esclusivo del minore al padre.

Ne consegue, a parere del Collegio, dovendo decidere ai fini dell'interesse dei minori e, quindi, trovare la migliore soluzione tale da evitare maggiori danni causati dalla disgregazione del nucleo familiare onde assicurare loro il miglior sviluppo della personalità in un contesto di vita quanto più adeguato alla soddisfazione delle proprie esigenze materiali, morali e psicologiche, che nell'interesse del minore vada affidato in via esclusiva al padre.

Il Tribunale, facendo propria la volontà del figlio e le argomentazioni del c.t.u., ritiene che il ragazzo vada collocato prevalentemente presso l'abitazione paterna.

Per quanto concerne le modalità di visita tra madre e figlio si ritiene di dover stabilire che la madre possa incontrare il figlio previ accordi diretti

tra i genitori e con il figlio stesso, stante anche l'età del ragazzo
(quasi diciasettenne anni).
Infine, i Servizi preposti al nucleo familiare provvederanno a relazionare, semestralmente, sulla situazione dell'intero nucleo familiare, in particolare sul percorso del minore, al competente Procuratore della Repubblica presso il Tribunale per i minorenni, evidenziando, ove mai, la sussistenza di eventuali cause di pregiudizio.
L'abitazione coniugale viene assegnata al resistente, quale genitore collocatario privilegiato della prole.
Per quanto riguarda le statuizioni di carattere economico per il concorso al mantenimento della prole, visti i parametri di cui all'art, 337 *quater* c.c. -co. IV- (attuali esigenze dei figli, tenore di vita goduto dai figli in costanza di convivenza dei genitori, tempi di permanenza presso ciascun genitore, risorse economiche di ogni genitore, valenza economica dei compiti domestici e di cura assunti da ogni genitore) bisogna tenere conto del tempo di permanenza presso i genitori della prole, stabilito prevalentemente presso il padre, e delle condizioni precipue dei coniugi. Su tale ultima circostanza le parti non hanno dedotto nulla ed entrambe non hanno prodotto le dichiarazioni dei redditi, ma dagli atti di causa emerge che il resistente è un ingegnere, mentre la ricorrente vive in con
il nuovo compagno (ma non si sa se lavori), sicché reputa il Tribunale che i genitori provvederanno al mantenimento diretto dei figli quando si trovano presso le rispettive abitazioni e concorreranno in modo paritario alle spese straordinarie come previste dal protocollo della Corte d'Appello di
Accolta la domanda nei limiti sopra indicati, tutte le ulteriori domande, istanze e deduzioni devono ritenersi assorbite e/o reiette.
In considerazione del comportamento processuale delle parti, finalizzato comunque al miglior interesse della prole, e del parziale accoglimento delle reciproche istanze si ritiene di dover compensare tutte le spese di giudizio.

P.Q.M.

il Tribunale, definitivamente pronunciando sulla domanda proposta da T M nei confronti di T F, ogni ulteriore domanda eccezione e istanza disattesa, così provvede:
-affida il figlio minore in via esclusiva al padre collocandolo prevalentemente presso l'abitazione del padre, cui viene assegnata la casa coniugale;
-dispone che la madre possa incontrare il figlio previ accordi diretti tra i genitori e con il figlio stesso;

-dispone che i genitori provvederanno al mantenimento diretto dei figli quando si trovano presso le rispettive abitazioni e concorreranno in modo paritario alle spese straordinarie come indicate dal protocollo della Corte d'Appello di , previamente concordate e comunque successivamente documentate, salvi i casi d'urgenza, relative ai figli;

RAGIONI DI FATTO E DI DIRITTO DELLA DECISIONE

Premesso che in ordine alla domanda di pronuncia della separazione personale delle parti è intervenuta la sentenza non definitiva n. 1791/18 emessa il 13/11/2018 (pubblicata il 20/11/2018), deve prendersi atto che nelle more processuali le parti hanno raggiunto un accordo relativo alle ulteriori questioni in punto di affidamento e di collocamento dei figli minori, nonché di regolamentazione dei rapporti patrimoniali tra i coniugi, cui si accompagna la rinunzia alle reciproche domande di addebito della separazione.

Nulla osta al recepimento di dette pattuizioni, in assenza di motivi di contrarietà all'ordine pubblico o di pregiudizio alla prole.

CONCLUSIONI
Le parti hanno concluso come segue:

M D (C.F.
e dell'avv. elettivamente domiciliato in presso il difensore avv.

Le parti dichiarano di avere raggiunto un accordo sulle ss. condizioni di divorzio:
Affido esclusivo materno della minore;
Contribuzione paterna per la minore corrispondendo alla resistente la somma di euro 50,00 onnicomprensivi essendo il ricorrente disoccupato e sino a che permarrà tale condizione;
Il padre telefonerà alla figlia tutti i mercoledì sera tra le 19,00 e le 21,00;
La Sig.ra D comunicherà al padre tutte le informazioni di rilevanza relative alla bambina, particolarmente in ambito scolastico e medico, quanto all'aspetto scolastico riferirà soprattutto circa i colloqui con le maestre, rispetto ai quali il Sig. C dovrà comunicare preventivamente la propria disponibilità a partecipare agli incontri indicando giorni ed orari;
Il padre continuerà le visite della figlia in spazio neutro e si atterrà a tale regime;

Entrambe le parti concordano sulla, possibilità di incrementare nel tempo gli incontri padre/figlia e di introdurre, con gradualità, anche una liberalizzazione, previa valutazione da parte dei S.S..
Il padre chiede che ciò venga previsto espressamente, temendo che i S.S. altrimenti non si attivino in tal senso, rimanendo ancorati alla regolamentazione sin qui adottata.
La madre ritiene invece che ciò non sia necessario posto che i S.S. potrebbero autonomamente agire in questa direzione.
Il disaccordo nasce dal fatto che ciascuna delle parti ha avuto dai S.S. rimandi diversi sul loro modo di operare.
Si conviene pertanto di rimettere quest'ultimo punto al Collegio, rinunciando ai termini ex art. 190 epe.

RAGIONI IN FATTO E IN DIRITTO

I Sigg.ri S C e M D contraevano matrimonio civile in
in data 8/8/2008 (matrimonio trascritto nei registri degli atti di matrimonio di detto Comune
al n. , parte I, anno 2008).

Dal matrimonio nasceva una figlia: A P (il 2009).

A seguito di ricorso i coniugi comparivano avanti al Presidente del Tribunale di Milano per la separazione giudiziale che veniva pronunciata con sentenza n. 7390/14 in data 2/4/2014.

Con atto di ricorso depositato in data 26/5/2018 il Sig. S C premesso che non era intervenuta alcuna riconciliazione tra i coniugi e che la frattura della comunione spirituale e materiale doveva ritenersi ormai irreversibile, chiedeva, sussistendone i presupposti di legge, remissione della pronuncia divorzile.

Si costituiva la Sig.ra M E mediante memoria di risposta con la quale aderiva alla domanda divorzile formulando autonome richieste sulla regolamentazione dei rapporti conseguenti.

Espletati gli incombenti di rito, le parti chiedevano che la causa venisse trattenuta in decisione sulla base delle conclusioni concordemente rassegnate.

I fatti dedotti dal ricorrente sono documentalmente provati (vd. copia dell'atto di matrimonio e della sentenza di separazione).

E' pacifico che i coniugi in seguito non si sono più riconciliati, per cui la frattura della comunione spirituale e materiale deve ritenersi ormai irreversibile.

Sussistono dunque i presupposti per l'emissione della pronuncia di divorzio ai sensi dell[5]art. 3, lett. b), l. 898/1970 e successive modifiche.

Le condizioni concordate sono coerenti con le esigenze di tutela della figlia avuto riguardo a quanto accertato dai S.S. come relazionato in atti.

Le parti inoltre concordano sulla possibilità di incrementare nel tempo gli incontri padre/figlia e di introdurre, con gradualità, anche una liberalizzazione, previa valutazione da parte dei S.S..

Tale indicazione merita accoglimento in quanto coerente prima di tutto con le esigenze di A R e va esplicitata ai S.S., in modo che questi si regolino di conseguenza.

Le spese di lite vanno compensate per intero in ragione della natura della controversia e dell'esito della lite.

P.Q.M.

il Tribunale così provvede:

1. dichiara lo scioglimento del matrimonio contratto dai Sigg.ri S C e M D in 1 in data 8/8/2008 (matrimonio trascritto nei registri degli atti di matrimonio di detto Comune al n. , parte I, anno 2008);
2. dà atto che le parti hanno concordato le condizioni sopra esposte;
3. Dispone che i S.S. incrementino nel tempo gli incontri padre/figlia introducendo con gradualità e previa valutazione dell'evoluzione del rapporto, anche una liberalizzazione della relazione;
4. ordina all'ufficiale di Stato Civile del Comune di di provvedere al l'annotazione della presente pronuncia a margine dell'atto di matrimonio;
5. compensa per intero le spese di lite.

CONCLUSIONI

All'udienza di p.c. la ricorrente ha precisato le conclusioni come da ricorso e memoria integrativa rinunciando ai termini ex art. 190 epe, riservandosi il deposito dell'istanza di liquidazione del GP.

RAGIONI IN FATTO E IN DIRITTO

I. Sigg.ri E G e G S contraevano matrimonio in
in data 2/6/2012 (matrimonio trascritto nei registri degli atti di matrimonio di detto
Comune al n., P. II, serie A, anno 2012).
Dall'unione nasceva la figlia A (il '2010).
In seguito a ricorso congiunto i coniugi comparivano avanti al Presidente del Tribunale in epigrafe in data 8/11/2016 per la separazione consensuale, ritualmente omologata.
Con ricorso depositato in data 2/2/2018 la Sig.ra E G adiva il Tribunale per ottenere la declaratoria di separazione stante l'intollerabilità della prosecuzione della convivenza coniugale.
All'udienza del 19/4/2018 il Presidente autorizzava i coniugi a vivere separatamente disponendo la prosecuzione del giudizio per la trattazione nel merito.
Espletati gli incombenti di rito la causa viene decisa con sentenza.

Separazione

E' pacifica l'intollerabilità della prosecuzione della convivenza coniugale stante il deterioramento dei rapporti tra i coniugi.
La domanda svolta in principalità dalla ricorrente merita dunque accoglimento.

Affido della minore

II. resistente presenta problemi di dipendenza da alcool e cocaina riscontrati anche nel corso della CTU disposta in sede Presidenziale.
Nel corso della CTU egli ammetteva di non essere in grado di occuparsi della figlia in modo autonomo e declinava la possibilità di un affido condiviso in quanto non praticabile.
Successivamente decideva di intraprendere un percorso di recupero presso una comunità, tuttora in corso.
Per tali ragioni non può essere disposto diversamente dall'affido super esclusivo materno della minore (esteso dunque a tutte le questioni di straordinaria amministrazione).
Le visite padre/figlia saranno regolate dai S.S. del Comune di residenza della minore, previa verifica del buon esito del percorso, stabilendo un calendario previo periodo di osservazione e monitoraggio degli incontri prima in spazio neutro e successivamente domiciliari.

Contributo paterno

Viste le attuali condizioni del resistente, la sua contribuzione è condizionata all'uscita dalla Comunità (a meno che non svolga nel frattempo un'attività remunerata) allorché, in caso di occupazione lavorativa, saranno ripristinate le condizioni economiche stabilite in sede di separazione, prevedendo, in ogni caso, il versamento entro l'ultimo giorno.del mese deirimporto di euro 150,00, annualmente rivalutabili in base agli indici ISTAT, oltre al 50 % delle spese straordinarie (mediche, dentistiche e scolastiche).

Spese di lite

Le spese di lite seguono la soccombenza e vanno pertanto poste interamente a carico del resistente, che con la propria condotta ha necessitato gli accertamenti oggetto del giudizio.

P.Q.M.

il Tribunale, definitivamente pronunciando, così provvede:

1. dichiara la cessazione degli effetti civili del matrimonio contratto dai Sigg.ri E G e G S. in' n data 2/6/2012 (matrimonio trascritto nei registri degli atti di matrimonio di detto Comune al n. P. II, serie A, anno 2012);
2. dispone l'affido super esclusivo materno della minore;
3. dispone che il resistente, a meno che non svolga nel frattempo un'attività remunerata, provveda a corrispondere il mantenimento per la minore a decorrere dall'uscita dalla Comunità nella misura prevista in sede di separazione prevedendo, in ogni caso, il versamento entro l'ultimo giorno del mese dell'importo di euro 150,00, annualmente rivalutabili in base agli indici ISTAT, oltre al 50 % delle spese straordinarie (mediche, dentistiche e scolastiche);
4. ordina all'ufficiale di Stato Civile del Comune di di provvedere all'annotazione della presente pronuncia a margine dell'atto di matrimonio;
5. condanna il resistente a sostenere le spese di CTU e quelle di lite, queste ultime liquidate in euro 2.800,00, ma quantificate in euro 1.400,00 in ragione del patrocinio dello Stato, a favore dell'Erario, a meno che il patrocinio non venga revocato, nel qual caso la somma sarà dovuta a favore della ricorrente e per intero.

Si comunichi ai S.S. di residenza della minore (attualmente), i quali acquisiranno dal Sig. S. la copia della CTU allorché questi si attiverà per l'avvio del percorso di riavvicinamento alla minore. Manda alla cancelleria per quanto di competenza

Contro

C W RESISTENTE contumace

e con l'intervento del P.M. presso il Tribunale di CONCLUSIONI

La ricorrente concludeva riportandosi ai propri scritti difensivi.

MOTIVI DELLA DECISIONE

Con ricorso depositato ritualmente Z M chiedeva che venisse pronunciato lo scioglimento del matrimonio celebrato il 27,10.2008 a (Perù) con C W Chiariva che dal matrimonio era nato un figlio nel 2009 e che tra le partì era venuta meno la comunione materiale e spirituale con sentenza n. 1713.2016 di questo Tribunale, e che la stessa non potrebbe più ricostituirsi. Chiedeva disporsi provvedimenti per l'affido esclusivo a sé del figlio minore (stante il totale disinteresse paterno nei suoi confronti, oramai inadempiente nel versamento del concorso al mantenimento della prole e nel sostegno morale) e collocazione prevalente presso di sé, sulle visite con il resistente e sul concorso paterno al mantenimento del minore.

All'udienza fissata a norma dell'art. 4 della Legge 898/70 compariva solo la ricorrente, in quanto il resistente rimaneva contumace; il Presidente, risultato vano il tentativo di conciliazione, confermava le condizioni della separazione giudiziale intercorsa tra le parti, disponendo la comparizione delle parti avanti al Giudice Istruttore.

Depositate le memorie integrative -previa rituale notifica del provvedimento presidenziale-, trattata la causa e ritenuta la causa matura per la decisione, venivano precisate le conclusioni e la causa veniva rimessa al Collegio per la decisione.

La domanda della ricorrente di scioglimento del matrimonio è fondata e va accolta.

Invero, emerge dalla documentazione prodotta agli atti come le parti abbiano celebrato matrimonio in data 27.10.2008 a (Perù).

Fra le parti, inoltre, è intervenuta separazione giudiziale dichiarata con sentenza n. 1713.2016 di questo Tribunale. Lo stato di separazione legale tra gli stessi sussiste, per cui ricorrono gli estremi previsti dall'alt 3 n.2 B della Legge 1.12.1970 n.898, come successivamente modificato.

Osserva in proposito il Collegio come dalla documentazione in atti e dalle dichiarazioni rese sia emerso che essi vivano ininterrottamente separati di fatto e di diritto dalla data della separazione e che da tale epoca non si è verificato alcun ricongiungimento fra gli stessi. Anche dal comportamento processuale delle parti si può ritenere provato che la comunione spirituale e materiale tra i coniugi non possa essere mantenuta o ricostituita.

Per quanto concerne i provvedimenti accessori, ritiene il Collegio, all'esito dell'esame delle risultanze processuali, che sussistano i presupposti per l'accoglimento della domanda della ricorrente volta ad ottenere l'affido esclusivo a sé del minore (stante il persistente disinteresse paterno nei confronti dei figlio, sia dal punto di vista materiale che spirituale) con collocazione prevalente presso la propria abitazione e relativa regolamentazione delle visite da parte del padre come richiesto in ricorso nonché la corresponsione del contributo paterno al mantenimento del figlio per €250 mensili, rivalutabili annualmente secondo gli indici ISTAT.

Pertanto, vanno accolte le domande della ricorrente.

È parere del Collegio che sussistano giusti motivi, in considerazione della contumacia di parte resistente, per compensare totalmente le spese di lite.

P.Q.M.

il Tribunale, definitivamente pronunciando sulla domanda proposta da Z G nei confronti di C W ogni ulteriore domanda eccezione e istanza disattesa, così provvede:

MOTIVI IN FATTO ED IN DIRITTO DELLA DECISIONE

La domanda di pronuncia dello scioglimento del matrimonio civile contratto dalle parti il 13/09/2002 in (Albania) è fondata e meritevole di accoglimento.

Da quanto risulta, le parti vivono in stato di separazione fin dalla loro comparizione avanti il Presidente di questo Tribunale, avvenuta il 31/03/2017 nel corso del giudizio di separazione e tra loro non vi è più stata riunione,

Lo stato di separazione protrattosi per il termine di legge, resistenza del presente ricorso e l'inutilità dell'esperimento del tentativo di conciliazione dimostrano che l'unione-materiale e spirituale tra i coniugi non può essere ricostituita.

Possono accogliersi le domande congiunte delle parti in punto di affidamento della prole e di determinazione del contributo al suo mantenimento, in quanto congrue rispetto alle esigenze dei minori ed alle condizioni economiche dei contendenti.

Risulta, infatti, opportuno l'affidamento di F e L al Comune di alla luce dell'inalterata conflittualità delle parti, evidenziata da una comunicazione improntata ad insulti e da atteggiamenti oppositori, se non provocatori di cui hanno dato atto i Servizi Sociali del Comune affidatario nella relazione del marzo 2019; nel contempo, appare opportuno mantenere il collocamento prevalente di entrambi i minori presso la madre alla stregua di quanto riferito dallo stesso 1 alle assistenti sociali in ordine alla sua contentezza di trascorrere tanto tempo con la sorella.

Alla stregua dello stesso contenuto della predetta relazione il Tribunale raccomanda all'Ente affidatario la sollecita predisposizione, in favore di F di un intervento di potenziamento cognitivo mirato al con il collegamento con la sua scuola in tempo utile per l'inizio del prossimo anno scolastico, nonché di un percorso di sostegno alla genitorialità delle parti contestuale ad un altro di supporto psicologico per entrambi i minori; si invita, altresì, l'Ente affidatario a sottoporre L ad una valutazione neuropsichiatrica in linea con la segnalazione della maestra-della bambina risalente all'anno scorso, in funzione dei superamento delle difficoltà scolastiche della minore. Stante l'intervenuto accordo tra le parti, si stima congruo compensare totalmente tra loro le rispettive spese di lite.

Il Tribunale di
così deliberando in via definitiva:

1. dichiara lo scioglimento del matrimonio civile contratto dalle parti il 13/09/2002 in Albania;

2. ordina all'ufficiale di Stato Civile del Comune di di procedere all'annotazione della sentenza a margine

dell'atto di matrimonio n. parte II, serie C, anno 2015;

3. dispone l'affidamento dei minori F e L i al Comune di con il loro collocamento presso la J madre, disponendo che l'Ente affidatario proceda all'espletamento degli interventi meglio specificati in motivazione;

D R V RESISTENTE contumace
E con l'intervento del P.M. presso il Tribunale di

CONCLUSIONI

La ricorrente concludeva riportandosi ai propri scritti difensivi.

MOTIVI DELLA DECISIONE

Con ricorso depositato ritualmente V DE chiedeva che venisse pronunciato lo scioglimento del matrimonio celebrato a il 12.11.2005 con D R V

Chiariva che dal matrimonio era nato un figlio (nel 2006), che tra le parti era venuta meno la comunione materiale e spirituale con decreto di omologa del 22.2.2013 di questo Tribunale e che la stessa non potrebbe più ricostituirsi. Dava, altresì, atto che il resistente si era trasferito in disinteressandosi del figlio sia dal punto di vista affettivo che materiale, non versando regolarmente il mantenimento per il minore, sicché chiedeva l'affido esclusivo a sé del figlio.

All'udienza fissata a norma dell'art. 4 della Legge 898/70 compariva solo la ricorrente, in quanto il resistente rimaneva contumace; il Presidente f.f., risultato vano il tentativo di conciliazione, confermava le condizioni della separazione giudiziale intercorsa tra le parti, disponendo la comparizione delle parti avanti al Giudice Istruttore.

Depositate le memorie integrative -previa rituale notifica del provvedimento presidenziale, trattata la causa e ritenuta la causa matura per la decisione, venivano precisate le conclusioni e la causa veniva rimessa ai Collegio per la decisione.

Preliminarmente va dichiarata la contumacia del resistente, che, sebbene ritualmente citato, non si è costituito in giudizio.

La domanda della ricorrente di scioglimento del matrimonio è fondata e va accolta.

Invero, emerge dalla documentazione prodotta agli atti come le parti abbiano celebrato matrimonio a il 12.11.2005. Fra le parti, inoltre, è intervenuta separazione giudiziale dichiarata con decreto di omologa di questo Tribunale del 22.2.2013. Lo stato di separazione legale tra gli stessi sussiste e ricorrono gli estremi previsti dall'art.3 n.2 B della Legge 1.12.1970 n.898 come modificato successivamente. Osserva in proposito il Collegio come dalla documentazione in atti e dalle dichiarazioni rese sia emerso che essi vivano ininterrottamente separati di fatto e di diritto dalla data della separazione e che da tale epoca non si è verificato alcun ricongiungimento fra gli stessi. Anche dal comportamento processuale delle parti si può ritenere provato che la comunione spirituale e materiale tra i coniugi non possa essere mantenuta o ricostituita.

Per quanto concerne i provvedimenti accessori, ritiene il Collegio, all'esito dell'esame delle risultanze processuali, che sussistano i presupposti per l'accoglimento della domanda della ricorrente volta, ad ottenere l'affido esclusivo della prole e relativa regolamentazione delle visite da parte del padre in modo libero previo accordo tra le parti nonché la previsione della corresponsione di un contributo al

mantenimento del figlio con le stesse modalità prescritte nel decreto di omologa della separazione. Ed invero, le condizioni economiche delle parti ed i rapporti personali non sono affatto mutati nelle more del deposito del ricorso per la declaratoria di divorzio e il resistente ha continuato a disinteressarsi completamente della prole. Il contegno processuale tenuto dal resistente, che non ha ritenuto di costituirsi nel presente processo, sebbene ritualmente citato, dimostra la fondatezza dell'assunto della ricorrente.

Per quanto riguarda le statuizioni di carattere economico e patrimoniale richieste dalla ricorrente quale concorso al mantenimento del figlio economicamente non autosufficiente, in considerazione dei parametri di cui all'art.337 *quater* c.c. -co. IV- (attuali esigenze del figlio, tenore di vita goduto dal figlio in costanza di convivenza dei genitori, tempi di permanenza presso ciascun genitore, risorse economiche di ogni genitore, valenza economica dei compiti domestici e di cura assunti da ogni genitore), bisogna tener conto, mancando riscontri sul tenore di vita goduto dalle parti in costanza di matrimonio, dei tempi di permanenza della prole presso i genitori (il figlio sta prevalentemente presso la madre) e delle condizioni precipue dei coniugi, onde si ritiene di dover confermare gli obblighi a carico del resistente di contribuire al mantenimento della prole così come stabilito in sede di udienza presidenziale (non essendo nelle more intervenute modifiche sostanziali delle condizioni economiche-finanziarie delle parti, non avendo le parti impugnato il provvedimento presidenziale, né imponendosi a questo Collegio differenti circostanze tali da indurre ad una modifica del predetto provvedimento non emergendo alcun mutamento dei presupposti di fatto posti alla base di quel provvedimento né tanto meno ravvisandosi l'opportunità di riesaminarne il contenuto) nella somma mensile di €500, oltre alla rivalutazione monetaria secondo gli indici ISTAT.

Il resistente contribuirà al 50% delle spese straordinarie di tipo medico (mediche non coperte dal SSN, anche specialistiche se richieste espressamente dal medico curante, e odontoiatriche, il tutto purché concordato tra le parti, salva l'urgenza, e purché documentate, compresi tickets medici e farmaceutici), di tipo scolastico, sportivo e ludico relativamente alla prole.

Decisa la causa come sopra, tutte le ulteriori istanze devono ritenersi inammissibili e/o reiette.

Pertanto, vanno accolte le domande della ricorrente e confermate le condizioni stabilite nella sentenza di separazione.

È parere del Collegio che sussistano giusti motivi, in considerazione della contumacia di parte resistente, per compensare totalmente le spese di lite.

P.Q.M.

il Tribunale, definitivamente pronunciando sulla domanda proposta da V D E nei confronti di E R V ogni ulteriore domanda eccezione e istanza disattesa, così provvede:

- dichiara lo scioglimento del matrimonio celebrato a il 12.11.2005 tra V D E e D V iscritto nei registri dello stato civile di quel Comune, atto n., p. anno 2005;
- manda alla Cancelleria di trasmettere copia autentica della presente sentenza all'ufficiale di stato civile del predetto Comune per le annotazioni e le ulteriori incombenze;
- affida il figlio minore in via esclusiva alla madre con col locazione prevalente presso la casa materna, con facoltà per il padre di vederlo quando vorrà previo adeguato preavviso;
- dispone che il D corrisponda alla V quale contributo al mantenimento della prole, entro il giorno 15 di ogni mese, la somma complessiva di €500, rivalutabile annualmente secondo gli indici ISTAT, oltre il 50% delle spese mediche non coperte da SSNN, di quelle scolastiche, sportive e ricreative del figlio, queste ultime previamente concordate e salva in ogni caso l'esibizione dei giustificativi di spesa;

- compensa tra le parti le spese di lite.

- RICORRENTI -

Con l'intervento necessario del Pubblico Ministero che ha concluso per l'accoglimento del ricorso.

RAGIONI DI FATTO E DI DIRITTO

Le parti come indicate in epigrafe, con ricorso congiuntamente depositato 1'8.03.2019, esponevano quanto segue:

- in data 25.06.2003 essi avevano contratto matrimonio civile in trascritto nei registri dello Stato Civile del Comune di all'atto n. parte I, Anno 2003,
- dall'unione erano nati i figli E M e L entrambi il 20.10,2011,
- i coniugi sono comparsi avanti al Presidente del Tribunale di in data 7.07.2017,
- la separazione è stata dichiarata con sentenza non definitiva n. 1791/2018 del 13.11,2018 e poi con sentenza definitiva n. 445/2019 del 15.03.2019,
- nessuna possibilità vi era di ricomporre la comunione spirituale e materiale fra i coniugi,
- i coniugi ricorrevano pertanto a) Tribunale per sentire dichiarato lo scioglimento del matrimonio, concordando fra loro le seguenti condizioni:

1. Affidamento esclusivo dei figli E M e L alla madre che avrà l'esercizio esclusivo della responsabilità genitoriale e che si impegnerà, come previsto dall'arte 337 *quater* c.c, ad adottare congiuntamente al padre tutte le decisioni di maggiore interesse che riguardano i figli.

2. Collocamento dei due figli minori presso l'abitazione materna in) via con iscrizione nello stato di famiglia materno.

3. **Regolamento genitoriale:**

a. Il padre potrà vedere e tenere con sé i figli, a fine settimana alterni dal venerdì dall'uscita da scuola sino alla domenica alle ore 21,00, prelevandoli presso la casa materna e riportando veli;

b. Ciascuno dei due genitori trascorrerà con i figli una settimana nel periodo natalizio, secondo il criterio dell'alternanza, dal 23 al 30 dicembre ovvero dal 31. dicembre al 6 gennaio ad anni alterni (nel 2019 il periodo dal 23 al 30 dicembre sarà con la madre);

c. Ciascuno dei genitori trascorrerà con i figli tre giorni durante le vacanze scolastiche pasquali incluso il giorno di Pasqua, ad anni alterni (nel 2019 il periodo comprendente il giorno di Pasqua sarà con il padre);

d. ciascuno dei genitori trascorrerà tre settimane di cui solo due consecutive, nel periodo estivo, da concordarsi tra i genitori entro il 31 di maggio di ogni anno;

e. le vacanze che i genitori trascorrono con i figli sospendono l'alternanza dei fine settimana ovvero al termine delle vacanze il fine settimana riprenderà con il genitore che non ha avuto i figli l'ultimo fine settimana prima delle vacanze.

4. Mantenimento dei figli interamente a carico materno sia per quanto attiene le spese ordinarie sia per quanto riguarda i costi aggiuntivi e straordinari per spese mediche, ricreative e scolastiche; il padre provvederà al mantenimento diretto dei figli nei periodi di propria competenza e sosterrà integralmente i costi dei viaggi per prelevare e riportare i figli presso l'abitazione materna.

5. Autorizzazione reciproca al rilascio dei documenti validi per l'espatrio per sé e per i figli minori.

6. Assegno *una tantum* che C C si impegna sin d'ora a riconoscere ed erogare a C B con le seguenti modalità e forme:

- Euro 55.000,00 (cinquantacinquemila euro) da versarsi alla udienza presidenziale, a mezzo assegno circolare intestato a C B;
- impegno di C C a trasferire a C B la proprietà del vano contraddistinto al NCEU del Comune di al (già parte del subalterno 8 ora soppresso), consistente in un bagno, facente parte del proprio complesso immobiliare ma ricompreso nel corpo di fabbrica di usufrutto e nuda proprietà rispettivamente dei Signori P G e C B, con rinuncia alle domande tutte proposte da C C nella causa introdotta innanzi al Tribunale di R.G. n. 6624/2018, Giudice Dott. Arcudi;
- Dott.ssa Cortellaro. 

rinuncia di C C alla pretesa creditoria di cui al decreto ingiuntivo del Tribunale di P in data 1/3.01.2018 (D. ing. n. 26/2018 - R.G. n. 6982/2017) emesso a carico del Signor C B per la somma di Euro 80.890,00 oltre interessi e spese di procedura liquidate (compresa tassa di registro), nonché alla pretesa creditoria ed alle domande svolte nel relativo giudizio di opposizione pendente R.G. n. 1186/2018 Tribunale di Giudice

7. Riconoscimento che i coniugi sono reciprocamente soddisfatti, che hanno risolto e definito ogni loro rapporto economico e patrimoniale e che null'altro hanno da pretendere né esigere, reciprocamente, per qualsiasi titolo ragione o causa; dichiarano quindi reciprocamente di rinunziare a far valere diritti di credito o restitutori in relazione a beni mobili, mobili registrati o immobili, denaro o titoli, gioielli e/o orologi, rapporti bancari e di finanziamento cointestati o intestati in via esclusiva all'avvocato C
8. Compensazione integrale tra le parti delle spese processuali.

All'udienza del 7 maggio 2019 le parti venivano sentite. L'Avvocato C provvedeva al saldo del pagamento dell'ima *tantum* e il Signor B dava atto della ricezione. Il tentativo di conciliazione rimaneva infruttuoso e i coniugi confermavano le condizioni sopra riportate, dichiarando altresì di prestare acquiescenza all'emananda sentenza.

Il comportamento processuale delle parti, il lasso di tempo trascorso dalla cessazione della vita in comune e l'inutilità del tentativo di conciliazione depongono chiaramente per l'impossibilità di ricostituire ogni comunione materiale e spirituale fra i coniugi.

Pacifica in causa è l'esistenza di una delle cause previste dall'art. 3 della legge 1.12.1970 n. 898 per ottenere là cessazione degli effetti civili del matrimonio, nonché il decorso del tempo richiesto a tal fine dall'art. 3 n. 2) lettera b) della stessa legge.

Le pattuizioni concordate fra le parti sono conformi a legge, concernono diritti disponibili e, per la parte concernente la prole minore, ne tutelano gli interessi, anche alla luce della L. 8.2.2006 n. 54.

P.T.M.

Il Tribunale Di , definitivamente pronunciando in camera di consiglio nella causa fra le parti in epigrafe, dichiara Io scioglimento del matrimonio contratto da C C e C B in in data 2 2003, trascritto nei registri dello Stato Civile del Comune di , all'atto n. parte I, anno 2003, alle condizioni sopra riportate, da intendersi qui integralmente trascritte.

Manda alla Cancelleria perché trasmetta copia autentica della presente sentenza al competente Ufficiale dello Stato civile per le annotazioni e le incombenze di cui al R.D. 9.7.1939 n. 1238 e per ogni altro adempimento. Così deciso nella camera di consiglio dell'08.05.2019.

RAGIONI IN FATTO E IN DIRITTO

1 Sigg.ri M G G e S Z contraevano matrimonio in
in data 20/7/2013 (matrimonio trascritto nei registri degli atti di matrimonio di detto Comune al n , P. II, serie C, anno 2013). Dall’unione nasceva in data 2015 la figlia M
Con atto di ricorso depositato in data 20/3/2017 la Sig.ra M G G adiva il Tribunale in epigrafe chiedendo l’emissione della pronuncia di separazione stante l’intollerabilità della convivenza coniugale.
Provvedeva a costituirsi il Sig. S, ma successivamente il legale di quest’ultimo rinunciava al mandato. Espletati gli incombenti di rito, la causa viene decisa con sentenza sulla base delle conclusioni rassegnate dalle parti.

Separazione
Alla luce delle risultanze di causa, deve ritenersi sufficientemente dimostrata l’intollerabilità della convivenza tra i coniugi tale da rendere ineluttabile la separazione.

Addebito della separazione
La domanda di addebito svolta dalla ricorrente è fondata e meritevole di accoglimento.
Gli atteggiamenti prevaricatori ed aggressivi del coniuge, sia sul piano morale che fisico, hanno trovato riscontro nelle dichiarazioni rese dal padre e dalla sorella della ricorrente, la quale (sorella) ha assistito direttamente agli episodi descritti, in particolare quello in data 18/4/2015 - inerente alla caduta provocata dal resistente quando la ricorrente era in stato interessante - le cui conseguenze emergono dal referto medico in atti.
La Sig.ra G inoltre ha prodotto i messaggi offensivi che le sono stati inviati dal coniuge, che confermano l’indole di quest’ultimo, come pure ha trovato riscontro l’uso inappropriato di sostanze alcooliche da parte del Sig. Z , emersa anche in sede di CTU (‘W è *significativo sul fatto che il resistente abbia mostrato “una totale assenza di critica e di consapevolezza rispetto alla sua dipendenza. L'essere un bevitore sociale e il ricevere un farmaco antagonista sembravano convivere nel discorso di S. che non si è discostato da questa punteggiatura...'").*
Per tale ragione il CTU ha insistito sulla necessità che il resistente riprenda la frequentazione del 1 e che dimostri fattivamente, attraverso esami periodici, il raggiungimento dell’indipendenza dalle sostanze alcooliche (il Sig. Z dopo avere dato un’iniziale disponibilità, non vi dava corso, non essendo in condizione, autonomamente, di avviare con costanza tale percorso).
La condotta vessatoria del resistente è contraria ai doveri coniugali e rappresenta, per modalità e frequenza, causa ostativa alla prosecuzione del rapporto.

Affido della minore
In assenza di una fattiva volontà terapeutica non vi è alternativa all’adozione dell’affido esclusivo materno, già disposto in esito alla CTU, attribuendo alla ricorrente la potestà esclusiva anche per le questioni di straordinaria amministrazione posto che il resistente non ha mostrato una resipiscenza nella propria condotta.

A ciò si aggiunga che egli ha riferito la volontà di allontanarsi, trasferendosi in , dopo essersi licenziato dal posto di lavoro (in esito all'ordine di pagamento rivolto al datore di lavoro ex art, 156, co. VI, c.c.).
Gli incontri padre/figlia dovranno essere mediati dai S.S., sempre che il resistente dimostri la concreta volontà di curarsi per la propria condizione di dipendenza, dandone prova mediante relazione aggiornata dei servizi specialistici che egli trasmetterà ai suddetti S.S.
Questi ultimi, che continueranno a monitorare la situazione, predisporranno gli incontri con la presenza di una figura educativa, secondo un calendario da concordare, verificando l'andamento nel tempo e solo in caso di costanza nel rapporto e di esito positivo nella relazione introdurranno gradualmente una maggiore autonomia negli incontri.

Contributo di mantenimento per il figlio

In assenza di elementi di novità, si conferma quanto sin qui stabilito, precisando, quanto alle spese straordinarie, che queste verranno decise dalla madre in ragione della responsabilità genitoriale esclusiva.
Vanno confermati altresì i provvedimenti adottati ex art. 156, co 6, c.c..

Documenti validi per l'espatrio

Nulla quaestio per quanto riguarda la richiesta della ricorrente e della figlia in ordine al rilascio a proprio favore dei documenti validi per l'espatrio.

Spese di lite

Le spese di lite seguono la soccombenza e vanno pertanto poste interamente a carico del resistente, come da dispositivo.

P.Q.M.

Il Tribunale, dato atto dell'emissione della sentenza di separazione nel corso del giudizio, ogni diversa domanda, istanza, eccezione e difesa disattesa e respinta, così provvede:

1. dichiara la separazione personale tra i Sigg.ri M G G e S Z , coniugatisi in ( )
in data 20/7/201.3 (matrimonio trascritto nei registri degli atti di matrimonio di detto Comune al n. P. II, serie C, anno 2013);
2. addebita la separazione al resistente;

3. dispone l'affido super esclusivo materno della minore;
4. dispone, che i rapporti padre/figlia siano mediati dai S.S., sempre che il resistente dimostri la concreta volontà di curarsi per la propria condizione di dipendenza, dandone prova mediante relazione aggiornata dei servizi specialistici (Sert), che egli trasmetterà ai suddetti S.S. (questi ultimi continueranno a monitorare la situazione, predisporranno gli incontri con la presenza di una figura educativa, secondo un calendario da concordare, verificando l'andamento nel tempo e solo in caso di costanza nel rapporto e di esito positivo nella relazione introdurranno gradualmente una maggiore autonomia nella relazione);
5. conferma la contribuzione paterna per il mantenimento della minore precisando, quanto alle spese straordinarie, che queste verranno decise dalla madre in ragione della responsabilità genitoriale esclusiva;
6. conferma i provvedimenti adottati ex art. 156, co 6, c.c.;
7. dichiara che nulla osta al rilascio dei documenti validi per l'espatrio a favore della ricorrente e della minore;
8. condanna il resistente a rifondere alla ricorrente le spese di lite pari ad euro 4 mila, oltre spese generali, spese di iscrizione della causa ed oneri di legge e spese di CTU, nella misura sostenuta dalla Sig.ra G;
9. ordina all'ufficiale di Stato Civile del Comune di di provvedere

Oggetto: Separazione giudiziale
CONCLUSIONI
All'udienza di precisazione delle conclusioni la parte ricorrente concludeva come in atti, rinunciando ai termini ex art. 190 epe.

RAGIONI IN FATTO E IN DIRITTO

I Sigg.ri M M. e L S contraevano matrimonio in
in data 18/12/2010 (matrimonio trascritto nei registri degli atti di matrimonio di detto Comune al n. parte II, serie A, anno 2010).
Dall'unione nascevano tre figlie: G 2017), S 2014) e 2013).
Con ricorso depositato in data 6/9/2018 la Sig.ra M adiva il Tribunale per ottenere la declaratoria di separazione stante l'intollerabilità della prosecuzione della convivenza coniugale.

All'udienza del 20/12/2018, nella quale il Sig. S[1] non compariva, il Presidente autorizzava i coniugi a vivere separatamente disponendo la prosecuzione del giudizio per la trattazione nel merito. Espletati gli incombenti di rito la causa viene decisa con sentenza.

Separazione

E' pacifica l'intollerabilità della prosecuzione della convivenza coniugale stante il deterioramento dei rapporti tra i coniugi.
Sussistono dunque i presupposti per l'emissione della sentenza di separazione.

Addebito

La domanda di addebito svolta dalla ricorrente è parimenti fondata e meritevole di accoglimento essendo stato dimostrato l'abbandono del tetto coniugale da parte del resistente con cessazione di ogni rapporto con la moglie e le figlie e di ogni apporto di natura economica.
Ciò è stato confermato dal padre della ricorrente, sentito come teste, e deve ritenersi comunque ammesso in ragione della mancata comparizione del Sig. S all'udienza fissata per l'interpello.

Affido

Stante la totale assenza del padre, le figlie vanno affidate in via esclusiva alla madre, alla quale viene attribuita la responsabilità genitoriale esclusiva anche per le questioni di straordinaria amministrazione.
I rapporti padre/figlie, ove il Sig. S manifestasse una seria e duratura volontà di ripresa dei rapporti, potranno avvenire solo con modalità tutelanti per le minori, che la ricorrente valuterà, se del caso coinvolgendo anche i S.S.

Altre determinazioni

In assenza di elementi di novità, si confermano per il resto le determinazioni assunte in sede Presidenziale, quantificando dunque la contribuzione paterna per le figlie nella misura di euro 750,00 mensili (da corrispondersi entro il 5 di ogni mese) oltre al 50 % delle spese straordinarie, richiamando, quanto a queste ultime, il protocollo adottato dalla Corte d'Appello di. (con la precisazione che il rimborso paterno è dovuto comunque in ragione delle scelte della madre stante l'affido super esclusivo).

Spese di lite

Le spese di lite seguono la soccombenza e vanno pertanto poste interamente a carico del resistente nella misura stabilita come da dispositivo.

P.Q.M.

il Tribunale, definitivamente pronunciando, così provvede:

1. dichiara la separazione personale dei Sigg.ri M M e L S coniugatisi in in data 18/12/2010 (matrimonio trascritto nei registri degli atti di matrimonio di detto Comune al n. parte II, serie A, anno 2010);
2. addebita la separazione al resistente;
3. affida le figlie alla madre, con attribuzione a quest'ultima della responsabilità genitoriale esclusiva anche per le questioni di straordinaria amministrazione, prevedendo che i rapporti padre/figlia siano regolati come da parte motiva;
4. conferma la contribuzione paterna per 'le figlie stabilita in sede Presidenziale con le precisazioni di cui alla parte motiva;
5. ordina all'ufficiale di Stato Civile del Comune di di provvedere all'annotazione della presente pronuncia a margine dell'atto di matrimonio;
6. condanna il resistente a rifondere alla ricorrente le spese di lite liquidate in euro 2.600,00 oltre spese generali, oneri di legge e spese di iscrizione della causa.

RAGIONI IN FATTO E IN DIRITTO

I Sigg.ri N A C e L C contraevano matrimonio:
in data 14/2/2009 (matrimonio trascritto nei registri degli atti di matrimonio di detto Comune al n. P. Il, serie A, anno 2009).
Dall'unione nasceva in data 10/6/2009 la figlia E G
Con atto di ricorso depositato in data 10/8/2017 la Sig.ra N. A C adiva il
Tribunale in epigrafe chiedendo l'emissione della pronuncia di separazione stante l'intollerabilità della convivenza coniugale.
Provvedeva a costituirsi il Sig. L C mediante comparsa di risposta con la quale aderiva
alla domanda di separazione formulando autonome istanze in ordine alla regolamentazione dei rapporti conseguenti.
In seguito al ricorso per separazione giudiziale, le parti comparivano in data 7/11/2017 avanti al Presidente il quale dava l'autorizzazione a vivere separatamente adottando i provvedimenti di natura provvisoria.
Espletati gli incombenti di rito, la causa viene decisa con sentenza sulla base delle conclusioni rassegnate dalle parti.

Separazione

Alla luce delle risultanze di causa, deve ritenersi sufficientemente dimostrata l'intollerabilità della convivenza tra i coniugi tale da rendere ineluttabile la separazione.

Addebito della separazione

La domanda di addebito svolta dalla ricorrente è fondata e meritevole di accoglimento in ragione dell'abbandono da parte del resistente della casa coniugale non avendo quest'ultimo dimostrato 1'esistenza di una pregressa frattura della relazione coniugale *(fin tema di separazione personale dei coniugi, l'abbandono della casa familiare, che di per sé costituisce violazione di un obbligo matrimoniale e, conseguentemente, causa di addebito della separazione, in quanto porta alla impossibilità della convivenza, non concreta tale violazione se si provi - e l'onere incombe a chi ha posto in essere l'abbandono - che esso è stato determinato dal comportamento dell'altro coniuge, ovvero quando il suddetto abbandono sia intervenuto nel momento in cui l'intollerabilità della prosecuzione della convivenza si sia già verificata, ed in conseguenza di tale fatto"*, Cass, Sez. I, sent. 12373 del 10/6/2005).
Per converso, la domanda di addebito svolta dal Sig. C va disattesa in quanto rimasta sfornita
di prova.

Affido del minore

La decisione in punto di affido non può prescindere dall'andamento dei rapporti registrato negli ultimi mesi ed in particolare dall'atteggiamento assunto in merito dal Sig. C secondo quanto riportato dai S.S.
L'ordinanza Presidenziale ha disposto l'affido condiviso della minore con collocazione preferenziale materna incaricando i S.S. di monitorare i rapporti e. di favorire il dialogo ed il confronto tra le parti per un'effettiva co-gestione della genitorialità.
Durante il procedimento è stato periodicamente verificato l'andamento dei rapporti, da ultimo registrando i ss. problemi della minore rispetto alla permanenza dal padre; l'assenza di una sistemazione idonea per il pernotto e le difficoltà con l'attuale compagna del Sig. C (i cui metodi educativi suscitano difficoltà in E G, che non si sente adeguatamente tutelata dal padre).
Richiamato quanto esposto nelle relazioni dei S.S. circa l'attuale sistemazione abitativa del resistente (che convive con la madre, anziana e malata, l'attuale compagna ed il figlio ventenne di quest'ultima in un appartamento che ha degli oggettivi limiti di ospitalità), con ordinanza in data 25 ottobre 2018 si è cercato di dare una prospettiva alla situazione creatasi accogliendo da un lato la richiesta di

sospensione dei pernotti paterni della minore, vista l'impraticabilità di soluzioni coerenti con le esigenze di quest'ultima, ma prospettando nel contempo il ripristino di tale regime non appena il resistente avesse trovato una soluzione adeguata (quale ad es., banalmente, l'acquisto di un divano letto in cui collocare la propria madre, riservando alla figlia un letto nella cameretta).

A fronte dell'obiezione del Sig. C in ordine alle proprie difficoltà economiche a sostenere anche l'acquisto di un divano letto, si faceva presente il miglioramento della sua situazione economica per effetto della revoca della contribuzione posta a carico del predetto ed a favore della Sig.ra C.

Purtroppo, come evidenziato dai S.S., non solo il Sig. *C* non ha perseguito la signora indicata, ma ha anche interrotto i rapporti con la minore, già da prima del Natale scorso, dichiarando espressamente di avere *"mollato"* e *"gettato la spugna" e* che anche le telefonate con la figlia erano diventate per lui ormai *" difficili ",* essendosi sentito *"trattato male".*

Così facendo il resistente - che certamente vive una situazione non semplice in relazione alle condizioni della madre ed alle preoccupazioni del quotidiano - ha riconosciuto sostanzialmente di non avere le risorse personali per affrontare un rapporto problematico come quello con la figlia.

Al punto da assumere un atteggiamento passivo, delegando alla figlia la ripresa della relazione (*"lei non ha chiamato e io non l'ho cercata").*

Come osservato dai S.S. tutto questo crea un innaturale inversione nei rapporti tra adulto e figlia, gravando quest'ultima di sforzi che dovrebbe essere il genitore a compiere.

Da ciò discende che non è praticabile il regime di affido condiviso, che presupporrebbe una maggiore maturità da parte del Sig. C ed un'effettiva partecipazione alla vita della figlia.

E' dunque giocoforza, sino a diverso atteggiamento da parte del resistente, disporre l'affido esclusivo materno della minore,

Quanto ai rapporti padre/figlia è evidente che essi sono condizionati ad un mutamento di atteggiamento da parte del resistente, che dovrà dimostrare nei fatti la volontà di avere una relazione continuativa e responsabile con E G

In presenza di tale presupposto, si applicherà il regime da ultimo definito, provvedendo i S.S. a monitorare i rapporti.

Assegnazione della casa coniugale

Nulla quaestio sull'assegnazione della casa coniugale alla ricorrente, affidataria della minore.

Contributo paterno di mantenimento della figlia

In assenza di elementi di novità si conferma quanto stabilito in sede Presidenziale.

E' pur vero che la ricorrente, per le ragioni esposte, non viene alleggerita in alcun modo nei compiti di accudimento della minore, ma è altresì vero che nella contribuzione paterna rientra anche l'assegnazione della casa coniugale e che ora quest'ultima (il che rappresenta un elemento di novità rispetto all'udienza Presidenziale) viene utilizzata anche da un terzo soggetto - ovvero l'attuale compagno della ricorrente (e prossimamente il nascituro della coppia) -, il quale è tenuto a concorrere nelle spese per quanto di competenza.

Contributo al mantenimento della ricorrente

Tale domanda non può trovare accoglimento per le ragioni esposte nell'ordinanza in data 25/10/2018.

Assegni familiari

Stante l'affido esclusivo materno (e prima ancora la collocazione preferenziale materna) gli assegni familiari spettano alla ricorrente.

Spese condominiali

Le spese condominiali ordinarie e quelle per le utenze restano a carico della ricorrente in quanto assegnataria dell'immobile.

Spese di lite

Le spese di lite vanno compensate per intero stante la reciprocità della soccombenza.

P.Q.M.

Il Tribunale, dato atto dell'emissione della sentenza di separazione nel corso del giudizio, ogni diversa domanda, istanza, eccezione e difesa disattesa e respinta, così provvede:

1. dichiara la separazione personale tra i Sigg.ri N *A* C e L C coniugatisi in in data 14/2/2009 (matrimonio trascritto nei registri degli atti di matrimonio di detto Comune al n. P. II, serie A, anno 2009);
2. addebita la separazione al resistente;
3. affida la minore in via esclusiva alla madre prevedendo che la ripresa dei rapporti, secondo il calendario da ultimo stabilito, sia condizionata ad un mutamento di atteggiamento da parte del resistente, che dovrà dimostrare nei fatti la volontà di avere una relazione continuativa e responsabile con E C

OGGETTO: separazione giudiziale

CONCLUSIONI DELLA RICORRENTE: come da verbale del 15/05/2019.

MOTIVI IN FATTO ED IN DIRITTO DELLA DECISIONE

La domanda di pronunzia di separazione personale dei coniugi è fondata e meritevole di accoglimento.

La presentazione del presente ricorso e la contumacia del resistente, che, dopo aver omesso di presenziare all'udienza presidenziale destinata all'esperimento del tentativo di conciliazione, si è, altresì, disinteressato della prosecuzione del presente giudizio, dimostrano in modo evidente il venir meno dell'interesse dei coniugi alla prosecuzione della loro convivenza.

Deve modificarsi l'attuale regime di affidamento del minore M la condiviso a super esclusivo alla madre; in effetti, tale forma di affido può essere concesso, in deroga all'ordinario regime di affido condiviso, sulla base di adeguate motivazioni, concretamente dimostrate, circa l'incapacità dell'altro genitore di assicurare tutte le responsabilità derivanti dal proprio ruolo la quale, di conseguenza, potrebbe pregiudicare il futuro benessere della prole.

Tale conclusione, che si trova affermata dalla giurisprudenza di merito e di legittimità, spesso chiamata all'applicazione dell'art.337-quater C.C. in combinato disposto con l'art. 337-ter C.C., individua nella centralità dell'interesse del minore, cui fa riferimento la norma appena citata, quella specie di bussola che serve ad orientare l'interprete nella scelta dell'una o dell'altra forma di affidamento del minore, un interesse da intendersi riferito, come chiarito dalla Suprema Corte (v. ex multis Cass. 22/09/2016 n° 18559) "alle fondamentali ed imprescindibili esigenze di cura, educazione, istruzione e sana ed equilibrata crescita psico-fisica".

La legge (art. 337-quater C.C.) prevede solo che l'affidamento esclusivo ad uno dei genitori possa essere disposto quando l'affidamento all'altro sia contrario all'interesse del minore, non precisando, dunque, gli specifici casi in presenza dei quali in Giudice è tenuto a disporre la misura in questione; pertanto, la giurisprudenza ha provveduto a fissare alcuni criteri, al riguardo, che possono compendiarsi: nella idoneità o incapacità di uno dei genitori a prendersi cura del minore, che può anche essere resa manifesta da un conclamato disinteresse nei confronti del medesimo; nel rifiuto del minore a rapportarsi con uno dei genitori; nel mancato pagamento, da parte del coniuge obbligato, del contributo di mantenimento a favore del minore rivelando la circostanza un atteggiamento incompatibile con i doveri di cura, assistenza ed educazione del minore (Cass. 26587/2009); nel comportamento del genitore che non rispetti il regime delle visite violando così il primario diritto dei figli minori di mantenere rapporti continuativi con entrambi i genitori (Tribunale di Caltanissetta 30/12/2015; nel comportamento del genitore assente, disinteressato alla vita del figlio minore talvolta, addirittura, irreperibile (Tribunale di Napoli 594/2016).

Nel caso concreto, tale misura trova giustificazione nella condotta del B , che risulta non versare l'assegno di mantenimento stabilito in favore di M , né esercitare il suo diritto di visita dal mese di novembre del 20'18; nel contempo, non può non rilevarsi come il tentativo del Giudice di ristabilire i rapporti tra padre e figlio, all'uopo conferendo incarico ad hoc ai Servizi Sociali, sia naufragato al primo accesso del B' presso il Servizio del Comune di , come si

desume dalla relazione del 07/05/2019, in cui si dà atto della reazione rabbiosa del convenuto dopo aver appreso del motivo della convocazione del predetto Ufficio e della sua omessa risposta ai successivi tentativi di contattarlo.

Alla stregua di detta circostanza, avuto riguardo alle difficoltà psicologiche del minore connesse con la condotta latitante del padre, deve disporsi la trasmissione della sentenza ai Servizi Sociali di domicilio del minore ed a quelli del luogo di residenza anagrafica del padre onde assegnare agli stessi il compito di tentare una ricostituzione della relazione parentale e di fornire al ragazzo ogni opportuno sostegno.

Pertanto, le modalità di visita a M già stabilite in sede presidenziale devono essere modificate nel senso di conferire ai Servizi stessi del Comune di di predisporre, di intesa con quelli

anche essere resa manifesta da uri conclamato disinteresse nei confronti del medesimo; nel rifiuto del minore a rapportarsi con uno dei genitori; nel mancato pagamento, da parte del coniuge obbligato, del contributo di mantenimento a favore del minore rivelando la circostanza un atteggiamento incompatibile con i doveri di cura, assistenza ed educazione del minore (Cass. 26587/2009); nel comportamento del genitore che non rispetti il regime delle visite violando così il primario diritto dei figli minori di mantenere rapporti continuativi con entrambi i genitori (Tribunale di Caltanissetta 30/12/2015; nel comportamento del genitore assente, disinteressato alla vita del figlio minore talvolta, addirittura, irreperibile (Tribunale di Napoli 594/2016).

Nel caso, concreto, tale misura trova giustificazione nella condotta del B , che risulta non versare l'assegno di mantenimento stabilito in favore di M né esercitare il suo diritto di visita dal mese di novembre del 201.8; nel contempo, non può non rilevarsi come il tentativo del Giudice di ristabilire i rapporti tra padre e figlio, all'uopo conferendo incarico ad hoc ai Servizi Sociali, sia naufragato al primo accesso del B presso il Servizio del Comune di , come si

desume dalla relazione del 07/05/2019, in cui si dà atto della reazione rabbiosa del convenuto dopo aver appreso del motivo della convocazione del predetto Ufficio e della sua omessa risposta ai successivi tentativi dì contattarlo.

Alla stregua di detta circostanza, avuto riguardo alle difficoltà psicologiche del minore connesse con la condotta latitante del padre, deve disporsi la trasmissione della sentenza ai Servizi Sociali di domicilio del minore ed a quelli del luogo di residenza anagrafica del padre, onde assegnare agli stessi il. compito di tentare una ricostituzione della relazione parentale e di fornire al ragazzo ogni opportuno sostegno.

Pertanto, le modalità di visita a M già stabilite in sede presidenziale devono essere modificate nel senso di conferire ai Servizi stessi del Comune di di predisporre, di intesa con quelli

di , un calendario di incontri tra padre e figlio, a condizione che il B si renda disponibile all'auspicato riavvicinamento al figlio.

Deve prendersi atto che la casa coniugale è stata rilasciata da entrambi i coniugi, per cui nulla deve disporsi al riguardo.

Deve, altresì, fissarsi a carico del convenuto un contributo al mantenimento del minore del maggiore importo mensile di € 500 rivalutabile annualmente, di cui € 450 quale contributo ordinario ed € 50 quale forfetizzazione mensile delle spese straordinarie scolastiche, mediche, ludiche e sportive, fermo restando l'obbligo paterno di contribuire nella misura del 50% alle ulteriori spese straordinarie eccedenti il plafond di € 50 mensili secondo le disposizioni del protocollo della Corte di Appello di

A sostegno di tale disposizione si rileva, in primo luogo, che tale importo risulta più adeguato alle esigenze di un ragazzo dell'età adolescenziale di M , ai tempi di effettiva permanenza del minore presso la madre rispetto alle disposizioni presidenziali, atteso che il B non esercita da mesi il suo diritto di visita ed alla condizione reddituale del convenuto quale emergente dai CUD in atti; del resto, incombeva al B l'onere di costituirsi in giudizio per presentare le proprie deduzioni relativamente ad un eventuale peggioramento delle sue condizioni reddituali.

Deve, invece, confermarsi il provvedimento presidenziale relativo al contributo al mantenimento della Z posto a carico del marito, stante l'evidente divario tra la condizione reddituale del B rispetto a quelle delta moglie, priva di stabile attività lavorativa regolarizzata, essendo ella dedita a lavori occasionali in nero e costretta a dividere la casa in locazione con il fratello a causa della sua impossibilità di locare un appartamento per conto suo, come è emerso dalla relazione redatta dalla

Secondo la Cassazione, infatti, durante la separazione "....il rapporto coniugale non viene meno, determinandosi soltanto una sospensione dei doveri di natura personale quali la. convivenza, la fedeltà e la collaborazione; al contrario gli aspetti patrimoniali non vengono meno..." con la conseguenza che può riconoscersi al coniuge più debole un assegno di mantenimento necessario a conservare il tenore di vita avuto in precedenza e proporzionato alle capacità economiche di entrambi (Cass. civ., ordinanza n. 21082 del 2017).

Alla stregua della condotta di ripetuta violazione degli obblighi parentali del resistente deve condannarsi lo stesso a rifondere le spese di lite sostenute dalla ricorrente nella misura liquidata in dispositivo, con l'applicazione della dimidiazione sui compensi contemplata dal T.U. Spese di Giustizia e con l'ordine di versamento diretto in favore dell'Erario, subordinatamente alla condizione della conferma dell'ammissione della Z al beneficio del patrocinio a spese dello Stato; in caso contrario, viene disposto sin da ora che verrà meno la riduzione al 50% sui compensi e l'ordine di versamento diretto in favore dell'Erario.

P . Q . M .

Il Tribunale di così deliberando in via definitiva:

1) Dichiara la separazione personale tra i coniugi 2 -B'

2. Dispone l'affidamento super-esclusivo di M alla madre, con facoltà per il padre di vedere e tenere con sé il figlio secondo il calendario che verrà predisposto dai Servizi Sociali del Comune di

di concerto con quelli del Comune di

3. Pone a carico del resistente l'obbligo di versare alla ricorrente un assegno di € 200,00 a titolo di concorso al mantenimento della moglie (da versarsi entro il giorno 5 di ogni mese), oltre la rivalutazione annua ISTAT;

4. Pone a carico del resistente l'obbligo di versare alla ricorrente un assegno di € 500,00 a titolo di concorso al mantenimento del figlio (da versarsi entro il giorno 5 di ogni mese), oltre la rivalutazione annua ISTAT, di cui € 450 per il mantenimento ordinario ed € 50 quale forfetizzazione mensile delle spese straordinarie, fermo restando l'obbligo paterno di contribuire nella misura del 50% alle ulteriori spese straordinarie eccedenti il plafond di € 50 mensili secondo le disposizioni del protocollo della Corte di Appello di

5. Condanna il resistente a rifondere le spese di lite sostenute dalla ricorrente, che si liquidano in € 1.100 per compensi, oltre IVA, CPA e rimborso spese forfetario, con il versamento diretto in favore dello Stato e con la precisazione che, in caso di mancata conferma del patrocinio a spese dello Stato, verranno meno la riduzione al 50% dei compensi e l'ordine di pagamento diretto in favore dell'Erario;

CONCLUSIONI

Le parti hanno concluso congiuntamente come da foglio allegato rinunciando ai termini ex art. 190 epe

RAGIONI IN FATTO E IN DIRITTO

I Sigg.ri S B e E C D contraevano matrimonio in
in data. 9/6/2012 (matrimonio trascritto nei registri degli atti dì matrimonio di detto
Comune al , anno 2012).
Dall'unione nasceva in data 21/3/2012 la figlia B B.

Con atto di ricorso depositato in data 20/10/2018 il Sig. S B adiva il Tribunale in epigrafe chiedendo l'emissione della pronuncia di separazione stante l'intollerabilità della convivenza coniugale.

Provvedeva a costituirsi la Sig.ra H I C D mediante comparsa di risposta con la quale aderiva alla domanda di separazione formulando autonome istanze in ordine alla regolamentazione dei rapporti conseguenti.

Espletati gli incombenti di rito, la causa viene decisa con sentenza sulla base delle conclusioni rassegnate congiuntamente dalle parti.

Alla luce delle risultanze di causa, deve ritenersi sufficientemente dimostrata l'intollerabilità della convivenza tra i coniugi tale da rendere ineluttabile la separazione.

Le condizioni concordate dai coniugi, di seguito riprodotte, meritano accoglimento in quanto coerenti con le esigenze di cura, istruzione e mantenimento della prole.

L'accordo raggiunto infatti concentra la responsabilità genitoriale ordinaria in capo alla madre - ovvero il genitore che si sta occupando attualmente della figlia attese le difficoltà del padre, segnalate anche dai S.S. -, prevede la prosecuzione del percorso in atto presso i S.S. e garantisce altresì alla madre, attraverso l'assunzione dell'obbligazione in solido da parte dei suoceri, le risorse per fare fronte ai bisogni della minore (tenuto conto anche del rilascio della casa coniugale da parte della resistente).

Con riferimento al percorso presso i S.S. si rappresenta che le difficoltà segnalate dai S.S., che hanno portato ad una sospensione degli incontri, non devono intendersi come preclusive al proseguo, ma come una battuta d'arresto superabile nel momento in cui il Sig. B nostri una fattiva e duratura adesione al percorso delineato.

Infine, le determinazioni dell'accordo consentono dì mettere un punto fermo alla vicenda separativa senza intaccare in alcun modo le valutazioni che sarà chiamato ad effettuare il TM per quanto portato alla sua attenzione e che dovrà essere approfondito nel proseguo.

Le spese di lite vanno compensate per intero in ragione della natura della controversia e dell'esito del giudizio.

P.Q.M.

il Tribunale, ogni diversa domanda, istanza, eccezione e difesa disattesa e respinta, così provvede:

1. dichiara la separazione personale tra i Sigg.ri S B le H C D, coniugatisi in data 9/6/2012 (matrimonio trascritto nei registri degli atti di matrimonio di detto Comune al anno 2012);
2. dà atto che i coniugi hanno concordato le condizioni dì seguito allegate, da intendersi qui richiamate;
3. dispone che i S.S. proseguano nel mandato conferito attenendosi alle indicazioni di cui alla parte motiva relazionando, in caso di situazioni pregiudizievoli che lo necessitino, al PM presso i TM di . già investito del caso;
4. ordina all'ufficiale di Stato Civile del Comune di di provvedere all'annotazione della sentenza a margine dell'atto di matrimonio;

RAGIONI IN FATTO E IN DIRITTO

I Sigg.ri N E C e M D contraevano matrimonio in il 31/8/2002 (matrimonio trascritto nei registri degli atti di matrimonio di detto Comune al n. P. II, serie A, anno 2002).

Dall'unione nasceva in data '2005 la figlia L

Con atto di ricorso depositato in data 15/4/2017 la Sig.ra N I E C adiva il Tribunale in epigrafe chiedendo l'emissione della pronuncia di separazione stante l'intollerabilità della convivenza coniugale.

Provvedeva a costituirsi il Sig. e M I mediante comparsa di risposta con la quale aderiva alla domanda di separazione formulando autonome istanze in ordine alla regolamentazione dei rapporti conseguenti.

Espletati gli incombenti di rito, la causa viene decisa con sentenza sulla base delle conclusioni rassegnate dalle parti.

Separazione

Alla luce delle risultanze di causa, deve ritenersi sufficientemente dimostrata l'intollerabilità della convivenza tra i coniugi tale da rendere ineluttabile la separazione.

Addebito della separazione

La domanda di addebito svolta dalla ricorrente è fondata e meritevole pertanto di accoglimento per le considerazioni di seguito esposte.

L'abuso di sostanze alcooliche durante la convivenza matrimoniale è stato confermato, quantomeno per alcuni episodi, dal resistente in sede di interpello (vd. capp 23/24 di parte ricorrente) nonché dai testi (vd. in particolare il teste P, vicino di casa, che ha prestato soccorso in un'occasione in cui il T è stato male in seguito al consumo di sostanze alcooliche) ed infine da L, la quale ha dichiarato in sede Presidenziale che vorrebbe che il padre smettesse di bere, che non stesse sempre al cellulare e che si ricordi del compleanno della figlia (situazione che successivamente, per fortuna, è mutata).

La condotta del resistente è stata dunque gravemente lesiva degli obblighi di collaborazione nella gestione della famiglia e tale da compromettere la fiducia del coniuge, determinando la rottura della relazione coniugale.

Affido di L

Si prende atto che il percorso di avvicinamento del padre alla figlia avviato nel corso del procedimento ha dato frutti (sebbene questi debbano consolidarsi nel tempo), tanto è vero che la ricorrente medesima ha chiesto in comparsa conclusionale che, pur mantenendo la collocazione preferenziale materna, si passi dall'affido esclusivo materno all'affido condiviso.

E' particolarmente significativo questo passaggio della conclusionale attorea: "Za *Sig.ra C ben conscia dell'importanza, per la crescita equilibrata della figlia minore delle parti tra cui è ora causa, della presenza di entrambe le figure genitoriali, non può che accogliere favorevolmente la recentissima richiesta di L di avere maggiori frequentazioni con il padre, posto che, allo stato, nonostante sia stato acclarato, nel corso del presente giudizio, l'abuso, da parte del Sig. T Mi nel passato e sino alle fasi iniziali di esso, di sostanze alcoliche, e le oggettive difficoltà e lacune nel rapporto con la figlia, lo stesso, sembrerebbe, ad oggi, aver superato le sue difficoltà anche nel rapporto con L , in precedenza, purtroppo, totalmente assente'".*

Sempre in quest'ottica la ricorrente non si è opposta *"alla possibilità, per il padre, di vedere e tenere con se' la figlia a fine settimana alterni, con pernottamento presso la sua abitazione, mentre appare impraticabile la richiesta, formulata da parte Resistente, di vedere la minore anche per due giorni alla settimana, attesi i noti impegni scolastici e sportivi della figlia, ben potendo optarsi per una cena con pernottamento infrasettimanale di L presso l'abitazione paterna, preferibilmente il mercoledì sera, tenuto conto degli impegni scolastici e sportivi della stessa".*

A parte la precisazione esposta, per il resto la ricorrente concorda dunque con le conclusioni rassegnate dal resistente.

Ritiene il Collegio che le indicazioni della ricorrente siano meritevoli di accoglimento in quanto recepiscono i progressi fatti conservando un adeguato equilibrio rispetto alle esigenze della minore.

I. S.S. continueranno a monitorare la situazione.

Contributo paterno per il mantenimento della figlia

In assenza di elementi di novità si confermano le determinazioni sin qui assunte con la precisazione che gli assegni familiari spettano alla ricorrente in quanto collocataria della minore.

Assegnazione della casa

Le parti sono concordi nel prevedere l'assegnazione della casa al resistente.

Il Collegio ne prende atto nella consapevolezza che tale accordo non ha a che vedere con le esigenze della prole.

Spese di lite

Le spese di lite seguono la soccombenza e vanno pertanto poste a carico del resistente (responsabile della frattura della relazione coniugale) ed a favore della ricorrente atteso la revoca dell'ammissione al PSS come da separato decreto.

P.Q.M.

Il Tribunale, dato atto di remissione della sentenza di separazione nel corso del giudizio, ogni diversa domanda, istanza, eccezione e difesa disattesa e respinta, così provvede:

CONCLUSIONI

Nel merito:

Premessa ogni più opportuna dichiaratoria, disattesa ogni contraria istanza, domanda ed eccezione, dichiarare lo scioglimento dèi-matrimonio

civile contratto in Albania in data 02/05/2001 tra B BR nata in Albania il 1985 e B M nato in 1975 alle seguenti condizioni:

1. Le figlie minori K e K vengono affidate ih via esclusiva alla madre e collocate esclusivamente presso la stessa; il padre non potrà vedere e tenere con sé le figlie senza le opportune cautele per la loro incolumità;

2. A titolo di contributo al mantenimento dei figli e sino alla loro autosufficienza economica, il padre verserà la somma mensile di € 500,00, soggetta a rivalutazione ISTAT, oltre al 50% delle spese straordinarie (mediche e dentistiche) purché previamente concordate, salvo urgenza;

MOTIVI IN FATTO ED IN DIRITTO DELLA DECISIONE

La domanda di scioglimento del matrimonio civile contratto dalle parti in data 02/05/2001 in Albania è fondata e meritevole di accoglimento.

Deve applicarsi la legge albanese in quanto legge comune delle parti, che peraltro hanno contratto matrimonio in Albania, con la conseguenza che può pronunziarsi lo scioglimento del vincolo matrimoniale senza la preventiva instaurazione della fase della separazione.

Deve modificarsi il regime di affidamento delle minori K e K da condiviso con collocamento prevalente presso la madre già disposto in sede presidenziale ad esclusivo in favore della madre, atteso che il resistente risulta essersi reso irreperibile da anni senza provvedere in alcun modo alle esigenze delle figlie.

In effetti l'affido esclusivo del figlio può essere concesso, in deroga all'ordinario regime di affido condiviso, sulla base di adeguate motivazioni, concretamente dimostrate, circa l'incapacità dell'altro genitore di assicurare tutte le responsabilità derivanti dal proprio ruolo la quale, di conseguenza, potrebbe pregiudicare il futuro benessere della prole.

Tale conclusione, che si trova affermata dalla giurisprudenza di merito e dì legittimità, spesso chiamata all'applicazione dell'art. 337-quater C.C. in combinato disposto con l'art. 337-ter C.C., individua nella centralità dell'interesse del minore, cui fa riferimento la norma appena citata, quella specie di bussola che serve ad orientare l'interprete nella scelta dell'una o dell'altra forma di affidamento del minore, un interesse da intendersi riferito, come chiarito dalla Suprema Corte (v. ex multis Cass. 22/09/2016 n° 18559) "alle fondamentali ed imprescindibili esigenze di cura, educazione, istruzione e sana ed equilibrata crescita psico-fisica".

La legge (art. 337-quater C.C.) prevede solo che l'affidamento esclusivo ad uno dei genitori possa essere disposto quando l'affidamento all'altro sia contrario all'interesse del minore, non precisando, dunque, gli specifici casi in presenza dei quali in Giudice è tenuto a disporre la misura in questione; pertanto, la giurisprudenza ha provveduto a fissare alcuni criteri, al riguardo, che possono compendiarsi: nella idoneità o incapacità di uno dei genitori a prendersi cura del minore, che può anche essere resa manifesta da un conclamato disinteresse nei confronti del medesimo; nel rifiuto del minore a rapportarsi con uno dei genitori; nel mancato pagamento, da parte del coniuge obbligato, del contributo di mantenimento a favore del minore rivelando la circostanza un atteggiamento incompatibile con i doveri di cura, assistenza ed educazione del minore (Cass. 26587/2009); nel comportamento del genitore che non rispetti il regime delle visite violando così il primario diritto dei figli minori di mantenere rapporti continuativi con entrambi i genitori (Tribunale di Caltanissetta 30/12/2015; nel comportamento del genitore assente, disinteressato alla vita del figlio minore talvolta, addirittura, irreperibile (Tribunale dì Napoli 594/2016).

Per le medesime motivazioni, nulla deve disporsi in ordine alla regolamentazione delle visite paterne, essendo egli da anni irreperibile.

Deve confermarsi l'assegnazione alla ricorrente della casa coniugale, in considerazione della sua qualità di genitore affidatario della prole.

Può, altresì, trovare accoglimento la domanda dell'attrice diretta ad ottenere la conferma dell'assegno di mantenimento a carico del convenuto a titolo di mantenimento della prole già stabilito in sede presidenziale, in assenza di contrarie deduzioni del resistente circa le proprie condizioni reddituali ed avuto riguardo alle notorie esigenze di mantenimento di due ragazze in età adolescenziali.

In assenza di opposizione del resistente devono dichiararsi irripetibili le spese di lite sostenute dalla ricorrente.

P . Q . M .

Il Tribunale di , così deliberando in via definitiva: 1) dichiara lo scioglimento del matrimonio civile contratto dalle parti in data 02/05/2001 in Albania;

2) affida le minori K e K in via esclusiva alla madre;

3. pone a caldeo del resistente l'obbligo di versare alla ricorrente, entro il giorno 5, la somma mensile di € 500 rivalutabili annualmente quale contributo per il mantenimento delle minori, oltre il 50% delle spese straordinarie previamente concordate e documentate, salva l'urgenza;

4. 4) dispone l'assegnazione alla ricorrente della casa coniugale con quanto l'arreda;

5) dichiara irripetibili le spese di lite della ricorrente

padre.

RAGIONI IN FATTO E IN DIRITTO

Dato atto dell'emissione della sentenza di divorzio nel corso del procedimento, vengono esaminate in questa sede le ulteriori questioni oggetto di causa.

Regolamentazione della responsabilità genitoriale

Le parti concordano sul mantenimento dell'affido dei minori all'ente con collocazione materna, come disposto in sede di separazione.

Vanno altresì confermate le aree di intervento dell'ente affidatario stabilite con tale pronuncia.

Rispetto al rapporto padre/figli permangono le criticità già evidenziate in precedenza, prima circoscritte al figlio P , ora estese anche alla figlia S sebbene con quest'ultima permanga una relazione, mediata dall'educatrice, come esposto in atti.

Buona parte del procedimento è stata dedicata appunto a questo snodo fondamentale del giudizio (in uno a quello economico, rispetto al quale ogni tentativo di accordo - apparentemente alla portata - è stato infruttuoso).

L'impressione è che i rapporti tra le parti siano ingessati e che gli accadimenti si svolgano secondo un copione prevedibile, in cui ciascuno accusa l'altro di atteggiamenti pregiudizievoli per i minori (e per il rapporto con l'altro genitore).

Il padre, facendo leva sulla segnalazione di un rapporto tendenzialmente simbiotico madre/figli contenuta nella precedente CTU, ritiene che la Sig.ra C si stia appropriando dei minori escludendo il padre dal loro orizzonte attraverso lo svilimento della sua figura.

La madre ritiene invece che il padre non riesca a sintonizzarsi sulle esigenze dei minori ed assuma degli atteggiamenti deleteri e non rispettosi delle loro sensibilità, che alla lunga nuociono alla relazione. Nel corso del giudizio, allorché si è manifestato in S un sentimento avversivo nei confronti del padre, concretizzatosi nel rifiuto ad incontrarlo (così come già fatto dal fratello P.), sono stati adottati dei correttivi funzionali ad evitare che questo atteggiamento venisse in qualche modo rinforzato dalla madre e ad assicurare che gli incontri con il padre avessero luogo a prescindere dalle condizioni di salute di S , talvolta addotte come giustificazione del mancato incontro (ovviamente preservando le esigenze della minore).

Pertanto con ordinanza in data 30/1/2019, qui richiamata, veniva disposto che 1) "/ S.S. *procedenti verifichino quanto esposto dal Sig. B. (ovvero la cessazione degli incontri con la minore da circa un mese) e si attivino per organizzare comunque gli incontri padre/figlia, se non all'esterno, quantomeno all' interno della casa in cui vive la minore, adottando le opportune cautele affinchè non sia presente né la madre (posto che tra i genitori permane uno stato di conflittualità) né gli ascendenti materni ovvero accompagnando il padre a prendere la minore da scuola e trascorrendo quindi del tempo insieme (saranno i S.S. a valutare le soluzioni più opportune);* 2) *i S.S. relazioneranno in merito, esprimendo il proprio parere circa gli opportuni interventi per assicurare continuità nella relazione padre/figlia ed affinchè la Sig.ra C dia il proprio contributo alla ripresa del rapporto".*

Venivano altresì date prescrizioni alle parti affinchè assicurassero il buon esito degli incontri,

La relazione dei S.S. in esito a tale provvedimento ha segnalato che purtroppo il resistente, anziché collaborare per realizzare un obiettivo che rispondeva a un'esigenza rappresentata dal medesimo, assumeva una condotta ostile e svilente nei confronti degli operatori incaricati dai S.S., smarcandosi dalle indicazioni dell'ente affidatario ed attribuendosi una posizione sovraordinata rispetto a quest'ultimo.

Il Sig. B anziché muoversi nella logica del processo (che è funzionale anche alla tutela degli interessi della prole), ha perseguito la sua personale battaglia per conquistare spazi di relazione autonomi con S[1] , considerando anche i S.S. (al pari della ricorrente, nel suo modo di vedere) come un ostacolo, se non un elemento avversivo.

Questo atteggiamento (peraltro contrastante con le indicazioni del resistente, che in sede di p.c. ha concluso per il mantenimento dell'affido all'ente richiamando gli interventi indicati in precedenza dalla CTU) rende evidente l'inutilità di una nuova CTU, sulla quale ha insistito il Sig. B non avendo egli collaborato con le attività coerenti con le indicazioni date dalla precedente CTU.

Tale condotta si è palesata purtroppo anche negli ultimi mesi, come si evince dalla relazione ultima dei S.S., i quali segnalano l'attitudine del Sig. B di screditare l'operatrice agli occhi della bambina, non rendendosi conto di: 1) quanto sia controproducente (oltre che puerile) tale atteggiamento rispetto al tentativo dell'educatrice di favorire il rapporto con il padre; 2) quale confusione esso possa ingenerare nella minore, che necessita di figure educative adulte credibili e stabili.

Nel contempo la relazione dei S.S. evidenzia anche alcune criticità paterne nel rapporto con S' , a riprova della necessità dell'intervento educativo in essere *(fili signor B si è mostrato disponibile a far sperimentare, giocare e divertire la figlia in ogni modo, permettendole di sperimentare nuove attività e l'utilizzo di nuovi materiali; tuttavia non appare in grado di assumere un ruolo direttivo e autorevole nei suoi confronti").*

Dagli elementi esposti si evince che è riduttivo affermare che le difficoltà di S dipendano dall'influenza materna, sottacendo i limiti del padre, il quale cerca la complicità con la figlia, anziché nel contesto dell'intervento educativo, coinvolgendo la minore nella propria critica nei riguardi dell'educatrice, con l'obiettivo - conscio o inconscio - di portare S ad avere la medesima visione del padre.

La ricorrente, da parte propria, ha le proprie vulnerabilità.

E' in dubbio che essa debba tenere le questioni economiche fuori dalla relazione con la prole e che vada corretta affinchè eviti di esternare il proprio pensiero sul conto del coniuge in presenza dei figli.

Nel contempo, pur non essendo ciò una giustificazione, non si può sottacere che il resistente ha alimentato la tensione tra le parti rendendosi inadempiente non solo a quanto previsto in sede di separazione, ma a anche quanto promesso in corso di causa (come pure risulta difficilmente comprensibile, a fronte di tale situazione, il suo rifiuto alla ri negoziazione del mutuo per contenere il rateo mensile, vanificando ogni possibilità di trovare un accordo).

Nei fatti, la ricorrente, pur con le sue fragilità, ha un atteggiamento collaborativo, e quindi ci sono margini per superarle e bonificare l'approccio con la prole.

Il resistente invece, attualmente, è irrigidito nella sua posizione, non vede i propri limiti e si attende che siano gli altri a cambiare, ritenendo che solo così potrebbe ri appropriarsi del proprio ruolo paterno.

Ferma la prosecuzione degli interventi in essere, è fondamentale, proprio in relazione al rapporto padre/figli, che entrambe le parti siano supportate nella genitorialità e che il resistente dimostri di considerare gli operatori incaricati come delle risorse e non come degli ostacoli.

Vacanze con i nonni

Rispetto al punto delle vacanze con i nonni occorre rivedere in parte quanto suggerito nella CTU della causa di separazione (laddove segnalava che "d *sono problemi di confini...succede che , a volle, ci sono delle visioni educative differenti...si possono creare situazioni disfunzionali nelle gestione dei minori per i nonni hanno un ruolo importante, ma non devono entrare in rotta di collisione con quanto stabilito dai genitori, un coinvolgimento dei nonni materni, in senso ampliativo*

rispetto a quello attuale, dovrà essere subordinato al fatto che non vi sia disponibilità del padre ad occuparsi dei minori e comunque muoversi nell'ambito delle decisioni condivise dalle parti").

Attualmente infatti non vi sono le condizioni perché il padre possa occuparsi di entrambi i minori, dunque non vi è una reale alternativa tra il consentire ai nonni materni di trascorrere una settimana di vacanza con i nipoti piuttosto che lasciare questi ultimi con il padre.

Ne discende che, anche per consentire ai minori di trascorrere delle vacanze (che altrimenti non farebbero), l'ente affidatario può giustamente consentire a tali vacanze, cercando, nei limiti del possibile, di dare maggiore intensità agli incontri del padre con S nella settimana precedente e successiva a quella in cui i nipoti staranno con i nonni.

Assegnazione dell'es casa coniugale

Nulla quaestio in ordine all'assegnazione della casa coniugale, con i relativi arredi, alla ricorrente, proprietaria della stessa.

Contributo paterno per il mantenimento dei figli

Nel corso del procedimento si era addivenuti ad un accordo che riduceva la contribuzione ordinaria paterna portandola ad euro 200,00 per figlio, oltre alla quota di spese straordinarie.

La ricorrente era disponibile ad accettare tale proposta purché vi fosse garanzia dei pagamenti effettivi.

Il Sig. E ha però contraddetto nei fatti tale disponibilità rendendosi inadempiente.

Gli accertamenti effettuati a mezzo Polizia Tributaria non hanno fatto emergere disponibilità occulte del resistente, il quale è tuttora titolare di uno studio professionale e proprietario *prò quota* di alcuni immobili.

E' pur vero che egli è gravato da oneri (per le spese di affitto dell'abitazione, per quelle relative all'immobile in cui svolge l'attività lavorativa e per le pendenze maturate con il fisco), ma deve ritenersi che le sue entrate siano proporzionate.

Le asserite difficoltà economiche sono state considerate nella proposta *prò bono pacis* e la ricorrente, proprio per questo e per avere certezza delle entrate, dava la disponibilità a quantificare in misura più contenuta la contribuzione paterna.

Quest'ultima, da parte propria, è in grado di avere una propria redditualità, avendo la qualifica di estetista, tenuto conto del fatto che la vicenda separativa è alle spalle e godendo essa del supporto dei propri genitori.

Tali considerazioni possono giustificare una riduzione della contribuzione paterna per il mantenimento ordinario dei figli, ma in misura contenuta (ovvero euro 300,00 mensili per ciascun figlio), avuto riguardo alle esigenze dei minori ed al fatto che dei loro bisogni si fa carico unicamente la madre (gravata anche dell'onere del mutuo).

Le spese straordinarie vengono ripartite paritariamente tra le parti secondo i criteri previsto dal protocollo adottato dalla Corte d'Appello di

Spese di lite

Le spese di lite vanno compensate per metà avuto riguardo alla natura della controversia (ed in considerazione del fatto che alcuni aspetti problematici nella relazione con figli investono entrambe le parti) e poste per il residuo a carico del resistente, soccombente avuto riguardo a quanto esposto in ordine alla collaborazione con i S.S. ed all'aspetto contributivo (sul punto va considerata anche l'inosservanza degli impegni assunti durante il procedimento).

Le spese di lite complessive si liquidano in euro 4.000,00, ma quantificate in misura della metà in ragione del patrocinio dello Stato, a favore dell'Erario, a meno che il patrocinio non venga revocato, nel qual caso il dovuto sarà calcolato sui 4 mila euro ed a favore della parte ricorrente, oltre spese generali ed oneri di legge.

P.Q.M.

il Tribunale, definitivamente pronunciando, dato atto dell'emissione della sentenza di divorzio nel corso del procedimento, disattesa ogni diversa domanda, istanza, eccezione e difesa, così provvede:

compensa per metà le spese di lite e pone le spese residue a carico del resistente ed a favore dell'Erario, a meno che il PSS non venga revocato, nel qual caso la somma sarà dovuta a favore della ricorrente, il tutto secondo quanto esposto nella parte motiva in relazione alle due Ipotesi.

Manda alla cancelleria per quanto di competenza, ivi compresa la comunicazione all'ente affidatario.

CONCLUSIONI DELLA RICORRENTE: come da foglio allegato

MOTIVI IN FATTO ED IN DIRITTO DELLA DECISIONE

La domanda di scioglimento del matrimonio civile contratto dalle parti in data 18/09/1999 in L è fondata e meritevole di accoglimento.

Da quanto risulta, le parti vivono in stato di separazione fin dalla loro comparizione avanti il Presidente del Tribunale di ' nel corso del giudizio di separazione conclusosi con il decreto di omologa del 07/03/2007 e tra loro non vi è più stata riunione; lo stato di separazione protrattosi per vari anni, l'esistenza del presente ricorso e l'impossibilità dell'esperimento del tentativo di conciliazione a causa della mancata comparizione

del convenuto all'udienza presidenziale dimostrano che l'unione materiale e spirituale tra i coniugi non può essere ricostituita.

Deve disporsi l'affidamento super-esclusivo dei minori S e M alla madre alla stregua di quanto relazionato dai Servizi Sociali del Comune di

Com'è noto, la giurisprudenza di merito e di legittimità, spesso chiamata all'applicazione dell'art. 337-quater C.C. in combinato disposto con l'art. 337-ter C.C., individua nella centralità dell'interesse del minore, cui fa riferimento la norma appena citata, quella specie di bussola che serve ad orientare l'interprete nella scelta dell'una o dell'altra forma di affidamento del minore, un interesse da intendersi riferito, come chiarito dalla Suprema Corte (v. ex multis Cass. 22/09/2016 n° 18559) "alle fondamentali ed imprescindibili esigenze di cura, educazione, istruzione e sana ed equilibrata crescita psico-fisica".

La legge (art. 337-quater C.C.) prevede solo che l'affidamento esclusivo ad uno dei genitori possa essere disposto quando l'affidamento all'altro sia contrario al l'interesse del minore, non precisando, dunque, gli specifici casi in presenza dei quali in Giudice è tenuto a disporre la misura in questione; pertanto, la giurisprudenza ha provveduto a fissare alcuni criteri, al riguardo, che possono compendiarsi: nella idoneità o incapacità di uno dei genitori a prendersi cura del minore, che può anche essere resa manifesta da un conclamato disinteresse nei confronti del medesimo; nel rifiuto del minore a rapportarsi con uno dei genitori; nel mancato pagamento, da parte del coniuge obbligato, del contributo di mantenimento a favore del minore rivelando la circostanza un atteggiamento incompatibile con i doveri di cura, assistenza ed educazione del minore (Cass. 26587/2009); nel comportamento del genitore che non rispetti il regime delle visite violando così il primario diritto dei figli minori di mantenere rapporti continuativi con entrambi i genitori (Tribunale di Caltanissetta 30/12/2015; nel comportamento del genitore assente, disinteressato alla vita del figlio minore talvolta, addirittura, irreperibile (Tribunale di Napoli 594/2016).

Nel caso concreto, tale misura trova giustificazione nella condotta del padre, che risulta non versare l'assegno di mantenimento stabilito in favore dei figli (circostanza da lui ammessa alle assistenti sociali), né esercitare il suo diritto di visita nei riguardi di S mentre i rapporti con M sono ripresi solo recentemente su iniziativa dello stesso ragazzo.

A tale proposito i Servizi Sociali quali hanno riferito di aver contattato il D P per cercare di comprendere le ragioni dell'interruzione del rapporto tra lui e la figlia maggiore ma di aver ricevuto risposte vaghe, indicative di una visione immatura del ruolo paterno che lo rende incapace di muovere il primo passo per instaurare un momento di confronto con la ragazza.

Pe queste ragioni ed in conformità con il suggerimento avanzato sul punto dai Servizi Sociali, che hanno recepito i sentimenti di abbandono di S nei riguardi della figura paterna, non si reputa opportuno allo stato adottare alcuna statuizione sulle visite paterne, dovendosi affidare ai Servizi Sociali il compito di approntare un percorso di sostegno psicologico che possa accompagnare la ragazza ad un possibile riavvicinamento al padre, anche avuto riguardo all'età della stessa.

Può, altresì, trovare accoglimento la domanda dell'attrice diretta ad ottenere l'aumento dell'ammontare dell'assegno già posto a carico del convenuto a titolo di mantenimento della prole dall'importo di € 500 stabilito in sede di separazione consensuale a quello di € 600 richiesto nel presente giudizio (€ 300 per ciascun figlio), in considerazione del decorso di un notevole lasso decorso dall'omologa, con il conseguente incremento delle esigenze dei minori connesse con la loro crescita e del maggior onere contributivo a carico della madre derivante dal mancato esercizio del diritto di visita paterno.

Al suddetto importo si aggiunge l'obbligo del padre di concorrere al 50% alle spese straordinarie dei minori secondo le indicazioni della Corte di Appello di , mentre per quanto concerne gli assegni familiari nulla deve disporsi, essendo facoltà per la ricorrente di presentare istanza al datore di lavoro, nel termine di prescrizione quinquennale, anche in mancanza di firma del coniuge non affidatario, previa richiesta di autorizzazione all'INPS.

Alla condotta di totale disinteresse del padre verso le esigenze dei figli, che ha reso indispensabile l'instaurazione di un giudizio contenzioso, consegue il suo obbligo di rifondere le spese di lite sostenute dalla ricorrente secondo la liquidazione effettuata in dispositivo.

PROCURATORE DELLA REPUBBLICA PRESSO IL TRIBUNALE DI

INTERVENTORE *EX LEGE* CONCLUSIONI

La ricorrente concludeva come da verbale dell'udienza del 17.7,2019.

MOTIVI DELLA DECISIONE

Con ricorso ritualmente depositato M D chiedeva a questo Tribunale che fosse pronunciata la separazione personale dal proprio coniuge M A con addebito della responsabilità del fallimento del matrimonio al marito.

Riferiva che avevano contratto matrimonio in Albania il 4.1.2001, erano nate due figlie (nel 2009 e nel 2002) e vivevano stabilmente in Italia a seguito del matrimonio. Chiedeva l'affido esclusivo a sé delle figlie anche per gli atti di straordinaria amministrazione con collocazione prevalente presso di sé ed assegnazione a sé della casa coniugale, fissando le visite con il padre attraverso i servizi sociali con modalità protetta a seguito di opportuni accertamenti clinici anche sulla dipendenza paterna da droghe ed alcool, e stabilendo un concorso paterno al mantenimento della prole, oltre agli assegni familiari e al concorso paritario alle loro spese straordinarie. A sostegno della domanda adduceva che tra essi coniugi era oramai cessata *Vqffectio coniugalis* a causa del comportamento violento del marito e dei continui maltrattamenti subiti tanto da riportarne lesioni personali ed aver subito atti sessuali contro la propria volontà.

Comparsa la sola ricorrente all'udienza presidenziale e risultato vano il tentativo di conciliazione, il Presidente emetteva i provvedimenti temporanei ed urgenti, rimettendo le parti avanti al G.I, per il proseguo,

Trattata la causa, acquisita documentazione varia e ritenuta la causa matura per la decisione, i venivano precisate le conclusioni all'udienza del 17.7.2019 e la causa era rimessa al Collegio per la decisione senza la concessione alle parti dei termini di legge di cui all'art. 190 c.p.c. su richiesta della parte.

Ritiene questo Collegio che la domanda di separazione giudiziale sia fondata e meritevole di accoglimento. La ricorrente, infatti, ha confermato la propria volontà di volersi separare giudizialmente, essendo venuta meno tra i coniugi la comunione spirituale e materiale. Inoltre, dall'esame dell'intero carteggio processuale emerge che non appare possibile una riconciliazione tra le parti, avendo dichiarato e ribadito anche nel corso del processo che la convivenza è divenuta impossibile, essendo oramai cessata *Vaffectio conìugalis,* al punto che la ricorrente ha avanzato anche istanza di addebito del fallimento del matrimonio a carico del marito.

Per quanto riguarda la domanda di addebito della separazione avanzata dalla ricorrente si osserva come la stessa sia meritevole di accoglimento, essendo stata fornita la prova che il fallimento del matrimonio sia la conseguenza diretta del comportamento del marito, essendosi questo reso responsabile di comportamenti contrari ai doveri su di lui incombenti e derivanti dal matrimonio. Ed invero va rilevato che all'esito dell'istruttoria (cfr. la documentazione prodotta nel fascicolo della ricorrente: copia della richiesta di rinvio a giudizio del 23.9.2017 del P.M. presso questo Tribunale per i reati di maltrattamenti, minacce, ecc.; i verbali di sommarie informazioni di vicini e conoscenti delle palli, che hanno confermato le violenze descritte nelle denunce della ricorrente; le relazioni dei servizi sociali; relazioni dei servici sociali| ecc.) emerge come la domanda sia meritevole di accoglimento, essendo stata fornita la prova che il fallimento del matrimonio sia conseguenza diretta del comportamento del marito, essendosi questo reso responsabile di comportamenti contrari ai doveri su di lui incombenti e derivanti dal matrimonio.

Risulta effettivamente provato che effettivamente la ricorrente abbia subito, di continuo, nel corso del matrimonio, da parte del marito violenze fisiche e psicologiche, con condotte persistenti ascrivibili ai reati non solo di percosse e minacce, ma anche lesioni personali, costrizione ad atti sessuali, ecc., tanto che il matrimonio entrava in crisi.

Infatti, nella documentazione prodotta relativa al processo penale svolto a carico del resistente emerge la gravità dei delitti commessi dallo stesso nei confronti della moglie tanto che la stessa veniva posta sotto protezione in una comunità.

Decisa la causa come sopra, tutte le ulteriori istanze devono ritenersi inammissibili, assorbite e/o reiette.

Devono essere eseguite le formalità di legge

Le spese seguono la soccombenza principale e si liquidano come indicato in dispositivo. P.Q.M.

il Tribunale, definitivamente pronunciando nella causa promossa da M D.

contro M A , ogni altra domanda, eccezione e deduzione disattesa, così decide:

1. Pronuncia la separazione giudiziale tra M D e a M A con addebito del fallimento del matrimonio a carico di M I A
2. Ordina che la presente sentenza sia trasmessa a cura della cancelleria, in copia autentica, all'ufficiale di stato civile del Comune per la trascrizione, l'annotazione e le ulteriori incombenze;
3. affida la prole minore in via super esclusiva alla madre, collocando la prole prevalentemente presso la madre, cui viene assegnata la casa coniugale;
4. incarica i servizi sociali territorialmente competenti di predisporre tutti gli opportuni sostegni e controlli sul nucleo familiare, regolamentando altresì i rapporti e le visite tra la prole ed il padre in modalità protetta;
5. dispone che il resistente contribuisca al mantenimento della prole versando alla ricorrente un assegno complessivo di €300,00 mensili, somma rivalutabile annualmente secondo gli indici ISTAT, oltre alla rivalutazione monetaria secondo gli indici ISTAT e gli assegni familiari, da versare alla ricorrente entro il giorno 5 di ogni mese. Lo stesso contribuirà al 50% delle spese straordinarie della prole, previamente concordate salvo in caso d'urgenza e comunque documentate, come indicate nel protocollo della Corte d'Appello di;
6. manda copia della presente sentenza ai Servizi sociali di affinchè provvedano a quanto stabilito in parte motiva;
7. rigetta ovvero dichiara inammissibile ogni altra domanda;
8. dispone che parte resistente soccombente non ammessa al patrocinio dello Stato rifonda *ex* art. 133 DPR. 115/2002 (stante l'ammissione al G.P. di parte ricorrente) in favore dell'Erario le spese di giudizio da liquidarsi con separato decreto.

Il Giudice est.
dott. A. D'Elia

Il Presidente
dott. M. Radiai

Così deciso in 1 il 19.7.2019

In considerazione di quanto sopra riferito, posto che è stata offerta la prova che la crisi del rapporto matrimoniale è stata originata dal comportamento contrario ai doveri matrimoniali tenuto dal marito, va accolta la domanda di addebito della ricorrente.

Solo per completezza di trattazione si evidenzia che è dato certo che il giudice di merito possa utilizzare, mancando qualsiasi divieto di legge, anche le prove raccolte in un diverso giudizio tra le stesse parti o tra altre parti (v. *ex plurimis* Cass. civ., sez. Ili, 7.2.05 n.2409; Cass. civ., sez. Ili, 21/06/2004 n.l 1483; Cass. 12694/07; Cass. 18288/07).

Passando alle altre richieste delle parti, proprio in considerazione della condotta paterna come sopra descritta, ritiene il Collegio di dover condividere le richieste della ricorrente e stabilire l'affido delle minori in via super esclusiva alla madre, collocandole prevalentemente presso l'abitazione della madre, cui va assegnata la casa coniugale in quanto collocataria privilegiata della prole.

I Servizi preposti al presente nucleo familiare predisporranno tutti gli opportuni sostegni e controlli per il nucleo familiare, regolamentando altresì i rapporti e le visite tra la prole ed il padre in modalità protetta, relazionando, almeno annualmente e tempestivamente in caso d'urgenza, sulla situazione dell'intero nucleo familiare, in particolare sul percorso delle minori, al competente Procuratore della Repubblica presso il Tribunale per i minorenni, evidenziando, ove mai, la sussistenza di eventuali cause di pregiudizio.

Per quanto riguarda le statuizioni di carattere economico e patrimoniale richieste dalla ricorrente quale concorso al mantenimento delle figlie economicamente non autosufficienti, in considerazione dei parametri di cui all'art.337 *quater* c.c. -co. IV- (attuali esigenze del figlio, tenore di vita goduto dal figlio in costanza di convivenza dei genitori, tempi di permanenza presso ciascun genitore, risorse economiche di ogni genitore, valenza economica dei compiti domestici e di cura assunti da ogni genitore), bisogna tener conto, mancando

riscontri sul tenore di vita goduto dalle parti in costanza di matrimonio, dei tempi di permanenza della prole presso i genitori (come sopra appena statuito esclusivamente presso la madre) e delle condizioni economiche dei coniugi rese note nel processo, da cui emerge solo che la ricorrente ha svolto dei lavori part time come cameriera in una pizzeria, mentre del resistente nulla è dato sapere di come attualmente viva.

Ritiene il Tribunale, all'esito della valutazione delle possibilità economiche delle parti come emerse in sede istruttoria, di dover stabilire che il padre concorra al mantenimento della prole con un assegno mensile complessivo di €300, oltre alla rivalutazione monetaria secondo gli indici ISTAT e gli assegni familiari, da versare alla ricorrente entro il giorno 5 di ogni mese. Il resistente contribuirà altresì al 50% delle spese straordinarie come regolamentate dal protocollo della Corte d'Appello di ' . il tutto purché concordato tra le parti, salva l'urgenza, e purché documentate.

RAGIONI IN FATTO E IN DIRITTO

I Sigg.ri M G P e C L contraevano matrimonio in data 4/4/2001 in a (matrimonio trascritto nei registri degli atti di matrimonio di detto Comune al n P. II, serie A, anno 2001), Dall'unione nasceva in data 29 giugno 2003 il figlio N Con atto di ricorso depositato in data 1/8/2017 la Sig.ra MG P adiva il
Tribunale in epigrafe chiedendo l'emissione della pronuncia di separazione stante l'intollerabilità della convivenza coniugale.
Provvedeva a costituirsi il Sig. C L mediante comparsa di risposta con la quale aderiva alla domanda di separazione formulando autonome istanze in ordine alla regolamentazione dei rapporti conseguenti.
In esito all'udienza Presidenziale, tenutasi il 5/12/2017 venivano assunti i provvedimenti provvisori e disposta la prosecuzione del giudizio per la trattazione delle domande nel merito.
Espletati gli incombenti di rito, la causa viene decisa con sentenza sulla base delle conclusioni rassegnate dalle parti.

Separazione
Alla luce delle risultanze di causa, deve ritenersi sufficientemente dimostrata l'intollerabilità della convivenza tra i coniugi tale da rendere ineluttabile la separazione.

Competenza territoriale
Sebbene l'eccezione di incompetenza territoriale sollevata dal resistente debba ritenersi rinunciata, non essendo stata ribadita in sede di precisazione delle conclusioni, è doveroso approfondire la questione in ragione della rilevabilità d'ufficio della questione.
Non è contestato che l'ultima residenza comune della coppia fosse a ciò che il resistente contesta è che tale residenza possa fondare la competenza del Giudice della separazione, ritenendo questi che debba valere il criterio della residenza del convenuto (trasferitosi a).
Tale assunto non è condivisibile in quanto l'art. 706 epe prevede che quest'ultimo criterio possa valere solo nel caso in cui non possa applicarsi quello dell'ultima residenza dei coniugi, con ciò intendendosi l'ipotesi in cui difetti *ab origine* una residenza comune, come si desume dalla ss. massima della Suprema Corte: *"Ai fini dell'individuazione del tribunale competente per territorio sulla domanda di separazione personale dei coniugi, tale luogo deve essere identificato con l'ultima residenza comune dei coniugi, non potendosi ricorrere al foro subordinato della residenza o del domicilio della parte convenuta, sulla base di una applicazione estensiva della sentenza 23 maggio 2008, n.169 della Corte costituzionale che ha dichiarato l'illegittimità costituzionale dell'art.4, primo comma, della legge 1 dicembre 1970, n.898 - nel testo sostituito dall'art.2, comma 3-bìs, di. 14 marzo 2005, n.35, convertito con emendamenti, in legge 14 maggio 2005, n.80 ~ limitatamente alle parole "del luogo dell'ultima residenza comune dei coniugi ovvero in mancanza", per manifesta irragionevolezza, data la normale cessazione della convivenza, secondo "l'id quod plerumque accidit"; non è invero ammissibile estendere ad altre norme una pronunzia dì illegittimità costituzionale riferita ad una specifica disposizione, essendo semmai necessario sollevare questione di costituzionalità dell'art.706 cod.proc.civ., nella parte In cui impone come criterio principale di collegamento l'ultima residenza comune dei coniugi e, solo nell'ipotesi in cui mai vi sia stata convivenza, il foro subordinato della residenza o del domicilio della parte convenuta; nè peraltro sembra sussistere il predetto dubbio di legittimità, stante la diversità di situazioni, dei coniugi in procinto di separarsi, rispetto a coniugi già separati da tempo e parti nel giudizio di cessazione degli effetti civili nel matrimonio."* (Cass., ord. n. 16957 del 4/8/2011).

Addebito della separazione
La domanda di addebito svolta dal resistente non può trovare accoglimento per difetto di prova.
Quella svolta dalla ricorrente invece è dimostrata.
Le lesioni riportate dalla ricorrente a causa della condotta aggressiva dal marito hanno trovato riscontro infatti nel referto del P.S in atti (doc. 6) e nelle dichiarazioni testimoniali.
Ne ha dato conferma la teste S indifferente rispetto alle parti (che incontrava la ricorrente in ambienti quali la scuola e l'oratorio, frequentati dai figli), la quale ha riferito di avere visto i segni al collo ed alle braccia che presentava la Sig.ra P. e quest'ultima, a richiesta della prima, riconosceva che erano stati provocati dal marito (la risposta alla domanda a chiarimenti sul cap. 2) attoreo - *"ADR avevo chiesto cosa fosse successo e lei mi ha detto che era stato mio marito"* - deve intendersi ovviamente riferita al marito della ricorrente).
La teste inoltre confermava di avere visto più vòlte il Sig. L in condizioni di ubriachezza *"al bar di .* " dove la prima andava "a *prendere il caffè o l'aperitivo.*
E' pur vero che il teste I , fratello del resistente, ha dichiarato di non avere mai visto quest'ultimo in condizioni di ubriachezza e di non avere mai visto la ricorrente con segni di lividi sul corpo né questi segni sono stati confermati dal medico di base della ricorrente (dr. A che invero ha dichiarato di non ricordare alcune circostanze, pur precisando che, ove avesse riscontrato eventuali segni sul corpo della ricorrente, li avrebbe certificati).
Tuttavia la deposizione del teste Letti eri è scarsamente attendibile, visto la Stretto rapporto parentale con il resistente, come pure è possibile che né lui né il teste A abbiano avuto occasione di riscontrare e tali lividi (che pure ci sono stati, quantomeno in un'occasione, come risulta dal referto del P.S.).
Invero vi sono altri elementi che confermano l'assunto attoreo.
Anzitutto nella cartella clinica relativa al ricovero ospedaliero del resistente, in seguito al ritorno del medesimo presso la famiglia d'origine, viene riportata la diagnosi di *"polineur apatia da fattori tossici esogeni",* facendo dunque riferimento all'assunzione da parte del Sig. L di sostanze tossiche per l'organismo (presumibilmente alcool, sebbene egli non riconosca questo problema, come si evince dalla relazione dell'ambulatorio di Alcologia allegata dal resistente).
In secondo luogo, come risulta dal provvedimento del TM allegato dalla ricorrente, nell'istruttoria effettuata in detto procedimento veniva sentito il Sig. L e questi esprimeva *"in maniera un po' confusa e confabulare i propri pensieri",* a dimostrazione di una scarsa lucidità di pensiero, compatibile con l'abuso di alcool.
Egli d'altronde, pur negando problemi di alcool, *"ammetteva di bere mezzo litro di vino la sera".*
In terzo luogo va rimarcato che il mancato interpello del resistente, in assenza di giustificato motivo ed alla luce degli altri elementi emersi, deve intendersi quale

ammissione dei fatti dedotti, giusto il disposto di cui all'art. 232, co. 1, epe.

Affido del minore

La decisione in punto di affido del minore va assunta tenendo conto di quanto stabilito dal TM con il citato provvedimento emesso in data 12/6/2014 e del percorso che ne è seguito, come documentato dai S.S..

Il TM di Milano decretava l'affido del minore all'ente, con collocamento materno, limitava la responsabilità genitoriale delle parti, disponeva la presa in carico del nucleo familiare, l'attivazione

degli interventi a sostegno del minore e prevedeva che gli incontri padre/figlio avvenissero in S N, prescrivendo al primo di non avvicinarsi ai luoghi frequentati dal minore senza l'autorizzazione dell'ente affidatario.

Successivamente i S.S. registravano progressi nella relazione padre/figlio, pur minata dalla conflittualità tra i genitori e dal coinvolgimento del ragazzo, sino a che nel 2015 il resistente, dopo la definitiva rottura con la moglie, interrompeva ogni contatto con N rendendo impossibile la prosecuzione del percorso.

Tale situazione non è mutata, per cui il padre ha cessato di svolgere il proprio ruolo (né d'altronde in questa sede ha preso posizione sul punto) e l'accudimento del figlio è stato devoluto interamente alla ricorrente.

Esclusi dunque i presupposti per l'adozione del regime di affido condiviso, si deve valutare se debba accogliersi 1a richiesta di affido esclusivo materno in luogo dell'affido all'ente.

Osserva il Collegio che quest'ultimo aveva un senso allorché permaneva un rapporto tra le parti e questo era conflittuale, con coinvolgimento del minore.

Una volta cessato tale rapporto (non solo il resistente non vede più il minore, ma questi si è ormai trasferito definitivamente in provincia di) sono venute meno le ragioni per investire l'ente delle prerogative genitoriali, che di fatto sta già svolgendo in via esclusiva la madre.

Ne discende che l'opzione dell'affido esclusivo materno è l'unica coerente con l'attuale situazione.

D'altronde, rispetto alla madre, non sono emerse problematicità che giustifichino una diversa valutazione, pur rimarcando che se sarebbe è auspicabile una sua maggiore collaborazione di fronte all'atteggiamento del minore, che nel tempo si è sottratto all'intervento educativo attivato dai S.S. (ritenendolo non utile).

Vista la discontinuità del minore rispetto agli impegni scolastici è opportuno che i S.S. monitorino la situazione attivando, nei limiti del possibile, i necessari interventi di supporto.

Contributo al mantenimento del resistente

Tale domanda va rigettata in considerazione dell'addebito della separazione al Sig. L (art. 156, co. 1, c.c.).

Contributo paterno al mantenimento del figlio

In assenza di elementi di novità si conferma la contribuzione paterna stabilita in sede Presidenziale tenuto conto del fatto che non è dimostrata un'incapacità lavorativa del resistente e del fatto che la cura del figlio è totalmente a carico della ricorrente, la quale, per quanto affermato e non contestato .

controparte, deve sostenere anche oneri che competono al Sig. L (vd. morosità per il pagamento del bollo auto dell'autovettura intestata alla ricorrente, ma in uso al resistente: doc. 8).
L'iscrizione nella lista dei disoccupati non può comportare l'esonero contributivo paterno a fronte delle insopprimibili esigenze della prole e della potenzialità reddituale che comunque egli conserva (e delle entrate di cui egli può beneficiare, in via alternativa, attraverso forme di sostegno quali il reddito di cittadinanza).

Spese di lite
Le spese dì lite seguono la soccombenza e vanno pertanto poste interamente a carico del resistente nella misura che si liquida come da dispositivo con distrazione a favore dell'Avv. , in
quanto antistataria.

P.Q.M.

Il Tribunale, dato atto dell'emissione della sentenza di separazione nel corso del giudizio, ogni diversa domanda, istanza, eccezione e difesa disattesa e respinta, così provvede:

1. dichiara la separazione personale tra i Sigg.ri M G P e C L coniugatisi in data 4/4/2001 in (matrimonio trascritto nei registri degli atti di matrimonio di detto Comune al n. P. II, serie A, anno 2001);
2. addebita la separazione al resistente;
3. rigetta la domanda di addebito svolta dal resistente;
4. rigetta la domanda di assegno di mantenimento per sé svolta dal resistente;

6. conferma la contribuzione paterna per il minore stabilita in sede Presidenziale;
7. condanna il resistente a rifondere alla ricorrente le spese di lite pari ad euro 7.352,00 oltre spese generali ed oneri di legge, devolvendole a favore dell'Avv. , in quanto antistataria;

CONCLUSIONI *

Le parti concludevano come da verbale dell'11.9.19. MOTIVI DELLA DECISIONE
Con ricorso depositato ritualmente B A chiedeva a questo Tribunale che fosse pronunciata la separazione personale dal proprio coniuge C D
Precisava che avevano contratto matrimonio in il 5.7.1997 ed erano nati due figli (nel 2005 e nel 2002); richiedeva la regolamentazione dei rapporti con la coniuge e la prole. A sostegno della domanda adduce va che tra essi coniugi era oramai cessata *affectio coniugalis.*
Instauratosi il contraddittorio, si costituiva la C che non si opponeva alla domanda di separazione, ma richiedeva condizioni parzialmente diverse nonché l'addebito del fallimento del matrimonio a carico del marito.
All'udienza presidenziale, comparse le parti avanti al Presidente ma risultato vano il tentativo di conciliazione, i coniugi venivano autorizzati a vivere separatamente, e il Presidente emetteva i provvedimenti temporanei ed urgenti, rimettendo le parti avanti al G.I. per il proseguo.
All'udienza di trattazione erano concessi i termini di cui all'art. 183 c.p.c. nonché disposto il monitoraggio sul nucleo familiare da parte del Servizio sociale e disposta c.t.u. psicologica sull'intero contesto familiare ove vivono i minori.
Dopo il deposito delia c.t.u. e delle memorie ai sensi dell'art. 183 c.p.c., ammessa la prova ritenuta ammissibile e rilevante, il G.I. proponeva alle parti di trovare una soluzione transattiva della vertenza e le parti raggiungevano un accordo in ordine alle condizioni da porre a base della separazione giudiziale. Pertanto, ritenuta la causa matura per la decisione, veniva rimessa al Collegio per la decisione senza termini di cui all'art. 190 c.p.c..

CON L'INTERVENTO OBBLIGATORIO DEL P.M.

OGGETTO: separazione giudiziale

CONCLUSIONI DELLA RICORRENTE: come da verbale dell'11/09/2019.

MOTIVI IN FATTO ED IN DIRITTO DELLA DECISIONE

La domanda di pronunzia di separazione personale dei coniugi è fondata e meritevole di accoglimento.

La presentazione del presente ricorso e l'irreperibilità del resistente (da anni allontanatosi dal territorio italiano senza dare notizie di sé) dimostrano in modo evidente il venir meno dell'interesse dei coniugi alla prosecuzione della loro convivenza; nel contempo, deve prendersi atto della rinunzia espressa dalla ricorrente alla domanda di addebito.

Deve confermarsi l'attuale regime di affidamento super esclusivo di R alla madre; in effetti, tale formula di affido può essere concesso, in deroga all'ordinario regime di affido condiviso, sulla base di adeguate motivazioni, concretamente dimostrate, circa l'incapacità dell'altro genitore di assicurare tutte le responsabilità derivanti dal proprio ruolo la quale, di conseguenza, potrebbe pregiudicare il futuro benessere della prole.

Tale conclusione, che si trova affermata dalla giurisprudenza di merito e di legittimità, spesso chiamata all'applicazione dell'art. 337-quater C.C. in combinato disposto con l'art. 337-ter C.C., individua nella centralità dell'interesse del minore, cui fa riferimento la norma appena citata, quella specie di bussola che serve ad orientare l'interprete nella scelta dell'una o dell'altra forma di affidamento del minore, un interesse da intendersi riferito, come chiarito dalla Suprema Corte (v. ex multis Cass. 22/09/2016 n° 18559) "alle fondamentali ed imprescindibili esigenze di cura, educazione, istruzione e sana ed equilibrata crescita psico-fisica".

La legge (art. 337-quater C.C.) prevede solo che l'affidamento esclusivo ad uno dei genitori possa essere disposto quando l'affidamento all'altro sia contrario all'interesse del minore, non precisando, dunque, gli specifici casi in presenza dei quali in Giudice è tenuto a disporre la misura in questione; pertanto, la giurisprudenza ha provveduto a fissare alcuni criteri, al riguardo, che possono compendiarsi: nella idoneità o incapacità di uno dei genitori a prendersi cura del minore, che può anche essere resa manifesta da un conclamato disinteresse nei confronti del medesimo; nel rifiuto del minore a rapportarsi con uno dei genitori; nel mancato pagamento, da parte del coniuge obbligato, del contributo di mantenimento a favore del minore rivelando la circostanza un atteggiamento incompatibile con i doveri di cura, assistenza ed educazione del minore (Cass. 26587/2009); nel comportamento del genitore che non rispetti il regime delle visite violando così il primario diritto dei figli minori di mantenere rapporti continuativi con entrambi i genitori (Tribunale di Caltanissetta 30/12/2015; nel comportamento del genitore assente, disinteressato alla vita del figlio minore talvolta, addirittura, irreperibile (Tribunale di Napoli 594/2016).

Nel caso concreto, tale misura trova piena giustificazione nella condotta del convenuto, resosi irreperibile da anni e dimostratosi del tutto inottemperante ai suoi obblighi normativi di contribuire al mantenimento del bambino e di mantenere un rapporto affettivo con lui; nel contempo, l'assenza di ogni relazione tra padre e figlio sin dalla nascita del bambino impone che eventuali visite paterne, in caso di rientro in Italia, siano precedute da un adeguato intervento di supporto dei Servizi Sociali del Comune di residenza di R , come del resto già statuito in sede presidenziale.

La casa coniugale deve essere assegnata alla madre in quanto genitore affidatario.

In conformità a quanto richiesto dalla ricorrente in sede di precisazione delle conclusioni, deve confermarsi l'obbligo del convenuto di versare un contributo al mantenimento del minore dell'importo mensile di € 150 rivalutabile annualmente, oltre il 50% delle spese straordinarie secondo le disposizioni del protocollo della Corte di Appello di

Devono dichiararsi irripetibili le spese di lite sostenute dalla ricorrente, in assenza di opposizione.

P . Q . M .

Il Tribunale di così deliberando in via definitiva:

1. Dichiara la separazione personale tra i coniugi L - J

2. Dispone l'affidamento super-esclusivo di R alla madre, cui viene assegnata la casa coniugale, disponendosi sulle visite paterne come da parte motiva;

3. Pone a carico del resistente l'obbligo di versare alla ricorrente un assegno di € 150,00 a titolo di concorso al mantenimento del figlio (da

versarsi entro il giorno 5 di ogni mese), oltre la rivalutazione annua ISTAT ed oltre il 50% delle spese straordinarie secondo le disposizioni del protocollo della Corte di Appello di

4. Dichiara irripetibili le spese di lite; l'annotazione della presente

5) Ordina all'Ufficiale dello Stato Civile del Comune di

RAGIONI IN FATTO E IN DIRITTO

Dato atto che ne corso del procedimento è stata emessa la sentenza parziale di divorzio, vengono trattate le ulteriori domande oggetto del giudizio.

Affido dei minori

Prima ancora che di affido occorre concentrare l'attenzione sul vero problema che è quello della ricostruzione del rapporto padre/figli , obiettivo che ha impegnato lungamente l'attività processuale, senza portare ad alcun risultato,
Tale rapporto si è interrotto diverso tempo fa in quanto la frattura di coppia ha coinvolto anche i minori, che hanno manifestato resistenze ad entrare in relazione con la compagna del padre (che era un'amica della madre nonché madre di alcuni loro compagni di scuola).

A fronte di una situazione oggettivamente difficile, sarebbe stato opportuno per le parti intraprendere un percorso che aiutasse loro ed i minori a rapportarsi adeguatamente e con le dovute accortezze alla mutata situazione. -

Ciò non è avvenuto.

Nel corso de! procedimento si è dunque cercato di intervenire sullo stallo dei rapporti attraverso una valutazione a mezzo di CTU e l'attuazione, tramite i S.S., degli interventi suggeriti da quest'ultima nel quadro dì un affido dei minori all'ente (per sottrarre la gestione dei figli ad una dinamica disfunzionale nella relazione tra le parti).

Tale percorso non ha avuto esito positivo in quanto il padre non ha saputo sfruttare le situazioni (legate per lo più alla passione sportiva dei figli) che avrebbero dovuto facilitare la ripresa dei rapporti, ma è caduto in mancanze che hanno rafforzato nei figli la percezione di un suo sostanziale disinteresse nei loro confronti ovvero di un'incapacità a capirne i bisogni.

Duole osservare che, a fronte di un'evidente vulnerabilità dei figli, che per diverso tempo non hanno visto il padre, sarebbe stato doveroso da parte di quest'ultimo impegnarsi al meglio per non creare situazioni di delusione e di frustrazione, anteponendo tali incontri ad ogni altro suo impegno.

Così non ha fatto, a conferma, purtroppo, della permanenza delle carenze personali che impediscono al Sig. M di rapportarsi in modo corretto con la prole che erano state evidenziate dalla CTU *Sig. M ha una storia personale che parla dì una significativa difficoltà nell'affrontare le proprie problematiche psico emotive e relazionali che sì è espressa nell'utilizzo dì sostanze stupefacenti per un periodo di alcuni anni"; "Come emerge chiaramente dalla valutazione psico diagnostica il Sig. M tende a trattare ì propri bisogni e le proprie esigenze in modo sbrigativo senza soffermarsi troppo....In aggiunta a questo si rileva una scarsa capacità empatica che possa guidare il Sig. M . nella gestione dei propri rapporti relazionali che tenga conto del vissuto emotivo dell'altro, ad oggi infatti il Sig. M non è in grado di sintonizzarsi empaticamente con le difficoltà dei figli e sarà necessario un lavoro uno psico terapeutico per consentirgli di mettere in atto modalità più adeguate e costruttive di quelle attualmente utilizzate"").*
Proprio per fare fronte a tali carenze il CTU aveva indicato anche un chiaro percorso psicoterapeutico, che non risulta essere stato attuato.

L'unico aspetto sul quale il Sig. Mi si sofferma è quello di *"aver provato in giudizio...di non abusare dì stupefacente* (vd. comparsa conclusionale).

Questo è uno degli aspetti da valutare nella dinamica relazionale, ma non è certo l'unico.

D'altronde non si può sottacere qual è lo stato emotivo dei minori, emerso anche in sede dì audizione, ove hanno riferito di considerare il padre *"inesistente'"* né *"vedono martini per un recupero",* ribadendo la sfiducia che nutrono nei suoi confronti.
Osserva dunque il Collegio che, alla luce di quanto emerso nel corso del procedimento, deve escludersi l'utilità di qualsivoglia forzatura, che anzi rischierebbe di essere controproducente.

Dunque non vi sono certo i presupposti per l'adozione di un affido condiviso, il quale peraltro dev'essere escluso anche in ragione della pesante morosità maturata dal ricorrente rispetto agli obblighi contributivi assunti in sede di separazione (ammontante ad una cifra superiore ad euro 30 mila).
E' significativo al riguardo - a dimostrazione delle difficoltà paterne a sintonizzarsi sui bisogni dei minori - il mancato assenso del Sig. M alla partecipazione del primogenito ad un torneo calcistico della propria squadra in, senza peraltro che siano state fornite giustificazioni al riguardo e pur conoscendo la passione sportiva dei figli (tanto è vero che si rendeva necessario l'intervento del Giudice per risolvere *V impasse).*
Ritiene pertanto il Collegio che la formula più coerente con quanto esposto sia l'affido esclusivo materno dei figli, con attribuzione alla madre della responsabilità genitoriale esclusiva anche per le questioni straordinarie relative alla salute, allo sport ed alla scuola, superando l'affido all'ente (finalizzato ad agevolare un percorso che il ricorrente non ha intrapreso e non utile rispetto alla gestione efficiente dei bisogni dei minori).
I. S.S. manterranno un ruolo di monitoraggio dei rapporti e di verifica dei presupposti per la ricostruzione di una relazione padre/figli , previa dimostrazione da parte del Sig. M dell'acquisizione di competenze genitoriali adeguate rispetto ai bisogni della prole (nel qual caso i S.S. organizzeranno modalità/occasioni di incontro tenendo conto del primario interesse della tutela dei minori).

Contributo paterno per il mantenimento dei figli

Sul punto ritiene il Collegio che debbano confermarsi le condizioni stabilite in sede di separazione, come richiesto dalla resistente.

II. ricorrente infatti non ha fornito prova della riduzione della propria capacità contributiva, posto che a tal fine avrebbe dovuto fornire elementi idonei a consentire un raffronto tra la sua situazione economica attuale e quella esistente all'atto della separazione.

Quest'ultima è ignota mentre rispetto alla situazione attuale egli ha dichiarato di svolgere un lavoro dipendente part time alle dipendenze di una società che, secondo quanto riferito dalla resistente (e non contestato) fa capo alla madre della sua compagna (quest'ultima socia accomandante) percependo circa euro 900 euro al mese,

Sebbene gli accertamenti a mezzo di Polizia Tributaria non abbiamo fatto emerge altre entrate/disponibilità, quanto asserito dal Sig. M non è credibile per le ss. ragioni.

Anzitutto il lavoro dichiarato gli consente, in ragione dei rapporti che lo legano al nucleo familiare al quale appartiene, di occultare le reali entrate e non sono state fornite le ragioni di un impegno lavorativo ridotto a fronte della capacità lavorativa che in precedenza gli consentiva di avere un buon reddito (secondo quanto esposto in atti).

In secondo luogo la limitatezza dell'impegno lavorativo, infrasettimanale, non si concilia con l'assenza del padre nell'occasione di una partita di calcio domenicale del figlio, alla quale avrebbe dovuto partecipare nell'ambito del percorso di riavvicinamento ai figli di cui si è detto, giustificandosi sulla base di imprecisati impegni lavorativi straordinari.

Tale assenza fa invero ritenere che: 1) egli sia impegnato al lavoro anche la domenica (e quindi presumibilmente lavora per un orario maggiore di quanto dichiarato ovvero svolge anche un lavoro ulteriore); 2) tale lavoro dev'essere particolarmente importante (e quindi, si presume, ben remunerato) se il M ha ritenuto di dover sacrificare per esso un incontro fondamentale per il rapporto con i figli.
D'altronde, nella valutazione di quanto esposto, si deve tenere conto anche del fatto che il ricorrente ha dimostrato in questi anni di volersi sottrarre ai propri obblighi, come palesato dalla morosità maturata negli anni.

E' in quest'ottica che deve leggersi anche la vicenda dell'indennità svizzera per il precedente lavoro come frontaliere, che inizialmente il Sig. M dichiarava di avere richiesto, in quanto dovutagli, per poi riferire, a domanda, di non averne più diritto per un errore burocratico non meglio specificato (senza fornire alcuna documentazione a supporto).

D'altro canto una riduzione della contribuzione paterna non troverebbe comunque giustificazione avuto riguardo all'incremento delle esigenze dei ragazzi, in ragione dell'età, ed al fatto che il loro accudimento pesa totalmente sulla madre.

Spese di lite

Le spese di lite seguono la soccombenza e vanno pertanto poste interamente a carico del ricorrente, anche per quanto concerne quelle della CTU (tenuto conto che questa era finalizzata soprattutto a fornire gli strumenti per una ripresa del rapporto padre/figli frustrata dall'atteggiamento del Sig. M).

P.Q.M.

Il Tribunale, definitivamente pronunciando, dato atto dell'emissione della sentenza divorzile nel corso del procedimento, così provvede:

1.) affida i minori alla madre in via esclusiva, attribuendo alla madre la responsabilità super esclusiva per le questioni straordinarie relative alla salute, allo sport ed alla scuola;

1. dispone che i S.S. territorialmente competenti, già investiti del caso, monitorino i rapporti e

   verifichino i presupposti per la ricostruzione di una relazione padre/figli, previa dimostrazione da parte del Sig. M[1] dell'acquisizione di competenze genitoriali adeguate rispetto ai
   bisogni della prole (attraverso il percorso indicato nella CTU per superare le sue difficoltà psico emotive), nel qual caso organizzeranno modalità/occasioni di incontro, con i tempi e le modalità opportune, tenendo conto del primario interesse della tutela dei minori;

2. dispone che il ricorrente contribuisca al mantenimento dei figli corrispondendo alla resistente entro il 10 di ogni mese la somma di euro 350,00 per ciascun figlio, annualmente rivalutabile in base agli indici ISTAT, e sostenendo paritariamente le spese straordinarie secondo quanto previsto dal protocollo adottato

dalla Corte d'Appello di

3. condanna il ricorrente a rifondere alla resistente le spese di lite pari ad euro 7.200,00 oltre spese generali, oneri di legge e spese di CTU nella misura sostenuta dalla resistente.

Manda alla cancelleria per quanto di competenza, ivi compresa la trasmissione ai S.S.

OGGETTO: cessazione degli effetti civili del matrimonio.

CONCLUSIONI DELLE PARTI: come da foglio allegato.

MOTIVI IN FATTO ED IN DIRITTO DELLA DECISIONE

La domanda di declaratoria di cessazione degli effetti civili del matrimonio contratto dalle parti il 12/08/2002 in è fondata e meritevole di accoglimento. Da quanto risulta, le parti vivono in stato di separazione fin dalla loro comparizione avanti il Presidente del Tribunale di , avvenuta il 21/06/2013 nel corso del giudizio di separazione conclusosi con il decreto di omologa del 28//06/2013 e tra loro non vi é più stata riunione.

Lo stato di separazione protrattosi per vari anni, resistenza del presente ricorso e l'inutilità dell'esperimento del tentativo di conciliazione dimostrano che l'unione materiale e spirituale tra i coniugi non può essere ricostituita.

Possono accogliersi le domande congiunte delle parti in punto di affidamento e/o collocamento della prole, nonché di determinazione del contributo al suo mantenimento, in quanto congrue rispetto alle esigenze dei tre minori ed alle condizioni economiche dei contendenti; in particolare, risulta opportuno confermare l'affidamento di / al Comune di pur mantenendo il collocamento presso la madre, alla luce del contenuto della relazione trasmessa dai Servizi Sociali in data 31/10/2018, da cui emergono evidenti difficoltà relazionali tra il padre e la figlia anche in considerazione dell'alta conflittualità tra i genitori, con la conseguente necessità di portare avanti un percorso di sostegno per la ragazza che possa

facilitare la ripresa dei rapporti tra loro.

Nulla osta, invece, alla conferma dell'affidamento condiviso dei gemelli A e G con il loro collocamento paritario secondo il calendario proposto dalle parti, stante l'esigenza di assecondare il desiderio dei due minori di ampliare i tempi di permanenza presso la madre di cui hanno riferito i Servizi Sociali.

In considerazione dell'intervenuto accordo tra le parti, si stima congruo compensare totalmente le rispettive spese di lite, in conformità, peraltro, alla loro istanza sul punto, mentre gli esborsi relativi all'espletamento della C.T.U. devono essere posti a carico di entrambe nella misura del 50% per ciascuna.

Dott. M. Radici Presidente

Dott. Annarita D'Elia Giudice rei.

Dott. M E Pupa Giudice

ha pronunciato la seguente SENTENZA

nella causa civile n.3241/2018 R.G., avente ad oggetto: separazione giudiziale e vertente TRA S' L con l'avv. RICORRENTE

contro C M, con l'avv. RESISTENTE

NONCHÉ PROCURATORE DELLA REPUBBLICA PRESSO IL TRIBUNALE DI

INTERVENTORE *EXLEGE*

CONCLUSIONI

Le parti concludevano come da verbale del 27.9.19.

MOTIVI DELLA DECISIONE

Con ricorso depositato ritualmente S Li chiedeva a questo Tribunale che fosse pronunciata la separazione personale dal proprio coniuge C M;

Precisava che avevano contratto matrimonio in il 30.7.2011 ed erano nate due figlie (nel

2010 e nel 2012); richiedeva la regolamentazione dei rapporti con la coniuge e la prole. A sostegno della domanda adduceva che tra essi coniugi era oramai cessata *affectio coniugalis* a causa del comportamento del marito contrario ai doveri matrimoniali.

Instauratosi il contraddittorio, si costituiva C M che non si opponeva alla domanda di separazione, ma richiedeva condizioni parzialmente diverse, All'udienza presidenziale, comparse le parti avanti al Presidente f.f., espletata una c.tu. psicologica sul contesto su cui vivono le minori e risultato vano il tentativo di conciliazione, i coniugi venivano autorizzati a vivere separatamente, e il Presidente emetteva i provvedimenti temporanei ed urgenti, rimettendo le parti avanti al G.L per il prosieguo.

Nelle more le parti raggiungevano un accordo in ordine alle condizioni da porre a base della separazione giudiziale. Precisate pertanto le conclusioni, la causa veniva rimessa al Collegio per la decisione senza termini di cui all'art. 190 c.p.c. su richiesta delle parti.

Ritiene questo Collegio che la domanda di separazione giudiziale sia fondata e meritevole di accoglimento.

I coniugi, infatti, hanno confermato la propria volontà di volersi separare giudizialmente, essendo venuta meno tra di loro la comunione spirituale e materiale.

Inoltre, dall'esame dell'intero carteggio processuale emerge che non appare possibile una riconciliazione tra le parti, avendo entrambi dichiarato e ribadito che la convivenza è divenuta impossibile, essendo oramai cessata *\'attedio coniugalis.*

Successivamente i coniugi hanno raggiunto un accordo in ordine alle condizioni da porre a base della sentenza di separazione giudiziale, riportandosi in parte ai provvedimenti temporanei ed urgenti presi dal Presidente in sede di comparizione delle parti.

Ritiene il Collegio che possano essere confermate le condizioni stabilite dalle parti, e, poiché non contrastano con norme inderogabili e sono poste nell'interesse della prole, le stesse possono essere poste alla base della decisione del Tribunale.

Devono essere eseguite le formalità di legge.

Ritiene il Collegio che le spese di lite vadano completamente compensate, in considerazione del comportamento processuale delle parti.

P.Q.M.

il Tribunale, definitivamente pronunciando, nella causa promossa da S L contro C

M ogni altra domanda, eccezione e deduzione disattesa, così decide:

1. Pronuncia la separazione giudiziale tra S L e C M (matrimonio celebrato in

il 30.7.2011, trascritto nei registri di quel Comune allatto n. parte II, serie A dell'anno 2011) alle condizioni allegate.

2. Ordina che la presente sentenza sia trasmessa a cura della cancelleria, in copia autentica, all'ufficiale di stato civile del predetto Comune per la trascrizione, l'annotazione e le ulteriori incombenze.

3. Compensa integralmente tra le parti le spese di giudizio.

MOTIVI IN FATTO ED IN DIRITTO DELLA DECISIONE

La domanda delle parti diretta a conseguire la pronunzia della separazione personale è fondata e meritevole di accoglimento.

La presentazione del presente ricorso e l'adesione prestata dal resistente dimostrano in modo evidente il venir meno dell'interesse dei coniugi alla prosecuzione della loro convivenza; nel contempo, deve prendersi della rinunzia alla domanda di addebito della ricorrente e dell'accordo cui le parti sono pervenute in corso di causa sulle condizioni della separazione, precisando le conclusioni in modo congiunto.

In particolare, meritano accoglimento, in quanto conformi all'ordine pubblico e non contrarie all'interesse della prole, le condizioni pattuite dai coniugi in ordine all'affidamento all'Ente delle due figlie della coppia, S e' R con il loro collocamento prevalente presso la madre, cui viene assegnata la casa coniugale, nonché in ordine al contributo al mantenimento della prole posto a carico del padre.

In effetti, il mantenimento del già disposto affidamento delle minori al Comune di su cui le parti

concordano, appare più rispondente all'interesse della stesse ad una completa ricostituzione della relazione tra il padre e la figlia S , allo stato fortemente compromessa, pur dovendosi dare atto della partecipazione del B e della C ad un percorso di mediazione familiare che ha consentito di instaurare una maggiore collaborazione tra loro.

Avendo, tuttavia, i Servizi Sociali riferito di aver riscontrato uno stato di sofferenza emotiva nei componenti del presente nucleo familiare ed una persistente difficoltà dei genitori di sintonizzarsi sul piano sentimentale delle figlie, appare opportuno non modificare allo stato l'attuale regime di affidamento delle minori, invitando l'Ente affidatario a proseguire nel percorso di sostegno psicoterapeutico in favore di S^ al fine di consentire alla ragazza di acquisire consapevolezza dei suoi vissuti rispetto alla figura paterna in funzione di una ri-sintonizzazione emotiva reciproca.

All'accordo raggiunto dalle parti consegue, conformemente alla loro richiesta, la totale compensazione tra le stesse delle reciproche spese di lite.

MOTIVI IN FATTO ED IN DIRITTO DELLA DECISIONE

La domanda di pronunzia di separazione personale dei coniugi è fondata e meritevole di accoglimento.

La presentazione del presente ricorso e la contumacia del resistente, che, dopo aver disertato l'udienza presidenziale, si è altresì

disinteressato della prosecuzione del giudizio, dimostrano in modo evidente il venir meno dell'interesse dei coniugi alla prosecuzione della loro convivenza; nel contempo, deve prendersi atto della rinunzia manifestata implicitamente dalla ricorrente alla domanda di addebito, non riproposta in sede di precisazione delle conclusioni.

Deve disporsi l'affidamento super esclusivo di 0 alla madre; in effetti, tale forma di affido può essere concesso, in deroga all'ordinario regime di affido condiviso, sulla base di adeguate motivazioni, concretamente dimostrate, circa l'incapacità dell'altro genitore di assicurare tutte le responsabilità derivanti dal proprio ruolo la quale, di conseguenza, potrebbe pregiudicare il futuro benessere della prole.

Tale conclusione, che si trova affermata dalla giurisprudenza di merito e di legittimità, spesso chiamata all'applicazione dell[5]art. 337-quater C.C. in combinato disposto con l'art. 337-ter C.C., individua nella centralità dell'interesse del minore, cui fa riferimento la norma appena citata, quella specie di bussola che serve ad orientare l'interprete nella scelta dell'una o dell'altra forma di affidamento del minore, un interesse da intendersi riferito, come chiarito dalla Suprema Corte (v. ex multis Cass. 22/09/2016 n° 18559) "alle fondamentali ed imprescindibili esigenze di cura, educazione, istruzione e sana ed equilibrata crescita psico-fisica".

La legge (art. 337-quater C.C.) prevede solo che l'affidamento esclusivo ad uno dei genitori possa essere disposto quando l'affidamento all'altro sia contrario all'interesse del minore, non precisando, dunque, gli specifici casi in presenza dei quali in Giudice è tenuto a disporre la misura in questione; pertanto, la giurisprudenza ha provveduto a fissare alcuni criteri, al riguardo, che possono compendiarsi: nella idoneità o incapacità di uno dei genitori a prendersi cura del minore, che può anche essere resa manifesta da un conclamato disinteresse nei confronti del medesimo; nel rifiuto del minore a rapportarsi con uno dei genitori; nel mancato pagamento, da parte del coniuge obbligato, del contributo di mantenimento a favore del minore rivelando la circostanza un atteggiamento incompatibile con i doveri di cura, assistenza ed educazione del minore (Cass. 26587/2009); nel comportamento del genitore che non rispetti il regime delle visite violando così il primario diritto dei figli minori di mantenere rapporti continuativi con entrambi i genitori (Tribunale di Caltanissetta 30/12/2015); nel comportamento del genitore assente, disinteressato alla vita del figlio minore talvolta, addirittura, irreperibile (Tribunale di Napoli 594/2016).

Nel caso concreto, tale misura trova piena giustificazione nella condotta del convenuto, resosi del tutto inottemperante ai suoi obblighi normativi di contribuire al mantenimento del bambino e di intrattenere un rapporto affettivo con lui, quanto meno fino al mese di maggio 2019, allorquando egli si sarebbe trasferito a sua volta a P come egli ha riferito al Giudice comparendo personalmente (senza l'assistenza di un legale) all'udienza dell'01/10/2019 con alcune ricevute di pagamento attestanti un solo parziale adempimento dei suoi oneri.

In considerazione della tenera età del bambino e della mancanza allo stato di un solido rapporto con il padre, ancora tutto da costruire e consolidare, si reputa opportuno prevedere che il resistente possa incontrare O (eventualmente accompagnato dai nonni paterni) un giorno alla settimana presso il domicilio materno dalle ore 14 alle ore 19, previo accordo con la ricorrente fino a 48 ore prima in relazione alla turnazione lavorativa del P nel contempo, deve confermarsi il mandato ai Servizi Sociali del Comune di di monitorare il nucleo familiare, approntando ogni intervento utile a supportare il padre nel recupero del rapporto con il figlio e la madre nella gestione del minore.

Deve porsi a carico del convenuto l'obbligo di versare un contributo al mantenimento del minore dell'importo mensile di € 250 rivalutabile annualmente, oltre il 50% delle spese straordinarie

secondo le disposizioni del protocollo della Corte di Appello di in quanto congruo rispetto alle esigenze di un bambino dell'età di 0 , anche avuto riguardo alla perdita del godimento della

casa familiare a seguito di uno sfratto per morosità.

Può confermarsi, infine, l'obbligo già posto a carico del resistente in occasione dell'udienza presidenziale, di versare alla ricorrente un contributo al suo mantenimento di € 200 mensili rivalutabili annualmente, da versarsi entro il medesimo termine, atteso che la Z risulta tuttora priva di attività lavorativa, come è stato riferito dai Servizi Sociali del Comune di (città ove ella dimora presso l'abitazione dei genitori) e che il non si è costituito per chiedere la revoca o modifica del relativo provvedimento presidenziale, essendo comparso senza legale ed assumendo di guadagnare "in nero" € 1,400 al mese come cuoco.

Alla stregua della condotta inottemperante del questi deve essere condannato a rifondere le spese di lite sostenute dalla ricorrente nell'importo liquidato in dispositivo, previa applicazione della riduzione del 50% sui compensi derivante dalla sua ammissione al patrocinio a spese dello Stato e con l'ordine di versamento diretto in favore dell'Erario, il tutto subordinatamente alla condizione della conferma dell'ammissione all'esito della produzione documentale giustificativa nel termine che verrà concesso al deposito dell'istanza di liquidazione; in caso di mancato avveramento di tale condizione, verranno meno la riduzione del 50% e l'ordine di versamento diretto in favore dello Stato piuttosto che alla controparte.

2. Dispone l'affidamento super-esclusivo di O alla madre, disponendosi sulle visite paterne come da parte motiva e confermando il mandato di monitoraggio del nucleo familiare in capo ai Servizi Sociali del Comune di

3. Pone a carico del resistente l'obbligo di versare alla ricorrente un assegno di € 250,00 a titolo di concorso al mantenimento del figlio (da versarsi entro il giorno 5 di ogni mese), oltre la rivalutazione annua ISTAT ed oltre il 50% delle spese straordinarie secondo le disposizioni del protocollo della Corte di Appello di

5. Condanna il convenuto a rifondere le spese di lite sostenute dalla ricorrente nell'importo di € 900, oltre IVA, CPA e rimborso spese forfetario del 15%, nonché oltre il contributo unificato, con versamento diretto in favore dell'Erario a condizione della conferma del beneficio del patrocinio a spese dello Stato;

RAGIONI IN FATTO E IN DIRITTO

I Sigg.ri I C. e N C contraevano matrimonio in il 31/5/2008 (matrimonio trascritto nei registri degli atti di matrimonio di detto Comune al n. P.

I, 2008).

Dall'unione nasceva in data 2008 il figlio M

Con atto di ricorso depositato in data 23/2/2018 la Sig.ra R . C. adiva il Tribunale in epigrafe chiedendo remissione della pronuncia di separazione stante l'intollerabilità della convivenza coniugale.

Provvedeva a costituirsi il Sig. N C mediante comparsa di risposta con la quale

eccepiva l'incompetenza territoriale del Tribunale adito.

In via subordinata, nel merito aderiva alla domanda di separazione formulando autonome istanze in ordine alla regolamentazione dei rapporti conseguenti.

In esito all'udienza Presidenziale del 2/7/2018 le parti venivano autorizzate a vivere separatamente.

Espletati gli incombenti di rito, la causa viene decisa con sentenza sulla base delle conclusioni rassegnate dalle parti.

Competenza territoriale

L'eccezione di incompetenza territoriale sollevata dal resistente è destituita di fondamento.

E' pacifico che la residenza coniugale sia stata fissata all'interno del circondario di questo Tribunale (a nulla rilevando il fatto che il resistente poi si sia trasferito altrove) e pertanto trova applicazione e l'art. 706, co. 1, epe., il quale *"impone, quale criterio principale di collegamento, l'ultima residenza comune dei coniugi, potendo trovare applicazione il criterio subordinato della residenza o del domicilio del convenuto solo nell'ipotesi in cui non vi sia mai stala convivenza"* (così da ultimo Cass. Sez. 6, Ord. N. 13569 del 20/5/2019).

Separazione

Alla luce delle risultanze di causa, deve ritenersi sufficientemente dimostrata l'intollerabilità della convivenza tra i coniugi tale da rendere ineluttabile la separazione.

Condizioni della separazione

Si conferma le condizioni stabilite in sede Presidenziale, non essendo emersi elementi per una valutazione difforme, salvo per quanto concerne l'aspetto inerente l'affido del minore ed i rapporti tra questi ed il padre.

Durante il procedimento, con ordinanza in data 15/1/2019, venivano parzialmente modificate le determinazioni Presidenziali stabilendo l'affido esclusivo materno del minore *("in ragione dell'evidenziata morosità del resistente e delle difficoltà che si sono registrate nella gestione delle esigenze del minore (vd. questione dell'iscrizione alla, squadra dì calcio").*

Gli accertamenti svolti a mezzo S.S. confermavano l'insussistenza dei presupposti per il ripristino: dell'affido condiviso.

Il resistente, trasferitosi a), è rimasto inadempiente rispetto agli obblighi contributivi per il minore e per quelli inerenti la cura, istruzione ed educazione, situazione questa che crea nel minore ansia e rabbia (emblematico al riguardo l'episodio della Cresima di E.' , allorché il padre non si faceva vivo nonostante il primo sperasse nella sua presenza ed in quella dei nonni paterni).

Tale condotta alimenta la frustrazione di un minore che durante la convivenza familiare aveva vissuto esperienze difficili, come emerge dal suo racconto (nel quale narra di atteggiamenti violenti del padre e di avere trovato difesa nella madre, che subiva a sua volta le intemperanze del coniuge).

Il Sig. C infine, pur contattato dai S.S., non ha collaborato con questi ultimi in alcun modo.

Alla luce di tali considerazioni non solo deve confermarsi l'affido esclusivo materno, ma questo va esteso attribuendo alla madre la responsabilità esclusiva materna anche per le decisioni di ordine straordinario inerenti l'istruzione, la salute, la residenza del minore, il rinnovo dei documenti di quest'ultimo anche validi per l'espatrio.

Inoltre i S.S. dovranno continuare a monitorare i rapporti prevedendo che eventuali incontri padre/figlio siano previamente valutati dai primi, che dovranno verificare le condizioni del minore, la volontà del padre di assicurare continuità nella relazione e la sua capacità a relazionarsi correttamente con il figlio.

La richiesta attorea di prelievo del contributo dal datore di lavoro merita accoglimento sussistendo i presupposti di cui all'art. 156, co. 6, c.c.

Non può trovare accoglimento la domanda della ricorrente di una contribuzione per il proprio mantenimento non essendovi prova di una capacità reddituale adeguata da parte del resistente.

Spese di lite

Le spese di lite seguono la soccombenza e vanno pertanto poste a carico del resistente

Il Tribunale, dato atto dell'emissione della sentenza di separazione nel corso del giudizio, ogni diversa domanda, istanza, eccezione e difesa disattesa e respinta, così provvede:

1. dichiara la separazione personale tra i Sigg.ri R C e N C coniugatisi in il 31/5/2008 (matrimonio trascritto nei registri degli atti di matrimonio di detto Comune al n. , P. I, 2008);
2. conferma definitivamente le determinazioni assunte in sede Presidenziale fatta eccezione per quanto esposto nei capi seguenti;
3. affida il minore in via esclusiva alla madre attribuendole la responsabilità esclusiva materna anche per le decisioni di ordine straordinario inerenti l'istruzione, la salute, la residenza del minore, il rinnovo dei documenti di quest'ultimo anche validi per l'espatrio;
4. dispone che i S.S. territorialmente competenti (avuto riguardo al luogo di residenza del minore) continuino a monitorare i rapporti e che eventuali incontri padre/figlio siano previamente valutati dai primi, che dovranno verificare le condizioni del minore, la volontà del padre di assicurare continuità nella relazione e la sua capacità a relazionarsi correttamente con il figlio;
5. dispone che la ' trattenga mensilmente dalle somme dovute al Sig. C N l'importo di euro 250,00, annualmente rivalutabile in base agli indici ISTAT, corrispondendolo alla ricorrente, Sig.ra C R secondo le modalità che questa indicherà;
6. condanna il resistente a rifondere le spese di lite, liquidate in euro 3.000,00, ma quantificate in misura 1.500,00 in ragione del patrocinio dello Stato, a favore dell'Erario, a meno che il patrocinio non venga revocato, nel qual caso la somma sarà dovuta a favore della ricorrente e per intero, oltre spese generali ed oneri di legge; '
7. ordina all'ufficiale di Stato Civile del Comune di di provvedere all'annotazione della sentenza a margine dell'atto di matrimonio.

Manda alla cancelleria per quanto di competenza, ivi compresa la trasmissione ai S.S. di (luogo di attuale residenza del minore) e di (luogo di prossimo trasferimento del minore).

MOTIVI IN FATTO ED IN DIRITTO DELLA DECISIONE

La domanda di pronunzia di separazione personale dei coniugi è fondata e meritevole di accoglimento.

La presentazione del presente ricorso e la mancanza di opposizione del resistente (comparso all'udienza presidenziale senza l'assistenza del legale) dimostrano in modo evidente il venir meno dell'interesse dei coniugi alla prosecuzione della loro convivenza.

Deve disporsi l'affidamento esclusivo della minore V . alla madre; in effetti, tale forma di affido può essere concesso, in deroga all'ordinario regime di affido condiviso, sulla base di adeguate motivazioni, concretamente dimostrate, circa l'incapacità dell'altro genitore di assicurare tutte le responsabilità derivanti dal proprio ruolo la quale, di conseguenza, potrebbe pregiudicare il futuro benessere della prole.

Tale conclusione, che si trova affermata dalla giurisprudenza di merito e di legittimità, spesso chiamata all'applicazione dell'art. 337-quater C.C. in combinato disposto con l'art. 337-ter C.C., individua nella centralità dell'interesse del minore, cui fa riferimento la norma appena citata, quella specie di bussola che serve ad orientare l'interprete nella scelta dell'una o dell'altra forma di affidamento del minore, un interesse da intendersi riferito, come chiarito dalla Suprema Corte (v. ex multis Cass. 22/09/2016 n° 18559) "alle fondamentali ed imprescindibili esigenze di cura, educazione, istruzione e sana ed equilibrata crescita psico-fisica".

La legge (art. 337-quater C.C.) prevede solo che l'affidamento esclusivo ad uno dei genitori possa essere disposto quando l'affidamento all'altro sia contrario all'interesse del minore, non precisando, dunque, gli specifici casi in presenza dei quali in Giudice è tenuto a disporre la

misura in questione; pertanto, la giurisprudenza ha provveduto a fissare alcuni criteri, al riguardo, che possono compendiarsi: nella idoneità o incapacità di uno dei genitori a prendersi cura del minore, che può anche essere resa manifesta da un conclamato disinteresse nei confronti del medesimo; nel rifiuto

del minore a rapportarsi con uno dei genitori; nel mancato pagamento, da parte del coniuge obbligato, del contributo di mantenimento a favore del minore rivelando la circostanza un atteggiamento incompatibile con i doveri di cura, assistenza ed educazione del minore (Cass. 26587/2009); nel comportamento del genitore che non rispetti il regime delle visite violando così il primario diritto dei figli minori di mantenere rapporti continuativi con entrambi i genitori (Tribunale di Caltanissetta 30/12/2015); nel comportamento del genitore assente, disinteressato alla vita del figlio minore talvolta, addirittura, irreperibile (Tribunale di Napoli 594/2016).

Nel caso concreto, tale misura trova piena giustificazione nella stessa adesione prestata all'udienza presidenziale dal convenuto e nella sua condotta di reiterato inadempimento ai suoi obblighi normativi di contribuire al mantenimento della bambina.

Nel contempo, a parziale modifica dei provvedimenti adottati in via provvisoria all'udienza dei 13/03/2019, si dispone che le visite paterne avvengano secondo le tempistiche stabilite in sede presidenziale presso la casa dei nonni paterni, nei cui confronti la R ha espresso piena fiducia anche in considerazione del loro grande supporto nella gestione della bambina nei tempi in cui la ricorrente è impegnata nella sua attività lavorativa; del resto, gli stessi Servizi Sociali hanno relazionato come la relazione tra il B e V sia affettuosa e positiva, pur dovendosi rilevare momenti di difficoltà del padre a sintonizzarsi sui bisogni emotivi della minore e, soprattutto, i dubbi circa la persistenza dell'abuso di sostanze stupefacenti da parte del convenuto, il quale non risulta essersi sottoposto ad alcuna presa in carico da parte del

In conformità a quanto richiesto dalla ricorrente in sede di precisazione delle conclusioni, deve confermarsi l'obbligo del convenuto di versare, entro il giorno 5 di ogni mese, sia un contributo al mantenimento della minore dell'importo di € 300 rivalutabile annualmente, oltre il 50% delle spese straordinarie secondo le disposizioni del protocollo della Corte di Appello di , sia un assegno periodico in favore della moglie di € 200 rivalutabile annualmente, in considerazione del divario

reddituale tra i due coniugi emerso in sede presidenziale; in effetti, il B ha ammesso di percepire un reddito medio mensile di circa € 1.500 mensili (peraltro non documentato), a cui fa riscontro una retribuzione compresa tra gli € 800 e gli € 900 per 13 mensilità in capo alla R Devono dichiararsi irripetibili le spese di lite sostenute dalla ricorrente, in assenza di opposizione.

MOTIVI IN FATTO ED IN DIRITTO DELLA DECISIONE

La domanda di pronunzia di separazione personale dei coniugi è fondata e meritevole di accoglimento.

La presentazione del presente ricorso e l'irreperibilità del resistente (da tempo allontanatosi dal territorio italiano senza dare notizie di sé) dimostrano in modo evidente il venir meno dell'interesse dei coniugi alla prosecuzione della loro convivenza.

Deve disporsi l'affidamento super esclusivo della minore D. alla madre; in effetti, tale forma di affido può essere concesso, in deroga all'ordinario regime di affido condiviso, sulla base di adeguate motivazioni, concretamente dimostrate, circa l'incapacità dell'altro genitore di assicurare tutte le responsabilità derivanti dal proprio ruolo la quale, di conseguenza, potrebbe pregiudicare il futuro benessere della prole.

Tale conclusione, che si trova affermata dalla giurisprudenza di merito e di legittimità, spesso chiamata all'applicazione dell'alt. 337-quater C.C. in combinato disposto con l'art. 337-ter C.C., individua nella centralità dell'interesse del minore, cui fa riferimento la norma appena citata,

Nel caso concreto, tale misura trova piena giustificazione nella condotta del convenuto, resosi irreperibile da tempo e dimostratosi del tutto inottemperante ai suoi obblighi normativi di contribuire al mantenimento della bambina e di mantenere un rapporto affettivo con lei; nel contempo, a parziale modifica dei provvedimenti presidenziali, stante l'assenza di ogni relazione tra padre e figlia, deve stabilirsi che eventuali visite paterne, in caso di rientro in Italia, avvengano previo accordo con la madre presso il domicilio della stessa.

In conformità a quanto richiesto dalla ricorrente in sede di precisazione delle conclusioni, deve confermarsi l'obbligo del convenuto di versare un contributo al mantenimento della minore dell'importo mensile di € 250 rivalutabile annualmente, cui deve aggiungersi l'obbligo di rifondere il 50% delle spese straordinarie secondo le disposizioni del protocollo della Corte di Appello di

ESECUTIVA

MOTIVI IN FATTO ED IN DIRITTO DELLA DECISIONE

La domanda di scioglimento del matrimonio civile contratto dalle parti in data 24/08/1998 in Albania è fondata e meritevole di accoglimento.

Da quanto risulta, le parti vivono in stato di separazione fin dalla loro comparizione avanti il Presidente del Tribunale di avvenuta nel 2017 nel corso del giudizio di separazione

conclusosi con la sentenza n 582 del 23/03/2018 e tra loro non vi è più stata riunione; lo stato di separazione protrattosi per vari anni, l'esistenza del presente ricorso e l'impossibilità dell'esperimento del tentativo di conciliazione a causa della mancata comparizione del convenuto all'udienza presidenziale dimostrano che l'unione materiale e spirituale tra i coniugi non può essere ricostituita.

Può confermarsi l'affidamento esclusivo alla madre della minore I già disposto in sede di separazione, anche alla stregua di quanto relazionato dai Servizi Sociali del Comune di che riferiscono di aver ascoltato la minore I , venendo così a conoscenza della sparizione del padre dalla sua vita da più di un anno.

Com'è noto, la giurisprudenza di merito e di legittimità, spesso chiamata all'applicazione dell'art. 337-quater C.C. in combinato disposto con l'art. 337-ter C.C., individua nella centralità dell'interesse del minore, cui fa riferimento la norma appena citata, quella specie di bussola che serve ad orientare l'interprete nella scelta dell'una o dell'altra forma di affidamento del minore, un interesse da intendersi riferito, come chiarito dalla Suprema Corte (v. ex multis Cass. 22/09/2016 n° 18559) "alle fondamentali ed imprescindibili esigenze di cura, educazione, istruzione e sana ed equilibrata crescita psico-fisica".

La legge (art. 337-quater C.C.) prevede solo che l'affidamento esclusivo ad uno dei genitori possa essere disposto quando l'affidamento all'altro sia contrario all'interesse del minore, non precisando, dunque, gli specifici casi in presenza dei quali in Giudice è tenuto a disporre la misura in questione; pertanto, la giurisprudenza ha provveduto a fissare alcuni criteri, al riguardo, che possono compendiarsi: nella idoneità o incapacità di uno dei genitori a prendersi cura del minore, che può anche essere resa manifesta da un conclamato disinteresse nei confronti del medesimo; nel rifiuto del minore a rapportarsi con uno dei genitori; nel mancato pagamento, da parte del coniuge obbligato, del contributo di mantenimento a favore del minore rivelando la circostanza un atteggiamento incompatibile con i doveri di cura, assistenza ed educazione del minore (Cass. 26587/2009); nel comportamento del genitore che non rispetti il regime delle visite violando così il primario diritto dei figli minori di mantenere rapporti continuativi con entrambi i genitori (Tribunale di Caltanissetta 30/12/2015; nel comportamento del genitore assente, disinteressato alla vita del figlio minore talvolta, addirittura, irreperibile (Tribunale di Napoli 594/2016).

Nel caso concreto, tale misura trova giustificazione nella condotta del padre, che risulta non versare l'assegno di mantenimento stabilito in favore della prole e non esercitare il suo diritto di visita nei riguardi della figlia, essendosi egli reso irreperibile ormai da un anno e mezzo.

Deve, comunque, affidarsi ai Servizi Sociali il compito di monitorare sul nucleo familiare, approntando, se ritenuto opportuno, un sostegno psicologico per I ovvero proponendo alla stessa attività ludiche compatibili con la sua salute che possano aiutarla a superare il disagio relazionale di cui è stata data evidenza nella relazione in atti.

Non si ritiene opportuno allo stato stabilire una regolamentazione per l'esercizio delle visite paterne alla stregua della sua condotta di totale e conclamato disinteresse per la figlia; soltanto nell'ipotesi in cui il padre dovesse prendere contatto con i Servizi Sociali del Comune di C gli stessi dovranno valutare se la ripresa dei contatti tra il padre e la minore sia rispondente al suo interesse e stabilirne tempistiche e modalità (spazio neutro).

Può confermarsi l'assegnazione alla ricorrente della casa coniugale con quanto l'arreda, in quanto genitore affidatario della prole.

Deve, altresì, confermarsi l'obbligo già posto a carico del convenuto in sede di separazione ed all'udienza presidenziale, di versare alla ricorrente, a titolo di mantenimento della minore I e della figlia primogenita E maggiorenne ma non autosufficiente), un assegno dell'importo di € 600, oltre la rivalutazione annua Istat ed il rimborso del 50% alle spese straordinarie secondo le indicazioni della Corte di Appello di

Deve, parimenti, confermarsi l'obbligo già posto a carico del convenuto in sede di separazione ed all'udienza presidenziale, di versare alla ricorrente, a titolo di concorso al suo mantenimento, un assegno dell'importo di € 100 rivalutabile annualmente.

Infatti, tali statuizioni sono state adottate un anno e mezzo fa e non sussistono validi motivi per modificarle, avuto riguardo, peraltro, alla circostanza che dopo la pronunzia delia separazione nel marzo 2018 la ricorrente, che era stata licenziata nel giugno 2017, ha reperito un'attività lavorativa, anche se a tempo parziale.

Alla condotta di totale disinteresse del padre verso le esigenze delle figlie, che ha reso indispensabile l'instaurazione di un giudizio contenzioso, consegue il suo obbligo di rifondere le spese di lite sostenute dalla ricorrente secondo la liquidazione effettuata in dispositivo, con l'applicazione della riduzione del 50% derivante dall'ammissione della M al patrocinio a spese dello Stato e con l'ordine di pagamento diretto

in favore dell'Erario subordinatamente alla condizione della conferma dell'ammissione dell'attrice al beneficio in questione.

P . Q . M .

Il Tribunale di definitivamente pronunziandosi, così dispone;

1. dichiara lo scioglimento del matrimonio civile contratto dalle parti in data 24/08/1998 in Albania, ordinando all'ufficiale di Stato Civile del Comune di C di procedere all'annotazione della sentenza a margine dell'atto di matrimonio n. , parte II, serie C;

2. affida la minore I in via esclusiva alla madre, senza stabilire allo stato alcuna regolamentazione delle visite paterne;

3. dispone che i Servizi Sociali del Comune di C portino avanti il monitoraggio in atto sul nucleo familiare, approntando ogni intervento utile di tipo socio-educativo e/o di supporto psicologico per la minore come disposto in motivazione;

4. pone a carico del resistente l'obbligo di versare alla ricorrente, entro il giorno 5 di ogni mese, la somma di € 100 rivalutabili annualmente quale contributo per il suo mantenimento, nonché l'importo complessivo di € 600 rivalutabile annualmente per il mantenimento delle due figlie (€ 300 per ciascuna), oltre il 50% delle spese straordinarie secondo il protocollo della Corte di Appello di

5. assegna alla ricorrente la casa coniugale con quanto l'arreda;

6. condanna il resistente a rifondere le spese di lite sostenute dalla ricorrente nell'importo di € 900, oltre il contributo unificato e gli accessori di legge (IVA, CPA e rimborso spese forfetario del 15%), con l'ordine di pagamento diretto in favore dell'Erario subordinatamente alla condizione della

conferma dell'ammissione dell'attrice al beneficio in questione.

OGGETTO: separazione giudiziale.

CONCLUSIONI DELLA RICORRENTE; come da foglio allegato.

CONCLUSIONI DEL RESISTENTE: come da foglio allegato.

MOTIVI IN FATTO ED IN DIRITTO DELLA DECISIONE

La domanda attrice diretta a conseguire la pronunzia della separazione personale dei coniugi R A i è fondata e meritevole di accoglimento.

La presentazione del presente ricorso e l'adesione prestata dal resistente limitatamente alla richiesta di pronunzia della separazione coniugale dimostrano in modo evidente il venir meno dell'interesse dei coniugi alla prosecuzione della loro convivenza; nel contempo, peraltro, non può accogliersi la richiesta avanzata da entrambe le parti al fine di ottenere la declaratoria di addebito della separazione in capo al coniuge in relazione sia all'estrema genericità nella descrizione delle condotte di asserita violazione dei doveri coniugali e delle modalità in cui le stesse avrebbero determinato la frattura dell'affectio maritalis, sia alla totale insussistenza di un qualsiasi supporto probatorio in ordine all'effettiva consumazione delle stesse; a tale proposito si osserva, infatti, che le parti, dopo aver chiesto la concessione dei termini di cui all'art. 183, sesto comma, C.P.C. alla prima udienza di trattazione, vi hanno implicitamente rinunziato precisando le conclusioni senza reiterare tale richiesta, essendosi la ricorrente limitata a chiedere in modo del tutto irrituale la prova per interrogatorio formale e per testi (non indicati per nome) "sulle circostanze tutte di cui alla sopra estesa narrativa.,.", ossia sulle conclusioni oggetto di precisazione, mentre il resistente risulta aver semplicemente espresso una generica riserva di articolare mezzi istruttori con una mera clausola di stile.

In effetti, costituisce ormai un principio consolidato quello secondo il quale affinché si possa giungere ad una pronuncia di separazione con addebito è necessario che venga prima accertata, in maniera rigorosa, la sussistenza di un nesso causale tra la condotta contraria ai doveri nascenti dal matrimonio e l'intollerabilità della prosecuzione della convivenza; il comportamento legittimante l'addebito deve essere, oltre che contrario ai doveri nascenti dal matrimonio di cui all'art. 143 c.c.,

anche cosciente e volontario e la violazione deve essere la causa determinante la crisi coniugale,

La giurisprudenza di legittimità ha, infatti, sul punto specificato che: «ai fini dell'addebitabilità della separazione il Giudice di merito deve accertare se la frattura del rapporto coniugale sia stata provocata dal comportamento oggettivamente trasgressivo di uno o di entrambi i coniugi, e quindi se sussista un rapporto di causalità tra detto comportamento ed il verificarsi dell'intollerabilità dell'ulteriore convivenza, o se piuttosto la violazione dei doveri che l'art. 143 c.c. pone a carico dei coniugi sia avvenuta quando era già maturata una situazione di crisi de! vincolo coniugale, o per effetto di essa» (Cass. n. 8873/2012; Cass. n. 21245/2010).

Pertanto è irrilevante ai fini dell'addebito il comportamento tenuto dal coniuge che ha "trasgredito" successivamente al verificarsi di una situazione di intollerabilità delia convivenza; ne consegue che sulla parte richiedente l'addebito grava l'onere di fornire in giudizio la prova che la violazione degli obblighi nascenti dal matrimonio sia stata la causa (unica o prevalente e determinante) dell'intollerabilità dell'ulteriore convivenza fino a determinare la separazione.

Per quanto concerne i provvedimenti concernenti la prole, deve modificarsi il provvedimento presidenziale avente ad oggetto l'affidamento della figlia delle parti, G nel senso di affidare la bambina al Comune di
luogo di residenza dell'A genitore collocatario della minore, alla stregua del contenuto delle relazioni trasmesse dai Servizi Sociali nell'arco di tempo compreso tra il giugno 2018 ed il settembre 2019, che viene ad integrare il quadro già preoccupante delineato dalla C.T.U. espletata in sede presidenziale.

Com'è noto, l'ordinario regime di affido condiviso può essere derogato dal Giudice sulla base di adeguate motivazioni, concretamente dimostrate, circa l'incapacità di uno o di entrambi i genitori di assicurare tutte le responsabilità derivanti dal proprio ruolo la quale, di conseguenza, potrebbe pregiudicare il futuro benessere della prole; tale principio, che si trova affermato dalla giurisprudenza di merito e di legittimità, spesso chiamata all'applicazione dell'art. 337-quater C.C. in combinato disposto con l'art. 337-ter C.C., individua nella centralità dell'interesse del minore, cui fa riferimento la norma appena citata, quella specie di bussola che serve ad orientare l'interprete nella scelta dell'una o dell'altra forma di affidamento del minore, un interesse da intendersi riferito, come chiarito dalla Suprema Corte (v. ex multis Cass. 22/09/2016 n° 18559) "alle fondamentali ed imprescindibili esigenze di cura, educazione, istruzione e sana ed equilibrata crescita psico-fisica".
Nel caso concreto, deve rilevarsi che già in occasione della prima relazione i Servizi Sociali avevano riferito di essersi attivati su segnalazione della scuola di G per una protratta inadempienza scolastica, che aveva interessato un lungo periodo di tempo compreso tra il 2016 ed il 2018 e su richiesta dello stesso A che esprimeva la sua preoccupazione di essere ostacolato dalla R nella sua relazione con la figlia; in quella fase iniziale, addirittura precedente all'instaurazione del presente giudizio, era parsa evidente la situazione di "acceso conflitto" esistente tra i coniugi, esacerbato dalla condotta ostativa della ricorrente, la quale si era rifiutata di effettuare i colloqui di approfondimento finalizzati ad offrire un aiuto alla coppia e anche di portare la bambina ai Servizi per consentire la presa in carico del nucleo familiare.

Una volta instaurato il giudizio, il Presidente del Tribunale aveva affidato un incarico peritale alla dottoressa al fine di individuare la miglior soluzione per l'affidamento e collocamento della minore, previa valutazione della capacità geniteriate delle parti, all'esito della quale era stato suggerito l'affidamento condiviso con il collocamento di G presso il padre, con la raccomandazione di mantenere il monitoraggio dei Servizi Sociali e di conferire agli stessi l'incarico di rimodulare te modalità di visita della madre anche in relazione all'efficacia degli interventi suggeriti (sostegno alia genitorialità per 1'/ presa in carico terapeutica per la minore e soprattutto presa in carico terapeutica psichiatrica integrata per la R affetta da uno scompenso psichico di tipo paranoideo reattivo ad una mancata risoluzione fisiologica della simbiosi madre-figlia, in virtù del quale la ricorrente vive e percepisce un rapporto di tipo esclusivo ed indifferenziato con la figlia, suscettibile di arrecare pregiudizio alla stessa in quanto diretto ad escludere la figura paterna).

Purtroppo la presa in carico da parte dei Servizi Sociali non ha consentito allo stato di ridurre a livelli ragionevoli la conflittualità tra i due coniugi, come si desume, tra l'altro, dal vano invito del Giudice di intraprendere un percorso di mediazione (a cui le parti avevano aderito all'udienza del 16/04/2019 senza poi intraprendere i dovuti passi); nel contempo, la relazione del marzo 2019 ha evidenziato una persistente difficoltà della bambina di essere naturale nella sua relazione con i genitori e la sua tendenza a compiacere i bisogni materni di un rapporto esclusivo ed inespugnabile, in considerazione di un dovere di lealtà verso la madre da lei vista come il soggetto più fragile al quale è stata sottratta.

Infine, nelle ultime relazioni del luglio e del settembre 2019 i Servizi Sociali hanno riferito della persistente difficoltà della bambina di comunicare ai genitori le proprie emozioni, soprattutto negative, per il timore di rovinare la relazione e di turbare l'altro, con la conseguente grave limitazione della sua possibilità di essere sé stessa; viene addirittura segnalata una sua tendenza alla denigrazione fine a se stessa ed aprioristica del padre, che sembrerebbe lasciare intravedere una sorta di manipolazione della madre (come del resto paventato dal resistente).

Deve, pertanto, concludersi che allo stato attuale l'affidamento di G al Comune di residenza sia la soluzione ottimale per tutelare il suo diritto ad una crescita serena e soprattutto il suo diritto ad intrattenere un rapporto sano ed equilibrato con entrambe le figure genitoriali.

In conformità con i suggerimenti avanzati dai Servizi Sociali, pertanto, gli stessi dovranno proseguire nel monitoraggio del nucleo familiare, nonché nell'esecuzione degli interventi di supporto psicologico per G e di supporto alla genitorialità per l'A e per la R (dì intesa con quelli del luogo di residenza della ricorrente) e nell'approntamento di un intervento educativo domiciliare per entrambi i genitori, con la precisazione che sarà compito dell'Ente affidatario rimodulare il diritto di visita materno in base all'andamento degli interventi in questione; la R dovrà, altresì, proseguire nel suo percorso di presa in carico terapeutico psichiatrico già in atto

che, secondo quanto riferito dalla dr.ssa , psichiatra presso il C.P.S. di . , sembrerebbe aver apportato

significativi miglioramenti nella sua condizione psichica, pur permanendo uno stato di ansia reattiva

2. Affida la minore G al Comune di A mantenendone il collocamento presso il padre, con facoltà per la madre di incontrarla secondo le modalità già in atto e con facoltà per l'ente affidatario di rimodulare le stesse in base all'andamento degli interventi in atto;

Dispone che i competenti Servizi Sociali provvedano a portare avanti gli interventi di cui alla parte motiva, con la precisazione che ogni fatto ritenuto di rilevanza dovrà essere segnalato al Giudice T contestualmente invitando la ricorrente a proseguire nel suo percorso terapeutico psichiatrico;

4. Dispone l'assegnazione al resistente della casa coniugale con quanto l'arreda;

6. Rigetta la domanda della ricorrente dirètta a conseguire la determinazione di un contributo al suo mantenimento;

7. Condanna la ricorrente a rifondere il 50% delle spese di lite sostenute dal resistente, da liquidarsi nell'importo complessivo di € 3.400, oltre gli accessori di legge, restando compensato tra le parti il restante 50%;

Oggetto: Separazione giudiziale
CONCLUSIONI
Le parti hanno concluso come segue:

Dall’unione nasceva in data 24/3/2013 il figlio N

Con atto di ricorso depositato in data 9/5/2017 la Sig.ra R R adiva il Tribunale in epigrafe chiedendo remissione della pronuncia di separazione stante l’intollerabilità della convivenza coniugale.

Provvedeva a costituirsi il Sig. M R mediante comparsa di risposta con la quale aderiva alla domanda di separazione fonnulando autonome istanze in ordine alla regolamentazione dei rapporti conseguenti.

Espletati gli incombenti di rito, la causa viene decisa con sentenza sulla base delle conclusioni rassegnate dalle parti.

Separazione

Alla luce delle risultanze di causa, deve ritenersi sufficientemente dimostrata l’intollerabilità della convivenza tra i coniugi tale da rendere ineluttabile la separazione.

Addebito della separazione

La domanda di addebito svolta dalla ricorrente è fondata e meritevole pertanto di accoglimento alla luce degli elementi di prova acquisiti nel corso del procedimento penale a carico del resistente scaturito dalla denuncia per maltrattamenti sporta dalla ricorrente (procedimento che non si definiva con il patteggiamento per effetto del rifiuto opposto dal P.M. alla proposta formulata dal Sig. M

R

Nella sentenza di condanna di quest’ultimo (sub doc. 10 di parte rie.) vengono riportate le dichiarazioni rese da un connazionale della coppia, convivente con le parti all’epoca dei fatti, il quale interveniva per fermare M sporco di sangue e con un coltello in mano mentre la ricorrente sul corpo presentava ferite da taglio (come riscontrato dagli agenti intervenuti).

Il teste riferiva che si trattava dell’ennesimo litigio all’interno della coppia, come riferito anche dai vicini di casa, e nella sentenza si rimarca il fatto che nel corso di tali litigi il resistente picchiava sia la moglie che il figlio, talora lasciando quest’ultimo senza mangiare.

Tali deposizioni, corroborate anche dal referto medico acquisito in sede penale, confortano pienamente la versione della ricorrente in ordine all’atteggiamento maltrattante e violento del Sig. M con una frequenza pressoché quotidiana e per futili motivi.

Tale condotta, gravemente lesiva della dignità e dell’integrità dei familiari, è stata la causa unica ed efficiente della frattura della comunione spirituale e materiale tra le parti.

Affido del minore

Si confermano sul punto le determinazioni assunte dal (alle quali ha fatto riferimento anche la Corte d’appello investita del reclamo avverso l’ordinanza Presidenziale) non essendo intervenuti elementi di novità ed in considerazione del percorso tuttora in atto a favore della ricorrente e del minore con la prospettiva di fare rientrare entrambi nella casa coniugale e riprendere una vita ordinaria.

Il resistente peraltro, ristretto in seguito alle vicende di causa, è stato attinto da un provvedimento di espulsione e non potrebbe comunque di fatto esercitare le proprie prerogative genitoriali.

Assegnazione della casa coniugale

Si conferma l’assegnazione della casa coniugale alla ricorrente, con i relativi arredi, in ragione del previsto rientro della stessa con il figlio nell’abitazione.

Contributo del resistente al mantenimento della moglie e del figlio

Si confermano le determinazioni assunte in sede Presidenziale, condizionandole però necessariamente alla ripresa dell’attività lavorativa da parte del resistente, non essendo egli ora nelle condizioni per produrre reddito.

Spese di lite

Le spese di lite seguono la soccombenza e vanno pertanto poste interamente a carico del resistente ed a favore dell’Erario in ragione del patrocinio a carico dello Stato goduto dalla ricorrente.

P.Q.M.

Il Tribunale, dato atto dell'emissione della sentenza di separazione nel corso del giudizio, ogni diversa domanda, istanza, eccezione e difesa disattesa e respinta, così provvede:

1. dichiara la separazione personale tra i Sigg.ri R R e M R ,
   coniugatisi nello Stato del in data 6/1/2010;
2. addebita la separazione al resistente;
3. conferma l'affido all'ente (Comune di) e le ulteriori determinazioni assunte dal
4. assegna la casa coniugale, con i relativi arredi, alla ricorrente;
5. conferma la contribuzione del resistente per moglie e figlio stabilita in sede Presidenziale, condizionandola tuttavia alla ripresa dell'attività lavorativa da parte del resistente;
6. condanna il resistente a rifondere all'Erario le spese di lite nella misura che verrà liquidata separatamente. Manda alla cancelleria per quanto di competenza, provvedendo altresì alla comunicazione al Comune di 5 ottobre 2018

CON L'INTERVENTO OBBLIGATORIO DEL P.M.

OGGETTO: separazione giudiziale.

CONCLUSIONI DELLE PARTI: come da foglio allegato.

MOTIVI IN FATTO ED IN DIRITTO DELLA DECISIONE

La domanda diretta a conseguire la pronunzia della separazione personale dei coniugi S S fondata e meritevole di accoglimento.

La presentazione del presente ricorso e l'adesione prestata dal resistente all'avversa domanda di separazione dimostrano in modo evidente il venir meno dell'interesse dei coniugi alla prosecuzione della loro convivenza;

Nel contempo, deve prendersi atto che le parti hanno raggiunto nelle more processuali un accordo avente ad oggetto: la rinunzia alle reciproche domande di addebito della separazione all'altro coniuge, l'affidamento esclusivo del minore K alla madre, l'assegnazione alla ricorrente della casa coniugale, nonché la determinazione, a carico del resistente, di un assegno di mantenimento in favore del figlio di euro 300 mensili rivalutabili annualmente, oltre a! 50% delle spese straordinarie previamente concordate, cui si aggiunge la somma mensile di euro 20 a titolo di rientro degli importi maturati per tale titolo e non versati.

Deve, infatti, ritenersi che l'affido esclusivo del bambino alla madre sia rispondente all'interesse del minore (di anni tre) alla stregua delle circostanze esposte dai Servizi Sociali del Comune di nelle relazioni in atti, ove si dà atto non solo di una situazione di alta conflittualità nella coppia, ma anche delle difficili condizioni di salute del affetto da (patologia che aveva tenuta nascosta alla moglie) e attualmente inserito in un programma di recupero presso il a causa della sua

tossicodipendenza; al contrario, i Servizi Sociali hanno segnalato come la S abbia sempre collaborato e partecipato all'intervento dell'educatrice domiciliare (verso la quale il marito aveva sempre tenuto atteggiamenti di insofferenza e di ostacolo), nonché partecipato con regolarità ai colloqui di sostegno con la psicologa, traendone beneficio relativamente a determinati aspetti di insicurezza e fragilità nella sua genitorialità.

Per i predetti motivi si ritiene opportuno che gli incontri tra padre e figlio avvengano in spazio neutro con le modalità e tempistiche suggerite dai Servizi Sociali, cui è demandato il compito di monitorare il nucleo familiare approntando i dovuti interventi di sostegno psicologico per i genitori e di supporto educativo al minore; qualora l'evoluzione della relazione tra padre e figlio dovesse assumere un andamento positivo, spetterà ai Servizi Sociali la predisposizione di diverse modalità di visita per garantire al S maggiori spazi di autonomia nell'esercizio della sua genitorialità.

Stante l'intervenuto accordo, può disporsi la totale compensazione tra le parti delle reciproche spese di lite,

RAGIONI IN FATTO E IN DIRITTO

I Sigg.ri M F e FI D contraevano matrimonio concordatario in in data 2/6/1990 (matrimonio trascritto nei registri degli atti di matrimonio di detto Comune al n. parte II, serie A, anno 1990).

Dall'unione nascevano le figlie S T 1993 e G 2001).

A seguito di ricorso i coniugi comparivano avanti al Presidente del Tribunale di in data 28/4/2015 per la separazione consensuale che veniva ritualmente omologata.

Con atto di ricorso depositato in data 20/6/2017 la Sig.ra M F, premesso che non era intervenuta alcuna riconciliazione tra i coniugi e che la frattura della comunione spirituale e materiale doveva ritenersi ormai irreversibile, chiedeva, sussistendone i presupposti di legge, l'emissione della pronuncia divorzile.

Si costituiva il Sig. F D. mediante memoria di risposta con la quale aderiva alla domanda divorzile, formulando le proprie richieste in ordine alla regolamentazione dei rapporti conseguenti.

Esaurita la fase Presidenziale, la causa veniva rimessa avanti al G.I..

Espletati gli incombenti di rito la causa viene decisa con sentenza.

Divorzio

I fatti dedotti dalla ricorrente sono documentalmente provati (vd. copia dell'atto di matrimonio e del verbale di separazione consensuale omologato).

E' pacifico che i coniugi in seguito non si sono più riconciliati, per cui la frattura della loro comunione spirituale e materiale deve ritenersi ormai irreversibile.

Sussistono dunque i presupposti per l'emissione della pronuncia di divorzio ai sensi dell'art. 3, lett. b), 1. 898/1970.

Regolamentazione della responsabilità genitoriale e del contributo economico paterno per la figlia G F

Le parti hanno rassegnato sul punto conclusioni convergenti.

Nulla osta all'accoglimento di tali condizioni avuto riguardo alle esigenze di cura, mantenimento ed educazione della figlia.

Richiesta di revoca dell'assegnazione dell'immobile di

La domanda svolta sul punto dalla ricorrente è inammissibile in quanto priva di connessione qualificata con la domanda divorzile.

L'assegnazione dell'immobile di contenuta nell'accordo di separazione consensuale costituisce un patto aggiuntivo rispetto agli accordi relativi alle domande oggetto del procedimento di separazione (diversamente dall'assegnazione della casa coniugale).

Ne discende che, in assenza di accordo tra le parti, essa non può essere oggetto di trattazione in questa sede, ove si discute unicamente della domanda divorzile e delle domande assistite da connessione qualificata con quest'ultima (dovrà essere valutata in separato giudizio).

"La separazione consensuale è un negozio di diritto familiare avente un contenuto essenziale - il consenso reciproco a vivere separati, 1'affidamento dei figli, rassegno di mantenimento ove ne ricorrano i presupposti - ed un contenuto eventuale, che trova solo occasione nella separazione, costituito da accordi patrimoniali del tutto autonomi che i coniugi concludono in relazione all'instaurazione dì un regime di vita separata (nella specie vendita della casa familiare e attribuzione del ricavato a ciascun coniuge in proporzione al denaro investito nel bene stesso). Ne consegue che questi ultimi non sono suscettibili di modifica (o conferma) in sede di ricorso "ad hoc" ex art. 710 c.p.c. o anche in sede di divorzio, la quale può riguardare unicamente le clausole aventi causa nella separazione personale, ma non i patti autonomi, che restano a regolare i reciproci rapporti ai sensi dell'art. 1372 c.c" (Cass, sez. I, sent. 16909 del 19/8/2015).

Spese di lite

Le spese di lite vanno compensate per 2/3 tenuto conto del fatto che il giudizio è dipeso dalla necessità di ottenere la pronuncia divorzile e che le condizioni in punto di regolamentazione della responsabilità genitoriale e del contributo economico paterno per la figlia sono convergenti.

Le spese residue vanno poste a carico della ricorrente ed a favore dell'Erario in ragione della reiterazione della domanda relativa all'immobile di dichiarata inammissibile.

P.Q.M.

il Tribunale, definitivamente pronunciando, disattesa ogni diversa domanda, istanza, eccezione e difesa, così provvede:

1. dichiara la cessazione degli effetti civili del matrimonio contratto dai Sigg.ri M F e F D in in data 2/6/1990 (matrimonio trascritto nei registri degli atti di matrimonio di detto Comune al n. parte II, serie A, anno 1990);
2. affida in via esclusiva alla madre, Signora M F , la figlia minore G F , con collocamento presso la casa coniugale sita ad stabilendo che il padre veda la figlia ogni qual volta lo desideri, ovviamente secondo le disponibilità ed il volere della minore, ormai in grado di gestire

MOTIVI IN FATTO ED IN DIRITTO DELLA DECISIONE

La domanda di pronuncia dello scioglimento del matrimonio contratto dalle parti 1'11/09/2008 in A è fondata e meritevole di accoglimento.

Da quanto risulta, le parti vivono in stato di separazione fin dalla loro comparizione avanti il Presidente di questo Tribunale, avvenuta nel 2016 nel corso del giudizio di separazione (conclusosi con decreto di omologa del 15/02/2016) e tra loro non vi é più stata riunione.

Lo stato di separazione protrattosi per due anni, l'esistenza del presente ricorso ed il vano esperimento del tentativo di conciliazione dimostrano che l'unione materiale e spirituale tra i coniugi non può essere ricostituita.

Per quanto concerne l'affidamento del minore E deve prendersi atto che in corso di causa è stato disposto l'intervento dei Servizi Sociali affinché venissero disposte le più opportune misure a sostegno della genitorialità ed a tutela del minore, alla stregua dei comportamenti inadeguati del bambino oggetto di segnalazione da parte delle sue insegnanti e degli atteggiamenti prepotenti e diseducativi del padre, mentre il resistente dichiarava di opporsi all'intervento dei Servizi Sociali, instando per la conferma dell'affido condiviso pattuito in sede di separazione.

A tale proposito, tuttavia, deve precisarsi che l'ordinario regime di affido condiviso ben può essere oggetto di deroga sulla base di adeguate motivazioni circa l'incapacità dell'altro genitore di assicurare tutte le responsabilità derivanti dal proprio ruolo la quale, di conseguenza, potrebbe pregiudicare il futuro benessere della prole.

Tale conclusione, che si trova affermata dalla giurisprudenza di merito e di legittimità, spesso chiamata all'applicazione dell'art. 337-quater C.C. in combinato disposto con l'art. 337-ter C.C., individua nella centralità dell'interesse del minore, cui fa riferimento la norma appena citata, quella specie di bussola che serve ad orientare l'interprete nella scelta dell'uria o dell'altra forma di affidamento del minore, un interesse da intendersi riferito, come chiarito dalla Suprema Corte (v. ex multis Cass, 22/09/2016 n° 18559) "alle fondamentali ed imprescindibili esigenze di cura, educazione, istruzione e sana ed equilibrata crescita psico-fisica"; pertanto, la giurisprudenza ha provveduto a fissare alcuni criteri, al riguardo, che possono compendiarsi: nella idoneità o incapacità di uno dei genitori a prendersi cura del minore, che può anche essere resa manifesta da un conclamato disinteresse nei confronti del medesimo; nel rifiuto del minore a rapportarsi con uno dei genitori; nel mancato pagamento, da parte del coniuge obbligato, del contributo di mantenimento a favore del minore rivelando la circostanza un atteggiamento incompatibile con i doveri di cura, assistenza ed educazione del minore (Cass. 26587/2009); nel comportamento del genitore che non rispetti il regime delle visite violando così il primario diritto dei figli minori di mantenere rapporti continuativi con entrambi i genitori (Tribunale di Caltanissetta 30/12/2015; nel comportamento del genitore assente, disinteressato alla vita del figlio minore talvolta, addirittura, irreperibile (Tribunale di Napoli 594/2016).

[) vigilerà sull'attuazione, da parte dei genitori, del percorso di lavoro relativo al superamento della conflittualità.

Per quanto concerne la quantificazione dell'assegno mensile in favore del figlio, si stima equo rideterminare la misura in 6 300 mensili, cui si aggiungono la rivalutazione annua I.S.T.A.T, ed il 50% delle spese straordinarie come da protocollo della Corte di Appello di trattandosi di un importo congruo rispetto alle esigenze di E ed alla situazione reddituale delle parti così come esposte all'udienza del 23/10/2018, in cui il resistente ha dichiarato di guadagnare euro 1.000 per tredici mensilità.

Alla sostanziale soccombenza del resistente in ordine alle domande relative al contributo al mantenimento (peraltro non integralmente versato) ed al regime di affidamento delle prole consegue il suo obbligo di rifondere le spese di lite sostenute dalla ricorrente (con il versamento diretto in favore dello Stato) come da quantificazione operata in dispositivo sulla base dello scaglione delle cause di valore indeterminato di bassa complessità, con il riconoscimento del compenso relativo alle due prime fasi (in assenza di attività istruttoria e di redazione degli atti conclusivi) e con la riduzione del 50% prevista dal Testo Unico Spese di Giustizia, stante l'ammissione della C al beneficio del patrocinio a spese dello Stato,

Il Tribunale di E ...Ai ' osi deliberando in via definitiva: 1) dichiara lo scioglimento del matrimonio contratto dalle parti 1'11/09/2008 in Albania, trascritto in Italia il 20/10/2015

OGGETTO: cessazione degli effetti civili del matrimonio.

CONCLUSIONI DELLE PARTI: come da foglio allegato.

MOTIVI IN FATTO ED IN DIRITTO DELLA DECISIONE

La domanda di declaratoria di cessazione degli effetti civili del matrimonio contratto dalle parti il 24/06/2000 in è fondata e meritevole di accoglimento. Da quanto risulta, le parti vivono in stato di separazione fin dalla loro comparizione avanti il Presidente di questo Tribunale, avvenuta nel 2014 nel corso del giudizio di separazione conclusosi con la sentenza n. 1128 del 28/07/2015 e tra loro non vi é più stata riunione.

Lo stato di separazione protrattosi per vari anni, resistenza del presente ricorso e l'inutilità dell'esperimento del tentativo di conciliazione dimostrano che l'unione materiale e spirituale tra i coniugi non può essere ricostituita.

Possono accogliersi le domande congiunte delle parti in punto di affidamento e/o collocamento della prole, nonché di determinazione del contributo al suo mantenimento, in quanto congrue rispetto alle esigenze delle minori G ed E ed alle condizioni economiche dei contendenti.

In particolare, risulta opportuno confermare l'affidamento delle minori al Comune di . pur mantenendo il collocamento in atto di G presso il padre e di E presso la madre, alla luce del contenuto della relazione trasmessa dai Servizi Sociali in data 13/08/2018, da cui emergono evidenti difficoltà relazionali tra la madre e la figlia G anche in considerazione dell'instaurazione, da parte della prima, di un rapporto di convivenza con un nuovo compagno non del tutto gradito alla minore e, nel contempo, palesi lacune nell'esercizio del ruolo genitoriale in capo allo S bisognevole di un supporto pedagogico e di una presa in carico presso il che egli non ha ancora intrapreso con il dovuto impegno; deve, tra l'altro, rilevarsi che G sottopostasi ad aborto in primavera, è stata ritenuta bisognosa di un percorso di rielaborazione dell'accaduto e di sostegno alla sessualità.

In considerazione dell'intervenuto accordo tra le parti, si stima congruo compensare totalmente le rispettive spese di lite, in conformità, peraltro, alla loro istanza sul

punto.

FOGLIO DI PRECISAZIONE DELLE CONCLUSIONI

PER LA RESISTENTE M A

Voglia rill.mo TRIBUNALE adito, contrariis rejectis, così giudicare: "*dichiararsi la separazione dei coniugi, con l'addebito al ricorrente M G ; disporsi l'affido esclusivo alla madre dei figli minori T. ed E ; disporsi un congruo assegno mensile di mantenimento a favore della moglie e dei figli minorenni, da corrispondere alla resistente, nella misura complessiva non inferiore ad € 1.000,00, oltre al 50% delle spese mediche non rimborsabile dal SSN e scolastiche. Con la vittoria delle spese e compensi professionali di causa".*

MOTIVI IN FATTO ED IN DIRITTO DELLA DECISIONE

La domanda delie parti diretta a conseguire la declaratoria di separazione personale dei coniugi é fondata e meritevole di accoglimento.

La presentazione del presente ricorso e l'adesione prestata dalia resistente limitatamente alla richiesta di pronunzia della separazione coniugale dimostrano in modo evidente il venir meno dell'interesse dei coniugi alla prosecuzione della loro convivenza; nel contempo, può accogliersi la richiesta della resistente di addebitare la separazione in via esclusiva al marito, stante la sua condotta di violazione degli obblighi coniugali, tra i quali quello di contribuire al mantenimento della famiglia, avendo egli abbandonato la casa coniugale nel 2012 senza fornire la dovuta assistenza economica alla propria famiglia.

In effetti, a fronte delle censure sollevate dalla resistente, il ricorrente ha addotto a propria giustificazione l'arresto e la carcerazione da lui subiti, ma tale tesi difensiva non coglie nel segno, atteso che detti eventi sono avvenuti nel dicembre del 2013, ossia in data successiva all'abbandono del domicilio familiare, mentre l'affermazione di aver comunque versato soldi in contanti alla moglie per il mantenimento della prole non ha trovato conferma probatoria.

Possono confermarsi le determinazioni precedentemente adottate dal Presidente del Tribunale in punto di affidamento dei due minori T e E (nati nel 2007 e 2009) in via esclusiva alla madre, posto che il ricorrente risulta non incontrare i figli da circa quatto anni; peraltro, la relazione trasmessa dai Servizi Sociali il 22/06/2018 ha descritto l'approccio del M come "frettoloso e scarsamente collaborante", come si può desumere dal rifiuto da lui opposto a fissare ulteriori appuntamenti dopo il colloquio del maggio 2107.

In particolare, il M (il cui atteggiamento viene definito "provocatorio") non ha mai organizzato in modo spontaneo la ripresa della relazione con i figli, ne si è mai attivato per avvicinarsi a loro, proponendo incontri ovvero inviando lettere o cercandoli telefonicamente; pertanto, allo stato gli operatori valutano l'attivazione degli incontri, seppure in ambito protetto, come scarsamente tutelante per i ragazzi, quanto meno prima che il M si sottoponga ad un percorso psicodiagnostico che lo aiuti a scoprire le reali motivazioni del recupero della sua funzione genitoriale.

Riguardo alla regolamentazione dei rapporti economici, può, infine, confermarsi la determinazione dell'assegno di mantenimento in favore dei tre figli non autosufficienti (due minori e uno maggiorenne) nel l'ammontare complessivo mensile di € 300, in quanto adeguata alla capacità reddituale del convenuto quale emersa nel presente giudizio, cui si aggiunge l'obbligo di contribuire nella misura del 50% alle spese straordinarie mediche, scolastiche, sportive e ludiche della prole, previamente concordate fatta salva l'urgenza e documentalmente dimostrate.

Nulla può riconoscersi alla M a titolo di contributo al suo mantenimento, avendo ella riferito al G.I. di lavorare occasionalmente quale colf, di tal ché la stessa ha dimostrato di possedere capacità lavorativa.

In considerazione della pronunzia di addebito a suo carico, deve condannarsi il ricorrente a rifondere le spese di lite sostenute dalla resistente nella liquidazione effettuata in dispositivo; nel contempo, si ravvisano i presupposti per la revoca dell'ammissione del ricorrente al beneficio del patrocinio a spese dello Stato come da separato decreto

MOTIVI IN FATTO ED IN DIRITTO DELLA DECISIONE

Il Processo: i provvedimenti presidenziali provvisori e i provvedimenti del Giudice Istruttore

Con ricorso depositato in data 25 gennaio 2017, **SP** chiedeva a questo Tribunale, in via principale, di pronunciare, anche con sentenza non definitiva, la separazione personale dal marito **DD** avendo celebrato matrimonio concordatario in data 2006 (trascritto presso gli atti dello Stato civile del Comune di - anno 2006, dalla cui unione è nata una figlia, G (in data 2006). Domandava altresì l'addebito della separazione al marito, l'affido esclusivo della minore G alla madre, con collocamento presso la stessa, nonché l'adozione di ogni opportuno provvedimento in merito ai rapporti padre-figlia, attivando i Servizi Sociali competenti. Domandava, inoltre, un contributo al mantenimento della minore a carico del padre nella misura di € 700,00 mensili oltre al 50% delle spese mediche straordinarie, condannando il resistente al pagamento delle spese processuali. In via subordinata, domandava un contributo al mantenimento a carico del padre nella misura di € 500,00 mensili, oltre al 50% delle spese mediche, scolastiche ed extrascolastiche.

All'udienza presidenziale del giorno 21 marzo 2017, il Presidente f.f., vista l'irregolarità della notifica del ricorso introduttivo e del decreto di fissazione dell'udienza al resistente, assegnava a parte ricorrente nuovo termine per la notifica degli stessi e del verbale, fissando nuova udienza per la comparizione personale dei coniugi in data 13 luglio 2017.

All'udienza del 13 luglio 2017, il Presidente f.f., verificata la regolarità della notificazione a parte resistente ex art.143 c.p.c., dato atto che il marito, benché ritualmente citato, non compariva personalmente né si costituiva, sentita la ricorrente, autorizzava i coniugi a vivere separatamente con l'obbligo del mutuo rispetto e si riservava la decisione in ordine alle ulteriori domande.

A scioglimento della riserva assunta, in data 14 luglio 2017 pronunciava l'ordinanza che di seguito si riporta:

"LETTI ED ESAMINATI gli atti e i documenti di causa;

SENTITA la parte ricorrente e il suo difensore;

RILEVATO che il convenuto non si è costituito in giudizio né è comparso personalmente;

OSSERVATO come sia emersa dalle precise dichiarazioni rese dalla parte ricorrente supportate dai documenti prodotti (pur non essendo state versate in atti, per evidenti e giustificati motivi di riservatezza delle indagini in corso, le denunce sporte dalla signora S nei confronti del marito in relazione alle quali è pendente procedimento presso la Procura della Repubblica di Milano), che la stessa è stata vittima di episodi di aggressività e violenza nei suoi confronti ad opera del marito alla presenza anche della figlia minore, con particolare riferimento anche agli ultimi episodi avvenuti nel settembre 2016 che hanno convinto la signora a denunciare finalmente l'accaduto;

OSSERVATO, altresì, che a seguito di segnalate condotte maltrattanti che sarebbero avvenute nel pregresso da parte del padre del D' nei confronti della moglie e dei di lui figli, erano stati aperti dei procedimenti presso il Tribunale dei Minori di Milano anche in relazione al nucleo familiare D/S che avevano portato ad un primo decreto provvisorio del 2 luglio 2014 con cui era stato disposto in via provvisoria ed urgente l'affido della minore G (nata il 2006) al Comune di l'attivazione di tutti gli interventi utili e necessari;

OSSERVATO che, stante l'aggravarsi della conflittualità tra i coniugi S/D (anche a seguito delle denunce penali), tenuto altresì conto delle situazioni di disagio della minore come evidenziate dai Servizi Sociali e dell'esito positivo degli accertamenti espletati sul capello del D il Tribunale dei Minori di Milano con decreto definitivo del 14/19 dicembre 2016 confermava l'affido della minore al Comune di residenza, incaricava l'Ente affidatario di svolgere attento monitoraggio sul nucleo con l'attivazione di tutti gli interventi necessari, prescrivendo ai genitori di collaborare all'attuazione provvedimento e al padre di proseguire nel percorso presso il Sert;

OSSERVATO che la ricorrente ha dato atto in udienza che i Servizi sociali incaricati si sono effettivamente attivati ma che il padre non ha più visto la figlia né in alcun modo si è attivato per incontrarla, interrompendo ogni rapporto con lei e con la figlia minore, disinteressandosi completamente, non partecipando in alcun modo alle sue scelte di vita e omettendo ogni a forma di contribuzione e di mantenimento;

RITENUTO, pertanto, che - stante l'assoluta criticità e delicatezza della situazione rappresentata, con siffatte riferite condotte violente del padre, tenuto altresì anche conto degli aspetti di fragilità della madre già evidenziati dal TM. che ha necessità in questo momento di essere maggiormente supportata nel processo di autonomizzazione, tenuto conto anche delle accuse reciproche che si sono rivolti i coniugi l'uno nei confronti dell'altro anche di abuso di sostanze stupefacenti, considerato inoltre la pendenza del procedimento penale con necessario coinvolgimento della medesima - in questa fase appaia maggiormente rispondente all'interesse della figlia minore confermare l'affido della medesima al Comune di con collocamento presso la madre, figura comunque maggiormente protettiva con la quale la figlia è stata ormai abituata a stare in grado di curare il suoi bisogni, nella casa in affitto dove la medesima con l 'autorizzazione dei Servizi Sociali - secondo quanto riferito in udienza - si è trasferita da giugno 2017 in .

OSSERVATO che stante la gravità della situazione e tenuto conto del disinteresse del padre, appare opportuno in questo momento mantenere modalità di visite con il padre in Spazio neutro secondo tempi e modalità ritenute idonee dall'Ente e rispondenti al superiore interesse della figlia in una prospettiva di eventuale ripresa dei rapporti, solo ove il padre ne faccia richiesta e mostri serietà e responsabilità nel volere instaurare un rapporto stabile e costante;

OSSERVATO che, a tutela dell'interesse della minore e alla luce del grave quadro rappresentato, deve essere dato incarico all'Ente Affidatario di svolgere un approfondimento tecnico psicodiagnostico, con relazione da trasmettere entro il termine indicato in dispositivo che consenta di

accertare l'attuale situazione psicofisica della minore, la qualità della relazione della stessa con la madre e con il padre, le effettive capacità genitoriali di entrambi i genitori così da poter individuare il più idoneo regime di affidamento e collocamento della medesima (se opportuno mantenere l'affido all'Ente e/o valutare altri regimi come richiesto anche dalla madre) e comunque gli interventi necessari per garantirle un sano percorso di crescita;

RITENUTO, poi, di dover incaricare l'Ente Affidatario, per il tramite dei suoi Servizi Sociali, di avviare e/o proseguire tutti gli interventi di supporto socio-educativo e/o di supporto neuropsichiatrico per la minore per il tempo ritenuto necessario oltre che interventi di supporto alla genitorialità per la madre e per il padre come meglio indicate in dispositivo;

CONSIDERATO, infine, sotto il profilo economico che la ricorrente ha dichiarato di lavorare come collaboratrice domestica presso due famiglie in nero per circa 5 ore al giorno, guadagnando € 10,00 all'ora per un totale dichiarato di € 180/200 a settimana; vive attualmente la figlia, dopo essersi allontanata dalla casa vicina della propria madre ove è vissuta con Gin una casa in affitto con canone di locazione di € 500,00 mensile (di cui la metà pagata dalla madre); invero dalla relazione dei Servizi sociali del Comune di la stessa nel settembre 2016 risulta aver dichiarato di lavorare in un discobar con vari turni di lavoro; non risultano prodotte dichiarazioni dei redditi (che ha dichiarato di non aver mai presentato) né dichiarazioni sostitutive di atto notorio. La stessa ha altresì riferito che il marito le risultava inizialmente vivere a presso il padre e lavorare presso la società del medesimo padre, con guadagni che all'epoca della convivenza si aggiravano intorno ad € 1.000/1.200 al mese, senza peraltro poter essere precisa sull'importo né sull'attività attualmente svolta stante l'interruzione di qualsiasi rapporto (anche se attualmente forse lavora presso).

RITENUTO, pertanto, quanto al mantenimento indiretto della prole, in attesa degli approfondimenti necessari, sulla base degli elementi acquisiti e tenuto conto della situazione personale e abitativa attuale della madre e dei costi che la stessa deve sostenere integralmente anche per la bambina (comprensive anche dei supporti in suo favore), in mancanza di dati più precisi sulla effettiva situazione economica abitativa e lavorativa del padre di cui nulla di più preciso è dato sapere, pur considerato che lo stesso risulta dotato di piena ed integra capacità lavorativa e tenuto conto dei limitati oneri di mantenimento diretto a carico del medesimo che ha interrotto da tempo ogni rapporto con la figlia, di dover porre a carico del padre l'obbligo di contribuzione mediante il versamento mensile alla moglie di un assegno pari ad € 450,00 con carattere di onnicomprensività stante l'interruzione di qualsiasi rapporto tra le parti e la mancata condivisione di alcuna scelta relativa alla figlia, oltre al 50% delle sole spese mediche non coperte dal Servizio Sanitario Nazionale urgenti e/o prescritte dal medico curante del figlio o dallo specialista, in ordine alle quali il rimborso sarà dovuto anche in assenza di preventivo accordo fra i genitori.

PQM

richiamata l'autorizzazione a vivere separati con l'obbligo del mutuo rispetto (verbale udienza del 13 luglio 2017):

1. AFFIDA ex art. 333 c.c. la figlia minore G (nata il 2006) al Comune di (come già stabilito dal Tribunale dei Minorenni di Milano con decreto definitivo del 14/19 dicembre 2016), con limitazione della responsabilità genitoriale quanto alle decisioni di maggior interesse per la figlia relative all'istruzione, all'educazione e alla salute e alla residenza del minore;

2. DISPONE che le decisioni di maggior interesse per la figlia relative all'istruzione, all'educazione e alla salute e alla residenza del minore ex art. 337ter comma 3 c.c vengano assunte dall'Ente Affidatario, sentiti i genitori e che gli eventuali relativi oneri economici siano a carico di entrambi i genitori nella misura del 50% ciascuno;

3. DISPONE che l'Ente Affidatario mantenga la minore collocata presso la madre in via anche ai fini della residenza anagrafica;

4. DEMANDA all'Ente Affidatario di riavviare la ripresa dei rapporti tra la minore e il padre, solo ove quest'ultimo ne faccia richiesta e mostri serietà e responsabilità nel volere riprendere un rapporto stabile e costante con la figlia, regolamentando la frequentazione in Spazio Neutro e con modalità osservate, secondo tempi e modalità ritenuti più rispondenti all'interesse della minore, tenuto conto dell'andamento dei percorsi di supporto avviati e della situazione psicofisica della medesima;

5. INCARICA l'Ente Affidatario, per il tramite dei suoi Servizi Sociali e in collaborazione con i Servizi Specialistici della Asl ciascuno per la parte di rispettiva competenza, svolgere un approfondimento tecnico psicodiagnostico, con relazione da trasmettere entro il 15 dicembre 2017, che consenta di accertare l'attuale situazione psicofisica della minore, la qualità della relazione della stessa con i genitori e le effettive capacità genitoriali di entrambi i genitori così da poter individuare il più idoneo regime di affidamento e di collocamento della medesima e gli interventi necessari;

6. INCARICA l'Ente Affidatario, per il tramite dei suoi Servizi Sociali e in collaborazione con i Servizi Specialistici della Asl, ciascuno per la parte di rispettiva competenza, di proseguire nella presa in carico dell'intero nucleo familiare, avviando/proseguendo gli interventi necessari o anche solo opportuni di supporto socio-educativo e/o di supporto psicologico per la minore nonché gli interventi di supporto alla genitorialità per entrambi i genitori e nello specifico per il padre, ove reperibile, garantendo che il medesimo prosegua nel percorso presso il Sert;

7. INCARICA l'Ente Affidatario di svolgere un'attenta attività di monitoraggio sul nucleo familiare e sulla situazione della minore, trasmettendo a questo Tribunale dopo la prima relazione, relazioni con cadenza trimestrale oltre che trasmettendo la relazione già redatta per il Tribunale dei minorenni di Milano e segnalando in ogni caso immediatamente alla Procura della Repubblica presso il Tribunale dei Minori, Autorità Giudiziaria competente, eventuali situazioni di grave pregiudizio;

8. PONE a carico di DD l'obbligo di contribuire al mantenimento della figlia G mediante il versamento a S P entro il 5 di ogni mese dell'importo mensile onnicomprensivo di €450,00 (importo da rivalutarsi annualmente secondo indici Istat) oltre al 50% delle sole spese mediche non coperte dal Servizio Sanitario Nazionale urgenti e/o prescritte dal medico di base o dallo specialista".

Nominava se' stesso Giudice Istruttore e fissava l'udienza di comparizione e trattazione in data 18 gennaio 2018.

A tale udienza il Giudice Istruttore, dato atto che la notifica dell'ordinanza presidenziale non si era regolarmente perfezionata entro il termine assegnato, disponeva la rinnovazione della stessa assegnando nuovo termine a parte ricorrente e fissava nuova udienza di comparizione e trattazione in data 7 giugno 2018. Inoltre, a parziale modifica dell'ordinanza presidenziale pronunciata in data 14 luglio 2014, così provvedeva:

"stante il cambio di residenza della minore attualmente residente a via .

DISPONE che la minore venga affidata al Comune di competente lern.lori.alm.enle e che il Comune di (Ente affidatario precedente) si adoperi per il passaggio delle competenze e per una effettiva presa in carico da parte del nuovo Ente affidatario.

DISPONE che il Comune di faccia pervenire ultima relazione di aggiornamento con gli esiti acquisiti prima del passaggio di consegne e parimenti che il Comune di nuovo Ente affidatario faccia a sua volta pervenire una prima relazione di aggiornamento sulla situazione della minore e del nucleo familiare, prendendo in carico la situazione, avviando tutti gli interventi necessari e svolgendo tutti gli accertamenti delegati. Tali relazioni, ognuno nell'ambito della rispettiva competenza, dovranno pervenire entro e non oltre IL 30 MAGGIO 2018".

All'udienza del giorno 7 giugno 2018 il Giudice, rilevato che il convenuto non si costituiva nonostante ritualmente e tempestivamente evocato in giudizio, ne dichiarava la contumacia ai sensi dell'art. 171 c.p.c. Inoltre, sentita liberamente parte ricorrente, il Giudice disponeva che il Comune di in qualità di nuovo Ente affidatario, facesse pervenire con urgenza una relazione completa in merito alla minore e all'intero nucleo familiare entro e non oltre il 25 ottobre 2018, e rinviava la causa all'udienza del giorno 8 novembre 2018 per esame della stessa e ulteriore trattazione.

All'udienza stabilita, il procuratore di parte ricorrente chiedeva pronunciarsi sentenza parziale di separazione personale dei coniugi, domandando contestualmente i termini di cui all'art. 183 co.6 c.p.c. Il Giudice, dato atto, rimetteva la causa in decisione dinnanzi al Collegio limitatamente alla domanda di separazione personale dei coniugi, con riserva di riferire in camera di consiglio e riservando alla successiva ordinanza la rimessione della causa in istruttoria e la concessione dei termini richiesti.

In data 5 dicembre 2018 veniva pronunciata sentenza non definitiva di separazione e la causa veniva rimessa sul ruolo con separata ordinanza e rinviata per gli incombenti di cui all'art. 183, 6° comma c. p.c. al 30 maggio 2019. A tale udienza, dopo aver esaminato la relazione dei Servizi sociali del Comune di del 25 marzo 2019, il procuratore di parte ricorrente si riportava alle memorie istruttorie depositate insistendo per l'acquisizione dei documenti allegati e chiedeva pertanto, anche alla luce degli esiti degli accertamenti svolti dai Servizi sciali, fissarsi udienza di precisazione delle conclusioni.

Il Giudice, dato atto di quanto sopra, viste le richieste istruttorie avanzate, ammetteva e acquisiva i documenti offerti in produzione e allegati alla seconda memoria istruttoria in quanto rilevati ; in assenza di ulteriori istanze istruttorie, vista la richiesta della parte ricorrente, rinviava per la precisazione delle conclusioni all'udienza del 16 ottobre 2019, disponendo che i Servizi Sociali del Comune di facessero pervenire ulteriore relazione di aggiornamento entro e non oltre il 2
ottobre 2019 sulla situazione del nucleo e della minore, indicando se alla luce di quanto accertato, dovessero essere apportate delle modifiche al regime attualmente vigente (eventualmente con l'affido alla madre, come da sua domanda) ovvero se dovesse essere mantenuto nel superiore interesse della minore il regime di affido all'Ente con tutti i suggerimenti e le indicazioni opportune. All'udienza così fissata, stante la nomina di nuovo difensore a seguito di rinuncia al mandato dei precedenti difensori pur formalizzata nel giugno 2019, su richiesta del difensore medesimo, veniva disposto ulteriore rinvio per i medesimi incombenti all'udienza del 6 novembre 2019, ove parte ricorrente precisava le conclusioni sopra riportate, rinunciato espressamente alla domanda di addebito avanzata e al deposito di memorie conclusionali e il Giudice la causa in decisione dinnanzi al Collegio, con riserva di riferire in camera di consiglio.

Il materiale probatorio

Osserva il Tribunale che il materiale probatorio agli atti è idoneo e sufficiente a fondare una motivata decisione su tutte le domande svolte da parte ricorrente, ancora non pronunciate. Gli elementi emersi nel corso del presente procedimento, la documentazione depositata dalla parte, gli esiti dei compiuti accertamenti svoli dai Servizi sociali e specialistici dell'Ente affidatario consentono a questa Autorità Giudiziaria di poter assumere una motivata decisione su tutte le questioni oggetto del giudizio ed in particolare in punto di responsabilità genitoriale tutelante per il percorso di crescita della figlia minorenne G. Non si ritiene in alcun modo necessario l'ascolto della medesima, alla luce delle risultanze acquisite, tenuto altresì conto delle precise dichiarazioni della ricorrente, del comportamento assunto dal resistente in tutti questi anni di totale disinteresse e anche l'assenza nel procedimento, considerato altresì che la minore è stata sentita dagli operatori sociali, rendendo quindi l'ascolto della medesima in sede giudiziale manifestamente superfluo. Ciò in linea con l'insegnamento della Suprema Corte secondo cui l'audizione del minore costituisce adempimento previsto a pena di nullità ove si assumano provvedimenti che lo riguardino, salvo che il giudice non ritenga, con specifica e circostanziata motivazione, l'esame manifestamente superfluo o in contrasto con l'interesse del minore (Cass. Sez. I 24.5.2018 n. 12957; Cass. Sez. I 29.9.2015 n. 19327).

La domanda di separazione

Ciò posto e premesso in fatto, nulla deve essere disposto in ordine alla separazione, essendo stata già pronunciata in data 5 dicembre 2018 sentenza parziale di separazione dei coniugi SP e DD

La responsabilità genitoriale

Per quanto concerne la questione dell'affidamento della figlia minorenne G - premesso che
dapprima la legge n. 54 del 2006, poi il decreto legislativo n. 154 del 2013, hanno stabilito che il Giudice debba preferire la formula dell'affidamento condiviso, salvo che non vi siano ragioni che rendano necessario disporre l'affidamento esclusivo all'uno o all'altro genitore (o l'affido all'Ente) - deve rilevarsi come l'affidamento condiviso presupponga di regola un comune impegno progettuale dei genitori in ordine alle scelte relative alla vita della prole, nonché in ordine alla cura della prole medesima nell'ambito dei vari incombenti della vita quotidiana. Perché possa derogarsi alla regola dell'affidamento condiviso, è dunque necessario che risulti, nei confronti di uno dei genitori, una condizione di manifesta carenza o inidoneità educativa o comunque tale da rendere quel regime di affidamento in concreto pregiudizievole per il minore (come nel caso, ad esempio, di una sua anomala condizioni di vita, di insanabile contrasto con il figlio, di obiettiva lontananza; *ex multis* cfr.
Cass. civ. Sez. I 19.06.2008 n. 16593).

Orbene, nel caso di specie, il Presidente F.F. con l'ordinanza sopra riportata ampiamente motivatale cui argomentazioni nella presente sede

vengono condivise dal Collegio e richiamate, era stata disposto l'affido all'Ente della minore così come già disposto dal Tribunale dei Minori di Milano con decreto definitivo *del 14/19 dicembre 2016 (che confermava un decreto provvisorio)* stante la situazione particolarmente precaria del nucleo familiare con segnalate condotte gravemente maltrattante del marito nei confronti della moglie la presenza anche la figlia per cui pendeva procedimento penale, tenuto altresì conto delle reciproche accuse di abuso di sostanze stupefacenti e considerato l'evidenziata situazione di malessere della figlia G con interruzione completa dei rapporti con il padre.

Osserva il Collegio come sulla base di quanto ampiamente osservato ed evidenziato dagli operatori del Servizio Sociale incaricati a seguito delle ulteriori indagini delegate (cfr. relazione agli atti), permanendo una situazione ancora di precarietà del nucleo familiare, pur con i notevoli progressi che ha compiuto certamente la madre, supportata anche dalla di lei madre, per offrire alla figlia un ambiente familiare sereno e per cercare di rispondere a tutte le sue esigenze e i bisogni, anche al fine di garantire degli interventi maggiormente incisivi a tutela della minore e di supporto della madre, considerati anche i gravi fatti pregressi che hanno coinvolto i coniugi, le gravi accuse reciprocamente mosse, in attesa che auspicabilmente possa - con tutti gli interventi che verranno efficacemente svolti - riacquistare delle solide competenze genitoriali e recuperare una piena responsabilità genitoriale, proseguendo nel suo faticoso ma proficuo cammino di progressivo e graduale presa di distanza dal marito e dal suo passato di sofferenza, potendo il marito - attualmente agli arresti domiciliari - ancora costituire un elemento destabilizzante e riattivatore dei traumi subiti, non essendo peraltro ancora concluso in via definitiva il processo penale, debba essere confermato l'affido della minore al Comune di Milano. L'Ente dovrà pertanto assumere ogni decisione rilevante per la minore come meglio indicato in dispositivo, mantenendo un'efficace presa in carico del nucleo familiare e della situazione della minore, proseguendo in tutti gli interventi di supporto per la stessa e soprattutto avviando/proseguendo degli interventi terapeutici di supporto che possono aiutare la madre a incrementare pienamente le sue capacità genitoriali, senza che siano necessari i supporti dei familiari, a superare definitivamente le sue difficoltà nell'esprimere e liberarsi delle sue emozioni, a rielaborare e quindi ad affrontare tematiche attivanti con la figlia in modo sereno, garantendo uno stabile e sereno percorso di crescita psicofisica per G pur in assenza della figura paterna.

Stante l'interruzione da tempo di ogni rapporto tra il padre e la figlia, tenuto conto anche dello stato di detenzione dello stesso, deve essere mantenuto l'incarico ai Servizi sociali, solo ove il padre ne faccia richiesta e mostri serietà e responsabilità nel volere riprendere un rapporto stabile con la figlia e nel rispetto della condizione psicoemotiva della stessa, di riavviare una frequentazione necessariamente in Spazio neutro.

Si provvede come da dispositivo.

Il contributo al mantenimento dei figli

Con riferimento, poi, alle statuizioni economiche, vanno svolte le seguenti considerazioni.

A tale proposito, si osserva, in punto di diritto, che anche la Suprema Corte ha avuto costantemente modo di osservare che *"Il dovere di mantenere, istruire ed educare la prole, stabilito dall'art. 147 cod. civ., obbliga i coniugi a far fronte ad una molteplicità di esigenze dei figli, non riconducibili al solo obbligo alimentare, ma estese all'aspetto abitativo, scolastico, sportivo, sanitario, sociale, all'assistenza morale e materiale, alla opportuna predisposizione - fino a quando la loro età lo richieda - di una stabile organizzazione domestica, adeguata a rispondere a tutte le necessità di cura e di educazione. Tale principio trova conferma nel nuovo testo dell'art. 155 cod. civ., come sostituito dall'art. 1 legge 8 febbraio 2006, n. 54, il quale, nell'imporre a ciascuno dei coniugi l'obbligo di provvedere al mantenimento dei figli in misura proporzionale al proprio reddito, individua, quali elementi da tenere in conto nella determinazione dell'assegno, oltre alle esigenze del figlio, il tenore di vita dallo stesso goduto in costanza di convivenza e le risorse economiche dei genitori, nonché i tempi di permanenza presso ciascuno di essi e la valenza economica dei compiti domestici e di cura da loro assunti. (Sez. 1,* ***Sentenza*** *n. 17089 del 10/07/2013).*

Ciò premesso in diritto, in fatto non risultano essere emerse o provate specifiche sopravvenienze rispetto a quanto già valutato e motivato dell'ordinanza presidenziale. La signora S secondo quanto emerso dalla relazione dei servizi sociali risulta essere impiegata in un'impresa di pulizia con contratto di lavoro di 20 ore settimanali e vive sempre con la figlia in una casa in locazione. Il signor D risultava essere ristretto agli arresti domiciliari presso l'abitazione della sorella ma nulla è dato sapere in ordine all'attualità ancora di tale misura cautelare, alla durata e/o ad un'eventuale autorizzazione a svolgere attività lavorativa.

Alla luce dei dati sopra evidenziati e degli elementi a disposizione, dovendo al momento la madre provvedere agli integrali oneri di cura, di gestione e di assistenza materiale della figlia, essendo nulli gli oneri di mantenimento diretto a carico del padre che non vede da tempo la figlia e dovendo comunque lo stesso contribuire al mantenimento della prole essendogli ciò imposto dalle norme del nostro ordinamento (art. 30 Cost. e art. 315 bis c.c. e segg.) reputa il Collegio congro ed equo, confermare quanto già disposto.

Spese di lite

Nulla sulle spese di lite, che debbono considerarsi irripetibili, attesa la natura necessaria del giudizio quanto allo *status* e stante la contumacia della parte convenuta, che non ha inteso formulare difese.

TRIBUNALE ORDINARIO di MILANO

SEZIONE IX CIVILE

IL GIUDICE dott.ssa Maria Laura Amato,

Sul ricorso urgente depositato in data 8 marzo 2019 da NI A nei confronti di D] A e assegnato a questa A.G. in pari data ex artt. 342 bis, 342 ter c.c., 736 bis c.p.c., letti gli atti e di documenti di causa,
sentite le parti ed i loro difensori all'udienza del 21 marzo 2019;
a scioglimento della riserva assunta alla predetta udienza,
letti gli artt. 342 bis e ter c.c. e 736 bis c.p.c ha pronunciato il seguente:

DECRETO

IL RICORSO, IL PROVVEDIMENTO INAUDITA ALTERA PARTE, GLI ESITI DELL'UDIENZA.

Rilevato che la ricorrente NI A, con ricorso urgente, ha richiesto pronunciarsi, anche *inaudita altera parte,* un ordine di protezione, chiedendo che venisse disposto l'immediato allontanamento del marito DI < A. (sposato con matrimonio contratto all'estero, registrato presso l'Ambasciata italiana di I > dalla casa coniugale e/o comunque la immediata cessazione della condotta pregiudizievole tenuta dal medesimo nei suoi confronti alla presenza anche delle figlie minori nonché l'assegnazione di un contributo per il mantenimento per le stesse.

A fondamento dell'istanza la ricorrente ha dedotto ripetuti comportamenti violenti e vessatori del marito posti in essere nei suoi confronti a partire dalla metà del 2012, un anno dopo da quando la stessa raggiungeva il marito in Italia, anche alla presenza delle figlie, con una prima denuncia risalente all'anno 2012 presentata nei confronti del marito a seguito della quale la stessa è stata ospitata insieme ai figli presso "Il villaggio della madre e del fanciullo" per cinque mesi in mezzo; successivamente, a fronte delle insistenze del marito e le promesse e i buoni propositi, la signora decideva di dare una nuova occasione al padre dei suoi figli, abbandonando la comunità e ricominciando così una nuova vita insieme; secondo i racconti della ricorrente i comportamenti aggressivi e violenti del marito ricominciavano però a seguito del secondo matrimonio contratto dal signor D. in Senegal il 2 marzo 2018. In data 9 novembre 2018, la signora si decideva di recarsi nuovamente dinanzi alle Forze dell'Ordine presentando nuova denuncia davanti al Comando dei Carabinieri di Sedriano, descrivendo le difficili condizioni di vita nelle quali lei e le minori erano costretti a vivere (cfr. doc. 3, denuncia querela datata 9.11.2018), in particolare denunciando di aver subito un tentativo di violenza sessuale da parte del marito dopo essere stata afferrata per il collo con entrambi le mani, riuscendo alla fine a urlare chiamando aiuto e a divincolarsi, anche per l'arrivo delle figli più grandi in camera. Successivamente dopo che il marito era rientrato in senza peraltro comunicare nulla alla moglie e senza lasciarle denaro sufficiente, al rientro in data 23 febbraio 2019, la stessa subiva un ennesimo atto di violenza, per cui intervenivano in casa le Forze dell'Ordine e la signora veniva prontamente soccorsa e trasportata al Pronto Soccorso dell'Ospedale dove veniva dimessa con prognosi di 7 giorni.

Osservato che sulla base del ricorso e di documenti ad esso allegati, ritenuti sussistenti i presupposti, in data 8 marzo 2019 veniva emesso provvedimento *inaudita altera parte* con cui, ai sensi degli artt. 342 bis, 342 ter c.c. 736 bis c.p.c., veniva ordinata a DI A la cessazione della condotta pregiudizievole fino ad oratenuta nei confronti della moglie NI A , nata a in data 2 e dei figli A (nato in data), A' (nata in data); S (nata in data) e NI S(nata in data); l'immediato allontanamento dalla casa familiare sita in ovvero il suo rientro; veniva altresì prescritto al medesimo di non avvicinarsi alla casa familiare sita in e ai luoghi abitualmente frequentati dalla moglie (luogo di lavoro, abitazione familiare etc.) nonché alle rispettive scuole frequentate dai figli. Veniva, quindi, fissata udienza per il giorno 21 marzo 2019 per la conferma, modifica o revoca del provvedimento emesso, con assegnazione dei termini per la notifica e per la costituzione in giudizio.

Rilevato che a tale udienza si presentava il resistente con il difensore nominato che si costituiva in giudizio con memoria difensiva depositata dove, dando una diversa ricostruzione dei fatti offerti dalla moglie, chiedeva la revoca del provvedimento assunto. Le parti venivano ampiamente sentite, in via separata e sulla base di una proposta economica proveniente da parte resistente, le stesse raggiungevano un accordo sotto il profilo economico che sottoscrivevano nei seguenti termini:

"Il sig. DI A si impegna a versare con decorrenza da aprile 2019 entro il 10 di ogni mese alla signora NI E AM ' la somma complessiva e omnicomprensiva di € 700,00 (annualmente rivalutabile con indice Istat) a titolo di contributo per il mantenimento delle tre figlie minori. Il sig. DI 'percepirà e si tratterrà gli assegni familiari, la signora Nd percepirà e si tratterrà l'indennità erogata come madre di tre figli minori. Il sig. D " si attiverà per

far in modo che venga accreditata tale somma su conto corrente della signora. Il sig. Di "si impegna a pagare l'affitto della casa coniugale fino a marzo 2019 (compreso), da aprile 2019 lo pagherà la signora."
I difensori si riportavano ai rispettivi atti riservandosi di presentare quanto prima un ricorso per la separazione giudiziale. Il Giudice si riservava

IL PROVVEDIMENTO DI CONFERMA

(osservato come la ricorrente, nel corso della lunga verbalizzazione, abbia confermato integralmente la ricostruzione dei fatti già offerta in ricorso posta alla base del citato provvedimento, aggiungendo ulteriori circostanze e particolari, riferendo di una condotta del marito sistematicamente vessatoria fin dal primo periodo del 2012 in cui lo aveva raggiunto in Italia con le due figlie gemelle, nate in data 2003, con continue discussioni anche per le difficoltà abitative in cui si trovavano unitamente ad un'altra famiglia, che l'aveva dapprima costretta a presentare una prima denuncia del 14 febbraio 2012, a seguito della quale la signora verrà inserita unitamente alle due gemelle nella Comunità per circa cinque mesi e mezzo. Ripresa poi la convivenza con il marito (le due gemelle e l'ultima figlia nata nel 2013) la situazione tornava a essere insostenibile per la signora che veniva sistematicamente sottoposta a continue richieste di rapporti sessuali molto spesso rifiutate dalla signora che veniva quindi costretta o con minacce o con comportamenti violenti a sottostare alle richieste del marito. In una circostanza riferita nella denuncia del 9 novembre 2018 e confermata in udienza, la signora ha riferito di essere stata afferrata e stretta per il collo con entrambe le mani da parte del marito e di essere riuscita a liberarsi solo a seguito dell'intervento delle bambine che, richiamate dalle sue urla, riuscivano ad entrare in camera e a far desistere il padre. Nella successiva denuncia poi presentata dalla signora in data 26 febbraio 2019, la stessa si lamentava di un ulteriore episodio di violenza in cui il marito, nel corso di una discussione in quanto non le aveva lasciato i soldi per provvedere alle esigenze familiari, l'avrebbe sferrato uno schiaffo sulla guancia, costringendo poi la signora a rivolgersi al pronto soccorso di dove le veniva riconosciuta una prognosi di giorni 7 (cfr. documenti in atti). La signora ha poi riferito di continui insulti che il marito le avrebbe rivolto, anche pesanti, che gli hanno reso nel tempo la vita insostenibile tanto dal farle prendere la decisione definitiva di separarsi, soprattutto in conseguenza degli ultimi episodi di violenza riferiti che avevano creato, sia in lei che nelle bambine, uno stato di paura e di timore che potesse accadere dell'altro anche più grave. E' anche emerso uno stato di condizionamento economico, non lavorando al tempo della convivenza la signora e ricevendo dal marito spesso pochi soldi, come quando lo stesso era partito per il Senegal nel gennaio del 2019 per circa un mese, non lasciandole direttamente dei soldi ma limitandosi a dare la tessera bancomat a un suo amico che avrebbe poi dovuto provvedere a consegnare alla signora piccole somme a fine mese.

La versione offerta dal marito nel corso della stessa verbalizzazione si è limitata a delle generiche e alquanto indeterminate contestazioni, finendo anche per ammettere alla fine di aver stretto le mani intorno al collo della moglie nell'episodio dalla medesima citato seppur soltanto asseritamente per difendersi dalla stessa. Così pure con riferimento alle lesioni di cui al certificato medico, lo stesso ha ammesso che c'era stata una discussione con la moglie, la quale alla fine era entrata nella camera da letto chiudendo la porta e lo stesso nel tentativo di aprire la porta aveva spinto due volte la stessa, pur essendoci dietro le bambine che tenevano la porta, così evidentemente facendo sì che la moglie si facesse male. Anche con riferimento ai soldi nella ricostruzione offerta dallo stesso resistente, emerge effettivamente come la moglie, anche durante la sua assenza i avesse effettivamente poca disponibilità di denaro per far fronte a tutte le esigenze delle tre figlie.

Le dichiarazioni della ricorrente hanno poi trovato puntuale riscontro nelle tre denunce presentate dalla medesima data 14 febbraio 2012, 9 novembre 2018 e da ultimo 26 febbraio 2019 con allegato certificato medico dell'ospedale di M (e annotazioni di PG come da richiesta inoltrata da questo Tribunale).
La circostanza poi dell'inserimento della signora, unitamente alle due figlie, per cinque mesi in mezzo nella comunità costituisce un'ulteriore conferma della situazione di insostenibilità del clima familiare venutosi a creare nei primi tempi di vita in Italia e poi, dopo un periodo di sostanziale tranquillità negli ultimi mesi, con una escalation di fatti che hanno poi coinvolto anche le tre figlie della coppia.
Osservato pertanto che il quadro probatorio - già ampiamente delineato - posto a fondamento del decreto *inaudita altera parte* ha trovato piena e ulteriore conferma, con la sola precisazione che deve intendersi esclusa la figlia M; S nata : non convivente con la coppia, per cui deve essere revocato il decreto con riferimento a tale figlia.
Ritenuto, pertanto, che non sono affatto venute meno le ragioni di fatto e di diritto che avevano consentito l'adozione del provvedimento inaudita altera parte, con le motivazioni che si intendono qui integralmente riportate, con la necessità che vengano mantenuti e quindi confermati gli ordini e le prescrizioni ivi contenuti, vista la volontà della signora NA di interrompere definitivamente la relazione e la convivenza con il resistente, decisione che DI sembra faticare ad accettare, in attesa che comunque venga depositato il ricorso per separazione giudiziale e la situazione del nucleo sia oggetto di interventi giudiziari anche sotto il profilo della responsabilità genitoriale .
Osservato comunque che l'accordo raggiunto dalle parti in udienza in punto economico sia certamente da apprezzare e sia indicativo di un auspicabile impegno delle parti e specie del padre a assumere comportamenti maggiormente tutelanti per le figlie, in vista anche del necessario intervento dei servizi sociali che verranno infra delegati.
Ritenuto infatti che, in ragione di quanto sopra evidenziato, stante la situazione particolare delicata e precaria come evidenziata, , ritenuta l'opportunità, appare necessario nell'interesse delle figlie della coppia - come richiesto dalla difesa - far intervenire i Servizi Sociali competenti, peraltro già coinvolti, incaricandoli di prendere in carico urgentemente l'intero nucleo familiare e di predisporre tutti gli interventi necessari o anche solo opportuni di supporto socio-educativo anche domiciliari e/o di supporto psicologico per le minori nonché eventuali interventi di supporto alla genitorialità, demandando ai medesimi - qualora le condizioni psicofisiche delle minori lo rendano opportuno e nel rispetto della loro volontà, purché il padre dimostri serietà e impegno nel voler riprendere un rapporto stabile e sereno con le figlie, con l'avvio eventualmente dei necessari percorsi - di avviare una ripresa graduale delle visite tra il padre e le figlie minori, inizialmente necessariamente in Spazio Neutro e con modalità protette secondo tempi e modalità ritenute idonee e confacenti alle esigenze delle figlie medesime, in attesa poi tutti gli

interventi che verranno delegati dal Tribunale nell'ambito del promuovendo giudizio di separazione.
Rilevato, anche quanto alla quantificazione del contributo di mantenimento da porre a carico del resistente per le figlie minori, può essere recepito l'accordo tra le parti nella misura concordata che appare equa e congrua alle esigenze delle minori e in rapporto alla situazione economica e abitativa come emerso sulla base delle verbalizzazioni e dei documenti a disposizione di questo Giudice.
Ritenuto, infine, di confermare anche la durata del provvedimento come già indicata nel provvedimento provvisorio.
Ritenuto che stante l'accordo parziale raggiunto, le spese possono essere compensate per la metà con la condanna di parte resistente per il restante 50% che dovrà essere versato all'Erario ex art. 133 DPR 115/2002, stante l'ammissione al gratuito patrocinio della signora Ndiaye, nella misura finale come calcolata con la riduzione (art. 130 medesimo DPR).
visti gli artt. 342 bis e ter, 736 bis, terzo comma c.p.c.,

Il giudice dott.ssa Anna Cattaneo,
a scioglimento della riserva assunta alla udienza del 9.4.2018,
letti gli atti e di documenti di causa,
letta la comparsa di costituzione del resistente,
sentite le parti ed i loro difensori,
letti gli artt. 342 bis e ter c.c. e 736 bis c.p.c. pronuncia il seguente

DECRETO

Rilevato in fatto

- con ricorso urgente ex art. 342 bis c.c. depositato in data 14.3.2019 i coniugi M hanno chiesto l'emissione di un ordine di protezione nei confronti del figlio M per la cessazione della condotta pregiudizievole da questi posta in essere da anni nei loro confronti,
- con decreto del 15.3.2019 veniva integrato il contraddittorio e, anche con successivo decreto del 18.3.2019, veniva disposta l'acquisizione dall'ufficio GIP di Milano delle misure cautelari pronunciate nei confronti del resistente, dapprima la misura della custodia cautelare in carcere in data 31.12 2018, poi la misura del divieto di dimora del 7.1.2019,
- il resistente si è costituito chiedendo il rigetto del ricorso e contestando la ricostruzione dei fatti fornita dai genitori,
- alla scorsa udienza le parti sono state ampiamente sentite ed i difensori hanno insistito nelle domande svolte,

Considerato in diritto

- il ricorso deve essere accolto,
- entrambi i ricorrenti, pur nel dolore di dover rivolgere accuse nei confronti del proprio figlio e nell'espresso dispiacere delle conseguenze negative che dall'accoglimento del ricorso possono derivargli, hanno confermato la situazione non più tollerabile in cui vivono. Da anni il figlio, che occupa gratuitamente l'appartamento posto al piano superiore di quello dei genitori, nella villetta interamente di proprietà di costoro, pone in essere comportamenti aggressivi nei loro confronti. Si infuria per niente, spacca gli arredi di casa, prende a pungi le porte. Nel novembre del 2018 ha colpito con una stampella il padre, di anni 83, sulla testa, tanto da romperli l'apparecchio acustico; il 24.12.2018 ha picchiato la madre, di anni 78, strattonandola, percuotendola, prendendola per i capelli e con forza al braccio sinistro, provocandole un ematoma retro orbitario sinistro ed un trauma contusivo al braccio sinistro con prognosi di giorni 10 e minacciandola di morte (cfr. certificato del PS di). Dalla denuncia del 28.12.2018 resa ai Carabinieri di si evince che i due anziani genitori sono stati chiusi in casa dal giorno dell'aggressione del 24 dicembre perché impauriti dai comportamenti violenti del figlio. Ciononostante il 28

dicembre il resistente è riuscito ad entrare nel loro appartamento attraverso la porta della cantina che gli anziani avevano lasciato aperta per il cane. Quindi ha iniziato ad urlare e poiché il padre, per farlo desistere, gli ha detto che lo avevano denunciato, si è infuriato ancora di più li ha insultati definendoli "bestie", ha sputato loro addosso, ha percosso nuovamente la madre (che deambula faticosamente aiutata con una stampella) afferrandola per i capelli, strattonandola ed urlando loro che dovevano rimettere la querela perchè così gli sporcavano la fedina penale,

- dall'ordinanza di applicazione della custodia cautelare in carcere emerge che il Maresciallo della locale Stazione dei Carabinieri già in data 31.3.2014 aveva convocato MM ed aveva anche attivato i servizi sociali di senza risultato.

Emerge altresì che l'annotazione di sevizio dei CC del 29.11.2018, intervenuti sul posto, dava conto dello stato di disordine e di devastazione della casa dei ricorrenti,

- alla scora udienza il resistente ha imputato ai genitori la responsabilità dei propri comportamenti aggressivi e violenti: *"Solo in casa non sto bene, fuori sono a posto. Ho, quindi, capito che il motivo principale dell'aggressività è causato dai miei genitori, da quello che mi fanno subire in casa soprattutto da dopo il licenziamento: per 5 anni sono stato chiuso in casa, perché appena scendevo in giardino i miei genitori mi apostrofavano e insultavano".* Inoltre ha negato ogni problema psichico di depressione, rifiutando con ciò di sottoporsi ad esami e terapia: *"Dopo il licenziamento sono stato al CPS su consiglio del medico, sono andato un po' di volte. I medici mi hanno detto che non ho nessun problema e non mi hanno prescritto nulla*". Alla luce delle sue dichiarazioni odierne si ritiene che le scuse per gli agiti del dicembre 2018, pronunciate innanzi al GIP nell'interrogatorio di garanzia, siano state un espediente meramente difensivo, come non siano autentiche quelle rese ai genitori direttamente alcune settimane fa,
- si osserva inoltre che il resistente, dopo il licenziamento illegittimo del 2014 ha ricevuto un indennizzo sostitutivo della reintegrazione sul posto di lavoro e quindi non modesto, ma nei 5 anni decorsi da allora non risulta né aver tentato di rendersi autonomo abitativamente, malgrado la presenza dei genitori gli sia così insopportabile, e neppure di aver cercato un lavoro (malgrado avesse allora 35 anni). Inoltre deve ritenersi che quella provvista sussista ancora poiché per il periodo del divieto di dimora ha ritenuto di alloggiare a ed anche considerato che lo stesso ha espressamente dichiarato al GIP, nell'interrogatorio di garanzia (cfr. ordinanza di sostituzione della misura) di disporre di mezzi economici congrui per reperire una sistemazione alloggiativa autonoma. Anche nella memoria di costituzione – pag. 3- è detto che il resistente "ha una disponibilità economica che gli ha consentito e gli consente il sostentamento",
- si evidenzia infine che, vivendo ora a ed ivi aprendosi a breve la stagione estiva, il resistente, se lo volesse, riuscirebbe certamente a reperire una occupazione lavorativa quanto meno temporanea, visto che appare essere in possesso di integra capacità lavorativa e di ottima forma fisica,
- i fatti allegati e le violenze fisiche, provati dalle denunce ai Carabinieri, dagli atti del giudizio penale, dai certificati medici e dalle dichiarazioni rese alla udienza dalle parti scorsa convincono senza incertezza della sussistenza dei presupposti per l'emissione della misura richiesta,

- gli agiti di MM nei confronti degli anziani genitori che vivono chiusi in casa nella paura di essere aggrediti dal figlio -che peraltro è ancora in possesso delle chiavi del loro appartamento e che comunque può ad esso accedere dalle parti comuni e comunque può incontrare i genitori nel giardino comune-, integrano un grave pregiudizio alla incolumità psichica e fisica di costoro. Basti solo pensare che dopo l'aggressione del 23 dicembre, che ha provocato alla madre 10 giorni di prognosi, i due anziani sono stati chiusi in casa, per la paura di incontrare il figlio, malgrado si celebrasse il Natale ed essi abbiano un'altra figlia e nipoti,
- né il resistente ha compreso la gravità dei suoi agiti nel corso del presente giudizio, ed appare indisponibile a sottoporsi ad un percorso di valutazione psicologica e/o psichiatrica per la depressione (che forse è più una giustificazione fornita dai genitori ai comportamenti del figlio che un vero stato di malattia di costui),
- si ritiene pertanto che in assenza di un provvedimento di allontanamento del resistente dalla palazzina di proprietà dei genitori, persisterebbe il grave pericolo di compimento di ulteriori condotte aggressive e violente in danno degli anziani. La mancanza

di una seria volontà di costui di rendersi autonomo abitativamente, di trovare effettivamente un lavoro nei lunghi 5 anni dal licenziamento (non ha esercitato più alcuna attività lavorativa dai 35 ai 40 anni), la mancata assunzione delle proprie responsabilità, il colpevolizzare i genitori per la sua situazione, sono tutti indici della attuale e concreta pericolosità del resistente per ulteriori agiti violenti nei confronti dei ricorrenti,

- ritenuto che l'attuale vigore della misura cautelare penale non sia di ostacolo all'accoglimento del ricorso, visto che quella misura è comunque revocabile dalla autorità giudiziaria penale sulla base delle norme sostanziali e processuali penali,
- ritenuto che per la gravità delle condotte agite e considerato il pericolo di danni fisici ben maggiori che possono causare ai ricorrenti anziani e malati qualora reiterate, oltre che per il tempo necessario al resistente per comprendere quanto successo e per rendersi indipendente, il presente ordine di protezione debba essere concesso per il tempo massimo consentito dalla legge e quindi per un anno,
- ritenuto che le spese del presente giudizio debbano seguire la soccombenza e quindi debbano essere poste a carico del resistente liquidandosi come in dispositivo visti i criteri di cui al D.M. 55/2014 come successivamente modificato,

TRIBUNALE ORDINARIO DI MILANO

SEZIONE NONA CIVILE

Il Giudice, Dott.ssa Rosa Muscio,
a scioglimento della riserva assunta all'udienza del 10.6.2019;
pronuncia il seguente

DECRETO

rilevato che parte resistente, cui è stato notificato a mani proprie dalla Stazione Carabinieri di in data 27.5.2019 il provvedimento emesso ex art. 342bis c.c
inaudita altera parte e in data 30.5.2019 il ricorso ex art. 342bis c.c, è comparsa personalmente, dichiarando, benchè avvisato dal Giudice di potersi nominare un difensore, di non volere un avvocato, contestando di aver picchiato la moglie, che ora intrattiene una relazione con altra persona e ammettendo di avere dato due schiaffi in testa alla figlia A perché sorpresa in casa a fumare;
sentita la ricorrente che confermava le sue allegazioni e il suo difensore che insisteva nelle istanze svolte;
ritenuto che le allegazioni della ricorrente poste da questo Giudice a fondamento del provvedimento, adottato *inaudita altera parte*, non hanno trovato alcuna smentita; in primo luogo, lo stesso resistente ha ammesso di avere dato due schiaffi in testa alla figlia A ancora minore, condotta grave e indicativa della assoluta incapacità del signor D L di contenere i suoi agiti; ha poi affermato di non aver picchiato la moglie, ma nulla ha detto in ordine alle gravi minacce di morte proferite all'indirizzo della stessa alla presenza sia della figlia sia del signor B. Persona che la ricorrente frequenta e che ne ha dato conferma in sede di denuncia che è stata sporta e che è stata acquisita agli atti; sono, altresì, state trasmesse le annotazioni di PG relative agli interventi presso la casa familiare chiesti dalla signora A, di cui si dava atto nel ricorso e da cui si evince comunque l'aggravarsi dei comportamenti minacciosi e violenti tenuti dal signor DL, che non accetta la volontà della moglie di separarsi e tiene condotte gravemente pregiudizievoli per l'integrità psicofisica della moglie e della figlia (annotazione del 26.3.2019, del 23.4.2019, del 2.5.2019 e del 3.5.2019); né certo tali gravi comportamenti possono trovare giustificazione nella relazione che la signora A ha avviato, atteso che la stessa dà atto di aver comunicato al marito la sua intenzione di separarsi e aver già depositato anche il ricorso per separazione;
Ritenuto che l'incapacità del signor DL di comprendere le dinamiche della crisi familiare ormai irreversibile e di contenere i propri agiti aggressivi trova conferma nelle ripetute e gravi minacce alla vita della moglie poste in essere in soli due mesi e anche alla presenza della figlia in occasione dell'episodio del 23.4.2019 e del 2.5.2019, quest'ultimo descritto anche nell'annotazione di servizio agli atti in cui la ragazzina dà conferma agli operanti della versione della madre;
Ritenuto, pertanto, che non sono affatto venute meno le ragioni di fatto e di diritto che avevano consentito l'adozione del provvedimento *inaudita altera parte* da intendersi qui richiamate e che la situazione potrebbe ulteriormente degenerare, visto il deposito del ricorso per separazione giudiziale, effettuato dalla ricorrente e la concreta possibilità che il signor DL. ■ possa non ottemperare al provvedimento già emesso, non avendo
dato in udienza alcun segno di consapevolezza della gravità della situazione;
ritenuto che la complessiva situazione sopra descritta giustifica il termine di durata della misura di nove mesi (dalla notifica avvenuta il 27.5.2019) già indicato nel provvedimento che in questa sede si convalida;
Ritenuto, pertanto, che deve essere confermato il provvedimento emesso in data 27.5.2019 anche in relazione al luogo di lavoro della moglie e alla scuola frequentata dalla figlia minore, come in dispositivo meglio indicati;
ritenuto che quanto alla richiesta di contributo economico avanzata dalla ricorrente in via cautelare possa essere posto a carico del padre a titolo di mantenimento dei figli un contributo mensile di € 400, tenuto conto che il signor DL ha riferito di lavorare nei mercati

anche se non in regola, guadagnando circa € 1.300/1.500 mensili e di aver sempre contribuito ai bisogni della famiglia e che la signora A svolge attività lavorativa con un rapporto di lavoro a tempo indeterminato (per l'anno di imposta 2017 risulta un reddito complessivo di € 8.455 e il bonus irpef di € 878) e rimane a vivere nella casa coniugale che è in comproprietà, fatte salve diverse statuizioni da assumersi nel giudizio di separazione promosso dalla ricorrente;
ritenuto che, in assenza della costituzione del resistente e attese le pur parziali ammissioni dei fatti, nulla debba disporsi sulle spese del presente procedimento;

visti gli artt. 342 bis, 342 ter cc e 736bis cpc

TRIBUNALE ORDINARIO DI MILANO

SEZIONE NONA CIVILE

Il Giudice, Dott.ssa Rosa Muscio, letta l'istanza urgente ex art. 342ter comma 3 c.c, depositata dalla difesa della signora A Li in data 6.3.2020, con cui chiede la proroga del provvedimento ex art. 342bis c.c, emesso in data 27.5.2019 e confermato in data 10.6.2019 per la durata di mesi nove dalla notifica dello stesso (27.5.2019);

rilevato che tra le stesse parti, come del resto allegato e documentato dalla ricorrente, pende il giudizio di separazione avente n. 26632/2019 RG nell'ambito del quale è già stata celebrata l'udienza presidenziale, adottati i provvedimenti presidenziali provvisori, delegate attività di indagine ai Servizi Sociali e fissata nuova udienza in prosecuzione;

ritenuto che l'istanza è inammissibile nel presente procedimento, trovando applicazione la disciplina di cui all'art. 8 della legge 154/2001 secondo cui, dopo l'udienza presidenziale, i provvedimenti aventi il contenuto di cui all'art. 342bis c.c sono assunti nel procedimento di separazione, nell'ambito del quale, se ritenuto, le istanze dovranno essere avanzate e potranno essere valutate quanto alla ricorrenza dei presupposti della richiesta proroga, richiedendo la norma "gravi motivi", che devono essere rappresentati e di cui deve essere offerto quanto meno un principio di prova in relazione al perdurare delle condotte e ragioni che avevano determinato l'adozione dei provvedimenti ex art. 342bis c.c;

ritenuto che la pronuncia in rito rende superflua la preventiva instaurazione del contraddittorio, trattandosi di un'attività processuale del tutto ininfluente sull'esito del giudizio (Cassazione Civile, Sez. Unite, 16 luglio 2012, n. 12104; in questi termini già: Trib. Milano, sez. IX civ., decreto 24 febbraio 2014, Pres. est. Gloria Servetti): infatti, pur con la comparizione delle parti, non potrebbe per tale via neppure in ipotesi giungersi al superamento delle considerazioni in rito (Trib. Milano, sez. IX civ., ordinanza 2 - 3 aprile 2013; Trib. Milano, sez. I civ., decreto 3 ottobre 2013) e ciò impone di assegnare prevalenza al rispetto del principio della ragionevole durata del processo (che impone, in presenza di un'evidente ragione di caducazione della richiesta giudiziale, di definire con immediatezza il procedimento). In questo contesto, è applicabile il principio enunciato dalla Suprema Corte per il giudizio di Cassazione: in caso di ricorso per cassazione "prima facie" infondato, appare superfluo, pur potendone sussistere i presupposti, disporre la fissazione di un termine per l'integrazione del contraddittorio atteso che la concessione di esso si tradurrebbe, oltre che in un aggravio di spese, in un allungamento dei termini per la definizione del giudizio di senza comportare alcun beneficio per la garanzia dell'effettività dei diritti processuali delle parti (Cass. Civ., sez. III, sentenza 17 giugno 2013 n. 15106, Pres. Massera, est. Scrima). Non è neppure necessario stimolare il contraddittorio delle parti, trattandosi di questione processuale (Cass. Civ., sez. III, ordinanza 30 aprile 2011 n. 9591, Pres. Finocchiaro, est. Vivaldi)

RAGIONI IN FATTO E IN DIRITTO DELLA DECISIONE

Il Processo: i provvedimenti presidenziali provvisori e i provvedimenti del Giudice Istruttore

Con ricorso, depositato in data 7.2.2018, B E M chiedeva a questo Tribunale di pronunciare la separazione personale con addebito al marito AG, sposato a _ il 25.11.2000, di dichiarare la decadenza dalla responsabilità genitoriale dello stesso o quanto meno di adottare provvedimenti ex art. 333 c.c con divieto di frequentazione padre-figli e, in subordine, di disporre l'affidamento super esclusivo a sé dei figli , nata il nato il e nato il ;

e il collocamento presso di sé nella casa familiare, sita in , di sua esclusiva proprietà, di disporre una frequentazione padre figli in modo protetto e tutelato, di porre a carico del padre un assegno di mantenimento per i tre figli di € 750 mensili, oltre al pagamento del 50% delle spese straordinarie e di condannarlo al risarcimento del danno esofamiliare ed endofamiliare.

All'udienza presidenziale del 17.4.2018 il resistente si costituiva con memoria difensiva chiedendo la separazione, l'affido condiviso dei figli, il loro collocamento presso la madre, la ripresa del suo diritto di frequentazione con i figli nei modi ritenuti opportuni dal Tribunale e offriva di versare quale contributo al loro mantenimento la somma mensile di € 300, oltre al pagamento del 50% delle spese straordinarie indicate nelle Linee Guida del Tribunale di Milano dal momento della sua scarcerazione.

Il Presidente, esperito senza esito il tentativo di conciliazione e sentite le parti che meglio illustravano la situazione familiare e personale nell'attualità e i loro procuratori che insistevano nelle rispettive istanze, depositando il difensore della ricorrente il decreto provvisorio emesso in data 16.1.2018 dal Tribunale per i Minorenni di Milano, autorizzate le parti a vivere separate con provvedimento a verbale, con ordinanza riservata in data

2018. così disponeva:

Letti ed esaminati gli atti e i documenti di causa;

sentite personalmente le parti e i loro difensori; ritenuto che allo stato quanto ai profili della responsabilità genitoriale, a fronte delle di decadenza dalla responsabilità genitoriale del padre, azione peraltro anteriormente promossa dal Pubblico Ministero avanti al Tribunale dei minorenni competente e/o l'affido super esclusivo a sé dei figli minori. ; nata il 2001, nato il 2004 e , nato il 2000 e il signor A l'affido condiviso, deve essere confermato il decreto provvisorio del Tribunale dei Minorenni di Milano del 16.1.2018 per le ragioni esposte nel suddetto decreto che sono pienamente condivise da questo Giudice, in attesa degli approfondimenti dei figli che sono già stati delegati dal Tribunale dei Minorenni e avviati dai ritenuto che nessuna statuizione deve essere assunta quanto alla casa familiare, sita in la casa di proprietà esclusiva della stessa, sulla base delle verbalizzazioni della parte rese in udienza e considerato che il signor A *da tale immobile è stato allontanato con il sopra richiamato decreto provvisorio del Tribunale dei minorenni.*

Rilevato che, quanto alla misura del mantenimento per i figli che la ricorrente quantifica in € 750 mensili, oltre il 50% delle spese straordinarie e il resistente in € 300, oltre il 50% delle spese straordinarie solo a decorrere dalla sua scarcerazione, dalle stesse allegazioni delle parti complessivamente valutate, in attesa di migliori approfondimenti istruttori se necessari, risulta che il nucleo familiare ha fatto principale affidamento sul reddito stabile della signora B. Dipendente di (reddito complessivo € 24.970, ritenute irpef € 1.817, addizionali €504 per l'anno di imposta 2014; reddito complessivo €24.883, ritenute Irpef € 1.707, addizionali €502 per l'anno di imposta 2015; reddito complessivo € 24.898, ritenute irpef € 1.712, addizionali €502 per l'anno di imposta 2016), che lamenta, infatti, che il marito "non ha mai contribuito al manage familiare", di cui si è sempre fatta carico lei in via esclusiva, là dove il signor A afferma di avere partecipato sia pure con i modesti redditi che riusciva a racimolare attraverso lavori saltuari ed in nero, attesa anche la sua fedina penale;

ritenuto che, atteso il reddito della signora B che non sostiene oneri abitativi

essendo la casa di proprietà, tenuto conto dell'attuale stato di detenzione del signor A; la cui durata non è preventivabile, ma che di per sé solo non può esonerarlo dall'obbligo di provvedere al mantenimento dei suoi figli, anche in ragione dei gravi fatti che sono a base della carcerazione posti in essere anche ai danni dei minori stessi e considerato che allo stato non è possibile neppure alcuna forma di mantenimento diretto paterno, appare equo e proporzionato porre a carico del signor A l'obbligo di contribuire, con decorrenza dalla mensilità di aprile 2018, con un assegno mensile di € 250, importo soggetto a rivalutazione annuale Istat, prima rivalutazione aprile 2019, oltre al pagamento del 50% delle spese mediche non coperte dal Servizio Sanitario Nazionale prescritte dal medico curante dei minori o da specialista, salva l'urgenza e delle spese scolastiche (tasse di iscrizione in istituto pubblico, libri di testo, corredo scolastico di inizio anno e gite scolastiche), spese tutte documentate;

evidenziata sin d'ora l'inammissibilità nel presente giudizio delle domande risarcitorie avanzate dalla ricorrente (cfr. ex plurimis, Cass. Sez. 18.9.2014 n. 18870, Cass. Sez. VI-I 24 dicembre 2014 n. 27386, Cass. Sez. I 29.1.2010 n. 2155, Cass. Sez. I 21.5.2009 n. 11828, Cass. Sez. 122.10.2004 n. 20638);

PQM

Richiamata l'autorizzazione per i coniugi a vivere separati con l'obbligo del mutuo rispetto (verbale di udienza del 17.4.2018)

1. conferma integralmente il decreto del Tribunale dei Minorenni di Milano del 16.1.2018;

2. dispone che l'Ente Affidatario attraverso i suoi Servizi Sociali e i Servizi Specialistici della ATS, ciascuno per la parte di competenza, trasmettano entro il 30.10.2018 a questa Autorità Giudiziaria una relazione, il più possibile completa ed esaustiva, in relazione a tutti gli incarichi dati e gli accertamenti già delegati dal Tribunale dei Minorenni di Milano, segnalando in ogni caso tempestivamente eventuali situazioni di pregiudizio per i minori;

3. prescrive ai genitori di attenersi, nell'esclusivo interesse dei figli, alle statuizioni del presente provvedimento e di prestare la massima collaborazione agli operatori dei Servizi Sociali dell'Ente Affidatario e agli operatori dei Servizi Specialistici della ATS e di attenersi alle prescrizioni ed indicazioni degli stessi;

4. avvisa entrambi i genitori che in caso di mancata effettiva collaborazione con gli operatori dei Servizi Sociali dell'Ente Affidatario e gli operatori dei Servizi Specialistici della ATS potranno essere assunti ulteriori provvedimenti limitativi della responsabilità genitoriale per entrambi e/o per uno di essi;

5. dà atto che nella casa coniugale, sita in di proprietà esclusiva di BEM , vivono la stessa con i figli minori;

6. pone a carico di AG, con decorrenza dalla mensilità di aprile 2018, l'obbligo di provvedere al mantenimento dei figli mediante versamento alla madre, in via anticipata entro il giorno 5 di ogni mese, della somma mensile di € 250, importo soggetto a rivalutazione annuale Istat, prima rivalutazione aprile 2019, oltre al pagamento del 50% delle spese mediche non coperte dal Servizio Sanitario Nazionale prescritte dal medico curante dei minori o da specialista, salva l'urgenza e delle spese scolastiche (tasse di iscrizione in istituto pubblico, libri di testo, corredo scolastico di inizio anno, gite scolastiche), spese tutte documentate;

7. dichiara sin d'ora l'inammissibilità nel presente giudizio delle domande risarcitorie

avanzate da BEM".

Nominava Giudice Istruttore sé stesso e fissava l'udienza di prima comparizione e trattazione per il giorno 8.11.2018.

Reiterate da parte attrice le parti le proprie domande con la memoria integrativa, all'udienza del 8.11.2018 il difensore del convenuto dava atto di avere rinunciato in data 5.11.2018 al mandato e di averne dato comunicazione alla parte e chiedeva un breve rinvio per consentire allo stesso di nominarsi un nuovo difensore. Il Giudice Istruttore, preso atto delle richieste del difensore dell'attrice, con provvedimento a verbale così disponeva:

"Dato atto di quanto sopra atteso che dalla documentazione versata in atti dall'avvocato la parte ha avuto conoscenza della rinuncia al mandato in data 7.11.2018 e data la complessità della vicenda processuale deve essere concesso un breve termine all'A. Per munirsi di nuovo difensore senza al contempo pregiudicare la prosecuzione del presente giudizio

assegna, quindi, termine a parte convenuta AG sino al 26.11.2018 per nominare, se ritenuto, un nuovo difensore, onerando l'avv. di comunicare allo stesso A. Il presente verbale

attesa la richiesta di parte attrice assegna i termini di cui all'art. 183 comma 6 n. 1, 2 e 3 c.p.c con decorrenza dal 27.11.2018, atteso il termine concesso a parte convenuta per munirsi di nuovo difensore e quindi termine sino al 27.12.2018, 28.1.2019 e 18.2.2019per il deposito delle memorie di cui all'art. 183 comma 6 n. 1, 2 e 3 c.p.c autorizza sin d'ora il difensore di parte attrice a depositare in cartaceo i documenti del procedimento penale a carico del signor A con la memoria ex art. 183 comma 6 n. 2 c.p.c, data la consistenza della documentazione stessa letta la relazione di aggiornamento dei Servizi Sociali del Comune di P dispone che

gli stessi Servizi proseguano negli incarichi dati con il provvedimento del 20.4.2018, sospendendo allo stato, attesa la situazione di ansia e disagio post traumatico dei ragazzi più grandi, l'avvio della ripresa della relazione con il padre e riservando al prosieguo ogni migliore determinazione sul punto, dispone che i Servizi Sociali trasmettano una relazione di aggiornamento entro il 8.4.2019 fissa udienza per la decisione sui mezzi istruttori per il giorno 18.4.2019".

In data 19.11.2018 perveniva decreto definitivo del Tribunale per i Minorenni di Milano che dichiarava la decadenza dall'esercizio della responsabilità genitoriale del padre e l'interruzione dei rapporti con i figli, salve diverse disposizioni del Tribunale Ordinario investito del presente giudizio di separazione.

Depositata da parte attrice la memoria ex art. 183 comma 1 c.p.c, all'udienza del 18.4.2019 il difensore dell'attrice depositava copia del dispositivo della sentenza del Tribunale di Milano Sezione IX Penale di condanna del signor A a sette anni di reclusione,

chiedeva di essere autorizzato a depositare le motivazioni della sentenza, non appena disponibili e la consulenza tecnica psichiatrica espletata nel procedimento penale e di fissare udienza di precisazione delle conclusioni. Il Giudice Istruttore sollecitava l'Ente Affidatario a trasmettere la relazione di aggiornamento richiesta e non pervenuta, autorizzava il deposito della documentazione come chiesto dal difensore dell'attrice e fissava udienza di precisazione delle conclusioni per il 17.7.2019.

Pervenuta la relazione dell'Ente Affidatario, depositata la sentenza penale e precisate da parte attrice le conclusioni come in epigrafe riportate, la causa veniva rimessa al Collegio per la decisione, senza assegnazione dei termini di cui all'art. 190 c.p.c, attesa la rinuncia della parte.

Il materiale probatorio

Il materiale probatorio acquisito è più che idoneo a fondare una motivata pronuncia su tutte le domande svolte da parte attrice, tenuto conto che il convenuto, dopo la rinuncia al mandato del suo difensore, non ha ritenuto di nominare un nuovo legale e ha assunto una condotta processuale complessiva da cui può ben desumersi che abbia di fatto abbandonato il giudizio e, quindi, le domande in origine svolte (Cass. Sez. Unite 24.1.2018 n. 1785).

Gli elementi ricavati dai provvedimenti assunti dall'Autorità Giudiziaria Minorile, dalle relazioni di aggiornamento trasmesse dai Sevizi Sociali del Comune di P che hanno seguito la madre e i minori e dalla documentazione depositata da parte attrice consentono a questa Autorità Giudiziaria di poter assumere una motivata decisione su tutte le questioni oggetto del giudizio sia in ordine alla pronuncia di addebito della separazione sia in punto di responsabilità genitoriale che di mantenimento dei figli.

La domanda di separazione

La domanda principale di separazione è fondata e deve, pertanto, trovare accoglimento.

E' incontestato, infatti, che la comunione di vita materiale e morale tra i coniugi era venuta meno da tempo, attese le allegazioni delle parti e considerata la grave e difficile situazione personale della coppia, come emersa in modo inequivocabile sin dagli atti introduttivi del presente giudizio (confr. decreto provvisorio del Tribunale per i Minorenni di Milano del 2018. e sentenza penale di condanna del 29.3/17.6.2019). Non appare, quindi, possibile una loro riconciliazione. Ricorrono, pertanto, i presupposti di cui all'art. 151 comma 1 c.c. per pronunciare la richiesta separazione personale tra le parti.

La domanda di addebito avanzata da B E M

La domanda di addebito della separazione proposta dall'attrice deve trovare accoglimento, dovendosi ritenere provata la violazione del dovere di rispetto della integrità e della dignità della persona della moglie da parte del signor A.

La storia della coppia è stata caratterizzata sin dal principio da condotte di gravissime violenze fisiche e psicologiche da parte del marito ai danni della moglie, che, nella dinamica propria della vittima di violenza, ha per un lungo periodo di tempo continuato a sminuire le stesse, a sopportarle per timore di ritorsioni peggiori anche nei riguardi dei figli, spesso presenti a tali condotte. E sul punto è emblematico quanto ha detto la figlia M,ora maggiorenne, ai Carabinieri riferendo che la mamma minimizzava, perché terrorizzata dalle minacce del padre che era una persona pericolosa (confr. pag. 12 della sentenza penale).

Prova inconfutabile delle gravi violenze fisiche e vessazioni psicologiche, cui l'attrice è stata sottoposta, si ricava, infatti, dalla sentenza n. 4310/2019 emessa dal Tribunale di Milano Sezione IX penale in data 29.3/17.6.2019, che ha condannato AG, all'esito di un articolato dibattimento in cui è stata anche esperita perizia psichiatrica sullo stesso che ha escluso sia il vizio di mente sia l'incapacità a partecipare al processo, alla pena di 7 anni di reclusione per i reati di maltrattamenti in famiglia, di lesioni aggravate ai danni della moglie e di tentativo di incendio dell'abitazione familiare mentre erano presenti la moglie e i tre figli (doc. depositato in data 25.6.2019).

La sola lettura dei fatti contestati nei capi di imputazione dà conto della gravità delle condotte poste in essere che valgono ad integrare a tutti gli effetti la violazione del dovere coniugale primario del rispetto della persona del coniuge.

. la dettagliata ricostruzione degli eventi offerta nella citata sentenza penale di condanna (calci, pugni schiaffi, minacce di morte ecc), alla cui lettura non può che rimandarsi, dà conto in modo emblematico delle condotte di aggressione fisica e morale alla dignità e alla libertà della moglie, molto spesso anche alla presenza dei figli minori.

Le ampie argomentazioni esposte dal giudice penale a fondamento della responsabilità penale riconosciuta dalla richiamata sentenza, ancorchè solo di primo grado, sulla base di un solido corredo probatorio ricostruito in modo puntuale (deposizione della persona offesa e degli operanti intervenuti, verbali di sommarie informazioni di persone informate sui fatti acquisiti, referti medici, annotazioni di servizio dei Carabinieri, rapporto di intervento dei Vigili del Fuoco) sono condivise da questo Collegio e non possono che valere anche in questa sede ad affermare l'addebitabilità della separazione al marito.

La gravità delle condotte in sé e soprattutto gli agiti da ultimo posti in essere che hanno indotto la signora B a sporgere denuncia e a promuovere il presente giudizio di separazione hanno poi una valenza causalmente rilevante in sé della crisi coniugale.

Nel caso di violenza fisica la Suprema Corte ha, infatti, chiarito che

"Le reiterate violenze fisiche e morali, inflitte da un coniuge all'altro, costituiscono violazioni talmente gravi dei doveri nascenti dal matrimonio da fondare, di per sé sole, non solo la pronuncia di separazione personale, in quanto cause determinanti la intollerabilità della convivenza, ma anche la dichiarazione della sua addebitabilità all'autore di esse, e da esonerare il giudice del merito, che abbia accertato siffatti comportamenti, dal dovere di comparare con essi, ai fini dell'adozione delle relative pronunce, il comportamento del coniuge che sia vittima delle violenze, trattandosi di atti che, in ragione della loro estrema gravità, sono comparabili solo con comportamenti omogenei" (Cass. Sez. VI-I 19.2.2018 n. 3925; Cass. Sez. VI-I 22.3.2017 n. 7388) e che *"In tema di addebitabilità della separazione personale, ove i fatti accertati a carico di un coniuge costituiscano violazione di norme di condotta imperative ed inderogabili - traducendosi nell'aggressione a beni e diritti fondamentali della persona, quali l'incolumità e l'integrità fisica, morale e sociale dell'altro coniuge, ed oltrepassando quella soglia minima di solidarietà e di rispetto comunque necessaria e doverosa per la*

personalità del partner - essi sono insuscettibili di essere giustificati come ritorsione e reazione al comportamento di quest'ultimo e si sottraggono anche alla comparazione con tale comportamento, la quale non può costituire un mezzo per escludere l'addebitabilità nei confronti del coniuge che quei fatti ha posto in essere" (Cass. Sez. I 14.4.2011 n. 8548).

Nel presente giudizio, peraltro, il convenuto nessuna puntuale e specifica contestazione ha mosso alla ricostruzione dei fatti per come offerta e provata da parte attrice, avendo sostanzialmente abbandonato il giudizio, dopo la costituzione per l'udienza presidenziale.
Il quadro come ricostruito di violazione dei più elementari doveri nascenti dal matrimonio da parte del signor A causalmente rilevante la crisi coniugale costituisce piena prova e vale a fondare la pronuncia dell'addebito della separazione a suo carico.

La responsabilità genitoriale

Premesso che le statuizioni in punto di responsabilità genitoriale devono riguardare solo e ed , atteso che , nata il 2001, è divenuta maggiorenne in corso di causa,
considerata l'intervenuta pronuncia di decadenza dall'esercizio della responsabilità genitoriale del signor A da parte del Tribunale per i Minorenni di Milano con il decreto definitivo del 18.10.2018 e considerate le indicazioni ricavabili dalle relazioni di aggiornamento del comune di , Ente Affidatario dei minori, che hanno preso in carico il nucleo familiare in conseguenza del grave episodio che ha portato la signora B a sporgere denuncia,
all'esito del giudizio può disporsi l'affido esclusivo dei figli ancora minori alla madre, attribuendo alla stessa la responsabilità genitoriale anche quanto alle scelte rilevanti per la vita dei figli relative alla salute, all'istruzione, all'educazione e alla scelta della residenza, come chiesto dall'attrice nelle sue conclusioni.

Il complesso quadro familiare che aveva portato il Tribunale per i Minorenni di Milano con il decreto provvisorio del 16.1.2018 a limitare la responsabilità genitoriale di entrambi i genitori, statuizione che era stata confermata in questo giudizio con l'ordinanza presidenziale del 20.4.2018 deve ritenersi ad oggi superato, avendo la madre dato prova di una adeguata capacità genitoriale volta a farsi carico della sua sofferenza e della sofferenza dei figli e a superare la condizione di soggezione anche psicologica dal marito.
La signora B ha saputo appoggiarsi a tutti i presidi istituzionali che l'hanno presa in carico e sta seguendo con attenzione tutte le indicazioni degli operatori sia per sé che per i figli.
Scrivono i Servizi Sociali del Comune di che *"la stessa si è mostrata una madre capace, benché fortemente provata, in grado di chiedere aiuto per sé e per i figli e di permettere loro di proseguire le loro vite e i loro percorsi di crescita, nonostante i gravi fatti accaduti e gli eventi traumatici vissuti. Senza l'attenzione, la sensibilità e le cure materne i ragazzi non avrebbero potuto sviluppare quelle capacità riflessive, quella educazione e quella buona disposizione d'animo che li ha caratterizzati durante tutto il percorso svolto"*
(confr. relazione del 19.10.2018).
E concludono, quindi, per il riconoscimento in capo alla madre di adeguate competenze genitoriali che valgono a giustificare la revoca dell'affidamento all'Ente in precedenza disposto (confr. relazione del 23.5.2019).
I figli, fortemente provati dalle vicende familiari passate e soprattutto dal grave episodio in cui hanno rischiato in prima persona la vita e che ha portato all'arresto del padre, stanno continuando a seguire i percorsi terapeutici in cui ancora emerge la loro sofferenza e la grande paura del padre che hanno verbalizzato di non voler incontrare (confr. entrambe le relazioni sopra indicate). Nel resto sono ragazzini adeguati, competenti e ben inseriti nel contesto scolastico dove hanno buoni risultati.
Non si pone una questione di valutazione in questa sede delle competenze genitoriali paterne, attesa la dichiarazione di decadenza dall'esercizio della responsabilità genitoriale che la competente Autorità Giudiziaria minorile ha già pronunciato sulla base di ragioni che paiono ben più che condivisibili.
Va poi certamente mantenuto il collocamento dei minori presso la madre che dei ragazzi si è sempre occupata di fatto da sola e rappresenta per gli stessi l'unico genitore di riferimento.
Quanto alla relazione con il padre condivide il Collegio quanto già disposto dal Tribunale per i Minorenni di Milano con il richiamato decreto definitivo, atteso che allo stato non può che prendersi atto del profondo disagio che ancora i minori manifestano rispetto alla relazione con il padre in ragione dei gravi agiti dallo stesso posti in essere anche ai loro danni e dei segni di disturbo post traumatico che gli stessi ancora evidenziano (incubi, stato d'allerta iper attivato, senso di minaccia) e considerarsi che il percorso di superamento da parte dei minori di questi vissuti traumatici sarebbe gravemente compromesso dallo stesso pensiero di una possibile ripresa della relazione con il padre.
Devono, infine, proseguire gli interventi di supporto psicoterapeutico a favore della signora B presso la SVS ove è seguita anche , ora maggiorenne e per i due figli minori presso il Centro Medico per il tempo ritenuto necessario dai terapeuti stessi. I Servizi Sociali del Comune di svolgeranno in ogni caso un'attenta attività di monitoraggio sull'evolversi della

situazione della madre e delle condizioni psicofisiche dei minori, avviando eventuali ulteriori interventi di supporto a favore del nucleo familiare ritenuti necessari e segnalando immediatamente alla Procura della Repubblica presso il Tribunale dei Minorenni, Autorità Giudiziaria competente, situazioni di pregiudizio per i minori.

Il contributo al mantenimento dei figli

All'esito del giudizio, a fronte della domanda di parte attrice che ha reiterato la richiesta di un assegno mensile di € 750, oltre al pagamento del 50% delle spese extra assegno, devono confermarsi le statuizioni provvisorie assunte, non essendo neppure allegate circostanze sopravvenute rispetto alle ragioni in fatto e in diritto poste a fondamento della decisione presidenziale e sopra integralmente riportate che il Collegio condivide.

Parte attrice ha, infatti, uno stabile lavoro presso con i redditi più sopra riportati che non sono stati aggiornati in giudizio e non sostiene oneri abitativi, essendo la casa familiare di sua proprietà esclusiva. Il convenuto è ancora detenuto, condizione questa che come osservato dal Presidente non può valere ad esonerarlo dall'obbligo di contribuire al mantenimento dei figli, ma che è incompatibile con le richieste economiche dell'attrice.

Le spese di lite

Le spese di lite devono essere poste a carico del convenuto, attesa la sua soccombenza sia quanto alla domanda di addebito sia quanto alle domande accessorie relative ai figli. Vengono liquidate complessivamente in € 3.283 per compenso professionale, oltre 15% per rimborso forfettario spese generali, iva e cpa come per legge, applicando la disciplina del DM 55/2014 negli importi relativi alla fascia di valore più bassa (€ 26.000-€ 52.000) dello scaglione di valore di riferimento per ciascuna fase processuale, considerato lo svolgimento delle fasi di studio, introduttiva ed istruttoria, quest'ultima con la riduzione del 70%, in quanto limitata a sole produzioni documentali.

Ad ulteriore riprova della fondatezza della presente domanda, si produce (DOC.) supporto informatico contenente alcune registrazioni ambientali che la signora I ha potuto acquisire durante l'ultimo periodo di convivenza con il signor O in parte già agli atti del procedimento penale (in cui perimetri è stata chiesta misura cautelare), a dimostrazione della VEEMENZA che caratterizza le condotte del resistente.

Bastino alcune espressioni:

- Io vi rovino la vita, voi non sapete ancora come ma io si
- Io ti scavo la fossa
- Mi devi ascoltare se no il secondo passo è che ti prendo la bambina dalle braccia
- Non fare la donna forte perché finisci al cimitero
- Ti stai comportando da donna che muore, ti stai comportando di merda
- Io ti spacco, io con un pugno ti devasto tutta la faccia…occhiali, naso, zigomi, tutto ti spacco come una castagna
- Io ti voglio eliminare dalla sua vita (della bambina) perché sei un danno per lei
- Ma cosa devo fare, ti devo lasciare sulla sedia a rotelle per farmi ascoltare?
- Qualche giorno va a finire male, in un secondo va a finire male
- Io non pago più un cazzo perché adesso si fa quello che dico io
- Un giorno che esci per andare a lavorare io ti sparo da dietro se non sono riuscito ad ottenere quello che voglio in Tribunale, e magari lo ottengo e ti faccio sparare lo stesso; io non concepisco, io vivo per vederti stare male

Il Tenore dei messaggi è più o meno sempre il medesimo (doc. 9) :

omissis

-Visto e richiamato il decreto del T.O. di Milano del 25/02/2019 emesso *inaudita altera omissis. ...Con ricorso ex art. 342 bis e ss cc la ricorrente ha chiesto emettersi inaudita altera parte a sua tutela e della figlia minore M (nata a il) un provvedimento ex art. 342 bis e 342 ter c.c, in particolare l'ordine al convenuto di cessare dalle condotte pregiudizievoli di violenze psicologiche e fisiche asseritamente e ripetutamente poste in essere ai suoi danni, l'allontanamento dello stesso T dalla casa familiare in Via , e il divieto di avvicinamento ai luoghi abitualmente frequentati dalla ricorrente e dalla figlia, con l'adozione di provvedimenti economici interinali;*

-Rilevato che la ricorrente ha, ad oggi e da almeno due mesi, lasciato la casa familiare condotta in locazione dalla ricorrente (peraltro il resistente risulta altrove residente) tornando a vivere con la bambina presso e con i propri genitori (ove anche attualmente si trova); il contratto di locazione risulta essere stato formalmente disdetto dalla conduttrice L con missiva del 25/01/2019 inviata alla proprietà (MF);

-Rilevato che la ricorrente allega che il rapporto sentimentale (con convivenza iniziata nell'aprile 2016) sarebbe stato da sempre improntato alla violenza ed aggressione fisica e verbale, alla prevaricazione, alla soggezione psicologica e alle imposizioni da parte del compagno T e che la situazione sarebbe andata via via peggiorando sino ad arrivare ad episodi di aggressione fisica, di intimidazione e di violenza con schiaffi e calci (episodi avvenuti il 03 agosto 2018). In particolare, riferiva episodi reiterati di minaccia di episodi di maltrattamenti anche commessi in stato di ubriachezza e ripetute e pressanti chiamate telefoniche effettuate dal T anche in tarda ora e in piena notte;

-aggiungeva peraltro di avere sporto denunzia il 03/08/2018 ai C.C. di (con integrazione del dicembre 2018) ma di non essersi mai rivolta prima alle Forze dell'Ordine né di essersi recata al Pronto Soccorso per cure mediche o altro. Rappresentava però di essersi rivolta alla Dott.ssa di Milano psicoterapeuta esperta nelle cd. violenze di genere.

-Ritiene questo Giudice che appaiono, allo stato degli atti almeno, sussistere idonei elementi indizianti sufficienti a sostegno delle affermazioni della ricorrente.

I fatti esposti dalla ricorrente appaiono, allo stato, trovare riscontro anche nel certificato del 17/11/2018 dell'Ospedale (con prescrizione di astensione per il resistente dall'uso di sostanze alcoliche); appare sussistere una compatibilità dei fatti narrati con le risultanze documentali; anche il residuo materiale versato in atti ad oggi appare costituire un fumus indiziario della versione offerta dalla ricorrente e ben può essere considerato -in questa fase del presente giudizio- attesa la prioritaria funzione di tutela di un primario diritto della persona quale l'integrità fisica e morale.

Alla luce di quanto emerge dagli atti si ritiene che sussistano, almeno ad oggi, i presupposti per provvedere inaudita altera parte, attesa soprattutto la gravità del comportamento da ultimo posto in essere dal resistente ed anche considerato il possibile rischio di potenziale compresenza domiciliare e di ravvicinati contatti interpersonali di intensa conflittualità della coppia con una bambina molto piccola.

Deve, infatti, osservarsi che il provvedimento ex art. 342 bis c.c. è finalizzato ad assicurare la tutela del singolo individuo all'interno del nucleo

familiare, garantendo una protezione tempestiva e preventiva rispetto al possibile degenerare delle situazioni interpersonali, non richiedendo affatto che le condotte poste in essere assurgano a rilevanza penale, essendo sufficiente il verificarsi di eventi dannosi all'integrità fisica o morale o alla libertà di un familiare convivente causalmente riconducibile alla condotta dell'altro.
Le condotte di violenza psicologica reiterate nel tempo e le condotte di violenza anche fisica descritte nel ricorso ed agite nei confronti della compagna ricorrente appaiono già ad oggi integrare un possibile grave pregiudizio alla incolumità fisica e morale della ricorrente e della minore M, situazione questa che ben potrebbe degenerare pericolosamente in conseguenza della conoscenza da parte del resistente della decisione della compagna di rivolgersi all'Autorità Giudiziaria e quindi dell'acuirsi del conflitto tra i due anche per le questioni relative alla figlia, qualora si procedesse previo contraddittorio.
Appare, pertanto, necessario allo stato degli atti pronunciare il presente provvedimento inaudita altera parte, fatte salve le necessarie ed ulteriori valutazioni ed approfondimenti all'esito della costituzione del resistente, momento cui vengono riservate anche le eventuali determinazioni in punto di richieste di intervento dei Servizi Sociali e di istanze economiche avanzate dalla ricorrente.

Dispone che le parti producano almeno 3 giorni prima dell'udienza le proprie dichiarazioni dei redditi e/o Modelli CUD degli ultimi 3 anni
DICHIARA
il presente decreto immediatamente efficace.

Manda alla cancelleria per la comunicazione del presente decreto alla parte ricorrente e alla STAZIONE CARABINIERI DI COMPETENTE OVVERO AL COMMISSARIATO DI P.S. COMPETENTI PER LA RESIDENZA IN, VIA N omissis ;
-Sentite le parti personalmente comparse unitamente ai rispettivi difensori all'udienza del 12/03/2019;
-Rilevato che la ricorrente L ha sostanzialmente confermato in udienza le plurime aggressioni (verbali ed anche fisiche) perpetrate ai suoi danni e subite da parte del C ed anche consistite in calci, schiaffi, tirate di capelli, ed anche con torsioni dei polsi (tanto più dolorose a causa dei suoi problemi di tendinite noti alla parte resistente) con un ultimo episodio occorso il 03/12/2018; ha espressamente confermato di essere stata, in diverse occasioni, oggetto di minacce di morte (una volta anche con l'uso di un coltello e in una altra occasione è stata minacciata di essere sciolta nell'acido); ha altresì confermato l'uso della controparte di sostanze stupefacenti (uso peraltro risalente sin dall'inizio della loro conoscenza) e l'abuso da parte del C di sostanze alcoliche; ha aggiunto di essere ancora seguita dalla Dott.ssa del Centro di antiviolenza; la stessa L ha espressamente dichiarato a verbale la propria ferma intenzione di non ritornare nella casa familiare di Via n. (dalle parti condotta in locazione con un canone mensile previsto di € 900,00 saldato interamente sino al dicembre 2018 e solo per la metà della quota per la mensilità di genio 2019) avendo la ferma e salda intenzione di rimanere con e presso i propri genitori (presso i quali si è rifugiata con la figlia M scappando dalla casa familiare il 04/12/2018) avendo paura a ritornare nell'ex casa familiare; negava per parte propria di avere mai fatto uso di sostanze stupefacenti ovvero di avere mai abusato di sostanze alcoliche; ha confermato di essere stata oggetto di plurime pressanti ed insistenti telefonate del C (anche effettuate in ore notturne); ha dichiarato di lavorare per un Ente operante nel settore delle adozioni e di guadagnare circa €1.500,00 mensili, di avere in corso un finanziamento di €245,00 mensili intestato solo a lei (con scadenza contrattuale prevista tra circa 4 anni); di avere (in solido con l'ex compagno) un debito locatizio verso la proprietà di via di complessivi €2.300,00;
-Rilevato che il resistente C pure personalmente sentito -in contraddittorio con l'altra parte- ha ammesso di fare uso dall'età di 19 anni di marijuana e hashish e di essere in possesso di un bilancino (rinvenuto dai CC in suo possesso in sede di notifica dell'ordine di protezione) che

userebbe per confezionare le singole sigarette per poi fumarle (dichiarava anche di essere stato fermato in passato dalla GdF in possesso di due canne); dichiarava di avere proposto istanza per la concessione di reddito di cittadinanza, di essere disoccupato da circa 5 mesi (ultimo lavoro in un call-center con una paga di circa €680,00 mensili) e di essere iscritto al Centro per l'Impiego da circa 5/6 anni. Riferiva di essere tornato a vivere con la propria madre C M (quest'ultima anche titolare di un alloggio popolare sito in Via n.) la quale non lavora e convive con il di lei compagno. Il C ha affermato (peraltro genericamente) che le accuse mossegli in ricorso <e riportate anche nella denunzia sporta contro di lui dalla L ai CC nell'agosto del 2018> sarebbero riconducibili unicamente al fatto che la L ce l'avrebbe con lui e sarebbe sostanzialmente mossa da un sentimento di rancore nei di lui confronti (deve evidenziarsi sul punto che ad oggi non risultano sporte controdenunzie del C per ipotesi di calunnia);
-Rilevato che parte C, pure ritualmente costituitasi, non appare avere offerto una
specifica e puntuale contestazione dei plurimi fatti offensivi e lesivi a lui riferiti, come anche delle aggressioni perpetrate con calci, schiaffi tirate di capelli e torsioni del braccio della L ~ (il soggetto è attualmente indagato per maltrattamenti in un procedimento
penale al n. RG 31346/2018); in udienza il C peraltro ha riconosciuto di avere *forse*
minacciato *anche di morte* la Lopriore *(...ho ascoltato le registrazioni e non le disconosco. Anche io ho registrato qualcosa ma non ho inteso produrle ad oggi almeno…*); minacce di morte da lui proferite ed anche riportate nelle allegate registrazioni vocali e del seguente tenore (..ti *ammazzo, ti sgozzo, ti uccido puttana*) proferite nei confronti della
ricorrente; nel verbale del 24/01/2019 davanti ai CC di peraltro lo stesso
C ha *"ammesso parzialmente"* le contestazioni mossegli ed ha *espressamente*
ammesso di avere dato schiaffi e spintoni alla L _ (seppure riferendolo ad una condotta
reciproca delle parti durante i litigi e da lui dati solo in risposta dell'altrui aggressione fisica); nella stessa memoria C del 07/03/2019 la parte resistente ha --di fatto-- anche
ammesso comunque la intensa[2] conflittualità in essere nella coppia (seppure riferendola ad *entrambe* le parti) come anche le offese e le espressioni ingiuriose (seppure riferendole anche esse ad *entrambe* le parti ed asserendo essere reciproche).
In conclusione il C appare avere offerto una versione non di puntuale e reale negazione dei fatti quanto al più avere tentato di proporre un sostanziale ridimensionamento dei fatti a lui riferiti.
Il resistente ha anche ammesso di fare uso costante di sostanze stupefacenti; questo del resto l'estratto del verbale di esecuzione dell'ordine di protezione redatto dai CC della Stazione di
Milano Vigentino in data del 26/02/2019
...omissis…
Si fa presente che durante le operazioni sopra esposte, il Q veniva trovato in possesso di 8,68gr di sostanza stupefacente verosimilmente di tipo Hashish, 2,63gr di sostanza stupefacente verosimilmente di tipo Marijuana e un bilancino, pertanto veniva deferito in stato di libertà per il reato p.p. dall'Art. 73 c.5 DPR 309/1990.
Fatto, letto, riletto, confermato e sottoscritto in data, ora e luogo di cui sopra.

Il resistente C peraltro nemmeno ha negato le (pure espressamente contestate) molteplici e plurime insistenti e pressanti telefonate (15 circa nella mattina del 05/02/2019) anche notturne effettuate dal resistente alla L (notte del 08/02/2019); nè ha negato o contestato (cfr. pagina 2 ultime quattro righe e dichiarazioni rese a verbale di udienza del 12/03/2019) le plurime registrazioni vocali allegate dalla controparte (con le minacce anche di morte ivi registrate) limitandosi ad unicamente eccepire una loro possibile dimensione *parziale* e non adeguatamente contestualizzata.

[2] Cfr. pagina 3 della memoria F
in cui si fa espresso riferimento ad una "pesante conflittualità";

Da ultimo deve evidenziarsi che lo stesso C ha chiesto -in sede di conclusioni rassegnate- (unicamente) la revoca dell'allontanamento dalla casa familiare (peraltro lo stesso è residente in Via come ammesso dallo stesso C ed indicato nell'istanza di ammissione al G.P.) ma non ha anche espressamente richiesto la revoca dell'ordine di cessazione della condotta illecita e lesiva a lui riferita, così come nemmeno ha richiesto (cfr. conclusioni a pagina 6) la revoca del suo divieto di avvicinamento agli altri luoghi (diversi dalla ex casa familiare) pure indicati nel decreto emesso inaudita altera parte; -Rilevato che l'originario ordine di allontanamento[3] dalla casa familiare appare essere stato correttamente emesso nella fase *inaudita altera parte* sussistendo, in primis, quel presupposto in fatto costituito dal pregresso rapporto di convivenza e della coabitazione sotto lo stesso tetto tra le parti in causa, ed avendo la ricorrente L rilasciato il suddetto immobile *non spontaneamente* e per propria libera scelta ma bensì (come pure espressamente indicato in ricorso) per il timore per la propria incolumità (facendo temporaneamente ritorno presso i propri genitori con la bambina piccola nel dicembre 2018), anche avendo essa stessa il diritto a rientravi in qualità di co-conduttrice contrattuale dell'immobile (e ciò almeno sino alla efficacia della relativa disdetta contrattuale già inviata alla proprietà).
Appare sussistere nel caso di specie anche il presupposto rappresentato dalla condotta del convivente costituente un pregiudizio grave all'integrità fisica, "morale" o alla "libertà personale del soggetto instante la misura di protezione[4].
Tuttavia in ragione dell'espressa rinunzia fatta all'udienza del 12/03/2019 dalla stessa difesa di parte L (non più intenzionata a rientrare nella casa di , via n.)
deve essere revocato sia l'originariamente disposto divieto di avvicinamento del resistente alla suddetta abitazione come pure deve essere anche revocato l'originariamente disposto ordine di allontanamento del C dalla stessa abitazione di via n. .;

...omissis…

L'applicazione delle misure di protezione presuppone che la vittima ed il soggetto cui viene addebitato
il comportamento violento vivano all'interno della medesima casa, in quanto l'art. 5 della L. 154/2001 fa esclusivo riferimento al nucleo costituito dai familiari conviventi (Cfr. Tribunale di Rieti, sentenza 6/03/2006, conformi, sul punto, Tribunale di Napoli, sentenza 1/02/2002; Tribunale di Napoli, sentenza 18/12/2002). Tale considerazione muove dal fatto che gli ordini di protezione non hanno soltanto la funzione di interrompere situazioni di convivenza turbata, ma soprattutto quella di impedire il protrarsi di comportamenti violenti in ambito domestico (cfr. Tribunale di Firenze, sentenza 15/07/2002). Il requisito della convivenza (inteso come "perdurante coabitazione ". cfr. Tribunale di Bologna, Sez. I, sentenza 22/03/2005,) sussiste anche quando vi sia stato l'allontanamento, provocato dal timore di subire violenza fisica del congiunto, mantenendo nell'abitazione familiare il centro degli interessi materiali ed affettivi (Cfr. Tribunale di Padova, decreto 31/05/2006) omissis.;

[4] Ogni tipo di comportamento che sia ritenuto lesivo degli interessi tutelati dal provvedimento potrà agevolmente rientrare nella previsione normativa de qua. Ancora, «nell'ambito del pregiudizio alla libertà o all'integrità fisica e morale dovranno comprendersi, oltre alle situazioni di danno immanente, anche i comportamenti tali da determinarne il concreto ed incombente pericolo: il pregiudizio, infatti, è agevolmente ravvisabile non soltanto quando il danno si sia già verificato, ma anche quando vi è grave pericolo che esso si verifichi. Naturalmente, l'apprezzamento della sussistenza del pericolo e della sua gravità nella fattispecie al suo esame è rimesso alla prudente valutazione del giudice»;

L'art. 342 bis cc, prevede che il giudice, su istanza di parte, possa adottare con decreto uno o più dei provvedimenti di cui al successivo articolo qualora la condotta del coniuge o di un altro convivente sia di grave pregiudizio all'integrità fisica o morale o alla libertà dell'altro coniuge o convivente. L'art. 342 bis cc non precisa le caratteristiche che deve assumere la condotta del coniuge o di altro convivente sì da condurre il

giudice a pronunciare un ordine di protezione, se non che deve essere causa di grave pregiudizio all'integrità fisica, o morale, o alla libertà dell'altro coniuge o convivente. Tuttavia l'utilizzo della congiunzione disgiuntiva "o" induce a ritenere che sia sufficiente che la condotta dell'abusante integri anche uno solo degli eventi descritti.
Alla luce di tutto quanto sopra argomentato in fatto e in diritto, e in applicazione del principio di non contestazione espresso dall'art. 115, I comma, cpc, deve confermarsi solo parzialmente l'ordine di protezione già emesso inaudita altera parte e ciò in quanto, in ragione dell'espressa rinunzia fatta all'udienza del 12/03/2019 dalla stessa difesa di parte L (non più intenzionata a rientrare nella casa di via n. .) deve invece
essere sia revocato l'originariamente disposto divieto di avvicinamento del resistente alla suddetta abitazione come pure deve essere revocato l'originariamente disposto ordine di allontanamento del C dalla stessa abitazione di via n. ;
Quanto alle domande economiche proposte dalla L , la medesima ricorrente -in
ragione dell'attuale stato di disoccupazione dell'ex compagno- ha inteso ridurre in udienza le proprie pretese ad un minore contributo economico paterno per il mantenimento di M quantificato, allo stato, in complessivi €250,00 mensili.
Sul punto deve evidenziarsi che nemmeno lo stato di *disoccupazione-inoccupazione* di un genitore (ove pure fosse dimostrato essere del tutto incolpevole ed involontario) potrebbe comunque giustificare --almeno in sé e di per ciò solo considerato ed in via di *mero automatismo*-- il totale esonero per il suddetto genitore ed il venir meno dell'obbligo di mantenimento, il quale, in assenza di altri parametri, va quantificato sulla scorta della attitudine e capacità lavorativa (quantomeno) generica (in assenza di comprovate oggettive ragioni di incapacità/inabilità lavorativa adeguatamente provate e documentalmente riscontrabili secondo la ripartizione degli oneri istruttori ex art. 2697 cc).
-Richiamati i principi codicistici e normativi espressi in particolare -dall'art. 316 bis c.c. secondo cui *i genitori devono adempiere i loro obblighi nei confronti dei figli in proporzione alle rispettive sostanze e secondo la loro capacità di lavoro professionale o casalingo* ";
- dall'art. 337 ter c.c. secondo cui," *Salvo accordi diversi*
liberamente sottoscritti dalle parti, ciascuno dei genitori provvede al mantenimento dei figli in misura proporzionale al proprio reddito; il giudice stabilisce, ove necessario, la corresponsione di un assegno periodico al fine di realizzare il principio di proporzionalità, da determinare considerando:

-le attuali esigenze del figlio.
-il tenore di vita goduto dal figlio in costanza di convivenza con entrambi i genitori.
-i tempi di permanenza presso ciascun genitore.
-le risorse economiche di entrambi i genitori.
-la valenza economica dei compiti domestici e di cura assunti da ciascun genitore.

L'assegno è automaticamente adeguato agli indici ISTAT in difetto di altro parametro indicato dalle parti o dal giudice "; -dall'art. 337 sexies, I comma, prima parte, c.c.
secondo cui "*...Il godimento della casa familiare è attribuito tenendo prioritariamente conto dell'interesse dei figli. Dell'assegnazione il giudice tiene conto nella regolazione dei rapporti economici tra i genitori, considerato l'eventuale titolo di proprietà* ";
Alla luce di tutto quanto sopra esposto, congruo ed equo <in assenza di ulteriori sopravvenienze di alcun genere con riferimento ai dati occupazionali, lavorativi ed economici dei coniugi portati all'attenzione del Tribunale, ed anche considerato che la parte resistente CF è di giovane età, e seppure allo stato disoccupato pur sempre dotato di piena ed integra capacità lavorativa quantomeno generica (anche in assenza di precise e specifiche ed oggettive ragioni ostative sul punto portate all'attenzione del Giudicante anche ex art. 2697 cc)> appare l'assegno mensile in questa sede provvisoriamente determinato <a titolo di contributo economico paterno al mantenimento della comune figlia minore M (nata il)> nell'importo mensile complessivo omnicomprensivo di €#250,00#, con automatica rivalutazione annuale secondo gli indici ISTAT (base di calcolo dal mese successivo a quello di pubblicazione della presente ordinanza).
A miglior tutela della comune figlia minore, si rinvia alla parte dispositiva per ogni statuizione giudiziale di dettaglio in punto di incarichi, deleghe ed interventi a cura dei SS comunali residenziali a prioritario interesse della minore M:
Quanto sopra in premessa, in fatto, in diritto ed in motivazione il Tribunale di Milano, provvede come in dispositivo.
Spese di procedura liquidate come in dispositivo e poste a carico della parte resistente C .
Ogni altra, ulteriore e diversa questione, in rito ed in merito, deve ritenersi allo stato assorbita.

TRIBUNALE DI MILANO

Sezione 9° civile

Il Presidente assegnatario dr. Anna Cattaneo Nel procedimento iscritto a ruolo il 2/7/2019

DA

C.S. (c.f.) nato a il residente a in via in proprio e quale genitore esercente la responsabilità genitoriale sulla figlia minore **N.**, rappresentato e difeso dall'avv. delforo di ed elettivamente domiciliato presso il suo studio in in via come da procura in atti

PARTE RICORRENTE

CONTRO

C.M. domiciliato in in via

PARTE RESISTENTE

Rilevato in fatto

Il ricorrente ha chiesto che sia pronunciato, ai sensi degli articoli 342 bis e seguenti e 736 bis c.p.c., anche *inaudita altera parte,* un ordine di protezione contro gli abusi familiari e in particolare perché sia ordinata a **C.M.** la cessazione della condotta pregiudizievole e l'allontanamento dalla casa sita in in via determinandone la durata in almeno sei mesi, prescrivendo altresì a quest'ultimo che non si avvicini al luogo di istruzione della minore **N.**, nonché ai luoghi frequentati da esso istante in particolare al luogo di lavoro in via a , con condanna del resistente al pagamento delle spese di lite.

Deduceva che si era separato dalla moglie, R**.D.S.**, con convenzione di negoziazione assistita autorizzata il 9/4/2018, con la quale era stato concordato che egli rimanesse ad abitare nell'appartamento posto al piano terra/rialzato con annesso locale cantinato ed antistante giardino nella villa sita a in via .

in comproprietà tra i coniugi, mentre la moglie aveva fissato la propria residenza
nell'appartamento ubicato al piano primo con annessa mansarda della stessa villa, di proprietà della sola moglie,
il suddetto immobile, invero, era stato frazionato in due appartamenti,
il collocamento della figlia minore era stato convenuto prevalentemente presso la madre con una regolamentazione del diritto di visita del padre secondo criteri standard (fine settimana e festività alternate, un giorno infrasettimanale),
la moglie aveva iniziato a convivere con tale **C.M.** che aveva tenuto sempre un comportamento particolarmente aggressivo nei confronti di esso deducente, in particolare il 18 aprile il **M.**, *"mentre si trovava nel giardino di pertinenza dell'appartamento del signor S. è venuto alle mani con quest'ultimo e dopo avergli inferto lesioni ha proseguito l'aggressione rivolgendogli minacce come 'ti spacco la faccia' 'sei un uomo morto' 'ti sei scavato la fossa da solo'",*
la minore aveva udito le minacce di morte mentre si trovava all'interno dell'appartamento del padre e tale comportamento era fonte di un grave pregiudizio all'integrità psichica e morale e alla libertà propria non solo di esso ricorrente ma soprattutto della piccola N**.**,
l'indole del compagno della madre, che con la piccola oltretutto conviveva, non giovava affatto al perseguimento della finalità di far vivere la minore in un ambiente sereno, protetto e avulso da qualsiasi manifestazione di violenza, quindi era necessario provvedere con estrema urgenza allontanando il M**.** dall'abitazione della signora R**.** D.

Considerato in diritto
Il ricorso è inammissibile e deve essere rigettato *de plano* senza necessità di integrazione del contraddittorio.
Con la legge *"Misure contro la violenza nelle relazioni familiari"* del 4/4/2001 n. 154 il legislatore ha voluto intervenire in relazione al fenomeno della violenza domestica. L'articolo 342 bis del codice civile, introdotto con la suddetta legge, sanziona la condotta del *"coniuge o di altro convivente"* quando è causa di grave pregiudizio all'integrità fisica o morale ovvero alla libertà *"dell'altro coniuge o convivente".* L'articolo 5 della citata legge prevede l'applicazione dell'ordine di protezione contro gli abusi familiari anche nel caso in cui la condotta pregiudizievole sia stata tenuta "*da altro componente del nucleo familiare diverso del coniuge o del convivente ovvero nei confronti di altro componente del nucleo familiare diverso del coniuge o dal convivente".*

L'articolo 342 ter c.c. prevede che il giudice possa ordinare *"al coniuge o convivente che ha tenuto la condotta pregiudizievole la cessazione della stessa condotta e dispone l'allontanamento dalla casa familiare del coniuge o del convivente che ha tenuto la condotta pregiudizievole".*

Come si comprende con evidenza, e come è espressamente detto nella rubrica della legge e nelle norme citate, oltre che come appare dall'esame della *ratio* della nuova normativa, la tutela può essere chiesta dal coniuge, dal convivente o da altro componente del nucleo familiare nei confronti di comportamenti pregiudizievoli del coniuge, del convivente o di altro componente del nucleo familiare.
Certamente il ricorrente non spende -e non ha- alcuno dei citati rapporti familiari con il resistente che è a lui del tutto estraneo ed è il compagno convivente della di lui moglie separata (la tutela invece potrebbe essere richiesta dalla signora R**.** nei confronti del compagno convivente C**.** M**.**).
Ancora, la tutela contro gli abusi familiari ha come presupposto, oltre al legame familiare di coniugio o *more uxorio,* la convivenza con l'autore del comportamento pregiudizievole, tanto che se ne chiede l'allontanamento dalla casa familiare.
Nel caso di specie, le due abitazioni nelle quali vivono ricorrente e resistente sono due unità immobiliari separate e distinte conseguenti a frazionamento. E' lo stessi ricorrente che dice che il fatto del 18 aprile è avvenuto nel *"giardino di pertinenza dell'appartamento del sig S.""* e che menziona una *"rete di recinzione""* che delimita il giardino del predetto.
In conclusione, sul punto, se certamente un comportamento aggressivo posto in essere da un terzo che si inserisce nella abitazione di altro soggetto costituisce reato e può essere denunciato alla Procura della Repubblica, altrettanto certo è che a tutela della parte offesa non possa essere invocato un ordine di protezione ex art. 342 bis e seg. c.c.
Giova ribadire che la disciplina in esame non può essere invocata da e contro l'estraneo - vicino di casa.
Quanto alla tutela invocata dallo S**.** quale esercente la responsabilità genitoriale sulla figlia minore, emerge con evidenzia, anche per quanto sopra già chiarito, che lo strumento giuridico utilizzato dal ricorrente non è appropriato. La minore vive prevalentemente con la madre nella casa del piano primo con mansarda nella quale vive anche il M**.**, come allegato nel ricorso *de quo*, non potrà che essere la madre a richiedere la tutela in oggetto per eventuali comportamenti pregiudizievoli agiti verso ella stessa e/o verso la figlioletta.
Diversi sono gli strumenti che ha a disposizione il padre qualora si convinca della inidoneità della madre a tutelare la figlia minore e/o di comportamenti pregiudizievoli commessi dal di
lei convivente nei confronti della minore che sono disciplinati dall'art. 330 e seg. c.c. ovvero dall'art. 710 c.p.c.

La inammissibilità del ricorso impone di provvedere con decreto senza necessità di integrazione del contraddittorio.

Si ritiene infatti che tutte le considerazioni esposte rendano del tutto superflua l'instaurazione del contraddittorio, trattandosi di un'attività processuale del tutto ininfluente sull'esito del giudizio. Infatti, neppure con la comparizione delle parti potrebbe in ipotesi giungersi al superamento delle considerazioni esposte e ciò impone di assegnare prevalenza al rispetto del principio della ragionevole durata del processo che convince, in presenza di un'evidente ragione di caducazione della richiesta giudiziale, di definire con immediatezza il procedimento (cfr. Cass. 15106/2013, Cass 11287/18, Cass 12515/18).
Tra l'altro l'eventuale sussistenza di ragioni di urgenza relative alla tutela della minore rafforzano la necessità di provvedere in tempi assolutamente brevi per consentire al padre di eventualmente incardinare un giudizio innanzi alla A.G. competente e con lo strumento processuale adeguato

TRIBUNALE ORDINARIO DI MILANO

SEZIONE NONA CIVILE

Il Giudice, Dott.ssa Rosa Muscio,
a scioglimento della riserva assunta all'udienza del 16.10.2018;
pronuncia il seguente

DECRETO

rilevato che parte resistente, ritualmente citata a mani proprie in data 8.10.2018 per il tramite della Polizia Penitenziaria della Casa Circondariale di M ove lo
stesso risulta allo stato detenuto, non si è costituita né è comparsa personalmente;
sentita parte ricorrente e il suo difensore all'udienza del 16.10.2018;
ritenuto che le allegazioni della ricorrente poste da questo Giudice a fondamento del provvedimento, adottato *inaudita altera parte,* non hanno allo stato trovato alcuna smentita in quanto parte resistente non ha inteso costituirsi e fornire elementi di valutazione diversi circa le condotte di violenza fisica, vessazione psicologica e di minacce dallo stesso poste in essere secondo la ricorrente ai suoi danni anche alla presenza del figlio; ritenuto che il quadro probatorio posto a fondamento del decreto *inaudita altera parte* non è stato in alcun modo modificato ed anzi ha trovato diretta conferma sia nei file audio depositati dalla difesa della ricorrente nel fascicolo processuale che consentono di sentire direttamente le gravi offese e gravi minacce di morte reiterate dal nei confronti della compagna con toni pesanti e accesi sia nel verbale di arresto trasmesso dai Carabinieri che dà conto della disponibilità da parte del resistente anche in casa di sostanza stupefacente di vario tipo e della ammissione da parte dello stesso, per giustificare il possesso della sostanza, di essere un consumatore; ritenuto che l'attuale condizione di detenzione del signor D non è di ostacolo alla conferma del provvedimento già emesso, atteso che si tratta di una situazione ancora *sub iudice* e il cui esito non è affatto certo; l'eventuale e prossima remissione in libertà del] o anche la concessione a suo favore di
misure meno afflittive non può allo stato escludere che lo stesso non ponga in essere le gravi condotte già tenute nei confronti della compagna, tenuto conto della gravità delle reiterate minacce di morte e tanto più a fronte della determinazione della signora di promuovere anche il ricorso ex art. 316bis c.c;
ritenuto, pertanto, che non sono affatto venute meno le ragioni di fatto e di diritto che avevano consentito l'adozione del provvedimento *inaudita altera parte* da intendersi qui richiamate e che la situazione potrebbe ulteriormente degenerare, visto anche l'imminente svolgimento del procedimento per la regolamentazione dell'esercizio della responsabilità genitoriale sul figlio D situazione questa che giustifica la
conferma del termine di durata della misura di un anno dalla notifica del provvedimento (8.10.2018) già disposta nel provvedimento che in questa sede si convalida;
ritenuto, pertanto, che deve essere confermato integralmente il provvedimento emesso in data 3.10.2018;
ritenuto che quanto alla richiesta di contributo economico per il figlio minore avanzata dalla ricorrente, in via del tutto cautelare e fatte salve migliori determinazioni da parte del Giudice del procedimento ex art. 316bis c.c che parte ricorrente ha già promosso, possa essere posto a carico del padre con decorrenza dalla mensilità di ottobre 2018 a titolo di mantenimento del figlio un contributo mensile di € 150, tenuto conto che allo stato lo stesso risulta detenuto, importo che viene sin da ora determinato in € 300 mensili dalla mensilità in cui il signor] verrà scarcerato o sottoposto ad altra misura compatibile con l'esercizio di attività lavorativa, trattandosi di persona di giovane età, dotato di piena capacità lavorativa e che non potrà che attivarsi per far fronte all'obbligo *ex lege* gravante sui genitori di provvedere al mantenimento dei figli, tenuto anche conto che la signora svolge attività lavorativa di parrucchiera con un reddito

modesto come documentato in atti (per l'anno di imposta 2016 risulta un reddito complessivo di € 9.727 + € 960 bonuf irpef con imposte per € 9; per l'anno di imposta 2015 risulta un reddito complessivo di € 8.344 + € 844 bonus irpef con imposte per € -);
ritenuto necessario, nell'esercizio dei poteri di ufficio di cui il Giudice dispone a tutela del minore, disporre sin d'ora che i Servizi Sociali del Comune di e i Servizi
Specialistici dell'ATS competenti per territorio provvedano:

- all'immediata presa in carico del nucleo familiare,
- ad avviare la regolamentazione della frequentazione tra il padre e il figlio in Spazio Neutro e con modalità osservate, tenuto conto della attuale situazione di detenzione paterna, delle condizioni psicofisiche del signor e del minore con possibilità di sospensione/interruzione degli incontri se disturbanti per il minore,
- alla presa in carico del signor presso il SERT, effettuando accertamenti tossicologici in relazione all'uso di alcool e/o stupefacenti e avviando ogni intervento di sostegno necessario in relazione a tali problematiche, se lo stesso si renderà disponibile;
- a svolgere un'indagine psicosociale e psicodiagnostica sul nucleo familiare, verificando le capacità genitoriali di entrambe le parti, la situazione psicofisica del minore e la qualità della relazione tra il minore e ciascun genitore al fine di acquisire elementi di valutazione per i provvedimenti in punto di affidamento, collocamento del minore e frequentazione con il padre e circa gli interventi necessari a tutela del minore, atteso che la ricorrente ha verbalizzato di avere già depositato in data 12.10.2018 procedimento ex art. 316bis c.c;

ritenuto che, in assenza di costituzione del resistente, nulla debba disporsi sulle spese del presente procedimento;

DECRETO

Assolutamente utile, se non indispensabile, è riportare pedissequamente le dichiarazioni delle parti le quale - come sovente accade - sono più esplicite e chiare di quanto lo siano gli atti difensivi:

A questo punto la signora dichiara: *"sono andata via dalla casa familiare da settembre del 2018 e precisamente dal 13 settembre, vivo a presso i miei genitori. Ilo deciso di andarmene*
dalla casa familiare sia per problemi insorti con mia suocera che per problemi che esistevano con mio marito già dal 2006. Con l'arrivo di mia suocera. L'ultimo litigio è successo due giorni prima della mia querela, io stavo dicendo a mio marito come si comportava mia suocera e lui mi ha risposto di non rompere i coglioni e se volevo di andarmene, ma lasciare i bambini. Questo era successo anche due settimane prima. 1 litigi ci sono sempre stati, ma con l'arrivo di mia suocera le cose sono peggiorate, questo è accaduto da dicembre 2017-gennaio 2018. Ho sottoscritto la scrittura privata del mese di ottobre perché ero soggiogata da mio marito in quanto mi ha detto che se avessi accettato avremmo avuto una vita migliore, i soldi per la cura di mia suocera che erano 300,00 euro spettavano a me. ma non li ho mai avuti, lo mi sono arrabbiata perché i soldi spettavano a me per fare quello che io volevo, era una specie di ricompensa per me perché accettavo la suocera in casa ma io in mano non li ho mai avuti. Per questa cosa ho litigato con mio marito, ma ancora di più ho litigato perché io dicevo a mio
marito che la suocera si comportava male e invece lui difendeva la madre. In macchina sempre nell 'ultimo episodio mio marito ha avuto un gesto di affetto nei mei confronti, io mi sono ritratta e allora lui mi ha detto prova a denunciarmi che la bara è pronta. Da quando sono andata dai miei genitori, io non parlo più con mio marito, ci parliamo solo tra legali. Il giorno dopo che io sono venuta a lui è venuto a cercarmi e ha parlato con mio papà, io ero terrorizzata perché conosco
l'indole della persona, lo ho chiamato i Carabinieri come mi era stato detto. Prima un Carabiniere ha parlato con mio marito, poi mio marito ha parlato con un Carabiniere e mio padre; mio padre mi ha riferito che mio marito avrebbe ingiurialo i fratelli suoi dicendo che erano causa della sua rovina. Dopo questo ha preso la sua macchina, lui voleva vedere le bambine, le bambine non hanno voluto e poi lui è andato via. Non è più tornalo a ' ; lo dopo quel giorno non ho mai più parlato con mio marito. Mia suocera sporcava il water io glielo facevo notare e li diceva che non era vero oppure andava a prendere i biscotti di nascosto e li metteva sotto il cuscino, io li beccavo e di fronte all'evidenza lei negava ".
il signore dichiara: "Rà *ho detto a mia moglie di andare via se voleva, ho anche detto che se il problema era mia madre potevamo parlare con mia sorella e mio cognato che avremmo trovato una sistemazione. L'ultima macchina l'ho comprata il 30 agosto. L'ultima macchina è cointestata, lo avevo detto che i 300,00 euro erano per pagare la rata della BMW. Il 12 settembre siamo andati dalla concessionaria a fare vedere la Kia. Nel tornare indietro la signora ha detto che aveva problemi al cellulare, io mi sono fermato al negozio e abbiamo lasciato il cellulare li. Il 13 sono andato a lavorare e ho avuto anche un incidente, sono arrivato a casa, abbiamo mangiato e basta. Il 14 mattina quando lei se ne è andata io ero tranquillissimo e sono andato a lavorare. Lei mi ha detto che andava al Brico a prendere i portavasi, io ero andato ad con il bus che conduco, al ritorno non riuscivo più a contattarla. Da quel giorno non l'ho più vista. Non ho più visto neanche le bambine. Nego di avere minacciato mia moglie dicendole della bara. Il 14 sono riuscito a parlare con mia moglie e lei mi ha detto che in non tornava più. E' stato il padre di lei a dirmi di andare da loro il giorno dopo per parlare, lo sono stato seduto nel sedile della mia macchina ad aspettare che loro aprissero. Ad un certo punto vedo i Carabinieri, io sono andato a suonare, un Carabiniere mi ha detto che dovevo andare via, io ho detto che era un luogo pubblico e non andavo via. A quel punto i Carabinieri sono andati in casa e sono scesi con il papà di mia moglie. Il papà mi ha detto che mia moglie non mi voleva vedere, io almeno ho chiesto di vedere le bambine, ma il papà mi ha detto che non era possibile".*

La mera lettura di predette dichiarazioni dimostra la non sussistenza dei requisiti necessari per il provvedimento richiesto. Va premesso che la presente non è la sede per rivedere l'intera vita familiare della coppia, risultando peraltro poco verosimile che la signora subisca violenze psicologiche praticamente dalla data del matrimonio, durato ben dodici anni e coronato dalla nascita di due bambine. Come siano andate le cose durante il matrimonio è materia da trattare nel già instaurato giudizio di separazione. Quindi, concentrando l'attenzione sulle vicende degli ultimi tempi, pare evidente come il principale motivo di attrito tra la coppia sia stato la gestione della suocera della ricorrente (la quale, peraltro, ha a sua volta presentato querela per maltrattamenti nei confronti della . Va premesso che la ricorrente ha accettato spontaneamente di ospitare in casa la suocera (addirittura sottoscrivendo una scrittura privata) e che il motivo della sua arrabbiatura sembra, per io più, dovuto al fatto che ella non avrebbe ricevuto i 300,00 euro che - secondo lei - le erano stati promessi per il suo sacrificio. Gli episodi esemplificativi narrati dalla ricorrente (il water sporco o i biscotti rubati nottempo) sono francamente espressione di una quotidianità senza dubbio divenuta insopportabile per tutti, nella quale

liti, discussioni e anche insulti (pure con le modalità descritte dalla ricorrente) sono assolutamente verosimili e fisiologico. Detto ciò, siamo ben lontani da quella situazione di violenza fisica o psicologica che legittima il provvedimento richiesto. Peraltro, va evidenziato - a smentire la presunta pericolosità del resistente - che dopo il volontario allontanamento della signora dalla casa coniugale, il signore non ha mai più visto né la moglie, né le figlie.

Egli non ha tentato in alcun modo di contattare e raggiungere la signora, se non il giorno successivo all'allontanamento, quando sembra che il signore sia stato addirittura invitato a recarsi a ; a parlare, dal padre della ricorrente.

In breve, è evidente che i rapporti tra le parti sono grandemente compromessi ed è altrettanto evidente che, di questa situazione, a soffrire siano le minori le quali non vedono più il padre da un mese e non vanno più a scuola. Di ciò si occuperà il tribunale competente che non è quello milanese.

In sintesi, il ricorso va respinto.

Alla soccombenza segue l'obbligo del pagamento delle spese processuali, le quali vanno quantificate - come da criteri orientativi del tribunale - in euro 2.000,00 oltre spettanze di legge.

P.Q.M.

RESPINGE il ricorso.

CONDANNA parte ricorrente a rifondere le spese di lite a parte resistente, quantificate in euro 2.000.00, oltre spese generali del 15% e accessori di legge.

N. R.G. 13301/2018

TRIBUNALE ORDINARIO DI MILANO

NONA CIVILE -FAMIGLIA

Il Giudice, Dott.ssa Laura Stella,
a scioglimento della riserva assunta in data 30.10.2018, premesso che con ricorso ex art. 342 bis c.c e 736 bis c.p.c., depositato in data 8/10/2018 QN, ha chiesto al Giudice di emettere ordine di protezione, *inaudita altera parte,* disponendo l'allontanamento immediato del marito, sig. AQ- ,
dalla casa coniugale con divieto di avvicinarsi ai luoghi frequentati abitualmente dalla ricorrente e dai due figli minori N , nato il e K nato il (e in particolare la casa coniugale, il luogo di lavoro della
ricorrente, le scuole frequentate dai figli);
la ricorrente esponeva: che il marito (sposato nel 2003) aveva manifestato sin da subito un carattere geloso e possessivo, con atteggiamenti di controllo e svalutazione della moglie; che, con il tempo, egli era diventato anche violento fisicamente, aggredendo più volte la moglie, anche alla presenza dei figli; che il convenuto faceva uso di alcool e, in passato, anche di shaboo, ma che le violenze erano avvenute anche in momenti in cui egli era sobrio; che nell'ultimo mese gli episodi di violenza erano aumentati; che, in particolare, il 4.9.2018 il convenuto, dopo aver chiamato al telefono freneticamente la moglie (che era fuori casa), al suo rientro, la aggrediva, colpendola al volto con pugni e schiaffi e graffiandole il petto; che la Quiatchon si recava al Pronto Soccorso dell'Ospedale dove le veniva diagnosticata una policontusione da aggressione con prognosi di 7 giorni;
che la stessa trovava riparo temporaneo da un parente; che ella sporgeva quindi querela nei confronti del marito e si recava poi al Soccorso ove le venivano riscontrati traumi al volto, al tronco e al braccio; che l'equipe del centro antiviolenza trasmetteva denuncia di reato alla Procura della Repubblica competente; che dopo alcuni giorni la ricorrente rientrava a casa, non volendo lasciare soli i figli minori; che la situazione con il marito non migliorava, posto che quest'ultimo, spesso ubriaco, la minacciava e maltrattava ripetutamente, anche davanti ai figli; che la ricorrente si allontanava di nuovo da casa, pur intimorita per i figli.

Costretti a vivere con un padre violento e dedito all'alcool;
con provvedimento depositato dell'8.10.2018, il giudice designato ordinava al sig. QA l'immediato allontanamento dalla casa coniugale, la cessazione di ogni condotta pregiudizievole sino ad allora tenuta nei confronti della moglie e dei figli e prescriveva al convenuto di non avvicinarsi ai luoghi abitualmente frequentati dalla moglie e dai figli; fissava quindi udienza ex art. 736 *bis* co 3 per la conferma, modifica o revoca del provvedimento; il convenuto si costituiva con memoria del 19.10.2018, precisando di trovarsi presso il carcere di (il Q era stato arrestato perchè aveva violato l'ordine di protezione il giorno stesso della notifica) e chiarendo di intendere promuovere al più presto giudizio di divorzio diretto, secondo la legge nazionale delle parti, posto che
"*le continue e reciproche provocazioni tra i coniugi e le errate abitudini del resistente, affetto da alcolismo acuto"* avevano determinato *Sfatti di reciproca e gratuita violenza domestica con aggressioni fisiche non più reciprocamente tollerabili";*
all'udienza del 22.10.2018, la ricorrente confermava tutti i fatti esposti nel ricorso e in particolare la condotta violenta tenuta dal coniuge nei confronti della moglie il 4 settembre 2018 e le minacce che sono seguite nel periodo successivo; precisava inoltre che il marito, dopo la notifica del decreto, era uscito spontaneamente da casa e si era recato a dormire presso un parco, ma poi, la sera stessa, era tornato sotto casa due volte, ubriaco, suonando il campanello ed era quindi stato arrestato e condotto in carcere;
alla successiva udienza del 30.10.2018 compariva personalmente il convenuto, il quale ammetteva che il 4 settembre vi era stato un forte litigio con la moglie, ma negava di aver picchiato la ricorrente e di abusare di sostanze alcoliche, allegando problemi di salute (diabete, pregresso ictus e pregresso intervento all'intestino);
la parte ricorrente insisteva per la conferma del provvedimento emesso *inaudita altera parte*, mentre il legale del convenuto chiedeva la modifica del provvedimento con richiesta di collocamento del Quiatchon presso il fratello del resistente;

OSSERVA

Il decreto emesso in data 7.10.2010, depositato l'11.10.2010 deve essere confermato.
La ricorrente, sentita dal Giudice, ha pienamente confermato in udienza gli accadimenti del 4.9.2018 e dei giorni successivi e quindi la condotta violenta tenuta dal marito ai suoi danni e le minacce rivolte successivamente contro la stessa, per indurla a lasciare la casa coniugale.

A

A sostegno delle proprie allegazioni, la Qu ha prodotto: - la querela sporta contro il marito il 5.9.2018, e quindi subito dopo i fatti; - il verbale del pronto Soccorso dell'Ospedale dal quale risulta accertata in data 4.9.2018, all'esame obiettivo *"tumefazione zigomatica sinistra e ecchimosi toracica anteriore sinistra a doppia striscia",* con diagnosi di policontusione da aggressione e prognosi di 7 giorni (lesioni del tutto compatibili con le modalità dell'aggressione, come descritte nel ricorso e nella querela, intervenuta con schiaffi e pugni al volto e graffi al petto);
- la denuncia di reato redatta dagli operatori del Soccorso , ove si da atto che venivano riscontrate all'esame ispettivo della ricorrente *"al volto, in regione zigomatica sinistra, tenue area di soffusione blu-verdastra",* in regione sottoclaveare sinistra *"quattro aree di soffusione rossastra del tegumento",* con alcune aree di perdita di sostanza del tegumento, e infine all'avambraccio sinistro *"aree di soffusione rosso-violacea del tegumento".* Gli elementi di prova documentale forniscono adeguato sostegno alle allegazioni della ricorrente.
Il convenuto, nel costituirsi in giudizio, non ha del resto smentito la ricostruzione dei fatti resa dalla moglie e ha riconosciuto che il matrimonio tra le parti è ormai caratterizzato da *"fatti di reciproca e gratuita violenza domestica con aggressioni fisiche non più reciprocamente tollerabili*", anche a causa di *"errate abitudini del Q* ", *"affetto da alcolismo acuto".*
Sentito in udienza, il QQ ha ammesso il *"forte litigio"* del 4 settembre, pur negando di aver picchiato la moglie, ma confermando che la stessa si era recato in ospedale per farsi visitare. Il convenuto ha negato di abusare di sostanze alcoliche, asserendo di soffrire di diabete e di non poter bere molto perché malato. La condotta tenuta dal convenuto il giorno della notifica del decreto, non contestata, fornisce del resto ulteriore conferma del fatto che il Qu sia persona non incline al rispetto delle regole, e probabilmente realmente affetta da problemi di abuso alcolico, potendo quindi ancora porre in atto condotte lesive dell'integrità fisica o morale della moglie, se rimesso in libertà e ove l'ordine di protezione non fosse confermato. Gli elementi di prova documentale sopra descritti, nonchè le parziali ammissioni del convenuto e la valutazione della condotta del Qu successiva alla notifica del decreto giustificano, in definitiva, ad avviso di questo Giudice, la conferma dell'ordine di protezione emesso *inaudita altera parte*, dovendo ritenersi provata la fondatezza del ricorso ed essendo emersa prova di condotte del convenuto pregiudizievoli per l'integrità fisica e morale della moglie.
Va ribadito che il provvedimento ex art. 342 bis c.c. è finalizzato ad assicurare la tutela del singolo individuo all'interno del nucleo familiare, garantendo una protezione tempestiva e preventiva rispetto al degenerare delle situazioni interpersonali e *non* richiedendo peraltro che le condotte poste in essere assurgano a rilevanza penale, essendo sufficiente il verificarsi di eventi dannosi all'integrità fisica o morale o alla libertà, causalmente riconducibili alla condotta dell'altro (eventi dannosi che nella fattispecie si sono effettivamente verificati, secondo quanto provato in causa).

Quanto al profilo temporale, deve fissarsi una durata di sei mesi dell'ordine di protezione.
Le spese di lite gravano sul convenuto soccombente e vengono liquidate come da dispositivo. Tali spese dovranno essere rifuse all'Erario, essendo la ricorrente ammessa al patrocinio a spese dello Stato.

presso la propria abitazione nella speranza di poter nuovamente instaurare una relazione sentimentale ed una convivenza serena, anche dopo la pronuncia divorzile resa nel gennaio 2018;

N. R.G. 17066/2018

TRIBUNALE ORDINARIO di MILANO

SEZIONE IX CIVILE

IL GIUDICE dott.ssa Maria Laura Amato,

Sul ricorso urgente depositato in data 27 dicembre 2018 da T A

nei confronti di U S S e assegnato a questa A.G. in data 27 dicembre 2018 ex artt. 342 bis, 342 ter c.c., 736 bis c.p.c.,

letti i documenti allegati,

ha pronunciato, *inaudita altera parte,* il seguente:

DECRETO

Premesso che:

- La ricorrente T A, con ricorso urgente, ha richiesto pronunciarsi, anche *inaudita altera parte,* un

ordine di protezione, disponendo la immediata cessazione della condotta pregiudizievole tenuta dall'ex compagno U S S nei suoi confronti, alla presenza della figlioletta minore (nata fuori dal matrimonio in data 2015), il divieto di avvicinamento del predetto dalla propria residenza, dal posto di lavoro e dalla scuola materna della figlia nonché l'incarico ai Servizi Sociali affinchè le visite tra la minore e il padre avvengano in spazio neutro.

Rilevato che:

A fondamento dell'istanza la ricorrente ha dedotto ripetuti e sistematici comportamenti violenti dell'ex compagno in suo danno alla presenza della minore, dopo l'interruzione della convivenza nel febbraio 2016 e nonostante una scrittura privata stipulata nel maggio 2016 per le questioni relative al diritto di vista e al mantenimento della minore, che lungi dall'essersi attenuati dopo un parziale accordo raggiunto sotto il profilo economico davanti al Giudice delegato nell'ambito del procedimento dalla medesima instaurato ex artt. 316 IV comma c.c. e 337 bis c.c. (N. 4012/18 RG) e un provvedimento collegiale pronunciato dal Tribunale di Milano in data 9.10.2018 che ha, in via provvisoria e istruttoria, disposto l'affido condiviso della minore ad entrambi i genitori con collocamento presso la madre, modalità di visite con il padre meglio ivi indicate e con incarico ai Servizi Sociali competenti di attento monitoraggio e di verifica del rispetto della regolamentazione con vari poteri di intervento, si sono invece ulteriormente acuiti con episodi recenti. Segnatamente la ricorrente ha riferito dei vari episodi di violenza e aggressività subìti dall'ex compagno, allegando numerose denunce in precedenza dalla medesima presentate presso i compenti Uffici (cfr.

denuncia presentata in data 20.09.2017 sub doc. 11; denuncia presentata in data 06.10.2017 con allegato certificato medico per lesioni con prognosi di gg. 8 per contusione e distorsione rachide cervicale (sub doc. n. 9 e 10); denuncia presentata in data 27.02.2018 (sub doc. 8); denuncia presentata in data 26.07.2018 con allegato certificato medico per lesioni con prognosi di gg. 7 per trauma da schiacciamento (sub doc. n. 4 e 5); denuncia presentata alla Procura Minori in data 19.12.2018 (sub doc. 3). L'evidente conflittualità tra le parti che ci si auspicava scemasse con il provvedimento giudiziario emesso dal Tribunale sopra citato con l'intervento dei Servizi Sociali (delegati appositamente per un attento monitoraggio, per una rimodulazione delle visite disposte con eventuale progressivo ampliamento e in generale per l'avvio di tutti gli interventi necessari), si è invece ulteriormente acuita in occasione dei passaggi di consegna della bambina nei giorni più recenti con comportamenti posti in essere dal resistente, altamente pregiudizievoli per la signora e la minore. Più nello specifico la ricorrente ha riferito che, dopo che la bambina era rientrata il 15 e 16 dicembre dalla casa del padre con uno strano odore di fumo, dalla medesima addebitato al consumo del padre di marijuana in presenza della figlia, in data 20 dicembre 2018 dal momento che la bambina non voleva più andare dal padre, dopo aver strattonato e colpita la donna, l'uomo aveva prelevato la bambina con forza e l'aveva inserita all'interno della propria autovettura e poi, allorquando la madre, con il busto inserito nell'abitacolo, stava cercando di calmare il pianto disperato della figlia, aveva messo in moto, trascinando la signora e facendola cadere poi rovinosamente al suolo, con le lesioni meglio in atti certificate. La ricorrente ha altresì precisato in ricorso che l'uomo veniva anche fermato dalle FFOO, quando dopo qualche ora, aveva riportato la bambina a casa della madre come se nulla fosse successo;

Osservato che:

- I comportamenti violenti e aggressivi lamentati si connotano per particolare gravità e pericolosità, essendo stati posti in essere, nonostante l'intervento anche del Tribunale e la celebrazione di un'udienza di comparizione delle parti, con sempre maggiore violenza, alla presenza della figlia minore, peraltro in tenera età, in occasione del suo passaggio di consegna tra i genitori e appaiono al momento, sulla base di quanto riferito dalla donna (se pur la medesima nell'ambito del separato procedimento abbia sempre chiesto e insistito per un regime di affido condiviso), caratterizzati da un'escalation di aggressività, denotando altresì una pericolosa animosità e accesa conflittualità tra le parti, con possibili gravi ricadute sul benessere psicoemotivo della minore (che dovrà evidentemente nel prosieguo essere oggetto di approfonditi

accertamenti nell'ambito del citato procedimento);

- Il resistente non ha dato prova di comprendere la gravità del suo comportamento, continuando ad assumere atteggiamenti inadeguati con conseguenze come certificate in atti, nonostante le varie denunce già presentate dalla donna con richiesta anche di misure cautelari.

Osservato, altresì, che:

- Emergono al momento sufficienti elementi a sostegno delle affermazioni della ricorrente

rappresentati dalle varie denunce presentate e dai certificati medici in atti, da ultimo con l'episodio grave del

20 dicembre 2018 con le gravi lesioni subite dalla medesima, essendosi peraltro la stessa già rivolta ad un Centro di tutela delle donne maltrattate;

Rilevato che:

- Il provvedimento ex art. 342 bis c.c. è finalizzato ad assicurare la tutela del singolo individuo all'interno del nucleo familiare, garantendo una protezione tempestiva e preventiva rispetto al degenerare delle situazioni interpersonali anche non richiedendo affatto che le condotte poste in essere assurgano a rilevanza penale (che invero sulla base di quanto dichiarato pare di certo sussistere), essendo sufficiente il verificarsi di eventi dannosi all'integrità fisica o morale o alla libertà di un familiare convivente causalmente riconducibile alla condotta dell'altro.
- Le condotte di violenza sia fisica che psicologica e di vessazioni reiterate nel tempo descritte nel ricorso agite nei confronti della ex compagna, in presenza sempre della figlia minore, integrano un grave pregiudizio alla incolumità fisica e morale della ricorrente e della figlia, situazione che potrebbe ulteriormente degenerare qualora si procedesse previo contraddittorio, tenuto altresì conto del contenuto del provvedimento del Tribunale emesso in via provvisoria che prevede le visite tra il padre con la figlia con un intervento dei Servizi Sociali peraltro ancora non attivo e efficace, con necessità quindi di incontri tra le parti, che rischia di acuire ulteriormente il conflitto con rischi gravi per l'incolumità delle parti.
- Appare, pertanto, doveroso pronunciare il presente provvedimento *inaudita altera parte,* fatte salve le necessarie ed ulteriori valutazioni all'esito della costituzione del resistente e tenuto altresì conto dei provvedimenti già adottati e degli approfondimenti che dovranno essere più appropriatamente svolti nell'ambito del procedimento pendente per la responsabilità genitoriale;

Ritenuto, pertanto, che:

- Ricorrono quindi gli estremi per disporre la cessazione della condotta pregiudizievole nonché il divieto di avvicinamento all'abitazione della ricorrente e della sua famiglia d'origine, ai luoghi abitualmente frequentati dalla ricorrente e alla scuola materna della bimba con consegue sospensione al momento delle visite come previste e disposte con il provvedimento emesso dal Tribunale di Milano in via provvisoria in data 9.10.2018 (N. 4012/18), conferendo altresì specifico incarico ai Servizi Sociali, già delegati con il citato provvedimento, di provvedere a regolamentare le visite padre- figlia, con modalità osservate alla presenza di un educatore, nel modo e secondo tempi che dovranno essere stabiliti in questa prima fase, tenendo conto delle esigenze della minore e della sua situazione psicofisica e considerando l'esito degli accertamenti che dovranno essere in seguito svolti anche nell'ambito del procedimento principale per la responsabilità genitoriale;
- nelle more della fissazione dell'udienza debba essere indicato in mesi sei il termine di durata del presente ordine di protezione;

P.Q.M.

Osserva

Lo scrivente, con decreto del IO aprile 2019 ha già - in qualche modo - anticipato le ragioni per cui non sono sussistenti i presupposti di cui all'articolo 342bis c.c.
1 signori hanno cessato la convivenza da mesi ed hanno congiuntamente disciplinato la gestione della figlia dodicenne. Il noto episodio del novembre 2018 è rappresentato in maniera contrapposta dalle parti (contestualmente al fatto il signore ebbe e a sporgere querela nei confronti della signora, offrendo una circostanziata rappresentazione quanto meno delle ragioni che quel giorno determinarono sicuramente momenti di tensione). Successivamente, tra le medesime parti non vi è stato più alcun contatto diretto; tanto meno vi sono state aggressioni o minacce da parte chicchessia.

La situazione conflittuale tra le parti riemerge solo ad aprile 2019, quando la signora riferisce un singolo episodio (perché di un episodio si tratta, nel momento in cui viene depositato il ricorso) in cui il padre avrebbe schiaffeggiato la figlia. In conseguenza di tale fatto, la signora chiede un ordine di protezione urgente che ha il reale e improprio scopo di modificare, di fatto, le frequentazioni tra padre e figlia.

Nel corso dell'udienza del giorno 29 aprile 2019 le parti hanno reso le seguenti dichiarazioni:

Il signor R : il giorno prima delle vacanze pasquali mi sono recato sotto casa della signora per fare scendere la bambina, la signora non ha risposto e allora mi sono avvicinato al portone, suggerito dalla polizia ho chiamato la volante che sopraggiungeva c provava a citofonare alla signora. Sono entrati gli stessi poliziotti ai piani a chiedere dove fosse la signora visto che io non so neanche esattamente quale sia l'appartamento dove vive. Questo è accaduto prima che io avessi conoscenza di qualsiasi cosa. L'episodio a cui si riferisce la signora è accaduto un giorno in cui la signora mi ha chiamato dicendomi che la scuola aveva chiamato dicendo che la bambina non stava bene, era la mia settimana e quindi io avrei dovuto ritirarla. Mi sono recato a scuola e la bidella mi di un foglio firmato dalla signora con cui chiedeva uscita anticipata di un'ora c trenta. Visto che la cosa non mi tornava mi sono recato sotto casa della signora a chiedere se conoscessero o avessero visto una bambina. Io comunque la bambina non l'ho più vista da quel giorno. Precedentemente nei periodi di mia spettanza avevo già concesso diverse ore alla signora perché la bambina mi aveva chiesto di stare con la madre. La scuola a me ha detto di non avere mai chiamato.

La signora C dichiara: io in quel momento non ero presente a casa così come non era presente la bambina e quindi non so cosa sia accaduto. Dopo questi fatti ho trovato la cassetta delle poste divelta. Era l'unica. Il 18 aprile i condomini mi hanno detto che un signore era venuto a chiedere con insistenza di dove fossi io. Sono stata chiamata dalla scuola il giorno in questione e ho firmato l'uscita anticipata. Al mattino alle 7:30 ho trovato due telefonate di mia figlia quindi mi sono recata a scuola e ho chiesto di fare uscire un attimo mia figlia. Mia figlia è uscita, era tremante, mi ha detto che la sera prima era stata schiaffeggiata di nuovo, io le ho chiesto se stava bene, lei mi ha detto che sarebbe rientrata a fare un compito in classe, lo le ho detto di non preoccuparsi che avrei verificato la situazione. Poi alle 15 meno un quarto mi ha chiamato la scuola e allora sono andata a ritirare la bambina.

Da tali dichiarazioni vieppiù non emerge alcun comportamento persecutorio o aggressivo da parte del resistente. Per essere chiari, è del tutto comprensibile che - il giorno in cui la bambina è stata ritirata da scuola senza nulla dire al padre - egli abbia cercato informazioni presso il condominio della signora. E sempre per essere chiari, è fortemente inverosimile che, quel giorno, la signora abbia effettivamente ricevuto una chiamata dalla scuola. La signora si reca dalla bambina nel corso del mattino, ne registra il malessere e dice che si organizzerà: cioè, logica vuole, la va a prendere prima dell'uscita per fare in modo che il padre (era il giorno di sua spettanza) non andasse a ritirarla.

I. servizi sociali, immediatamente investiti della questione, hanno depositato una relazione preliminare dalla quale emergono pochi fatti certi: la situazione è estremamente conflittuale e confusa; i genitori offrono una spiegazione contrastante e contrapposta delle difficoltà della minore; la bambina non sta bene, non vuole vedere il padre e dice di esserne spaventata.
Qui l'unico vero tema da approfondire è - appunto - il malessere della bambina e le sue cause. Si tratta di capire se è vero che, improvvisamente, il padre abbia assunto comportamenti inadeguati verso la bambina, se la madre abbia piuttosto contribuito a esasperare il rapporto padre/figlia o se tutte e due le cose siano contemporaneamente vere. Quello che è certo è che questa non è materia da articolo 342bis c.c..

Nel contesto del pendente procedimento ex articolo 316 c.c. - proposto da parte ricorrente contestualmente al ricorso ex art. 342 bis c.c. - il tribunale ha già conferito ai servizi sociali i necessari incarichi per effettuare i dovuti approfondimenti. In attesa di questi, è chiaro che le cose non possono proseguire come se nulla fosse. La bambina non vuole più andare dal padre c il padre, preso atto di questa volontà, si è impegnato a non chiedere più incontri con la figlia fino a quando non verranno svolte le necessarie indagini da parte dei servizi sociali. Nel corso del procedimento predetto potranno essere assunti tutti i provvedimenti opportuni e necessari nell'interesse della minore.

Il presente giudizio, sul quale parte ricorrente ha insistito, deve chiudersi con il rigetto.Le spese seguono la soccombenza e possono essere quantificate - come da tabella di sezione - in curo 2.000 più spese e accessori.

P.Q.M.

RESPINGE il ricorso.

PRENDE ATTO dell'impegno del signor R a non richiedere più visite con la figlia fino a quando non saranno svolte le indagini psicosociali delegate e assunti i relativi provvedimenti;

DISPONE che i servizi sociali già incaricati con decreto in data 17 aprile 2019 diano seguito alle deleghe conferite, eventualmente anche con indagine psicodiagnostica se ritenuta necessaria;

CONDANNA parte ricorrente a rifondere le spese di lite a parte resistente, quantificate in euro 2.000,00. più spese generali del 15% e accessori di legge.

,Si comunichi alle parti e con urgenza ,ai servizi sociali competenti per territorio (

Per parte convenuta:

Voglia l'Ill.mo Tribunale adito rigettata ogni istanza, eccezione e domanda avversaria, accogliere le seguenti

CONCLUSIONI

1. pronunciare, il divorzio, affidando i figli G. e P. in via super esclusiva o esclusiva alla madre e confermare l'incarico al Servizio Sociale per la valutazione, se ritenuto opportuno, dei rapporti padre e figli, tenuto conto dello stato di compensazione psichica del padre e previa adeguata preparazione, assistenza e accompagnamento dei due minori. In ogni caso, monitorare il sig. A. anche in relazione alla conclamata pericolosità dello stesso.

2. assegnare il 50% di proprietà del sig. A. dell'immobile adibito a la casa coniugale, sita in via , alla signora S. D. F. L. R. , che continuerà ad abitarci con i due figli;

3. porre a carico del signor A. un assegno di contributo al mantenimento dei due figli, G. e P., non inferiore a € 500,00 mensili oltre rivalutazione Istat nonché il 50% delle spese straordinarie come stabilite dalle Linee Guida della Corte di Appello di Milano del 14.11.2017 sostenute per i figli o al diverso importo che verrà ritenuto di giustizia e che verrà quantificato in sede di giudizio;

4. confermare quanto statuito in sede di separazione circa la ripartizione della vendita di beni e terreni già oggetto della comunione legale, al netto di qualsiasi spesa relativa alla vendita nella misura del 60% a favore della sig.ra D. F. L. R e del 40% a favore del sig. A. precisando che trattasi dei seguenti terreni: tre appezzamenti di terreno siti in Comune di , sei terreni e un fabbricato rurale siti in Comune di e un terreno sito in località sul .

5. confermare altresì quanto concordato tra le parti circa l'impegno assunto in sede di separazione e non ancora adempiuto da parte del sig. A. circa la corresponsione alla sig.ra D. F. L. R dell'importo complessivo pari a € 12.000,00 a titolo di rimborso parziale delle spese sostenute dalla sig.ra D. F. L. R. per la ristrutturazione della casa coniugale, nonché le spese condominiali sino

all'assegnazione della casa a favore della stesa e che tale importo verrà corrisposto con le seguenti modalità: un terzo dell'importo di € 12.000,00 (cioè €4.000,00) alla vendita del primo terreno in comunione dei beni purché la vendita sia capente, altrimenti alla vendita del primo terreno il cui importo ricavato sia capiente, un quarto dell'importo residuo a seguito della vendita del successivo terreno capiente, il residuo importo (€ 6.000,00) su cui verranno calcolati gli interessi legali, sarà corrisposto in 24 rate mensili di pari somma che decorreranno dall'ultima rata del pagamento delle cartelle esattoriali a carico del sig. A. e comunque il pagamento a favore della D. F. non potrà iniziare più tardi di cinque anni dal deposito della sentenza di separazione.

6. confermare che su accordo delle parti il sig. A. si è impegnato a rinunciare al pagamento da parte della sig.ra D. F. L. R. di qualsiasi bolletta, tasse, bolli non ancora pagati a lui intestati.

7. rigettare le domande avversarie in quanto del tutto infondate in fatto e in diritto.
8. con vittoria di spese e compensi di causa. In via istruttoria:

- *Si chiede che il Giudice adito voglia disporre gli opportuni accertamenti dei redditi e del patrimonio del convenuto per il tramite della polizia tributaria. Ed invero non è dato comprendere, stante l'asserito esiguo reddito che il convenuto avrebbe, a suo dire, a propria disposizione, da dove il sig. A. abbia attinto i soldi per i continui trasferimenti dall'Italia alla Germania e viceversa, nonché come abbia potuto permettersi una vacanza nel mese di maggio 2017 a Lanzarote, circostanza dallo stesso confermata in una mail (cfr doc. 20). Inoltre il sig. A. pochi mesi fa ha acquistato, tramite un'asta giudiziaria, promossa dal Tribunale di Savona, un rudere ed un terreno che intende, a suo dire, ristrutturare e dove vorrebbe trasferire la propria residenza (cfr doc. 21)*
- *Si chiede che il Giudice ordini l'esibizione della documentazione lavorativa, come contratti di lavoro, buste paga, dichiarazione dei redditi depositata in Germania. Il fatto che il sig. A. abbia potuto riprendere a lavorare sommato all'intervenuta revoca del provvedimento di amministratore di sostegno dimostra la sua completa riconquistata capacità lavorativa, ragione per la quale nulla potrà più essere eccepito circa la sua presunta incapacità a svolgere attività professionali, motivazione sostenuta sino a poco tempo fa dalla difesa avversaria a sostegno del tentativo di esonerare il sig. A. dall'obbligo di legge di mantenere i figli. Il sig. A, qualora, al contrario, non svolgesse alcuna attività lavorativa, essendo cittadino tedesco e residente in Germania, avrebbe diritto all'assegno di Assistenza Sociale, il cd. Hartz IV, che gli permetterebbe di percepire un assegno mensile non inferiore ad*

€ 400,00 e che gli venga messo a disposizione un alloggio. Si precisa che tale misura assistenziale viene erogata a chiunque non abbia un lavoro e/o non abbia svolto alcuna attività lavorativa. In alternativa il sig. A. potrebbe percepire l'indennità di disoccupazione che viene erogata a chi ha lavorato almeno dodici mesi negli ultimi tre anni. Tale indennità corrisponde al 60% del valore netto dello stipendio percepito.

- *Si insiste, quindi, affinché il Giudice, se ritenuto opportuno, ordini al sig. A. di esibire tutta la documentazione relativa all'eventuale percepimento dell'assegno di assistenza sociale ovvero dell'indennità di disoccupazione. Il sig. A. sostiene nella propria comparsa di costituzione e risposta e nella successiva memoria di non avere la possibilità di reperire un lavoro ovvero di procurarsi quanto necessario per vivere. In realtà il sig. A, come sopra esposto e come risulta dalla documentazione che si produce ad integrazione di quanto già prodotto, muove del denaro della cui provenienza si chiede sin da ora che il Giudice accerti la provenienza. Il sig. A, infatti, come detto ha acquistato un rudere in provincia di tramite aggiudicazione di un'asta. Inoltre, come dallo stesso confermato in una mail inviata alla sig.ra D. F. in data 14.12.2016 fa riferimento ad un conto corrente in a Lui intestato acceso presso una banca di sul quale vi sarebbero dei denari che lo stesso avrebbe utilizzato. Si segnala che la sig.ra D.F. è al corrente dell'esistenza di tale conto sin dal tempo del matrimonio, del quale tuttavia non ha mai saputo i riferimenti precisi.*
- *Si chiede che il Tribunale ordini ex art. 210 c.p.c. al sig. A. l'esibizione dei conti correnti accesi presso banche svizzere e a lui riferibili. Infine non si può non considerare che il sig. A. alla morte del padre avvenuta in data 14.4.2015, in qualità di erede legittimo sicuramente aveva diritto ad una quota dell'eredità. La madre, sig.ra L. F. L. ha sempre gestito, anche per conto del figlio, il patrimonio nella assoluta libertà e senza nessun limite. Non avendo più il sig. RAGIONI IN FATTO E IN DIRITTO DELLA DECISIONE

Il Processo: i provvedimenti presidenziali provvisori e i provvedimenti del Giudice Istruttore

Con ricorso, depositato in data 14.6.2016, A. A. K. , sottoposto alla misura dell'Amministrazione di Sostegno, chiedeva a questo Tribunale di dichiarare lo scioglimento del matrimonio, contratto a il con D. F. L. R. S. , dalla quale si era separato con sentenza del Tribunale di Milano n. 6587/2013 del
24.4/10.5.2013 e di confermare le condizioni della stessa sentenza che aveva disposto, su precisazione congiunta delle parti, l'affidamento dei figli minori G. K., nato il 2004 e P. M., nato il 2005, al Comune di ,
l'incarico all'Ente Affidatario di regolamentare la relazione padre - figli e di proseguire tutti gli interventi di supporto a favore del nucleo familiare, l'assegnazione della casa coniugale, sita in , in comproprietà tra i coniugi, alla moglie e l'onere di mantenimento integrale dei figli a carico della madre a fronte degli impegni economici di carattere negoziale che le parti si erano assunte.
Dava atto il ricorrente che con decreto definitivo del Tribunale per i Minorenni di Milano del 28.10.2015, su segnalazione dell'Ente Affidatario, erano state sospese le visite fra il padre e i minori in ragione di agiti reattivi dello stesso nel contesto dello Spazio Neutro, ove la frequentazione era stata avviata ed era stato dato incarico all'Ente Affidatario, in collaborazione con gli operatori del CRA di ,ove lo stesso era ricoverato, di avviare la ripresa della relazione padre - figli.
Con comparsa di costituzione, depositata in data 30.11.2016, D. F. L. R. S., costituendosi, aderiva alla domanda di divorzio e chiedeva di disporre l'affido esclusivo rafforzato a sé dei figli, di confermare il collocamento dei minori presso di sé, le statuizioni da ultimo assunte dal Tribunale per i Minorenni di Milano quanto alla frequentazioni tra i figli e il padre, l'assegnazione alla stessa della casa coniugale, di determinare a carico del padre un contributo al mantenimento per i figli di € 500 mensili, oltre al pagamento del 50% delle spese straordinarie e di confermare le altre condizioni economiche concordate in sede di separazione. All'udienza presidenziale del 7.3.2017 il Presidente, dato atto dell'impossibilità di effettuare il tentativo di conciliazione, attesa l'assenza personale della parte ricorrente, sentiva il suo Amministratore di Sostegno presente e la resistente e con ordinanza riservata in data 7.3.2017, da intendersi qui integralmente richiamata, confermava i provvedimenti della separazione quanto ai profili della responsabilità genitoriale e poneva a carico del padre l'obbligo di contribuire al mantenimento dei figli con un assegno mensile di € 80, nominava se stesso Giudice Istruttore e fissava l'udienza di prima comparizione e trattazione per il giorno 14.9.2017.
Designato dal Presidente di Sezione il nuovo Giudice Istruttore, atteso il trasferimento ad altro ufficio del Giudice assegnatario, parte attrice con la memoria integrativa chiedeva la conferma dei provvedimenti provvisori assunti, mentre parte convenuta insisteva in tutte

le proprie allegazioni e domande.
All'udienza del 14.9.2017 le parti personalmente presenti venivano sentite e il Giudice Istruttore formulava una proposta conciliativa ex art. 185bis c.p.c, come meglio a verbale indicata, chiedendo una relazione di aggiornamento all'Ente Affidatario e disponendo un rinvio, chiesto dei difensori delle parti al fine di poter valutare la proposta.
Intervenuta la revoca della misura di protezione per il signor A. da parte del Giudice Tutelare Italiano con provvedimento del 12.1.2018, avendo l'Autorità Giudiziaria della Germania, ove l'attore da circa un anno e mezzo si era trasferito, con decisione del 7\12\17 ritenuto lo stesso non più bisognoso di tale tutela e concesso un termine all'attore per costituirsi a mezzo di un difensore, con comparsa in data 29.3.2018 parte attrice si costituiva, chiedendo l'affido condiviso dei figli, la ripresa della sua relazione con gli stessi, la revoca dell'obbligo di mantenimento posto a suo carico per i figli e un assegno divorzile per sé di € 300 mensili.
All'udienza del 5.4.2018 il Giudice Istruttore, attesa la richiesta dei termini di cui all'art. 183 comma 6 c.p.c, avanzata dai procuratori delle parti e la questione sollevata in ordine ad un intervento medico urgente per il figlio P., con provvedimento a verbale così provvedeva:
"dato atto di quanto sopra, letta la relazione di aggiornamento del Comune di , Ente Affidatario dei minori del 27.3.2018
ritenuto che allo stato deve mantenersi l'affidamento all'Ente e che a specificazione delle statuizioni pregresse entrambi i genitori sono ex art. 333 c.c limitati nella responsabilità genitoriale quanto alle decisioni rilevanti la vita dei figli relative alla salute, all'istruzione, all'educazione, decisioni che devono essere assunte dall'Ente Affidatario sentiti i genitori e ciò ora con particolare riguardo alla necessità dell'intervento chirurgico indicato dal referto versato in atti dell'Ospedale, sentiti i suddetti sanitari e salva diversa indicazione degli stessi sanitari che hanno svolto gli accertamenti sopra detti
dispone che l'ente affidatario prosegua tutti gli incarichi e gli interventi già dati e fornisca una indicazione sulla attuale condizione psicofisica dei minori anche in relazione alla possibilità di una ripresa della relazione con il padre trasmettendo una relazione di aggiornamento entro il

vista la richiesta di parte assegna i termini di cui all'art. 183 comma 6 n. 1, 2 e 3 c.p.c rispettivamente sino al 7.5.2018, 6.6.2018 e 26.6.2018

fissa l'udienza del 28.11.2018 ore 9.00 per la precisazione delle conclusioni".

Depositata la documentazione disposta dal Giudice Istruttore solo da parte A.,
pervenuta in data 16.11.2018 la relazione dell'Ente Affidatario e precisate le conclusioni dalle parti all'udienza del 28.11.2018, in pendenza dei termini di cui all'art. 190 c.p.c si
rendeva necessaria l'interruzione del giudizio, dichiarata ex art. 300 c.p.c dal Collegio con ordinanza del 2.1.2019, da intendersi qui integralmente richiamata, essendo stata depositata dalla difesa dell'attore nota in data 28.12.2018 in cui dava atto che il signor A. era stato nuovamente sottoposto alla misura dell'Amministrazione di Sostegno da parte del Tribunale di S.su richiesta della Procura della Repubblica presso il Tribunale di Savona.
In data 21.1.2019 D. F. L. R.S. depositava ricorso in riassunzione, chiedendola prosecuzione del giudizio e la fissazione dell'udienza e reiterando le proprie conclusioni. Fissata l'udienza del 8.5.2019 per la precisazione delle conclusioni con decreto collegiale in data 23.1.2019, da intendersi qui integralmente richiamato e costituitosi il signor A. con l'avvocato munito di procura rilasciata dall'Amministratore di Sostegno, autorizzato dal Giudice Tutelare, all'udienza del 8.5.2019 i difensori delle parti precisavano le conclusioni come in epigrafe riportate e la causa veniva rimessa al Collegio per la decisione, assegnando alle parti termine di giorni 30 per il deposito delle comparse conclusionali e termine di giorni 20 per il deposito delle memorie di replica, tempestivamente presentate da entrambe le parti.

La giurisdizione e la legge applicabile
Preliminarmente osserva il Collegio che quanto alla domanda sullo *status* sussiste la giurisdizione del Tribunale italiano ai sensi dell'art. 3 del regolamento CE 2201/2003, posto che, avendo i coniugi diversa nazionalità (tedesca l'attore ed italiana la convenuta), la residenza abituale dell'attrice è da oltre un anno rispetto alla proposizione del ricorso (confr. anche certificato di residenza) ed è applicabile la legge italiana ex art. 8 lett. d) del regolamento UE n. 1259/2010, in quanto legge dello Stato in cui è stata adita l'Autorità Giurisdizionale, in mancanza di scelta ad opera delle parti e attesa l'inapplicabilità degli altri criteri previsti dalla citata disposizione regolamentare.

Il materiale probatorio
La causa può essere decisa in relazione a tutte le domande svolte dalle parti. Gli elementi probatori acquisiti attraverso gli aggiornamenti forniti dai Servizi Sociali del Comune di , che hanno in carico il nucleo familiare da tempo e attraverso le produzioni documentali versate in atti dalle parti consentono al Collegio di pronunciare una motivata decisione sia quanto ai profili della responsabilità genitoriale sia quanto alle domande accessorie economiche.
A fronte della reiterazione in sede di precisazione delle conclusioni da parte attrice della richiesta di CTU medica sul suo attuale stato di salute e da parte convenuta di tutte le sue istanze istruttorie, il Collegio non può che confermare le determinazioni istruttorie assunte dal Giudice Istruttore sopra integralmente riportate, in quanto pienamente condivisibili e motivate.
Del tutto superfluo è, infatti, ogni approfondimento sulla situazione psicofisica del signor A., attesa la documentazione aggiornta del CPS che lo segue già presente in atti. Quanto alla questione economica, che ha impedito di fatto di definire il presente giudizio sin dalla prima udienza di comparizione e trattazione, valutando forse con maggiore attenzione e ponderazione da parte di entrambe le parti la proposta conciliativa del Giudice Istruttore, non può il Tribunale non rammentare che è consolidato orientamento della Suprema Corte che, al fine della determinazione dei contribuiti di mantenimento, la valutazione delle condizioni economiche delle parti non richiede necessariamente l'accertamento dei redditi nel loro esatto e preciso ammontare attraverso l'acquisizione di dati numerici o rigorose analisi contabili e finanziarie, essendo sufficiente un'attendibile ricostruzione delle complessive situazioni patrimoniali e reddituali dei coniugi (Cass. Sez. I 5.11.2007 n. 23051, Cass. Sez. I 7.12.2007 n. 25618, Cass. Sez. I 18.6.2008 n.

16575, Cass. Sez. I 28.1.2011 n. 2098, Cass. Sez. I 6.6.2013 n. 14336, Cass. Sez. VI- I 15.11.2016 n. 23263). Ricostruzione che, nel caso di specie, ritiene il Tribunale di poter effettuare sulla base del materiale probatorio acquisito agli atti attraverso le produzioni documentali effettuate dalle parti anche per ordine del Giudice Istruttore e tenuto conto che in ogni caso il Giudice ben può trarre argomenti di convincimento e di prova anche dal comportamento processuale delle parti in relazione agli ordini di esibizione non completamente o non correttamente adempiuti (Cass. Sez. 6 - 1 Ordinanza n. 225 del 11/01/2016).

Deve, infine, osservarsi che parte A. ha allegato alla comparsa conclusionale un certificato del 18.4.2019 del CPS che lo ha preso in carico, su cui parte D. F. L. R. ha avuto modo di esercitare il suo diritto di difesa in sede di memoria di replica e, a fronte dell'allegazione fatta da parte convenuta nella sua comparsa conclusionale del fatto che era stato emesso a carico del marito un avviso ex art. 415bis c.p.c. per il reato di stalking, ha allegato alla sua memoria di replica il verbale del 17.5.2019 dell'interrogatorio, cui lo stesso ha chiesto di essere sottoposto e in cui ha ammesso i fatti contestati.

Ritiene il Collegio che entrambi tali documenti siano rilevanti ai fini della decisione e possano, quindi, essere utilizzati, attesi i peculiari poteri istruttori di ufficio di cui il Giudice del conflitto familiare dispone nell'interesse dei minori ed avendo le parti nel caso di specie esercitato il diritto di difesa su tali produzioni documentali.

La domanda di divorzio

La domanda principale è fondata e deve, pertanto, trovare accoglimento.

I coniugi, che hanno contratto matrimonio a il 2004, si sono separati con sentenza del Tribunale di Milano n. 6587/2013 del 24.4/10.5.2013, irrevocabile, dopo essere stati autorizzati a vivere separati all'udienza ex art. 708 c.p.c del 25.5.2011.

Essendosi protratto lo stato di separazione tra gli stessi per il periodo previsto dalla legge (il ricorso è stato depositato il 14.6.2016), non essendo stata eccepita un'intervenuta riconciliazione, avendo entrambe le parti dato atto che da allora non è ripresa la convivenza e tenuto conto di quanto emerge dalle relazioni dei Servizi Sociali agli atti, ricorrono gli estremi previsti dall'art. 3 n. 2 lett. b) L. 898/70 e successive modifiche per la pronuncia dello scioglimento del matrimonio, dovendosi ritenere accertato che la comunione materiale e spirituale tra i coniugi non possa essere mantenuta o ricostituita.

<u>La responsabilità genitoriale</u>

Ritiene il Tribunale che, all'esito del giudizio e sulla base degli elementi acquisiti, emergenti dalle relazioni di aggiornamento dei Servizi Sociali del Comune di che hanno seguito il nucleo familiare per oltre otto anni (il giudizio di separazione è iniziato il 24.3.2011), può disporsi l'affido esclusivo rafforzato dei figli minori G. K. e P. M. alla madre.

La signora D. F. L. R. , la cui capacità di accudimento primario non è mai stata messa in discussione, ha raggiunto, attraverso gli interventi a suo favore posti in essere da tutti gli operatori che hanno seguito la vicenda familiare, *"uno stato di equilibrio personale stabile e notevolmente evoluto rispetto alla fase di avvio dei lavori dei Servizi, una capacità di attivarsi in autonomia rispetto agli interventi utili e necessari a favore dei figli e una capacità di esercitare il ruolo genitoriale senza necessità di ulteriori limitazioni ".*

La madre ha, infatti, negli anni superato le sue fragilità personali connesse anche ai gravi agiti passati e di nuovo posti in essere dal marito anche nel corso del presente giudizio, così da riuscire a comprendere i bisogni e le esigenze emotive ed affettive dei figli, di cui si sta occupando da sola e in piena autonomia con grande attenzione e dedizione per tutti gli aspetti che riguardano i minori.

Ha dato prova nel corso del giudizio di non essere affatto ostacolante della relazione padre - figli, attenendosi alle indicazioni e ai suggerimenti offerti sia dal dott. P. G., che segue da tempo i minori, sia dagli operatori dei Servizi Sociali (si pensi alla ripresa dei contatti telefonici tra P. e il padre e ciò pur a fronte dei comportamenti ancora seriamente preoccupanti tenuti dal signor A. che ha inviato ai figli dei coltelli nelle scatole loro indirizzate e che ha avuto agiti aggressivi, volgari e squalificanti anche nei riguardi degli operatori dei Servizi; confr. relazione del 18.7.2017 e relazione del 27.3.2018).

Alla madre deve, quindi, oggi riconoscersi un'integra capacità genitoriale che la pone in condizione di poter gestire in autonomia tutte le questioni che riguardano i figli.

Analogo discorso non può farsi per il signor A., atteso che la patologia psichiatrica allo stesso da tempo diagnosticata non ha affatto trovato soluzione e incide pesantemente sulle sue capacità genitoriali complessivamente intese.

Nelle relazioni di aggiornamento trasmesse l'Ente Affidatario ha descritto in modo attento l'incapacità del signor A. di sintonizzarsi sui bisogni dei figli e di accogliere le indicazioni in tal senso offerte dagli operatori, con cui ha avuto un costante rapporto di sfida e di rivendicazione.

Sul punto ad esempio è indicativo quanto scrivono gli operatori in relazione al contatto telefonico che si era organizzato tra P. e il padre su richiesta del minore stesso che poi riferisce all'educatore *"di sentirsi deluso, avendo sentito il papà volgare e ripetitivo, che parlava a voce alta e solo lui".*

Del pari è degna di menzione come esempio dell'incapacità paterna di comprendere le esigenze di tutela dei figli e di rispettare le indicazioni date dagli operatori a tutela dei minori la circostanza per cui lo stesso si è presentato, nonostante gli fosse stato espressamente vietato, data l'interruzione prolungata della relazione, in Ospedale il 2.9.2018 dopo l'intervento subito da P., fermato in tempo dal personale sanitario che era allertato della situazione (confr. relazione del 16.11.2018).

E la psicopatologia del signor A. è ancora presente e della stessa lo stesso non ne ha alcuna consapevolezza.

Il 29.10.2018 ha subito un nuovo ricovero in TSO con diagnosi di accesso di *"schizofrenia paranoide scompensata"* e durante il ricovero "*ha presentato una sintomatologia molto florida, con disforia, contenuti di pensiero bizzarro, megalomanico e persecutorio, inadeguatezze comportamentali. Ha poi positivamente recuperato un discreto compenso psichico e ha accettato la somministrazione di terapia neurolettica depot. Permane, però, un'assoluta assenza di consapevolezza rispetto alla malattia, alla sua gravità e alla sua cronicità"* (confr. relazione del CPS del 29.10.2018).
E per quanto l'ultima relazione del CPS, datata 18.4.2019, prodotta dal suo difensore in allegato alla comparsa conclusionale, dà conto di una situazione di stabilità e di maggiore collaborazione del paziente, si legge ancora che *"sonopresenti bizzarie comportamentali e tratti di ostinatezza"*.
Del resto il lungo *excursus* della vicenda personale del signor A. porta ad escludere allo stato che lo stesso abbia capacità genitoriali minime per affrontare il percorso di crescita dei figli in condivisione con la madre, come lo stesso chiede in via principale.
Né sussistono più, come sopra detto, le ragioni che avevano portato a disporre l'affidamento all'Ente che lo stesso chiede in via subordinata, avendo la madre dei minori grandemente e ormai da tempo superato le proprie fragilità personali e rafforzato tutti i profili delle competenze genitoriali.
In questo momento l'affidamento monogenitoriale alla signora D. F. L. R. , con concentrazione in capo alla stessa della responsabilità genitoriale per tutte le scelte rilevanti per la vita dei figli relative alla salute, all'istruzione, all'educazione, alla scelta della residenza e alle pratiche amministrative a tali aspetti connessi, rappresenta, ad avviso del Collegio, l'unica soluzione realmente tutelante per i minori, idonea a garantire ai due ragazzi decisioni tempestive e un percorso di crescita il più possibile sereno. L'imprevedibilità, l'incostanza e l'ostinatezza paterna, in buona misura conseguenza della patologia, di cui lo stesso non è minimamente consapevole, il mancato riconoscimento da parte del signor A. del ruolo materno e la mancanza di collaborazione dello stesso con gli operatori dei Servizi Sociali rendono necessario dare alla madre la piena e concentrata gestione della responsabilità genitoriale. Quanto alla relazione padre - figli, attese le indicazioni che erano state offerte dal dott. G. P. terapeuta dei minori e considerata l'attuale presa in carico del signor A. dal CPS competente, con cui sembra ad oggi aver iniziato a collaborare, deve confermarsi quanto disposto in corso di causa dal Giudice Istruttore, tenuto in ogni caso conto dell'evoluzione delle condizioni psicofisiche dei minori e del padre.
La complessità della vicenda impone poi di mantenere in essere tutti gli interventi di sostegno e supporto avviati a favore del nucleo familiare, come indicato nell'ultima relazione di aggiornamento trasmessa. Il Servizio Specialistico della ASL2 di proseguirà la presa in carico presso il CPS del
signor A., sempre che lo stesso sia disponibile e i Servizi Sociali del Comune di ,
competenti per territorio per l'attuale residenza dello stesso, potranno avviare a suo favore ogni altro supporto ritenuto utile anche ai fini della ripresa della relazione con i figli e del recupero delle competenze genitoriali in questo momento, come sopra detto, grandemente compromesse e sempre che il signor A. si renda a ciò disponibile.
I Servizi Sociali del comune di proseguiranno l'intervento educativo domiciliare per entrambi i minori e monitoreranno la prosecuzione del percorso di supporto psicoterapeutico dei minori con il dott. P.G., con cui continueranno il proficuo lavoro di rete sino ad oggi svolto. Tale intervento a favore dei minori appare necessario al fine di accompagnare G. e P., certamente appesantiti dalla vicenda familiare che li ha visti per così lungo tempo coinvolti, alla comprensione ed accettazione della situazione paterna, in vista dell'età adulta e di ciò la madre è pienamente consapevole, avendo condiviso con i Servizi tale soluzione ed essendosi impegnata a ridefinire con il dott. un programma funzionale ai bisogni dei figli. I Servizi Sociali proseguiranno, poi, con le modalità ritenute più adeguate, il sostegno alla genitorialità a favore della signora D. F. L. R. per le finalità già ben delineate dal Giudice Istruttore in corso di causa e connesse alla fase evolutiva preadolescenziale ed adolescenziale cui i minori si stanno affacciando.
I Servizi Sociali devono, infine, continuare a svolgere un'attenta attività di monitoraggio sul nucleo familiare nel suo complesso, segnalando alla Procura della Repubblica presso il Tribunale per i Minorenni di Milano, Autorità Giudiziaria competente, situazioni di grave pregiudizio per i minori.

La casa coniugale
Deve confermarsi l'assegnazione della casa coniugale, sita in , in comproprietà
tra le parti, alla signora D. F. L. R.S. al fine di garantire l'*habitat* domestico e familiare, vivendo i minori con la madre. Del resto sul punto le conclusioni delle parti sono convergenti.

Il mantenimento dei figli
Ritiene il Collegio che, all'esito del giudizio e a fronte delle domande delle parti rimaste sostanzialmente ancorate alle domande introduttive svolte, chiedendo l'attore di essere esonerato dall'obbligo di contribuire al mantenimento dei figli e insistendo la convenuta per un assegno mensile di € 500, oltre al pagamento del 50% delle spese extra assegno come da Linee Guida del Tribunale di Milano, può confermarsi quanto stabilito in via provvisoria dal Presidente.

Le condizioni psicofisiche anche attuali del signor A. rendono certo difficile allo stesso reperire nel breve periodo un'attività lavorativa stabile.
La patologia certificata da cui è affetto, però, anche ora come all'inizio di questo procedimento, porterà a riconoscergli quanto meno la pensione di invalidità di € 280 mensili, di cui ha beneficiato pacificamente fin tanto che era in essere la misura di protezione disposta dal Giudice Tutelare di Milano. E del resto dalla stessa documentazione allegata dal suo difensore risulta che l'INPS ha semplicemente invitato la parte a rivolgersi alla struttura competente per territorio, dato il cambio di residenza del signor A. (doc. 12 parte attrice).
Non può non osservare poi il Tribunale che, nel breve periodo in cui lo stesso non ha avuto la misura di protezione dell'Amministratore di Sostegno, è stato in grado di effettuare operazioni immobiliari, come risulta dall'esame degli estratti conto prodotti che attestano versamenti e prelievi di somme di danaro anche consistenti, comportamenti questi destinati ad essere superati, essendo la misura di protezione stata ripristinata su richiesta della Procura della Repubblica presso il Tribunale di Savona.La gestione delle sue disponibilità è, quindi, di nuovo affidata al suo nuovo Amministratore di Sostegno che, come detto, si dovrà attivare per far percepire all'attore gli emolumenti cui ha diritto in ragione della sua patologia e per avviare anche progetti lavorativi compatibili con il miglioramento delle sue condizioni cliniche.
La signora D. F. L. R. non ha adempiuto l'ordine giudiziale anche alla stessa impartito (confr. ordinanza istruttoria a verbale del 11.7.2018), non offrendo così al Collegio elementi di valutazione aggiornati sulla sua situazione reddituale rispetto a quelli considerati in fase presidenziale.
La stessa, che lavorava e disponeva di un reddito netto mensile di € 1.978 per l'anno di imposta 2015 (reddito complessivo € 27.887, imposta netta € 3.596, addizionali € 547), si è limitata a documentare con la memoria integrativa di aver ottenuto la NASPI dal 8.3.2017 per 473 giorni per un importo
mensile di circa € 813,86 (doc. 14 parte convenuta). Risulta, però, dall'ultima relazione dei Servizi Sociali del comune di del 16.11.2018 che ha trovato lavoro presso un'azienda metalmeccanica di ,assunta con un contratto *full time* per quanto a tempo determinato che la stessa ha riferito agli operatori sarebbe stato rinnovato con il 2019 (confr. pag. 8 della relazione richiamata).
Di tale situazione e soprattutto del reddito mensile percepito la parte nulla ha documentato. Ritiene, quindi, il Tribunale che la stessa abbia quanto meno recuperato quella capacità reddituale esistente al momento introduttivo del giudizio, atteso che si tratta di persona che ha sempre lavorato, dotata di competenze e professionalità. Sembra poi di comprendere dagli scritti difensivi conclusivi delle parti, ed in particolare dalla comparsa conclusionale della convenuta (confr. pag. 13) e dall'esame del conto corrente prodotto dal signor A., ove compare il 4.6.2018 il versamento della somma di € 8.000, che sia stata eseguita almeno in parte la clausola negoziale n. 5 della sentenza di separazione e che sia stato venduto uno dei terreni di proprietà comune di coniugi. Anche la signora D. F. L. R. deve avere, quindi, percepito la sua parte di prezzo, superiore a quella del marito sulla base degli stessi accordi di separazione e di ciò non ha offerto alcuna documentazione. Così, quindi, ricostruita la capacità economico reddituale delle parti nell'attualità e considerata la peculiare situazione soggettiva paterna, ritiene il Collegio che, in applicazione del principio di proporzionalità che deve presiedere alla determinazione della misura del contributo di ciascun genitore al mantenimento dei figli e degli altri criteri di cui all'art. *337ter* comma 4 c.p.c (Cass. Sez. VI-I 1.3.2018 n. 4811) e considerata anche l'assegnazione della casa familiare, di cui il signor A. è comproprietario, alla signora D. F. L. R. , deve confermarsi il contributo paterno omnicomprensivo di € 80 mensili.

La domanda di assegno divorzile per sé avanzata da A. A. K.

Non può trovare accoglimento la domanda di assegno divorzile per sé, avanzata dal signor A., non essendo stati provati i presupposti di cui all'art. 5 comma 6 della legge 898/70, come interpretato alla luce dei principi sanciti dalla sentenza della Cassazione a Sezioni Unite n. 18287 del 11.7.2018, confermati ed esplicitati da successive pronunce del Supremo Collegio (Cass. Sez. I 14.12.2018 n.6386; Cass. Sez. I 14/01/2019 n. 651; Cass. Sez. I 15.3/23.4.2019 n. 11178).
Non è stata provata alcuna sperequazione reddituale tra i coniugi, riconducibile a scelte di vita fatte dalle parti in costanza di matrimonio che possano fondare la funzione compensativa propria dell'assegno divorzile.
Nè del resto nel caso in esame vi è margine per una funzione assistenziale, atteso che la capacità reddituale della signora D. F. L. R, certamente più significativa in questo momento di quella del signor A., è pur sempre modesta ed è interamente destinata a far fronte alle esigenze di vita proprie e dei figli, cui la stessa provvede quasi in via esclusiva, atteso il modestissimo contributo posto in capo al padre.

Le ulteriore domande di parte D. F. L. R.S.

Deve dichiararsi l'inammissibilità delle richieste di cui ai punti 4, 5, e 6 delle conclusioni avanzate da parte convenuta, atteso che le clausole della sentenza di separazione, di cui la stessa chiede la conferma, hanno valenza negoziale, essendo state concordate dalle parti nell'esercizio dell'autonomia negoziale loro propria e di cui in sede di separazione il Tribunale si era limitato a dare atto. Ed è notorio l'orientamento della Suprema Corte sul punto (Cass. Sez. I 19.8.2015 n. 16909). In caso di mancata attuazione delle stesse o del venir meno dell'accordo alla loro puntuale esecuzione, le parti non potranno che farle valere, per quanto possibile, con gli ordinari rimedi processual civilistici.

Le spese di lite

Le spese di lite devono essere compensate, attesa la natura necessaria del giudizio quanto alla domanda sullo *status* e considerate le ragioni della decisione quanto alle questioni attinenti alla responsabilità genitoriale e la reciproca soccombenza in relazione alle statuizioni economiche. Del resto non può non osservarsi che la presente causa si è protratta così a lungo perché le parti non hanno aderito alla proposta conciliativa che il Giudice Istruttore aveva formulato sin dall'udienza del 14.9.2017, proposta conciliativa che nei fatti coincide con la decisione assunta all'esito del giudizio.

P.Q.M.

OMISSIS

letto il ricorso urgente ex art. 342 bis c.c. depositato il 23 luglio 2019 da AD nata a il . (c.f.) rappresentata e difesa dall'avv. , presso il cui studio in , via è elettivamente domiciliata, nei confronti di AN , nato a il (c.f.)

-rilevato che la ricorrente ha chiesto l'emissione di ordine di protezione inaudita altera parte ed in particolare ha chiesto che venga disposto l'immediato allontanamento del marito AN dalla casa familiare, con ordine di immediata cessazione della condotta pregiudizievole tenuta dal medesimo nei suoi confronti, anche alla presenza dei due figli, uno minorenne, l'altra maggiorenne convivente e non economicamente autosufficiente, nonché l'assegnazione di un contributo per il mantenimento per i figli;

-rilevato che a fondamento dell'istanza la ricorrente ha dedotto ripetuti comportamenti aggressivi e vessatori del marito nei propri confronti che, nel corso del tempo, sono diventati sempre più violenti e frequenti, l'ultimo dei quali occorso il 18 luglio 2019 alla presenza del figlio minore N che, spaventato, ha chiesto l'intervento delle Forze dell'Ordine;

osservato che le condotte lamentate dalla ricorrente si connotano per particolare gravità e pericolosità, essendo state poste in essere con sempre maggiore violenza, alla presenza dei figli della coppia, per futili motivi;

1. Il presente provvedimento viene redatto anche secondo i criteri di cui alla pronunzia della Suprema Corte di Cassazione alle SS.UU. n. 642 del 16/01/2015, ed ai sensi dell'art. 16 bis, comma 9, del D.L. 179/2012 come convertito in Legge n. 221/2012, come introdotto ai sensi del D.L. n. 83/2015 e poi convertito in Legge n. 132/2015;

-ritenuto, altresì, che le condotte di violenza, sia fisica che psicologica, e di minaccia reiterate nel tempo descritte nel ricorso agite nei confronti della moglie, in presenza dei figli della coppia, integrino un grave pregiudizio alla incolumità fisica e morale della ricorrente e dei figli e che la situazione potrebbe degenerare pericolosamente in conseguenza della conoscenza da parte del marito della decisione della moglie di rivolgersi all'Autorità Giudiziaria e, quindi, dell'acuirsi del conflitto;
-ritenuto, pertanto, doveroso pronunciare il presente provvedimento inaudita altera parte, stante l'urgenza di impedire che AN ponga in essere ulteriori condotte aggressive o comunque lesive dell'equilibrio psicofisico della ricorrente (vedi referto del PS del 19.07.2019), nonché di consentire alla ricorrente di rientrare nell'abitazione familiare unitamente ai figli, dalla quale, con gli stessi, si è allontanata, fatte salve le necessarie ed ulteriori valutazioni all'esito della costituzione del resistente, momento cui vengono riservate anche le determinazioni in punto di istanze economiche avanzate dalla ricorrente (e anche di eventuale intervento dei Servizi Sociali a tutela dei minori)

Il presente decreto immediatamente efficace

…OMISSISSIS…

-Visto il ricorso per l'emissione di ordine di protezione ex art. 342 bis e ss cc proposto dalla sola AD in data 23/07/2019;
-Rilevato che

- la ricorrente (già convivente con il marito dal 1993) ha poi sposato la controparte A[2] in Comune a nel ;

2. Ad oggi (il dato è incontestato in atti) non risulta essere stata ancora incardinata (da alcuna della parti in causa) una procedura giudiziale di separazione personale dovendo peraltro evidenziarsi che la stessa decisione -che sarebbe stata assunta dalla moglie ricorrente- di separarsi dal marito (ed a lui anche comunicata dalla ricorrente) nemmeno sarebbe stata dallo stesso in qualche modo contrastata (anzi il resistente avrebbe detto alla moglie che gli andava bene (cfr. in tal senso è la stessa dichiarazione in tal senso resa <a pagina 2 del verbale di udienza> dalla A _); peraltro, per quanto dichiarato anche dalla A ; da *"almeno un anno"* la moglie e la figlia dormono insieme nel letto matrimoniale, con anche il figlio N in altro letto ma nella stessa stanza, mentre il resistente dorme sul divano in soggiorno.

- dall'unione sono nati i figli O il , e N il .

-Rilevato che nel suddetto ricorso venivano prospettate situazioni di anni di maltrattamenti in famiglia con plurimi episodi protratti nel tempo di serie di aggressioni fisiche e verbali, minacce, ingiurie e prevaricazioni maritali di cui sarebbe stata vittima (in primis) la ricorrente e poi anche la figlia maggiorenne O; la ricorrente aveva dichiarato in denunzia di avere sempre cercato di tenere unita la famiglia per il bene dei figli, non volendo lasciare il marito per questo motivo (cfr. denunzia A del 20/07/2019). Tuttavia a seguito di un peggioramento (negli ultimi due mesi) della complessiva situazione con un'asserita *escalation* delle aggressioni fisiche e verbali da parte del marito ai danni della moglie e della figlia (e in concomitanza in particolare con l'episodio del 18/07/2019) la ricorrente decideva, per la prima volta di farsi refertare dal P.S. del il 19/07/2019 e di presentare quindi formale denunzia ai CC in data del 20 luglio 2019.
In particolare la parte attrice evidenziava un episodio occorso alla A in data del 18/07/2019 in occasione del quale la stessa sarebbe stata aggredita e *selvaggiamente picchiata*[3] dal marito, prima con una *camicia* tiratale violentemente addosso e con rabbia *(perché voleva che la lavassi con i capi colorati...*)
Quindi di seguito il marito l'avrebbe anche violentemente afferrata per la *mandibola* e *minacciata* che, se non fosse andata via " *sarebbe diventata un cadavere.. "* (cfr. ricorso e denunzia della ricorrente ai CC di del 20/07/2019) episodio questo all'esito del quale venivano chiamati i Carabinieri.

Per contro il marito A resistente ha offerto, sin dalla memoria difensiva del 02/08/2019, una diversa ricostruzione dei fatti assumendo di essere *egli stesso* stato *vittima* di una aggressione fisica da parte sia della moglie che della figlia (insieme ai suoi danni) versando a controprova in atti materiale fotografico delle lesioni da lui subite (cfr. doc. n. 5 con quattro fotografie).
La difesa di parte A ha ritualmente, tempestivamente, dettagliatamente e *specificamente* contestato ai sensi ed agli effetti di cui all'art. 115, I comma ultima parte, del cpc tutta una serie di circostanze ed episodi fattuali riferitegli nell'atto introduttivo di controparte.
3. cfr. pag. 2 del ricorso;

4. Nel referto di P.S. del 19/07/2019 non risultano menzionati riscontri clinici obbiettivi ovvero segni visibili oggettivizzabili di alcun genere (sul corpo della ricorrente) in qualche modo riferibili alle percosse che (il 18/07/2019) la Aavrebbe ricevuto dal marito con la *camicia* (il referto di PS è della prima mattina del 19/07/2019 immediatamente successivo al pestaggio aggettivato come *"selvaggio"*
5. nell'atto introduttivo);

Le fotografie prodotte (produzione questa non contestata dalla parte ricorrente) e riferite alla persona del resistente A raffigurano:

- un ematoma circolare in alto sulla spalla sinistra;
- una abrasione sul basso fianco posteriore sinistro
- plurime escoriazioni curviformi sulla schiena (lato destro a mezza altezza);
- e da ultimo una estesa escoriazione longitudinale sulla parte alta e retrostante del braccio sinistro; lesioni queste che il resistente riferisce all'aggressione *da lui subita* nell'ambito del litigio familiare e *causalmente* riferite *sia* alla moglie *che* alla figlia O. Sul punto deve evidenziarsi che le foto prodotte dalla difesa Augnoo non sono state contestate dalla A nella loro dimensione fattuale (la ricorrente infatti si è limitata a dire di non sapere come il marito se le sarebbe procurate); tuttavia deve evidenziarsi che le suddette fotografie (e in particolare le lesioni ivi riportate) sono state invece *espressamente* riconosciute <sia nella loro specifica *riferibilità causale* al litigio che ha visto coinvolti padre-moglie-figlia sia per la loro datazione temporale> dalla stessa figlia O (vedi verbale di udienza del 07/08/2019 nell'audizione della figlia O (indicata quale teste a supporto dalla stessa ricorrente):
  "*In una occasione di mio scontro con mio padre ho effettivamente notato due graffietti sulla schiena e sul braccio di nostro padre. In occasione della mia litigata con mio padre relativa ai graffi e segni ai danni di mio padre di cui alle fotografie prodotte da mio padre io non ho riportato segni fisici sul mio corpo come neanche mia madre, né ho fotografie al riguardo…"').*

Il resistente in udienza ha -per parte propria- dichiarato di avere deciso (non seguendo i consigli di due sue colleghe di lavoro come da punto 8 della memoria difensiva) di *non* sporgere denunzia nei confronti della moglie della figlia "*perché erano cose di famiglia",* così come lo stesso resistente ha anche dichiarato di non essersi fatto refertare nell'occasione dell'aggressione subita (cfr. sul punto la memoria difensiva e anche il verbale di udienza.
Ad oggi, infatti, non risultano in atti sporte e presentate da parte del resistente A formali denunzie a carico della moglie e della figlia.

Deve evidenziarsi che la comune figlia maggiorenne a nome O, pur se dotata di una propria piena ed autonoma legittimazione processuale attiva, non ha inteso unirsi alla madre nella proposizione (contro il padre) del ricorso per emissione di ordine di protezione (peraltro la O [5] è stata)

6. Che ha personalmente dichiarato in udienza che, a brevissimo, si sposerà con il suo fidanzato (a nome M. f) con data del matrimonio già fissata al 11/09/2019;

indicata quale *teste* di riferimento da *entrambe* le parties sentita in udienza); il dato processuale appare univoco e di immediato rilievo documentale e come tale acquisibile dall'odierno giudicante. La O' non inteso invocare per sé ed a propria tutela l'emissione di un ordine di protezione.

Alla luce delle ampie audizioni e deposizioni orali dei soggetti variamente coinvolti nei fatti oggetto della presente procedura e dalle acquisizioni *anche fotografiche* (di parte resistente) in atti, sembra possibile *ridimensionare,* almeno in parte, la complessiva situazione di conflittualità familiare e in particolare di altissimo allarme e preoccupazione di concreta esposizione al rischio dell'intero nucleo familiare come invece evidenziata e sensibilmente *connotata* in ricorso nella prospettazione di parte A accennando a situazioni di subito pestaggio *"selvaggio"* e di *"inaudita violenza"* che starerebbero state riferibili al resistente A.
Sembra quindi potersi concludersi per occasioni di scontri ed aggressioni fisiche (anche reciproche) agite con un anche attivo coinvolgimento di tutti i soggetti adulti del nucleo familiare.

Il referto di P.S. (n. P2019049962) dell'Ospedale di
del 19/07/2019 (ore 00.13) con *dimissioni* nella stessa data del 19/07/2019 (alle ore 16.23) registra che la A (che in quella sede riferiva di essere
"stata afferrata in modo violento alla mandibola e al braccio sinistro[6]*"*) appariva *"tranquilla",*

- non si riscontrava l'evidenza di *fratture* di significato meta-traumatico, né *"ecchimosi o ematomi"* visibili;
- *non* si registravano *"deficit motori o sensitivi";* si segnalava "dolorabilità" alla mobilizzazione della spalla *destra;*
- alla paziente (che pure lamentava lieve algia in sede mandibolare) *non* si riscontravano *"limitazioni all'apertura della atm* [7]".
- In referto si dichiarava che la paziente *"mastica senza difficoltà";*
- il referto termina con una *prognosi* di giorni 3, e si prevede una terapia di applicazione locale di *ghiaccio* ed 1 compressa di *paracetamolo* ogni 8 ore in caso di dolore.

L'assenza[8] di riscontri clinici[9] oggettivi (non fratture ma nemmeno *ecchimosi, escoriazioni ed ematomi* visibili agli *operatori sanitari* a peraltro

7. La ricorrente sentita all'udienza del 07/08/2019 dichiarava a verbale "..braccio *destro...";*

8. ATM acronimo per articolazione temporo-mandibolare;

9. Fotografie di lesioni subite ad opera del padre queste, la cui assenza di produzione in atti da parte della moglie A (come anche da parte della figlia O) appare tanto più *difficilmente spiegabile* quando solo si consideri la asserita *molteplicità e pluralità* di condotte violente ed

stretto ridosso temporale dell'episodio in cui la A sarebbe stata *selvaggiamente picchiata[10])* appare peraltro almeno difficilmente conciliabile con la dinamica di massima violenza "*con livello di criticità decisamente allarmante (*cfr. ricorso)" prospettata in ricorso e ciò tanto più se si considera la *costante presenza* sulle mani ed i polsi del marito A (come ammesso in udienza anche dalla figlia pure sentita)-- di più anelli, di bracciali ed un orologio (tutti oggetti in metallo, ben in grado di lasciare da parte dell'offensore segni --anche ben evidenti e visibili-- al più o meno violento *contatto fisico* con le delicate parti del viso ovvero con le parti molli del corpo, e *certamente* in grado di notevolmente amplificare negli effetti la forza contusiva e lesiva finanche del più leggero schiaffo in viso (il dato è un fatto notorio di scienza ed esperienza, di oggettiva quanto manifesta evidenza e come tale acquisibile).

prima per paura delle reazioni del Signor A che ha più volte minacciato la figlia e la moglie di
"essere sole", "che nessuno avrebbe creduto loro" Premesso quanto sopra affermato, tanto più
quindi (e verosimilmente) si sarebbe dovuta sentire la pressante esigenza (per la ricorrente e la figlia) di procacciarsi senza peraltro correre ulteriori rischi (ed a futura memoria) quantomeno materiale documentale (anche solo fotografico) a riprova e testimonianza delle aggressioni e violenze asseritamente subite (e qui recisamente negate e contestate dal A) ;

10. Deve evidenziarsi che il referto del P.S. del di del 19/07/2019 non appare
offrire in alcun modo offrire riscontri *oggettivi* (anche minimi) di quelli definiti, dalla stessa difesa della ricorrente, episodi in cui la stessa A sarebbe stata *"picchiata selvaggiamente"* dal resistente .... *(cfr. pag. 2 del ricorso A.)* con anche episodi indicati dalla stessa difesa di parte ricorrente di *"violenza inaudita";* nulla è dato di rilevare in punto di evidenze «oggettive e cliniche>> dal verbale sanitario oltre ai *de relato* della stessa refertata.
11. Cfr. pagina 2 del ricorso;

Ad oggi *non* risultano sporte altre denunzie-querele oltre a quella (in atti) del 20/07/2019 dalla ricorrente A, né risultano altri ricoveri refertati[11] in P.S.
(oltre quello in atti del 19/07/2019); né risultano indicate in atti precedenti occasioni in cui sarebbe stato sollecitato dai

familiari, ovvero dai vicini ovvero da altri terzi l'intervento delle Forze dell'Ordine; come nemmeno risulta allegato in atti dalla parte ricorrente che vi siano state in precedenza e nel corso della vita familiare[12] *chiamate* ovvero segnalazioni o richieste di aiuto ai centri antiviolenza, interventi dei Servizi Sociali, ovvero richieste di ausilio ai Consultori familiari (ad esempio in occasione dei litigi della coppia ovvero su segnalazione della scuola).

Quanto alla figlia O (1996) risulta versata in atti l unica denunzia da lei sporta ai CC di del 23/07/2019. Sempre rispetto alla posizione invece mancano del tutto in atti referti sanitari di .

12. Non risultano allegati in atti documenti ovvero altri esiti di esami clinici (anche diversi da referti di Pronto Soccorso quali ad es. radiografie, analisi mediche esiti di controlli o altro) riferibili alla ricorrente ovvero alla figlia ovvero documenti anche solo fotografici[11] di alcun genere (esempio *fotografie* anche fatte con i cellulari come pure oramai spessissimo e *sempre più di frequente* capita che vengano prodotte <anche copiosamente> nei procedimenti relativi casi di violenza domestica) che possano offrire una «anche indiretta» conferma di possibili lesioni, tracce o segni *(attuali o pregressi)* relativi alla ricorrente e/o alla figlia Oi(che pure sarebbero state oggetto di *plurime e reiterate* aggressioni anche fisiche da parte del resistente); ciò pure a fronte di una prospettazione difensiva di condotte prevaricatrici e aggressive risalenti nel tempo (risalirebbero -secondo quanto riferito dalla ricorrente- sin dal 1996 anche se un peggioramento vi sarebbe stato negli ultimi mesi);
13. Il matrimonio delle parti ha avuto una durata di circa 23 anni;

14. Peraltro la stessa versione resa dalla figlia O che pure appare raffigurare il resistente come un padre-padrone (cfr. denunzia O…*padre padrone nel senso che per lui è giusto solo ciò che ritiene lui e non ammette disappunto…*) che sarebbe stato aggressivo e violento anche nei di lei confronti, appare poco conciliabile con la figura paterna pure tratteggiata all'inizio della stessa denunzia in cui la figlia dice del padre *"…Non è assolutamente un padre presente nei miei confronti né nei confronti di mio fratello, non ama passare del tempo con noi nonostante i nostri ripetuti inviti ad uscire con noi o semplicemente passare del tempo insieme…."* (così testualmente la figlia che quindi sembra in questo punto lamentare una figura paterna non certo ingombrante ma, al contrario, forse evanescente ovvero -a dire della figlia- disinteressata rispetto ai plurimi inviti dei familiari a partecipare più attivamente alla vita familiare ed al quella sociale). Ebbene appare invero difficile coniugare le *pesanti e gravi accuse* rivolte al padre (al più indicato come poco presente e disinteressato alla vita dei figli, ma che la *stessa figlia* denunziante vorrebbe maggiormente coinvolto anche invitandolo ad uscire, quasi evidenziando il proprio desiderio di una ben maggiore e desiderata presenza paterna) con la fotografia della vita familiare angosciosa (durata anni). E' la stessa figlia «indicata a teste dalla ricorrente» che ha dichiarato *...E' capitato 2/3 volte che andassimo noi tre io, mia madre e mio fratello a feste mauriziane* (ndr. feste con i vari connazionali delle…..) *che proseguivano di notte, anche fino a mezzanotte, senza mio padre (che non è mai voluto uscire in famiglia). In quelle occasioni lui non diceva niente ma dopo aveva a che ridire e ce la faceva pesare* ;

alcun genere (né sono state allegate fotografie[14], né video/fono registrazioni - anche solo parziali e *accidentali*- effettuiate in occasione dei frequenti scontri e litigi familiari, ovvero foto relative a segni di percosse o aggressioni fisiche subite dalla moglie o dalla figlia da parte del resistente che possano arrivare a suffragare il prospettato clima di tensione e di costante sottoposizione ad aggressione familiare).

Il resistente ha anche *recisamente* e espressamente negato l'episodio in cui lo stesso avrebbe messo le *mani al collo* della figlia (riferendosi all'episodio collocato in data del 13/07/2019); a detta della figlia O' lei (in quella occasione) sarebbe stata *schiaffeggiata* dal padre e avrebbe avuto (cfr. verbale di udienza) *segni rosei* al collo (deve evidenziarsi sul punto che nel referto di P.S. del 19/07/2019 la ricorrente peraltro -in quella occasione accompagnata dai figli- avrebbe *negato* che "....*i figli abbiano subito violenze attuali....";* Cfr. del resto sul punto il dato testuale del referto di PS del 19/07/2019).
Del resto la O all'udienza del 07/08/2019 ha così testualmente dichiarato
" *In una occasione di mio scontro con mio padre ho effettivamente notato due graffietti sulla schiena e sul braccio di nostro padre. Mio padre porta sempre alla mano gli anelli, orologi e bracciali; mi ha dato schiaffi, e in una occasione (quella stessa dei graffi riportati da mio padre) ha cercato di strangolarmi e mi ha lasciato dei segni rosei[15] sul collo ma non ho ritenuto di farmi refertare.*
In occasione della mia litigata con mio padre relativa ai graffi e segni ai danni di mio padre di cui alle fotografie prodotte da mio padre, io non ho riportato segni fisici sul mio corpo come neanche mia madre né ho fotografie al riguardo….".
Peraltro la O -per proprio conto-non ha referti medici e nemmeno ha allegato fotografie dalla stessa fatte di *segni rosei* al collo (né nel referto di PS della madre del 19/07/2019 vi è alcuna menzione sul punto) che possano supportare l'accusa di stretta di mani al collo da parte del padre.
Il resistente poi (sentito *anche sul punto* di una a lui imputata condotta di abusi di sostanze alcooliche) ha espressamente negato e dettagliatamente contestato quanto contestatogli ed ha dichiarato in udienza
…..Bevo normalmente una birra dopo il lavoro e non mi ubriaco anche perché dovrei andare a lavorare e non ho mai avuto richiami dal datore di lavoro per questione di alcool" (in particolare sia la madre che la figlia riferivano che il padre A avrebbe abusato di birra quotidianamente); la figlia O sentita sul punto in udienza dichiarava : "…posso dire che tutte le sere mio padre è ubriaco di birra *e parla continuamente....*").

15. Oramai diffusissime e presenti in ogni tipo di telefono cellulare anche con qualità di HD;

16. Nessuna evidenza documentale sul punto è rinvenibile in atti;

Pure risulta negata e *specificatamente* smentita (cfr. memoria difensiva) dalla parte resistente la dolosa *interruzione* della fornitura domestica *di gas* (riferita al resistente in ricorso); peraltro la circostanza solo prospettata dalla parte ricorrente in ricorso è rimasta processualmente indimostrata (il dato fattuale, ove verificatosi, sarebbe anche documentalmente riscontrabile con documentazione del gestore di fornitura gas; sul punto alcun supporto documentale è stato fornito dalla parte ricorrente onerata).

Pur contro e tuttavia la parte resistente A <e ciò tanto nella sua memoria
difensiva quanto in sede di udienza del 07/08/2019> non ha mai né negato né in alcun modo contestato (anche ai sensi ed agli effetti di cui all'art. 115, I comma, cpc) di avere realmente proferito in occasione dell'ultimo litigio con la moglie in danno della moglie (in occasione dell'episodio del 19/07/2019[1]) la gravissima *minaccia* di ucciderla: *se* non *fosse andata via sarebbe diventata un cadavere...."*

Ebbene l'oggettivamente troppo alto livello di intensità della conflittualità familiare oramai raggiunto (con scontri familiari di cui ha dato traccia documentale anche il resistente) riferibile -sia pure almeno in parte[2]- *reciprocamente* a tutti i componenti adulti del nucleo domestico, con l'iniziativa di promuovere l'azione di separazione personale forse *troppo a lungo colpevolmente rimandata* da *entrambe* le parti, suggerisce di prevedere, in questa sede, una *immediata cautela* in favore della integrità ed incolumità fisica della moglie (che è apparsa in udienza sinceramente e genuinamente intimorita ed angosciata per la sua sorte) gravemente[3] minacciata *di morte;*

minaccia questa di intenti letali che, in tale specifico e particolare contesto di elevata ed alta tensione e conflittualità coniugale tra la coppia (ancora in regime di forzata e stretta coabitazione in una ristretta unità abitativa ospitante 4 persone), non pare possa essere in alcun modo sottovalutata in questa sede. Come correttamente si è argomentato in materia, è stata evitata una rigida e tassativa schematizzazione dell'abuso familiare con una sua stretta tipizzazione, centrando la tutela civilistica sul pregiudizio che la condotta può arrecare all'integrità o alla libertà fisica o morale del soggetto passivo dell'abuso così includendo "nell'ambito del pregiudizio alla libertà o all'integrità fisica e morale, oltre alle situazioni di danno immanente, anche i comportamenti tali da determinarne il concreto ed incombente pericolo: il pregiudizio potrà essere ravvisato sia quando il danno si sia già verificato, ma anche quando, come nel caso di specie, vi è il grave e concreto pericolo che esso si verifichi.
Alla luce di quanto sopra, e solo nei confronti della moglie A in relazione al grave episodio di *minaccia di morte* proferita dal marito nei confronti della ricorrente, appaiono pertanto, allo stato, ricorrere i presupposti in fatto ed in diritto per la conferma dell'ordine di protezione già emesso in precedenza *inaudita altera parte.*
Sicché l'ordine di protezione già in precedenza emesso (e pure in parte confermabile) andrà, *conseguentemente* e per altra parte, revocato e modificato in questa sede.
Circa le presunte ed asserite aggressioni subite dalla O ', abbiamo già detto che non sembra essere stato raggiunto in giudizio alcun tipo di prova
Tribunale di Milano del *12/03/2019.. ..L'art. 342 bis cc, prevede che il giudice, su istanza di parte, possa adottare con decreto uno o più dei provvedimenti di cui al successivo articolo qualora la condotta del coniuge o di un altro convivente sia di grave pregiudizio all'integrità fisica o morale o alla libertà dell'altro coniuge o convivente. L'art. 342 bis cc non precisa le caratteristiche che deve assumere la condotta del coniuge o di altro convivente sì da condurre il giudice a pronunciare un ordine di protezione, se non che deve essere causa di grave pregiudizio all'integrità fisica, o morale, o alla libertà dell'altro coniuge o convivente. Tuttavia l'utilizzo della congiunzione disgiuntiva "o" induce a ritenere che sia sufficiente che la condotta dell'abusante integri anche uno solo degli eventi descritti. Alla luce di quanto emerge dagli atti si ritiene che sussistano, almeno ad oggi, i presupposti per provvedere inaudita altera parte, attesa soprattutto la gravità del comportamento da ultimo posto in essere dal resistente ed anche considerato il possibile rischio di potenziale compresenza domiciliare e di ravvicinati contatti interpersonali di intensa conflittualità della coppia, Deve, infatti, osservarsi che il provvedimento ex art. 342 bis c.c. è finalizzato ad assicurare la tutela del singolo individuo all'interno del nucleo familiare, garantendo una protezione tempestiva e preventiva rispetto al possibile degenerare delle situazioni interpersonali, non richiedendo affatto che le condotte poste in essere assurgano a rilevanza penale, essendo sufficiente il verificarsi di eventi dannosi all'integrità fisica o morale o alla libertà di un familiare convivente causalmente riconducibile alla condotta dell'altro .*

concreta ed attendibile ovvero alcun tipo di riscontro oggettivo a supporto della rappresentazione dei fatti offerta dalla figlia.
È dato pacifico ed assolutamente incontestato in atti (riconosciuto anche dalla ricorrente e dalla figlia maggiore O) che il figlio minore N (nato a il) non sia mai stato oggetto di alcun tipo e forma di aggressione, né fisica o verbale, ovvero altra forma di violenza da parte del padre resistente.
Quanto poi alle residue domande formulate dalla parte ricorrente e volte ad ottenere la previsione di obblighi di contribuzione economica[19] a carico del resistente
<<sì come alle lettere c) e d) delle conclusioni a pagina 8 del ricorso A >> deve evidenziarsi che la ricorrente <<pure a fronte di *espressa* richiesta fatta dall'A.G. procedente sin nel decreto del 24/07/2019, a pagina 3>> non ha, per parte propria, depositato alcun tipo ovvero forma di documentazione fiscale (ovvero reddituale) di sorta, così come nemmeno ha depositato in atti alcun tipo di *dichiarazione sostitutiva di atto notorio,* come pure da suo specifico onere ex art. 2697 cc (nemmeno peraltro avendo menzionato in atti <in narrativa di ricorso > che la figlia maggiorenne Oushna era -anch'essa ed *in proprio*- percettrice di un *proprio* reddito, non minimale, seppure derivante da lavoro non contrattualizzato).
La ricorrente A _ (nata nel) ha dichiarato in udienza di svolgere servizi domestici di pulizia (non ha invece specificato le ore lavorate) non contrattualizzati (e quindi con retribuzione percepita in nero e non fiscalmente documentabile) per un ammontare[20] dalla stessa *dichiarato*[21] in udienza essere di circa €#550,00# mensili.

Tuttavia è dato fattuale emerso in udienza che la A presta attività lavorativa (il dato emerso in udienza non è stato specificatamente contestato dalla difesa ricorrente) con orario sia alla mattina che al pomeriggio e per 5 giorni settimana (come detto si tratta di servizi di pulizia domestica presso famiglie private); inoltre non ha (né sono state dedotte) proprie esposizioni debitorie verso banche ovvero verso società finanziarie, né da ultimo verso l'Erario, né risulta che abbia prestato garanzie personali per debiti altrui.

19. Che verosimilmente saranno materia (nel dettaglio) di stretta, puntuale ed articolata regolamentazione del Giudice della separazione personale (se e quando adito dalle parti ovvero da una di esse);

20. Trattandosi di lavoro *non regolare* l'A.G. oggi procedente, con ogni evidenza, non è nelle condizioni, ad oggi almeno ed in questa sede, di effettuare alcun tipo di verifica ovvero controllo circa l'esattezza di quanto solo affermato;.

21. Il marito ha riferito che la moglie guadagnerebbe dai lavori domestici un importo all'incirca di €#800,00-900,00# mensili;

La stessa A inoltre ad oggi occupa, in via esclusiva anche con la figlia maggiorenne <<O nata nel che ha *dichiarato* di lavorare seppure (non contrattualmente in regola) in un esercizio di bar con una retribuzione percepita in nero di *circa* €#700,00# mensili» un appartamento condotto in locazione dal marito A (formale contraente/conduttore e quindi *unico* obbligato, aggredibile anche in via esecutiva dalla proprietà dell'immobile nel caso di eventuale inadempimento) il quale è e rimane contrattualmente soggetto obbligato al pagamento del canone locatizio di complessivi circa **€#750,00#** mensili (anche il dato di natura contrattuale e l'entità del canone locatizio sopportato non è stato contestato dalla parte ricorrente).

*****

Il resistente A (nato nel) per contro lavora (in regola ed in forma contrattualizzata) come operario di 4° livello presso la , con una retribuzione che, nella parte netta fissa ammonta a circa €#1.550,00# mensili (salvo straordinari e voci variabili di 13^A e 14^A mensilità accessorie); lo stesso inoltre che non potrà fruire e godere, nelle more, dell'immobile adibito a casa familiare e dovrà procurarsi verosimilmente e necessariamente (in tempi brevi) una propria soluzione abitativa alternativa (sopportando quindi e per l'effetto un ulteriore, non irrilevante secondo onere economico ai fini abitativi che in questa sede non può non considerarsi). Inoltre lo stesso è ad oggi ancora *personalmente* gravato in proprio da un debito per rate mensili di rientro di circa €#300,00# mensili ed è anche obbligato (seppure in forma di garante) per le rate di acquisto dell'autovettura Ypsilon peraltro di proprietà della figlia O (sicché data la complessiva esposizione debitoria del resistente appare, allo stato, molto difficile che lo stesso possa ricorrere ed accedere al credito bancario e/o finanziario).

Alla luce di quanto sopra argomentato, deve ritenersi che il già assai rilevante onere economico del canone locatizio dell'abitazione familiare di via (corrispondente di fatto alla metà dello stipendio del A) sostenuto dal resistente già di per sé costituisca, ad oggi, un ben solido e congruo (non ulteriormente incrementabile[22]) *contributo economico paterno* al mantenimento del comune figlio N e della moglie (anche lavorativamente occupata).

22. Sol che si pensi che un ulteriore onere economico locativo di fatto *necessitato* per il resistente (per reperire una propria *primaria* abitazione dove anche eventualmente ospitare adeguatamente il figlio N per le frequentazioni paterne) potrebbe finire per del tutto azzerare la capacità economica (non implementabile trattandosi per lui di una occupazione lavorativa full-time) dell'A _ ;

Alla luce di quanto sopra, la domanda di parte A lettera **c),** alla pagina 8 del ricorso A, non potrà trovare accoglimento alcuno in questa sede e dovrà essere integralmente rigettata.

In ordine alla domanda di parte ricorrente sub lettera **d)** <<pure a pagina 8 del ricorso A del 22-23/07/2019>>, dovrà disporsi il non luogo a provvedere (atteso il preciso obbligo monetario nei confronti peraltro di un soggetto processualmente terzo, già cogente e di natura contrattuale già gravante sul contraente/conduttore NA_ verso la proprietà dell'immobile, e dalla stessa proprietà attivabile *coattivamente* in caso di inadempimento).

Quanto sopra in premessa, in fatto, in diritto ed in motivazione il Tribunale di Milano, provvede come in dispositivo.

In ragione della peculiarità della natura e delle circostanze della vertenza tutta intrafamiliare oggi esaminata, nonché considerato l'accoglimento solo parziale e solo in limitata parte del ricorso introduttivo, dispone l'integrale compensazione tra le parti costituite delle spese legali di procedura.

In ragione in ogni caso della conclamata e della oramai verosimilmente irreversibile crisi coniugale «nelle more dell'eventuale iniziativa a cura di una delle parti oggi in causa per l'avvio di una procedura di separazione personale coniugale» ed al fine di supportare ed ausiliare *entrambe* le parti nel percorso propedeutico alla separazione supportandole per addivenite ad una soluzione di miglior tutela per sé e per il comune figlio minore, nell'attuale fase di disgregazione familiare, si provvede in questa sede a demandare una serie di incarichi ai Servizi Sociali territoriali del Comune di Milano meglio e dettagliatamente indicati nella parte dispositiva.

Ogni altra, ulteriore e diversa questione, in rito ed in merito, deve ritenersi allo stato assorbita.

Prova ne siano le fotografie che si offrono in produzione (doc. 5), scattate nella mattinata di domenica 14.07.2019 da alcune colleghe di lavoro del signor A , signore Y e C. letta la comparsa di costituzione del resistente,
sentite le parti ed i loro difensori,

pronuncia il seguente

DECRETO

Rilevato in fatto

- con ricorso urgente ex art. 342 bis c.c. depositato contestualmente alla domanda di separazione personale dei coniugi in data 13.8.2019, V I, nata a il 1983 e residente a in via , difesa dall'avv. e dall'avv. con studio in presso i quali è elettivamente domiciliata, ha chiesto nei confronti del marito R V nato a il 1979 e residente a in via , l'emissione di un ordine di protezione *inaudita altera parte,* affinché il marito cessasse la condotta violenta posta in essere nei suoi confronti, venisse immediatamente allontanato dalla casa coniugale e gli venisse prescritto di non avvicinarsi ai luoghi frequentati da ella ricorrente,
- in particolare la ricorrente in ricorso ha allegato che: -era coniugata con il V dal maggio del 2015 e il 2018 era nato il figlio , -il marito, ingegnere gestionale, da gennaio 2017 lavorava a e faceva ritorno in Italia solo 10 giorni al mese, -il marito aveva posto in essere, fin dal 2015, poco dopo il matrimonio, una serie di condotte violente sia verbali sia fisiche nei suoi confronti e da ultimo anche nei confronti dei di lei genitori che erano culminate nell'episodio del 2 agosto 2019 che l'aveva convinta a chiedere la separazione e il provvedimento di urgenza in oggetto, -il V l'aveva picchiata una prima volta a luglio del 2015 accusandola di non pulire adeguatamente la casa, scaraventandola a terra e prendendola ripetutamente a calci, -una seconda volta a settembre del 2015 durante una discussione all'interno dell'autovettura l'aveva spinta violentemente facendole sbattere la testa contro il finestrino, -nel dicembre del 2017 durante una discussione insorta perché la moglie, incinta di sette mesi, aveva chiesto di poter rinviare di qualche giorno un viaggio ad per trovare i parenti del marito, questi l'aveva insultata dandole continui schiaffi e, l'aveva sbattuta contro la porta, -nel maggio del 2018 il marito l'aveva accusata di non essere adeguatamente interessata al nuovo appartamento che intendevano acquistare e l'aveva spinta a terra, presa per i capelli trascinandola per la casa e dandole forti calci alla schiena, sull'addome e sul seno, il tutto alla presenza del figlioletto appena nato che iniziava a piangere per le urla materne, il seno le si era gonfiato tanto che aveva dovuto iniziare una cura per una mastite forte ed era stata costretta a smettere di allattare, -ancora nel febbraio del 2019 il marito, lamentando che la casa non era in ordine e pulita, l'aveva schiaffeggiata ripetutamente alla presenza del figlio di quasi un anno che era scoppiato in lacrime incontrollabili, -più volte aveva avuto crisi di rabbia nei suoi confronti e le aveva inviato messaggi insultandola e minacciandola e minacciando ed insultando anche i di lei genitori ("io vi ammazzo tutti quanti... vedi quando torno che macello che succede" cfr. doc. 11), -da ultimo l'episodio del 2 agosto del 2019 aveva visto il marito travalicare ogni limite, egli aveva aggredito infatti sia la ricorrente sia la di lei madre ed il di lei padre dinnanzi al piccolo insultandoli e poi sferrando uno schiaffo alla suocera, colpendo il suocero con uno schiaffo e con un pugno e quindi avventandosi contro la suocera alla quale aveva dato una testata, inoltre, mentre il bambino piangeva in modo incontrollabile, il padre lo aveva strappato dalle braccia della madre spaventandolo ulteriormente, -per quest'episodio i di lei genitori avevano sporto querela denuncia querela che era allegata al ricorso, -ella dal 2 agosto aveva chiesto ospitalità ai propri genitori a dove era la loro residenza informandone peraltro il marito,
  - le numerose perdite di controllo e le ripetute minacce del V temeva che egli potesse porre in

essere ritorsioni violente,

- con decreto del 13.8.2019 questo giudice ha ritenuto di integrare il contraddittorio ed ha fissato l'odierna udienza,
- in data 31.8.2019 il resistente si è costituto rappresentato e difeso dagli avvocati del foro di presso la quale è elettivamente domiciliato in Milano in via e dall'avv. del foro di ,
- il resistente nella memoria difensiva auspicava che la separazione potesse divenire consensuale e si opponeva alla misura di allontanamento sostenendo che non ve n'erano i presupposti né i riscontri effettivi, evidenziava di non avere alcuna intenzione di rientrare nell'abitazione di ma di voler soltanto rientrare in possesso dei propri effetti personali;
  quanto alla domanda di separazione chiedeva che la casa coniugale venisse assegnata alla moglie, che il minore venisse affidato ad entrambi i genitori con prevalente collocazione presso la madre nella casa coniugale di via , che venisse fissato a proprio carico un contributo di mantenimento per il figlio minore nella somma di euro 500 mensili oltre il 50% delle spese straordinarie come da linee guida del tribunale di Milano e che il padre venisse autorizzato a vedere il figlio con le modalità ritenute più opportune dal Tribunale nei circa 10 giorni al mese di permanenza del padre a , non si opponeva a una CTU e chiedeva l'intervento dei servizi sociali per monitorare il nucleo familiare. Evidenziava che le accuse della moglie erano pretestuose e prive di effettivo riscontro, sottolineava che mancava una denuncia querela della moglie e che anzi ella aveva continuato a vivere con lui e l'aveva sposato dopo una lunga convivenza durata tre anni e addirittura aveva deciso di avere recentemente un figlio. Evidenziava che la moglie era succube della propria madre, non negava gli screzi tra i coniugi ma li ascriveva al retaggio familiare della moglie e ai comportamenti vessatori della di lei famiglia che avevano contribuito al deteriorarsi del clima coniugale. Riferiva che l'ambiente igienico sanitario dove viveva il minore non era adeguato e che la casa dei suoceri era assolutamente carente di igiene e che ciò era sintomo di problematiche che dovevano essere indagate anche con l'intervento dei servizi sociali.

■ alla odierna udienza le parti sono state ampiamente sentite, come da verbale depositato

Considerato in diritto

- la domanda di protezione è fondata e deve essere accolta,
- la ricorrente ha riferito con precisione i fatti di violenza e minaccia posti in essere dal marito dal 2015, confermandoli alla odierna udienza e quindi assumendosene la responsabilità,
- il marito, pur negando genericamente le violenze fisiche, non ha contestato gli scontri verbali, ammettendo comunque la violenza contro i suoceri del recente agosto del 2019 (che comunque è visibile dal filmato prodotto) confermata dai certificati medici e dalle denunce querele dagli stessi sporte,
- il marito ha piuttosto tentato di giustificare le proprie condotte sottolineando le ingerenze dei genitori della moglie nella vita coniugale quando invece, per sua stessa ammissione, i suoceri, nei 10 giorni al mese della di lui permanenza in Italia, tornavano nella propria abitazione di . Qualora anche si volesse dare credito alla tesi del V, peraltro contraddetta dalla I, che comunque non giustificherebbe certamente gli episodi di violenza e di minaccia, né nei confronti dei suoceri né tantomeno nei confronti della moglie, si tratterebbe, comunque, di indebita presenza dei suoceri nella vita coniugale soltanto per gli ultimi tre mesi e quindi dal maggio del 2019 e certamente non potrebbe tale argomento essere utilizzato a scopo difensivo per tutti gli episodi precedenti allegati dalla moglie in ricorso e confermati all'odierna udienza,
- le minacce inoltre sono confermate dagli sms prodotti dalla ricorrente del marzo e del maggio del 2019, non contestati dal resistente, dove lo stesso insulta pesantemente e minaccia moglie e suoceri *("miserabili, pezzenti, parassiti, figli di troia, figli di puttana, uscite da quella casa, merde, fuori dal cazzo, vedi quando torno che macello che succede, la faccio finire io questa storia, perché c 'erano quei due coglioni piazzati a casa, prova a dire qualcosa contro la mia famiglia e ti ammazzo, brutta stronza, brutta merda, fammi vedere testa di cazzo"),*
- la ricorrente ha contrastato in modo convincente la tesi difensiva del V che, nella memoria di costituzione, ha tentato di screditare la ricostruzione della moglie che avrebbe sposato il marito dopo ben tre anni di

convivenza ed avrebbe deciso di concepire un figlio dopo tre anni di matrimonio evidentemente, a suo dire, con ciò dimostrando la non veridicità delle accuse di violenza perpetrata. In modo molto lineare, all'odierna udienza, la I ha chiarito che i primi episodi di violenza sono stati posti in essere dal marito solo dopo il matrimonio, nel luglio del 2015 (il matrimonio è del 2 maggio 2015, dopo un anno di convivenza) in un periodo particolarmente brutto per la vita del marito quando lo stesso era stato licenziato, non aveva lavoro e passava un momento di depressione e di volontario isolamento che l'hanno indotta a giustificare quei comportamenti. Ha poi riferito che la coppia ha vissuto un periodo positivo dopo l'inizio del nuovo lavoro da parte del V in occasione dell'inizio del nuovo lavoro, dapprima a Malta alla fine del 2016 e successivamente in Germania dal gennaio del 2017. Il periodo di serenità vissuto dal marito ed il momentaneo superamento delle problematiche coniugali, ha portato ha portato l' a decidere di poter concepire un figlio nato poi nel febbraio del 2018. Il primo episodio di violenza infatti, dal settembre del 2015 è del 27 dicembre 2017 quando la I aspettava il bambino già da sette mesi.

Quindi nessuna particolare incongruenza, sotto questo profilo, si riscontra nei comportamenti della moglie che ha ritenuto di non essere pronta ad affrontare la separazione, nell'interesse del proprio bambino appena nato, all'esito del grave episodio del maggio del 2018, e quindi ha tollerato anche quello per poi decidersi definitivamente a chiedere la separazione e la misura di protezione urgente dopo il grave episodio dell'agosto del 2019

- non si ritiene che la allegazione del resistente di non voler rientrare nella casa familiare sia

sufficiente a scongiurare il pericolo di ripetizione dei gravi comportamenti posti in essere nel corso degli anni, visto che si tratta di dichiarazioni non supportare da un progetto abitativo alternativo su e da una reale presa di coscienza degli agiti aggressivi che non sono stati ammessi e che anzi il V ha tentato di giustificare con le intromissioni dei suoceri, avendo

10. stesso ammesso solo quanto non ha potuto negare e cioè la violenza contro i suoceri, imponendo di dubitare di una reale resipiscenza, al contrario apparendo solo una strategia difensiva,

- si ritiene che l'agito del V nei confronti della moglie integra un grave pregiudizio alla

incolumità psicofisica della stessa in quanto il marito dal 2015 e dal 2018 innanzi al figlio minore ancora molto piccolo, forte della propria superiorità fisica, l'ha picchiata con schiaffi, calci e spinte, prendendola per i capelli, incurante del pianto del figlioletto, agendo con violenza anche nei confronti dei di lei genitori, perdendo il controllo della situazione ed incutendo un tale timore da scoraggiare la difesa della I attraverso il ricorso alle Forze
di polizia,

- si ritiene, anche considerata la fissazione dell'udienza presidenziale (per il 14.1.20), che la durata dell'ordine di protezione debba essere stabilita in mesi 6 dalla sua esecuzione,
- quanto agli incontri tra il minore ed il padre si ritiene necessario incaricare i servizi sociali

del Comune di di avviare il servizio di Spazio Neutro garantendo al padre la possibilità
di vedere il figlio in incontri osservati e protetti nei 10 giorni al mese di sua permanenza in Italia fissando se possibile, in detto periodo, almeno due incontri, e proseguendo nel percorso solo qualora il comportamento paterno risulti adeguato alle esigenze del figlio minore,

- rilevato che la ricorrente non ha chiesto che unitamente all'ordine di protezione sia anche fissato un assegno a carico del padre per il mantenimento del figlio tra l'altro allegando che

11. V non contribuisce alle esigenze del nucleo familiare al quale fa fronte da sola, con
l'aiuto dei propri familiari, venendo così meno il presupposto di cui all'art. 342 ter co 2 c.c. e quindi dovendosi riservare ogni determinazione sul punto in sede di udienza presidenziale,

CONCISA ESPOSIZIONE DELLE RAGIONI DI FATTO E DI DIRITTO DELLA DECISIONE

Premesso in fatto

SM e AA hanno contratto matrimonio in il 1995 iscritto nei registri dello stato civile del Comune di nell'anno 1995, dal matrimonio sono nate tre figlie: Y il 1996,S il 1999, Y il 2008, con il ricorso introduttivo del presente giudizio la M chiedeva, oltre alla separazione personale dei coniugi, l'assegnazione della casa coniugale sita in in via concessa in locazione alla stessa dall'ALER di con contratto del 26/9/2003, la decadenza del padre dalla responsabilità genitoriale sulla figlia minore, l'ordine di allontanamento del padre dalla casa familiare, l'affidamento super esclusivo della minore alla madre, la possibilità per il

padre di vedere J con modalità e contesti protetti, l'ordine al resistente di non avvicinarsi luoghi abitualmente frequentati da moglie e figlie, l'obbligo padre di contribuire al mantenimento di J e di S maggiorenne ma non economicamente indipendente versando la somma mensile di euro 200, allegava che il marito aveva iniziato a manifestare forte conflittualità nei confronti della moglie e delle figlie allorché era nata la terza figlia, anch'ella femmina, contro la sua volontà avendo egli insistito perché la moglie interrompesse la gravidanza, più volte aveva aggredito moglie e figlie verbalmente e anche con schiaffi, aveva poi iniziato a proibire alle figlie adolescenti di indossare abiti estivi a suo parere troppo succinti, nel corso del 2017 le minacce e le violenze non soltanto verbali erano diventate molto frequenti, in particolare il padre non approvava la relazione sentimentale della figlia maggiore con un ragazzo italiano perché era stata promessa in sposa ad un suo amico e connazionale residente in Egitto, nel corso del 2017 aveva più volte preso a male parole le figlie e le aveva duramente minacciate perché non volevano avere vestiti e usanze musulmane, gli scatti d'ira e di aggressività si erano intensificati dopo che egli aveva iniziato ad assumere sostanze stupefacenti, la famiglia viveva in uno stato di terrore e la madre portava con sé le figlie quando andava sul lavoro per paura di lasciarle a casa sole col padre, il padre da ultimo aveva posto in essere comportamenti inquietanti come tagliare i vestiti delle figlie con le forbici e faceva forti pressioni alla figlia piccola per convincerla ad andare in Egitto con lui, infine ella aveva deciso di sporgere denuncia querela per maltrattamenti in famiglia contro l'A in data 25 luglio 2017, all'udienza presidenziale del 20/12/2017, presente il resistente personalmente senza un difensore, fallito il tentativo di conciliazione, il Presidente, sentite le parti personalmente e sentite le due figlie maggiorenni della coppia preso atto della volontà manifestata dal resistente di uscire dalla casa familiare e di non assumere più alcun comportamento inadeguato nei confronti dei familiari, rinviava all'udienza del 17/1/2018 per verificare il rispetto degli impegni assunti, all'esito della suddetta udienza, sentite ancora le parti personalmente, in data 22.1.2018 pronunciava la seguente ordinanza:

Rilevato che sussistono i presupposti per pronunciare gli ordini di protezione a tutela della moglie e delle figlie ai sensi dell'art. 8 della legge 154/2001 atteso che si ritiene provato che l' A abbia posto in essere condotte che hanno causato grave pregiudizio alla integrità fisica e morale ed alla libertà della moglie e delle tre figlie, rilevato che le allegazioni di cui al ricorso sono state confermate dalla M alla udienza del 20.12.2017 che ha dichiarato

"mio marito è minaccioso e insultante con me e le figlie. Alle figlie maggiorenni dice parole pesanti tipo "troia" e simili perché hanno fidanzati italiani non mussulmani. ha detto parole brutte anche a D fidanzato di Y. Una volta mi ha dato una sberla, anni addietro c'era anche suo fratello. Una volta ha dato uno schiaffo a S perché era scappato il cane. Ho paura perché mio marito vuole sempre comandare ed anche ho paura che stia con le ragazze da solo perché dopo aver detto che le bruciava con l 'acido e che pagava uno zingaro per ucciderle non sono tranquilla. Ho fatto una denuncia alla polizia che è prodotta in atti. Conosco oramai l'ispettore di via e mi ha detto di andare da lui appena ho qualche problema. S ha paura di stare in casa con il padre da sola, la piccola vive nel suo mondo e la grande è più forte. Il padre vuole che le figlie sposino un mussulmano. Mio marito non paga nulla ha tre anni io mantengo tutti e da poco anche Y lavora. Lui tiene i soldi che guadagna per sé".

Rilevato che il clima di paura e le minacce proferite dal padre sono state confermate dalle figlie maggiorenni che, sentite alla udienza del 20.12.2017 hanno dichiarato:

Y: *"è stato qualche volta aggressivo con le parole con me. Non mi ha picchiato. E' peggiorato da quando ha saputo che io sto con un ragazzo italiano che lui non accetta perché non è mussulmano. Non ha voluto conoscerlo. E' il mio primo ragazzo. Sono 6 mesi che non parliamo più con mio padre. Io non ho paura a stare con mio padre, mia sorella S sì. Recentemente mi ha detto parole molto brutte tipo "troia" e che se mi avesse visto con D mi avrebbe investito con la macchina. Ha detto che lui non è più mio padre. Con mia madre non si parlano, la situazione è brutta anche per mia sorella piccola. Fa cose che mettono in cattiva luce noi e mia mamma agli occhi di Y*".

S : *"a casa ho paura a stare con mio padre e aspetto che ci siano anche o mia mamma o mia sorella. Ho tanta paura di mio padre. Una volta ha sputato per terra dove io passavo. Oppure sbatte le cose in cucina. Da quando ha saputo che io sono fidanzata con un italiano le cose sono peggiorate. Anche prima c'era tensione perché non andava d'accordo con mia mamma. E' una persona con la quale non ho mai parlato, non ho mai avuto un rapporto di dialogo* con *mio padre e non so come possa reagire perché è una persona imprevedibile. Credo che anche mia mamma abbia paura di lui anche se non lo fa vedere. Anche ieri mi ha urlato che a casa comanda lui. Dopo che ha ricevuto la carta del tribunale ha iniziato a dire a mia sorella piccola che se interrogata deve dire che vuole stare con lui e le ha detto che non lo avrebbe visto più se si fosse separato e lei piange perché pensa di perdere il padre. Ora la sta viziando per esempio la va a prendere a scuola che non è mai andato e al compleanno le ha regalato una bambola. Da un po' ha un frigorifero suo e fa la spesa per sé e per Y e parla solo con lei e non paga le bollette",*

Rilevato che l'A ha, almeno in parte, confermato i propri comportamenti violenti ed aggressivi dichiarando che

"è vero che una volta ho detto "troia" a Y perché lei mi ha fatto conoscere troppi ragazzi ed io ho detto che non è giusto avere troppi ragazzi. A luglio l 'ho trovata che baciava sotto casa un tale di nome D. Io ero con mia moglie e la piccola. Y mi ha detto "vieni a conoscere il mio ragazzo" ed io ho detto di no perché me ne aveva presentati tanti altri. Ho dato un piccolo schiaffo a Y quando è scappato il cane perché piangeva".

Pur negando di aver mai picchiato e di volere che le figlie sposino un mussulmano, rilevato che la M ha sporto denuncia querela presso la Procura della Repubblica lo scorso luglio descrivendo le minacce ed i condizionamenti subiti da tutto il nucleo familiare da parte dell'A (doc 5), ritenuto che sussistano i presupposti per la pronuncia degli ordini di protezione a tutela della moglie, insultata e minacciata, delle figlie maggiorenni insultate, minacciate di morte e impedite di frequentare ragazzi italiani e della figlia minore che è stata costretta ad assistere ai suddetti comportamenti gravemente pregiudizievoli posti in essere dal padre avverso la mamma e le sorelle e che ora è spaventata dal padre che cerca di condizionarla con l'arma del ricatto di sparire dalla sua vita.

Rilevato che l' A all'esito della udienza del 20.12.2017 è spontaneamente uscito da casa ed alla udienza del 17.1.2018 ha dichiarato: *"Sono uscito di casa e sono andato a vivere da un amico ... non ho intenzione di fare casino. Sto dando i 100 euro. Faccio il muratore, adesso ho trovato qualche lavoro per qualche settimana. Vivo in via in* ",

ritenuto però che l'attuale situazione di relativa calma, per il breve tempo trascorso, non possa essere ritenuta una effettiva e completa presa di coscienza dell'A circa il grave pregiudizio che la sua condotta ha causato ai componenti della sua famiglia ed in particolare alla minore e che sussista ancora il pericolo che quei comportamenti intimidatori, aggressivi e svalutanti possano essere reiterati, ritenuto che, visto l'allontanamento dell' A dalla casa coniugale avvenuto il 15.1.2018, debbano essere pronunciati gli ordini di non avvicinamento ai luoghi frequentati dalla M e dalle figlie, ritenuto che la durata del presente ordine di protezione debba essere fissata in mesi 6 dalla sua esecuzione, ritenuto che Y debba essere affidata al Comune di o vista l'impossibilità di prevedere un affidamento condiviso in considerazione dei gravi agiti pregiudizievoli posti in essere dal padre nei suoi confronti e vista l'impossibilità di delegare la rappresentanza della minore in capo alla madre in via esclusiva, a tutela sia della madre sia della minore a causa delle condotte paterne e del grave pericolo che discenderebbe dall'affidare alla madre, da sola, la gestione diretta delle frequentazioni e del rapporto della figlia con il padre, ritenuto che il Comune

di dovrà provvedere alla collocazione di Y presso la madre ed avviare tutti gli interventi necessari a sostegno di Y ed a favore dei genitori, come meglio indicati in dispositivo, ritenuto che le frequentazioni della minore con il padre debbano avvenire, allo stato, in luogo protetto e debbano essere monitorate in modo che agiti e parole del padre non siano di pregiudizio alla figlia, ritenuto che la casa coniugale di via con tutto quanto l'arreda, debba essere assegnata alla madre collocataria della minore con la quale vivono anche le due figlie maggiorenni, ritenuto che il padre deve contribuire al mantenimento delle figlie S studentessa, e Y con una somma che non sia del tutto irrisoria o meramente simbolica e che, visto il suo lavoro di muratore e la sua capacità lavorativa, possa quantificarsi in € 200,00 mensili, pur tenendo conto del fatto che egli non ha un lavoro regolare e deve provvedere anche alle spese del proprio alloggio, considerando, di contro, il modesto reddito della M che lavora come addetta alle pulizie, che ammonta a circa € 6.000,00 annui con il quale devono anche essere pagate le spese per la locazione dell'appartamento dove vive (doc 4), pur potendo ella contare sull'aiuto della figlia maggiore che ha un contratto di apprendistato come operaia part time per 20 ore settimanali che le procura un reddito di circa 740 mensili. Il padre deve inoltre sostenere il 50% delle spese mediche delle figlie S e Y non coperte dal SSN e documentate e delle spese scolastiche (tasse, libri gite), documentate

Considerato in diritto

La domanda di separazione

La domanda di separazione è fondata e deve essere accolta.

Il fallimento del tentativo di conciliazione, la natura delle domande svolte, la separazione di fatto ormai risalente nel tempo, sono invero elementi tutti idonei a rivelare la sussistenza di una situazione di intollerabilità, allo stato, della prosecuzione della convivenza tra le parti. Sussistono, pertanto, i presupposti di cui all'art. 151 1° comma c.c. per la richiesta pronuncia di separazione personale dei coniugi.

La responsabilità genitoriale

Il Collegio ritiene di confermare integralmente i provvedimenti presidenziali in ordine all'affido della figlia minore Y al Comune di , al collocamento della stessa presso la madre, alla previsione di incontri osservati e protetti con il padre.

Dalle relazioni dei servizi sociali del Comune di emerge come la M sia ancora persona molto fragile: dopo la pronuncia dell'ordine di protezione, nell'anno 2018, ha più volte espresso agli operatori dei servizi la volontà di riconciliarsi con il marito, malgrado quanto dalla stessa rappresentato nel ricorso introduttivo in ordine agli agiti di violenza e di minaccia dallo stesso posti in essere nei suoi confronti e delle figlie maggiorenni e confermato all'udienza presidenziale. La M, inoltre, ha portato agli operatori la fatica della gestione del nucleo familiare. Ha dichiarato di avere difficoltà nell'essere autorevole nei confronti delle figlie più grandi, ha mostrato la propria sofferenza dovuta alla lontananza dal marito tendendo a minimizzare i maltrattamenti denunciati ed è parsa molto fragile e bisognosa di supporto. Aveva iniziato un percorso di sostegno alla genitorialità e un percorso di supporto psicologico presso il consultorio integrato che poi ha, di fatto, interrotto allegando una minore disponibilità di tempo libero causato dalla nuova attività lavorativa. La situazione, da ultimo, sembra in parte migliorata atteso che, dalla relazione del marzo del 2019, emerge che la M ha dichiarato di sentirsi serena e maggiormente in grado di affrontare la separazione, di contro ancora non riesce a far fronte alla gestione della quotidianità ed alle dinamiche familiari. Sovente è succube delle decisioni delle figlie, anche di Y che la tiranneggia cercando di ottenere tutto ciò che desidera e presenta ancora molta fragilità che non le consente di tenere a lungo la posizione neppure con la figlia minore. Anche la casa presenta molte criticità, sia dal punto di vista della sicurezza degli impianti, sia per i profili di igiene e di cura tanto che i servizi sociali hanno proposto alla M di essere affiancata da un "custode sociale" che possa accompagnarla nella richiesta di manutenzione e messa a norma dell'abitazione, trattandosi di un alloggio di edilizia pubblica, suggerimento che la M ha accettato (cfr. ultima relazione dell'ottobre del 2019).

Il padre, uscito dalla casa familiare, si è trasferito dapprima in Sardegna allegando di avere ivi conoscenze e quindi la possibilità di reperire un lavoro, poi in Francia e da ultimo in Montenegro e sembra, più recentemente, rientrato in Italia. Ha occasionalmente incontrato gli operatori dei servizi sociali allorché è rientrato su e, da ultimo, ha dichiarato di non volere incontrare Y in un luogo protetto per un tempo breve, confermando di non vedere e sentire la bambina da diverso tempo.

Alla luce di tutto quanto sopra è emerso che il Tribunale non può che accoglie le indicazioni fornite dagli operatori dei servizi sociali e quindi mantenere l'affido della minore al Comune di .

Si auspica che la madre riesca ad intraprendere e portare a termine quei percorsi di sostegno psicologico e genitoriale, iniziati ma interrotti, che le consentano di acquisire forza, indipendenza, autostima e capacità di gestire la propria casa e la propria famiglia, in particolare la figlia minore, in autonomia.

La domanda di decadenza dalla responsabilità genitoriale del padre, avanzata dalla M, sostanzialmente non coltivata, non appare fondata. Se possono dirsi pacifici i comportamenti violenti, minacciosi e svilenti posti in essere negli ultimi anni della vita coniugale dall'A nei confronti delle figlie più grandi e della madre, certamente alla presenza di Y, dopo la pronuncia dell'ordine di protezione non risulta che il padre abbia reiterato comportamenti maltrattanti avverso la minore. Anzi si è presentato in alcune occasioni presso i servizi sociali ed ha sempre versato la somma posta a suo carico per il mantenimento delle figlie. Se certamente ha mostrato disinteresse alla crescita della bambina, allontanandosi per molti mesi e non avendo contatto con lei, non si ritiene di dover pervenire ad una pronuncia di decadenza.

Gli interventi a sostegno del nucleo familiare

Come più volte suggerito dai servizi sociali, deve essere riattivato il percorso di sostegno psicologico ed alla genitorialità per la M e, se presterà il suo consenso e si stabilirà in Italia, anche per l'A . Quanto a Y, dalla indagine espletata dai servizi sociali emerge che presenta difficoltà legate all'apprendimento, tanto che la scuola aveva già più volte sollecitato una valutazione neuropsichiatrica alla quale il padre però si è sempre opposto. È stata avviata una presa in carico psicologica presso UONPIA e sono ancora in corso approfondimenti per meglio definire il quadro cognitivo. È stato anche iniziato un percorso di logopedia ed a scuola ha potuto essere affiancata da pagina 8 di 12 un'insegnante di sostegno. Y si mostra a tratti immatura rispetto all'età e appare in difficoltà nell'esprimere e rielaborare le proprie emozioni. In particolare addotta delle modalità di negazione per evitare di entrare in contatto con una situazione di sofferenza troppo dolorosa e complicata per essere affrontata. Y è stata inserita in un gruppo di pari presso la sede della Cooperativa per un supporto educativo che pare essere molto utile perché la minore ha un forte bisogno di partecipare ad attività di gruppo e di avere dei riferimenti educativi a cui affidarsi. Inoltre è stato avviato un supporto educativo domiciliare con la finalità di accompagnarla verso una crescita adeguata alla propria età, cercando di responsabilizzarla e distanziarla da un rapporto a volte simbiotico con la madre che ancora l'accudisce nelle cure primarie come una bambina molto piccola, ma allo stesso tempo che disincentivi atteggiamenti inadeguati per la sua età che la minore ha quando segue le sorelle maggiori e ne riprende gli atteggiamenti, il trucco ed il vestiario.

Pertanto devono essere proseguiti tutti gli interventi di sostegno per Y ed ultimato l'esame presso UONPIA. Le figlie maggiorenni hanno più volte dichiarato di non voler più frequentare incontrare il padre analogamente il padre ha dichiarato di non avere intenzione di riattivare la relazione con le figlie visto che ritiene che sia stata una loro scelta quella di escluderlo dalla loro quotidianità.

Le frequentazioni di Y con il padre

Quanto alle frequentazioni di Y con il padre deve ribadirsi la necessità che ella veda il padre alla presenza di un operatore, tanto più ora che la relazione tra i due si è interrotta da tempo. Qualora il padre si stabilisse a , potrebbero essere avviati gli incontri in spazio neutro come già previsto con l'ordinanza presidenziale, ovvero, come suggerito nell'ultima relazione dei servizi sociali, qualora il padre fosse oppositivo allo spazio neutro, potrebbe effettuare gli incontri con la figlia alla presenza dell'educatore domiciliare e con tali modalità, potrebbero anche essere effettuate le telefonate. I servizi riferiscono che il padre ha chiesto tempo per riflettere su quanto proposto per valutare se sia conciliabile con i propri impegni lavorativi.

È certo però che il padre prima di intraprendere un percorso di avvicinamento con la figlia debba garantire una stabilità e progettualità di vita, affinché le aspettative della bambina non vengano frustrate.

Le condizioni economiche

Ritiene il Collegio che debba essere accolta la domanda della ricorrente e confermato l'onere del padre di versare la somma di euro 200 mensili a titolo di contributo di mantenimento per la figlia pagina 9 di 12

minore, essendo, nel corso del giudizio, anche S divenuta economicamente indipendente, somma che l'A ha sempre pagato come riferito nella comparsa conclusionale della M. Oltre a ciò il padre deve corrispondere il 50% delle spese sanitarie non coperte dal SSN e delle spese scolastiche (tasse, libri gite) documentate. Gli assegni familiari devono essere percepiti dalla madre.

Le spese di lite

Le spese del giudizio, vista la soccombenza del resistente, devono essere poste integralmente a suo carico e si liquidano come in dispositivo, in ragione del valore e della natura del presente giudizio, alla luce dei criteri adottati dalla sezione e visto il DM 55/2004 ed il DM 37/2018. Poiché la ricorrente è stata ammessa al patrocinio a spese dello Stato, visti gli artt. 133 e 130 del DPR n. 115/2002, il resistente dovrà effettuare il pagamento in favore dello Stato e gli importi vengono ridotti della metà.

ATTI COMUNICATI AL PM IN DATA 15 NOVEMBRE 2018.

Il procedimento e l'esito delle varie udienze

LETTO il ricorso introduttivo del procedimento, promosso da PF contro GM ,

genitori del minore N nato a in data 2017, fuori da matrimonio.

RILEVATO che nel ricorso la signora P ha riferito che, dopo avere iniziato una relazione sentimentale nel

2015 portata avanti senza particolari problemi, improvvisamente nel 2018 si avvedeva e scopriva che il proprio compagno GM era solito far uso di sostanze stupefacenti quali cocaina e crack e che aveva cominciato ad assumere comportamenti sempre più insoliti e pericolosi fino a gravi episodi di violenza posti in essere, sotto

l'effetto di tali droghe, avvenuti nel giugno, allorquando era costretta a riparare unitamente al proprio figlio nella casa della di lui madre al piano di sotto e ad ulteriori e sempre più gravi comportamenti violenti che l'avevano portata a richiedere l'intervento dei Carabinieri, a presentare una denuncia querela e quindi a trasferirsi definitivamente nell'abitazione dei propri genitori unitamente sempre al piccolo N . Tutto ciò premesso richiedeva in via d'urgenza l'emissione di un ordine di protezione di non avvicinamento alla ricorrente e in via principale l'affido in via esclusiva del figlio minore alla madre con visite con il padre con modalità protette e un contributo al suo mantenimento indiretto della misura di euro 500 € oltre al 50% delle spese straordinarie.

RILEVATO che il sig. G non si costituiva in giudizio ma si presentava personalmente all'udienza davanti al Collegio unitamente ad una educatrice della Comunità terapeutica K dove lo stesso risultava inserito in un programma di disintossicazione da sostanze stupefacenti e che entrambe le parti venivano ampiamente sentite, in specie parte resistente manifestando di essere d'accordo sull'affido esclusivo del figlio minore alla madre, chiedendo solo di poter vedere quanto prima lo stesso; all'esito la parte ricorrente e il difensore rinunciavano alla richiesta di provvedimento ex art. 342 bis c.c. atteso il ricovero nella comunità terapeutica del resistente e in via del tutto provvisoria alla richiesta di contributo al mantenimento chiedendo l'affido esclusivo e un'indagine tramite i Servizi sociali.

OSSERVATO che, all'esito dell'udienza, il Tribunale, pronunciava a verbale in via provvisoria ed istruttoria un provvedimento - da intendersi qui integralmente richiamato - con cui, dando atto della rinuncia della ricorrente alla domanda di ordini di protezione, disponeva l'affido del minore N alla madre, attesa la condizione di dipendenza da sostanze stupefacenti dal padre e l'attuale suo inserimento nella comunità di recupero, incaricava altresì i Servizi sociali del Comune di e i Servizi specialistici della ASST, previa immediata presa in carico del nucleo familiare, di svolgere un approfondimento psicosociale e psicodiagnostico sulle parti, sulle competenze genitoriali e sulla qualità della relazione tra i genitori del minore, valutando la possibilità di avviare la ripresa della relazione padre figlio con modalità osservate protette tenuto conto dell'andamento del percorso di recupero del padre in collaborazione con il Sert e con gli operatori della comunità terapeutica, sollecitando la trasmissione a tutti

gli organi coinvolti di una relazione di aggiornamento; dando infine atto della rinuncia di parte ricorrente alla richiesta di contributo al mantenimento, fissava nuova udienza davanti al Presidente relatore per il giorno 20 giugno 2019.

OSSERVATO che all'udienza del 20 giugno 2019, dopo aver esaminato le prime relazioni delle indagini sociali pervenute dai Servizi sociali del Comune di , il presidente relatore sentiva nuovamente le parti entrambe personalmente presenti e, attesa la mancata trasmissione delle relazioni da parte del Sert e della comunità terapeutica K, dopo ulteriori incarichi veniva fissata nuova udienza al 6 novembre 2019.

RILEVATO che all'udienza del 6 novembre 2019, riscontrata l'assenza del signor G per motivi di salute comunicati anche al difensore di parte ricorrente, dopo essere stata sentita nuovamente la signora P , esaminate le ulteriori relazioni successivamente pervenute, il procuratore di parte ricorrente precisava le proprie domande, chiedendo che venisse disposto l'affido super esclusivo del figlio alla madre, con visite demandate

ancora ai Servizi sociali, mantenimento del monitoraggio da parte dei Servizi e con un contributo al mantenimento indiretto del figlio a carico del padre nella misura di euro 250,00 oltre al 50% delle spese mediche obbligatorie, stante la situazione attuale precaria del resistente.

RILEVATO che, all'esito dei compiuti accertamenti svolti dai Servizi sociali e specialistici del Comune di con le relazioni agli atti e tenuto conto delle risultanze emerse dalle relazioni del Sert e della comunità terapeutica K (cfr. varie relazioni agli atti) è emersa una situazione di contesto materno particolarmente tutelante e protettiva anche per il supporto del relativo nucleo familiare, essendo la signora tornata a vivere a casa dei propri genitori con il bambino, con una progressiva sempre maggiore responsabilizzazione della madre e con il riconoscimento di doti di equilibrio, attenzione verso i bisogni del figlio, buone capacità rielaborative anche rispetto alle pregresse situazioni vissute e grandi capacità di garantire l'accesso all'altro genitore; a fronte di tale quadro materno, progressivamente sempre più tutelante e protettivo, è emersa invece una situazione sempre più drammatica e precaria del padre, che ha abbandonato il percorso della comunità terapeutica rientrando a vivere in un appartamento vicino alla propria madre, con rapporti altamente conflittuali con la stessa, con ricadute anche nell'uso di sostanze stupefacenti nello specifico e con manifestazioni depressive e di chiusura, che ha reso peraltro impossibile da parte degli operatori dei Servizi Specialistici incaricati il completamento dell'accertamento psicodiagnostico richiesto e l'attivazione delle visite spazio neutro, avendo il signor G disdetto tutti gli appuntamenti fissati, non essendosi fatto più trovare ed essendosi sottratto ai vari colloqui fissati.

Responsabilità genitoriale e statuizioni economiche

OSSERVATO, quindi, come da tutte le emergenze acquisite e dalle verbalizzazioni rese dalle parti, tenuto conto dell'attuale situazione del signor G - apprezzando comunque il Collegio come sin dalla prima udienza lo stesso si sia sempre presentato personalmente, accettando e aderendo alle richieste di parte ricorrente, manifestando di volersi impegnare nel programma di recupero e disintossicazione, che però evidentemente non è riuscito a portare a termine - tenuto conto dell'esito degli accertamenti svolti dai Servizi Sociali e da quanto potuto constatare dal Tribunale circa la piena capacità e competenza genitoriale nel sapere comprenderne le esigenze e i bisogni del piccolo della madre, anche nel saper garantire un eventuale ove possibile accesso sereno al padre, possa essere certamente disposto l'affido esclusivo alla madre, come già oggetto provvedimento provvisorio di questo Tribunale, mantenendo il collocamento prevalente presso la madre attualmente dai nonni materni.

RITENUTO come quanto emerso e la situazione del padre, giustificano una concentrazione della responsabilità genitoriale in capo alla madre, anche con riguardo alle scelte più importanti per il minore (residenza abituale, salute, educazione, istruzione), dovendosi, cioè, disporre un affido cd. super-esclusivo o rafforzato (in giurisprudenza: Trib. Torino, sez. VII civ., ordinanza 22 gennaio 2015, Pres. Cesare Castellani; Trib. Pavia,
ordinanza 29 dicembre 2014, Est. M. Frangipane; Trib. Milano, sez. IX civ., ordinanza 20 marzo 2014; Trib. Milano, sez. IX civ., decreto 16 luglio 2014, Pres. Servetti), essendo possibile formulare, in ordine alla idoneità genitoriale della ricorrente, una prognosi favorevole, anche sotto tali aspetti, mostrandosi in grado di poter assumere consapevolmente un ruolo genitoriale sereno e responsabile, dovendo tali decisioni essere assunte con tempestività nell'interesse del minore.

RITENUTO che, stante quanto sopra già rilevato e tenuto conto della delicatezza della situazione anche sotto il profilo della necessità che eventuali incontri tra il padre e il bimbo debbano essere preparati e necessariamente monitorati, appare ancora necessario mantenere un'effettiva presa in carico da parte dei Servizi sociali competenti cui demandare necessariamente l'eventuale auspicabile avvio delle visite padre e figlio, ove lo consentano le condizioni psico-emotive del bimbo - peraltro così piccolo e senza che abbia potuto costruire un solido rapporto con il padre -e soprattutto tenuto conto della situazione psicofisica del padre e valutato l'esito dei percorsi che dovranno essere intrapresi da quest'ultimo, quale presupposto per l'avvio delle visite stesse, secondo quanto meglio analiticamente disposti in dispositivo.

OSSERVATO, altresì, che quanto emerso porta a ritenere opportuno delegare i medesimi Servizi Sociali per un'attenta attività di monitoraggio con attivazione di tutti gli interventi necessari o anche solo opportuni nell'interesse della minore e dei genitori.

RILEVATO, quanto alle statuizioni economiche, tenuto conto della condizione di attuale disoccupazione del padre che ha dichiarato di svolgere lavoretti saltuari, guadagnando dei redditi contenuti vivendo comunque lo stesso in una casa di sua proprietà, considerato altresì che la signora P al momento vive con il piccolo nella casa dei propri genitori che le offrono un importante sostegno economico oltre che organizzativo anche nella gestione del piccolo, consentendole di lavorare attualmente come dipendente ancora con contratto a termine (ma con possibilità di rinnovo) e con un guadagno dichiarato di € 1200, può essere disposto un contributo economico a carico del padre a titolo di mantenimento indiretto del figlio nella misura come richiesto in udienza di € 250,00 al mese, ritenuto equo e congruo in rapporto alle esigenze del figlio minore e dovendo comunque il padre contribuire al mantenimento della prole essendogli ciò imposto dalle norme del nostro ordinamento (art. 30 Cost. e art. 315 bis c.c. e segg.), oltre al 50% delle sole spese mediche obbligatorie, stante l'assenza di qualsivoglia comunicazione tra le parti e la mancata partecipazione da tempo da parte del padre alle decisioni riguardanti il figlio.

-

Spese di lite

RITENUTO, infine, che per quanto attiene le spese processuali, nulla deve disporsi atteso il comportamento processuale delle parti, in mancanza peraltro di opposizione del convenuto, rimasto formalmente contumace.

PER QUESTI MOTIVI

Letti ed applicati gli artt. 316, comma IV, 337-bis e ss c.c., 38 disp. att. c.p.c.,

AFFIDA in via esclusiva il figlio minore N (nato in data 2017) alla madre, presso la quale rimarrà collocata nella sua attuale residenza presso i nonni materni in via e che eserciterà in via esclusiva ex art. 337 quater comma 3 c.c la responsabilità genitoriale anche in relazione alle decisioni di maggiore interesse per il figlio relative all'istruzione, all'educazione, alla salute, alla scelta della residenza abituale e alle pratiche amministrative relative a tutte le questioni, tenendo conto delle capacità, dell'inclinazione naturale e delle aspirazioni del medesimo;

1. **DEMANDA** ai Servizi Sociali del Comune di , territorialmente competente, di avviare - solo ove le condizioni psico-emotive del bimbo lo consentano e purché il padre mostri serietà e responsabilità e abbia proficuamente intrapreso e/o ripreso i percorsi di recupero, con tutta la necessaria preparazione - gli incontri padre e figlio, in spazio neutro, con modalità necessariamente osservate degli incontri, secondo i tempi e modalità ritenute maggiormente rispondenti all'interesse del figlio minore e con progressiva eventuale ampliamento e liberalizzazione, tenuto conto dell'andamento dei percorsi avviati e intrapresi e sempre della condizione emotiva del minore;
2. ***DISPONE*** che i Servizi Sociali del Comune di territorialmente competenti, in collaborazione con i Servizi Specialistici della ATS e anche con i rispettivi Servizi di (in relazione al luogo di residenza del padre), provvedano a mantenere una efficace presa in carico dell'intero nucleo familiare e ad attuare tutti gli interventi necessari o anche solo opportuni di supporto socio-educativo anche domiciliari e/o di supporto psicologico per il minore per il tempo ritenuto necessario anche al fine di farlo eventualmente avvicinare in modo sereno e stabile alla figura del padre nonché interventi di supporto alla genitorialità per le parti ove utili e interventi di supporto psicologico e/o psichiatrico per il padre, ove acconsenta, con la prosecuzione e/o ripresa del percorso presso il SERD;
3. **INCARICA** i Servizi Sociali incaricati del Comune di di svolgere un'attenta attività di monitoraggio sul nucleo familiare e sulla situazione del minore, segnalando in ogni caso immediatamente alla Procura della Repubblica presso il Tribunale dei Minori, Autorità Giudiziaria competente, eventuali situazioni di grave pregiudizio per il minore;
4. **INVITA** entrambi i genitori ad attenersi, nell'esclusivo interesse del figlio e in quanto funzionale per un sano percorso di crescita del medesimo, alle statuizioni del presente provvedimento e di prestare la massima collaborazione agli operatori dei Servizi Sociali e Specialistici incaricati, AVVISANDO, in specie il padre, in caso di mancata collaborazione, che potranno essere assunti provvedimenti ulteriormente limitativi della responsabilità genitoriale;

5) **PONE** a carico del padre GM l'obbligo di corrispondere a PF, a titolo di contributo al mantenimento indiretto del figlio minore, con decorrenza dalla mensilità successiva alla pubblicazione del presente decreto, l'assegno mensile di € 250,00 (annualmente rivalutabile con indici Istat) che dovrà essere corrisposta, in via anticipata, entro il giorno 5 di ogni mese oltre al 50% delle spese mediche e dentistiche obbligatorie non coperte dal Servizio Sanitario Nazionale, urgenti e/o prescritte dal medico curante del figlio o dallo specialista, senza necessità di preventivo accordo;

5. NULLA sulle spese di lite;

DECRETO immediatamente esecutivo ex lege.

MANDA la Cancelleria per la comunicazione del presente provvedimento alla parte costituita e per la comunicazione ai Servizi Sociali del Comune di competenti territorialmente.

TRIBUNALE ORDINARIO di MILANO

NONA SEZIONE CIVILE

Il Giudice, dott.ssa Piera Gasparini
a scioglimento della riserva assunta alla udienza del 5 dicembre 2018 ,
letti gli atti e di documenti di causa,
sentite le parti personalmente ed i loro difensori, pronuncia il seguente

DECRETO

Con ricorso, depositato in data 31/10/2018 **RRI** ha chiesto l'adozione di un ordine di protezione allegando che il marito **DM N** con il quale è sposata dal 2007 e dal quale ha avuto una figlia, MV, nata il 2007, ha da tempo un atteggiamento autoritario, prevaricatorio ed aggressivo , consistente in ripetuti insulti e minacce, anche volti ad ottenere prestazioni sessuali contro la sua volontà- avendo la donna difficoltà nei rapporti a causa dell'isterectomia subita- alla presenza della minore, nonché in condotte persecutorie originate da una immotivata gelosia.

Si costituiva all'udienza fissata per il 5/12/2018 DM N chiedendo il rigetto del ricorso, sostenendo che nessuna condotta di aggressione e violenza era stata dallo stesso posta in essere nei confronti della moglie, lamentando che la situazione di attrito tra le parti, acuitasi nel mese di settembre 2018, avrebbe avuto origine nel fondato sospetto di infedeltà della moglie; ha negato qualsiasi forma di abuso di natura sessuale o di pressante richiesta economica segnalando di essere stato egli stesso vittima di insulti da parte del suocero.

Ritiene questo Giudice che gli elementi acquisiti, sulla base della valutazione sommaria quale è possibile in questo tipo di giudizio, consentono di accogliere il ricorso proposto.

Deve, infatti, preliminarmente osservarsi che il provvedimento ex art. 342bis c.c. è finalizzato ad assicurare la tutela del singolo individuo all'interno del nucleo familiare, garantendo una protezione tempestiva e *preventiva* rispetto al degenerare delle situazioni interpersonali e non richiedendo affatto che le condotte poste in essere assurgano a rilevanza penale, essendo sufficiente il verificarsi di un evento dannoso all'integrità fisica o morale o alla libertà di un familiare convivente causalmente riconducibile alla condotta dell'altro.

Nel caso di specie è circostanza pacifica riconosciuta da entrambe le parti che il rapporto tra i due coniugi stia attraversando una delicata fase, avendo lo stesso signor D M ammesso sia in comparsa di costituzione, sia in udienza, le liti frequenti con la moglie.

Aldilà del contenuto della denuncia-querela in atti presentata dalla sig.ra R per maltrattamenti e violenza sessuale attraverso minaccia alla Stazione dei Carabinieri di (cfr. docc. 10 e 11 allegati al ricorso), con indagini in corso, vi è evidenza di comportamenti di natura persecutoria del D M quali gli inseguimenti in scooter effettuati dal resistente mentre la moglie si reca al lavoro, non solo nella documentazione fotografica prodotta, ma anche nelle stesse dichiarazioni rese in udienza dal resistente il quale ha ammesso di aver posto in essere la condotta perché spinto dalla gelosia.

Tali episodi appaiono certamente gravi e sono inequivocabilmente indicativi della situazione di pericolo di pregiudizio all'integrità psicofisica della donna, che peraltro risulta avere pesanti postumi a seguito dell'operazione di isterectomia (cfr. certificazione medica della clinica , docc. 5,6,7 allegati al ricorso).

Ancora, a riscontro della valutazione, sia pure in via sommaria, dello stato di sofferenza della ricorrente, è la produzione del volantino informativo sulla violenza domestica sul quale la donna, recatasi alla clinica per ragioni di cura, ha appuntato a penna i nominativi di professionisti cui eventualmente rivolgersi spiegando di aver cominciato solo ora a capire di poter essere seriamente aiutata pur in un contesto in cui non subisce violenza fisica, ma pressioni di natura psicologica da parte del marito, con continui attacchi verbali alla propria persona ricevuti in presenza della figlia e comportamenti poco rispettosi della minore (cfr. verbale di udienza in data odierna: " sono preoccupata del fatto che mio marito gira nudo per casa anche alla presenza della bambina ed usa termini scurrili quali *"tu non scopi con me quindi vai a scopare con qualcuna altro'")*.

Ulteriore indice di attendibilità e verosimiglianza della prospettazione della ricorrente si ricava, a giudizio di chi scrive, anche dalla considerazione che la stessa è stata accusata nella memoria di costituzione di non avere contribuito al sostentamento della famiglia a differenza del coniuge, secondo il quale, invece, *" il nucleo familiare in verità ha sempre poggiato le proprie sorti sul lavoro svolto dal D M* .

Ebbene, risulta dalla documentazione prodotta dalla ricorrente lo stabile inserimento lavorativo della sig.ra R sin dal 2015 presso uno studio cardiologico di (doc. 4 allegato al ricorso),con un guadagno che oggi ammonta a circa € 1.000 mensili; viceversa il resistente ha rappresentato una situazione assai precaria, di addetto con lavoro "a chiamata" al locale " " di , poco compatibile con il farsi carico del mantenimento integrale del nucleo familiare.

Ora, le condotte larvatamente minacciose e persecutorie poste in essere dal resistente, che assumono rilevanza in questa sede dove non si richiede certo l'abitualità e frequenza richiesta in sede penale per il reato di maltrattamenti, unitamente agli insulti sulla moralità della moglie che la ricorrente ha riferito in udienza, alla presenza della bambina, appaiono, secondo questo Giudice, già di per sè gravemente pregiudizievoli, considerato che nell'acuirsi del conflitto tra i due coniugi, legato anche alla manifestata volontà della moglie di procedere con un giudizio di separazione, vi è il concreto pericolo che tali condotte possano ulteriormente reiterarsi ed aggravarsi.

Nel <u>MERITO</u>, rilevato che,

Sulla domanda di separazione personale

La domanda diretta a ottenere la pronuncia di separazione giudiziale va accolta perché i fatti desunti dalla trattazione della causa dimostrano in modo inequivocabile che la prosecuzione della convivenza è divenuta ormai da tempo intollerabile ex art. 151, primo comma, c.c.
I coniugi oramai vivono separati dal marzo 2015, quando la signora V veniva posta in comunità protetta. Dal quel le parti non hanno più convissuto e non hanno più avuto alcun rapporto diretto di sorta. E' pertanto venuta meno la comunione materiale e spirituale tra i coniugi che giustifica l'accoglimento della domanda di separazione personale formulata da parte ricorrente.

Sulla richiesta di addebito

Entrambi i coniugi svolgono richiesta di addebito.
Quanto alla signora, per comprendere la piena fondatezza della richiesta è bene rammentare che il presente procedimento è esordito con la signora trasferita insieme ai figli in casa famiglia a seguito di provvedimento del Tribunale per i minorenni e il signor C posto in regime di detenzione cautelare in carcere. A carico del marito sussiste un decreto che dispone il giudizio del GIP di Crotone e un decreto di giudizio immediato del GIP di Milano (poi riunito al primo procedimento) per reati che vanno dai maltrattamenti in famiglia sin dal 2004 e fino al 2015, lesioni aggravate, reiterate violenze sessuali, violenza privata. Come detto, C - per questi fatti - è stato in custodia cautelare in carcere e poi in regime di arresti domiciliari. Attualmente il dibattimento è in corso. Si rammenti che almeno il procedimento radicato inizialmente in M aveva inizio non già per iniziativa della signora, ma su segnalazione dei servizi sociali di P. Infatti, appena giunta la coppia in P (con provenienza da C.) predetti servizi provvedevano a convocazione in forza di preesistente decreto del tribunale dei minori di C. che segnalava la necessità di un supporto per il nucleo. Bene, il signor C. Si presentava insieme alla moglie, prima dichiarando la sua intenzione di tornare a C e accusando la moglie di averlo aggredito durante una lite. Di fronte alla moglie, che negava l'accaduto, il signore si lasciava andare ad uno scatto d'ira, troncando il colloquio e abbandonando la stanza sbattendo la porta. A quel punto la signora, rimasta sola con l'assistente sociale, si lasciava andare ad un lungo e silenzioso pianto, narrando di avere subito sistematiche e continue violenze fisiche e mostrando segni e lividi sul corpo. La signora riferiva anche che il marito era voluto scappare da C perché coinvolto in una truffa alle assicurazioni e che il suo ambiente familiare era, in qualche modo, legato ad ambienti criminali. Alla luce di questi fatti - meglio dettagliati nella relazione in data 2 aprile 2015 - i servizi sociali decidevano di segnalare i fatti penalmente rilevanti e avviare un percorso di protezione per la signora.
Ora, è ben noto che - in ambito familiare - anche il singolo atto di violenza si connota per tanto grave violazione degli obblighi derivanti dal matrimonio, da giustificare l'addebito della separazione anche a prescindere da eventuali bilanciamenti con il comportamento di controparte. Beh, nel caso di specie siamo di fronte a qualcosa di più; ad una situazione di costante e grave prevaricazione della quale la signora V è stata vittima per anni. Naturalmente, il giudizio penale - in cui la signora è stata sentita come testimone - è ancora in corso e lo scrivente non può sostituirsi al giudice penale. Nondimeno i provvedimenti assunti dal tribunale dei minori, i procedimenti pendenti e già confermati almeno in sede cautelare e la totale assenza di una anche minimamente plausibile spiegazione alternativa da parte del resistente, giustificano ampiamente il giudizio di addebito. Il vincolo coniugale si è palesemente interrotto quando la signora, anche grazie alle strutture sociali di P ha trovato la forza di narrare la sua storia e confermarla.
Del tutto opposto è il discorso per la richiesta di addebito svolta dal marito. Questa è sostanzialmente sfornita di qualsivoglia motivazione. Il signore ha denunciato la signora (in data 4.9.2017) e i servizi sociali di P (in data 3 marzo 2017) dopo il collocamento in comunità della signora e senza alcuna correlazione con la separazione. Tale denuncia, il cui esisto non è noto, appare meramente strumentale ed esattamente speculare (in negativo) ai fatti già prima riferiti dalla signora e per i quali C è tratto a giudizio.

Sull 'affido di De V

Subito dopo la deflagrazione della vicenda familiare, il tribunale dei minori disponeva l'affido di D e V all'Ente in considerazione di una certa fragilità manifestata dalla signora. Fino ad oggi la situazione è rimasta immutata. E' giunto il momento di restituire la pienezza del suo ruolo, anche dal punto di vista legale, alla signora V Già dalla relazione in data 21 aprile 2016 i servizi sociali di P. indicavano l'affido esclusivo alla madre come la migliore soluzione per i ragazzi. Questa conclusione è sostanzialmente condivisi anche dai servizi sociali di A , attualmente competenti, i quali evidenziano l'assenza di elementi di pregiudizio per i minori. La signora

V, in questi anni, è indubbiamente maturata, raggiungendo autonomia e indipendenza. Ella ha giustamente deciso di andarsene da P, per trasferirsi in V. dove è riuscita a sistemarsi dal punto di vista lavorativo e dove si occupa in modo proficuo e protettivo dei figli. All'affido esclusivo segue, naturalmente, il collocamento presso la madre, dove i minori già si trovano.
Per contro, è assolutamente improponibile l'idea dell'affido condiviso. I coniugi non hanno più alcun rapporto di sorta e il padre, dopo l'allontanamento della moglie, non ha neppure più visto i figli, mostrando una totale incapacità di adeguarsi al percorso indicato dall'Ente affidatario.
Resta ferma l'importanza, per V e soprattutto D, di proseguire negli interventi di sostegno in atto. In particolare, mentre Vnon sembra avere particolari problemi, D ha manifestato difficoltà nel passaggio dalla scuola elementare alla media. Il ragazzino è stato bocciato al termine del primo anno. D viene descritto come un ragazzino difficile, chiuso, con atteggiamenti di disturbo verso gli altro compagni, che hanno finito con il suscitare antipatie. Ciò non deve stupire dato che, vista la maggiore età rispetto a V, D è probabilmente colui che ha vissuto in maniera più diretta il pesante clima familiare. Queste ragioni inducono ad insistere per il percorso di valutazione psicologica che i servizi sociali di A sembrano avere approntato e che la madre - non senza qualche iniziale perplessità - ha infine accettato.
Rispetto ai rapporti con il padre, qualunque cosa ne dica il signor C, è stato lui a rendere impossibile la ripresa dei rapporti. Dopo il collocamento della signora in luogo protetto, erano stati approntati contatti telefonici con i minori che sono stati utilizzati dal signore per chiedere a D. di intervenire sulla madre affinché ritrattasse le sue dichiarazioni. Egli - scrivono i servizi di P - ha più volte tentato di incontrare liberamente i figli, come se il decreto del tribunale per i minorenni non esistesse, per poi rifiutare qualsiasi collaborazione con i servizi incaricati. I servizi sociali di A ribadiscono che anche i tentativi di comunicazione telefonica sono, oggi, del tutto interrotti ed il padre non ha contatti con i figli dal 2015. Se il signor C ha veramente a cuore il suo rapporto genitoriale egli deve comprendere che deve necessariamente ripartire dalle indicazioni impartite dal tribunale e collaborare con i servizi sociali incaricati.
Per inciso, va anche detto che queste difficoltà non sono imputabili alla signora V. La signora non ha mai dimostrato la volontà di eliminare la figura paterna dalla vita dei figli. Ad esempio, la madre ha sempre favorito la relazione anche telefonica con i nonni paterni, con i quali i ragazzini hanno un positivo rapporto.
Sulle questioni economiche
La signora V ha raggiunto la sua autonomia anche dal punto di vista economico. Ella lavora part-time con un contratto divenuto a tempo indeterminato e che le rende 600,00 euro al mese. In aggiunta la signora può contare su interventi di integrazione del reddito e sostegno da parte dei servizi sociali. La signora V non si trova certo in situazione particolarmente agiata;
nonostante ciò nulla chiede al marito.
Mentre non dovrebbe esserci dubbio circa il fatto che il padre dovrebbe mantenere i figli, cosa che - fino ad oggi - C non ha mai fatto. Del lavoro della signora C del suo reddito non si conosce assolutamente nulla. Nonostante la costituzione in giudizio, egli non ha depositato nessuna documentazione fiscale e non ha spiegato nulla della sua attività lavorativa. Alla moglie risulta che egli farebbe l'autotrasportatore in giro per l'Italia, ma è chiaro che non si tratta di un dato certo e/o quantificabile in alcun modo. Resta fermo che C che volutamente è rimasto nell'ombra, è un giovane pienamente dotato di capacità lavorativa. Alla luce di questa considerazione, la cifra indicata dalla madre, di 400,00 euro al mese, sembra più che proporzionata. Tenuto conto dell'assenza di qualsiasi possibilità di intesa tra i coniugi, detto assegno va stabilito in modo omnicomprensivo.
Sulle spese processuali
Tenuto conto dell'esito del giudizio e dell'addebito della separazione al marito, il resistente deve essere tenuto al pagamento delle spese processuali sostenute dalla ricorrente. Tenuto conto del fatto che la signora V è ammessa al patrocinio a spese dello Stato, l'importo va quantificato in euro 3.050,00 (come da criteri orientativi di sezione, con diminuzione al 50% per il gratuito patrocinio) che il signore dovrà pagare in favore dell'Erario.

MOTIVI DELLA DECISIONE

Si ritiene doversi affermare la penale responsabilità dell'imputato in ordine ai delitti a lui ascritti.

Sotto il profilo metodologico occorre preliminarmente richiamare il principio, più volte affermato dalla Suprema Corte, secondo cui il racconto dei fatti narrato dalla p.o. deve essere sottoposto ad un vaglio di credibilità rigorosa in considerazione della particolare posizione di quest'ultima che non è un testimone terzo che ha assistito o comunque conosciuto dei fatti per i quali è processo dall'esterno, ma è persona direttamente coinvolta nella vicenda in quanto portatrice di un interesse personale e diretto ad ottenere la condanna dell'imputato che peraltro nel caso di specie è anche di tipo patrimoniale.

Ciò premesso, nel tentativo di stabilire cosa sia realmente accaduto, il Tribunale non può che basarsi sulle risultanze agli atti applicando le sopra ricordate coordinate ermeneutiche e sottoponendo la versione dei fatti riferita dalla p.o. ad un vaglio di credibilità intrinseca afferente ai dati dalla stessa riferiti, nonché estrinseca, accertando sotto tale ultimo profdo se la stessa trovi o meno riscontro nella deposizione di altri testi o

conferma nelle circostanze del fatto per cui è processo comunque emerse.

Nell'ipotesi di specie il Tribunale ha valutato attendibile la versione dei fatti esposta dalla parte lesa in quanto la narrazione risulta logica, puntuale e dettagliata, peraltro la deposizione è stata resa con atteggiamento sereno e composto senza mostrare atteggiamenti di rivalsa nei confronti del prevenuto.

La vicenda per la quale è processo si colloca nell'ambito nel difficile rapporto tra i due protagonisti della vicenda: l'imputato e la p.o.: circostanza che induceva le parti alla separazione; in base al relativo

Art.546 c.p.p., raccomandazione n.84/'16 del Presidente della Suprema Corte di Cassazione. provvedimento del competente Tribunale l'imputato era tenuto a versare la somma stabilita per il mantenimento del figlio minore;

al riguardo la parte lesa riferiva che il prevenuto versava *"solo qualcosa nel 2012",* mentre successivamente non aveva versato più nulla, né si era interessato al figlioletto sia con riguardo al suo rendimento scolastico che alle condizioni di salute, a quanto è dato comprendere;

rispondendo alle domande che le venivano rivolte, riferiva di essere stata oggetto di reiterate minacce ed offese attuate telefonicamente e personalmente con frequenza, si comprende che l'imputato era solito controllare i suoi movimenti anche appostandosi sotto la sua abitazione;

tale comportamento l'aveva indotta a mutare le sue abitudini di vita, in particolare a cambiare itinerario rincasando la sera ed una volta a rifugiarsi a casa della madre

Sulla base delle risultanze agli atti, i fatti per i quali è processo appaiono adeguatamente provati e la tesi difensiva destituita, sulla base del materiale probatorio acquisito, di adeguato fondamento; invero la p.o. ha chiaramente riferito dati indicativi ai fini del decidere quali quelli sopra esposti.

Il reato di cui al capo a) deve stimarsi provato in ragione dello stato di ansia costante nel quale viveva la p.o., nonché dall'indotto mutamento delle abitudini di vita.

Quanto al delitto di cui all'art.570 c.p.p. il Tribunale stima lo stesso parimenti provato; invero la condotta del prevenuto risulta penalmente rilevante, posto che egli si è reso inadempiente ai suoi doveri dopo soli pochi mesi dalla separazione, invero questi avrebbe corrisposto solo nel 2012 *"qualcosa"*peraltro di importo inferiore a quello dovuto;

il fatto integra gli estremi del reato contestato, invero questi risulta essersi sottratto agli obblighi di assistenza materiale connessi allo *status* di genitore del minore, così commettendo il delitto ascrittogli ai danni dei minori, pur tenendo conto che per un certo frangente temporale lo stesso è stato ristretto in carcere.

Sotto il profilo giuridico, ricordato che i presupposti del delitto sono, come statuito dalla più recente giurisprudenza della Suprema Corte cui il Tribunale si conforma: lo stato di bisogno da un lato e la gravità e reiterazione dell'inadempimento dall'altro,

si evidenzia da un lato la sussistenza dello stato di bisogno dei minori in ipotesi del tipo di quella che occupa, atteso che detti soggetti non sono in grado per i limiti propri della loro età di procurarsi reddito (cfr. *ex pluribus* Cass. sez. VI 18.10.2012, n. 46750, rv 254273, nonché Cass. sez. VI 3.2.2010, n. 14906, rv. 247022); dall'altro la circostanza che l'imputato risulta aver corrisposto solo immediatamente dopo il provvedimento di separazione alcune somme per il sostentamento, comunque inferiori all'importo delle mensilità dovute; egli risulta poi aver fatto mancare la sua presenza e si è disinteressato dei figli sia sotto il profilo del rendimento scolastico che delle necessità fisiche come dei altri bisogni; ne consegue tale inadempimento non può che considerarsi grave e reiterato.

Si concedono le circostanze attenuanti generiche, invero la p.o. ha riferito che a seguito della separazione l'ex coniuge aveva di tanto in tanto alzato il gomito forse per reagire o consolarsi dalla delusione, tale circostanza lascia residuare il sospetto che le condotte di atti persecutori siano state poste in essere per l'indotta debolezza.

I reati ascritti, non solo per la contestualità della loro consumazione, circostanza considerata dalla giurisprudenza della Suprema Corte non sufficiente ai fini che occupano, ma anche perché realizzati con condotta *lata sensi!* irrispettosa nei confronti dell'ex convivente nel descritto contesto connotato da un'esasperata forma di litigiosità, possono considerarsi avvinti nella medesimezza del disegno criminoso.

Quanto alla determinazione della pena, valutati tutti i criteri di cui agli artt. 133 e 133 bis c.p., si ritiene equo comminare quella di anni uno e mesi due di reclusione (p.b. ritenuto più grave il reato di cui al capo a) anni uno di reclusione, aumentata di mesi due per il reato satellite).

La condanna al pagamento delle spese processuali consegue *ex lege.*

Si è indicato il termine di deposito indicato in motivazione in quanto stimato congruo.

CONCLUSIONI DELLE PARTI

PM: condanna a 3 anni di reclusione.
La difesa dell'imputato: attenuanti generiche, minimo della pena, benefici di legge.

MOTIVI DELLA DECISIONE

1. Il processo.

In data 02.03.2018, veniva emesso decreto di giudizio immediato nei confronti di C .A E' per il reato contestato in epigrafe. All'imputato era stata applicata dal g.i.p. la misura cautelare di cui agli arti 282-fcis e 282-fer c.p.p., con ordinanza del 09.01.2018, eseguita in data 09.01.2018. Tale ordinanza non è mai stata revocata e, pertanto, l'imputato risulta ancora sottoposto alla misura cautelare.

All'udienza del 19.09.2018, il Giudice, regolarmente costituite le parti processuali, dichiarata l'assenza dell'imputato (comparso poi in aula in ritardo, dopo che il processo era già stato chiamato e rinviato ad altra udienza), ha ammesso le prove testimoniali richieste dalle parti.

All'udienza del 14.12.2018, escussa M P R (persona offesa), le parti hanno prestato il consenso alla acquisizione delle s.i.t. rese da R M G G (vicina di casa della persona offesa), D. F. M E (ospite a casa della persona offesa per cinque mesi), T F. B L (amica della persona offesa), Q V _ M delP. (amica della persona offesa), P. G L Z (madre di un amico del figlio della persona offesa).
Le parti hanno quindi rinunciato a tutti gli altri testi, revocati dal Tribunale. Con il consenso delle parti è stata anche acquista l'annotazione di p.g. redatta dal Crs. T F

Nel corso dell'istruttoria sono stati acquisiti diversi documenti, che saranno di volta in volta richiamati nel corso della presente motivazione.

All'udienza del 25.01.2019, le parti hanno quindi discusso e rassegnato le conclusioni sopra riportate,

2. L'accertamento dei fatti, le fonti e gli elementi di prova.

I fatti, come emersi dall'istruttoria svolta, possono essere ricostruiti nei termini che seguono. Si precisa che tale ricostruzioni si fonda sul racconto della persona offesa, il quale è stato completamente confermato - quanto ai singoli episodi specifici - dalle dichiarazioni delle persone informate sui fatti escusse a s.i.t.

La M P e il C iniziarono a convivere nel 2012. La coppia ha due figli: J M (nato il 2013) e G L (nato il i 2015). La persona offesa ha altri due figli avuti da una precedente relazione.

Dopo la nascita del primo figlio, nel maggio 2013, l'imputato iniziò ad assumere atteggiamenti violenti nei confronti della persona offesa. L'aggressività del C era dovuta principalmente al fatto che era solito abusare di sostanze alcooliche.

Diversi sono stati gli episodi descritti dalla M . P durante la sua deposizione.

In una prima occasione, l'imputato la prese per il collo mentre erano in casa.

In una seconda occasione, a pochi mesi dalla nascita del primo figlio, l'uomo la prese per i capelli, la gettò per terra e la prese a calci sulla schiena e sulle gambe

Le condotte violente del C' si verificavano ogni due o tre mesi, sempre in concomitanza con l'abuso da parte di quest'ultimo di sostanze alcooliche[1]. La M P cercò di parlargli, consigliandoli di farsi aiutare da qualcuno per la sua dipendenza. L'uomo, che era anche assuntore di cocaina, rifiutò qualunque tipo di assistenza *("io posso smettere senza alcun problema"[2])*. Lo stesso era solito chiedere scusa alla compagna per le sue condotte aggressive quando svaniva l'effetto dell'alcool.

A Natale 2013, mentre erano a casa della sorella dell'imputato, il C insistette perché la persona offesa allattasse il bambino..Al rifiuto della donna, l'imputato iniziò a percuoterla, mentre era a terra, con degli schiaffi sulla testa, smettendo solamente a causa dell'intervento di sua sorella.

Mentre la M P era incinta del secondo figlio, il C aggredì in almeno due occasioni la persona offesa. In una prima, impedendole di uscire dal bagno, la prese per il collo e la colpì in testa. In una seconda, dopo che l'imputato aveva bevuto insieme ad alcuni amici, prese nuovamente per il collo la donna, colpendola sul viso. La persona offesa ha riferito di essere stato percossa dal C mentre era in stato di gravidanza, in una o due altre occasioni, non meglio specificate. La T F & L amica della persona offesa, ha riferito che, mentre la M P era incinta, le vide dei lividi sul collo: quest'ultima le riferì che, mentre stava cucinando, l'imputato le aveva buttato la pentola per terra, l'aveva presa per il collo, sollevandola di peso, fino quasi a strozzarla[3]. Più in generale, la persona informata sui fatti ha spiegato di aver spesso visto l'amica, che aveva "*terrore*"[4] del C , con dei lividi sul collo e sulle braccia e con dei segni in faccia.

Dopo la nascita di G , nonostante la M P scoprì che il compagno l'aveva tradita con un'altra donna, i rapporti migliorarono per un breve periodo.

Nella primavera 2016, il C percosse nella camera da letto la persona offesa.

Questa riuscì a scappare e a raggiungere in sala D. F ME (soprannominata '), amica della M P che in quel periodo conviveva con la coppia. Alla vista della D F , l'imputato smise di percuotere la compagna.
Quest'ultima ha confermato che in quella occasione vide la M P scappare dalla camera da letto in biancheria intima: la donna le confidò che aveva paura che il C la picchiasse[5].

Nell'estate 2016, l'imputato scagliò addosso alla persona offesa una padella, senza colpirla.

In un'altra occasione, a casa di T F B L , in presenza di vari amici, il C , in stato di ebrezza, si mise a urlare contro la compagna, nonostante
M ' del P" cfr. relativi verbali di s.i.t
lei cercasse di calmarlo, visto che erano a casa di altre persone. L'imputato se ne andò, senza

percuotere la persona offesa. La T F ha confermato che quella sera il C aveva assunto atteggiamenti aggressivi nei confronti della M P

Il 22.10.2016, in un locale a Milano, durante la festa di compleanno di un amico di G , l'imputato colpì la M P . Giunsero sul posto, oltre ai Carabinieri, un'ambulanza: la donna fu trasportata al pronto soccorso[6][7][8]. La circostanza che la persona offesa fu trasportata in ambulanza in ospedale è stata confermata da P G L Z ' , madre dell'amico di ' \

Il 03.06.2017, l'imputato, dopo aver continuato a bere tutta la notte, svegliò la M P e G' . Disse alla compagna: "*Guarda che io non ho paura*"[9]. Con un coltello si lacerò quindi una gamba, facendosi sanguinare. La D F , che era presente, ripulì la stanza dal sangue. Giunsero un'ambulanza e i Carabinieri. L'imputato fu trasportato al pronto soccorso[10]. La D F ha spiegato che quella sera la M P era in "*stato di shock*"[11]. La persona informata sui fatti sentì quella notte l'imputato urlare.

Il 21.06.2017, il C _ , ancora una volta ubriaco, si arrabbiò perché aveva trovato in casa un barattolo di crema che pensava fosse stato regalato alla donna da un suo *ex* fidanzato. Con questo barattolo la colpì in testa, costringendola a recarsi al pronto soccorso per farsi applicare dei punti di sutura[12]. Questo episodio è stato confermato, pur se *delegato,* dalle dichiarazioni della D. F' la quale ha riferito di come, nelle immediatezze del fatto, la M P le raccontò quanto fosse accaduto[13]. La T F ha spiegato che fu lei a regalare il barattolo di crema all'amica[14].

Secondo quanto riferito dalla Q. V M collega della persona offesa, nell'autunno del 2017, la M[1] Pi non si presentò al lavoro perché era stata colpita in testa dall'imputato[15].

Il 03.12.2017, mentre la coppia era a casa di un'amica a Milano insieme ai genitori dell'imputato, il C iniziò ad arrabbiarsi, apparentemente senza motivo, con la persona offesa. Quest'ultima, per evitare discussioni, tornò a casa, portando con sé i bambini. Rientrato anch'egli a casa, l'imputato disse alla M[1] P' : "*Io ti dico buttati dal balcone e tu vai e ti butti*"[16]. Quindi cercò di trascinare sul balcone della cucina la donna, la quale riuscì a divincolarsi e a fuggire a casa di una vicina (R MI G), dalla quale poi la M P dormì. Proprio la R MI ha confermato la ricostruzione dei fatti effettuata dalla persona offesa[17], riferendo che la M P , presentatasi a casa sua sconvolta, scalza e in pigiama, le raccontò che il C' aveva cercato di trascinarla sul balcone. La teste ha anche riferito che circa tre settimane prima di questo episodio personalmente sentì dalle scale l'imputato urlare contro la persona offesa. Infine, la R M ha spiegato di come la M P fosse solita confidarsi con lei, raccontandole di come veniva spesso aggredita dall'uomo, il quale, quando si arrabbiava, "*diventava una bestia*"[18]. La persona offesa aveva paura di lui. Questo episodio è stato confermato, pur se *delegato,* dalle dichiarazioni della D F e della T , le quali hanno riferito di come, nelle immediatezze del fatto, la M P raccontò loro quanto fosse accaduto, riferendo anche di aver avuto paura che il C potesse effettivamente lanciarla già dal balcone[19].

Il C impedì spesso alla compagna di chiamare i Carabinieri, sottraendole il cellulare o staccando dalla corrente il telefono fisso di casa. Tale circostanza è stata confermata anche dalla R . M °.

L'imputato era solito ingiuriare la M P (diceva "*che io non servo per niente, che ero una merda, che sono una cattiva madre*"[21]).

La T F ha spiegato che l'amica aveva esitato a denunciare il compagno, un po' perché sperava cambiasse il suo comportamento, un po' perché aveva paura di lui[22]. Tale circostanza è stata confermata anche dalla Q V [3].

Su domande della difesa, la persona offesa ha dichiarato di non aver mai aggredito o reagito alle condotte violente del C . Al più, rispose solamente ai suoi insulti.

In una prima fase della convivenza, l'imputato, che lavorava in nero come autista di camion, contribuì al mantenimento della famiglia, pagando anche il canone di locazione. Successivamente, però, smise di fornire ogni contributo, circostanza che costrinse la persona offesa, a partire dal 2016, a trovare un lavoro e a rivolgersi alla per ricevere aiuto.

Nessuno dei figli della M P assistette a condotte aggressive del C , al più solamente a litigi verbali della coppia.

A seguito dell'applicazione della misura cautelare, l'imputato non ha più avuto atteggiamenti violenti nei confronti della M P , fatta eccezione per un episodio verificatosi a seguito dell'allontanamento del C dall'abitazione familiare, nel quale l'uomo, in stato di ebrezza, colpì la donna con uno schiaffo sulla fronte. Precisamente, come si legge nell'annotazione di p.g. del 21.01.2018, la persona offesa aveva fatto entrare il C in casa, in orario serale, temendo che fosse accaduto qualcosa di grave. Salito nell'abitazione, nacque subito un diverbio, che si concluse con la descritta condotta violenta dell'imputato, la quale costrinse la donna a recarsi immediatamente dai Carabinieri, non potendo quest'ultima telefonare loro a causa del fatto che il C le aveva sottratto

il cellulare.

3. La sussistenza del reato contestato.

Tanto premesso, deve ritenersi pienamente provata la responsabilità penale dell'imputato, del resto non contestata nemmeno dalla difesa, la quale - considerata anche l'impossibilità di impostare una strategia difensiva a causa della totale assenza di contatti con l'imputato (che si è disinteressato del processo) — si è limitata a chiedere l'applicazione del minimo della pena, con riconoscimento delle circostanze attenuanti generiche.

Ad ogni modo, la prova dei fatti di causa emerge in primo luogo dalla testimonianza della persona offesa. Sul punto si ricorda che per giurisprudenza costante "*le dichiarazioni della persona, offesa, cui non si applicano le regole dettate dall'art. 192 comma* 3 *c.p.p., non necessitano di riscontri esterni, a condizione che venga adeguatamente verificata la credibilità soggettiva della vittima del reato e l'attendibilità del suo racconto, che deve essere caratterizzato da linearità e ricchezza di contenuto*"[2]^. Dunque, già la sola credibile testimonianza della persona offesa risulterebbe sufficiente per ritenere provati i fatti contestati all'imputato. Come si vedrà, peraltro, le dichiarazioni della M P sono risultate riscontrate anche da altri elementi di prova.

Nel caso di specie, la persona offesa è risultata in primo luogo assolutamente attendibile. Infatti, la stessa, pur avendo rilasciato dichiarazioni accusatorie nei confronti dell'imputato, non è mai apparsa animata da spirito vendicativo, essendosi limitata a riferire in modo neutro - a tratti imbarazzato - i diversi episodi vessatori subiti. La deposizione della M P si è sviluppata in modo sofferente e sommesso, intervallata da momenti di pianto, mai plateali, ma piuttosto intimi e discreti, quasi vergognosi. La persona offesa non è mai apparsa intenzionata ad ingigantire le responsabilità dell'ex compagno. Inoltre, la mancata costituzione di parte civile dimostra l'assenza di un interesse economico nella causa, circostanza che avvalora l'attendibilità della M P

La deposizione di quest'ultima è risultata poi credibile, sia da un punto di vista intrinseco che estrinseco. Sotto il primo profilo, deve evidenziarsi come le dichiarazioni della persona offesa siano risultate lineari e coerenti, mai contraddittorie. La M P
ha riferito con precisione i diversi episodi vessatori subiti, senza mai scadere in un eccesso di dovizia di particolari (per esempio, in relazione ad alcuni episodi, ha ammesso di non ricordare la data precisa in cui questi avvennero), il quale sarebbe potuto apparire come studiato con il fine preordinato di rafforzare l'accusa da muovere nei confronti dell'imputato.

Le dichiarazioni della persona offesa sono risultate poi riscontrate da una pluralità di elementi esterni. Innanzitutto, come visto, moltissimi degli episodi vessatori, sono stati confermati dalle persone informate sui fatti R M G G ,T
F. B , L ' , Q V M , P
G L Zi , le quali vi assistettero personalmente oppure ricevettero
nell'immediatezza dei fatti le confidenze della M[1] P , circostanza quest'ultima che dimostra come la donna sia sempre stata coerente nelle sue dichiarazioni. Inoltre, la lesioni subite dall'imputato attraverso l'aggressione con il barattolo di crema risultano corroborate dal referto medico del pronto soccorso del 21.06.2017, mentre le lesioni che l'imputato si

[24] Cfr., *ex plurimis,* Cass. pen., sez. VI, 3 ottobre 2017, n. 46402. Auto procurò con il coltello, con il fine di intimorire la persona offesa, risultano confermate dal referto del 03.06.2017.

Può pertanto concludersi che dall'istruttoria svolta sia emerso che l'imputato maltrattò la M P a partire dal 2013 fino all'inizio del 2018. Il p.m. di udienza, durante la sua requisitoria, ha evidenziato come la maggior parte degli episodi violenti si verificò a seguito della nascita del secondo figlio. In realtà, come analiticamente descritto, sono numerose le aggressioni che si verificarono a partire dal maggio 2013, alcune delle quali commesse durante la gravidanza che condusse alla nascita di G . Risulta pertanto corretta la contestazione effettuata dalla Procura anche da un punto di vista della collocazione cronologica dei fatti.

Sono già stati analiticamente ricostruiti i diversi episodi vessatori e violenti posti in essere dal C .
In questa sede è solo il caso di ribadire come l'imputato spintonò,
colpì con pugni, schiaffi e calci, mise le mani al collo alla persona offesa e le scagliò contro oggetti o la percosse con un barattolo in molteplici occasioni: l'istruttoria ha consentito di ricostruire almeno quattordici episodi specifici di aggressioni violente poste in essere dall'imputato nei confronti della persona offesa. Quest'ultima ha comunque riferito che gli stessi, nel corso degli ultimi anni, si verificarono ogni due o tre mesi.

A tali episodi violenti, si aggiunsero minacce (come quella di lanciare la donna dal balcone), ingiurie *("che io non servo per niente, che ero una merda, che sono una cattiva madre*"[17]), umiliazioni (tradimenti e sottrazione del telefono), mancanza di contribuzione al mantenimento della famiglia (circostanza che si verificò nell'ultimo periodo) e manifestazioni di forza con intento intimidatorio (come quando il C si lesionò, da solo la gamba davanti alla persona offesa).

Ciò detto, deve concludersi per la piena integrazione del delitto contestato, avendo l'imputato posto in essere reiterate e gravi condotte vessatorie nei confronti della compagna, la quale fu ripetutamente vittima di violenze, minacce e ingiurie da parte del compagno, con la conseguente costrizione a vivere in uno stato di costante soggezione (si ricordi che la T F ha riferito che la persona offesa aveva "terrore" dell'imputato, il quale è risultato ben evidente dall'atteggiamento dimesso, remissivo e disperato con il quale la M P ha affrontato la deposizione testimoniale). Nel corso dell'istruttoria non sono emerse condotte reattive della M P , tali da far ritenere una anche minima reciprocità nelle condotte vessatorie. La persona offesa rispose solamente agli insulti dell'imputato, cercando anzi di aiutarlo a risolvere i suoi problemi con l'alcool.

L'intensità del dolo risulta particolarmente accentuata, se si considera la durata dei maltrattamenti posti in essere, nonché la violenza manifestata in vari episodi.

Risulta poi pacificamente integrata la circostanza aggravante di cui all'art. 61 n. 11- *quinquies* c.p., avendo l'imputato posto in essere il delitto di cui all'art. 572 c.p. a danno di una persona in stato di gravidanza. In particolare, come descritto precedentemente, il C _ aggredì la M P diverse volte durante la gravidanza del secondo figlio.

Pacifica è infine l'integrazione dell'aggravante di cui all'art. 94 c.p., avendo l'imputato commesso il reato in stato di ubriachezza abituale, come provato dalla chiara
testimonianza della persona offesa, la quale ha riferito che tutti gli episodi di violenza posti in essere dal C' _
furono commessi dopo che quest'ultimo aveva abusato di sostanze alcooliche. L'imputato, nonostante il tentativo della persona offesa di aiutarlo, si rifiutò di impegnarsi seriamente a risolvere il problema del suo abuso di alcool.

4. Il trattamento sanzionatorio.

All'imputato devono essere riconosciute le circostanze attenuanti generiche, unicamente in considerazione del suo comportamento processuale, pur se mediato dal difensore, il quale ha prestato il consenso all'acquisizione di tutti gli atti di indagine (ad eccezione della querela presentata dalla persona offesa). L'importante risparmio processuale consente di ritenere tali attenuanti equivalenti rispetto alle contestate aggravanti, nonostante l'indubbia gravità dei fatti cui queste ultime si riferiscono.

Quanto al trattamento sanzionatorio, si ritiene equo irrogare all'imputato la pena di due anni e sei mesi di reclusione. L'entità della pena risulta giustificata dalla estrema gravità del fatto, desumibile dalla durata delle condotte maltrattanti (quasi cinque anni), dalla particolare violenza esercitata ripetutamente e prolungatamente dall'imputato (come detto, sono state accertati almeno quattordici episodi di aggressione violenta posti in essere dal C), dal livello di umiliazioni cui sottopose la persona offesa (soggetta a tradimenti, ingiuriata, minacciata, continuamente percossa e lesa alla presenza dei figli piccoli), dalla particolare intensità del dolo, come ampiamente già ricostruito. Solamente lo stato di incensuratezza dell'imputato consente di mitigare il trattamento sanzionatorio, attraverso un aumento di pena decisamente contenuto rispetto al minimo edittale previsto dalla norme incriminatrice.

La condanna alle spese processuali segue per legge.

L'entità della pena irrogata osta al riconoscimento dei benefici di legge.

MOTIVI DELLA DECISIONE

1. Il processo.

In data 20.03.2018, veniva emesso decreto di giudizio immediato nei confronti di B D , per i reati contestati in epigrafe. All'imputato era stata applicata dal
g.i.p. la misura cautelare di cui all'art. *282-ter* c.p.p., con ordinanza del 22.02.2018, eseguita in data 24.02.2018.
All'udienza del 23.05.2018, il Giudice - dichiarata l'assenza dell'imputato, costituitasi come parte civile L A - ha ammesso le prove richieste dalle parti.
In data 26.05.2018, il Giudice - a seguito della segnalazione dei Carabinieri della Stazione di _ nella quale si dava atto che l'imputato aveva violato in alcune occasioni la misura cautelare, presentandosi alla persona offesa - ha applicato, in aggiunta alla misura di cui all'art. *282-ter* c.p.p., quella dell'obbligo di presentazione alla p.g. per tre giorni alla settimana. Tale ordinanza è stata eseguita in data 26.05.2018. Si evidenzia che alcune delle persone informate sui fatti sentite dagli operanti descrissero uno di questi incontri tra l'imputato e la parte civile come affettuoso/amoroso, altri come litigioso. Si rinvia, per i dettagli, alla ordinanza del 26.05.2018.
In data 15.06.2018, il Giudice - a seguito di una ulteriore segnalazione dei Carabinieri della Stazione di nella quale si dava atto di un litigio tra l'imputato e la parte civile,
seguito da una colluttazione, in data 12.06.2018 - ha esclusivamente esteso il divieto per B D
di contattare, comunicare o incontrare N D
N _ M i, T G , soggetti legati alla parte civile. Tale ordinanza è
stata eseguita in data 15.06.2018. Il Giudice, in tale occasione, non ha aggravato la misura cautelare, in quanto alcune persone informate sui fatti hanno contraddetto il racconto reso dalla parte civile, evidenziando anche come la stessa, nei giorni precedenti, provocò in diverse occasioni B D , così come anche da quest'ultimo riferito. Si rinvia,
per i dettagli, alla ordinanza del 15.06.2018.
All'udienza del 29.06.2018, si è proceduto all'audizione della parte civile L A
All'udienza del 13.07.2018 sono stati escussi i testi del p.m. D _ R
(operante), R D (madre della parte civile) e L M > (padre
della parte civile).
All'udienza del 18.07.2018, sono stati escussi i testi della difesa I] A
(operante), C G (operante), F W • (amico dell'imputato),
B G (fratello dell'imputato), B' A (fratello
dell'imputato).
All'udienza del 24.10.2018, le parti hanno congiuntamente rinunciato a tutti i residui testi e il Giudice ne ha revocato l'ammissione. La difesa di parte civile ha chiesto che venisse escussa *ex* art. 507 c.p.p. L C (sorella della parte civile), in quanto persona
che telefonò a L A la sera del 16.02.2018. Il p.m. e la difesa dell'imputato
hanno chiesto il rigetto della istanza istruttoria. Il Giudice ha rigettato la richiesta, ritenendo non assolutamente necessaria l'escussione di L C , considerando il
materiale istruttoria già acquisito. La difesa dell'imputato e il p.m. hanno congiuntamente
chiesto la revoca delle misure cautelari in atto. La difesa di parte civile si è opposta. Il Giudice, alla luce dei comportamenti corretti tenuti dall'imputato negli ultimi mesi, durante i quali non vi furono violazioni delle misure cautelari (come dichiarato anche da L A , presente in aula), ha ritenuto cessate le esigenze di cui all'art. 274
c.p.p. e revocato le misure cautelari.
All'udienza del 30.01.2019, dichiarata chiusa l'istruttoria dibattimentale, le parti hanno discusso e rassegnato le conclusioni sopra riportate.
Nel corso dell'istruttoria sono stati acquisiti diversi documenti, che saranno di volta in volta richiamati nello sviluppo della presente motivazione. Si precisa che le parti - e, in modo particolare, la parte civile - non hanno prestato il consenso all'utilizzabilità in sede dibattimentale delle annotazioni di p.g. e dei verbali di s.i.t. sulla base dei quali sono state emesse la varie ordinanze in materia cautelare.

2. Le fonti e gli elementi di prova.

Per comodità espositiva, si riporta di seguito quanto dichiarato da ciascuno dei testi escussi.

2.1. *L*

Si riferisce di seguito quanto riferito dalla parte civile.
La relazione tra L A: e B D iniziò nel 2006.1 due hanno sedici anni di età di differenza. Nel 2010 nacque la loro unica figlia, G . Nel 2013 si lasciarono e la parte civile denunciò il compagno, in quanto - a suo dire - la perseguitava, presentandosi spesso sotto casa o in prossimità del luogo di lavoro. I due, però, si riconciliarono dopo due o tre mesi dalla denuncia e si sposarono il 07.09.2014.

I rapporti nella coppia furono sostanzialmente buoni fino al settembre 2017. La parte civile ha descritto gli anni tra il 2014 e il 2017 come caratterizzati "*dalla sua* (dell'imputato, n.d.a.) *gelosia e dalla sua ossessione, da tutte queste scenate, a volte le mani messe addosso per dei litigi che poi non erano legati a niente*"[1], precisando poco dopo che "*non è mai successo un episodio così forte come un inseguimento, le mani addosso, minacce di morte... però i nostri giorni erano scanditi dal fatto che lui: 'mille chiamate, cosa fai, cosa non fai, dove sei mandami le foto, fammi sentire chi c'è vicino a te'. Comunque era un rapporto un po' ossessivo*"[2]. L A ha poi riferito che in quel periodo, B D< . a parte la eccessiva gelosia, si limitò a ingiuriarla, dandole della "*puttana*"[3], senza mai minacciarla o percuoterla. Poco dopo, però, ha precisato che, nel medesimo lasso temporale, l'imputato le rivolse anche minacce di morte *("Ti ammazzo se fai così, se non la smetti vedi cosa ti faccio"*[4]*).* Nello stesso periodo anche L A insultava il compagno *("sei un pezzo di merda, sei un bastardo, vaffanculo"*[5]*).* Inoltre, nonostante i tentativi dell'uomo di non farla uscire di casa, lei uscì sempre ugualmente.

parte civile, p. 5. parte civile, p. 6. parte civile, p. 6. parte civile, p. 8.

Dal febbraio 2018 le gelosia dell'imputato iniziò ad aumentare, anche perché, poco prima, la parte civile gli aveva rivelato l'intenzione di interrompere la relazione sentimentale. In particolare, una sera B D che in quel periodo alternava pietose richieste di continuare la storia a minacce e insulti nei confronti della ragazza - si presentò al bar di V dove lavorava L A , sospettando che quest'ultima in realtà non si trovasse lì, ma altrove.

Il 16.02.2018, la parte civile tornò a casa e, subito dopo aver aperto la porta, sentì odore di candeggina. Trovò B D sdraiato sul letto, intento a bere la sostanza alcoolica. L'imputato, quando vide la donna, sputò la candeggina e le disse: "*Vedi cosa mi stai facendo, tu sei una puttana, mi stai rovinando"*[6]*.* L A si spaventò, si chiuse in bagno e chiamò il fratello dell'imputato. Poco dopo, recuperato qualche effetto personale, uscì di casa (con l'intenzione di tornare a vivere nell'abitazione dei genitori) e andò a lavorare al bar.

Alla fine del turno, intorno alle 23.00, trovò B D. > fuori dal locale, il quale la pregò di parlare della loro situazione. La parte civile accettò e salì sull'autovettura dell'uomo[7] (la teste ha negato, a seguito di contestazioni del p.m., che l'imputato giunse al bar a piedi[8]; si rileva anche che poco dopo, durante la deposizione, la teste ha dichiarato che l'autovettura era sua e non di B D [9]). Quest'ultimo la fece sedere al posto di guida, chiedendole di riaccompagnarlo a casa a , così che potesse ritirare altri effetti personali. Tuttavia, appena la giovane si sedette nell'abitacolo, fu insultata e minacciata di morte dall'imputato, il quale divenne anche manesco. Poco dopo, però, la teste ha chiarito che durante il tragitto dal bar all'abitazione B D< non le mise le mani addosso, limitandosi ad alternare suppliche di ricominciare la relazione a minacce di morte.

Subito dopo aver lasciato a casa l'imputato, la parte civile chiamò il fratello del primo (B G), per raccontargli l'accaduto. Tornò quindi a V , con l'intenzione di tornare a casa. Nei pressi del solito bar, tuttavia, la parte civile incontrò nuovamente l'imputato (che aveva seguito la donna con la sua auto), il quale le disse che voleva parlare. La donna rifiutò, ma l'uomo salì sull'auto di quest'ultima (una). Lei cercò di scendere dalla vettura, ma l'imputato la costrinse con la forza a risalire. Ci fu una discussione, dai termini non ben definiti. L A guidò fin quasi a casa, dei genitori, ma, poco prima di raggiungere la meta, B D tirò il freno a mano, scese dall'auto e salì al posto di guida, dopo aver aperto la portiera e '"*buttato giù dalla macchina"*[10] la parte civile, costringendola a salire nei sedili posteriori. Prima di entrare nuovamente nel veicolo L A urlò, ma i passanti presenti non si fermarono. La parte civile, dai sedili posteriori bloccati con la sicura per i bambini, cercò di togliere le chiavi dal cruscotto, al fine di impedire a B D di partire.
L'imputato, dopo averle messo le mani al collo, le sferrò una sberla con la parte posteriore della mano. A seguito di contestazioni del p.m., la parte civile non ha ricordato di essere stata strozzata con una sciarpa in quella circostanza.

B Di partì quindi "*a tutta velocità*"[11], insultando la compagna piangente *("Adesso ti faccio vedere io cosa ti succede, sei una puttana"*[12]*),* in direzione di

("Adesso ti porto in un posto dove puoi urlare quanto vuoi"[13]). Arrivati, dopo pochi minuti, in un'area isolata boschiva, la costrinse a scendere dall'auto e, mentre la obbligava a stare vicino a lui, le disse: "*Adesso urla quanto vuoi, o stai con me o non stai con nessuno*"[14]. Le indicò dei binari del treno e la minacciò: "*Adesso ti porto lì e aspettiamo il treno*"[15]. L A , spaventata, gli disse che sarebbero tornati insieme, per calmarlo.

L'uomo, dopo essersi "*buttato giù per terra*"[16], si calmò e - dopo essere rimasto per circa quindici/venti minuti nell'area boschiva - risalì in auto insieme alla parte civile. L C , sorella di quest'ultima, le telefonò in quel momento: la parte civile
rispose tramite il *touch screen* del veicolo, in quanto non sapeva dove avesse lasciato nell'auto il cellulare. L'imputato decise di riportarla a . Prima di salire sulla sua
autovettura, B D le disse che l'indomani avrebbe voluto nuovamente
parlare con lei.

Giunta a casa dei genitori - i quali erano già stata informati dell'accaduto da L C - la parte civile ricevette una telefonata dall'imputato, il quale la
pregò di vedersi l'indomani. A seguito del rifiuto di quest'ultima, l'uomo iniziò a insultarla. Il padre della parte civile intervenne e, dopo averle strappato il telefono dalle mani, interruppe la telefonata. La teste ha spiegato che verosimilmente quella notte B D''* aveva assunto sostanze stupefacenti e abusato di sostanze alcooliche. Durante tutto lo sviluppo dell'episodio descritto, l'imputato alternò "*momenti di assoluta follia, a momenti di dolcezza*"[17].

L A si recò in pronto soccorso, ove le furono diagnosticati un
trauma distorsivo cervicale e delle contusioni superficiali al volto, con prognosi di 1 giorno[18].

Come ricordato, a seguito di questo episodio e della denuncia della parte civile, all'imputato fu applicata la misura cautelare di cui all'art. *282-ter* c.p.p.

Nonostante ciò, L A e B' D ■ continuarono a
incontrarsi. La parte civile ha spiegato che - considerato che l'uomo la cercò insistentemente, con telefonate, messaggi e richieste di intermediazioni da parte di altre persone - decise di vederlo in tre o quattro occasioni. In queste situazione, i due parlarono e, in almeno un'occasione, ebbero un rapporto sessuale nel marzo 2018.

Il 26.03.2018, però, L A: presentò una nuova denuncia nei confronti
dell'imputato perché "*mi sono resa conto che nonostante che c'eravamo rivisti le cose non potevano andare perché lui sarebbe stato sempre così. Ho capito che lui vive nelle bugie, nelle sue minacce per tenersi vicino le persone e quindi ho deciso di dirgli basta*"[19]. Quanto agli specifici motivi della denuncia, sebbene la parte civile non lo abbia ricordato nel dettaglio, la stessa ha riferito che lui aveva ricominciato a minacciarla *("Ti ammazzo, ti sfiguro, ti faccio male, ti lascerò sola in mezzo a tutte le persone perché ogni persona che si avvicinerà a te la farò sparire"*[20]*). A* seguito di contestazioni del p.m., la parte civile non ha ricordato esattamente che la denuncia fu fondata sul fatto che B D' in una occasione ad. Taveva insultata alla
presenza di tale C P e sul fatto che l'imputato era solito passare presso il
suo luogo di lavoro mostrandole il dito medio e minacciandola.

Il 30.03.2018, in sede di s.i.t., L A ha negato di aver avuto un
rapporto sessuale consenziente con l'imputato successivamente all'applicazione della misura cautelare, circostanza invece dapprima - come visto - confermata in udienza, salvo poi essere successivamente nuovamente negata ed, infine, completamente ammessa con riferimento non solo a un singolo rapporto, ma ad una pluralità di rapporti.

Con riferimento al periodo successivo a marzo, la parte civile ha prima negato di aver incontrato nuovamente l'imputato, salvo poi dichiarare di non ricordarsi esattamente. Ha quindi nuovamente modificato la sua versione, a seguito delle contestazioni del p.m. (il quale le ha domandato di un incontro tra lei e l'imputato avvenuto in un parcheggio di nella seconda settimana di aprile), riferendo che "*c'è stato un periodo tra marzo e aprile in cui l'ho incontrato, siamo stati insieme, ci sono state volte in cui abbiamo solo parlato e volte in cui abbiamo avuto un rapporto*"[21]. Nonostante, in generale, fosse solitamente l'imputato a telefonare o a scrivere messaggi a L A , "*può essere*"[22] che nel periodo tra
marzo e aprile anche lei lo cercò per prima. La parte civile ha spiegato che le ragioni per le quali contattava B G. x a • erano essenzialmente legate alla gestione della
figlia. Tuttavia, ha confermato *("può essere"*[23]*)* che il 18.03.2018, alle ore 13.59, gli inviò il seguente messaggio: "*Vai dalla tua nuova fiamma, almeno tu cerca di essere felice*"[24]. Ha altresì confermato che tre minuti dopo gli scrisse ancora *("So che lì c'è qualcuna e sono contenta per te. io sto male e voglio solo sprofondare"*[25] e che il 19.03.2018 gli scrisse: "*Mi manca forza nelle gambe, sto male, non ci sono più con la testa*"[26]*)*[27].

Inoltre, a seguito di un'ulteriore contestazione del p.m., la parte civile ha ammesso di aver incontrato in un'altra occasione l'imputato a specificando però che tutti gii
incontri successivi all'applicazione della misura cautelare furono determinati esclusivamente dalla necessità di regolare i profili economici legati al mantenimento della figlia, salvo poi specificare che "*poi ci sono stati tutti questi episodi e ci sono successe a volte in cui ho avuto un rapporto con lui perché lui secondo me è talmente pressante nei miei confronti, talmente insistente che io comunque ammetto di volergli bene, perché comunque è stata una persona con cui sono stata tutta la mia vita e nonostante veda che lui ha questo atteggiamento ho sempre cercato d.i giustificarlo*"[28].

In definitiva, cercando di fare chiarezza tra le varie versioni fornite dalla parte civile nel corso della sua deposizione, deve ritenersi che la stessa ebbe una pluralità di rapporti sessuali consenzienti con l'imputato tra l'applicazione della misura cautelare e la metà di aprile 2018, così come da quest'ultima dichiarato al termine dell'esame del p.m.[29]. In tale occasione, la teste ha spiegato di aver avuto un simile comportamento nella speranza che l'imputato cambiasse.

Su domande della difesa, la parte civile ha ammesso di essere stata insieme all'imputato nel motel

" ' la notte del 06.04.2018, di essere stata al
" di la mattina del 10.04.2018, di essere stata nuovamente al
" " 1'11.04.2018 e nuovamente al " di la mattina del 12.04.2018, di essere stata la notte del 12.04.2018 al '* [7] di _ o, presso il quale trascorse anche la mattina del 18.04.2018. L A ha poi confermato di aver fatto una gita sul 1'11.04.2018 insieme all'imputato e di aver pranzato con lui all'osteria ' a il 13.04.2018[30].

La parte civile ha spiegato di essere andata una volta in un'officina dove lavorava temporaneamente l'imputato, al fine di concordare la sostituzione del proprio veicolo. Non ha però riconosciuto il documento esibitole dalla difesa, nel quale si legge: "*Io sottoscritta L ' A in data odierna consegno in concessionario la macchina cointestata con mio marito B. D< , , cambiandolo con l'autovettura in accordo con lui rinuncio al mantenimento non ancora pattuito, per raggiungere il valore di 6.000 euro*"[31]. Ha comunque riconosciuto la sua firma.

In un giorno di giugno 2018, L A si trovò con l'amica T G: i, con N D (nuovo compagno della parte civile) e tali B[1] A , G Ne"'in un bar. In tale occasione, la. T. le riferì che poco prima N _ D le aveva confidato di essere stato minacciato da B D

Il 12.06.2018, L A spense una sigaretta sul braccio dell'imputato, "*dopo che lui me l'aveva tirata addosso e insultata e sputata addosso*"[32].

La parte civile ha infine spiegato che era intimorita dai precedenti penali dell'imputato e dal fatto che lui possedesse un'arma.

Si riporta di seguito quanto riferito dall'operante D R

Il teste intervenne la notte tra il 16.02.2018 e il 17.02.2018, in quanto alcuni residenti di Vergiate avevano segnalato una lite in strada tra un uomo e una donna. Giunto sul posto, non trovò né la parte civile, né l'imputato. Il teste si recò quindi a casa di L A e la trovò piangente, con il viso arrossato *("gonfio di lacrime*"[33]*),* ma privo di lividi. Le consigliò di recarsi al pronto soccorso per farsi refertare. Dopo un po' di tempo arrivò anche B D< i, il quale rimase all'esterno dell'abitazione. Sottoposto ad Alcool test, non fu accertato alcuno stato di ebrezza.

2.2.Si riporta di seguito quanto riferito da R D , madre della parte civile.

La teste ha spiegato che fin dai primi anni in cui L A e B D- si conobbero i loro rapporti non furono buoni. In alcune occasioni, verosimilmente nel 2006, la figlia tornò a casa "*con dei lividi e un paio di volte con un occhio bello nero*"[34]. La teste ha chiarito fin da subito che non ha mai voluto che L A: frequentasse l'imputato, arrivando anche a chiuderla in casa per evitare che potesse incontrarlo. Lei stessa cercò di parlare con l'uomo, dicendogli che doveva smetterla di trattare male la figlia.

L'imputato era molto geloso, la chiamava "*ogni dieci minuti, anche se sapeva che era in giro con me*"[35].

La coppia abitò in varie case e, in un periodo, anche presso la villetta dei genitori della parte civile, in un appartamento indipendente. In particolare, la coppia visse in questa casa quando nacque la loro figlia, nel 2010. In tutto rimasero per tre anni nella casa. Dal 2010 al 2013, la R sentì una decina di volte la coppia litigare, principalmente per motivi di gelosia. Udì anche diverse volte la figlia - anch'essa spesso urlante - dire al compagno: "*Le mani addosso ti ho detto di no! Non mettermi le mani addosso*"[36]. La gelosia di B. Di lo spinse anche a pedinare la parte civile. Inoltre, lo stesso insultò spesso Li A i ("*puttana, troia*"[37]*):* tali insulti furono uditi direttamente dalla teste, attraverso le pareti della casa. Vide sul corpo della figlia, in alcune occasioni, dei segni di percosse, ma non vide mai l'imputato colpire la ragazza. Quest'ultima solitamente negò che i lividi le furono provocati da B' D

l, p. 5, p.6. p.7. p.8. p.ll

La teste ha specificato che, intorno al 2013, la coppia si separò per un periodo. A seguito del successivo riavvicinamento, i rapporti migliorarono per un primo periodo, nonostante l'imputato continuasse a manifestare la sua gelosia in modo morboso, anche attraverso atteggiamenti maneschi, cercando di limitare la parte civile nella possibilità di uscire di casa liberamente.

Nell'ottobre 2017, a seguito di un controllo dei Carabinieri, fu rinvenuta della sostanza stupefacente nell'auto sulla quale viaggiavano la parte civile, l'imputato e il fratello di quest'ultimo. Nonostante la droga appartenesse a B D , L A - in quanto innamorata e sostanzialmente plagiata dal compagno - si assunse la responsabilità della detenzione[38].

Il 16.02.2018, dopo che L_ . A vide il compagno ingoiare la candeggina, si recò a casa della madre, ove vi rimase. La teste non ha ricordato se quella sera, dopo che la figlia la raggiunse a casa, quest'ultima andò a lavorare.

Quella sera, mentre la figlia era fuori casa, L C , preoccupata, le

telefonò e la sentì urlare: " *: aiuto, dillo alla mamma, al papà, mi ha presa, mi sta* riportare a casa la compagna.

Intorno alla mezzanotte, tra il 16.02.2018 e il 17.02.2018, L A si presentò a casa dei genitori - ove erano presenti i due, oltre a L CI _ e alla *picchiando*"[39]. La sorella della parte civile invitò B Da calmarsi e a figlia della parte civile - piangente. Era "*tutta segnata in faccia, era rossastra*"[40]. In particolare aveva "*dei piccoli graffi, dei segni*"[41] sul viso e dei lividi sul collo. La teste ricevette le confidenza della figlia, la quale le disse che era stata seguita dall'imputato, il quale l'aveva fatta salire in auto e l'aveva portata in una isolata zona boschiva (vicino a una scuderia sulla strada statale del Sempione[42]), dove l'aveva fatta scendere, "*l'aveva riempita di botte e le diceva che doveva tornare con lui, dandole insulti*"[43].

La teste non ha ricordato se quella notte B D telefonò alla figlia, così come non ha ricordato se LI M le strappò di mano il telefono al fine di chiudere la conversazione.

La teste non ha saputo dire se, successivamente al febbraio 2018, la figlia continuò a frequentare l'imputato. Venne comunque a sapere che quest'ultima ebbe dei rapporti sessuali con B D -, mentre era sottoposto a misura cautelare.

Tra aprile e maggio i genitori di L A ebbero una discussione telefonica con i genitori dell'imputato, in quanto questi ultimi difendevano il figlio dalle accuse mosse dalla parte civile. Ne nacque un litigio con minacce reciproche, nel quale la madre di B D disse alla teste che le avrebbe lanciato sul viso dell'acido muriatico.

Si riporta di seguito quanto riferito da 1 M , padre della parte civile. Si rappresenta che il teste, durante tutta la deposizione, ha manifestato particolare astio nei confronti dell'imputato, oltre ad una notevole difficoltà a ricostruire in modo ordinato e preciso i fatti rilevanti.

L[1] A visse insieme all'imputato nell'abitazione sopra quella del teste per due periodi di tempo, entrambi successivi alla nascita della figlia della coppia. L M » ha dimostrato particolare difficoltà nel ricostruire la successione cronologica dei fatti: a seguito di ripetute contestazione del p.m., ha affermato che tali periodi durarono circa un anno, un anno e mezzo. Il secondo di tali periodi si concluse nell'agosto del 2017. Nel periodo in cui la coppia visse sopra l'appartamento del teste, quest'ultimo sentì spesso dei litigi tra la parte civile e l'imputato. In particolare, "*lui parlava sempre in silenzio, ma si intuiva, perché non voleva farsi sentire. Lei rispondeva a sua volta, magari alzando più la voce*"[44]. I motivi principali dei litigi erano legati alla gelosia morbosa di B D

Il teste non vide mai personalmente l'imputato percuotere, minacciare o ingiuriare la figlia. Vide però la stessa - nei periodi (o in uno dei periodi) in cui abitava sopra casa sua insieme all'imputato - con gli "*occhi neri*"[45], in due o tre occasioni. La figlia (probabilmente) gli confidò di essere stata chiamata molto frequentemente "*mignotta, puttana, troia*"[46]dall'imputato. Il teste ha poi detto di avere personalmente sentito recentemente l'imputato apostrofare negli stessi termini la parte civile.

In una occasione l'imputato sferrò un pugno al teste dopo averlo accusato di avere, avuto un rapporto sessuale con la figlia. L M non si recò al pronto soccorso, perché il pugnò ebbe una scarsa intensità lesiva.

LI A decise di lasciare B D perché non sopportava più la sua eccessiva gelosia e perché temeva per la sua incolumità.

La notte tra il 16.02.2018 e il 17.02.2018 il teste vide la figlia, appena rincasata, con dei lividi. Il teste non ha ricordato bene dove fossero collocati questi esiti di percosse, ma ha escluso che la ragazza avesse il viso semplicemente arrossato per il pianto. Fino a quel momento nessuno si era preoccupato per la parte civile, perché era solita tornare a casa tardi, anche a causa del lavoro. Il teste non ha ricordato che qualcuno della famiglia chiamasse la figlia mentre lei si trovava in auto con l'imputato. L A gli riferì che era appena stata portata in un bosco e che l'imputato l'aveva minacciata di lanciarla sotto un treno. 11 teste ha dichiarato di non ricordare se quella notte B D telefonò a casa loro.

Successivamente al febbraio 2018, L A e B D ■ si

videro in una o due occasioni, ma solo perché l'uomo insisteva nel volerle parlare. Il teste ha dichiarato di essere a conoscenza che la coppia ebbe rapporti sessuali.

Una settimana prima della deposizione testimoniale (avvenuta il 18.07.2018) B D percosse un ragazzo (o due ragazzi) perché era uscito con la compagnia della parte civile. Il teste venne a sapere di questo fatto da "*tutto il paese praticamente*"[47]: trattandosi di dichiarazione appresa da voci correnti nel pubblico, la stessa risulta inutilizzabile *ex* art. 194 co. 3 c.p.p.

2.5.*1* Si riporta di seguito quanto riferito da I A (operante).

In data 26.03.2018, L* A presentò una integrazione di denuncia, asserendo che B D non stava rispettando la misura cautelare applicatagli.

In quella sede, l'operante chiese alla donna di produrre le trascrizioni delle conversazioni da lei intrattenute con l'imputato. Sul punto, il teste ha chiarito che inizialmente L A non volle consegnare tali messaggi, i quali furono prodotti
unicamente a seguito di ulteriore richiesta dello stesso[48]. Si tratta di 1468 messaggi scambiati reciprocamente tra l'imputato e la parte civile, dei quali 962 successivi al giorno in cui fu applicata la misura cautelare a B D .In alcuni casi, la conversazione fu
iniziata dall'imputato, in altri dalla parte civile.

Da accertamenti svolti, emerse che B D e L A si
incontrarono nei motel indicati precedentemente, nel periodo successivo all'applicazione della misura cautelare.

A seguito di due segnalazioni della parte civile, gli operanti ricercarono, in due diverse occasioni, un'arma da fuoco che sarebbe stata irregolarmente detenuta dall'imputato: tale arma non fu mai trovata, in nessuno dei luoghi indicati da L A

Il 02.06.2018 B' G sporse una denuncia nei confronti della parte
civile, rea - a suo avviso ~ di essersi presentata due volte durante la festa del Comune di presso la bancarella dove lui lavorava, insieme ad altri uomini, per provocarlo.

Più in generale, il teste ha riferito che "*ogni giorno cambiavano atteggiamenti e opinioni entrambi, c'era un giorno in cui si presentava lui, diceva che il rapporto era migliorato, due o tre giorni dopo diceva che avevano litigato nuovamente, e quindi ci sono vari passaggi in cui le loro opinioni in merito al loro rapporto continuavano a cambiare*"[49][50].

Su domanda della parte civile, il teste ha spiegato di aver visto la mattina del 17.02.2018 L A con un occhio rosso "*ma, a mio parere, che non è un parere*
tecnico di un medico, non sembrava relativo a percosse. Infatti, inizialmente noi ci siamo anche stupiti di questo fatto (della denuncia per lesioni, n.d.a.), *perché segni evidenti non ne aveva*"[5]®. Quella mattina, inoltre, la parte civile "*si sfregava gli occhi, quindi presumo che l'arrossamento fosse dovuto solamente al fatto che lei si sfregasse gli occhi. Non abbiamo visto segni evidenti, infatti ci siamo domandati come... cioè diciamo che dalle dichiarazioni a quello che era visibile non c'era un riscontro*"[51].

TI fp.qtp, prima del febbraio 2018, non ricevette mai alcuna denuncia da parte di
L Ali

6. C G

Sì riporta di seguito quanto riferito da C . G , operante.

Il 24.03.2018, L A si presentò in caserma per denunciare
nuovamente B . D , reo - a suo dire - di non aver rispettato la misura
cautelare applicatagli, avendola avvicinata per strada in una occasione alcuni giorni prima. Tuttavia, se ne andò dalla caserma prima di presentare formalmente la denuncia, dichiarando che aveva poco tempo e che sarebbe tornata.

Il 12.06.2018 il teste intervenne a seguito di una lite verificatasi a presso il
ristorante " . Sul posto erano presenti, oltre a B D "e
L A , diverse altre persone, tra cui nuovo fidanzato
della parte civile. I due uomini si guardarono "in cagnesco" davanti agli operanti: il N disse all'imputato che per lui era tutto finito, quest'ultimo lo definì un infame.
Sul braccio di B' D< non era visibili segni di bruciatura da sigaretta.

Il teste, prima del febbraio 2018, non ricevette mai alcuna denuncia da parte di L A

Non sono risultate al teste notizie di aggressioni operate da B D .
ad altri ragazzi del paese.

7. F W

Si riporta di seguito quanto riferito da F W amico dell'imputato dal 2011.

Il teste ha dichiarato di aver frequentato con una certa abitualità l'imputato e la parte civile negli ultimi tempi. Il F ha riferito di non aver mai. visto litigare la coppia, così come ha riferito di non aver mai visto segni di percosse sul corpo di L A ,
né di avere da lei ricevuto delle confidenze circa possibili maltrattamenti subiti dall'imputato.

Il teste ha poi dichiarato che B D... era geloso, ma non in modo
eccessivo. Non aveva però piacere a che la parte civile lavorasse nel bar di ~ Infine, il F ha detto di non essere a conoscenza degli esatti motivi per i quali l'imputato si dimise da un lavoro a tempo indeterminato.

8. Si riporta di seguito quanto riferito da B G _ . fratello dell'imputato.

Il teste ha riferito che negli ultimi anni vedeva tre o quattro giorni a settimana B.
_ D e L A . Non ha mai notato particolare tensione nel
rapporto tra il fratello e la compagna, avendo assistito al più a "*piccoli screzi che ci possono stare in tutte le coppie*"[52]. Solitamente era L *A* ad alzare la voce nei litigi,
mentre B D cercava di tranquillizzarla.

L'imputato è stato descritto come una persona "*gelosa, però nel giusto*"[53], senza essere ossessivo. Anche L A , ad ogni modo, era gelosa. Il teste ha negato di aver
visto segni di percosse sul corpo di quest'ultima, così come ha dichiarato di non essere a conoscenza che il fratello la pedinasse. La parte civile era libera di poter uscire di casa e spesso vedeva le amiche. L A non gli confidò mai di aver subito dei
maltrattamenti.

Il teste non ha ricordato di aver ricevuto una telefonata da L A la

notte tra il 16.02.2018 e il 17.02.2018. Non ha mai ricevuto alcune confidenza sul fatto che il fratello potesse aver ingerito della candeggina. B D gli disse solamente
che quella sera aveva deciso di guidare lui e aveva a tal fine fatto allontanare la parte civile dal posto di guida.

Da dopo l'episodio del 16.02.2018 il teste non ha più voluto vedere la parte civile perché "*ha detto, cose su mio fratello non veritiere*"[54].

Il teste ha dichiarato di non essere a conoscenza che il fratello percosse altri ragazzi del paese. Nel mese di giugno, mentre i fratelli B (con alcuni amici) stavano
mangiando la pizza, gli si avvicinò con fare minaccioso N D . N
M , fratello di quest'ultimo, intervenne a separare N D ? dal resto del
gruppo e lo colpì con due pugni, in quanto riteneva che avesse torto.

E D si licenziò da una società appaltatrice dell'. ~ a causa
della pendenza del processo penale nei suoi confronti, circostanza non gradita alla società.

Infine, il teste ha chiarito che l'imputato non ha mai posseduto un'arma.

9. Si riporta di seguito quanto riferito da B *A.* , fratello

dell'imputato.

Il teste ha descritto la relazione tra l'imputato e la parte civile, soggetti che vedeva tre o quattro volte a settimana, come "*una relazione normalissima con i sorrisi, le risate, le discussioni per le cose futili*"[55]. I litigi non erano frequenti. B A non vide mai il
fratello picchiare, maltrattare, pedinare o insultare L A , così come non
ricevette alcuna confidenza al riguardo dalla ragazza. Quest'ultima era libera di uscire di
casa, in quanto B D non era particolarmente geloso (lo era "*come tutte le persone, nella norma*"[56]).

Il pomeriggio del 16.02.2018, intorno alle 17.00, il teste ricevette una telefonata dalla parte civile, la quale gli disse che aveva litigato con l'imputato, che voleva andare via di casa e che quest'ultimo la stava supplicando di rimanere. Gli disse anche che B D aveva tentato di ingerire della candeggina. Il teste si recò quindi a casa del fratello, ma non vide la sostanza alcoolica, né sentì il suo odore *("anche perché, qualora fosse successo realmente, era successo magari da due ore"*[57]*).* Vide però l'imputato piangente sul letto e L A:
che lo insultava *("Sei un deficiente, sei un cretino, sei un uomo di merda, un uomo di 40 anni non piange come un bambino"*[58]*).* Dopo un po' di tempo, la parte civile andò via di casa, portando con sé qualche indumento. Il teste rimase un po' a consolare il fratello e poi tornò a casa. Nel corso della serata non ricevette altre telefonate da parte di L. A

La mattina successiva, B A si presentò in caserma, in quanto la
parte civile aveva telefonato ai genitori del teste dicendo: "*Venite in caserma, sono in caserma, mi ha rotto il naso, mi ha menata*"[59]. Il teste giunse da Carabinieri e vide che A "*non aveva nulla*"[60]. Il fratello gli raccontò che la sera precedente lui e la donna si trovavano in auto e, mentre lui guidava senza una meta precisa, avevano semplicemente discusso con la parte civile: quest'ultima però "*aveva cominciato ad urlare ed aveva chiamato i Carabinieri*"[61]. Quella stessa notte, B D • si presentò a casa dei genitori della
ragazza per chiarire.

Dopo questo episodio, il teste ha smesso di frequentare L A Ad
ogni modo, quest'ultima e B D continuarono a frequentarsi e trascorsero
dei momenti anche in degli alberghi. La parte civile inviava spesso dei messaggi molto affettuosi all'imputato.

La notte del 04.06.2018, L A si presentò per due volte con la sua
auto (una), avente lo stereo "*a tutto volume*"[62], sotto casa dell'imputato (e del
teste).

Il 12.06.2018, al ristorante " >" di , B . D stava
mangiando con B G ? ed alcuni amici. Ad un certo punto, secondo quanto
riferito al teste dall'imputato, mentre quest'ultimo stava fumando una sigaretta fuori dal locale, si avvicinò
L A. dicendogli: "*Se ti vedo ancora a ~ ti taglio la gola*"[63]. Dopodiché, la ragazza spense una sigaretta sul braccio dell'imputato, il quale si allontanò e chiamò il teste, che si recò immediatamente sul posto. Intervennero anche i Carabinieri. Dopo che questi ultimi si
allontanarono, s si avvicinò in modo
minaccioso a e ai suoi fratelli , però, sopraggiunse

3. La valutazione di (non) attendibilità e credibilità della parte civile.

Tanto premesso, è necessario analizzare il materiale probatorio acquisito. L'accusa si fonda principalmente sulle dichiarazioni della parte civile: è pertanto necessario un attento vaglio della sua attendibilità e della sua credibilità. Può anticiparsi che tale vaglio ha dato risultati decisamente negativi.

Dall'istruttoria svolta è infatti emerso in primo luogo un quadro di sostanziale inattendibilità della parte civile, desumibile da una pluralità di elementi.

In primo luogo, deve considerarsi il comportamento tenuto da L A successivamente alla denuncia del 17.02.2018 e alla conseguente applicazione della misura cautelare. La parte civile, durante la sua deposizione, pur se con notevole reticenza, ha ammesso di aver continuato a frequentate Bì D -, almeno fino ad aprile 2018. Durante tale periodo, la donna non si limitò ad incontrarlo per parlare della figlia, ma ebbe con lui una pluralità di rapporti sessuali, così come provato - oltre che dalle dichiarazioni di praticamente tutti i testi (parte civile compresa), anche - dagli accertamenti svolti dalla p.g. nei vari motel dove la coppia si recò. Non solo, il rapporto tra i due proseguì anche oltre il piano meramente sessuale, come dimostrato dalla gita al Mottarone che L _. A fece con l'imputato, dal pranzo avuto con quest'ultimo a , dall'incontro nel parcheggio di o da quello a

Il tenore delle conversazioni su Whatsapp tra imputato e parte civile conferma questa ricostruzione. Il contenuto di questi messaggi è decisamente oscillante, in quanto si alternano conversazioni in cui L A manifesta freddezza nei confronti di B D<>, ad altri in cui emerge la complicità di coppia tra i due.

Contrariamente a quanto riferito dalla parte civile durante la sua deposizione, le conversazioni non riguardano solamente la gestione della figlia. Vi sono infatti anche messaggi a chiaro contenuto sessuale[66], messaggi in cui la parte civile manifesta gelosia nei confronti dell'imputato[67] e messaggi in cui dichiara il suo amore nei confronti di quest'ultimo[68]. Si evidenzia poi come sostanzialmente non vi siano messaggi offensivi o minatori inviati dall'imputato alla parte civile[69], il quale al più manifesta gelosia e timore

64. Cfr, testimonianza , p. 52.

67. Cfr. messaggi del 20.02.2018 a partire dalle 15.00; messaggi del 18.03.2019 a partire dalle 13.59.
68. Cfr. messaggi del 19.03.2018 a partire dalle 17.22 (prolungatisi per tutto il resto della giornata).
69. A tal proposito si evidenzia solamente un messaggio in cui allude a possibili atteggiamenti sessualmente molesti posti in essere dal nei confronti della figlia

(esprimendosi talvolta anche in modo volgare) che la ragazza abbia relazioni con altri uomini. B; D< invia invece molti messaggi in cui dichiara il suo amore per
la parte civile ed evidenzia la sua sofferenza per essere stato abbandonato dalla donna. Alla luce del contenuto dei messaggi, risulta comprensibile la ritrosia manifestata da L A nel momento in cui le fu richiesto dall'I di consegnare le
conversazioni avute con l'imputato.

L'istruttoria ha inoltre fatto emergere il ragionevole dubbio che la parte civile, da febbraio 2018 in poi, provocò in diverse occasioni B D con il proposito
di aumentare la sua gelosia e indurlo a violare la misura cautelare. Ciò è desumibile, ad esempio, dalle dichiarazioni di B A il quale ha dichiarato che la notte
del 04.06.2018 la parte civile si presentò sotto casa dell'imputato con l'autoradio della propria auto "a tutto volume", al fine di provocarlo. Si tratta, all'evidenza, di episodio riferito dal fratello dell'imputato (come tale potenzialmente ricostruito con la l'obiettivo di proteggere quest'ultimo), ma che - considerando gli altri elementi (di cui si è già detto e di cui si dirà) evidenzianti la complessiva scarsa attendibilità di L A - acquisisce assoluta verosimiglianza e, ad ogni modo, fonda il ragionevole dubbio circa la sussistenza di comportamenti provocatori della parte civile.

Deve poi evidenziarsi come la parte civile abbia sempre utilizzato lo strumento della denuncia penale con estrema frequenza e, alla luce di quanto emerso dagli atti, con leggerezza. A tal proposito, si rileva come già nel 2013 L A denunciò il
compagno, salvo poi riconciliarsi con lui dopo pochissimi mesi e sposarsi nel settembre 2014. Comportamento scarsamente equilibrato che si ripresentò dopo la denuncia del 17.02.2018, alla quale seguirono (almeno) due mesi di ulteriori frequentazioni con l'imputato, costellati da rapporti sessuali e da un'ulteriore denuncia del 26.03.2018, oltre che da due segnalazioni relative al possesso di un'arma d parte di B D (arma
mai trovata nonostante le ricerche degli operanti). Inoltre, non può rilevarsi come, tra la prima e la seconda udienza del processo, vi furono almeno due episodi in cui la parte civile fu coinvolta in litigi con B D< i quali richiesero l'intervento dei
Carabinieri. La valutazione di questi episodi è già stata effettuata da questo Giudice in sede cautelare: qui occorre solamente evidenziare come certamente L A non
fece nulla per allentare la tensione con l'imputato, i parenti e gli amici di quest'ultimo: la stessa parte civile ha ammesso durante la deposizione di aver spento una sigaretta sul braccio del marito il 12.06.2018.

Insomma, il quadro probatorio ha evidenziato come L A abbia
sempre tenuto un comportamento oscillante nell'ambito di una relazione indubbiamente problematica. La donna - anziché prendere nettamente le distanze da B D(» (limitando effettivamente i rapporti con quest'ultimo alla gestione della figlia) - continuò nei mesi successivi all'applicazione della misura cautelare a sentirlo, a

(messaggi del 14.03.2018 a partire dalle 11.18). Vi è poi un messaggio in l'imputato dice alla parte civile: "*Cazzo che stronzo. Hai già scopato*", alludendo a un possibile rapporto da quest'ultima avuto con un altro uomo
(messaggio del 15.03.2018, ore 19.57). Allo stesso modo, vi è un messaggio in cui B De accusa
L A ' di aver avuto rapporti sessuali con altri: "*Sono proprio un coglione mi ha scritto che ti sei fatta scopare che hai squirtato e che non ti vuole vaffanculo hai ha figlia con me. Mi fai schifo*" (messaggi del 19.03.2018 a partire dalle 00.00).

frequentarlo, ad avere rapporti sessuali con lui, a provocarlo, a denunciarlo, a manifestare il suo amore nei suoi confronti. Tale altalenante comportamento - ben compendiato dalle parole dell'1 *("ogni giorno cambiavano atteggiamenti e opinioni entrambi, c'era un
giorno in cui si presentava lui, diceva che il rapporto era migliorato, due o tre giorni dopo diceva che avevano litigato nuovamente, e quindi ci sono vari passaggi in cui le loro opinioni in merito al loro rapporto continuavano a cambiare") -* non può certamente essere ricondotto ad una fisiologica fase successiva alla rottura del rapporto sentimentale tra vittima sottomessa e soggiogata - quale evidentemente non era L A - e soggetto maltrattante, come ha
invece cercato di far credere la difesa di parte civile.

Alla valutazione di inattendibilità di L A si aggiunge anche quella
di non credibilità. Innanzitutto, dal punto di vista della credibilità intrinseca, non possono non rilevarsi le continue contraddizioni e reticenze manifestate dalla parte civile durante la sua deposizione.

In primo luogo, la stessa ha dapprima dichiarato che prima del febbraio 2018 l'imputato, pur se in modo non grave, le mise le "mani addosso", salvo poi immediatamente smentirsi dicendo che fino a quella data l'imputato non aveva mai manifestato condotte fisicamente violente nei suoi confronti. Allo stesso modo, dapprima ha spiegato che in quel primo periodo temporale non fu mai minacciata dall'uomo, salvo poi smentirsi poco dopo.

In secondo luogo, L A: ’ ha cambiato versione sulle modalità con le
quali B Di giunse al bar la sera del 16.02.2018 (a piedi o con la sua auto).

In terzo luogo, la parte civile ha dapprima detto che, immediatamente dopo essere salita in auto con l'imputato, quest'ultimo divenne manesco, salvo smentire questa circostanza poco dopo.

In quarto luogo, L A ha detto di non ricordare di essere stata
strozzata con una sciarpa dall'imputato (come aveva dichiarato a s.i.t.), ma di essere stata solamente colpita con uno schiaffo.

In quinto luogo, la parte civile ha continuato, ripetutamente, a fornire versioni diverse sul fatto che ebbe rapporti sessuali con l'imputato successivamente al febbraio 2018, dapprima ammettendo di aver avuto un rapporto sessuale, poi negando la circostanza (nell'evidente tentativo di confermare quanto aveva dichiarato in sede di s.i.t. e contestatole dal p.m.), infine ammettendo di aver avuto una pluralità di rapporti sessuali con l'imputato.

In sesto luogo, L A . ha dapprima negato di aver frequentato
B D nel periodo successivo a marzo 2018, salvo poi affermare di non
ricordarsi esattamente, per poi, infine, smentirsi nuovamente ammettendo la frequentazione.

Scarsamente verosimile è poi la ricostruzione della serata del 16.02.2018.. Per comodità espositiva, si analizzerà il tema successivamente.

Infine L A appare non credibile anche sotto il profilo della credibilità estrinseca.

Le dichiarazioni della parte civile non trovano sostanzialmente alcun riscontro esterno. Tale valutazione non si fonda sulle deposizioni dei testi della difesa, tutti soggetti legati da un particolare legame con l'imputato (di parentela o di profonda amicizia) e, in quanto tali, potenzialmente interessati a difenderlo.

La valutazione di non credibilità si fonda invece su una attenta valutazione degli elementi di prova risultanti dagli altri testi dell'accusa e dalle fonti documentali.

Ancora una volta, per comodità espositiva, si analizzerà il tema a breve, contestualmente all'esame dei singoli reati contestati, dei quali si procede ora a trattare.

4. Il reato di cui al capo c).

Nel capo c) di imputazione si contesta all'imputato di aver arrecato delle lesioni personali aggravate alla parte civile.

La prova della sussistenza di tale reato non è stata però raggiunta.

È già stato analiticamente argomentato il vaglio di non attendibilità e credibilità della parte civile. Già questa valutazione imporrebbe di dover assolvere l'imputato. Tuttavia, pare il caso di evidenziare una serie di ulteriori elementi che rendono ancora meno credibile il racconto della donna.

Innanzitutto, sorprende che L A: non sia riuscita a ricordare come effettivamente le furono arrecare le lesioni dall'imputato, avendo dapprima dichiarato, in sede di s.i.t,, di essere stata strozzata con una sciarpa da B D< (oltre che, verosimilmente, da lui schiaffeggiata), salvo poi affermare di non ricordare che l'uomo le strinse la sciarpa intorno al collo.

La prova della sussistenza delle lesioni potrebbe discendere dalle dichiarazioni dei genitori della parte civile. In particolare, la K ha dichiarato di aver visto la figlia, appena rientrata a casa quella notte, "*tutta segnata in faccia, rossastra, con dei piccoli graffi, dei segni, dei lividi sul collo*". L M invece ha riferito che quella notte la figlia presentava dei lividi (anche se non è stato in grado di indicare in quale parte del corpo questi fossero collocati). Queste dichiarazioni risultano clamorosamente smentite da una pluralità di altre fonti di prova. In primo luogo, gli operanti D e I ~ testi imparziali per definizione - non notarono alcun livido sul corpo della ragazza. In particolare il D . che incontrò L A la notte stessa della presunta aggressione, ha descritto quest'ultima come avente il viso arrossato "*gonfio di lacrime*", ma privo di lividi. Scrupolosamente, avendo appena saputo dalla parte civile della riferita aggressione, le consigliò di recarsi al pronto soccorso. L che vide L A poche ore dopo, ha manifestato addirittura lo stupore che quest'ultima avesse intenzione di denunciare B . D per lesioni, posto che "*non aveva segni evidenti*". Il teste ha invece spiegato che la ragazza continuava a sfregarsi gli occhi, circostanza che probabilmente causò il rossore sul viso. Lo stesso referto medico conferma, sostanzialmente, l'assenza di una malattia. La prognosi di un giorno ~ di fatto una "non prognosi" - si fonda su una diagnosi di "trauma distar sivo cervicale" e di "contusioni superficiali al volto". Si tratta di una prognosi fondata su una diagnosi asintomatica, effettuata, in via prudenziale, solamente sulla base delle dichiarazioni della paziente che riferì ai sanitari di essere appena stata percossa da un uomo: questi ultimi non accertarono personalmente alcuna alterazione anatomica/funzionale sul corpo di L A

Tanto premesso deve ritenersi che (nella migliore delle ipotesi) i genitori della parte civile rilasciarono le dichiarazioni prima riportate in quanto suggestionati dalla preoccupazione per il racconto loro riferito dalla figlia, oltre che per sicura ostilità nutrita nei confronti dell'imputato.

Sulla base di queste considerazioni, l'imputato deve essere assolto perché il fatto non sussiste.

5. Il reato di cui al capo b).

Nel capo b) di imputazione si contesta all'imputato di aver privato della libertà personale L A per un "periodo di tempo apprezzabile".

Anche la prova della sussistenza di tale reato non è stata però raggiunta.

Si rinvia, ancora una volta, al vaglio di non attendibilità e credibilità della parte civile. Ad esso devono aggiungersi una serie di ulteriori considerazioni, che devono prendere le mosse dall'esame dei messaggi scambiati tra imputato e parte civile nel corso del 16.02.2018 e nei giorni immediatamente successivi[1].

Innanzitutto, poche ore prima del presunto sequestro, l'imputato scrisse alla parte civile: "*Nn mangio neanche oggi devo diventare il frigo di prima con il dente ti devo fare impazzire a te. Un figo*"; L A ' rispose: "*Mi piace sentirti così... con la voglia di cambiare... Ci vediamo dopo... ok* B D quindi aggiunse: "*E ti devo scopare nella vasca stanotte dormiamo lì se vuoi*"; la parte civile rispose: "*Va bene... a dopo... ma poi è molle nella vasca...* ©©©© l'imputato quindi concluse: "*La vasca vuota... e poi ce manuzza*".

Fino alle 14.43 la coppia parlò tranquillamente della figlia, intenta a fare i compiti. Alle 15.29 B D chiese alla moglie di raggiungerlo. Alle 18.59, a seguito di un messaggio dell'imputato *(Scusami"),* L A gli scrisse: "*E stata pesante*". L'imputato rispose quindi: "*Passo a prendere il Banco. Dai Dai un Po ciò giocato. Certo che l'amore gioca. Brutti scherzi*".

Intorno alle ore 22.20, l'imputato scrisse ripetutamente "*ti amo*" alla parte civile.

Alle 08.01 del 17.02.2018 B1 D< scrisse alla moglie: "*Fino alle cinque dai carabinieri ad Ai ... quando ti calmi chiama qualcuno dei miei per mia figlia per vederla*".

Nei giorni successivi, la parte civile, pur affermando di voler lasciare "*l'amore della sua vita*", nonostante

le ripetute dichiarazioni d'amore ricevute da quest'ultimo, non fece alcun riferimento all'episodio verificatosi la notte tra il 16.02.2018 e il. 17.02.2018[2].

La ricostruzione dei messaggi scambiati da L A: e B D ridimensiona la gravità del racconto reso dalla parte civile. Innanzitutto, poche ore prima del presunto sequestro, i coniugi parlarono in modo complice di sesso e, poco dopo, della figlia. Tra le 15.29 e le 18.59 verosimilmente si verificò l'episodio in cui B De pietosamente implorò la parte civile di non lasciarlo. Dopo poco (tralasciando l'ambiguo riferimento al "Banco" e al "gioco"), l'imputato scrisse numerosi "ti amo" a L A , fino, verosimilmente, a pochi minuti dal loro incontro al bar.

Pertanto, da quanto emerge dai messaggi (privi di qualunque connotato aggressivo, minaccioso o ingiurioso), non può assolutamente ritenersi che tale incontro iniziò effettivamente con B D che, non appena fece salire la parte civile sull'auto, la minacciò di morte (unica circostanza sempre confermata dalla donna in tutte le versioni dell'episodio fornite).

L'imputato quindi si fece riaccompagnare a casa e L A tornò al bar, dopo aver telefonato - secondo quanto da lei dichiarato - a B . G , il quale però ha riferito di non ricordare quella telefonata. La donna, al bar, fu nuovamente raggiunta dal marito, che salì sulla sua auto. L A ‘ guidò quindi quasi fino a casa dei suoi genitori, ma improvvisamente - nella versione fornita dalla donna - l'uomo tirò il freno a mano, salì al posto di guida e la costrinse a collocarsi nel sedile posteriore, nonostante il tentativo di fuga della donna. In tale frangente si sarebbe verificata l'aggressione di cui al capo c) di imputazione. È evidente che - considerando la totale inattendibilità e non credibilità di L A la ricostruzione delle ore antecedenti al presunto sequestro, la non verosimiglianza del racconto relativo alle lesioni subite dalla parte civile - le modalità di inizio della asserita privazione della libertà - così come descritte dalla parte civile - appaiono investite da un ragionevole dubbio sulla loro fondatezza. Inoltre, concentrando l'attenzione sui minuti immediatamente successivi, sorprende come L A pur potendo disporre del suo cellulare, non cercò di telefonare a nessuno per richiedere aiuto. A tal proposito, risulta inverosimile la giustificazione che non sapeva dove avesse messo il cellulare: nella sua ricostruzione dei fatti, la parte civile, collocata nei sedili posteriori, avrebbe avuto tutto lo spazio visivo possibile per cercare il telefono sia nei sedili posteriori che in quelli anteriori, comportamento che sarebbe dovuto risultare naturale e spontaneo se avesse effettivamente nutrito un fondato timore per la sua incolumità.

Ancora, venendo al momento in cui l'imputato l'avrebbe portata nella isolata zona boschiva, non si comprende come mai la donna, quando Bi D si gettò - in ipotesi - a terra in un momento di disperazione, non cercò di scappare.

Altro elemento critico nella ricostruzione dei fatti fornita dalla parte civile è quello relativo alla telefonata fatta alla sorella C , mentre si trovava ancora in auto con il marito. Tale circostanza, pur se confermata dalla R , non è stata ricordata da L Mi * (il quale ha addirittura detto che lui e i suoi familiari erano assolutamente tranquilli fin tanto che la figlia tornò a casa, non sospettando minimamente quello che poi lei gli avrebbe di lì a poco riferito), circostanza che stupisce se si considera la drammaticità del tenore che avrebbe dovuto avere quella chiamata.

Ancora, lo stesso L M non ha ricordato di aver strappato di mano il telefono alla parte civile (come da lei invece dichiarato), mentre questa era intenta a parlare con l'imputato. Si ricorda che il teste è stato sentito in dibattimento pochissimi mesi dopo il fatto.

Risulta poi smentito il fatto che l'imputato quella sera si sarebbe trovato in uno stato di ebrezza alcoolica: sottoposto ad alcool test nelle immediatezze dei fatti, risultò assolutamente sobrio.

Infine, si ribadisce che nei messaggi dei giorni successivi la coppia non fece alcun riferimento all'episodio e che L A: non manifestò mai alcun timore nei confronti del marito, circostanza che sarebbe stata invece fisiologica se effettivamente B D< l'avesse percossa e lesa, sequestrata, portata in un bosco di notte e minacciata di morte attraverso lo schiacciamento di un treno.

In definitiva, deve ritenersi sussistente il ragionevole dubbio che la parte civile abbia arricchito la narrazione dell'episodio della sera del 16.02.2018 con dettagli finalizzati a drammatizzare l'accaduto e a vittimizzare se stessa. Alla luce di tutte le considerazioni svolte deve ritenersi verosimile che la coppia trascorse alcune decine di minuti in auto, alternando momenti di litigio a momenti più distesi, vagando senza una meta precisa per le strade intorno a Sesto Calende (come dichiarato da B A’ i, mentre erano intenti a parlare - magari con toni accesi e reciprocamente polemici - ai loro problemi sentimentali. Non può invece dirsi assolutamente provato che l'imputato privò unilateralmente L A iella sua libertà personale, nemmeno per un breve periodo di tempo.

L'imputato deve essere assolto anche in relazione al capo b) di imputazione, non essendo stata raggiunta la prova della sussistenza del fatto.

6. Il reato di cui al capo a).

Nel capo a) di imputazione si contesta all'imputato di aver maltrattato la parte civile a partire da settembre 2013.

Anche la prova della sussistenza di tale reato non è stata però raggiunta.

Preliminarmente occorre evidenziare come l'istruttoria abbia consentito di enucleare un unico episodio specifico nel quale - secondo la tesi accusatoria - l'imputato pose in essere una condotta aggressiva nei confronti di L A : quello del 16.02.2018. Si è già ampiamente detto di come, in realtà, il quadro probatorio non abbia consentito di ritenere verosimile la versione fornita dalla parte civile sull'accaduto. Ad ogni modo ~ anche volendo falsificare i risultati di prova ritenendo accertata la condotta violenta - è di tutta evidenza come non possa essere in ogni caso configurato, in assenza di altri episodi, il delitto di cui all'art. 572 c.p., tipico reato abituale.

Infatti, né L A né i suoi genitori sono stati in grado di indicare altri episodi specifici in cui l'imputato aggredì percosse, minacciò o ingiuriò la parte civile. Quest'ultima ha addirittura affermato che i rapporti con l'imputato furono sostanzialmente buoni fino al settembre 2017, essendo caratterizzati solamente dalla gelosia ossessiva di B . D< .La parte civile, come detto, in una delle versioni fornite ha specificato di aver ricevuto minacce di morte e che l'imputato le mise le mani addosso, circostanze poco prima decisamente negate. Di fronte a una simile contraddittorietà di dichiarazioni, non può che farsi riferimento alla versione più favorevole all'imputato, per il principio dell'"oltre ogni ragionevole dubbio". In ogni caso, poi, L A] non è stata in grado di dettagliare alcun episodio di presunti maltrattamenti subiti in quel periodo. Ha infine ammesso che anche lei era solita insultate B De che, nonostante quest'ultimo cercasse di non farla uscire di casa per gelosia, lei lo faceva ugualmente.

La R ha dichiarato che, intorno al 2006, vide la figlia con dei lividi e, un paio di volte, con un occhio nero. La teste ha specificato che dal 2010 al 2013 ~ periodo nel quale L A visse con l'imputato in un appartamento vicino a quello dei genitori della parte civile - sentì una decina di volta la coppia litigare, principalmente per motivi di gelosia. Sentì in alcune occasioni la figlia dire: "*Non mettermi le mani addosso*", ma non assistette mai personalmente ad aggressioni poste in essere dall'imputato nei confronti della parte civile. Vide in alcune occasioni dei lividi sul corpo della ragazza, ma quest'ultima negò di aver subito percosse dal compagno. Le dichiarazioni della E non possono fondare la responsabilità penale dell'imputato. Esse sono innanzitutto assolutamente generiche, non facendo riferimento ad alcun episodio specifico. Non risultano poi confermate da alcun riscontro esterno, ma anzi, direttamente smentite dalle confidenze ricevute dalla parte civile nell'immediatezza dei fatti, la quale negò di essere stata picchiata da B D< . Infine - e la motivazione è assorbente - tutti i fatti (genericamente) descritti dalla RI si riferiscono a un periodo antecedente alla fine del 2013, momento a partire dal quale è contestato il delitto di cui all'art. 572 c.p. in imputazione.

L M ha reso delle dichiarazioni completamente inaffidabili, indubbiamente animate dal desiderio di incriminare E D , soggetto da lui odiato (anche per il fatto che quest'ultimo lo accusò di aver avuto un rapporto sessuale con la figlia e gli sferrò un pugno). Anche in tal caso, i fatti descritti dal teste sono assolutamente generici, non essendo stato enucleato in modo specifico alcun episodio particolare. Anche L M . come la R non assistette personalmente ad alcuna condotta aggressiva, minatoria o - seconda la prima delle versioni rese - ingiuriante posta in essere da B D< nei confronti della parte civile. Il teste vide solamente la figlia, in due o tre occasioni, con gli "*occhi neri*": L M. non è stato però in grado di specificare quando vide la ragazza con gli esiti delle condotte aggressive di B: D< le quali ~ per quanto è possibile sapere - poterono verificarsi anche nel periodo non contestato nel capo di imputazione, in conformità alle dichiarazioni rilasciate dalla R

Insomma, a fronte di dichiarazioni rassicuranti della parte civile e di dichiarazioni generiche e contraddittorie dei genitori di quest'ultima, non è certamente possibile ritenere provati i fatti contestati nel capo a) di imputazione. Peraltro, si deve ancora una volta evidenziare la particolare animosità nutrita da tutta la famiglia L nei confronti dell'imputato (e della famiglia di quest'ultimo), emergente anche dai fatti verificatisi successivamente all'inizio del processo, i quali videro coinvolte, oltre ai coniugi, anche le rispettive famiglie, che si minacciarono reciprocamente.

Ciò detto, si deve anche evidenziare come l'istruttoria abbia poi consentito di ricostruire delle dinamiche familiari improntate alla reciproca violenza verbale e non, al

contrario, ad un clima di soggezione continuativa cui l'imputato costrinse la parte civile inerme, quale si sarebbe dovuto accertare per poter ritenere configurato il delitto di maltrattamenti in famiglia. Si ricordi sul punto che per la giurisprudenza "*l'assenza di atteggiamento di passiva soggezione della vittima di condotte astrattamente integranti maltrattamento in famiglia (e anzi di reattiva contrapposizione ai singoli episodi) esclude la configurabilità del reato*"[3] e che "*nel reato di maltrattamenti in famiglia deve escludersi che la. compromissione del bene giuridico protetto si verifichi in presenza di semplici fatti che ledono ovvero mettono in pericolo l'incolumità personale, la libertà o l'onore di una persona della famiglia; è infatti necessario, per la configurabilità del reato, che tali fatti siano la componente di una più ampia e unitaria condotta abituale, idonea ad imporre un regime di vita vessatorio, mortificante e insostenibile, caratterizzato da uno stato di soggezione e inferiorità psicologica della vittima, (accolto, nella specie, il ricorso dell'imputato avverso la decisione della Corte di merito, la quale aveva, erroneamente ritenuto integrato il delitto di cui all'art. 572 c.p. unicamente sulla base dell'abitualità criminosa della condotta, prescindendo dal necessario accertamento dello stato di soggezione e inferiorità psicologica del soggetto passivo)*"[4]. Risulta evidente come nel caso di specie non si sia raggiunta la prova della sussistenza di questo clima vessatorio, come dimostrato sia dal fatto che L A , per sue stesse dichiarazioni, usciva regolarmente di casa e lavorava, non curandosi della gelosia del marito, sia dal fatto che la donna certamente rispondeva - almeno da un punto di vista verbale - agli insulti dell'imputato. Infine, non può tacersi il fatto che L A tenne, almeno durante i primi mesi del processo, una condotta provocatrice nei confronti di quest'ultimo, come già evidenziato.

In definitiva, l'imputato deve essere assolto dai reati a lui ascritti perché i fatti non sussistono, non essendo stata raggiunta la piena prova degli stessi.

MOTIVI DELLA DECISIONE

Con decreto emesso dal GIP in data 24/1/2017 Fi C
A veniva rinviato a giudizio per rispondere dei reati ascrittigli come da allegata imputazione.
All'udienza del 30/10/2017, respinta l'eccezione preliminare, aperto il dibattimento, le parti formulavano le rispettive istanze istruttorie,

che il giudice accoglieva procedendo, all'udienza del 23/4/2018, all'esame dei testi R[1] Si (riesaminata ex art. 197 *bis* c.p.p. all'udienza del 14/5/2018), V M , B] lE , R R , L F ; all'udienza del 14/5/2018 all'esame dei testi P M A B N , C R , L M; ,L R all'udienza del 28/5/2018 all'esame dei testi P> S' e R M ; all'udienza del 19/11/2018 all'esame del teste I . A e dell'imputato; all'udienza del 7/1/2019 all'esame del teste ammesso ex art. 507 c.p.p. F C< M con le forme dell'audizione protetta.

Si acquisivano inoltre, nel corso dell'istruttoria, i seguenti documenti: certificati medici della persona offesa in data 14/6/2014 e 4/7/2014, album fotografico redatto dalla PG in data 7/7/2014 (udienza del 12/3/2018), decreto di citazione a giudizio davanti al giudice di pace della odierna persona offesa in data 14/10/2016, certificati medici dell'imputato in data 3/7/2014 (udienza del 23/4/2018), sentenza del giudice di pace in data 12/11/2017 (acquisita dalla cancelleria in data 26/4/2018), cartella clinica relativa a , della persona offesa (udienza del 19/11/2018), CTU nella causa civile di separazione definita con sentenza di primo grado acquisita su accordo delle parti ed ulteriori documenti della difesa (udienza del 7/1/2019), sentenza di separazione (udienza odierna).

Quindi, all'odierna udienza, le parti illustravano le conclusioni trascritte in epigrafe e il giudice decideva come da dispositivo.

La presente vicenda processuale trae origine dalla querela sporta in data 7/7/2014 da R nei confronti del marito F C A , con cui si era sposata nel e dal quale chiedeva di separarsi con addebito al marito con ricorso depositato in data 1 . Il marito resisteva chiedendo a sua volta l'addebito alla moglie. La sentenza di separazione veniva pronunciata in data Nella stessa i figli sono stati affidati all'ente con collocazione preferenziale presso il pare (nella CTU acquisita su accordo delle parti si dà atto della convergenza dei coniugi nel ritenere l'iniziale sistemazione presso la nonna materna inadeguata nell'interesse dei figli). A seguito di querele sporte in data 1/7/2014 e 4/7/2014 dall'odierno imputato contro la R quest'ultima era stata inoltre citata a giudizio per rispondere del reato di lesioni per fatti del 26/6/2014 e 3/7/2014. Il procedimento si concludeva con sentenza di estinzione per remissione di querela emessa in data 21/11/2017, irrevocabile in data 7/3/2018. La remissione di querela interveniva a seguito di un accordo tra le parti (prodotto dalla difesa all'udienza del 7/1/2019), in esecuzione del quale la R revocava la costituzione di parte civile nell'odierno procedimento rinunciando altresì all'azione civile per il risarcimento dei danni conseguenti ai reati di cui all'odierna imputazione (accordo che la R ha riferito essere stato effettivamente concluso tra le parti, per il bene comune dei figli, all'udienza del 14/5/2018).

Nonostante sia evidente che la separazione tra i coniugi sia avvenuta - per lo meno nel suo esordio - in un clima concitato e battagliero, la complessiva istruttoria svolta in questa sede ha condotto la scrivente a convincersi della prospettazione dei fatti della persona offesa — la cui testimonianza è stata sobria e credibile, oltre che avvalorata da elementi di riscontro esterni, come richiesto dall'art. 197 *bis* c. 6 c.p.p. - circa la preesistenza, storica e logica, rispetto ai litigi originati dalla sua decisione di addivenire alla separazione, della condotta maltrattante del coniuge. Va osservato, inoltre, che le prime lesioni attestate sulla persona offesa dal pronto soccorso sono quelle del 13/6/2014, (primo episodio contestato al capo B d'imputazione), dunque esse risalgono a prima dell'iniziativa giudiziaria di F li querelare la moglie per lesioni, adottata nei luglio seguente in relazione a fatti del 26/6/2014 (su cui la R non è peraltro stata sentita) e del 3/7/2014 (corrispondente al secondo episodio del capo B). Ciò consente una valutazione in termini di assenza di intento ritorsivo da parte della odierna denunciarne, rafforzata dalla circostanza che essa ha revocato la costituzione di parte civile nella prospettiva di una riappacificazione nell'interesse dei figli, evidentemente provati dai litigi e dalla separazione tra i genitori. Mal si concilierebbe dunque, con questo superiore interesse, una residua velleità calugnatoria . Nemmeno l'esame del figlio adolescente della coppia, ammesso sulla base delle gravi dichiarazioni dell'imputato nei confronti della persona offesa, accusata di condotte ai limiti con quelle descritte dall'alt. 570 c. 1 c.p., e che avrebbe potuto in ipotesi modificare tale convincimento, è apparso determinante in questo senso, essendo apparso il ragazzo, da un lato, focalizzato esclusivamente sui fatti dell'estate del 2014, e nulla riferendo circa il pregresso (peraltro egli era in quinta elementare nel 2014), ed avendo manifestato, dall'altro, sentimenti di disprezzo nei confronti della madre e di assoluta complicità col padre, che sminuiscono l'imparzialità dello stesso e non giovano all'attendibilità della testimonianza (valutazione suffragata dagli accertamenti della CTU sulle dinamiche interne al nucleo familiare redatta dallo psicologo d.ssa già citata, acquisita purtroppo soltanto dopo l'audizione del minore, in cui si dà conto della valutazione espressa dalla neuropsichiatra infantile d.ssa , che ha seguito entrambi i figli della coppia in un percorso di logopedia e potenziamento cognitivo, circa la *"presenza di un mandato di svalutazione materna assunto da entrambi i minori, in modo persistente tuttora"* e della sua segnalazione in merito all'opportunità di un intervento di psicoterapia per).

Fatta questa premessa generale, passiamo quindi all'analisi concreta delle condotte ascritte all'imputato. La ha riferito che il comportamento del marito nei suoi confronti ha iniziato a modificarsi nel 2009, in concomitanza con la perdita di un'occupazione da parte del marito, situazione che era andata ingenerando atteggiamenti di prevaricazione ed umiliazione verso di lei, quali insultarla apostrofandola "troia, puttana", venirle incontro "testa a testa", mandarla di notte a dormire sul divano perché era "nervoso", oltre ad aggressioni fisiche, quali tirarle calci, stringerle i polsi ed anche le parti intime, tirarle i capelli, buttarla per terra e trascinarla. Ha specificato che tali episodi all'inizio erano occasionali, ma andarono intensificandosi col tempo, per concentrarsi soprattutto nell'ultimo anno di convivenza. Ha riferito che in alcune occasioni, a seguito delle percosse, era andata al pronto soccorso, ma non aveva mai avuto il coraggio di dire che era stata picchiata dal marito, perché ne aveva paura, e ciò fino all'accesso del luglio del 2014, ciò che appare coerente, poiché, avendo incontrovertibilmente deciso di separarsi, aveva comunque sfidato le ire del marito.

Ha circostanziato, quanto al fatto del 13/6/2014, che la stessa aveva deciso "di dire basta, di separarsi perché non ce la faceva più" ma che F "non 1 'ha presa bene" e l'aveva minacciata dicendole "se tu decidi di andartene da quella porta ti renderò la vita difficile, ti metterò contro i nostri figli". La

donna, ormai decisa, intendeva prelevare i bambini e trasferirsi da sua madre, ma F "non la voleva fare uscire di casa". Si innescò una discussione in cui lui la provocò con le parole "ti ho sempre trattata male e non ti sei voluta separare, invece adesso lo vuoi, quindi vuol dire che hai un altro". Inoltre la prese per i capelli e la fece cadere a terra; inoltre, mentre era sul fuoco l'acqua della pasta, lui gliela gettò addosso, fortunatamente prima del bollore. Quindi, per la confusione, intervennero i vicini e la polizia locale. La donna si fece accompagnare in ospedale la mattina dopo da sua sorella. Il certificato medico attesta "presenza di ematomi arti inferiori bilateralmente" e formula la diagnosi di "trauma confusivo arti inferiori".

Anche il fatto del 3/7/2014 fu preceduto da una violenta discussione perché la donna manifestò di nuovo l'intenzione di andarsene e l'uomo la sua contrarietà, sottraendole a tale scopo le chiavi della macchina. La teste ha precisato che F le sputò in faccia, la colpì con dei pugni e le fece un morso doloroso.

Anche in tale occasione intervennero i vicini di casa e il giorno dopo la R si recò al pronto soccorso, dove venne visitata e dimessa con la diagnosi di "trauma contusi vo emitorace destro, trauma cranico non commotivo, trauma contusivo mano destra e polso destro, trauma contusivo parete addominale". Dopo il rientro dall'ospedale, la donna riuscì a prendere la sua roba e i bambini e a trasferirsi da sua madre, sempre con il marito alle calcagna che, nei giorni seguenti, la seguiva, la chiamava e la minacciava che se non fosse tornata a casa le avrebbe reso la vita un inferno.

La persona offesa ha riferito di non aver mai aggredito in prima battuta il marito, ma di essersene semmai difesa provocandogli eventualmente i graffi che lui asseriva di aver subito. Ha precisato di essersi confidata di questi eventi con sua sorella - trasferitasi a e a cui il PM ha da ultimo rinunciato - e con qualche amica, ma principalmente nel momento della crisi coniugale.

Data questa circostanza, non stupisce se i riscontri alle dichiarazioni della denunciante si riferiscono essenzialmente ai fatti dell'estate del 2014.

Essi possono distinguersi in riscontri ordinari di attendibilità (quali i certificati medici, già indicati, in cui sono formulate diagnosi che attribuiscono gli ematomi riscontrati a traumi contusivi, escludendone pertanto la scrivibilità ai problemi vascolari di cui la R soffriva; le foto scattate dalla PG al momento della presentazione della denuncia, in cui si vede chiaramente il segno di un morso sul braccio della donna; e le testimonianze *de relato* della persona offesa, quali quelle della madre L , che ha dato conto, inoltre, della condotta persecutoria dell'imputato dopo l'allontanamento della R da casa, e, soprattutto, dell'amica L , che ha confermato che le confidenze della R in merito alle violenze del marito riguardavano l'intero ultimo anno e non, dunque, soltanto gli episodi dell'estate del 2014, ricordando che S le diceva "che aveva paura di addormentarsi perché era spaventata, perché si sentiva osservata e veniva anche insultata di notte" e che lui le sputava anche in faccia) ed in riscontri individualizzanti, idonei a ricollegare il fatto-reato alla persona dell'imputato, che di seguito con maggiore attenzione si esaminano.

In particolare, quanto all'episodio del 13/6/2014, il vicino di casa C ha dato conto della violenta lite tra i due, che lo indusse a portare via con sé il figlio M , mentre C stava dormendo. L'agente V] intervenuto nell'immediatezza, ha riferito che i coniugi erano entrambi afflitti e si lamentavano vicendevolmente delle percosse subite. In particolare, l'uomo aveva una ferita al petto, un'ecchimosi alla spalla e una al volto, mentre la donna aveva una contusione al ginocchio e lividi alle braccia. Appare riscontrata, dunque, la riconducibilità delle lesioni patite nell'occasione dalla donna al litigio avuto col marito.

Quanto all'episodio del 3/7/2014, i vicini di casa BJ hanno riferito di essere intervenuti sia la sera, poiché i coniugi F stavano litigando pesantemente (] ha confermato che lui insultava la R chiamandola "puttana, troia"), sia la mattina successiva, per analoghe ragioni (B ha confermato che F[1] per impedire alla moglie di prendere le chiavi della macchina per andare a lavorare, sostenendo che dal telepass risultava che lei andasse da tutt'altra parte, l'aggrediva strattonandola per un braccio e facendola cadere per terra, tanto che fu poi necessario sdraiarla sul divano affinchè si riprendesse, episodio confermato dalla R sebbene con qualche difficoltà a collocarlo temporalmente). E' questo il riscontro maggiormente significativo dell'intera istruttoria, poiché B e R hanno direttamente assistito ad un'aggressione del marito ai danni della moglie, finalizzata ad impedirle di allontanarsi da casa con la macchina, ma non viceversa, non potendo dunque testimoniare circa le modalità in cui F si sarebbe provocato i graffi al collo, pur attestandone la oggettiva'presenza.

Circa il valore dei riscontri individualizzanti relativamente ai fatti dell'estate 2014 va osservato che essi sono compatibili e dunque avvalorano le dichiarazioni della denunciante (che ha dato conto di aver alzato le mani sul marito per difendersi) e non già quelle del marito (che, a dispetto delle testimonianze di B e R ha negato di aver percosso la donna, accusando invece la predetta di aggredirlo nonché di auto lesionarsi e, comunque, quanto al fatto del 3/7/2014, dichiarando che la donna avrebbe avuto solo una crisi di stress).

Tali riscontri unitamente agli altri elementi sopra richiamati, tutti idonei a valorizzare la genuinità della persona offesa - anche in relazione allo stato d'animo della stessa rispetto alle violenze del marito, come descritto da L . confermano l'efficacia probatoria dell'intera sua testimonianza ai sensi del combinato disposto degli artt. 197 *bis* - 192 c. 3 c.p.p. - e non solo con riguardo all'episodio, peraltro il più grave e quello in relazione al quale la persona offesa ha assunto la veste processuale di testimone assistito, del 3/7/2014 cui tali riscontri direttamente si riferiscono - . Invero, la recente giurisprudenza ha chiarito che, in tema di valutazione della prova, laddove oggetto della testimonianza assistita sia una pluralità di fatti-reato commessi dallo stesso soggetto, l'elemento di riscontro esterno per alcuni di essi vale a fornire sul piano logico la necessaria integrazione probatoria alla chiamata in reità anche in ordine agli altri, purché vi siano ragioni idonee a suffragare tale giudizio e ad imporre un'unitaria valutazione delle dichiarazioni, quali l'identica natura dei fatti in questione, l'identità dei protagonisti e l'inserirsi dei fatti in un rapporto intersoggettivo unitario e continuativo (così Cass. Sez. 6 sentenza 13844/2016).

Quanto agli altri testi, essi poco o niente hanno aggiunto al quadro istruttorio come sopra ricostruito. Le testi PJ e B peraltro, hanno reso verosimilmente falsa testimonianza, calunniando sicuramente i verbalizzanti di falso nella redazione delle loro SIT, poiché hanno negato tutte le risposte date all'epoca, senza offrire alcuna giustificazione sensata di quanto potesse essere accaduto in sede di SIT. Addirittura la B ha riferito di aver sempre visto F come una coppia "molto unita, serena, felice" il che è in contrasto con l'intero quadro istruttorio, se non altro in relazione alla burrascosa separazione.

Le dichiarazioni dell'imputato che, come detto, ha negato di aver mai percosso la moglie, proclamandosi come vittima innocente di un'adultera seriale, che, vedendosi scoperta, sarebbe letteralmente impazzita, a fronte della propria reazione paziente e comprensiva, non appaiono, al contrario, riscontrate. Le lesioni sulla persona della R[1] attestate al pronto soccorso (traumi contusivi in varie parti del corpo)
appaiono poco compatibili con una condotta autolesionista, a parte che R e Bl l'hanno visto che la strattonava e la faceva cadere per terra. Peraltro non è
documentato alcun disturbo psichiatrico della donna. I viaggi notturni ingiustificati di cui l'imputato ha accusato la moglie, che avrebbe lasciato i bambini da soli a casa, e che sarebbero provati dalle registrazioni del telepass, non sono stati documentati con tale mezzo in dibattimento.

Come anticipato, il figlio - che formalmente ha riscontrato nei dettagli la scoperta della relazione extraconiugale della madre da parte del padre, pur senza ricordare, con analoga precisione, i contenuti dei discorsi tra i genitori coevi a tali fatti - non appare attendibile. Egli ha invero chiaramente veicolato sentimenti di disprezzo e rancore verso la madre. L'ha accusata di. essere "falsa" senza dare conto, in concreto, di tale valutazione in modo congruo, limitandosi ad osservare che talvolta fa promesse ai figli che poi non mantiene. Ha riferito che quando sta con la mamma si "rompe le scatole" e preferirebbe non andarci. A ciò si aggiungano le valutazioni tecniche contenute nella CTU, già richiamate. Inoltre, egli ha riferito circostanze incompatibili con il quadro istruttorio o comunque poco verosimili. Ha accusato la madre di essere violenta con tutti, dichiarando che il padre "non alza mai un dito". Ha ricostruito l'episodio della pentola d'acqua riferendo che il padre l'aveva sì buttata addosso alla madre, ma involontariamente, perché lei gli era andata addosso. Ha riferito che quando la mamma era stata ricoverata al pronto soccorso, il padre non ne sapeva niente ed ha negato che in precedenza avessero litigato (nonostante C. ha riferito che M era presente al litigio del 13/6/2014 e la
R ha mostrato di essere molto preoccupata perché i bambini assistevano ai litigi coniugali). L'impressione che se ne trae è che il ragazzo abbia mitizzato la figura del padre e svalutato quella della madre, in modo spontaneo o indotto, questo poco importa, ma con la conseguenza oggettiva che il suo narrato non risulta realistico.

Peraltro, deve osservarsi che un'eventuale relazione extraconiugale della Ri non osterebbe alla configurabilità del reato di maltrattamenti da parte del
marito, che certo non sarebbe autorizzato a commetterlo a fronte del tradimento di lei.

In conclusione deve ritenersi riscontrata, non smentita e sufficiente a fondare il giudizio di colpevolezza dell'imputato, in ordine ai reati ascrittigli a capi A e B d'imputazione, la testimonianza della denunciante.

Risulta, in particolare, integrato il reato di maltrattamenti, di cui sussiste, innanzitutto, l'elemento oggettivo, consistente negli atti abituali di violenza morale e fisica perpetrati dall'imputato ai danni della persona offesa, fatta oggetto di umiliazioni e percosse, intensificatesi allorquando essa iniziò a maturare la decisione di "ribellarsi" e separarsi.

Il reato non viene meno in dipendenza di una reazione della vittima, che a sua volta risulta aver inflitto violenze al marito durante gli ultimi eclatanti litigi. Il reato, semmai, verrebbe meno se le violenze fossero addebitabili ad una dinamica relazionale reciprocamente aggressiva, circostanza questa esclusa dall'istruttoria.

Il quadro probatorio delineato evidenzia altresì la sussistenza del dolo unitario richiesto dal reato di maltrattamenti, consistente nella consapevolezza e volontà di infliggere alla vittima un sistema di vita penoso, divenuto nel tempo insostenibile. La frase del marito riportata dalla persona offesa - "ti ho sempre trattata male e non ti sei voluta separare, invece adesso lo vuoi, quindi vuol dire che hai un altro" - appare significativa di tale elemento psicologico, riscontrato anche dalla prosecuzione delle condotte violente a fronte della comunicazione della donna di volersi separare.

Le lesioni contestate sono tutte provate dai certificati medici acquisiti. Sono tutte procedibili d'ufficio per via dell'aggravante di cui all'art. 576 n. 5 c.p.

Il reato di cui al capo C d'imputazione non è stato invece provato.

In punto di trattamento sanzionatorio può osservarsi quanto segue:

- il miglioramento della relazione tra i genitori, di cui si dà atto nella CTU, nell'interesse dei figli, consente il riconoscimento delle circostanze attenuanti generiche equivalenti alle aggravanti, ostando ad una declaratoria di prevalenza il tenore delle dichiarazioni rese dall'imputato nell'esame dibattimentale, ai limiti della calunnia;

- deve escludersi l'aggravante di cui all'art. 61 n. 11 *quìnquies,* poiché non è provato che i minori abbiano assistito agli atti di violenza, ma forse soltanto ai litigi tra i genitori;

- i reati si pongono in concorso formale tra loro e più grave è quello di maltrattamenti;

- l'occasionalità delle lesioni riscontrate dai certificati medici consente l'individuazione della pena base in misura aderente al minimo edittale.

La pena può pertanto essere commisurata come segue:

- pena base: due anni di reclusione;
- ridotta per le circostanze attenuanti generiche: un anno e quattro mesi di reclusione;
- aumentata per le lesioni (di due mesi per ciascuna di esse): un anno e otto mesi di reclusione.

Segue la condanna al pagamento delle spese processuali.

La migliorata relazione con la persona offesa, nella prospettiva di una sempre migliore collaborazione nell'interesse dei figli, consente la concessione dei benefici di legge.

Vengono di seguito riportate le dichiarazioni testimoniali assunte nelle parti di rilevanza al fine del decidere.

La p.o. dal reato, *M DM<* , ha dichiarato quanto segue in relazione alle

querele sporte nei confronti del marito: *"Diciamo che io e mio marito non andavamo d'accordo per il fatto che lui aveva delle relazioni con altre donne. E quindi litigavamo e lui mi insultava dicendo che ero "una lava cessi ", ero una poco... ero una puttana... a un certo punto io ho trovato un messaggio sul suo telefono il 9 settembre del 2012.. eravamo a casa, e lui era mollo nervoso quel giorno, quindi andava su e giù con questo telefono e io volevo sapere chi lo telefonava. E a un certo punto questo messaggio gli è arrivato. Io volevo sapere chi era, perché sono andata a visionare sul suo telefono, ecco, la verità. Sono andata a vedere, c 'era scritto: "Amore, hai la febbre o mi nascondi qualcosa? E volevo sapere da lui chi era. E lui mi ha detto che era solo un 'amica, che giustamente gli aveva detto che era... diceva "amore" al cane, a tutti. Un'amica comune, così. Ma io purtroppo non ero contenta di quello che lui mi diceva. E allora che ho fatto? Gli ho chiesto ancora chi era, chi era... ho insistito, ma lui mi diceva: "Devi fare solo la colf, ormai non sei più mia moglie" e tutte queste cose qui. Ma brutte proprio. Sei una puttana, lava cessi...E a un certo punto diciamo che lui si lavava i denti nel bagno, perché era arrivata già sera quando tutte queste litigate che ci siamo fatte furibonde, si lavava i denti nel bagno e io gli ho detto con lui: "Se è vero questo che mi dici, io gli tiro i capelli a te e a lei ". Lui ha lasciato lo spazzolino, mi ha raggiunto nella camera da letto e mi ha presa a calci. Mi ha preso per il collo. E vicino all'armadio mi dava calci, lo chiedevo aiuto, aiuto... Sì, mi ha picchiato. E' proprio quel giorno che mi ha picchiata. Mi ha picchiala prendendomi a calci e prendendomi per il collo. Voleva che andavo via. Allora lui ha continuato nel tempo a disturbarmi., poi sono intervenuti i Carabinieri su questo episodio qui. Sono venuti i Carabinieri a casa, perché io ho chiamato aiuto e mia figlia - questo l'ho saputo dopo - aveva chiamato i Carabinieri. I Carabinieri sono intervenuti e sono venuti a casa. E hanno detto che uno di noi due doveva andare via di lì. perché non potevamo stare sotto lo stesso tetto, vista la situazione. E allora lui ha detto che andava lui. Però non si muoveva mai ad andare. Poi iniziava sempre a sputarmi. E quando i Carabinieri giustamente si allontanavano, non davanti a loro. Lo faceva quando non c 'erano.*

Vado ad abitare giù da mia figlia, ma poi lui ritorna i giorni successivi. I giorni successivi a questo. E quindi mi dà ancora da tribolare gli altri giorni. No. non porto via niente (ndr effetti personali) perché poi lui i giorni successivi, il 15 settembre 2012 chiude la porta ... insieme al suo amico C Gl è venuto a chiudere la porta, è una porta a cilindretto, non potevo più aprire. Quindi ho chiamato i Carabinieri per aprire la porta, ho avuto bisogno dei Carabinieri per aprire Ho preso lo stretto necessario ".

Quanto ai giorni successivi e alle difficoltà nel raggiungere il proprio posto di lavoro: *"Ha continuato ancora a venire anche sul posto di lavoro, perché mi aveva tolto anche le macchine... tutte e due e io ho chiesto all'A. di accompagnarmi. Quindi praticamente l'A mi ha accompagnava, ma lui è andato a minacciare anche questa signora. Quindi mia sorella mi ha chiamata e mi ha detto che non poteva più venirmi a prendere perche lui aveva minacciato i volontari. Quindi i volontari non volevano più venire. Le chiavi della macchina ce le aveva lui*

Quanto alle visite del prevenuto presso la casa di abitazione della figlia, ubicata al secondo piano dell'immobile dove viveva la coppia: *7/ 28.9.2014 e ' venuto a cercarmi a casa di mia figlia e quindi praticamente voleva che io parlassi con lui. Ma invece non voleva parlare, perché (piando siamo arrivati sopra cominciava daccapo a fare casino. Cioè, mi ha preso per il braccio a strattonarmi, a prendere... di nuovo: "Cogliona, sei una puttana, lava cessi"... io ho voluto parlare con lui con la porta aperta, perché non mi fidavo più ".*

La teste ha precisato come in quella come in altre occasione l'imputato avesse tenuto un comportamento aggressivo ed offensivo, con violenze verbali e fisiche : *"il 28 settembre mi tirava, mi trascinava, perché ero sul pianerottolo, per tornare in casa. Perché purtroppo lui mi diceva che: "Tu ormai non vali niente, vali una merda ", quindi tutte 'ste parole qui ".*

La p.o. ha ricordato come il prevenuto l'avesse trascinata per un braccio per costringerla a far rientro nella casa di abitazione coniugale; riuscì a liberarsi e rimase presso la figlia.

Nel marzo 2014 si ripeterono analoghi comportamenti: *"il 14 marco del 2014 è successo che io ero tornata da lavoro, che mi accompagnava il mio testimone di nozze. che è anche il suo testimone di nozze, il signor C quindi eravamo appena tornati, perché uscivo alle 9 e mezza da*

lavoro, erano le 10... C mi veniva a prendere in auto perché io non avevo ancora la macchina, non ce l'avevo e poi anche il motivo perché lui mi spaventava. Veniva ad aspettarmi sul lavoro. Quindi era stato visto, l'avevo visto io stessa. Quindi era sempre lì. Era una cosa costante che mi dava proprio fastidio e non potevo fare... l'avevo chiesto io (a C) Non potevo fare sempre denuncia. Non potevo andare sempre dai Carabinieri, .avevo proprio paura.

Quindi quella sera ho sentito battere questa persiana, ci siamo affacciati, ed era lui. Era lui...Eravamo già in casa. Quindi ci siamo affacciati, era lui che chiamava C che si era... era nel cortile con la macchina, quindi voleva che la spostasse. Ma non era proprio veramente sulla parte del garage suo, era appoggiato un po ' sulla parte sua. Diciamo che i garage sono uno accostato all'altro. E gli intimava di andare via con questa macchina. Ma poi come appena mi ha visto ha cominciato a dirmi che... di nuovo... perché io gli ho detto: "Invece di far casino cerchiamo di ragionare per una volta e mettiamo le cose a posto, diciamo, non facciamo casino ad andare dai giudici". E lui mi ha dello: "No. niente da fare, non voglio sapere niente perché intanto sei una puttana, suga... suga ". Sempre le solite parole che mi viene anche vergogna a ripeterle. Quindi mi ha cominciato... ha preso la sua macchina ed è partito. E ' partito così forte che quasi mi metteva sotto. Io l'ho proprio evitalo, mettendo... poggiando la mano sul cofano dalla parte... facendo piano, piano. Diciamo, non so come ho fatto a evitare. Non mi ricordo nemmeno come ho fatto io ad evitare questa sua... però era cosi violento, così... cioè non io so, non si poteva parlare per niente. Sempre "suga, suga", te la sei presa nei culo". Cioè non... una persona così assolutamente, signor Giudice. Noi ci eravamo conosciuti...Posso dirla questa cosa qui? Ceravamo conosciuti perché mio marito era morto, mio padre era appena morto e io dovevo prendere dei soldi per una... diciamo in ospedale, mala sanità. Quindi lui mi ha detto che mi aiutava. Abbiamo preso questi soldi. Poi è diventato mio marito, perché giustamente ci siamo innamorati, lo ho credulo in lui. Si è mangiato questi soldi e boh. E da questo poi è finita tutta questa cosa, che non si è capito più niente. Io mi sono presa questa bella depressione, esaurimento nervoso

La teste ha precisato come in quella occasione riuscì a evitare di essere investita dal marito; si recò in ogni caso al pronto soccorso perché spaventata: *"Ero io e mia figlia, perché poi il signor C si era messo in macchina e andava per conto suo. E ci ha seguiti con questa macchina e mia figlia si è accorta che c'era lui dietro di noi e ha chiamato al signor C E quindi abbiamo fatto tutti questi giri, giri, che non si è capito niente... il signor C è venuto lui poi, che voleva farlo ragionare. Quindi a un certo punto di tutti questi giri che abbiamo fatto da M Bi , torna indietro a Ti sulla strada di T(non arrivare proprio... perché erano sulle rotonde che ci si girava, e alla fine cioè questi giri, giri, siamo riusciti dopo un po ' ad andare al pronto soccorso*

Quanto al periodo successivo sino a fine marzo 2014: *"Continuava a venire sul lavoro, ma continuava anche a telefonarmi. Continuava a telefonarmi, a mandarmi... faceva un po "... mi minacciava un po ' con le lettere, con parole dolci. Era tutto strano..".*

La teste ha riconosciuto i messaggi che consegnò ai Carabinieri: *' *Io, signor Giudice, non lo capivo qua che cosa voleva dire. Un po' faceva finta che si pentiva, un po' faceva finta... sinceramente non l'ho capito mai questo uomo. ..Lui mi ha minacciata, di ammazzarmi come quella di Garlasco. Mi faceva fare la stessa fine, mi ha detto. Questa in un 'occasione, in più occasioni, me l "ha detto nell'occasione proprio quando abbiamo litigato a settembre 2012 è stato il 9 di settembre...La prima che abbiamo affrontato*

La teste ha confermato come, in quella occasione, il prevenuto la minacciò di *"spararle senza pietà",* anche in presenza dei suoi amici Carabinieri: " *Li chiamavo spesso, perché ogni cosa che dovevo fare, dovevo per forza chiamare loro, altrimenti lui non mi faceva assolutamente accedere a niente. Tant'è che anche con i Carabinieri lui si è rivolto molto male ".*

La p.o. ha riferito che, dal marzo2014, l'imputato si è trasferito a vivere a Milano per cui non vi sono stati ulteriori comportamenti aggressivi; in ogni caso ha raccontato di uscire sempre accompagnata e di essere rimasta a vivere presso la propria figlia: *"Prima lui abitava di sopra. Lui l'abitazione ce l'ha li, però fisicamente diciamo che viene, c 'è. non c'è... quindi il problema quello è: che viene di notte. E' uno strano personaggio. Prima del 9 settembre del 2012 era permanentemente in casa...Poi faceva che tornava-veniva, tornava-veniva-tornava... però comunque torna, perché il suo appartamento è lì. Quando*

10. *lo trovavo in giro... era il mio lavoro il pomeriggio, perché io lavoro di pomeriggio... (quanto all ' orario di lavoro del marito) io penso che fosse terminato, perché i suoi orari non è che li so. Non so i suoi orari, lo ho convissuto per dieci anni e poi ho sposato lui per quattro. Però era una persona stranissima. Mi diceva che faceva le notti quando non le faceva. Mi diceva... perché non mi dovevo interessare. Era un personaggio quasi un padre padrone ".*

A domanda del Difensore della Parte civile la teste ha confermato di essersi recata presso

11. Pronto soccorso per l'episodio del 9 settembre (andò il giorno successivo) e di aver avuto alcuni giorni di malattia; ha ricordato che il prevenuto minacciò il personale dell' , e la sera del 14 marzo si appostò, indossando la divisa della GdF, presso la abitazione: " *ha minacciato 1 l'abbiamo trovato in divisa vicino a casa, perché aspettava quella) invece siamo tornati con il mio consuocero Di Si R Perché mia sorella mi aveva avvisato che minacciando quella dell non potevano più venire a prendermi, perché lui aveva detto che questa qui faceva del peculato e quindi praticamente non poteva più venire a prendermi ".*

Ha confermato di aver ricevuto plurime telefonate senza risposta nel periodo in contestazione; quanto ai messaggi: *Un'altra mia amica (N) ha ricevuto un messaggio uguale al mio: "Cavallina, cavallina zoppa". Ricordo solo l'inizio del messaggio, non ricordo tutto. Altrimenti impazzirei perché per quasi un anno o due li avevo tutti memorizzati, poi sono finita dal medico. ...Ha pensato anche lei, perché lui le ripeteva queste cose. Aveva un vizio proprio ".*

A domanda del Difensore dell'imputato ha dichiarato di non essersi recata la sera stessa del 9 settembre presso il pronto soccorso dopo l'intervento dei Carabinieri poiché troppo spaventata, per cui dormì presso la figlia e si fece visitare il giorno successivo; ha confermato che l'imputato tentò di strangolarla e la colpì con calci.

Il Difensore ha evidenziato la prognosi riportata dal referto medico *"dolore di modesta entità all'arto superiore sinistro"* in cui non vengono menzionati lividi e prodotto busta paga a dimostrazione della regolarità dei contributi mensili al mantenimento.

La teste G<*R R* ha dichiarato quanto segue: "G *R era il*

marito di mia mamma. Loro inizialmente andavano d'accordo, poi lui ha iniziato ad avere delle storie extraconiugali e noi l'abbiamo scoperto

perché poi abbiamo messo l investigatore, perché mamma se n 'era accorta di questa cosa che non andava, ecco. E allora... hanno inizialo a litigare, hanno avuto dei litigi. E il litigio più pesante è stato quello del 9 settembre, dove lui le ha alzalo le mani addosso. ..quella sera eravamo a casa con mio marito D S > D .Io abito praticamente proprio sotto casa loro ecco. Quella sera eravamo a casa, loro avevano già diciamo dei litigi già dal mattino... però... i litigi ci possono stare. La sera hanno inizialo a litigare pesantemente ...noi abbiamo sentito un frastuono, un correre, un casotto che comunque non era normale, . Fino a che abbiamo sentito mia mamma dire: "Aiuto! Aiuto! Aiuto! ", Allora, io la prima cosa che ho fatto, istintivamente sono... sono salita sopra e ho provato ad aprire la porta. Ho suonato e ho provato ad aprire la porla. Lui ha dato un 'altra mandata, perché la porta era già chiusa, però ha dato un altra mandata, e nello stesso tempo ha detto: "Se è quella puttana di tua figlia o quel bastardo di tuo genero, io li spacco come dei maiali". A! che poi io ho sentito queste parole, poi la cosa veniva pesante e io ho chiamato i Carabinieri. Ho chiamato i Carabinieri. I Carabinieri adesso di preciso non so quando sono arrivati, però sono venuti su. Hanno bussato anche loro alla porta, luì non ha aperto nuovamente e dopo un po' i Carabinieri hanno detto: "Guarda, apri perché siamo i Carabinieri". E hanno aperto. Lui è rimasto sbalordito da questa cosa qua, perché non si aspettava che arrivassero i Carabinieri. E siccome noi eravamo insieme ai Carabinieri, siamo saliti su anche io e mio marito. Lui molto tranquillamente ha detto: "No, guarda, è una classica lite che si ha tra coniugi". Però siccome poi mia mamma ha... diciamo, gli ha detto che le aveva alzato le mani, l'aveva presa per il collo e quant'altro... Sì, sì, gliel'ha dello davanti ai Carabinieri. E così... gli ha detto: "Guarda, la situazione non può andare avanti, uno dei due deve abbandonare ! 'abitazione per il momento". Lui inizialmente si è offerto lui: "Sì, sì, vado via io... vado via io". E i Carabinieri, mentre scendevano nel frattempo gli hanno detto in disparte: "Guarda, ci tratteniamo sotto, vediamo come va". Siamo andati giù, ci siamo fermati con i Carabinieri. Subito dopo hanno inizialo di nuovo a litigare, ha incominciato ad ingiuriarla: "Sei una puttana, sei una troia, bastarda, maledetta, te la farò pagare... invece di fare queste scenate pensa a lucidare la corona di corna che hai. devi fare solo la colf... a le non ti interessa quello che faccio io con le altre donne... tu devi solamente pensare a lavare i cessi" e quant'altro. Così i Carabinieri sono risaliti sopra e hanno detto: "Guarda, basta, o uno o l'altro deve andare via subito ". E lui subito prontamente, dopo dieci minuti, ha preso le sue cose. I Carabinieri sono andati... e luì ha preso le sue cose ed è andato via. Ma mentre scendeva dalle scale, sull'uscio della porta gli ha detto: "Se quando torno ti trovo qua, io li sparo, anche davanti ai tuoi amici Carabinieri, tanto loro non capiscono un cazzo". Quindi... poi, lui è andato via e mia mamma... io non mi sentivo tranquilla a lasciarla dormire là, quindi è venuta a dormire a casa mia. "

Quanto alla frequenza delle minacce rivolte dal prevenuto alla p.o.*'"queste minacce da parte del G a mia mamma sono state fatte varie volte. E lui ha anche alzalo le mani su di me. Però mia mamma giustamente era molto presa da questo rapporto che comunque diceva: "lascia stare", queste cose... io l'avrei denunciato molto tempo prima*

Quanto agli episodi successivi: " *Poi abbiamo chiamato varie volte i Carabinieri, perché lui veniva a casa, veniva a fare casino, veniva a bussarmi la porta che voleva parlare con mia mamma. Io gli dicevo: "Va bene, vuoi parlare con mia mamma, vieni in casa mia". E lui: "No, devo parlare in casa mia". Allora gli dicevo: "Ok". Siccome non mi fidavo dei suoi comportamenti, gli dicevo: "Va bene, vuoi parlare? Giustamente io non posso vietartelo, andate sopra e parlate ma con toni civili ma porta aperta". La cosa si ripeteva. E poi lui tentava di alzargli le mani, lei iniziava a gridare e io correvo comunque sopra a difenderla. Non è che gli facevo alzare di nuovo le mani, insomma ".*

La teste ha confermato la assiduità delle aggressioni verbali: " *Lui, tutte le volle che veniva, anche se veniva la sera... infatti i Carabinieri una sera sono stati chiamati perché lui è venuto giù a mezzanotte e portava le robe di mia mamma giù. Insomma, con tutto questo fracasso che faceva e con gli insulti che le dava, sempre le solite: lava cessi, puttana, troia... tutte queste cose, noi abbiamo chiamato i Carabinieri. Infatti i Carabinieri che sono intervenuti non ricordo se sono di , , gli hanno detto non è*
orario da portare le robe giù, insomma

Ha ricordato che l'imputato non consentì alla p.o. di ritirare i propri effetti personali: *"Non l'ha fatta andare lui., infatti una volta abbiamo chiamato i Carabinieri anche per questo, perché volevamo andare a prendere gli effetti personali di mia mamma, e lui non li ha fatti entrare*

Quanto al periodo successivo: *"noi non abbiamo fatto più picchiare mia mamma in nessun modo, però lui la sua presenza ce l'ha fatta sempre notare. Anche quando andava a lavoro, io costantemente o l'accompagnavo, l'andavo a prendere, dipende anche dagli impegni, ma tutte le volte, varie volte mi fermavo lì perché lui era sempre lì. Cioè si fermava sempre nei dintorni di , e se io non c ero andava verso di lei. Se invece io c 'ero, sì, mi vedeva, slava un po ' lì. diceva quattro parole:Andavo io (a prendere la mamma a! lavoro), se non riuscivo ad andare io, andava o mio marito se c 'era o miei suoceri o C Ai , Insomma, giravamo. Perché all'inizio noi avevamo chiesto di fare questo servizio e l ce l'ha fatto per un po ' di tempo e poi dopo la*
signora M ha chiamato mia zia dicendole che non poteva più fare questo servizio, perché le era arrivata una telefonata, dove il G le diceva che non doveva portare mia mamma a lavorare perché faceva de! peculato e portava le puttane a spasso. E quindi quel pomeriggio lì la signora M ha chiamato mia zia. Noi siamo andati dalla signora, perché per telefono non riuscivamo a capire. E allora praticamente, sì, ci ha detto: "Guarda, ho ricevuto questa telefonata e non posso più andarla a prendere ", Allora la sera sono andati a prenderla mio suocero con mia suocera. E quella sera lì io stavo andando per l'orario circa che tornava da lavoro nei pressi di casa, quindi potevano essere le IO meno un quarto, più o meno, e io andavo verso mia zia. perché comunque a mia mamma non... gliel 'avevamo detto in grandi linee però voleva capire bene la situazione come era andata, e quindi andavo verso... verso casa di mia zia e aspettavo lei. E io ho trovato lui, vestito in divisa, dietro una roulotte vicino casa. Quindi comunque la sua presenza minacciosa c 'è sempre

La teste ha descritto il clima di timore in cui viveva la madre, la presenza dell'amico C per proteggerla al rientro presso la abitazione dopo il lavoro.

Ha descritto l'episodio del marzo 2014: *'"tornava da lavoro mia mamma con C*
A e poi A si è fermato a fare una chiacchiera con noi. Verso le 11 - 11 e mezza circa abbiamo sentito bussare la tapparella e mia mamma si è andata ad affacciare e ha visto che era lui. E lui con toni mollo aggressivi le ha detto: "Digli a quell'orso caprone, testa... ", una roba del genere, "di spostare la macchina", perché a suo dire era davanti il suo garage. Allora noi siamo andati fuori. A. nel frattempo,
C , stava per andare a spostare la macchina, lui ha incomincialo a insultare mia mamma: "Tu hai capito o no che sei una grande puttana? ".

Insomma, tutte le solite cose. E A gli ha detto: ma cerchiamo di parlare... di ragionare. Cioè, ho messo la macchina lì, tu dici che è davanti il tuo garage... scusa, la sposto e bon ". Ha spostato la macchina e poi niente... lui litigavano con mia mamma per il fatto che mia mamma gii ha detto: "Al posto di pensare alla macchina di C perché non... non mi dai la macchina che c'è nel garage?". Insomma, litigavano così. Lui non le ha risposto, l'ha solo insultala, dicendo: "Suca, suca... tu te la devi prendere ne! culo, te la farò pagare ". E ne! frattempo è arrivato anche l'A nel frattempo. Poi lui, come è arrivato il C , si è messo in macchina e ha messo la marcia, mia mamma era davanti, si trovava davanti che doveva attraversare il cortile per venire verso di noi... verso casa, e gli ha tentalo di investirla. Mia mamma prontamente l'ha schivata la macchina, però comunque ha battuto la gamba. Poi lei si è fatta prendere dall'agitazione, si è spaventata e tutto. Lui era andato via. E poi C è stato un po' ed è andato via anche lui ed io ho pensato di portarla al pronto soccorso. Nel frattempo che la portavo al pronto soccorso, siamo arrivati alla rotonda di e ho visto che lui mi inseguiva.

Allora io per capire se mi seguiva o meno ho continuato a fare la rotonda due volte e sono andata verso mezzana. Lui mi seguiva ancora. Io, spaventala, ho chiamato C e gli ho detto: "Potresti venire perché ci sta seguendo ". Lui è venuto subito. E come ho visto che c "era anche lui al bivio di. sono tornata indietro verso e sono andata verso direzione di T Subito il ponte C ha superato sia me che la sua macchina e praticamente si è fermato in mezzo alla rotonda subito dopo il ponte. Con la speranza di farlo rallentare, di fermarlo, di farlo ragionare insomma. Io mi sono fermala. lui alla rotonda ha imboccato la rotonda contromano, l'ha svolta tutta, è tornalo indietro e se n 'è andato. Poi noi siamo spostati, ci siamo fermati un attimo a parlare lì. vedere se lui tornava. Non è più tornato. Ed io gli ho chiesto se per favore ci poteva accompagnare al pronto soccorso. Così siamo andati a casa, ho lasciato la mia macchina e siamo salite su quella di C

La teste ha concluso ricordando come le offese fossero ricorrenti e confermato che dopo il marzo 2014 non vi furono più aggressioni fisiche o verbali né incontri.

A domanda del Difensore della Parte civile ha confermato come il prevenuto si recasse, in quel periodo dopo il trasferimento della madre presso di lei, nell'appartamento in cui era rimasto a vivere, ubicato sopra il loro, insieme a varie donne simulando o amplificando incontri amorosi; ha ricordato che un giorno l'imputato, dopo aver fatto molto trambusto nel proprio appartamento, portò i beni che erano nella casa *"davanti alle scale, buttava le cose nel garage. E prendeva i suoi indumenti e li buttava dentro i bidoni della spazzatura. Però era molto rumorosa questa cosa, perché poi sbatteva, diceva. Nel frattempo lo faceva... blaterava ingiurie varie fino a che comunque noi abbiamo visto. E infatti una sera abbiamo chiamato, appunto, i Carabinieri perché comunque le portava le cose la notte a mezzanotte. Cosa che comunque a mezzanotte una persona, se deve portare le... le robe di un 'altra persona a casa o comunque fuori, le fa nel pomeriggio, la mattina, non la notte. "*

Il teste *D D* _*S* ¡ cognato della p.o. ha dichiarato quanto segue in relazione all'episodio del 9 settembre: *Allora, noi eravamo... noi abitando al piano terra, loro abitavano al primo piano, abbiamo sentito... erano le 10 e un quarto la sera, abbiamo sentito mia suocera che urlava, chiedeva aiuto. Quindi noi siamo saliti, perché sono comunicanti gli appartamenti. E abbiamo sentito questa... chiedere aiuto. E mia moglie subito si è allarmata, siamo saliti su che cosa era successo... per vedere se apriva la porta e tutto. Non ci hanno aperti. Quindi mia moglie... siamo scesi giù a chiamare subito i Carabinieri. E nel frattempo che diciamo mia moglie è scesa a chiamare i Carabinieri.*

10. sono rimasto su per farmi aprire la porta e c 'era lui che ripeteva determinate parole. Ha detto che: "Se era quella troia di tua figlia", riferito a mia moglie, "e tuo genero... "

11. avrebbe squartati come dei maiali. Poi dopo circa venti minuti sono arrivati i Carabinieri, siamo saliti su. In un primo tentativo pensava che eravamo ancora noi e non ha aperto. E poi dopo, alla richiesta dei Carabinieri, hanno aperto. Sono entrati dentro i Carabinieri. Quindi lui ha spiegato ai Carabinieri che era una semplice lite tra marito e moglie e tutto. E poi dopo sono scesi giù, diciamo, i Carabinieri. Dopo un po' incominciano ancora... comunque i Carabinieri gli avevano detto che se continuavano ad alzare i toni, visto l'orario e visto il tutto, comunque uno dei due doveva lasciare la casa. Nel frattempo sono scesi giù i due Carabinieri e poi dopo si sente ancora urlare. Quindi risalgono so e i Carabinieri dice: "Allora, che dobbiamo fare?". E quindi lui dice: "Dieci minuti e me ne vado ", / Carabinieri sono andati giù ad aspettare che lui andava via e tutto. E nell'uscire le ha detto a mia suocera... le ha detto: "Se quando torno ti trovo di nuovo qui, cioè, non fai una bella fine, giustamente. Ti ammazzo davanti agli amici...". Lui li chiamava "i suoi amici Carabinieri". Perché giustamente da quando hanno incominciato i litigi e tutto, mia suocera giustamente si rivolgeva spesso a loro Il teste A Si in servizio presso il Comando provinciale dei Carabinieri di A Ita dichiarato quanto segue: *"Sì, io sono intervenuto in due occasioni. Era il*

mese di settembre... mi sembra il 15 di settembre che sono intervenuto. E siamo intervenuti su richiesta della signora, che doveva recuperare i suoi effetti personali rimasti nell'abitazione che, credo, aveva lasciato. E quando siamo arrivati lì. all'esterno dell'abitazione, sulla porta abbiamo trovato dei post-it adesivi attaccati alla porta, proprio tra il portoncino e lo stipite della porta. La signora ha aperto la porta e abbiamo trovato dentro casa... c 'erano indumenti ed effetti personali della signora e della figlia sparsi in casa, ovunque. E il primo intervento è stato quello. Poi il secondo intervento a distanza di pochissimi giorni. Non mi ricordo esattamente la data, ci aveva sempre richiesto la signora che aveva contattato direttamente la stazione. Eravamo stati mandati li dal comandante di stazione perché la signora doveva finire di recuperare i propri effetti personali e, sapendo che ci sarebbe stata anche la presenza del marito, temeva diciamo per la sua incolumità fisica. Quando siamo arrivati lì abbiamo trovato la signora che aveva un diverbio verbale con il marito. La signora che ha rivolto... adesso non mi ricordo, comunque degli epiteti nei confronti del marito. L'abbiamo tranquillizzata per non far degenerare la situazione. Poi il marito della signora ci ha richiesto un verbale, ma noi gli abbiamo detto che non rilasciavamo alcun verbale, avremmo prodotto poi il verbale. Poi il marito della signora ci aveva fatto notare che era la terza o quarta volta che intervenivamo lì. E noi gli abbiamo fatto notare che è nostro obbligo, se ci chiama il cittadino, intervenire li. lì signore ha detto che si sarebbe rivolto al nostro comando provinciale perché intervenivamo sempre lì. Poi ci chiese mi sembra se avevamo un mandato per entrare a casa sua. Gli abbiamo detto che non avevamo bisogno di nessun mandato, perché la signora ci aveva fatto entrare in casa, quindi, voglio dire, non c'era bisogno di nessun mandato per entrare in casa. E poi ci fece notare che la volta precedente gli erano spariti 50.000 euro, a suo dire, di casa durante il nostro primo intervento, lo gli chiesi delucidazioni, perché dissi: "E' una cosa grave il fatto che gli siano spariti 50.000 euro". E lui mi disse: "No. no... ", non mi ricordo cosa mi rispose poi esattamente: "Non c 'è problema, non c 'è problema ". Niente, la signora recuperò i suoi effetti personali e noi poi terminammo diciamo

l'intervento ".

Il teste della Pubblica Accusa AZ _/ , in servizio presso la Caserma di I

ha dichiarato quanto segue in relazione alla annotazione di servizio redatta in data 10.10.2012: *"Allora. quella mattina la signora Mi ci aveva interpellato perché volevo sostituire le chiavi dell'abitazione dove abitava con il marito, abitazione che era di proprietà ed è di proprietà del marito. La signora mi diceva che da quando aveva lasciato quell'abitazione, perché aveva fatto denuncia ed era stata picchiata dal marito, si era spostata presso l'abitazione della figlia sotto, questa abitazione è al secondo piano la figlia invece al primo, però si era accorta già da! mese di settembre che non era più possibile entrare nella sua abitazione. La signora mi diceva che aveva concordalo con il falegname la possibilità di cambiare il nottolino per poter accedere all'interno dell'abitazione. Chiedeva il nostro intervento. La signora mi diceva che aveva picchialo e, in presenza mia quella mattina, aveva effettuato due chiamale al marito prima ancora di iniziare i lavori, aveva chiamato due volte il marito, aveva lasciato un messaggio senza risposta. Alle 10:00 sono iniziate le operazioni di apertura di questo nottolino con il falegname, dopo 50 minuti circa o un'oretta circa è arrivato il marito con il figlio, il signor C R In questo contesto naturalmente il mar ilo si è arrabbiato perché a suo dire lei aveva tutto il tempo per poter accedere all'abitazione per poter portare via i propri indumenti, i propri effetti personali e che non lo aveva fatto. Di fatto si faceva capire al marito che fin quando non era giunto nulla di sentenza, la signora poteva accedere tranquillamente a casa sua, benché lui sosteneva ancora una volta che la casa era sua di proprietà. Ci diceva che noi non avevamo alcun tipo di autorità ad effettuare quello che stavamo facendo e quant'altro ".*

Quanto al possesso delle chiavi: *"A riguardo ci sono incongruenze che poi è stata contestata immediatamente, nel senso il signor G diceva che la signora aveva le chiavi, mentre con lui c'era il signor C R che diceva "Le chiavi gli sono state date ma lei le ha rifiutate ", quindi c'era da capire se effettivamente queste chiavi qui ce l'aveva oppure le aveva rifiutate. Sta di fatto che c'era questa incongruenza. C R sì era il figlio di C E che materialmente in precedenza aveva cambiato la serratura, che l'ho appurato non lo posso dire. In questo contesto qui in cui il signor G si rifiutava a far proseguire il falegname, la signora M D chiama un legale, amico di famiglia di entrambi, per far capire ai marito che quello che stava vedendo era qualcosa di lecito. Nel frattempo che c'è questo dialogo telefonico tra la signora M e l'avvocato, ancora una volta parliamo con il signor G per far capire che comunque era una situazione che era lecita, che comunque*
era possibile che la signora potesse ritornare ad entrare in quella abitazione, in questo contesto mi dice ancora una volta che per effettuare questo dovevo avere un provvedimento del giudice per poter aprire questa volta. Finita la conversazione.
perlomeno nel frangente in cui si completa la telefonata della signora M. con /'Avvocato amico di famiglia, in effetti questo avvocato vuole parlare con il signor G Dialogano a! telefono, probabilmente adesso non so il dialogo però si
percepiva che probabilmente l'avvocato diceva che era lecito quello che stava avvenendo, nel senso che la signora non aveva nessun motivo a non poter entrare nuovamente in quella abitazione. Comunque si percepisce che la situazione possa andare avanti, possa proseguire nell'attività di apertura di questa porta. La signora mi dice che lutto quando è nato perché avevano litigato, perché il signor Rt aveva un'altra donna, e siccome il signor C negava in questa situazione, era nato il precedente litigio che poi aveva generato diciamo tutta la vicenda in cui la signora è andata via di casa. Succede che poi il signor G ci chiede di parlare in modo riservato con noi. Ci appartiamo, scendiamo giù, anche perché lì c'era il falegname, c era la signora, scendiamo al piano terra a dialogare con il signor G Non era in divisa.
G racconta, lui non ha escluso che probabilmente le abbia alzato le mani in precedenza, che poi ha scaturito le varie denunce, ma di fatto lui dice "Io sono stato provocato perché mia moglie sosteneva in continuazione che io avessi un'altra, ma non ce l'avevo, poi da questo alterco sono andati sicuramente alle mani ", però ripeto, questo in base poi al certificato medico che poi è stato prodotto a suo tempo con la denuncia. Sì, siamo andati poi in garage e in cantina, dove in garage la serratura era stata tolta, non esisteva. Mentre in cantina, il signor G poi ha confermato, aveva posto un lucchetto per far sì che nessuno potesse accedere in quel locale. Altro particolare che emergeva, che mi ha lasciato un pochino lì titubante, nel senso che nel dialogo che era sorto in questo contesto, il signor G diceva che lui aveva messo, aveva cambiato la serratura perché nella sua abitazione erano stati portati via determinati i soldi, tanti soldi. Allora io mi sono posto la domanda e ho analizzalo, ma se nessun furto era avvenuto in quella casa, la casa non aveva subito effrazioni, l'unica persona che poteva accedere a quell'abitazione era la moglie, se ti rimangono dei soldi che motivo hai a dare un'altra volta la chiave all'ex moglie per far sì che lei possa nuovamente rientrare in casa? ".

Il teste ha confermato l'acquisizione dei messaggi in sede di presentazione di una delle varie denunce/querele da parte della p.o.

A domanda della Difesa dell'imputato il teste ha dichiarato che, in occasione di questo intervento cui partecipò, non riscontrò lividi visibili sulla p.o. e confermato che l'imputato disse: *"La signora ha alzato le mani e io mi sono dovuto difendere ".*

Nelle s.i.t. acquisite nell'accordo delle parti il teste *A, C* in data 14.3.2014

Nelle sommarie informazioni C confermò l'episodio già narrato avvenuto il 5 marzo, il tentativo di investimento posto in essere dal prevenuto nei confronti della moglie, la necessità di scortare la donna e la figlia al pronto soccorso dopo aver eluso l'inseguimento in atto da parte dell'imputato.

Il teste della Difesa di PC, *R _S* , suocero della p.o. ha confermato di aver accompagnato più volte la donna anche la sera nel rientro dal lavoro da quando il coniuge - che è un suo intimo amico da quanto prestavano servizio insieme - iniziò a tenere i comportamenti aggressivi: *'"Quando spesso... una ultima volta che lo vidi, l aspettava lei in divisa, lui era in divisa, vestito da finanziere e l'aspettava. Poi vedendo me, sono sceso io dalla macchina, lui si è allontanato. La teste della Difesa della Pc, *N D.* , amica della p.o. ha confermato di aver ricevuto messaggi da parte del prevenuto quali : *"Cavallina, cavallina zoppa"* e di aver ricevuto messaggi offensivi che corrispondevano come testo a quelli ricevuti nel medesimo tempo da D M

La teste della difesa della Pc *M /? G* , Presidente dell'$_t$ all'epoca dei

Mi hanno detto di sì e abbiamo iniziato il servizio.. .G non si è presentato, mi ha soltanto detto che praticamente io facevo del peculato perché non portavo la signora a lavorare, la portavo a fare qualcos'altro, diciamo la prostituta. E io stavo facendo del peculato quando non era vero. E mi ha minacciato e ha minacciato anche i volontari che la portavano, lo sono andata prima dal maresciallo, poi sono andata a casa della sorella, perché io conoscevo la sorella Della signora M< ho detto che a quel punto non potevo più fare il servizio perché veniva minacciato anche i volontari. Che lui aveva telefonato anche a casa dei volontari che facevano il servizio ".*

La teste della difesa della Pc, /li *M*, medico di base, ha confermato il certificato di malattia, rilasciato al proprio rientro in relazione alla visita alla p.o. eseguita dal dott.Sl in qualità di suo sostituto; *"Quando sono rientrata ho fatto un certificato di malattia per la signora prima di 9 giorni e poi successivamente di 7, per un totale quindi di 16. La motivazione che ho scritto lì, perché io non mi ricordo, perché poi non avendola vista negli anni io non mi ricordavo più della signora. La motivazione che ho scritto nel certificato inserito in computer è: "Dolori emitorace sinistro e braccio ",*

"non ricordo, ho visto la cartella clinica, sì, è stata... è stata vista dopo che era stata al pronto soccorso e avevo confermato i quattro giorni, mi sembra, di malattia che era stata data, il referto mi sembra che parlasse di contusione emitorace sinistro e braccio sinistro. "

Il teste della Difesa dell'imputato *R C* ha dichiarato quanto segue: *"eravamo amici diciamo di famiglia e poi ho avuto piacere di conoscerli tutti e due con l'andare del tempo, essendo di che abitavano vicino ai miei genitori...,*

sono stato chiamato per sistemare la porta di entrata, che non si apriva, era bloccata per motivi di forza maggiore. E io, chiamandomi, sono andato ad intervenire e mettere a posto... c'era il signor G. ma anche la signora e lutto e... verbalmente si sono ripresi, il G è stato attaccato e ha risposto di suo anche. Con parole ha preso il signor G e... e lui di suo si è... si è difeso. Io non ho mai visto toccare la signora. Quando c 'ero io, mai; una sera G ha chiamalo che io ero a casa tranquillo, mi dice che aveva bisogno perché si sentiva seguito e tutto, lo stavano seguendo. Mi ha chiamato. E ero nel mio paese, sono sceso e mi ha detto se l'accompagnavo fino a casa sua a prendere della... dei documenti e del vestiario. E io l'ho accompagnato il signor G Sì, io i signori che lui mi aveva detto che lo stavano seguendo, li ho visti passare più volte lì dove eravamo fermi a parlare. E... li ho visti., c 'era la signora e c 'era il signore

Dalla lettura delle annotazioni di Pg acquisite nell'accordo delle parti emergono: l'intervento del 9.9,2012 richiesto ai Militari della compagnia dei Carabinieri di dalla figlia della p.o., allarmata per le grida di aiuto provenienti dall'appartamento occupato dalla madre e dall'imputato; gli operanti udirono le voci concitate provenire dall'interno; una volta entrati appresero da D M dell'aggressione operata dall'imputato, afferrandola al collo nel corso della lite mentre l'imputato sosteneva di aver avuto solo un alterco verbale; nell'occasione la p.o. fu invitata a recarsi al pronto soccorso qualora avvertisse dolori; poiché la donna proseguiva nel rimanere nella abitazione a discutere con l'imputato con toni animati i Militari fecero nuovamente rientro per sedare gli animi. La donna lasciò, quindi, l'appartamento per timore di ulteriori aggressioni e non prese i propri effetti personali poiché la camera da letto dei coniugi risultava chiusa a chiave;

L'intervento del 15.9.2012 per richiesta della p.o. al fine di rientrare nella abitazione per il ritiro degli effetti personali; i Militari appresero come la notte precedente la donna avesse sentito molto trambusto nell'appartamento, rumore di oggetti lanciati a terra e gemiti di piacere sessuale; aperta la porta fu riscontrata una situazione di assoluto disordine, moltissimi indumenti ed effetti personali della p.o. erano stati scagliati e abbandonati a terra in tutte le stanze mentre la porta della camera da letto era stata chiusa a chiave;

La presentazione al Comando della p.o. del 16.9.2012 quando la donna rappresentò l'ulteriore aggressione verbale da parte del prevenuto, rientrato a notte fonda in evidente stato di alterazione, il quale nella notte aveva messo a soqquadro e provocato gran rumore nel l'appartamento e fatto cambiare la serratura della porta di abitazione per impedirle l'accesso;

L'intervento del 19.9.2012 quando i Militari intervennero per richiesta della p.o., che temeva per la propria incolumità fisica essendo rientrata in casa per le operazioni di recupero degli effetti personali; quando i Militari arrivarono la donna stava dicendo all'imputato; "// *scopi tutte, sei un pezzo di merda e un bastardo'"* sputando contro l'imputato; questi chiese copia del verbale - nessun verbale era stato stilato in quel momento - e commentò: *"non capisco perché siete venuti, sarà la quarta volta che venite da me perché vi chiama quella. Collega sono un brigatista? Uno spacciatore? C" è traffico di denaro riciclato in questa casa? C'è dello stupefacente? Ci sono armi?..così è come lavorate voi noi non lavoriamo cosi..e comunque pure se vi chiamerò io dovrete venire. Perché poi come è successo viene la gente a denunciarvi e querelarvi da noi perché fate le omissioni ma comunque lasciamo perdere che è una altra storia... lasciamo perderete comunque maresciallo mi dica se io la dovessi chiamare in futuro come fa quella e lei non dovesse venire cos 'è? Mi risponda di che reato si tratterebbe? Omissioni di cosa? Di atti di....?ufficio! glielo dico io è oltraggio a pubblico ufficiale perché io sono un pubblico ufficiale. E comunque maresciallo le dico che l'altro giorno quando mia moglie vi ha chiamato e siete venuti sono sparili dei soldi in contanti, 50.000 euro ...io non sto insinuando niente per carità dico solo ce quel giorno che siete intervenuti mi sono scomparsi 50.000 euro... io mi sono stancato che quando quella vi chiama correte subito; ma non avete niente da fare con il crimine che c 'è in giro? Assurdo sembra che non avete niente da fare. Quella vi chiama e correte qua, qui ci vuole un mandato per entrare in casa mia lei ce l'ha il mandalo? Adesso mi rivolgerò al vostro comando provinciale perché non è possibile che quella vi chiama e voi venite, vado al vostro comando provinciale";* I Militari spiegarono le ragioni del proprio intervento e, visto l'atteggiamento provocatorio del soggetto, posero termine alla conversazione;

l'intervento deH'8.10.2012 per lite familiare in corso verso le ore 23.00 quando il prevenuto depositò davanti alla porta della abitazione ove viveva la p.o. molti suoi effetti personali ancora custoditi nella casa coniugale; nell'occasione l'imputato apparì in stato di calma agli

operanti, rivolgendosi loro con la parola *"colleghi",* presentandosi come Maresciallo capo della GdF, dichiarando: "io *sono sempre calmo, non voglio fare casini infatti non porto mai la pistola a casa, la lascio sempre in ufficio",* affermazione che parve fuori luogo ai Militari;

L'intervento del 10.10.2012 alle ore 9,40 quando la p.o. informò della sostituzione della serratura della abitazione a sua insaputa; la donna chiamò un falegname ed informò il marito; l'imputato raggiunse l'abitazione alle ore 10.50 accompagnato dal falegname R(C , figlio di V Ci , che aveva sostituito il nottolino; si adirò molto, impedendo la prosecuzione del lavoro; chiese motivazione delle ragioni per cui i Militari stessero forzando la porta e accusò la moglie di abbandono della casa coniugale; disse: *"ma devo farmi depredare l'appartamento?"* sostenendo che la donna non avesse più alcun diritto di accedervi, affermando che costei dispone, in ogni caso, delle chiavi di casa; chiamato da parte il Militare, l'imputato spiegò come dopo una animata discussione con la moglie per falsi convincimenti sulla sua infedeltà costei lo avesse aggredito, costringendolo a difendersi.

L'imputato, in sede di esame, ha dichiarato quanto segue in relazione ai fatti del 9.9.2012: *"abbiamo litigato..Il motivo era che lei aveva presupposto che avessi una presunta relazione, cosa non vera .Sì, erano arrivati dei messaggi, sì.- C'è stata una escalation di parole, ci siamo un po' offesi l'uno con l'altro, sono stati tirati in ballo anche morti che non c'entrano, per questo mi sono anche un po' alterato, ho alzato la voce, un po' lo ammetto. Ho visto che lei si è buttata con le mani, stava cercando di strozzarmi e io mi sono soltanto difeso. Poi successivamente ho chiesto alla signora che si era posta davanti alla porta dell'appartamento di farmi uscire, lei diceva che non mi voleva far uscire, io ho preso, l'ho spostata e me ne sono uscito. Perché quando sono nervoso io cerco di prendere aria, di ossigenarmi. - Sì, me ne sono andato via.- Io me ne sono andato via di casa. - Non lo so che cosa ha fatto lei quella sera".*

Quanto all'episodio della sostituzione della serratura: *Ho cambiato la serratura perché mi erano mancati degli effetti e dei soldi..Ho avuto un attimo di arrabbiamento, ho visto che cercava di rompermi una serratura e mi sono arrabbiato. Poi ho lasciato entrare tranquillamente, comunque voglio precisare che la serratura non è stata cambiata da altri ma l'ho cambiata io personalmente ".*

L'imputato ha negato di aver trascinato la donna per le scale, confermato di aver chiesto a C : di spostare l'autovettura poiché ostruiva l'uscita dal proprio garage, negato di essersi recato presso l'abitazione dove si trovava la moglie, escluso di aver mai pedinato la moglie, sostenuto di aver contattato la Presidente dell' r perché voleva "*andare far parte dell \ è un servizio di volontariato no?*

Ha sostenuto di non aver inviato messaggi all'amica della moglie, sebbene provenienti dalla sua utenza ( ) e negato tutte le condotte contestate.

Ha dichiarato che la moglie, in occasione del litigio del giorno 9 settembre, gli impedì di uscire dalla porta dopo aver cercato di colpirlo con le mani; ha sostenuto che la donna facesse accesso alla abitazione in sua assenza e chiarito che la convivenza ebbe termine in occasione del litigio.

Così riassunto il compendio probatorio deve essere ritenuta la responsabilità penale dell'imputato in relazione ai reati ascritti oltre ogni ragionevole dubbio.

Le dichiarazioni rese dalla p.o. dal reato sono di per sé coerenti e logiche e trovano pieno riscontro nelle dichiarazioni della figlia e degli altri soggetti, tra cui la Presidente dell j i Militari in ordine alle condotte prevaricatrici e vessatorie che il prevenuto adottò anche nei loro confronti.

Sebbene la convivenza fosse cessata dal 9.9. 2012 gli episodi di ingiurie, aggressioni, fisiche e verbali hanno avuto luogo in un contesto familiare, all'interno del palazzo ove entrambi i soggetti continuavano a vivere, nel corso di un rapporto nella prima fase non ancora definito con un provvedimento di separazione, in un periodo abbastanza ampio in cui si sono ripetute offese verbali, minacce di morte, aggressioni fisiche riscontrate dai referti medici.

Il clima di sopraffazione creato dal prevenuto con la propria condotta, pertanto, integra il reato di cui all'art. 572 c.p. quali fatti commessi ancora in costanza di vincolo matrimoniale (in tal senso deve essere richiamato il contenuto della sentenza del tribunale di Pavia che ha concluso con addebito della separazione all'imputato), connotati da una serie di atti volti a umiliare la vittima cagionando alla medesima sofferenze fisiche e psicologiche, costringendola a trasferirsi dalla figlia per salvaguardare la propria incolumità e impedendole di accedere alla propria casa di abitazione, di recuperare i propri effetti personali (rinvenuti sparsi per la casa, lungo le scale..).

Vengono in considerazione, quindi, una serie di atti lesivi della integrità fisica e morale, della libertà e del decoro della persona appartenente al nucleo familiare, tale da rendere abitualmente dolorosa e mortificante la relazione tra il soggetto attivo e la vittima; rientrano nello schema di tale delitto non soltanto le percosse, le ingiurie, le privazioni imposte alla vittima ma anche tutti gli atti di disprezzo ed umiliazione.

Il reato di maltrattamenti in famiglia, configurando un'ipotesi di reato abituale, si consuma nel momento e nel luogo in cui le condotte poste in essere divengono complessivamente riconoscibili e qualificabili come maltrattamenti; fermo restando che, attesa la struttura persistente e continuativa del reato, ogni successiva condotta di maltrattamento compiuta si riallaccia a quelle in precedenza realizzate, saldandosi con esse e dando vita ad un illecito strutturalmente unitario (Cassazpen.sez.52900/16).

L'imputato ha così agito nella piena consapevolezza di porre in essere gli atti di sistematica sopraffazione imponendo un regime di vita vessatorio, mortificante ed insostenibile, che costituisce piena espressione della intenzione di maltrattare la vittima mediante l'affermazione della propri volontà prevaricatrice.

Concorre con il reato di maltrattamenti il reato di cui al capo b) in considerazione dell'aggressione fisica riferita al giorno 9.9. 2012 atteso che le lesioni, con prognosi di 4 giorni, sono pienamente compatibili con le modalità degli atti violenti, descritti dalla vittima del reato.

In applicazione degli artt. 133 e 133 bis c.p., ritenute le attenuanti generiche - in considerazione della condotta successiva (non vi sono stati ulteriori episodi) e al fine di valorizzare il consenso prestato alla acquisizione degli atti indicati -, unificati i reati dal vincolo della continuazione, ritenuto reato più grave quello di cui al capo a), appare equa l'irrogazione della pena di anni uno e mesi 8 di reclusione (p. base anni 2 di reclusione, ridotta ad anni I e mesi 6 di reclusione ex art. 62 bis c.p. aumentata di due mesi di reclusione per la continuazione

con i fatti di reati di cui al capo b).

All'imputato, incensurato, può concedersi il beneficio della sospensione condizionale della pena.

In applicazione degli artt. 538 e ss c.p.p. l'imputato deve essere condannato al risarcimento dei danni cagionati alla Parte civile, da liquidarsi complessivamente in euro 8000 nonché alla rifusione delle spese di costituzione della parte civile, che si liquidano in euro 1250 oltre ad accessori di legge e spese generali a carico dell'Erario.

***

La condotta istruttoria dibattimentale ha fornito chiari ed univoci elementi di reità nei confronti dell'odierna imputato in ordine alla condotta ascritta che ad avviso di chi scrive deve essere meglio inquadrata nel reato di molestie di cui all'art. 660 c.p.
Invero B Si sentita come teste, ha riferito di aver convissuto con il giudicabile dal 2009 al 2014; per un periodo la relazione procedette bene, in seguito divenne intollerabile tanto che, nel gennaio 2014, decise di lasciare l'abitazione insieme al proprio figlio, avuto da un precedente matrimonio, approfittando che in quel periodo lo stesso era ricoverato in ospedale per un'operazione al ginocchio.
Nell'ultimo periodo infatti, il B era diventato violento; la sera tornava a casa ubriaco e maltrattava la persona offesa, colpendola anche con botte; arrivò a mettere la candeggina nel piatto del figlio della donna e a bruciare la Play Station dello stesso.
L'imputato era ossessionato che la donna avesse un'altra relazione e minacciava lei e il figlio.
Una sera giunse a puntarle un coltello, sbattendola contro il muro; intervenne il figlio in difesa della mare brandendo a propria volta un coltello; la situazione si calmò grazie all'arrivo del padre e del cognato della Bt
Per qualche mese dopo che presero la decisione di lasciarsi, la B continuò a vivere nell'abitazione familiare che era di proprietà del B< (dal 23.9.2013 al 23.1.2014), poi si trasferì in un altro paese.
Sicché la donna, che all'epoca lavorava in un ristorante, iniziò a trovare l'imputato davanti al luogo di lavoro, davanti alla nuova abitazione; il B la chiamava di notte al telefono e la minacciava. In alcuni messaggi la minacciava che "sarebbe morta", in altri le intimava che doveva tornare con lui, in altri che sarebbe stata sua per sempre; continuò finché la donna non bloccò il contatto.
Due volte la B trovò le gomme dell'auto tagliate, una volta trovò del sangue sulla gomma, avendo appreso al contempo che l'odierno imputato aveva un taglio in una mano.
Una sera l'imputato, alla guida del Fiat Doblò dell'azienda, la affianco e la fece andare fuori strada con l'auto, tanto che la donna fece intervenire suo padre che la scortò fino a casa.
In un'occasione la donna lo vide sotto casa alle due; poi ancora alle 7 del mattino. In seguito ricevette un messaggio con scritto "come mai hai attaccato le tue foto al muro dove vivi?" e temette che il B si fosse introdotto in casa.
Invece G D . figlio della persona offesa (nato il 1994), ha riferito che, nel corso della convivenza con il B , fu costretto a vivere in camera da letto perché l'imputato non voleva vederlo; ha confessato che egli lo odiava; che lo stesso, dopo che la sera tornava dal bar, urlava contro la B e alzava le mani. In una occasione il teste dovette intervenire perché l'odierno imputato puntava un coltello contro sua madre.
Ha confermato che la B , dopo la fine della convivenza, ricevette numerosi messaggi di minacce da B e che in un'occasione tentò di spingerla fuori strada con il furgone. In due occasioni la persona offesa trovò le gomme dell'auto tagliate.
Così anche L Ei :, cognato della persona offesa, ha riferito di aver appreso dalla B e dal nipote che, nel corso della convivenza, in un paio di occasioni l'odierno imputato alzò le mani contro la persona offesa; che ebbe occasione di notare la Bi con lividi sulla bocca e sull'occhio. Ha soggiunto che il B in due occasioni almeno se la prese con il nipote, promettendo di smettere senza poi farlo.
Invece B P; , padre della persona offesa, ha premesso di aver conosciuto l'odierno imputato allorché, tornando dall'estero nel novembre 2012, venne a sapere che aveva iniziato a convivere con sua figlia.
Sicché in un'occasione nel corso della convivenza, verso febbraio / marzo 2013, lo stesso intervenne a casa per una lite, trovando la figlia con dei lividi e del sangue alla bocca.
In un'altro caso intervenne in aiuto della figlia, in quanto la stessa lo aveva avvertito che qualcuno aveva provato a spingerla fuori strada; all'epoca non sapeva che il B si comportasse tanto male e cercò di mettere pace tra i due, in seguito apprendendo che lo stesso maltrattava sua figlia da tempo.
Il teste ha spiegato che, finché visse nella casa del B la figlia ebbe problemi; che anche in seguito ricevette minacce telefoniche e trovò alcune volte le gomme dell'auto tagliate.
Qualche volta la figlia gli chiese di venirla a prendere al lavoro, poi però cambiava idea fo-se per paura che il padre si mettesse nei guai, reagendo contro il B
D S A , in servizio presso la Stazione dei Carabinieri di < , ha riferito
che, nel mese di gennaio 2014, si presentò presso gli uffici la persona offesa, in stato di agitazione a sporgere denuncia. In tale sede, la donna fece leggere agli operanti alcuni dei numerosissimi messaggi ricevuti dall'imputato, dai quali si capiva che in qualche modo l'imputato la stesse spiando. Il teste ha specificato che i messaggi erano talmente tanti da non poter essere copiati sull'annotazione.
Per esempio in un messaggio era scritto "sono passato da F< alle 2 e 30 e non eri a casa, tu sei fuori io non ho chiamato nessuno"; "qualche volta vai a casa a dormire, o dormi al lavoro? Fai così fatica a rispondere".
Nel corso dell'esame, l'imputato ha sostenuto di aver lasciato la B nel settembre del 2013, concedendole di restare nell'abitazione di sua proprietà finché non avesse trovato un'altra sistemazione.
Sennonché la donna rimase alcuni mesi e non sembrava volersene andare, tanto che l'imputato si rivolse ad un avvocato per chiederle di lasciare l'appartamento. Per tale motivo egli le scriveva messaggi e le faceva numerose telefonate, principalmente finalizzate a chiederle di sgombrare l'appartamento, o di recuperare oggetti che vi aveva lasciato.

In seguito il B seppe dai vicini che la B si era trasferita; tuttavia, tornando a casa con il padre, la trovò svuotata di ogni cosa, compresa la televisione, i mobili, le effetti personali dell'imputato. Così tentò nuovamente di cercare la persona offesa chiedendole conto di quanto accaduto e ottenendo soltanto una televisione in cambio di un'altra.
In merito ai rapporti con i figlio della Bi lo stesso ha riferito che erano inesistenti.
In merito all'SMS con il quale egli chiedeva alla B se avesse affisso delle foto, ha commentato che una comune amica lo aveva avvertito che la B aveva appeso delle fotografie dell'imputato nella sua casa nuova.
M Si , madre dell'imputato, ha riferito che il figlio iniziò la relazione con la B all'età di 26 anni, uscendo di casa dei genitori senza il loro benestare. La persona offesa infatti era ossessiva nei confronti dell'imputato, morbosamente gelosa, forse perché più anziana di lui di 11 anni; non lo lasciava vivere, seguendolo dappertutto ed effettuando numerose chiamate al giorno. La teste, ha poi spiegato che, durante la convivenza con il proprio figlio, la Bi lavorò saltuariamente, facendosi mantenere dall'imputato. Ha riferito di essere stata a casa del figlio molto di frequente, avendo una confidenza definita "fuori dal normale" e di aver visto più volte la B che dava in escandescenza, senza motivo, dato che il figlio non si comportava mai male.
Così anche B Fi , padre dell'imputato, ha riferito che il figlio lasciò la Bi approfittando di doversi sottoporre ad un'operazione dopo la quale si trasferì momentaneamente dai genitori. Nel frangente l'imputato continuò a pagare le utenze e le spese della casa. Un giorno il teste entrò in casa con il figlio constatando che la B l'aveva sgomberata; sennonché la stessa l'aveva lasciata in pessime condizioni, sporca e maleodorante, con urina per terra. Inoltre mancavano numerosi oggetti di proprietà dell'imputato.

S , collega del B ha dichiarato di essere collega dell'imputato da un anno e amico dello stesso da molti anni; ha riferito che il B< non ha avuto alcun richiamo per guida in stato di ebbrezza e che i dipendenti dell'azienda non hanno possibilità di utilizzare i mezzi aziendali per andare a casa.

Orbene tanto premesso in punto di fatto deve osservarsi quanto segue.
Perché la fattispecie incriminatrice di atti persecutori in parola possa ritenersi integrata occorre infatti che siano state poste in essere reiterate condotte di molestia e minaccia, e che tali condotte abbiano ingenerato nella persona offesa un grave e perdurante stato di ansia o paura, ovvero un fondato timore per l'incolumità propria o dei congiunti, o ancora l'abbiano costretta ad alterare le proprie abitudini di vita.
Nel caso in esame, l'istruttoria ha dato conto di un rapporto convivenza difficile tra l'imputato e la persona offesa, caratterizzato da violenze verbali e fisiche, osteggiato dai genitori dell'imputato, complicato dalla presenza di un figlio già grande e dalla notevole differenza d'età e finito in modo certamente non pacifico.
In tale contesto risulta provato che l'imputato, come addotto dalla persona offesa e come confermato dalla testimonianza di Di S Al , dopo la fine della relazione, inviò numerosissimi messaggi alla persona offesa, anche contenenti minacce, in un flusso continuo che senz'altro creava turbamento nella stessa. Tali messaggi, seppure solo enunciati dall'operante, non pare possano essere giustificati dalla circostanza che la persona offesa rimase parecchi mesi a vivere nel l'appartamento del B(come addotto dalla difesa; e ciò sia perché i messaggi continuarono anche dopo che la stessa si trasferì altrove, sia perché il contenuto non era pertinente alla richiesta di sgombero dell'appartamento, peraltro già gestito dai legali.
In merito all'episodio dell'uscita di strada, la B ha riferito che l'imputato in qualche modo la affiancò, facendola accostare; il padre ha riferito di essere intervenuto e di aver cercato di mettere pace tra i due.
Invece seppure probabile, non vi sono elementi certi per riferire al B la condotta del taglio delle gomme, riferita dalla p.o. e confermata dal figlio e dal padre di costei, senza però che nessuno avesse visto l'imputato porla in essere materialmente.
In merito alle conseguenze sulla vita della persona offesa, occorre osservare che la stessa ha ammesso che, dopo aver bloccato il contatto dell'imputato, il flusso di messaggi venne a cessare; la stessa ha dichiarato di aver vissuto uno stato d'ansia in occasione del messaggio in cui l'imputato le faceva capire di aver visto le foto affisse in casa sua; di essersi spaventata quando venne affiancata in auto dal B
Tali elementi ad avviso di chi scrive non sono sufficienti per provare il perdurante stato d'ansia richiesto dalla norma di cui all'art. 612bis c.p.; né d'altra parte risulta che la donna in tale situazione abbia alterato le sue abitudini di vita.
In tale quadro il fatto deve essere meglio qualificato nel reato di molestie di cui all'art. 660 c.p., avendo l'imputato, con le proprie condotte ripetute, senz'altro arrecato molestia alla persona offesa.
Deve essere dunque affermata la pena responsabilità dell'imputato in ordine al reato così riqualificato.
Ciò posto, possono essere riconosciute le circostanze attenuanti generiche per il buon comportamento processuale.
Quindi, valutati tutti gli elementi di cui all'alt. 133 c.p., si ritiene equa la pena mesi 2 di arresto (p.b. mesi 3 di arresto, ridotto ex art. 62bis c.p.).
Al l'affermazione della penale responsabilità segue, obbligatoriamente per legge, la condanna dell'imputato al pagamento delle spese processuali.

****

Anticipa questo Tribunale che i fatti , come ricostruiti all'esito della attività istruttoria dibattimentale compiuta, non consentono di fondare giudizio , oltre ogni ragionevole dubbio, di responsabilità penale dell'imputato per i reati addebitatigli.
L'odierna vicenda penale trae origine dalla denuncia-querela sporta in data 15\6\2015 , e successivamente integrata in data 21\9\2015 , da A: , dalla cui
deposizione testimoniale , resa all'udienza in data 2\7\2018, si ritiene dunque utile incominciare nella ricostruzione dei fatti rilevanti.
In data 30\7\2007 B ’ A e C V contraevano matrimonio, dopo un periodo di convivenza . Dalla loro unione sentimentale nascevano quattro figli, la maggiore dei quali Si M i C , nata il 2005 .

In data 24 settembre 2014 interveniva la separazione consensuale della coppia ([1]), ma già ai primi del mese la convivenza coniugale cessava di fatto in quanto l'imputato andava a vivere in altra abitazione . All'incirca nei mesi di maggio -giugno dello stesso anno B sospettava il tradimento del coniuge , il quale modificava il comportamento
nei suoi confronti, rimanendo a dormire sul divano , sovente impegnato a scambiare messaggi sul telefono cellulare con un'altra persona di cui poi B: scopriva
l'identità .
La persona offesa riferiva che allorché minacciava il coniuge, odierno imputato, di rivelare la sua relazione sentimentale al marito dell'amante , *<<[...] lì sono incominciati i momenti brutti »,* in quanto C< assumeva atteggiamenti rabbiosi nei suoi confronti. B non ha saputo indicare la frequenza di tali condotte aggressive del coniuge (
riferendo poi, a seguito di incalzanti domande, che potevano capitare circa una volta al mese) , esternate ogniqualvolta lei lo minacciava di rivelare la sua relazione al marito dell'amante , e accompagnate da epiteti e frasi proferite nei suoi confronti quali "*brutta puttana* "" *puttana di merda, te la faccio pagare*" , riportando in aula di un'occasione in cui lei e C< si trovavano in bagno e quest'ultimo , dopo averle bloccato le mani dietro alla schiena e averla minacciata di «fargliela pagare» , la costringeva a subire un rapporto sessuale . In un'altra circostanza l'imputato afferrava con le mani B , al collo «*stringendo forte »* e dicendole che «gliela avrebbe fatta pagare » , episodio che veniva consumato in bagno, mentre i figli della coppia erano in sala. In occasioni dei litigi C(rivolgeva a B insulti correlati alle sue origini meridionali (dicendole "
napoletani di merda " *)* . «Ogni tanto » C afferrava per il braccio B e
«la spingeva » . B era impaurita dalle minacce ricevute dal coniuge e a causa
del clima di tensione domestica e di timore la notte dormiva chiusa in camera , unitamente ai suoi figli, mentre l'imputato dormiva «già da tempo » sul divano .
Anche successivamente alla separazione C avrebbe continuato a serbare
atteggiamenti di «odio profondo » nei confronti di Bj , scrivendole ad esempio e-mail in cui le diceva " *Non capisci un cazzo* " .
B riferiva di non essersi confidata con alcuno nell'immediatezza dei fatti; anche
con la madre , A[1] LL , si confidava dopo l'intervenuta separazione dall'odierno imputato.
Quanto al resto ascritto al capo B) di imputazione la persona offesa narrava che in data 14\6\2015 la figlia S M C », al rientro a casa dopo avere trascorso con il padre il tempo di visita regolamentato giudizialmente, le raccontava piangendo «come una disperata » che il papà «le aveva fatto male » mentre si trovavano in auto verosimilmente nel tragitto di rientro a casa , nello specifico « *mi ha detto che papà le ha girato il braccio e la stava sbattendo giù dalla macchina » ([2]).* B: non richiedeva
spiegazioni dell'accaduto a G *«visto che la situazione era già burrascosa» .*

Premesso sul piano sistematico che secondo costante giurisprudenza, in tema di valutazione della prova testimoniale, le dichiarazioni rese dalla persona offesa, sottoposte ad un attento controllo di credibilità, possono essere assunte, anche da sole, come prova della responsabilità dell’imputato, senza che sia indispensabile applicare le regole probatorie di cui all’art. 192, comma terzo, cod. proc. pen, ([3]), si deve evidenziare come nel caso di specie la valutazione dell'acquisito compendio probatorio disveli elementi di incongruenza della ricostruzione operata dalla persona offesa delle condotte addebitate a C , rendendo la stessa inidonea a credibilmente fondare prova , oltre ogni ragionevole dubbio, della colpevolezza dell'imputato .

B , in sede di controesame della difesa , negava di avere mai rivolto insulti o di
avere avuto reazioni verbali intemperanti nei confronti dell'odierno imputato nel contesto di riferita tensione del clima domestico, circostanza peraltro smentita dalla teste a difesa

- C ([4]) la quale nei mesi antecedenti la separazione tra i coniugi , a
decorrere circa da marzo -aprile 2014 (e sino a settembre 2014) , ossia nel periodo temporale in cui B:
colloca il manifestarsi delle condotte maltrattanti del coniuge,
era testimone oculare di due episodi in cui l'imputato veniva ingiuriato da B ., rimanendo inerme . Nello specifico in un'occasione, all'incirca nei mesi di maggio o giugno 2014, V , sopraggiunta al domicilio coniugale dell'imputato, trovava questi seduto sul divano mentre veniva insultato (senza che la teste potesse capirne il motivo) sia da B sia dal di lei fratello , alla presenza dei figli di età minore, con toni
molto aggressivi e violenti ai quali non controbatteva, cercando di stabilire un dialogo .
Nel mese di luglio 2014 V , unitamente alla sorella, si trovava ospite a casa dell'imputato quando all'improvviso B , alla presenza dei figli di età minore,
incominciava a urlare e inveire contro il coniuge, insultandolo , perché voleva che questi lasciasse il domicilio coniugale prima della separazione giudiziale . La reazione di C si sostanziava nel prendere le chiavi dell'autovettura e nell'uscire di casa .
In una terza occasione , durante una conversazione telefonica con B , la teste
sentiva quest'ultima urlare nei confronti del coniuge che, con toni non accesi né adirati, la invitava a non urlare e

a rientrare in casa dal balcone sul quale si trovava .

- ha inoltre riferito gli atteggiamenti denigratori e svilenti serbati da B nei confronti dell'imputato, alla presenza dei loro figli di età minore, a motivo dei quali interrompeva le visite al domicilio coniugale della coppia circa 3- 4 mesi dopo la separazione giudiziale della coppia nel settembre 2014 , mantenendo poi con B.

dei contatti telefonici nel corso dei quali questa insultava l'imputato con epiteti quali "*coglione, figlio di puttana , stronzo*" , indirizzandogli minacce, tra le quali quella di fare in modo di togliergli la patria potestà , «di eliminarlo dalla vita dei figli che doveva solo mantenere economicamente », e malauguri ("*gli auguro di finire i suoi giorni malamente* "" *gli auguro tutte le malattie del mondo* ").

C confidava a V le difficoltà incontrate nel riuscire a vedere i propri figli e altresì, nell'autunno 2015, il timore di andarli a prendere per gli insulti che riceveva in tali occasioni da B e dal suo attuale compagno, M M , tanto da farsi spesso accompagnare dalla stessa V , o dal padre o da altre persone , circostanza ulteriormente confermata dalla deposizione testimoniale di A C ' , convivente di C dal mese di maggio 2015,

(la quale riferiva di avere a sua volta in alcune occasioni accompagnato C , vedendo la persona offesa fare il gesto "del dito medio " alzato all'indirizzo di C , insultato e denigrato da M. ~ con i termini "*coglione, coniglio* " [5][6]).

Le condotte ingiuriose e denigratorie serbate dalla persona offesa nei confronti dell'imputato rinvengono riscontro anche nella deposizione testimoniale di A C , la quale riportava in aula il tenore di conversazioni telefoniche ascoltate e di messaggistica telefonica letta in cui B: si rivolgeva all'imputato appellandolo con interessavano solo i suoi soldi.

L'espressione minacciosa di "voler rovinare " C >, utilizzata da B , ricorre anche spontaneamente nel narrato del teste dell'accusa C S la quale aveva gli epiteti "*coniglio*""*coglione*""*senza palle*", minacciandolo di fare in modo di non fargli più vedere i figli «a costo di perderli lei» , dicendogli che lo voleva rovinare e che le

occasione di leggere, rammostratile dalla persona offesa, degli scambi di e-mail intercorsi con , successivamente alla separazione giudiziale della coppia, in cui «non risparmiava minacce» all'ex coniuge , utilizzando toni e contenuti definiti " forti" . A seguito di contestazioni a sostegno della memoria C ha invero confermato che anche l'imputato minacciava e ingiuriava B , senza peraltro minimamente circostanziare e riempiere di contenuti tale affermazione in termini diversi da una reciprocità di toni "alterati " usati dalle parti.

Gli elementi a discarico sopra delineati, introdotti dalla difesa, avvalorano le dichiarazioni dell'imputato che , sottopostosi ad esame, ha negato gli addebiti mossigli riferendo di un rapporto affettivo con la persona offesa ormai esauritosi, culminato con una separazione consensuale preceduta da un periodo di convivenza da «separati in casa» durante il quale non minacciava né ingiuriava B , modalità comportamentale peraltro estranea al suo carattere ([7]).

Negati anche agiti etero aggressivi nei confronti della persona offesa, peraltro né comprovati da certificazioni mediche né riscontrati nella loro congruenza e attendibilità da testimonianze *de relato* di tali condotte apprese da circostanziati racconti delle stesse fatte da B in costanza di convivenza coniugale con C

La testimonianza di A M , madre della persona offesa, è difatti scandita da incongruenze e contraddittorietà che inficiano l'attendibilità del tessuto narrativo, peraltro già oggettivamente generico e vago . A riferiva in aula che la figlia le aveva raccontato essere solita, nel periodo della separazione coniugale, chiudersi in camera da letto con i propri figli «perché aveva paura », circostanza peraltro emersa solo in dibattimento ([8]) ma non menzionata allorché veniva sentita a s.i.t nell'ottobre 2015 dai Carabinieri, ai quali inoltre diceva di non essere a conoscenza di episodi di violenza o vessazioni verificatesi negli ultimi periodi, riferendo però poi di un episodio confidatole dalla figlia in cui C strattonava quest'ultima per un braccio facendole male , rompendole un braccio, evento a cui peraltro A non ha saputo dare una collocazione temporale, dicendo di non ricordare , cadendo inoltre in contraddizione sul momento in cui riceveva la confidenza della figlia, in aula , in sede di controesame della difesa, dichiarando di averne contezza successivamente alla separazione mentre ai Carabinieri riferiva *«solo nell'ultimo anno di matrimonio sono venuta a conoscenza di questi episodi » ,* confermando inoltre in dibattimento di non ricordare l'episodio dell'afferramento della figlia con una presa con le mani al collo da parte di C , ossia la condotta in imputazione in quanto denunciata da B

Non ci si soffermerà sul contenuto della deposizione testimoniale di B $_t$ L , padre della persona offesa, in quanto caratterizzata da toni confusi, da un tenore incoerente e contraddittorio ([9]) e risolventesi inoltre nel *de relato* di un *de relato ,* non avendo ricevuto il teste le confidenze direttamente dalla figlia bensì mediatamente dalla moglie.

Notevoli perplessità in punto di attendibile verosimiglianza desta il narrato della persona offesa della violenza sessuale subita da parte dell'imputato se si evidenzia che nonostante la obiettiva e incontrovertibile traumaticità correlata a un simile genere di evento delittuoso e nonostante la riferita unicità dello stesso ([10][11]) , la persona offesa , come emerso dal controesame della difesa, non solo non è riuscita a dargli una collocazione temporale ma non ricordava neppure che non era stato oggetto di denuncia .

Ancora più pregnantemente incongruente la versione dell'evento resa da B agli assistenti sociali emergente dalla relazione datata 9\2\ 2016 in atti ([u]), se si evidenzia che la persona offesa riferiva di una violenza sessuale subita dall'imputato durata «ben tre giorni » (nonostante la presumibile presenza in casa dei figli di età minore , due dei quali di appena tre anni di età) avvenuta nell'estate 2014 , con tentativi di soffocamento con mani strette al collo . *«Invitata più volte a precisare e contestualizzare questo grave evento, la sig.ra B è parsa affannarsi nella ricerca di risposte, risultando evasiva e frammentaria . Inoltre alla nostra domanda riferita a come mai non avesse pensato di formulare una denuncia verso l'ex coniuge la stessa ha dichiarato di aver* " *voluto preservare il percorso di separazione in atto nonché la serenità stessa dei bambini. Tuttavia alla luce di questa narrazione non si comprende appieno coma mai , data l'entità di tale racconto, gli ex coniugi, come da loro esposizione , abbiano potuto gestire sostanzialmente bene e in armonia tanto la mera fase di separazione [...] quanto i successivi primi mesi [...] » ([12]).*

Si ritiene che il chiaro tenore di quanto sopra riportato non abbisogni di ulteriori commenti a sottolineatura della non credibilità dell'addebito accusatorio a carico dell'imputato riferito dalla persona nffpRa addebito che inoltre si " moltiplica" addirittura nella deposizione testimoniale di M _ M , compagno della persona offesa, da lui conosciuta nel febbraio 2015 , che riferisce infatti di due episodi di abusi sessuali patiti da B ad

opera dell'imputato, che gli sarebbero stati raccontati da quest'ultima (con la quale il teste , in sede di controesame della difesa , ammetteva di avere commentato il contenuto della deposizione testimoniale dalla stessa reso in aula).
Le citate considerazioni degli assistenti sociali sulla armonica gestione , da parte della persona offesa e dell'imputato, sia della fase della separazione sia dei successivi primi mesi Sforniscono ulteriore avallo argomentativo di credibilità alla versione difensiva dell'imputato di una convivenza con la persona offesa , antecedente la separazione giudiziale, non connotata per quest'ultima da quei caratteri di «sopraffattorietà» , <vessatorietà» , « penosità di condizioni di vita » rilevanti nella prospettiva legislativa di cui al disposto dell'art. 572 c.p., confermando la suggestione di una accesa rancorosità e di un astio della persona offesa nei confronti dell'imputato maturati temporalmente con la frequentazione di B: ([13]) con M e soprattutto con D'. D ,
ex marito di C A . (convivente dell'imputato) , come prospettatosi nell'esame dell'imputato ([14]) e nella deposizione testimoniale della stessa C
A: e come ulteriormente emergente dalla già citata relazione di indagine sociale in
atti $_t$ datata 9\2\2016 , in cui è dato leggere che a seguito di un successivo ridimensionamento da parte di B dei contatti e della frequentazione con
D' la persona offesa ne traeva *«un vantaggio comunicativo con l'ex marito» . «A fronte di ciò, riflettendo con gli scriventi, la sig. B ' ha avuto modo di esprimere domande e dubbi circa la genuinità dei contatti e della frequentazione del sig. D'. _ » nei suoi confronti, verosimilmente finalizzata, a parere degli operatori, a problematizzare l'attuale condizione di vita del Sig. e della sua compagna , sig.ra C innescando tensioni e discussioni che di
fatto hanno ostacolato la serena frequentazione e contatti dei figli con il padre* . E'*parere di questa equipe che la sig.ra B , relativamente a questa stagione di contrasto con l'ex marito, abbia risentito di un certo condizionamento da parte del Sig. [...]» f*([15]) .
Le sopra evidenziate incongruenze intrinseche ed estrinseche inficiano l'impianto accusatorio riferito dalla persona offesa , offuscandone la credibilità e facendogli perdere quel grado di attendibilità necessario a dotarlo di efficacia probatoria idonea a fondare un giudizio , che regga a un vaglio di convincimento oltre ogni ragionevole dubbio, di colpevolezza dell'odierno imputato di cui si impone quindi pronuncia assolutoria dall'imputazione di maltrattamenti ascrittagli al capo A) di imputazione con formula terminativa *«perché il fatto non sussiste » .*

Il capo B) di imputazione .
Al capo B) di imputazione viene ascritta all'imputato una condotta lesiva in danno della figlia S M , nata il 2005 , consumata in data 14\6\2015 allorché C la percuoteva con violenza strattonandola per un braccio provocandole un trauma distorsivo alla spalla sinistra con prognosi di guarigione di giorni 6 ([16]) . Il fatto veniva raccontato dalla minore alla madre B e da questa riferito in aula nel corso della
deposizione testimoniale nei termini sopra delineati.
L'imputato in sede di esame ha fornito diversa versione ricostruttiva degli eventi , dichiarando che in data 14\6\2015, mentre conduceva l'autovettura a bordo della quale viaggiavano , lato passeggero, D M M ([18]) e sui sedili posteriori i suoi
quattro figli di età minore, che stava riaccompagnando a casa della ex moglie B ., sentiva i figli litigare per la musica e poi udiva il pianto di S . Per comprendere le ragioni di tale pianto improvviso l'imputato arrestava la marcia dell'autovettura , ne scendeva e S i, richiesta di spiegazioni, rispondeva che il fratello A le aveva tirato i capelli e un pugno . C faceva quindi scendere la figlia S dall'autovettura , senza strattonarla , cambiando la disposizione di seduta dei figli, allontanando cioè S.. . da A , sistemando in mezzo a loro gli altre due fratelli gemelli.
La dinamica dei fatti fornita dall'imputato trova completa rispondenza e riscontro nella deposizione testimoniale resa da D M. M , teste oculare , il quale ha confermato il bisticcio tra S e il fratello A , che sedevano l'uno accanto
all'altro sui sedili posteriori dell'autovettura a bordo della quale stavano viaggiando, e lo scoppio improvviso in pianto di S. che non voleva dirne il motivo . C , alla guida dell'autovettura , ne fermava la marcia e ne scendeva . Anche S poi scendeva dall'autovettura e alla fine , alle domande del padre., diceva che il fratello A i le dava fastidio , le dava i pizzicotti, che si strattonavano . C quindi separava i due fratelli cambiando loro di posizione sui sedili posteriori dell'auto. Non sono emersi dall'istruttoria elementi atti a revocare in dubbio la credibilità soggettiva del teste , il cui narrato è risultato coerente, lineare e scevro da salti logici o incongruenze.
L'attendibilità e genuinità della testimonianza a discarico dell' imputato resa da D'
M; M è ulteriormente confermata dalla deposizione della di lui madre
A , dalla quale emerge che la medesima versione ricostruttiva veniva resa dal teste alla madre già all'epoca del fatto , confermata e ribadita con coerenza nonostante le «domande trabocchetto » postegli da quest'ultima interessata a sincerarsi dei contorni di personalità di C .., suo convivente solo da epoca recente , e a verificare quindi se potesse avere serbato una simile condotta etero aggressiva in danno della figlia .
Ad *abundantiam* si richiama il passaggio della già citata indagine sociale del 9\2\2016 sui minori C in cui è dato leggere che *«nel corso dell'incontro non emergono dalla bimba* [S iM * C natali 2005: n.d.r.] *racconti di episodi di percosse e\o agiti violenti nei suoi confronti da parte del padre, che hanno coinvolto anche il pronto soccorso » .*
Ne consegue il proscioglimento dell'imputato anche dal reato ascrittogli al capo B) di imputazione parimenti con formula terminativa *«perché il fatto non sussiste » .*

Cass. Sentenza n. 2140 del 27\10\2015). Solo qualora la persona offesa si sia anche costituita parte civile e sia, perciò, portatrice di pretese economiche, il controllo di attendibilità deve

essere più rigoroso, fino a valutare l'opportunità di procedere al riscontro di tali dichiarazioni con altri elementi (cfr. Cass. S.U. 41461/2012).

Inoltre il teste dapprima dichiarava al PM di non essere a conoscenza di episodi di violenza fisica agita dall'imputato in danno della figlia poi a seguito di contestazione dell'accusa a sostegno della memoria, diceva che non si ricordava di quanto aveva dichiarato a s.i.t. ai Carabinieri, nell'ottobre 2015, ossia di un episodio in cui C aveva messo le mani al collo alla figlia e le aveva rotto un braccio , eventi collocati dunque nel medesimo contesto temporale , ma che non rinvengono rispondenza nella denuncia di B: relativa unicamente a una condotta di presa al collo con le mani da parte agita dal coniuge.

& A &&

Ritiene il Tribunale che gli elementi emersi dall'istruttoria dibattimentale conducano univocamente all'affermazione della responsabilità penale di E H E:

Hi ' i G [1] per i reati di maltrattamenti e violenza sessuale allo stesso ascritti.

Alla stregua del compendio probatorio, costituito dalle dichiarazioni della persona offesa A: E: N dalla documentazione acquisita, nonché da quanto dichiarato dai numerosi testi escussi, è dato pervenire alla seguente ricostruzione della vicenda sottoposta al vaglio dibattimentale.

Di seguito, dunque, l'esposizione delle risultanze istruttorie che, al fine di rendere più lineare la ricostruzione della vicenda, prenderà le mosse dal racconto della parte offesa.

Giova premettere che la p.o. è stata sentita in modalità protetta, ovvero con l'ausilio di un paravento, e ha ricostruito le dolorose vicende vissute con non poche difficoltà sia in ragione delle problematiche linguistiche (per ovviare alle quali ci si è avvalsi dell'ausilio di un interprete), sia in ragione della evidente emotività (tradottasi anche in un pianto durante la deposizione).

Può sin d'ora affermarsi che, nonostante le evidenziate difficoltà espressive, il narrato della parte offesa è risultato caratterizzato da intrinseca coerenza e linearità.

Infatti, la parte offesa ha svolto il suo esame, pur emotivamente intenso, sottoponendosi con disponibilità ad ogni richiesta di chiarimento delle parti ed ha riportato tutto ciò che è riuscita a ricordare in condizioni di notevole sofferenza.

Peraltro, il racconto della parte offesa ha trovato un coerente riscontro negli ulteriori elementi di conoscenza acquisiti al processo.

Fatte queste doverose premesse, passiamo ad esaminare il contenuto delle fonti di prova orali acquisite al processo.

TESTE A E ,N "

La p.o. ha raccontato di essere venuta a vivere in Italia nel 1998, dopo avere contratto un matrimonio combinato (dalle rispettive famiglie) con l'odierno imputato nel 1996.

Dal loro matrimonio sono nati tre figli: K. di 14 anni, J<'di 9 anni e Y< ' di 6 anni e mezzo.

A E N precisato, su domanda del PM, che il marito era solito insultarla e minacciarla di un male ingiusto (testualmente "Mz *diceva che io sono pazza. Alla fine ha iniziato ad insultare i miei genitori... 'Che tu non capisci niente'. Qualche volta mi diceva 'Stai zitta'. Non mi ricordo altro. Ogni volta, qualche volta mi minaccia di picchiarmi con le scarpe'''* cfr. trascrizione

dell'udienza del 12.11.2018 p. 4). La p.o. ha, altresì, chiarito che il comportamento del marito era stato, inizialmente, in qualche modo mitigato dalla presenza in casa di sua madre, che era solita riprenderlo, laddove veniva informata di comportamenti scorretti del figlio.
Dopo la morte della madre la situazione era peggiorata. La p.o. ha riferito che il marito aveva iniziato ad urlare e ad insultarla con un'assidua frequenza (specificando testualmente: "TVo, *non tutti i giorni. No, due giorni brutti, due giorni va bene"* cfr. trascrizione dell'udienza del 12.11.2018 p. 4), e lei aveva ricondotto tali atteggiamenti al temperamento "nervoso" dell'uomo, legato anche il problemi di lavoro *("Penso che è la sua natura, lui è cosi, sempre nervoso, soprattutto quando torna dal lavoro."* trascrizione dell'udienza del 12.11.2018 p. 4).
Con riferimento ai fatti contestati, la p.o. ha raccontato che in un'occasione, mentre era incinta di Y aveva comprato un paio di sandali del costo di 1 euro per il figlio K e, quando era tornata a casa, l'odierno imputato, indispettito da tale acquisto, l'aveva colpita due volte in testa con una sua scarpa. Lei aveva cercato conforto nella sorella dell'imputato che, contattata telefonicamente, aveva provato a tranquillizzata.
E ancora, la p.o. ha confermato un ulteriore episodio, avvenuto nel settembre 2014 (o 2015), in cui la coppia si era recata presso il supermercato < e in quel frangente l'imputato si era arrabbiato perché si erano persi di vista e non avevano il cellulare per comunicare. In quell'occasione, dopo esser scesi dall'autobus, il marito l'aveva picchiata *"anche quella volta due volte con un pugno"* (cfr. trascrizione dell'udienza del
2018. p. 14) sulla spalla, tanto da indurre un passante a intervenire ***("Si mi aveva colpito con un pugno sulla mia spalla.*** *Mi ricordo che c'era anche un passante che aveva detto: 'Ma perché? Non devi picchiare una donna'* trascrizione dell'udienza del 2018. p. 5).
La p.o. ha proseguito la sua deposizione ricordando un'ulteriore circostanza, occorsa nel 2017, in cui i coniugi dovevano recarsi in aeroporto e, dal momento che era stato indetto uno sciopero dei tassisti, la p.o. aveva chiesto all'odierno imputato il permesso di contattare una sua amica, per chiederle se il marito avesse potuto accompagnarli. Alla notizia che il corrispettivo del servizio era costato 70 euro, anziché 60, come precedentemente prospettatogli dalla moglie, EJ H EH G< aveva scatenato la sua ira: le era andato incontro alzando la mano, come per colpirla, ed era stato fermato dall'amica della p.o. che si era interposta tra loro ***("Luistava venendo verso di me per colpirmi alzando la mano, e si è messa, la mia amica, tra me e lui per impedire di farlo"*** trascrizione dell'udienza del 12.11.2018 p. 6).
In aggiunta ai fatti sopra riportati, la p.o. ha raccontato che l'odierno imputato **una volta le aveva scagliato contro un bicchiere di vetro,** che solo per caso non l'aveva colpita, e che in un'altra circostanza, davanti al rifiuto della donna di lasciargli il suo cellulare, glielo aveva lanciato addosso. Dopo averlo ripreso le aveva detto *"Guarda che questo telefono l'ho pagato io"* (cfr. trascrizione dell'udienza del 12.11.2018 p. 6) e l'aveva presa per il braccio storcendoglielo ***("Lui mi aveva preso dal braccio e lo ha girato e mi diceva che 'Non devi prendere più questo telefono'"*** cfr. trascrizione dell'udienza del
2018. p. 6).
La donna ha dichiarato di non avere mai richiesto cure mediche per non creare ulteriori problemi, fin quando l'odierno imputato non era giunto a metterle le mani intorno al collo, mimando poi il gesto di volerla colpire con un pugno. Con riferimento a tale episodio, avvenuto nel gennaio 2018, cui aveva fatto seguito l'intervento della polizia, su richiesta dell'odierno imputato (cfr. annotazione di servizio del 12.1.2018 e deposizione del teste E ' B), giova riportare testualmente quanto riferito dalla p.o. che ha dichiarato: *Nel gennaio 2018 una volta è tornato da fuori. Era un venerdì, è tornato verso le 14. Io gli chiedevo se avesse trovato un lavoro, lui mi dice: 'Questa è una cosa che non ti riguarda'. Non mi ricordo che cosa avevo detto, e lui mi rispose:* ***Se non rimani zitta, uso le scarpe di nuovo a picchiarti'.*** *Anche questa volta, quando ha preso la scarpa per colpirmi, gli avevo detto: 'Se ti azzardi a colpirmi io chiamo la Polizia ': addirittura ha preso lui il telefono e ha chiamato lui la Polizia lamentandosi di me e dicendo che 'Mia moglie comporta male ' e ha messo giù la scarpa che aveva in mano. All'arrivo della Polizia ha iniziato a lamentarsi di me dicendo: "Mia moglie mi crea problemi perché io adesso sono disoccupato e lei chiedeva tante cose, ed io sono disoccupato". Io avevo detto alla Polizia che non era vero. "Lui è venuto per picchiarmi per questo io voglio...chiamo la Polizia e lui vi ha chiamato prima di me".* ***Avevo dichiarato alla Polizia che lui mi aveva cercato di picchiarmi anche altre volte e mi prendeva dal collo usando un pugno, che voleva colpirmi con un pugno. Quando lui ha sentito le mie dichiarazioni alla Polizia, lui aveva detto che "Anche lei tre volte ha cercato di colpirmi con un coltello "*** (cfr. trascrizione dell'udienza del 12.11.2018 p. 7).
La teste ha evidenziato che agli episodi di percosse e di offese erano talvolta presenti anche i figli.
In particolare, con riferimento al comportamento del padre nei confronti dei figli, la p.o. ha raccontato che il marito in un'occasione aveva lanciato una penna in faccia al figlio K e ***"quando sbagliavano li picchiava con la cintura Sulle gambe"*** (cfr. trascrizione dell'udienza del 12.11.2018 p. 8), inducendo i bambini ad avere paura del padre.
Addirittura, il figlio Y ' aveva raccontato alla madre di aver fatto un incubo in cui un mostro cercava di picchiare la mamma, mentre K ' (nato nel 2004) ha continuato a manifestare il proprio disagio con episodi di enuresi notturna. Inoltre, il padre si limitava a portare solo di rado i figli al parco, mentre ogni ulteriore incombenza, relativa agli stessi, era di esclusivo appannaggio della madre.
Passando agli episodi di violenza sessuale, la p.o. ha raccontato che, nel periodo in cui il figlio Y ' (anno 2017) era ricoverato in ospedale e lei trascorreva lì le notti, quando ritornava a casa era molto stanca e, per tale ragione, si rifiutava di avere rapporti sessuali con il marito.**Quest'ultimo, ritenendo che si trattasse soltanto di una scusa, di un *"capriccio", "aveva avuto quello che voleva"* nonostante il diniego manifestato dalla donna** (cfr. trascrizione dell'udienza del 12.11.2018 p. 9). Quanto alla frequenza con cui avvenivano tali costrizioni, la p.o. ha precisato che più volte l'odierno imputato aveva preteso di avere rapporti sessuali nonostante lei non ne avesse voglia e, quanto alle modalità, ha riferito testualmente **"Zwz *ha usato violenza e io ho obbedito"* e, ancora "TVo, *lui non mi aveva picchiato, però mi aveva abbassato i vestiti" "Qualche volta davanti il mio rifiuto mi lasciava stare,***

qualche volta anche se dico di no, lui compiva ratto sessuale lo stesso" (cfr. trascrizione dell'udienza del 12.11.2018 p. 18-19).
In particolare, la donna ha raccontato che, dopo una richiesta di intervento della Polizia da parte dell'odierno imputato, lei aveva lasciato il marito nel letto coniugale ed era andata a dormire con i bambini. Una notte, mentre dormiva, l'imputato l'aveva raggiunta e aveva iniziato a tirarle le gambe, dicendole di svegliarsi. Dinanzi al rifiuto della donna di alzarsi dal letto, aveva iniziato a pizzicarle le gambe per farle male e ad insultarla. provocandole dei lividi in corrispondenza dei punti in cui era stata pizzicata, ematomi che la donna aveva provveduto a fotografare, consegnando le relative immagini alla Polizia Locale (cfr. verbale di acquisizione del 21.02.2017). Anche in un'altra circostanza il marito aveva tentato lo stesso approccio dicendole "Se *non vieni da me, puoi anche andare in Tribunale a chiedere il divorzio"* (cfr. trascrizione dell'udienza del 12.11.2018 p. 10) ma, siccome si era svegliato il figlio, aveva desistito ed era uscito di casa. Al suo rientro, aveva comunicato alla moglie di essere andato a Ietto con un'altra (cfr. trascrizione dell'udienza del 12.11.2018 p. 10).
E ancora, la p.o. ha raccontato che anche quando aveva il ciclo mestruale, l'imputato, convinto che si trattasse di una scusa per non avere rapporti, le aveva chiesto di mostrargli il sangue ***("Siccome lui non mi credeva anche quando io gli dicevo 'Io adesso ho le mestruazioni', lui non ci credeva e ho dovuto far vedere il sangue"*** cfr. trascrizione dell'udienza del 12.11.2018 p. 10).
Quanto alla gestione economica, la donna ha evidenziato che il marito le consegnava 10,00 euro a settimana per andare al mercato ad acquistare frutta e verdura e. al suo ritorno, controllava che cosa avesse comprato.
La donna ha, anche, raccontato di essersi dovuta rivolgere alla Chiesa per chiedere dei pannolini e dei pacchi. Inoltre, durante i pasti, lei era costretta ad alimentarsi per ultima. solo dopo che avevano mangiato sia i bambini sia il marito, ai quali venivano servite le porzioni più abbondanti, mentre per lei residuava solo ciò che avanzava.
A E N ' " ' " ha dichiarato che per un periodo aveva anche avuto un conto
corrente cointestato con il marito, al quale lei aveva contribuito con Euro 25.000. richiestigli dall'odierno imputato per l'apertura di una panetteria. L'imputato, in possesso del bancomat che gli consentiva il prelievo di denaro, si era appropriato dell'intera somma presente sul conto senza restituirle alcunché.
Quest'ultima, pertanto, successivamente, dopo aver ricevuto un contributo per la nascita del figlio, si era vista costretta a dare la somma (pari a circa 900,00 euro) a un'amica perché la custodisse e, soprattutto, per evitare che suo marito se ne impossessasse.
Nella prosecuzione del suo racconto, la donna ha riferito che dopo l'intervento della Polizia, l'uomo si era allontanato per circa cinque giorni da casa lasciandola senza soldi, neppure per comprare il latte. Ancora, la p.o. ha raccontato di essersi iscritta ad una scuola di italiano ma, quando il marito le aveva detto ***"[...] No, è inutile andarci perché tu non hai imparato niente"*** **e ancora,** ***Basta, non andare più visto che stai perdendo solo tempo",*** aveva smesso di frequentarla (cfr. trascrizione dell'udienza del
2018. p. 12e 17).
Su precisa domanda del PM, la p.o. ha dichiarato che aveva paura dell'odierno imputato. A chiarimento degli episodi descritti, la p.o. ha raccontato che dopo le aggressioni, l'imputato era solito lasciare l'abitazione e rimanere fuori per giorni *("Rimane quasi cinque giorni, la seconda volta è rimasto tre giorni"* cfr. trascrizione dell'udienza del
2018. p. 13), durante i quali non lasciava soldi in casa. Erano stati, quindi, i genitori di due bambini che frequentavano la stessa scuola dei figli della p.o. a portarle, in quelle occasioni, spontaneamente del cibo, dei biscotti e altri generi alimentari.
Più volte, inoltre, l'odierno imputato la invitava ad abbandonare la casa, richiesta a cui la donna opponeva il suo rifiuto, non volendo lasciare i figli.
E ancora, la p.o., confermando quanto riportato nel verbale di polizia locale del 24 gennaio 2018, ha raccontato che, quando si recavano insieme a fare la spesa, la relegava a portare le borse più pesanti, sostenendo che fosse fisicamente più capace *("Sì, qualche volta mi diceva: 'Devi farlo tu, devi portarli tu perché fisicamente sei capace di farlo"* cfr. trascrizione dell'udienza del 12.11.2018 p. 15) e che, davanti alle sue richieste di acquistare un capo di abbigliamento, le rispondeva ***"[...] Tu sei grassa, è difficile trovare un capo che va bene per te"*** (cfr. trascrizione dell'udienza del 12.11.2018 p. 16). Con riferimento all'arco temporale in cui si sono svolti i maltrattamenti e le violenze contestate, la p.o. ha precisato che i problemi erano iniziati dal 2009, quando era nato il figlio Y 'e, all'epoca, il marito lavorava saltuariamente. Pur dichiarando che il clima maltrattante e di violenze si era protratto per un periodo non eccessivamente lungo, ha subito dopo confermato che il figlio K che temeva per l'incolumità della madre, aveva ripreso il padre che la picchiava e quest'ultima circostanza si era verificata nel mese di Febbraio del 2018 (cfr. trascrizione dell'udienza del 12.11.2018 p. 20)

TESTE E B*

Il teste B< , agente in servizio all'ufficio Prevenzione Generale della Questura di >, consultando l'annotazione di servizio a sua firma del 12.1.2018, ha ricostruito l'intervento effettuato presso l'abitazione dei coniugi E_ H c, in via R nel gennaio 2018.

In particolare, l'agente ha confermato di essere stato chiamato dall'odierno imputato il quale aveva segnalato una lite con la moglie. Quanto al motivo della suddetta lite, si legge nell'annotazione di servizio, che l'odierno imputato aveva riferito che risiedesse nel fatto *"che quest 'ultimo aveva perso il lavoro da pochi mesi e a suo dire la moglie gli chiedesse troppi soldi nonostante i gravi disagi economici".*
E ancora, sulla base di quanto riportato in annotazione, la donna aveva negato la ricostruzione prospettata dal marito e aveva aggiunto che il denaro richiestogli sarebbe servito al mantenimento dei figli (non presenti sul luogo) e alle spese ordinarie della casa. Anche il teste escusso ha ricordato che la motivazione della lite, prospettatagli dalla p.o., fosse stata il mancato mantenimento dei figli da parte dell'odierno imputato, che costituiva ragione di turbamento per donna *almeno a quanto*

dicevano le Parti, che il motivo scatenante non era stato il motivo del lavoro, ma era per la questione del mantenimento dei figli. Lui non gli dava il mantenimento e quindi questa storia, a lei, turbava. Quello che ricordo è questo!" (cfr. trascrizione dell'udienza del 12.11.2018 p. 22).

All'arrivo della polizia, stando al racconto del teste, *"Loro erano tranquilli.* ***Al nostro arrivo erano tranquilli, non erano agitati. Solo la moglie effettivamente era un attimino...non scossa, però era turbata da questa situazione"*** aggiungendo che ***"[.../Dopo, nel frattempo che si parlava di cosa era accaduto, ha iniziato a piangere, però è stato un pianto di due, tre minuti."*** (cfr. trascrizione dell'udienza del 12.11.2018 p. 22).

TESTE A N,

La teste ha riferito di aver conosciuto la p.o. nel 2011, in quanto entrambe studentesse presso la stessa scuola di italiano, e di aver instaurato con lei un rapporto di amicizia e di confidenza, tanto da indurle a incontrarsi più volte alla settimana, anche al di là del suddetto corso, a sentirsi telefonicamente e a frequentare le reciproche abitazioni. La teste ha precisato che, alla nascita dell'ultimogenito, era stata lei ad ospitare in casa gli altri figli della p.o. durante la degenza ospedaliera della loro mamma.

In merito alla relazione della p.o. con l'odierno imputato, la teste ha riferito di essere a conoscenza, in quanto raccontato dalla p.o., che EH"un paio di volte aveva buttato il cibo nella spazzatura perché sosteneva che la cucina della moglie non fosse di suo gradimento, accompagnando tale gesto con *"[...] qualche cosa di offensivo"* (cfr. trascrizione dell'udienza del 25.10.2018 p. 5). Inoltre la teste ha descritto un episodio, che non è riuscita a contestualizzare precisamente nel tempo, non ricordando se fosse accaduto nel 2014 o nel 2015, in cui lei si era imbattuta nella p.o. che piangeva per strada

"[...] perché voleva comprarsi un paio di pantaloni, ma il marito gli ha detto che deve andare a lavorare per comprarsi quello che vuole. Ha pianto tantissimo quel giorno lì. " (cfr. trascrizione dell'udienza del 25.10.2018 p. 5) ('Wo. ***Stava malissimo perché... ha pianto*** *Quello che mi ricordo che ha pianto, che ha voluto qualcosa che...che lui si è comportato così con le?* - cfr. trascrizione dell'udienza del 25.10.2018 p. 6).

La teste ha, inoltre, confermato anche una serie di ulteriori episodi, già narrati dalla p.o..

In particolare, quest'ultima le aveva riferito che, quando il figlio K. era ancora piccolo, lei gli aveva comprato un paio di sandali, pagati un euro, e il marito, in presenza del bambino, "Zz *ha buttati in faccia dicendo che butta via i soldi così"* (E, ancora, *"No, ha detto che* ***gli ha buttato in faccia, dicendo che stava buttando i soldi, che non conosce il valore dei soldi"*** cfr. trascrizione dell'udienza del 25.10.2018 p. 6).

In aggiunta, la teste ha riferito di essere a conoscenza di un altro avvenimento, anch'esso narratole dalla p.o., in cui quest'ultima si trovava a *"[...] Bi ' , dove c'è l'A\ dopo* ", ed era stata spinta dall'odierno imputato, in presenza dei figli, tanto da destare l'attenzione di un passante che, dalla macchina, era intervenuto, invitando l'odierno imputato a non comportarsi in quel modo (cfr. trascrizione dell'udienza del 2018. p. 7).

Su contestazione del PM, la teste ha, altresì, ricordato, pur non rammentandone i dettagli, che la p.o. le aveva riferito di avere ricevuto, in un'altra occasione, un pugno violento sulla spalla ad opera del marito e di non avere richiesto l'intervento dei sanitari, pur in presenza di un forte dolore.

Quanto alle motivazioni delle suddette aggressioni, in aggiunta alle riferite problematiche economiche, la teste ha raccontato di essere a conoscenza anche di altre motivazioni, ovvero "motivi intimi", intendendosi come tali - come precisato a seguito di richiesta del PM - motivi legati ai rapporti sessuali e all'intimità della coppia *{"Si, perché lei o è stanca o non ce la fa. Ci sono altri problemi."* (cfr. trascrizione dell'udienza del 2018. p. 8).

In particolare, la teste ha confermato quanto dichiarato il 21.02.2018 in sede di SIT, ovvero che, pur non essendole stato riferito di alcuna violenza sessuale, l'amica le aveva confidato che il marito voleva avere spesso rapporti sessuali ma che, avendo problemi di erezione, la incolpava di non essere capace di fargli provare piacere, *"[...] Circostanza che genera mortificazione, stato d'ansia nella mia amica"* (cfr. trascrizione dell'udienza del 25.10.2018 p. 8).

La teste ha proseguito poi la sua deposizione riferendo che nel giugno 2017 la p.o. doveva partire per l'Egitto insieme ai figli e, non riuscendo a trovare un taxi, era in attesa del marito di un'amica che l'avrebbe condotta in aeroporto; in quell'occasione, in ragione del contrattempo verificatosi, la teste aveva sentito una *"[...] pressione molto molto alta..."* e, confermando quanto dichiarato in sede di SIT, aveva notato che ***"[...] E.*** Fi

H cominciava ad alterarsi, avvicinandosi alla moglie in modo minaccioso, accusandola che la colpa di tale attesa fosse sua senza però colpirla né inveire contro di lei" (cfr. trascrizione dell'udienza del 25.10.2018 p. 9).

E ancora, la teste, che intratteneva rapporti anche con i figli della coppia, ha raccontato che una volta il bambino più piccolo le aveva detto che il padre lo colpiva con la cintura, con le ciabatte o con il cucchiaio di legno, mentre J e aveva confermato che la madre era stata spinta dal padre presso il parcheggio del Ciò nonostante, la teste ha dichiarato di non avere mai visto lividi sui bambini e di non ricordare con precisione se tali episodi fossero accaduti più di una volta.

Quanto alla gestione del denaro in casa, la teste ha confermato di essere a conoscenza del fatto che l'odierno imputato consegnava alla moglie, una volta alla settimana, dieci euro per andare al mercato, precisando ***""Parliamo della settimana che sono dieci euro per fare la spesa, frutta, verdura e dare il resto anche indietro. Nel senso che, posso dire che, quello che compra la mia amica non piace al marito. Critica quello che compra. Quindi o dieci o cinque euro, ma sempre lui critica quello che compra"'***

(cfr. trascrizione dell'udienza del 25.10.2018 p. 12). Inoltre la p.o. le aveva confidato di essere accusata dal marito di non sapere gestire i soldi, di non sapere comprare e di acquistare spesso cose che non servivano a niente in casa.
E, ancora, con riferimento alla scuola di italiano, la teste ha raccontato che la p.o. era stata collocata in una classe di pari livello al suo. Diversamente dalle altre compagne, tuttavia, la p.o. aveva abbandonato a causa delle critiche rivolte dal marito che l'avevano demoralizzata e resa insicura ***("[...] Perché A'. , non so come dire, ha avuto una specie di depressione "ma tu non sei capace, non hai il livello di parlare, non hai la capacità, non sai fare niente"*** (cfr. trascrizione dell'udienza del 25.10.2018 p. 13)

TESTE S] M
Anche la teste M ha fornito ulteriore conferma alla ricostruzione dei fatti già operata dalla p.o..
Innanzitutto, la donna ha raccontato di aver conosciuto A E N; nel 2006, in quanto i figli di entrambe frequentavano la stessa scuola elementare. Dal 2006 a oggi, la teste ha riferito di avere ricevuto alcune confidenze dalla p.o. che attenevano, prevalentemente, alla sua situazione economica.
In particolare, la teste ha dichiarato di aver visto *"Una volta, due volte. Massimo tre"* la p.o. piangere perché il marito le dava meno di quanto necessitasse*("Per esempio, il marito dice 20 euro per la spesa, lei vuole 40 euro, solo questa cosa"* cfr. trascrizione dell'udienza del 25.10.2018 p. 15) e, in un'occasione, ***" Perché non c'erano i soldi, perché il marito non aveva lasciato i soldi per comprare i pannolini"*** (cfr. trascrizione dell'udienza del 25.10.2018 p. 16). In quest'ultima circostanza, la teste ha dichiarato di aver provveduto lei stessa a comprare i pannolini, pur contro la volontà della p.o., che non accettava facilmente regali.
E, ancora, ha riferito di essere a conoscenza del fatto che l'odierno imputato rivolgeva alla moglie "brutte parole", senza che quest'ultima le avesse mai specificato di che parole si trattasse, e ha negato di avere mai appreso, o assistito a violenze fisiche e sessuali perpetrate ai danni dell'amica.
Tuttavia, la teste ha confermato un'ulteriore circostanza, ovvero che A le aveva consegnato 980,00 euro in contanti - corrispondenti ad un bonus concessole in relazione ai figli - chiedendole di custodirli, sia per timore che se ne impossessasse il marito, sia perché *"Voleva essere abbastanza indipendente. Quando voleva qualche cosa..."* (cfr. trascrizione dell'udienza del 25.10.2018 p. 20).
Quanto alla gestione economica familiare, la teste ha ricordato che la p.o. andava in Chiesa a farsi aiutare, in quanto diceva sempre che il marito non lavorava e, su contestazione del PM, ha confermato quanto dichiarato in sede di SIT (in data 21.2.2018) ovvero che la p.o. le aveva riferito che ***"[...] il marito le rendeva la vita difficile in quanto non la sosteneva economicamente e privava sia lei che i bambini anche dei generi di prima necessità"*** (cfr. trascrizione dell'udienza del 25.10.2018 p. 21).

TESTE P LI
Il teste P; " ', direttore della filiale della Banca ,
ha fornito informazioni in merito al conto n. , intestato all'odierno imputato.
Riscontrato dalla produzione documentale agli atti che dall'estratto conto del 31.3.2018 emergeva che il saldo del conto corrente alla data suddetta era pari ad Euro 32.968,66, mentre al 31.3.2017 era pari a Euro 63.152,65 Euro, il teste ha precisato che l'odierno imputato era l'unico intestatario, nonché unico soggetto deputato ad operare sullo stesso.
Con riferimento alle transazioni effettuate, il teste ha confermato che l'odierno imputato ha disposto del denaro sul conto, sia utilizzando il bancomat con pagamenti POS, sia emettendo assegni sotto i 2.000,00, sia compiendo operazioni di prelevamento presso gli ATM bancomat. Tali operazioni risultano riscontrate sia dall'estratto conto, sia dagli appunti di sintesi relativi alle movimentazione degli assegni di cui al C/C in questione, entrambi acquisiti agli atti.
Il teste ha confermato, tuttavia, che il saldo aggiornato al 23.11.2018 si era, infine, ridotto ad Euro 255,99.

TESTE R A
Dirimente ai fini della ricostruzione dei fatti, è stata anche la deposizione della teste R , tutor di K figlio maggiore della coppia) per l'intero ciclo delle
scuole medie, dall'inizio del 2015 a giugno del 2018.

In merito alla situazione familiare, la teste ha testualmente dichiarato *"Sì, K 'mi parlò della situazione familiare a marzo del 2018 quando intervenne la Polizia.* ***Lui mi raccontò che il papà picchiava la moglie e i figli e che, per questo motivo, la mamma lo aveva denunciato; che lui, a sua volta, aveva registrato l'audio di questi episodi*** *e che la Polizia aveva sequestrato questo audio come prova, e che il padre era stato allontanato da casa e che non aveva neanche il permesso di avvicinarsi a scuola, e che lui si aspettava questo momento.* ***Io gli ho chiesto come si sentiva e lui mi ha risposto: "Io mi aspettavo questo momento"*** (cfr. trascrizioni udienza del 26.11.2018 p. 7).
La teste R ha, inoltre, raccontato che K aveva difficoltà nell'apprendimento, non giustificabili sulla base di mere problematiche linguistiche e che, per tale ragione, già a febbraio del 2016, la famiglia era stata indirizzata all'UONPIA che aveva formulato una diagnosi a dicembre 2017. Nel settembre 2016 era pervenuta alla scuola anche una diagnosi dal D G in cui emergevano problematiche di ***"enuresi notturna, di ansia da prestazione e di una povertà lessicale, e di una necessità di un esame neuropsicologico"*** e, ad aprile 2018, la dott.ssa M (dell'UONPIA) aveva
riferito alla teste che, a suo dire, "[...] le difficoltà cognitive di K erano dovute ad una difficoltà emotiva" (cfr. trascrizioni udienza del 26.11.2018 p. 8).

TESTE H ED H A R IL

Anche la teste H amica della p.o., ha confermato che quest'ultima piangeva sempre perché non andava d'accordo con il marito, in quanto questi non le dava i soldi né per lei né per i bambini *("Sì, la foto della classe. Sì. Pagato io. Quando Y< vuole gelato, merendina ...anche la scuola, non c'è. Lei non mi presta... soldi, però io visto bambino che piange"* (cfr. trascrizioni udienza del 26.11.2018 p. 10) e A ' aveva paura di spendere perché, se l'avesse scoperta, il marito si sarebbe arrabbiato. Infine, la teste ha confermato di essere a conoscenza del fatto che la famiglia avesse difficoltà economiche, nonostante l'odierno imputato "lavorava bene".

TESTE A< M

Il teste, in servizio presso il Nucleo Tutela Donne e Minori della Polizia Locale, è stato chiamato a deporre in merito all'indagine svolta su delega del PM in relazione al presente procedimento.

L'agente A ha riferito che, in occasione della notifica all'odierno imputato della misura cautelare applicata nei suoi confronti, aveva incontrato i figli di E H che ha definito ***"[...] visibilmente contenti dell'allontanamento del padre..."*** (cfr. trascrizioni udienza del 26.11.2018 p.12). Inoltre, il teste ha raccontato che, nella medesima circostanza, il figlio di 14 anni K gli aveva confidato di avere registrato con il suo cellulare degli audio *"quando il padre, di notte, di solito importunava la madre insultandola e picchiandola"* (cfr. trascrizioni udienza del 26.1 1.2018 p.12), precisando che il ragazzo gli aveva sottolineato il fatto che le registrazioni fossero state effettuate di sua iniziativa e di nascosto dal padre, in quanto il ragazzo era preoccupato che, qualora l'imputato se ne fosse accorto, si sarebbe maggiormente accanito sulla madre. I file audio, in lingua araba, erano quindi stati materialmente acquisiti sul posto, riversati su una chiavetta USB e successivamente su un CD.

In aggiunta, il teste ha raccontato di aver detto a K; di contattarli qualora il padre, in violazione del divieto di avvicinamento, avesse tentato di rientrare a casa e che il ragazzo, nei giorni seguenti, li aveva avvisati del fatto che l'odierno imputato l'aveva avvicinato, in due o tre occasioni, all'uscita di scuola, promettendogli dei regali e sempre con modi affabili. Ciò nonostante, tali avvicinamenti del padre infastidivano K e lo spaventavano tanto da indurlo a chiedere consigli su come comportarsi.

TESTE W O

La deposizione della teste, in quanto ausiliario di P.G. che ha coadiuvato il Nucleo Tutela donne e minori ai fini della traduzione dei file audio registrati dal figlio dell'imputato, non ha avuto luogo in ragione dell'incompatibilità a testimoniare ai sensi dell'art.197 c.p.p..

ESAME IMPUTATO

Giova premettere che l'esame dell'imputato (reso all'udienza del 17.12.2018) è stato svolto con non poche difficoltà non solo di tipo linguistico (l'imputato non si è voluto avvalere dell'interprete messogli a disposizione, così rendendo più gravosa la comprensione e la successiva ricostruzione dei fatti) ma, soprattutto, derivanti dal modo aggressivo di rendere le risposte (circostanza che si coglie agevolmente anche dalla lettura delle trascrizioni, emergendo che l'imputato talvolta non attendeva neppure la formulazione delle domande ma anticipava le risposte) così da ostacolare uno svolgimento lineare e chiaro della deposizione. In merito ai fatti contestatigli, E' H su domanda del PM, ha fermamente negato di avere mai picchiato la moglie (PM: *"Domanda specifica; lei ha mai picchiato sua moglie!",* IMPUTATO: *"No",* PM: *"Mai!",* IMPUTATO: *"Mai"),* per poi precisare testualmente ***"Però, magari, un po' nervoso, forse, alzo la mano, però mai picchiato"*** (cfr. trascrizioni udienza del 2018. p.7). Richiesto dal PM di dettagliare maggiormente la sua affermazione, l'imputato ha specificato ***"Nel senso che lei fa una cosa brutta, io mi sgrido,*** *però non picchiato, mai picchiato la mia moglie [...].* ***Io ho sgridato, però non picchiato "*** (cfr. trascrizioni udienza del 17.12.2018 p.7).

Inoltre, con riferimento all'accusa di maltrattamenti, anche ai danni dei figli, l'imputato ha, in un primo momento, sostenuto che fosse la moglie a chiedergli di picchiarli

{PRESIDENTE: "[...] era sua moglie che le chiedeva di picchiare i bambini? IMPUTATO: "Esatto"} per poi ritornare a negare l'addebito *{PM: "Lei li picchiava quindi i suoi figli?, IMPUTATO: "No" [...] Non ho picchiato signora"* cfr. trascrizioni udienza del 17.12.2018 p.8-9), limitandosi ad affermare di aver sgridato il figlio più grande per indurlo a studiare (***"Urlavo, sì, sgrido, sì, vado dietro di lui per fare la cosa giusta, sì, studiare, sì. Cinque o sei tutto l'anno, per tre anni"*** cfr. trascrizioni udienza del 17.12.2018 p.9).

Alla domanda del PM, che ha chiesto all'imputato se avesse mai costretto la moglie ad avere rapporti sessuali, questi ha risposto di avere problemi alla prostata da circa vent'anni, peggiorati negli ultimi cinque anni e, per tale ragione, non sarebbe stato in grado di avere rapporti sessuali *{PM: "Ha mai costretto sua moglie ad avere rapporti sessuali con lei?", IMPUTATO: "Ti spiego questo; mia moglie, prima di tutto, io ho la prostata. La prostata da circa venti anni "Perché se c'è qua un medico, mi dice la prostata, vuol dire che io (ine) con mia moglie e il medico va giù, vuol dire la forza... ", PRESIDENTE: "Non riesce ad avere rapporti sessuali?" IMPUTATO: "Non c'è più"* e ancora "[...] *se io ho questa malattia, vuol dire che il liquido va giù, la forza, non voglio toccare mia moglie. Allora perché tu usa la forza (ine) la forza è con lei"* cfr. trascrizioni udienza del 17.12.2018 p.9).

Tuttavia, su richiesta di precisazioni da parte del Presidente, P imputato ha riferito di avere avuto l'ultimo rapporto sessuale con la moglie tre mesi prima, ammettendo implicitamente di aver anche violato il divieto di avvicinamento impostogli (di cui ha sostenuto di ignorare il contenuto fino al mese precedente), perché contattato "parecchie volte" dalla p.o., che gli avrebbe chiesto di ritornare a casa.

L'imputato ha poi riferito di non avere mai fatto mancare nulla alla propria famiglia, grazie ai risparmi accumulati con i lavori svolti in passato e che, solo circa dieci giorni prima dell'arrivo degli assistenti sociali che l'avevano allontanato dalla casa familiare, lui aveva "sgridato" la moglie per le sue eccessive pretese di denaro, formulate nonostante lui non lavorasse da circa due anni *("Da questi dieci giorni, **io ho sgridato lei perché, lei vuole i soldi, io sono rimasto circa due anni non lavoro" e,*** ancora, *"Però non vado al ristorante per mangiare. Prima vado, quando lavoravo sempre, lei vuole così: vuole la macchina, **vuole buttare soldi per aria.** Va bene "(...) "Mia moglie vuole così"* cfr. trascrizioni udienza del 17.12.2018 p.l 1).

Su domanda della parte civile, l'imputato ha poi confermato di possedere un conto corrente in Piazza ' sul quale era depositata una cospicua somma di denaro, accumulata durante gli anni di lavoro svolti.

In merito alla contestazione di aver picchiato la p.o., perché tornata in casa dopo avere acquistato un paio di sandali, pagati un euro, l'imputato non è stato in grado di offrire alcuna spiegazione, limitandosi, in modo assai confusionario, ad affermare testualmente 15 /)

"Si, okay, ***mia moglie è abituata, dice questa cosa,*** *ma è farla (fonetico).* ***Cosa vuol dire 2 euro, va bene, cos'è?*** *Cosa vuol dire 2 euro, una cazzata, però lei può andare o vedere qualche lavoro, nella strada c'è pescecane!"* cfr. trascrizioni udienza del 17.12.2018 p.12), lasciando intendere che la moglie avrebbe sbagliato perché nel tempo ha sperperato il denaro, senza dare allo stesso il giusto valore.
E ancora, con riferimento alle circostanze emerse dal racconto dalla p.o. e degli altri testi e, in particolare, circa il fatto che, nonostante egli avesse circa 62,000 Euro sul conto, la moglie fosse costretta - a chiedere soldi in prestito alle amiche per comprare i pannolini; - a rivolgersi alla Caritas, ricevendo soltanto 10,00 euro alla settimana per fare la spesa e, ancora, che lui le avesse negato financo l'acquisto di un paio di pantaloni; l'imputato ha riferito quanto segue.
In merito alla necessità della p.o. di rivolgersi alla Caritas o alle amiche per ottenere dei pannolini, E H< ha dichiarato che tali problemi di natura economica si erano verificati soltanto in relazione al figlio più grande, circa quindici anni prima, quando l'uomo non aveva ancora messo da parte l'importo di cui attualmente ha disponibilità *(PRESIDENTE: "Quindi è una cosa che è successa solo per il primo figlio e non avevate ancora soldi da parte, ho capito bene?", IMPUTATO: "Esatto"* cfr. trascrizioni udienza del 17.12.2018 p.13).
Con riferimento all'episodio dei pantaloni, l'imputato ha raccontato di essere lui deputato all'acquisto dell'abbigliamento per la moglie, che non poteva provvedervi da sola perché, pur essendo *"grossa",* acquistava capi che non erano della sua misura *("[...] signora,* ***mia moglie è grossa, piace la cosa buona. Anch'io piace comprare la cosa buona, io non mi piace comprare la cosa normale, abituato a fare così, o fare la cosa buona o niente.*** *Vuol dire che io vado in giro a cercare lavoro o vado in giro a cercare un pantalone della sua misura. Vado in giro a cercare quando c'è un pantalone o una giacca, una maglia, una cosa per lei, non c'è. Quando vado e ho trovato, gli ultimi anni, quella si chiama, non lo so, di via 1 ò, non mi ricordo il nome, è un negozio; c 'era la*
misura grande, okay? Vado di là a comprare: "Non mi piace". "Io ho pagato, ho comprato la misura". "Hai comprato grande", [...] PARTE CIVILE: "[...] perché andava lei signor E' H a comprare i pantaloni a sua moglie? Perché non poteva andare sua moglie? IMPUTATO: "perché ***parecchie volte lei è andata a comprare, non piaciuto, è stretto, portato via. Parecchie volte"*** cfr. trascrizioni udienza del 17.12.2018 p. 13-14).
Interrogato sui problemi del figlio maggiore K; , l'imputato ha negato che questi soffra di alcun problema di salute, sminuendo gli episodi di enuresi notturna, qualificati dall'uomo come un *"gioco"* ***("Mio figlio è normale, non c'è problema di salute,*** *diciamo, sì.* ***Piscia nel letto, quello grande. Questo non è un problema, forse, diciamo è un gioco,*** *non lo so perché io l'ho preso tante volte, andato dal dottore"* cfr. trascrizioni udienza del
2018. p.14), negando eventuali responsabilità e ricollegando i disagi del figlio a possibili deficit cognitivi *("[...] ma non è forse colpa mia o colpa di mia moglie, no, questo arriva da lui. C'è anche un punto importante, un 'altra, non lo so, malattia o non lo so cos 'è; lui, magari, se legge una carta, lui ascolta, però non è (ine) sua testa, non è... ",* cfr. trascrizioni udienza del 17.12.2018 p. 15).
A seguito della domanda rivolta dalla parte civile in merito a eventuali minacce o ingiurie proferite nei confronti della moglie e dei figli, l'imputato ha risposto testualmente: ***"Io sgrido parolaccia, sgrido forte, okay. Sarebbe solo per paura, per non fare la cosa male dei bambini,*** *quelli piccoli perché, tante volte hanno fatto il male di lui, di loro. Anche quello medio, ha fatto il male di quello piccolo e sgridato per lui, però mai picchiato"* (cfr. trascrizioni udienza del 17.12.2018 p.15).
Nel prosieguo della sua deposizione, l'imputato ha continuato a evidenziare come i problemi familiari derivassero dal fatto che la moglie volesse *"tutto e subito"* (cfr. trascrizioni udienza del 17.12.2018 p.15) ma che non avesse voglia di lavorare (a suo dire, aveva lavorato soltanto due settimane facendo le pulizie ma, poi, aveva deciso di interrompere perché non era stata trattata bene), così da fare soffrire l'imputato ogniqualvolta non poteva soddisfare appieno le esigenze della famiglia.
Stando al racconto dell'imputato, anche la scuola di italiano o il corso di pasticceria che la moglie aveva iniziato a frequentare, anziché essere un'occasione di guadagno - come da lui auspicato - si erano rivelati delle occasioni per chiacchierare con gli amici, un passatempo *("Lei stava andando a scuola, però (ine.) non sta andando a scuola, sarebbe che lei sta andando per passatempo, parla lei con gli amici, basta che esce dalla scuola e chiacchierare poi, torna a casa. Questa moglie. Tante volte le ho spiegato: "Se vai a scuola, va, però è importante, hai guadagnato o no? ". Tante volte anche le ho detto: "Vado (ine) prendi un corso di pasticceria o un altro corso, il corso che ti piace, così impari un mestiere" [...] "...quando ha trovato il corso insieme con gli amici per chiacchierare....",* cfr. trascrizioni udienza del 17.12.2018 p. 15 e 16).
Rispetto alla gestione economica, l'imputato ha dichiarato che non era lui a non lasciare soldi affinché la moglie potesse fare la spesa ma che, al contrario, fosse la p.o. a rifiutarsi di occuparsene, chiedendo al marito di farlo in sua vece. L'imputato ha, tuttavia, precisato che **la moglie si recava al mercato a comprare la frutta ma che acquistava sempre della frutta marcia che lui era costretto a restituire** (cfr. trascrizioni udienza del
2018. p. 17).

Giova evidenziare che il quadro probatorio fin qui delineato trova ulteriore riscontro nella documentazione acquisita agli atti.
In particolare nella relazione del 10.12.2018 a firma della dott.ssa N M in
qualità di dirigente psicologa del dipartimento Salute Mentale e delle Dipendenze
dell'ASST S<), cui la p.o. era giunta dopo l'aggressione del gennaio
2018, emerge con dovizia di particolari il clima di violenze e sopraffazioni vissuto dalla p.o. e da questa esposto ai medici che l'hanno avuta in cura.
Infatti, nel documento in atti, la dott.ssa M i ha precisato che ***"la sig.ra Al***
arrivava presso il nostro servizio in uno stato psico-fisico deteriorato conseguente ai lunghi anni di maltrattamenti subiti da parte

del marito E> Al'' ~ Hi
G C..J" e, ancora, che la donna "è ***preoccupata per la propria incolumità e quella dei figli".*** Nel prosieguo, la psicologa ha descritto la relazione coniugale in linea con la ricostruzione esposta dalla p.o., come caratterizzata da condizioni di subordinazione e isolamento, ***"insulti, minacce, umiliazioni, pretese di rapporti sessuali anche non graditi e apertamente rifiutati, rapporti subiti senza desiderio e con umiliazioni verbali e comportamentali, parole di denigrazione e svilimento erano le regola".*** Parimenti, la Mi ha dato atto di aver appreso dalla p.o. che tali condotte maltrattanti erano avvenute durante la gravidanza e in presenza dei figli, i quali risentivano, anche a livello fisico (riportando insonnia, inibizione, stato di allerta, enuresi) del clima di sopraffazione e delle punizioni violente e corporali del padre di cui erano anche vittime dirette.
Stando a quanto riportato all'interno della relazione, la p.o. aveva raccontato anche degli abusi sessuali di cui era stata vittima, riferendo che in un episodio il marito, davanti al suo rifiuto le aveva strappato i vestiti di dosso e l'aveva costretta a subire un rapporto con la forza e che, in altre circostanze, aveva passivamente subito per evitare reazioni di rabbia a causa del suo rifiuto, che si sarebbero potute ripercuotere sui figli.
Anche rispetto alla gestione economica, dal documento emerge quanto già riferito dalla p.o. durante la sua deposizione, ovvero che il marito non forniva alla moglie denaro a sufficienza per occuparsi dei fabbisogni familiari (le dava 10 euro alla settimana), costringendola in tal modo a rivolgersi alla chiesa, o altrove, per ricevere cibo o pannolini per i figli e che, a volte, andava via da casa per giorni non premurandosi di lasciare cibo o denaro per il sostentamento della moglie e dei bambini.
La dott.ssa M ha poi raccontato che la p.o. si era risolta a denunciare le violenze subite grazie anche all'intervento del Nucleo di tutela donne e minori; inoltre, in ragione della permanenza dei gravi comportamenti del marito e delle minacce, era stata emessa una misura cautelare nei suoi confronti. Nonostante il divieto di avvicinamento disposto, la M ha dato atto di aver ricevuto dalla p.o. la segnalazione della violazione del suddetto divieto da parte dell'imputato che ***"si presentava fuori da casa o dalla scuola del figlio maggiore impaurendoli, ricattandoli o cercando di intimidirli; cercava di confondere la moglie minacciandola di farle del male, farle portare via i figli o di rovinarla nel momento in cui ella non ritirasse le denunce o si separasse. ".***
Con riferimento al quadro clinico, infine, della p.o. il medico afferma che ***"Ha paura ed è molto depressa. Ha una personalità molto inibita e coartata in seguito all'isolamento e alle violenze psicologiche subite, i sintomi psichici sono simili a chi ha subito uno stato di deprivazione di libertà e autonomia***

Infine, dalle trascrizioni delle registrazioni agli atti, si evince come l'odierno imputato, oltre a insultare e criticare aspramente la moglie, la minacciasse di non fornire più le medicine ai figli, invitandola piuttosto a rivolgersi alla madre o al Tribunale *{Marito: "Se ti servi qualcosa chiedilo a tua madre. Se c'è qualcosa che non ti va bene rivolgerti al Tribunale. Così, abbiamo finito il discorso/ Moglie: Cosai Significa che non porti neanche il medicinale al bambino?/ Marito:* ***Neanche un centesimo"*** e ancora *"Moglie: Hai pagato le bollette dell'elettricità?/ Marito:* ***Non pago né bollette né affitto" [...]*** *Moglie: "Non vai a portare il latte?/Marito: "Non porto niente. ").* Ancora, è evidente come la maggior parte delle liti intercorrenti tra i coniugi avesse ad oggetto la mancata corresponsione, da parte dell'E H di quanto necessario al sostentamento della famiglia. In aggiunta, è stato possibile leggere le lamentele della donna che, stando a quanto trascritto, fa presente al marito di essere costretta ad andare al supermercato con 40 euro al mese, di essere stata picchiata (Moglie: *Sai solo picchiare, una volta con una scarpa, un 'altra con...")* e insultata *{Moglie: "Tu sempre mi insulti davanti ai bambini").* Dalle conversazioni riportate, sembra che in un'occasione l'odierno imputato tenti di allontanare la moglie dal letto coniugale, disturbandola, impedendole di dormire e toccandola contro il suo volere. In un'altra circostanza la donna lo invita ad abbassare le mani, minacciandolo di chiamare la polizia *{"Moglie: Abbassa la tua mano se no chiamo la polizia")* e risulta che, spesso, l'imputato si rivolga a lei con tono offensivo e denigratorio *{Moglie: Non devi pagare la bolletta del gas e quella dell'elettricità?/ Marito: Ma tu cosa c'entri? Questa è casa mia. Non voglio sentire la tua voce. Non voglio parlare con te e neanche vederti! Non pago* "). E ancora, a fronte della richiesta della donna di spegnere la tv, dal momento che la bolletta non veniva pagata da tanti mesi, l'imputato la minacciava testualmente *"Prova a toccarla ed io infilo il mio dito nei tuoi occhi e li tiro fuori"* e ancora ***"Faccio quello che mi pare. Se non ti piace, sbatti la testa contro il muro...*** *Vai da tuo padre. Vai da tua madre ".*

Ai fini del decidere, giova innanzitutto premettere che, per consolidato indirizzo giurisprudenziale accolto da questo Collegio, la deposizione della persona offesa dal reato può costituire da sola fonte di prova ed essere assunta dal giudice a fondamento del proprio convincimento, al pari di qualunque altra deposizione, senza necessità che sussistano riscontri esterni, non essendo ad essa applicabile il canone di valutazione della prova previsto dagli art. 192 c.p.p., commi 2 e 3.
Sotto tale profilo, dunque, le dichiarazioni accusatorie della persona offesa devono essere considerate come un mezzo di prova contenente una presunzione di attendibilità. In ogni caso, la testimonianza della persona offesa, costituita parte civile, deve essere valutata con estremo rigore al fine di apprezzarne la portata probatoria e, dunque, deve essere sottoposta ad un vaglio di attendibilità soggettiva ed oggettiva sicuramente più attento e rigoroso rispetto alla generica valutazione cui vengono sottoposte le dichiarazioni di un qualunque testimone (cfr. *ex multis* Cass. Pen. Sez. 1 24.9.97 n. 8606, Bello, sez 6 28.5.97 n. 4946, Orsini, 14.6.00 sez. 1 n. 7027, Di Telia, sez 3 26.1.06 n. 39366, 27.4.06 n. 34110).
Nel caso di specie, come già anticipato, il racconto della persona offesa risulta caratterizzato da coerenza intrinseca desunta dalla spontaneità, precisione, coerenza e linearità del suo racconto nel quale ha illustrato l'evolversi del rapporto col marito. Quanto alla coerenza estrinseca, occorre mettere in rilievo la convergenza del narrato della p.o. con le deposizioni degli altri testi escussi, nonché l'insussistenza di ragioni di segno contrario tali da indurre a ritenere non credibile la testimonianza dalla stessa resa. Deve, quindi, concludersi che dalle prove raccolte in dibattimento emerge con estrema chiarezza il clima di

sopraffazione in cui la p.o. e i suoi figli sono stati costretti a vivere. Le emergenze processuali hanno, infatti, consentito di delineare un contesto familiare in cui la violenza economica, psicologica, fisica, finanche sessuale, ha fatto a lungo da padrona, protraendosi dal 2009 al febbraio 2018, e posta in essere da E H; attraverso atteggiamenti inequivocabilmente denotanti la volontà di soggiogare e mortificare la moglie, imponendole un sistema di vita penoso ed umiliante.
In particolare, quanto al reato di maltrattamenti, contestato al capo 1) dell'imputazione, è emerso come l'imputato abbia innanzitutto costretto la famiglia a vivere in un regime penoso, caratterizzato da privazioni economiche e mortificazioni, venendo meno agli obblighi di assistenza morale, materiale e di collaborazione, la cui mancata osservanza consente di ritenere integrata la fattispecie di cui all' art. 572 c.p..
In particolare, è emerso che, nonostante la provata disponibilità finanziaria sul conto corrente dell'odierno imputato - come confermata dalla deposizione del teste L P ' e dall'estratto conto in atti, E' H; era l'unico intestatario del conto e metteva a disposizione della moglie soltanto dieci euro a settimana, pretendendo che fossero sufficienti a provvedere ai fabbisogni familiari.
In alcune circostanze, inoltre, l'uomo si era allontanato da casa, lasciando i familiari del tutto privi di denaro. E ancora, dalle trascrizioni dei file audio (consegnati dal figli agli agenti intervenuti) risulta chiaro che l'imputato abusava della sua forza economica per minacciare la moglie di non fornire addirittura le medicine per i figli o di non pagare l'affitto e le bollette della luce, a meno che la donna non si fosse piegata al suo volere.
Lo stato di frustrazione della p.o., costretta, nonostante le disponibilità economiche del marito, a chiedere aiuto alla parrocchia per comprare i pannolini ai figli, è stato confermato dalle deposizioni delle testimoni A Ni , SI M EH se ne avevano raccolto le confidenze e l'avevano aiutata più volte; peraltro, l'avevano vista piangere a causa del regime di privazione a cui era stata costretta dal marito.
Parimenti provati risultano i comportamenti dell'imputato connotati da violenza psicologica e fisica, rivolta tanto nei confronti della moglie che dei figli.
Risulta infatti che E H esercitasse un totale controllo sulla moglie, isolandola, sostituendosi a lei, anche nella scelta dei capi d'abbigliamento da acquistare, insultandola, umiliandola e denigrandola, circostanze riferite dalla p.o. (testualmente *"Mi diceva che io sono pazza. Alla fine ha iniziato ad insultare i miei genitori... 'Che* ***tu non capisci niente'.*** *Qualche volta mi diceva 'Stai zitta'. Non mi ricordo altro. Ogni volta, qualche volta* ***mi minaccia di picchiarmi con le scarpe"*** e, ancora, *"[...] Tu* ***sei grassa, è difficile trovare un capo che va bene per te")*** e confermate dalle trascrizioni degli audio in atti, in cui si legge che, in diversi passaggi, l'imputato zittisce la moglie e offende sia lei, sia la sua famiglia d'origine.
E ancora dal racconto della p.o. risulta che in un'occasione era stata picchiata in testa dall'imputato con una scarpa, in un'altra era stata picchiata *"due volte* ***con un pugno"*** sulla spalla (cfr. trascrizione dell'udienza del 12.11.2018 p. 14), tanto da indurre un passante a intervenire; un'altra volta le aveva scagliato contro un bicchiere di vetro, che solo per caso non l'aveva colpita e ancora, in un'altra circostanza, davanti al rifiuto della donna di lasciargli il suo cellulare, glielo aveva lanciato addosso. Fin quando, in occasione dell'ultimo episodio avvenuto nel gennaio 2018, il marito le aveva cinto il collo con le mani, per poi simulare di volerla colpire con un pugno.
È appena il caso di evidenziare, a ulteriore conferma di quanto narrato dalla p.o. e del suo stato di prostrazione e soggezione al marito, che le testimonianze delle amiche depongono in senso univoco. Queste ultime, infatti, l'hanno più volte vista in lacrime e nella relazione della dott.ssa M si legge, in merito allo lo stato psico-fisico della donna, quanto segue ***"Ha paura ed è molto depressa. Ha una personalità molto inibita e coartata in seguito all'isolamento e alle violenze psicologiche subite, i sintomi psichici sono simili a chi ha subito uno stato di deprivazione di libertà e autonomia***
I racconti della p.o., trovano ulteriore conferma nella deposizione della teste **R:** (tutore del figlio maggiore della coppia, K E , durante l'intero ciclo delle scuole medie), atteso che dalle parole di quest'ultima emerge che il comportamento violento dell'imputato si estrinsecava anche nei confronti dei figli, che venivano picchiati con la cintura (***"quando sbagliavano li picchiava con la cintura Sulle gambe"*** (cfr. trascrizione dell'udienza del 12.11.2018 p. 8) e con il cucchiaio di legno ed erano spesso spettatori diretti delle aggressioni del padre nei confronti della loro madre.
In particolare, la teste R ha evidenziato che era stato lo stesso K a raccontarle ***"che il papà picchiava la moglie e i figli e che, per questo motivo, la mamma lo aveva denunciato"*** (cfr. trascrizioni udienza del 26.11.2018 p. 7) e anche la teste A.

N. ha confermato che una volta il bambino più piccolo le aveva detto che il padre lo colpiva con la cintura, con le ciabatte o con il cucchiaio di legno, mentre J .e aveva confermato che la madre era stata spinta dal padre presso il parcheggio del Carrefour.

Chiare risultano le ripercussioni di tale gravosa situazione sul benessere psicofisico dei bambini e, soprattutto, del figlio più grande, il quale, stando al racconto della teste R , secondo una diagnosi del D riporta problematiche di *"enuresi notturna, di ansia*

*da prestazione e di una povertà lessicale, e di una necessità di un esame neuropsicologico''*e, ancora, ad aprile 2018, la dott.ssa M (dell'UONPIA) le aveva riferito che "[...]

le difficoltà cognitive di K 'rana dovute ad una difficoltà emotiva".

L'incidenza negativa dei comportamenti dell'imputato sui bambini della coppia si coglie, in intuitivo, dalla deposizione del teste **A** che, intervenuto per dare applicazione alla

misura cautelare del divieto di avvicinamento a carico dell'odierno imputato, ha riferito che i figli di E H erano ***"[...] visibilmente contenti dell'allontanamento del padre..."*** (cfr. trascrizioni udienza del 26.11.2018 p.12) e che, era stato il figlio maggiore, successivamente, ad avvisarli del fatto che l'odierno imputato l'aveva avvicinato, in due o tre occasioni, all'uscita di scuola, promettendogli dei regali e sempre con modi affabili.

Ciò posto, va evidenziato che, in ragione del solido compendio probatorio sopra descritto, l'esame dell'imputato non ha in alcun modo consentito di pervenire ad una diversa ricostruzione dei fatti.

E H si è, infatti, limitato a negare di avere usato la forza tanto nei confronti dei figli quanto della moglie, fornendo delle spiegazioni assai confuse in merito alle accuse mosse nei suoi confronti. Con riferimento ai fatti integranti il reato di maltrattamenti ai danni della moglie, l'odierno imputato ha provato a minimizzare l'accaduto, sostenendo di essersi limitato a sgridarla per poi precisare testualmente ***"Però, magari, un po' nervoso, forse, alzo la mano, però mai picchiato " [...] "Nel senso che lei fa una cosa brutta, io mi sgrido,*** *però non picchiato, mai picchiato la mia moglie [...]. Io* ***ho sgridato, però non picchiato*** cfr. trascrizioni udienza del 17.12.2018 p.7).

Inoltre, con riferimento all'accusa di maltrattamenti anche ai danni dei figli, l'imputato ha, in un primo momento, sostenuto che fosse la moglie a chiedergli di picchiarli *(PRESIDENTE: "[...] era sua moglie che le chiedeva di picchiare i bambini? IMPUTATO: "Esatto"}* per poi ritornare a negare l'addebito *(PM: "Lei li picchiava quindi i suoi figli?, IMPUTATO: "No" [...] Non ho picchiato signora"* cfr. trascrizioni udienza del 17.12.2018 p.8), limitandosi ad affermare di aver sgridato il figlio più grande per indurlo a studiare ***("Urlavo, sì, sgrido, sì, vado dietro di lui per fare la cosa giusta, sì, studiare, sì.*** *Cinque o sei tutto l'anno, per tre anni"* cfr. trascrizioni udienza del 17.12.2018 p.9). La ricostruzione dei fatti fornita dall'imputato risulta essere non soltanto contraddittoria - l'imputato prima nega di aver picchiato la moglie e poi riferisce di "alzare la mano" e, ancora, prima afferma di picchiare i figli, perché asseritamente richiestogli dalla p.o., per poi negare di usare alcuna

violenza nei loro confronti - ma, in ogni caso, all'evidenza è integralmente smentita dai riscontri esterni, in ragione di quanto narrato da **A E N** e dagli altri testi escussi. Inoltre, con riferimento alla circostanza addotta dal difensore dell'imputato, secondo il quale i maltrattamenti, al massimo, avrebbero avuto luogo soltanto a decorrere dal 2015, giova rilevare che non vi sono elementi per dubitare di quanto riferito dalla p.o., che è risultata pienamente credibile alla luce delle valutazioni già esposte. Quest'ultima ha, infatti, precisato che i maltrattamenti, sebbene acuitisi negli ultimi cinque anni, erano iniziati nel 2009, quando era nato il figlio Y e l'odierno imputato lavorava saltuariamente, mentre inizialmente erano stati, solo in parte, placati dalla presenza in casa della madre di E H

E ancora, questo Collegio non ritiene affatto condivisibile la tesi prospettata dalla difesa, secondo la quale dovrebbe escludersi nel caso di specie la configurabilità del reato di maltrattamenti perché nelle condotte dell'imputato difetterebbe un livello di intensità tale da rendere la situazione familiare intollerabile, né sarebbe stato arrecato un "elevatissimo" grado di sofferenza, con continuità nel tempo.

È palese che le risultanze istruttorie dimostrano inequivocabilmente l'abitualità, l'intensità e la gravità delle condotte poste in essere dall'imputato nel corso degli anni, tali da rendere la situazione familiare talmente intollerabile al punto da ingenerare nei figli un senso di gioia e di liberazione quando è stata eseguita la misura cautelare dell'allontanamento dell'imputato dalla casa familiare, per cui è innegabile l'elevato grado di sofferenza che le condotte maltrattanti hanno provocato nella moglie e nei figli.

Come noto, ciò che caratterizza il delitto di maltrattamenti e lo distingue da un mero fascio di illeciti o di condotte individuali è l'abitualità del comportamento e, quindi, l'unitarietà della condotta, pur nella pluralità delle manifestazioni, le quali costituiscono estrinsecazione di un sistema di vita di relazione abitualmente doloroso ed avvilente per la parte offesa.

Quello che rileva, quindi, è l'abitualità del comportamento denigratorio e fatto di continue privazioni, posto in essere dall'imputato nei confronti della moglie, che, così, si trasforma in occasione di vessazione e di sofferenza per la donna.

Ciò spiega perché, ai fini del delitto in questione, possono venire in rilievo anche comportamenti che, di per sé presi, possono anche essere non penalmente perseguibili: infatti, il disvalore è determinato proprio dalla loro sistematicità, e quindi dalla particolare lesione al bene giuridico che deriva dalla realizzazione di un sistema di vita fatto di sofferenza, determinante uno stato di disagio continuo e penoso ed incompatibile con normali condizioni di esistenza, reso possibile o, comunque, favorito dalla relazione di convivenza (sul punto, cfr. Cass., sez. VI, n. 45037/2010, "il concetto di maltrattamenti di cui all'art. 572 c.p., pur non definito dalla legge, presuppone una condotta abituale, che si estrinseca in più atti lesivi, realizzati in tempi successivi, dell'integrità, della libertà, dell'onore, del decoro del soggetto passivo o più semplicemente in atti di disprezzo, di umiliazione, di asservimento che offendono la dignità della vittima. Il legislatore, con la previsione in esame, ha attribuito particolare disvalore soltanto alla reiterata aggressione all'altrui personalità, assegnando autonomo rilievo penale all'imposizione di un sistema di vita caratterizzato da sofferenze, afflizioni, lesioni dell'integrità fisica o psichica, le quali incidono negativamente sulla personalità della vittima e su valori fondamentali propri della dignità e della condizione umana...").

Venendo al caso in esame, le emergenze processuali indicate rilevano che i rapporto tra l'imputato e la moglie sono stati contraddistinti da un permanente clima di prevaricazione e umiliazione, generato proprio dalla convinzione dell'imputato di essere l'unico in grado di gestire il patrimonio familiare mentre poneva in essere una serie di condotte oggettivamente maltrattanti perché si traducevano un sistema di vita di relazione abitualmente doloroso ed avvilente per la parte offesa.

Significative dell'abitualità del comportamento sono le parole dello stesso imputato che riferisce di una sistematicità delle condotte poste in essere in danno della moglie, sebbene questi, convinto delle proprie azioni, abbia cercato di minimizzarne la gravità ***{"Però, magari, un po' nervoso, forse, alzo la mano,*** *però mai picchiato "[...] "Nel senso che lei fa una cosa brutta, io mi* ***sgrido,*** *però non picchiato, mai picchiato la mia moglie [...]. Io* ***ho sgridato,*** *però non picchiato"*- cfr. trascrizioni udienza del 17.12.2018 p.7; e, ancora, ***"Io sgrido parolaccia, sgrido forte, okay. Sarebbe solo per paura, per non fare la cosa male dei bambini,*** *quelli piccoli perché, tante volte hanno fatto il male di lui, di loro. Anche quello medio, ha fatto il male di quello piccolo e sgridato per lui, però mai picchiato "* - cfr. trascrizioni udienza del 17.12.2018 p. 15).

Ricordato, inoltre, che, come è stato precisato dalla Suprema Corte, *"il delitto di maltrattamenti in famiglia non é integrato soltanto dalle percosse, lesioni, ingiurie, minacce, privazioni e umiliazioni imposte alla vittima - comunque sussistenti nel caso di specie - , ma anche dagli atti di disprezzo e di offesa alla sua dignità, che si risolvano in vere e proprie sofferenze morali"* (Cass.n. 44700/2013), questo Collegio ritiene che l'istruttoria dibattimentale conduca indubbiamente ad affermare la piena responsabilità dell'imputato per i reati a lui ascritti, dovendosi ritenere raggiunta la prova certa della responsabilità dell'imputato in ordine al reato di maltrattamenti di cui a capo 1) per le ripetute e abituali condotte vessatorie, violente e umilianti tenute nei confronti della persona offesa per futili motivi, legati principalmente alla gestione del denaro, nonché in presenza dei figli, come sopra descritte. Risultano, quindi, sussistenti le aggravanti contestate al capo 1) d'imputazione.

Questo Collegio osserva che, anche con riferimento al reato di violenza sessuale, come descritto al capo 2), sia stata raggiunta la prova certa della responsabilità dell'imputato.

Anche in relazione al reato di cui all'art. 609 bis c.p., valgono le considerazioni dinanzi esposte sulla credibilità intrinseca ed estrinseca della parte offesa, anche con riferimento alla distribuzione degli episodi nell'intero arco della vita matrimoniale dei due coniugi. Risulta, quindi, provato che in più occasioni l'odierno imputato ha costretto la moglie ad avere rapporti sessuali, contro la sua volontà, nonostante il diniego espressogli dalla donna. Quest'ultima ha riferito testualmente ***"Lui ha usato violenza e io ho obbedito"*** e, ancora ***"No, lui non mi aveva picchiato, però mi aveva abbassato i vestiti. [...] "Qualche volta davanti il mio rifiuto mi lasciava stare, qualche volta anche se dico di no, lui compiva Patto sessuale lo stesso"*** (cfr. trascrizione dell'udienza del 12.11.2018 p. 19).

In particolare, la donna ha raccontato anche di un episodio in cui l'imputato l'aveva raggiunta nel letto (dove lei stava dormendo con i bambini) e, dopo aver provato a svegliarla, aveva iniziato a tirarle le gambe. Davanti al rifiuto della donna di

alzarsi dal letto, aveva iniziato a pizzicarle le gambe per farle male e ad insultarla, provocandole dei lividi in corrispondenza dei punti in cui era stata pizzicata, lividi che la donna aveva provveduto a fotografare e consegnare alla Polizia Locale (cfr. verbale di acquisizione del 21.02.2017).

A tal proposito giova rilevare che, come più volte ribadito dalla giurisprudenza della Suprema Corte di Cassazione, "*... ai fini della configurabilità del reato di violenza sessuale, è sufficiente qualsiasi forma di costringimento psico-fisico idoneo ad incidere sull'altrui libertà di autodeterminazione, senza che rilevi in contrario nè l'esistenza di un rapporto di coppia coniugale o para-coniugale tra le parti, e nè la circostanza che la donna non si opponga palesemente ai rapporti sessuali, subendoli, laddove risulti la prova che l'agente, per le violenze e minacce poste in essere nei riguardi della vittima in un contesto di sopraffazione ed umiliazione, abbia la consapevolezza di un rifiuto implicito da parte di quest'ultima al compimento di atti sessuali (Sez. 3, n. 39865 del 17/02/2015, Rv. 264788). Infatti, oltre alla costrizione fisica, l'idoneità della violenza o della minaccia a coartare la volontà della vittima nei reati di violenza sessuale va esaminata non secondo criteri astratti aprioristici, ma tenendo conto, in concreto, di ogni circostanza oggettiva e soggettiva. Anche una semplice minaccia o intimidazione psicologica, attuata in situazioni particolari tali da influire negativamente sul processo mentale di libera determinazione della vittima, può esser sufficiente ad integrare, senza neppure necessità di protrazione nel corso della successiva fase della condotta tipica dei reati in esame, gli estremi della violenza (Sez. 3, n. 14085 del 24/01/2013, R., Rv. 255022; Sez. 3, n. 1911 del 22/12/1999, Gubbi, Rv. 215695). "* Cass. pen. Sez. Ili, Sent., (ud. 06/07/2017) 20-10-2017, n. 48335

Nella specie, in coerenza con il principio appena ricordato, risulta chiara la sussistenza di un esplicito dissenso al rapporto sessuale, manifestato dalla persona offesa in modo incontestabile ("... ***anche se dico di no, lui compiva l'atto sessuale lo stesso"*** - cfr. trascrizione dell'udienza del 12.11.2018 p. 19) e, inoltre, giova mettere in rilievo come il perdurare della situazione familiare, rispetto alla quale la donna aveva manifestato alle amiche (che spesso la vedevano piangere) un notevole disagio rende plausibile che non fosse intenzionata ad avere contatti sessuali con il coniuge.

Inoltre, le modalità della condotta come descritte dalla parte offesa, implicanti l'uso della forza e della costrizione, sono incompatibili con ogni possibile percezione da parte dell'imputato di un atteggiamento consenziente della moglie ad un rapporto.

Tanto basta, dunque, per ritenere adeguatamente provato il profilo coercitivo del reato. Né può pervenirsi a conclusioni contrarie argomentando sui problemi alla prostata dell'imputato che, come reso evidente sia dal concepimento dei figli, sia dalle sue stesse dichiarazioni, non incidevano totalmente sulla possibilità di avere rapporti sessuali.

Ciò premesso, il contesto, sopra evidenziato, di sopraffazioni, minacce e violenze che hanno incessantemente caratterizzato il rapporto intercorso tra la p.o. e l'imputato che, per effetto delle sue condotte, aveva ridotto la donna ad uno strumento del suo volere, nonché bersaglio dei suoi impulsi sessuali, rileva ai fini della dichiarazione di responsabilità per il delitto di violenza sessuale aggravato dall'aver commesso il fatto nei confronti del coniuge.

Infine, diversamente da quanto sostenuto dalla difesa, ad avviso del collegio non assume alcuna rilevanza, ai fini del decidere, la circostanza che l'imputato abbia origini egiziane e possa aver avuto un diverso insegnamento culturale.

Sul punto, appare sufficiente un richiamo a quanto la Corte Suprema ha già ripetutamente specificato, evidenziando *"...per tutte, la sentenza Sez. 6, sent. 46300 dei 2008 che, con sintesi approfondita ed efficace, riassume con chiarezza i termini della questione afferente i cosiddetti reati "culturali" o "culturalmente orientati" - l'irrilevanza della cosiddetta "ignoranza juris", pur letta nell'ambito interpretativo della Corte delle leggi, quando le condotte oggetto di valutazione si caratterizzino per la palese violazione dei diritti essenziali ed inviolabili della persona quali riconosciuti ed affermati dalla Costituzione nazionale, che costituiscono la base indefettibile dell'ordinamento giuridico italiano e il cardine della regolamentazione concreta dei rapporti interpersonali.*

Come insegnato dalla richiamata sentenza 46300/2008, tali principi costituiscono uno "sbarramento invalicabile" contro l'introduzione nella società civile - di diritto e anche solo in fatto - di consuetudini, prassi e costumi "antistorici" rispetto ai risultati ottenuti nell'ambito dell'affermazione e della tutela dei diritti inviolabili della persona in quanto tale, cittadino o straniero che sia. " Cass. pen. Sez. VI, Sent., (ud. 28/03/2012) 30-03-2012, n.12089

Le condotte violente e intenzionalmente vessatorie dell'imputato, quali descritte in fatto nel capo d'imputazione, non sono giustificabili a fronte di un sistema di valori costituzionali e comunitari inderogabili.

Proprio il consolidato orientamento e l'assenza di novità nelle prospettazioni difensive conducano a disattendere gli argomenti spesi, in discussione, dalla difesa dell'imputato.

Infine, deve essere esclusa l'aggravante di cui all'art. 61 co. 1 n. 2, erroneamente contestata al capo 2) d'imputazione, dal momento che il nesso teleologico necessario per la sussistenza della suddetta aggravante esige che le azioni esecutive dei due diversi reati, che pone in relazione, siano distinte (cfr. Cass. Pen. Sez. 6, n. 23827 del 07/05/2013, A., Rv. 256312; Sez. 6, n. 5738 del 19/01/2016, R., Rv. 266122), mentre nel caso di specie le contestate violenze sessuali, sebbene conservino autonoma rilevanza penale e non possano essere assorbite dal reato di maltrattamenti, costituiscono una delle condotte maltrattanti.

E H deve essere dichiarato, pertanto, responsabile dei reati a lui ascritti. Questi, peraltro, appaiono evidentemente avvinti dal vincolo della continuazione, ai sensi dell'articolo 81, comma 2, c.p., atteso che possono considerarsi posti in essere in esecuzione di un medesimo disegno criminoso per essersi i fatti svolti nelle medesime circostanze di tempo e di luogo e nei confronti della stessa parte offesa.

Venendo al trattamento sanzionatorio, tra i reati suddetti il più grave, ai fini della determinazione della pena da irrogare, tenuto conto della fattispecie astratta (Cfr. Cass. n. 30557/2016; Cass. n. S.U. 25939/2013), come sopra descritta, va individuato in quello di cui al capo 2), atteso che risulta punito con la pena edittale più elevata.

In favore dell'imputato possono essere riconosciute le attenuanti di cui all'articolo 62-bis c.p., stante l'assenza di precedenti penali a suo carico, nonché al fine mitigare il trattamento sanzionatorio, da ritenersi equivalenti rispetto alla contestata aggravante dell'aver commesso il reato ai danni del coniuge.

Tenuto conto dei parametri di cui all'articolo 133 c.p., appare congruo, dunque, irrogare nei confronti di E H EH G la pena di anni 6 e mesi 6 di reclusione, determinata, ritenuto più grave il reato contestato al capo 2), partendo da una pena base pari ad anni 5 di reclusione (corrispondente al minimo edittale), poi aumentata per la continuazione interna di mesi 6 di reclusione, ulteriormente aumentata di anni 1 per la riconosciuta continuazione con riferimento al reato di maltrattamenti di cui al capo 1), fino ad arrivare alla pena finale di anni 6 e mesi 6 di reclusione.

Ai sensi dell'articolo 535 c.p.p., a tale condanna consegue quella al pagamento delle spese processuali.

Ai sensi degli artt. 28 ss. e 609 *nonies* c.p. l'imputato deve essere dichiarato interdetto in perpetuo dai pubblici uffici ed in stato di interdizione legale per la durata della pena. Ed ancora interdetto in perpetuo da ogni ufficio attinente alla tutela alla curatela e all'amministrazione di sostegno dichiarando, altresì, la perdita del diritto agli alimenti e l'esclusione dalla successione della persona offesa.

Ai sensi dell'art. 609, ultimo comma, c.p., nonché considerata l'entità della pena irrogata all'imputato, nei confronti del suddetto deve essere applicata, a pena espiata, la

misura di sicurezza personale dell'obbligo di tenere informati gli organi di polizia sulla propria residenza e sugli eventuali spostamenti per la durata di un anno.

Venendo alla richiesta formulata dalla parte civile, dal tenore della presente decisione deriva l'obbligo al risarcimento del danno ai sensi dell'art. 185 c.p..
Danno che si ritiene anche in concreto sussistente.
Si è ricostruito che l'imputato è responsabile di ripetuti episodi di maltrattamenti psicologici e fisici ai danni della p.o. e dei suoi figli, nonché di violenza sessuale ai danni della p.o..
L'entità degli effetti economici e morali di quanto sopra descritto deve essere liquidata in separato giudizio, potendosi, in questa sede, indicare, in via equitativa (considerato il lungo lasso di tempo in cui si sono protratti i maltrattamenti e le violenze, nonché l'intensità delle condotte), la somma di € 40.000,00 a titolo di provvisionale immediatamente esecutiva in favore di E A , in proprio e quale esercente
la potestà genitoriale sui figli minori, somme che l'imputato deve versare in loro favore. Ancora, l'imputato deve essere condannato alla rifusione delle spese sostenute dalla suddetta parte civile per il presente giudizio che, valutati i parametri in vigore e l'attività svolta, si determinano in complessivi € 2.580,00, oltre 15% per spese forfettarie, IVA e CPA come per legge (specificando che la suddetta somma dovrà essere versata a favore dello Stato anticipatario, essendo la parte offesa ammessa al patrocinio a spese dello Stato).
Considerata la complessità della vicenda trattata, si indica in 90 giorni il termine per il deposito della motivazione.

REPUBBLICA ITALIANA
In nome del Popolo italiano

Il Giudice dott. A. Santangelo, alla pubblica udienza dell' 11.1.19, ha pronunciato e pubblicato mediante lettura del dispositivo la seguente

SENTENZA
IMPUTATO

A. del reato di cui agli artt. 94 e 572 c.p. perché, con reiterati atti di violenza fisica e psicologica nei confronti della moglie convivente K T sovente in stato di alterazione da abuso di assunzione di sostanze alcoliche,)a maltrattava, causandole penose condizioni di vita e, in particolare:
- in più occasioni - quasi quotidianamente - la ingiuriava e minacciava con frasi quali: "Fotto te e la tua famiglia - Se tua madre fosse qui, glielo metterei nel culo" - "adesso ti uccido" e nell'ottobre 2014 dopo che la donna gli comunicava di essere rimasta incinta la insultava asserendo che era ignorante e che non sapeva ascoltarlo e capirlo;
- in più occasioni la percuoteva colpendola con schiaffi al volto, pugni, tirandola per i capelli e procurandole lesioni, in particolare:
- in data 19.06.2013, la aggrediva colpendola con schiaffi al volto e tirandole i capelli;
- nell'agosto 2014 rientrato in casa ubriaco, dopo che la donna chiedeva di prendersi cura del cane che stava abbaiando, mentre era sdraiata sul letto, l'afferrava per i capelli e la colpiva con violenti schiaffi al volto, tanto da farla sanguinare dal naso;
- in data 28.122014, rincasando ancora ubriaco, la minacciava di morte dicendole "adesso ti uccido" impugnando un coltello che aveva precedentemente prelevato dalla cucina, quindi la spingeva sul letto. Poi prendeva un bastone, usciva in strada litigava con alcuni ragazzi italiani i quali reagivano prendendolo a calci e rientrato nell'abitazione, continuava ad insulare la moglie colpendola violentemente con uno schiaffo al volto, dicendole che se anche era incinta di suo figlio, non gliene fregava niente del bambino e presto si sarebbe avvicinato il giorno in cui l'avrebbe potuta picchiare per bene;
- in data 18.05.2015 dopo averla insultata dicendole "io non sono nato da una vacca" (epiteto che riferiva alla madre della vittima) la colpiva con uno schiaffo sulla testa. La sera, rincasato verso le ore 23, la colpiva con schiaffi al volto e le tirava i capelli. La raggiungeva quindi nella stanza da bagno, chiudeva a chiave la porta impedendole di uscire, l'afferrava per i capelli e la trascinava sul pavimento, scuotendole la testa con violenza e colpendola numerose volte con schiaffi al volto. Dopo che la moglie riusciva ad aprire la porta del bagno e ad allontanarsi aprendo la porta dell'abitazione, l'uomo aveva una colluttazione con alcuni ragazzi intervenuti in difesa della donna che, dal bar ubicato sotto l'abitazione l'avevano udita chiedere aiuto. Subito dopo, colpendola con un pugno al volto, usava violenza per convincere la donna a sporgere denuncia asse-rendo falsamente che erano stati entrambi aggrediti dagli avventori del bar, provocandole le lesioni meglio indicate al capo B) dell'imputazione.
In : lai 19.06.2013 almeno sino al 18 maggio 2015.

B. del reato di cui agli artt. 582, 585 in relazione alfart. 576 n. 5 c.p. perché, trascinandola sul pavimento tenendola per i capelli, scuotendole la testa con violenza, colpendola numerose volte con schiaffi e pugni al volto le cagionava lesioni personali consistite in "traumatismo di faccia e naso giudicate guaribili in giorni 5.
Con l'aggravante di aver commesso il fatto di cui al capo A) in danno del coniuge. In il 18 maggio 2015.

C. del reato di cui all'art. 610 c.p. perché, dopo aver percosso la moglie convivente K T. (come descritto nell'ultimo paragrafo di cui al capo "A)" ed avuto una colluttazione con alcuni ragazzi intervenuti in difesa della donna, colpendola infine con un pugno al volto provocandole le lesioni meglio indicate al capo "b" dell'imputazione, usava violenza per costringerla a denunciare falsamente alla Polizia che erano stati entrambi aggrediti dagli avventori del bar in realtà intervenuti in difesa della vittima.
In il 18 maggio 2015.

Con l'intervento in udienza del P.M. VPO dell'imputato e dei suoi difensori di fiducia.

Le parti hanno concluso come segue (verbale di udienza dell'll.1.2019);
P.M.: condanna dell'imputato, in relazione a tutti i reati ascrittigli in rubrica, unificati sotto il vincolo della

continuazione, alla pena finale di anni due e mesi sei di reclusione;
DIFESA: assoluzione dell'imputato dai reati a lui ascritti ai capi A) e C) della rubrica ai sensi dell'art. 530 co. 1 o co. 2 c.p.p.; in ordine al reato di cui al capo B), previa derubricazione nel reato di percosse di cui all'art. 581 c.p., assoluzione dell'imputato ex art. 131 bis c.p. per particolare tenuità del fatto.

MOTIVI DELLA DECISIONE

Il GIP di Milano, all'esito dell'udienza preliminare, disponeva il rinvio a giudizio di D E contestandogli i reati indicati nel capo d'imputazione di cui in epigrafe.
Dopo diversi rinvii preliminari del processo per le ragioni specificate nei rispettivi verbali di udienza, all'udienza del 19.6.17, celebrata in presenza dell'imputato, il Giudice si pronunziava sulle richieste probatorie delle parti come da ordinanza formalizzata nel verbale di udienza
All'udienza dell'8.11.2017 veniva escussa la persona offesa K
T laddove, all'esito della sua deposizione, da un lato il P.M. produceva agli atti il verbale di denuncia dalla stessa reso in data 19.5.15 ed utilizzato per le contestazioni elevate ex art. 500 c.p.p. e, dall'altro, la T dichiarava di rimettere la querela all'epoca sporta nei confronti del marito ed odierno imputato D E Alla successiva udienza del 21.2.1018 venivano escussi i testi del P.M. F N , F V e F S laddove il Giudice, su richiesta del P.M. e nulla opponendo la chiesa, revocava l'ordinanza ammissiva delle altre deposizioni ad eccezione di quelle del teste D'A M All'udienza del 26.9.18, escusso l'operante di PS D'A M; l'imputato si sottoponeva ad esame dibattimentale: acquisito quindi agli atti, su richiesta del P.M., il verbale di pronto soccorso redatto nei confronti della persona offesa in data 18.5.15 ed escusso il teste a difesa S D ' (madre dell'imputato), il processo veniva rinviato ad altra data.
All'udienza del 7.1.19 l'imputato accettava la remissione di querela formalizzata dalla persona offesa nel verbale di udienza dell'8.11.17, laddove, alla conclusiva udienza dell'11.1.19, il Giudice, dichiarati utilizzabili ai fini della decisione gli atti inseriti nel fascicolo del dibattimento ex art. 511 c.p.p. e sentite le conclusioni rassegnate dalle parti, si ritirava in camera di consiglio per deliberare come da dispositivo di sentenza letto in udienza.

I fatti di maltrattamento in famiglia contestati al capo A) della rubrica emergono dalla denuncia sporta dalla persona offesa T K in data 19 maggio 2015: tale denuncia veniva materialmente prodotta agli atti del fascicolo del dibattimento all'udienza dell'8.11.17, in quanto la persona offesa, in sede di testimonianza, negava tutti fatti già denunciati, sicché il P.M. doveva ricorrere all'integrale contestazione, ex art. 500 c.p.p., del suddetto verbale di denuncia (che veniva quindi materialmente acquisito agli atti ma con la limitata valenza probatoria di cui all'art. 500 c.p.p.).
Sosteneva la persona offesa, in sede di deposizione resa all'udienza dell'8.11.17, che all'epoca in cui sporse denuncia viveva una

condizione mentale di confusione e di *"shock"* a seguito della nascita del primogenito, nato il 2015, e che solo tale alterata
condizione di sofferenza e disagio psichico l'aveva determinata a rendere dichiarazioni sostanzialmente non veritiere (cfr. pag. 6 trascr.). Dopo aver premesso di aver conosciuto l'odierno imputato nell'anno 2013 e di essersi trasferita definitivamente in Italia, ove E abitava già da 20 anni, solo a giugno 2014 (mentre lei, precedentemente, aveva vissuto in pur essendo nata in
), la T negava reiteratamente quanto lamentato in sede di denuncia. Se in quella sede aveva riferito di violenti, minatori ed ingiuriosi comportamenti - correttamente sintetizzati nel capo di imputazione - tenuti dal marito in stato di ebbrezza alcolica, in quanto affetto da problematiche di dipendenza dall'alcol, in sede di testimonianza, viceversa, negava di essere mai stata picchiata o minacciata dal marito. Negava, addirittura, lo stesso uso di sostanze alcoliche da parte di E sostenendo che l'uomo avesse bevuto qualche bicchiere solo la sera del 18 maggio 2015 (cfr. pagg. 10 e 14 trascr.), ossia la sera in cui si era verificato l'episodio di lesioni personali contestato al capo B della rubrica e che aveva portato all'intervento presso l'abitazione della coppia della Polizia.
In ordine a quest'ultimo episodio la I finiva per ammettere che quella sera era scoppiato con il marito un litigio verbale per futili motivi, e che nel corso del litigio si erano anche reciprocamente schiaffeggiati (cfr. pag. 12 trascr.): sosteneva che il litigio era avvenuto con le *"finestre aperte"* (cfr. pag. 9 trascr.) e che pertanto le persone che frequentavano il bar sito sotto casa avevano forse sentito le urla. A suo dire queste persone erano quindi salite presso la loro abitazione e, dopo essersi fatte aprire la porta, avevano afferrato e malmenato E lasciandolo *"sanguinante"* per terra (cfr. pag. 10 trascr.).
Se la T riferiva ancora che le sue dichiarazioni erano state forse anche fraintese, poiché alla stesura della denuncia aveva assistito un interprete di lingua albanese e non già di lingua greca - laddove lei, che non parlava italiano, si esprimeva con difficoltà anche in lingua albanese conoscendo solo poche parole (cfr. pag. 11 trascr.) - la donna terminava la testimonianza ribadendo che non era sua intenzione elevare alcuna denuncia contro il marito ed in ogni caso che era sua volontà rimettere la querela qualora fossero stati ravvisati reati procedibili solo a querela di parte.
C'è posto l'assistente capo di PS DM M in sede di testimonianza resa all'udienza del 26 settembre 2018, riferiva in merito all'intervento effettuato presso l'abitazione della coppia, ossia in via M nella nottata tra il 18 ed il 19
maggio 2015: riferiva che erano stati chiamati da un ragazzo albanese, ossia dall'odierno imputato, che lamentava di essere stato aggredito e picchiato da 5 persone, tre delle quali si trovavano presso un bar ubicato sotto la sua abitazione. Se il D effettivamente, presentava segni di percosse in volto e nel contempo si mostrava palesemente alterato dall'assunzione di sostanze alcoliche, la Polizia si portava presso il bar indicato dall'imputato, ove identificava il signor F N e il figlio F V Riferiva altresì
il teste che l'odierna persona offesa, T] K _ , presentava delle *"ecchimosi sul corpo ed un segno sul volto"* ed inoltre appariva spaventata e tremante. Aggiungeva, infine, che avevano contattato un interprete di lingua albanese, in quanto la donna non parlava l'italiano, e che la stessa era stata poi condotta in ospedale.
Orbene, se il certificato medico prodotto dal P.M. dà atto che la T i si portava presso il Pronto Soccorso dell'ospedale policlinico alle ore 2:06 del 19 maggio 2015 e che in tale sede veniva trovata affetta da "traumatismo di faccia e naso" refertato con prognosi di giorni 5, le deposizioni dei testi F hi Fi.
V e Fi S - i primi due gestori dell'esercizio

commerciale “ ubicato sotto l’abitazione di via
M ed il terzo occasionale avventore del locale - erano
concordi nell'attribuire la causazione di tali lesioni all'odierno imputato.
Riferivano concordemente, in particolare, di aver udito la donna che *“gridava aiuto”* dal balcone della sua abitazione e di averla poi vista *“trascinata dentro per i capelli”* (cfr. deposizione F N pagg. 4 e 6 trascr.; deposizione F S ' pagg. 21 e 23 trascr.; deposizione F V pagg. 28 e 29 trascr.): negavano, tuttavia, di essere saliti presso l'abitazione della coppia e di aver picchiato l’odierno imputato, a loro dire conosciuto solo di vista come persona abitante nel quartiere.

Orbene, considerato che la persona offesa ritrattava tutte le accuse mosse al marito in denunzia, occorre anzitutto rammentare i principi che presiedono alla valutazione probatoria delle “contestazioni” ex art. 500 c.p.p.

In tema di valutazione della prova testimoniale, le dichiarazioni fornite dal testimone nel corso delle indagini preliminari e lette per le contestazioni ex art. 500 cod. proc. pen. - al di fuori dei casi di consenso delle parti o di violenza, minaccia o subornazione - possono essere valutate solo ai fini della credibilità dello stesso, ma mai come elemento di riscontro o come prova dei fatti in esse narrati, neppure quando il dichiarante, nel ritrattarle in dibattimento asserendone la falsità, riconosca di averle rese (cfr. ad es., Cass. Pen., Sez. 3, sentenza n. 20388 del 17/02/2015).

Ciò posto risultano prive di valore probatorio le dichiarazioni predibattimentali rese da T K poiché la donna, come visto, in sede dibattimentale non confermava alcuna delle circostanze già riferite in sede di denuncia-querela, laddove giustificava le sue precedenti dichiarazioni accusatorie con le motivazioni sopra riportate (alterato stato psichico ed emotivo dovuta alla gravidanza e mancata assistenza alla verbalizzazione della denuncia di un interprete di lingua greca, unica lingua da lei parlata e compresa correntemente).

Sottolineato altresì che l’imputato, dal suo canto, negava di aver mai picchiato la moglie ad eccezione dell’episodio accaduto il 18 maggio su cui si tonerà in seguito, laddove, pur ammettendo di aver vissuto un periodo in cui faceva uso eccessivo - seppur sporadico - di alcolici, negava qualsivoglia fatto di maltrattamento, si impone l’assoluzione del D dai reati ascrittigli ai capi A) e C) della rubrica, in quanto tali contestazioni riposavano, esclusivamente, sulle dichiarazioni accusatorie rese dalla persona offesa in fase di indagini preliminari.

Quanto invece alla contestazione sub B), si reputa che la stessa sia stata provata nella sua dinamica e materialità, ed invero: premesso che il certificato di pronto soccorso in atti comprova le lesioni nella loro materialità e comprova che la donna, nell’immediatezza del fatto, ne attribuì la causazione proprio al marito (non potendosi in altro modo interpretare la dicitura “violenza domestica” e l’invio presso il “SVS” emergenti dalla suddetta certificazione medica), va detto che

la T in sede dibattimentale, confermava che quella sera intercorse con il marito un violento litigio nel cui ambito, a suo dire, si erano reciprocamente schiaffeggiati. Se a ciò si aggiunga che i testi F N . Fi V e F S confermavano di aver udito la donna chiedere aiuto urlando dal balcone di casa e di aver visto che la stessa venne afferrata per i capelli dall'uomo, ne discende prova del fatto nella sua materialità. D'altra parte lo stesso imputato, in sede di esame dibattimentale, ammetteva che quella sera scoppiò con la moglie un violento litigio per futili motivi e che colpì la donna con due schiaffi in volto (cfr. esame D. pag. 9 trascr.).
Tuttavia l'intervenuta assoluzione dell'imputato, per insussistenza del fatto, dal reato di maltrattamenti in famiglia, impone di escludere l'aggravante di cui all'art. 576 n. 5) c.p., sicché il reato di lesioni personali in imputazione risulta procedibile solo a querela di parte: così essendo l'intervenuta remissione di querela, formalizzata dalla persona offesa nel verbale di udienza dell'8.11.2017 ed espressamente accettata dall'imputato con dichiarazione formalizzata nel verbale della successiva udienza del 7.1.19, impone l'emissione di sentenza di non doversi procedere, ex artt. 531 c.p.p. e 152 c.p., per essersi il reato di cui al capo B) estinto.
Atteso quanto esposto e considerato

escussa come testimone F L
All' udienza odierna veniva escussa M M; G All'esito del giudizio le Parti concludevano come in epigrafe ed il Giudice decideva secondo dispositivo riservando giorni novanta per il deposito della motivazione tenuto conto del carico di lavoro dell'ufficio. ***

La condotta istruttoria dibattimentale ha fornito chiari ed univoci elementi di reità nei confronti deH'odierno imputato in ordine alla condotta delittuosa ascritta.
P C , sentita come teste ha riferito di aver conosciuto il giudicabile 1' 11 giugno del 2015 e di aver iniziato con lui una relazione amorosa.
Fin da subito il P si mostrò geloso nei confronti dei figli delia donna, che all'epoca avevano rispettivamente 18 e 20 anni. La teste infatti, essendo vedova, rifiutò la sua proposta di andare a convivere e spesso declinò alcuni inviti ad uscire spiegandogli di dover stare vicino i propri ragazzi. L'imputato insisteva e nascevano battibecchi e in seguito veri e propri litigi.
Durante l'estate del 2015, il P litigò con i propri genitori e fu costretto ad
andarsene di casa; dormì in auto per due settimane, criticando la donna che si rifiutava di ospitarlo.
Ad ogni modo la teste lo aiutò a trovare un appartamento in locazione, in un paese vicino; sicché una volta trasferito, il P iniziò a chiederle insistentemente di andarlo a trovare, cosa che non sempre era possibile.
Anche se con qualche riluttanza la teste decise di proseguire la relazione fino al mese di ottobre, allorché, dopo l'ennesimo litigio dovuto alla gelosia dell'imputato, la P decise di troncare.
Sennonché il prevenuto non accettò la decisione, cercò di riconquistarla, le chiese scusa e le mandò delle rose in ufficio.
Poi iniziò a inviare SMS intimidatori, indirizzati a lei e ai suoi figli; già in precedenza aveva inviato messaggi dello stesso tipo, alternati a scuse. Con i figli era anche particolarmente odioso, inviando messaggi che si riferivano al padre deceduto come " festeggi la festa del papà? O la festa dei morti?".
Una sera di ottobre a casa della teste venne improvvisamente a mancare la corrente; la F avvertì un tonfo. Uscendo poco dopo per andare al cinema, la P trovò il vetro dell'auto infranto. Collegò subito tale azione all'imputato, che le inviava messaggi come "Adesso vengo e spacco tutto, adesso...dovete aver paura a uscire di casa, vi faccio scappare il cane".
Ne ebbe conferma subito dopo allorché l'imputato volle chiarire con la persona offesa, ammettendo di avere infranto il vetro e le promise di rimborsarle il costo.
Decisero di incontrarsi, l'imputato si presentò con il figlio di cinque anni; si comportò in modo normale anche se si arrabbiò pretendendo che la persona offesa stesse con lui.
Sennonché il F di nuovo a casa della P< la settimana successiva e
staccò la corrente; la donna impaurita si mise alla finestra insieme ai figli e ad alcuni amici del figlio; tutti videro così il P andare via e poi tornare e scagliare una bottiglia di vetro contro l'auto causando nuovamente la rottura del lunotto.
La teste ha poi raccontato che la notte di Halloween, mentre era in casa da sola perché i suoi figli erano usciti, ricevette un messaggio dalla propria vicina, L F , che la avvertiva di aver visto l'auto dell'imputato in fondo alla via. La vicina era infatti andata a prendere una pizza ed era passata proprio accanto all'auto che già conosceva. In seguito la F richiamò la persona offesa, dicendole di essere nuovamente uscita e di aver notato ancora l'auto del P
La teste quindi spense tutte le luci, fingendo di non essere in casa; inviò un messaggio ad un ragazzo, M che lavorava nella pizzeria chiedendogli se nell'auto votata dalla vicina
vi fosse il giudicabile. Lo stesso confermò che l'auto era proprio quella del P ; le propose di far venire la propria fidanzata a tenerle compagnia, ma la persona offesa rifiutò, temendo che l'imputato, notando movimento presso casa sua, potesse importunarla. Dunque avendo molta paura la teste chiese l'intervento dei Carabinieri, che tuttavia arrivano dopo due ore e mezza. Dalla vicina che osservava la scena, la P< apprese che all'arrivo dei militari, il P si allontanò con l'auto.
Dopo qualche giorno, mentre il figlio della teste era in casa da solo e stava studiando, la dirimpettaia, G M , vide il P; avvicinarsi al contatore e gli chiese se avesse bisogno di qualcosa; l'imputato farfugliò qualche parola e si allontanò velocemente.
La stessa vicina lo vide poi che cercava di scavalcare per entrare nel suo giardino per poi accedere a quello della persona offesa; venne avvertita dal cane che abbaiava e pensando fosse un ladro lo mise in fuga.
La M non aveva mai visto il P ma ne descrisse l'aspetto e i vestiti; con gli
stessi vestiti il P >i presentò dai Carabinieri per denunciare per minacce il figlio
della persona offesa.
Ancora, la teste ha riferito che il P; . sapendo che il mercoledì, approfittando di un'offerta speciale, ella aveva l'abitudine di andare a mangiare la pizza a 1 con i
figli e gli amici dei figli, che andava a prendere alla fermata dell'autobus, un giorno si fece trovare sul posto; affiancò l'auto a quella della teste impedendole di uscire dal parcheggio, costringendola in seguito a smettere di andare in pizzeria il mercoledì.
La teste iniziò anche a modificare gli orari in ufficio, trattenendosi più a lungo per evitare di incontrare il P . Così anche i figli della donna, che l'imputato aveva minacciato più volte mostrando di sapere a che ora arrivavano con il pullman, dovettero cambiare i propri orari o la fermata.
Ad ogni modo dopo l'episodio del 31 ottobre e dunque dopo la denuncia, l'imputato ebbe una diffida, ritirò la denuncia nei confronti del figlio della donna e troncò ogni rapporto.
La teste ha infine spiegato di essersi rivolta al centro antiviolenza per avere un sostegno psicologico.
Le dichiarazioni della persona offesa hanno trovato riscontro nella deposizione del figlio F S Questi ha confermato che una sera mentre era in casa con sua madre,
sua sorella e il fidanzato di quest'ultima, si interruppe la corrente elettrica; la madre uscì per riarmare il contatore, al contempo ricevendo messaggi intimidatori da parte dell'imputato. Infine uscendo, si accorsero tutti che il lunotto dell'auto della madre era stato rotto.
Il teste ha rammentato che talvolta l'imputato inviò messaggi minatori anche a lui *e* alla sorella, in cui parlava male del padre deceduto

o li minacciava di violenze fisiche (cfr. Sms in atti).
Ha poi rammentato che un'altra sera, allorché era a casa con sua madre, sua sorella e i suoi tre amici, *A* , P e G , venne nuovamente staccata la corrente elettrica.
Convinto che fosse stato il P a staccarla, dato che l'aveva fatto altre volte, il teste uscì in strada con i suoi amici, poiché la madre aveva paura e lo vide a metà della via che si dileguava in una strada secondaria.
Poco dopo il P ricomparve dalla siepe in fondo e il teste gli intimò di andarsene e di smettere di molestare la sua famiglia; lo stesso in risposta, con fare minaccioso ancora disse: "Non ti preoccupare che tanto tomo, tra poco tomo''.
Sicché che i giovani aspettarono ancora un po' di tempo, poi rientrarono per cenare. Durante la cena venne nuovamente staccata la corrente; il teste si affacciò alla finestra e insieme alla madre e agli amici assistette al danneggiamento del lunotto dell'auto di sua madre da parte del giudicabile con una bottiglia
Il teste ha spiegato che il P era adirato con lui e con sua sorella in quanto a luglio avevano avuto un diverbio a seguito del quale la P non lo aveva fatto più entrare in casa. Ha rammentato che tornava a casa in autobus da scuola sempre preoccupato di vedere l'auto dell'imputato passare, si guardava le spalle e stava molto attento a quello che succedeva.
Ha infine soggiunto che in tre occasioni intervennero le forze dell'ordine, ossia in relazione ai due episodi di danneggiamento e in un altro caso in cui la madre era stata avvisata dalla vicina che l'auto del P era davanti a casa.
In uno dei predetti interventi il teste mise il viva voce e fece sentire ai militari la voce dell'imputato che lo stava minacciando.
Le medesime circostanze risultano dal verbale di sommarie informazioni rese da S
L , la quale, nel confermare gli episodi di minacce e di danneggiamento, riferì che il P era adirato con lei dal mese di luglio in quanto ella non aveva voluto che festeggiasse a casa il suo diploma.
Riferì dunque di aver ricevuto spesso messaggi con insulti anche verso il padre e intimidazioni, che determinarono in lei uno stato d'ansia, dovuto al fatto che le reazioni dell'imputato sembravano imprevedibili.
Il teste A , in servizio presso la Stazione dei Carabinieri di ha riferito
che acquisita la notizia di reato in data 31/10/2015 vennero svolti degli accertamenti diretti a riscontrare quanto dichiarato dalla parte offesa.
Attraverso l'analisi dei tabulati telefonici del telefono in uso al signor P Fi incrociati anche con i dati forniti dai tabulati telefonici dei due telefoni della parte offesa, gli operanti riscontrarono gli episodi descritti dalla denunciante.
In particolare, per quanto attiene l'episodio di danneggiamento del lunotto termico che è avvenuto il 16 di ottobre, i tabulati permisero di stabilire che, come risulta dal tabulato
del numero : in uso a P F , come si evince del
verbale di identificazione dove lo stesso P fornì il predetto numero, in un orario perfettamente compatibile, alle 20:33, il telefono del signor P agganciò una cella che si trova a pochissima distanza da , ossia la cella di
Rispetto all'episodio denunciato del 30 di ottobre 2015, il tabulato telefonico dell'utenza in uso al P » permise di dimostrare che il suo telefono, sempre il , alle
20:06, quindi in un orario che coincide con quanto dichiarato dalla denunciante, agganciò un ponte ripetitore di < .In particolare si trattava del ponte ripetitore che
aggancia il lato del Comune di
Dall'analisi dello stesso tabulato emerse altresì che la P , si trovava a casa come dalla stessa dichiarato, agganciando il suo telefono il medesimo ripetitore.
Per quanto riguarda invece l'episodio del 31 di ottobre, ossia il giorno della denuncia, i tabulati dimostrarono che la sera, il telefono in orario compatibile con le
dichiarazioni rese, agganciò un ponte ripetitore di
Dal tabulato emerse altresì che successivamente alla telefonata della P al 112 effettivamente il telefono del signor P si allontanò dalla zona (cfr. Tabulati e mappa in atti).
Il teste L , in servizio presso la Compagnia dei Carabinieri di , ha
riferito di essere intervenuto il 30 ottobre su richiesta della persona offesa, constatando la rottura del lunotto dell'auto della stessa.
Ulteriore riscontro a quanto addotto dalla vittima risulta poi dalla testimonianza resa da L F , amica e vicina di casa della P , la quale ha riferito che quest'ultima nel periodo di cui all'imputazione le confidò che l'imputato le dava fastidio e che ella temeva che la seguisse.
La teste ha rammentato che la sera di 31 ottobre, mentre andava in pizzeria scorse l'auto dell'imputato e avvertì immediatamente l'amica; poi uscì nuovamente e vide ancora l'auto con i vetri appannati. In seguito intervennero i Carabinieri. La teste ha spiegato che la persona offesa era "a pezzi", vivendo nel timore per sé e per i propri figli.
Infine C M , vicina di casa della persona offesa, pure sentita come teste, ha confermato che un giorno nell'ottobre 2015 notò un uomo fermo vicino ai contatori e gli chiese se avesse bisogno di qualcosa; lo stesso si allontanò. Sennonché poco dopo sentendo il cane che abbaiava la teste andò a controllare sul retro e vide lo stesso uomo arrampicato sul cancello che divide la proprietà della stessa teste da quella della persona offesa e che vedendola le rivolse degli insulti e si allontanò. In seguito parlando con la P e fornendo una descrizione dello stesso, appurò che si trattava del P; >.

Orbene tanto premesso in punto di fatto risulta pienamente dimostrato l'assunto accusatorio oggetto di addebito.
Perché la fattispecie incriminatrice di atti persecutori in parola possa ritenersi integrata occorre infatti che siano state poste in essere reiterate condotte di molestia e minaccia, e che tali condotte abbiano ingenerato nella persona offesa un grave e perdurante stato di ansia o paura, ovvero un fondato timore per l'incolumità propria o dei congiunti, o ancora l'abbiano costretta ad alterare le proprie abitudini di vita.

L'istruttoria processuale ha dato prova di tale situazione, risultando dalle concordi testimonianze assunte, che l'imputato, seppure per un breve periodo, rivolse minacce alla persona offesa e ai suoi figli, stazionò davanti a casa della stessa, introducendosi all'interno e staccandole più volte la corrente, la pedinò e le ruppe due volte il vetro dell'autovettura.
Sul punto le dichiarazioni della vittima risultano suffragate da quelle di tutti gli altri testi, oltre a trovare puntuale riscontro nei tabulati illustrati dall'operante escusso.
Tale situazione ingenerò nella vittima uno stato d'ansia e alterò le sue abitudini di vira, trovandosi la stessa, così come i suoi figli, costretta a chiudersi in casa al buio per non farsi notare dall'imputato, guardarsi intorno mentre girava per strada, cambiare gli orari d'ufficio e il giorno in cui andava in pizzeria.
Della fattispecie incriminatrice di cui all'art. 612 bis c.p. sussistono pertanto tutti gli elementi costitutivi.

Non convince la difesa laddove vorrebbe inscrivere il comportamento del giudicabile all'interno della fine di una burrascosa relazione, in quanto si tratta di condotte comunque minatorie e moleste e in ogni caso reiterate, in grado di incidere in modo significativo sulla psiche e sulla vita quotidiana della vittima.
Parimenti provati risultano i due episodi di danneggiamento del lunotto della vettura, entrambi riferibili all'imputato, in quanto nel primo fu lo stesso ad assumersi la responsabilità dell'accaduto di fronte alla persona offesa e nel secondo fu visto porre in essere l'azione criminosa dalla vittima e dai suoi figli.
Deve essere dunque affermata la pena responsabilità dell'imputato in ordine ai reati ascritti, per i quali può riconoscersi il vincolo della continuazione essendo evidenti espressione di un medesimo disegno criminoso.
Ciò posto, possono essere ritenute le circostanze attenuanti generiche, atteso il breve periodo in contestazione e considerato che l'imputato, subito dopo la denuncia, cessava di importunare la vittima.
Quindi, valutati tutti gli elementi di cui all'art. 133 c.p., si ritiene equa la pena mesi 9 di reclusione (p.b. mesi 9 di reclusione, ridotta ex art. 62bis c.p. alla pena di mesi 6 di reclusione, aumentata per continuazione).
All'affermazione della penale responsabilità segue, obbligatoriamente per legge, la condanna dell'imputato al pagamento delle spese processuali.
Sussistendone i presupposti, all'imputato può essere concesso il beneficio della sospensione condizionale della pena.
Ai sensi degli artt. 185 c.p. e 538 c.p.p., dall'accertamento del reato in contestazione discende la condanna dell'imputato al risarcimento del danno patito dalla costituita parte civile, che non essendo provato nel suo preciso ammontare, deve essere demandato al giudice civile.
Visto il danno da stress senz'altro patito dalla persona offesa e alle spese sostenute per la sostituzione del lunotto, sussistono i presupposti per liquidare una provvisionale provvisoriamente esecutiva, che si reputa equo stabilire in Euro 3.000,00.
L'imputato va infine condannato alla rifusione delle spese di costituzione sostenute dalla parte civile da liquidarsi, alla stregua della complessità del processo, in Euro 1.250,00, oltre a spese generali ed accessori come per legge.

MOTIVI DELLA DECISIONE

D G è stato tratto a giudizio con l'accusa di avere
perseguitato - attraverso condotte moleste e assillanti, minacce, ingiurie, telefonate e messaggi e pedinamenti- la persona offesa , dalla quale era stato legato da vincolo matrimoniale, causandole un fondato timore per l'incolumità propria e di quella del padre, nonché un grave stato d'ansia e di paura.
Prima di affrontare le risultanze istruttorie si deve premettere che l'imputato, con sentenza n. 483 in data 20 ottobre 2015, è stata applicata una pena per il reato di maltrattamenti in danno della moglie e che i fatti di cui è processo si sono in massima parte verificati prima dell'emissione di tale provvedimento.
Si osserva, inoltre, sempre in via preliminare, che dal processo è emersa una situazione dì grande confiittualità tra I coniugi, situazione che ha avuto ripercussioni negative sulla figlia minore G , come documentano le relazioni dei servizi sociali acquisite agli atti. La sentenza di separazione tra i coniugi pronunciata in data 17.10,2018, prodotta dalla difesa, ha, altresì documentato che l'ansia e le preoccupazioni della V sono derivate in parte dal timore e dalla diffidenza in ordine alla capacità del D di
occuparsi della figlia, tanto che la stessa aveva chiesto l'affido esclusivo e la prescrizione che l'incontro del padre con la figlia potesse avvenire solamente in uno spazio neutro. Il Tribunale ha smentito tale assunto, dando atto di un percorso positivo del padre dopo la separazione e del buon rapporto con la minore, prevedendo un progressivo ampliamento degli incontri e la definitiva liberalizzazione degli stessi, con possibilità di permanenza notturna della piccola G presso il padre.
I problemi relazionali tra i coniugi, una certa fragilità psicologica della V e l'evoluzione positiva dei rapporti tra padre e figlia emergono dalle relazioni dei servizi sociali acquisite agli atti su richiesta della difesa dell'imputato.
Quanto premesso consentirà di porre nella giusta dimensione la vicenda ai fini della valutazione delle responsabilità del D
Ciò premesso, i fatti, come emersi dall'istruttoria orale, saranno di seguito riassunti.
Vi M , in data 31 dicembre 2015 e in data 10 marzo 2015 presentava denunce-querele nei confronti del marito, con il quale viveva separata, riferendo una serie di atti persecutori posti in essere dopo la separazione.
La parte civile, nel corso di una deposizione apparsa molto sofferta, ha dichiarato che anche dopo la sentenza di patteggiamento pronunciata a carico del marito per il reato dì maltrattamenti, la situazione non era cambiata, tanto che si era decisa a presentare querela; il D . infatti,
aveva continuato a perseguitarla con messaggi minacciosi e ingiuriosi, pedinamenti e accuse di intrattenere relazioni sconvenienti con vari uomini. Inoltre,molti messaggi che il marito le inviava tramite Whatsapp erano inquietanti e le mettevano ansia e la paura che l'imputato potesse attentare alla sua incolumità. In particolare, in una occasione le aveva scritto:"prima o poi mi fermo perché prima o poi il cadavere mi passa davanti nel fiume". In un'altra occasione, da una fotografia che D le aveva inviato, aveva capito che si trovava nel campo di volo dove suo padre sì era recato; era preoccupata perché il genitore era stato oggetto di persecuzioni da parte dei marito. In altri messaggi del novembre 2015 l'accusava di essere inadeguata a fare da madre a G , svilendo la sua personalità e facendola sentire una nullità. Nel dicembre, intorno a mezzogiorno, mentre portava fuori il cane, l'imputato l'aveva superata

alla guida della sua autovettura e le aveva mostrato il dito. In una occasione, aveva portato l'autovettura dal meccanico e le era giunto un messaggio dal quale aveva dedotto che il marito la seguiva e conosceva tutte le sue mosse. Viveva nella paura ed evitava di uscire. La teste ha riferito che l'autovettura era rimasta improvvisamente senza freni, lasciando intendere di avere dei sospetti verso l'imputato; la circostanza è stata però smentita dal meccanico V l il quale nel corso della sua deposizione ha riferito che aveva cambiato le pastiglie dei freni e altri pezzi che presentavano una normale usura. La teste ha riferito altri eventi, quali l'avvelenamento del cane, il danneggiamento della carrozzeria e delle gomme dell'auto, anche se non è stato accertato se fossero opera dell'imputato. Inoltre, ha affermato che il marito la offendeva anche quando portava la bambina allo spazio neutro dove doveva incontrare il padre. Tutti i giorni, sulla base delle prescrizioni dei servizi, doveva mandare un messaggio al D per informarlo della salute della figlie
che soffriva di diverse patologie ma l'imputato rispondeva sempre in modo ingiurioso e minaccioso. Una sera era tornata tardi dall'abitazione dei genitori, dove avevano festeggiato il compleanno della figlia; vicino casa,

era sopraggiunto il marito che le aveva gridato:"non mi hai mandato foto, sei una puttana, me le paghi tutte, ti ammazzo", Aveva preso il cellulare per chiedere aiuto e l'imputato aveva fatto una repentina inversione di marcia e l'avrebbe investita se non fosse saltata sul marciapiede. In diverse occasioni, mentre si trovava in auto in diverse zone del paese, si accorgeva che il D la seguiva; in una occasione l'aveva raggiunta persino in Era sempre minacciata che le sarebbe stata tolta la bambina.
In definitiva, i comportamenti del marito successivi alla separazione condizionavano fortemente la sua vita e quella della figlia minore. La

- ha dichiarato che per lunghi anni si era sentita "agli arresti domiciliari", poiché aveva smesso di uscire per non incontrare il D

Le dichiarazioni della V hanno trovato diverse conferme.
L'agente S ha riferito di un intervento effettuato presso l'abitazione della persona offesa in data 24 dicembre 2015 a seguito di una telefonata nella quale la predetta riferiva di essere stata minacciata dal marito; giunto sul posto, l'imputato non era presente ma la signora era molto agitata e piangeva; la donna era in compagnia del padre che era sopraggiunto per darle conforto.

- C , padre della persona offesa, ha riferito di essere stato

costretto a intervenire più volte in auto della figlia che lo chiamava perché il D assumeva condotte persecutorie. Ha confermato che in
un'occasione era corso a casa di M perché l'imputato aveva tentato di investirla. Inoltre, lo stesso pedinava sua figlia e sostava nei pressi della sua abitazione. Anche lui aveva subiti monacce, sia verbali, sia con gesti quale quello di tagliargli la gola e anche pedinamenti; in un'occasione lo aveva trovato al campo di volo che frequentava, distante dal luogo dove l'imputato viveva. Riceveva molte telefonate da un numero privato; quando rispondeva l'interlocutore riattaccava. Aveva costatato personalmente i molti danneggiamenti all'autovettura della figlia, parcheggiata nei pressi dell'abitazione. Il feste ha pure affermato che il meccanico che aveva rifatto i freni dell'autovettura quando la figlia li aveva trovato danneggiati, ha distrutto le prove della manomissione consistita nel faglio dei tubi dei freni. L'affermazione, priva di qualunque indicazione concreta, non ha consentito la trasmissione degli atti al pubblico ministero per l'ulteriore corso.
Il teste ha più volte ripetuto che l'imputato tormentava la figlia con messaggi ingiuriosi e minacciosi; in particolare le diceva che non era in grado di prendersi cura della bambina.
Anche il teste C , vicino di casa della persona offesa, ha riferito che nella primavera dell'anno 2016 aveva visto l'auto del D in sosta su
una stradina a circa 300 metri dall'abitazione della donna.
La teste M , la psicologa che aveva seguito il nucleo familiare, ha riferito in ordine allo stato d'ansia di V M- derivante soprattutto dalla preoccupazione dei rapporti del marito con la figlia, poiché lo stesso, a suo dire, non era in grado di gestire la quotidianità della bambina. Aveva avuto modo di relazionarsi anche con il D che era solito esprimere in modo impetuoso i propri sentimenti e a volte non si controllava.
La teste C< , collega di lavoro della V , ha riferito che la persona offesa le aveva raccontato di avere rapporti difficili con il marito, soprattutto perché la molestava continuamente, seguendola in tutti i suoi movimenti e danneggiandole l'autovettura.

La teste S , zia della persona offesa, ha dichiarato di avere avuto diversi colloqui con il Di che le chiedeva sempre notizie della bambina. La nipote gli aveva riferito che il marito l'accusava di avere altre relazioni sentimentali e aveva cercato di convincere il Di di lasciare in pace la moglie, dicendogli che quando i rapporti finiscono bisogna farsene una ragione. La nipote le aveva riferito dei danneggiamenti all'autovettura, attribuendoli al marito, dei pedinamenti continui e dei molti messaggi ingiuriosi che riceveva.
Non vi è dubbio che i testi abbiano confermato alcune dichiarazioni di V M anche se giova rilevare che, a parte le dichiarazioni del padre, quelle degli altri testi sono alquanto generiche anche sul riferito della V
Nei messaggi prodotti dalla parte civile il D accusa la moglie di
essere falsa; inoltre, contengono velate minacce attraverso immagini di armi o facendo riferimento a vendette ed esternando il rammarico per non averle poste in essere. Nei messaggi allegati, inoltre, l'imputato lamenta di essere stato estromesso dalla vita della figlia e che era costretto a incontrarla nello spazio neutro. Inoltre, accusa la moglie di essere la causa di tutti i mali e di essere inadeguata a gestire la figlia.
Il racconto di V M , a tratti accompagnato da evidente angoscia per il suo vissuto, deve essere ritenuto credibile, non ritenendosi che l'enfatizzazione di alcune circostanze sia idonea a minarne la credibilità. I pedinamenti, gli appostamenti sotto l'abitazione, le telefonate e i messaggi, le minacce e le ingiurie sono stati raccontati con sufficiente chiarezza.
Le modalità delle condotte consentono di affermare il D abbia
proseguito nei maltrattamenti in relazione ai quali ha patteggiato una pena con la sentenza pronunciata nell'ottobre 2015.
Sul punto è opportuno rilevare, anche per dar conto della pena che a conclusione del processo si è ritenuto di infliggere, che le condotte riferite sono strettamente legata al rapporto di convivenza, alla conflittualità familiare e ai problemi di gestione della vita della figlia minore e, quindi, le condotte contestate devono essere qualificate come maltrattamenti in prosecuzione di quelli già posto in essere in passato, come anche emerge dalle produzioni della persona offesa.
Sì tratta, infatti, di molestie, ingiurie, vessazioni reiterate nel tempo e collegate dalla medesima volontà di deprimere e sottomettere la persona offesa.
In ordine alla diversa qualificazione dei fatti, si ricorda che la Suprema Corte pacificamente afferma che "*... il delitto di maltrattamenti in famiglia è configurabile anche in danno di persona non convivente o non più convivente con ragente, quando quest'ultimo e la vittima siano legati da*
vincoli nascenti dal coniugio.." e che ''*tracciando il discrimen con il reato di atti persecutori.... é configurabile l'ipotesi aggravata degli atti persecutori in*

presenza di comporta menti che
esulino dalla fattispecie dei

maltrattamenti per la sopravvenuta cessazione del vincolo familiare" (Cass. n. 3087/2018). La Corte ha anche chiarito che la cessazione del rapporto si può configurare solamente in caso di divorzio.
Nei caso di specie, le condotte aggressive e violente sono state poste in essere nei periodo in cui ì coniugi erano separati di fatto, in una situazione in cui il vincolo familiare non era cessato, non solamente perché non era intervenuto il divorzio ma soprattutto per l'esercizio della potestà genitoriale dei coniugi sulla figlia minore G
Ciò chiarito in diritto, affermata la credibilità della persona offesa, si può affermare che il suo racconto abbia trovato conferme nelle dichiarazioni rese da altri testi anche se le circostanze dagli stessi riferite sono limitate e derivano in parte da racconti provenienti dalla stessa persona offesa.
E' evidente che il D ha continuato a maltrattare la moglie,
offendendola, attribuendole condotte scorrette, quali le relazioni amorose con molti uomini, accusandola di non essere in grado di curare la figlia e tenendola In una situazione di continua tensione attraverso i pedinamenti e i messaggi assillanti.
Il D nel corso del suo esame ha inteso fornire una diversa versione dei fatti che non è apparsa idonea a smentire quanto riferito dalla persona offesa, rappresentando un acritico scarico di responsabilità privo di effettivi riscontri.

L’imputato non ha negato i litigi, ammettendo che a volte sfociassero in atteggiamenti violenti, aggiungendo però di non avere mai voluto maltrattare la moglie; il loro era stato “un bel matrimonio", allietato dalla nascita della figlia e, ha affermato, non ha mai capito perché era finito così. Ha sostenuto che ì messaggi prodotti attestano che le minacce e le ingiurie erano reciproche; in particolare, gli veniva detto che non avrebbe più rivisto sua figlia; aveva esagerato qualche volta, ma si trattava di una reazione di rabbia. D’altra parte, quando, ad esempio, rimproverava alla moglie dì avere relazioni sessuali con persone che avevano una famiglia, anche lei lo rimproverava di avere tenuto una vita dissoluta. Riferendo del fatto accaduto nel corso di una seduta davanti al consulente nominato dal giudice, in relazione al quale la persona offesa ha dichiarato di essere stata aggredita, ha riferito che in quella occasione la V sì era comportata male con la consulente di parte e vi era stata una discussione, negando di averla aggredita. Ha negato l'aggressione in occasione del compleanno di G e ha aggiunto che dopo la sentenza di patteggiamento, con la quale aveva ritenuto di ammettere i suoi comportamenti sbagliati, non aveva più sostato sotto casa di sua moglie, cercando di evitare occasioni di contrasto. La sera del 24 dicembre, all’ora indicata dalla persona offesa, si trovava a sul posto di lavoro.

Ha negato anche dì avere pedinato il suocero e, illustrando il dedotto pedinamento del padre fino al campo di volo, ha dichiarato di essere stato a conoscenza del fatto che il suocero frequentasse un campo di volo a e quel giorno, trovandosi da quelle parti, poiché la situazione familiare e la malattia della madre lo facevano vivere nello sconforto, si era recato al campo per distrarsi seguendo il volo degli aerei; non aveva visto il suocero perché non sì era avvicinato alle persone che scorgeva da lontano. Ha voluto chiarire che le fotografie che pubblicava si face book non avevano l'intento di provocare; solo più tardi sì era reso conto e aveva smesso.
In sostanza, l'imputato, oltre a negare singoli episodi, ha inteso giustificare le condotte illecite che gli vengono contestate con la reciprocità delle offese e con il comportamento della moglie che aveva intrattenuto relazioni amorose anche durante il matrimonio. Non ha ritenuto di spiegare la sofferenza mostrata dalla moglie e dalla stessa attribuita ai maltrattamenti subiti dal marito.

Se pure appaia chiaro che alcune circostanze siano state enfatizzate dalla V e che il D soffriva per la lontananza dalla figlia, non si può negare lo stato di rassegnazione e a volte di sconforto della persona offesa che ha legittimamente ritenuto oppressive le condotte dell'imputato. D’altra parte, i pedinamenti e gli appostamenti sotto casa sono stati riferiti con precisione e risultano riscontrati dalle altre testimonianze assunte.
Sono stati assunti anche alcuni testi della difesa.
Il teste D Ai figlio dell'imputato, ha riferito che il 23 dicembre nel quale ricorreva il compleanno di sua sorella G aveva accompagnato il padre allo spazio neutro dove incontrava la piccola. Altrettanto aveva fatto alcuni giorni dopo, il 27 o 28 dicembre. Dopo l'incontro, si erano fermati per il consueto confronto con il personale del servizi sociali. Non aveva assistito a discussioni tra suo padre e la V Tornando dalle vacanze nel mese di gennaio era andato a fare gli auguri alla sorella e aveva saputo che si erano verificati degli attriti dei quali però non sapeva riferite. In quel periodo il padre attraversava un momento difficile, era seguito dai servizi psichiatrici e assumeva dei farmaci. Tempo dopo, quando lo psichiatra gli aveva sospeso le cure farmacologiche aveva ripreso la sua serenità,
L G< , convivente del D Don riguardo al 24 dicembre
2015 ha riferito che quel pomeriggio, intorno alle 17.00, il compagno era andata a prenderla a L , dove lei lavorava; erano tornati a casa e dopo la cena, intorno alle ore 22,30, il D era andato al lavoro.
G Mi , ex collega del D i, ha riferito che nel periodo natalizio si era incontrato con il D ai , in via , dove
entrambi lavoravano: Avevano preso una consumazione in un bar e intorno alle 22.00 si erano separati perché doveva andare al lavoro. Non ricordava di averlo incontrato il 24 dicembre 2015 e nulla sapeva dei rapporti del collega con la moglie.
In sostanza, i testi della difesa non hanno riferito circostanze utili a una

a diverse valutazioni, sia in ordine agli orari riferiti dalla L , sia sugli incontri a cui il figlio dell'imputato aveva partecipato.

Così illustrate le risultanze dell'istruttoria, si deve affermare che le prove acquisite abbiano consentito di accertare che D Gi

immediatamente dopo la cessazione della convivenza con la moglie e per qualche mese dopo la pronuncia della sentenza di applicazione pena per il reato di maltrattamenti, ha continuato a mantenere condotte maltrattanti nei confronti della moglie, svilendola con continue ingiurie e considerandola una nullità, ossessionandola con continui appostamenti e pedinamenti e non tralasciando alcuna occasione per inasprire i contrasti.

Le condotte tenute rappresentano una prosecuzione del precedente risultante dalla sentenza in atto e possono essere ritenute limitate nel tempo e, pur nella permanenza della conflittualità con l'ex coniuge, si possono considerare risolte dopo alcuni mesi dalla separazione.

Si deve, tuttavia rilevare che, seguendo un percorso riabilitativo e ritrovando il rapporto con la figlia, la situazione si è via via normalizzata e le condotte illecite sono cessate dopo i primi mesi dell'anno 2016.

Di G deve, quindi, essere dichiarato colpevole del reato di maltrattamenti nei confronti della moglie V Me, ritenuta la continuazione con i fatti contestati nella sentenza citata, deve essere condannato alla pena che, avuto riguardo alle considerazioni svolte, può essere contenuta in mesi due di reclusione.

Segue la condanna al pagamento delle spese processuali.

L'imputato deve essere condannato a risarcire alla parte civile costituita il danni derivanti dal reato che si liquidano in euro 1500,00, oltre al pagamento delle spese processuali che si liquidano in euro 1450,00 oltre spese generali, IVA e CPA. Le spese sono poste provvisoriamente a carico dello stato, poiché la parte civile è stata ammessa al patrocinio a spese dello stato.

MOTIVI DELLA DECISIONE

Gli elementi acquisiti nel corso dell'istruttoria dibattimentale consentono di ricostruire i fatti di cui è processo come verrà di seguito esposto.
La persona offesa, nel corso del suo esame, ha riferito che si era sposata con l'imputato nell'anno 1998 in <
Dall'unione erano nati due figli, la prima al loro paese d'origine, il secondo in Italia dove aveva raggiunto il marito nell'anno 2009. Fin dai primi giorni il marito aveva assunto comportamenti ostili nei suoi confronti e l'aveva persino buttata fuori casa, dicendole che doveva andarsene. Il fatto era stato generato da una telefonata giunta sul telefono del marito alla quale aveva risposto; era una ragazza che telefonava dalla (alla quale aveva
fatto tante domande per capire le ragioni della chiamata e questo aveva scatenato le ire del marito. Si era rifiutata di uscire di casa perché non aveva dove andare, non conosceva nessuno; gli aveva detto che, se non la voleva, doveva riaccompagnarla al suo paese. La convivenza era proseguita ma, ha dichiarato la persona offesa: "noi avevamo pochi giorni di gioia in casa...". Il marito beveva molto e a casa era sempre nervoso, usciva spesso la sera e ritornava molto tardi; aveva scoperto, leggendo alcuni messaggi sul telefono del coniuge, che intratteneva una relazione con la
ragazza con la quale aveva parlato al telefono. Molto presto il marito aveva cominciato a picchiarla, anche quando era in attesa del secondo figlio (nato il 23.10.2010). Viveva isolata, poiché non conosceva la lingua e non aveva occasioni per socializzare; il marito non voleva che frequentasse altre persone e l'aveva persino costretta a interrompere l'amicizia che intratteneva con la cognata. Durante la gravidanza aveva chiesto più volte all'imputato di portarla a fare dei controlli e non capiva perché, mentre in (le donne in attesa erano molto seguite, in
Italia non aveva fatto mai eseguito un esame clinico; tuttavia il marito non l'accompagnava in ospedale. Dopo tante insistenza, poiché aveva dolori all'addome, il marito si era convinto. In ospedale era stata sottoposta a molti controlli e, convocata circa due settimane dopo, era stata informata di essere ammalata di HIV. Il marito l'aveva accompagnata al reparto di Malattie Infettive ma aveva tentato di ritirare i referti senza in sua assenza. Il medico le aveva chiesto se fosse stata informata dal marito del fatto che egli era ammalato da molti anni ma lei non aveva mai saputo niente. Alla presenza dei medici, l'imputato le aveva detto di averla informata ma era falso. Tornati a casa aspettava spiegazioni dal marito ma lui era andato via, rimanendo fuori tutta la notte. Più volte gli aveva chiesto perché non l'avesse informata, per consentirle di proteggersi; una volta l'imputato le aveva detto "te l'ho fatto apposta". Il marito diventava sempre più aggressivo e violento; incurante del fatto che era in stato di gravidanza, aveva tante pretese: una notte voleva costringerla ad alzarsi per lavare un vestito di suo figlio, avuto con una precedente compagna, un ragazzo di 23 anni che viveva con loro; al suo rifiuto, l'aveva colpita con pugni. Le violenza erano frequenti; a quei tempi vivevano a e più volte l'aveva lasciata fuori insieme ai figli piccoli. In una occasione, non riuscendo a rientrare nell'abitazione, aveva chiamato il fratello del marito che l'aveva accolta in casa sua a per qualche giorno. Il marito era poi andata a prenderla e il cognato gli aveva detto che non poteva comportarsi così. Le cose non erano cambiate ma non aveva alternative. Aveva preso contati con l'assistente sociale Z< per chiedere aiuto ma il marito la ostacolava dicendole che queste persone le avrebbero fatto del male. Si erano trasferiti a ' ; la situazione era sempre
la medesima e spesso veniva buttata fuori casa con i figli piccoli. In un'occasione si era rifugiata nel garage fino a quando K, non si era deciso a farli rientrare.
Si erano poi trasferiti a dove erano continuate le violenze. In diverse occasioni erano rimaste senza cibo e un inverno anche senza riscaldamento perché il coniuge spendeva il denaro alle macchinette o partiva senza lasciarle il necessario; anche questa era occasione di litigi a seguito dei quali veniva picchiata.
Solo uno volto ero andato al Pronto Soccorso perché, percuotendola, il marito le aveva rotto un dito; in qualche occasione aveva chiamato la polizia ma al loro arrivo parlava solo lui; le era stato più volte detto di presentare denuncia, ma una tale evenienza non faceva parte della loro cultura e aveva fatto molta fatica a fare questo passo. Più volte gli aveva detto che, piuttosto che vivere così, era meglio divorziare e accompagnarla in

. Era subentrata anche la paura per la propria incolumità, poiché spesso il coniuge la minacciava di morte, dicendole che l'avrebbe buttata dal balcone e simili.
Con l'aiuto dei servizi sociali aveva trovata qualche lavoretto e intendeva accumulare denaro per comprare i biglietti e tornare al suo paese. Era poi andata al suo paese insieme al marito per trascorrere le vacanze ma era partita con l'intenzione non tornare più in Italia. Era ospite presso i suoi genitori mentre il marito soggiornava presso l'abitazione della sua amante. Era risoluta a rimanere al suo paese ma la sua famiglia l'ha convinta e continuare la convivenza. Ritornati in Italia il marito era ripartito per la lasciandole solo 20 euro; non sapeva come
provvedere a sé, ai suoi due figli e al figlio del coniuge; era stata aiutata dal fratello del marito che le aveva fatto recapitare 50 euro dicendole che non poteva darle di più perché aveva speso molto per trasferire il corpo della madre defunta in
Le condotte di maltrattamento, ha dichiarato la teste, erano rivolte anche alla figlia F (nata nell'anno 2001) che veniva sempre apostrofata con parole del tipo; sei scema, non sarai mai nessuno, sei una strega" e a volte veniva picchiata. In padre, inoltre, le faceva bere vino, dicendo che doveva abituarsi per non avere problemi quando, crescendo, sarebbe andata in discoteca.
La bambina, stanca della situazione familiare, aveva scritto una lettera a una compagna di scuola, nella quale descriveva le sue condizioni di vita, aggiungendo che non ce la faceva più; era stata contattata dalla madre della compagna che si era offerta di trovarle un avvocato che potesse assisterla. Le aveva detto che preferiva essere aiutata ad andare via e la signora si era adoperata perché potesse disporre del denaro necessario per andare dallo zio in Tuttavia, per fare i documenti necessari doveva aspettare il ritorno del marito avvenuto dopo due mesi. Per ottenere quanto necessario per il rinnovo dei documenti e, in particolare, del permesso di soggiorno, aveva dovuto acconsentire a rapporti non protetti, nonostante il medico, quando aveva diagnosticato la malattia, le avesse raccomandato di avere solo rapporti protetti.
Era riuscita ad andare in (poi corretta in ì dallo zio e
aveva chiesto asilo per avere una possibilità di rimanere in quello Stato. Tuttavia, le era stato respinto perché era considerata come facente parte dell'unione Europea ed era stata rinviata a Roma. Non conosceva nessuno e una persona, vedendola con due

bambini e le valige, l'aveva indirizzata verso un centro di accoglienza dal quale era stata poi trasferita alla Casa di Accoglienza di F >; quindi aveva presentato denuncia contro il marito. A seguito di questi fatti al marito era stata tolta la potestà genitoriale sui figli che oggi vivono con lei che ha trovato lavoro ed è in grado di assicurare ai bambini la serenità.
Precisando le dichiarazioni rese in ordine al contagio da HIV, ha dichiarato che fino alla nascita di F era sana ed era sicura di non avere contratto la malattia perché al suo paese i protocolli prevedono anche tali esami.
Con riguardo ai maltrattamenti verso la figlia, ha aggiunto che il padre spesso la costringeva a bere alcolici; la bambina non osava dire di no per non offenderlo; quando si lamentava perché non condivideva tale condotta, il marito le rispondeva che toccava a lui decidere sull'educazione dei figli. Quando si erano allontanati da casa, la bambina aveva avuto problemi perché aveva assunto una dipendenza da alcol e beveva tutto quello che trovava, anche i profumi; con fatica era poi riuscita a liberarsi da tale dipendenza.
Quando aveva fatto le pratiche per l'espatrio, aveva scoperto che il suo matrimonio non era stato mai registrato e, quindi, non era valido. Nell'anno 2015 l'imputato si era sposato con un'altra donna.
Dal racconto di S è emerso che la sua vita era penosa: doveva stare sottomessa, vivere isolata e rispettare ogni ordine del marito; era percossa ripetutamente, anche durante la gravidanza, e spesso, secondo il capriccio del momento da parte del coniuge, era buttata fuori casa. Disprezzo, disinteresse e violenze erano le caratteristiche dell'atteggiamento dell'imputato verso la moglie. Inoltre, l'uomo, in C ,
intratteneva una relazione con
un'atra donna e si recava in quel paese per stare con lei; questo avveniva anche quando si recavano insieme al loro paese. Il K , però, gradiva di avere in casa una persona che
fungesse da "serva" perché continuava a richiamarla quando lei si allontanava. Una condotta di maltrattamento particolarmente grave è stata il contagio della malattia HIV la cui contrazione l'imputato aveva taciuto alla persona offesa che lo aveva scoperto solamente in sede di accertamenti eseguiti dall'ospedale Policlinico di nell'anno 2010. E' particolarmente odioso
quanto ha riferito la S e cioè che il marito, alla richiesta di spiegazioni sul silenzio circa la malattia, impedendole così di proteggersi, aveva risposto di averlo fatto proprio per contagiarla.
Nel corso della sua testimonianza la persona offesa ha mostrato un profondo stato di sofferenza; mai ha avuto accenti di odio verso il marito, né è apparso in alcun modo un intento calunnioso.
I fatti sono stati riferiti con pacatezza e, a tratti, con incredulità per quanto aveva dovuto sopportare ed è apparso chiaro lo stato di frustrazione che la opprimeva; la vicenda è stata comunque riferita con precisione e senza contraddizioni.
La deposizione, quindi, pur se imprecisa sulle date, è stata circostanziata in ordine alla innumerevoli condotte illecite assunte dall'imputato contro di lei e contro la figlia minore e la stessa è risultata credibile, tale da consentire di affermare che le sue dichiarazioni costituiscono piena prova dei fatti contestati all'imputato.
Sulla valutazione della testimonianza della persona offesa, anche se costituita parte civile, la giurisprudenza della Suprema Corte, fin dagli anni '90, è pacifica nell'affermare che la stessa non necessita di riscontri.
Da ultimo ha statuito che *"In tema di testimonianza, le dichiarazioni della persona offesa costituita parte civile possono essere poste, anche da sole, a fondamento dell'affermazione di responsabilità penale*

dell'imputato, previa verifica, più penetrante e rigorosa rispetto a quella richiesta per la valutazione delle dichiarazioni di altri testimoni, della credibilità soggettiva del dichiarante e dell'attendibilità intrinseca del suo racconto e, qualora risulti opportuna l'acquisizione di riscontri estrinseci, questi possono consistere in qualsiasi elemento idoneo a escludere l'intento calunniatorio del dichiarante, non dovendo risolversi in autonome prove del fatto, né assistere ogni segmento della narrazione" (Sez. 5, n. *21135/2019).*

E, ancora, *"In tema di valutazione dell'attendibilità della persona offesa costituita parte civile, le cui dichiarazioni possono essere poste da sole a fondamento dell'affermazione di responsabilità, è richiesto un vaglio particolarmente rigoroso nel caso in cui una parte del narrato, riferita ad alcuni fatti, sia ritenuta inattendibile, e deve ritenersi illegittima la valutazione frazionata di tali dichiarazioni ove la parte ritenuta inattendibile sia imprescindibile antecedente logico dell'altra parte". (Sez. 4, n. 21886 12018.*

Le dichiarazioni di S K come si è visto, sono apparse credibili sul piano soggettivo e sono dotate di attendibilità oggettiva, per la coerenza del racconto in ogni sua parte.

Tuttavia, si osserva come i fatti abbiano trovato molteplici conferme dall'istruttoria orale e dai documenti acquisiti.

La teste L , figlia della vicina di casa della famiglia dell'imputato, oggi gravemente ammalata, ha dichiarato di avere appreso direttamente, quando si recava presso la madre e di avere saputo anche dai racconti della congiunta, che durante l'inverno la famiglia era spesso al freddo; la madre li aveva aiutati spesso, dando qualche piccola somma o preparando per i bambini un pasto caldo. Quando andava dalla madre aveva avuto modo di frequentare la famiglia; conoscevano poco il marito perché raramente era presente. Sapeva che i rapporti tra i coniugi non erano buoni ma non era a conoscenza di circostanze precise.

La relazione del Centro Antiviolenza di . attesta il faticoso percorso della S la quale, benché mostrasse grave sofferenza per le condotte del marito, non voleva denunciarlo e chiedeva solo di potere tornare al suo paese (anno 2012). Chiedeva un lavoro per affrancarsi dal marito e potere fare una vita libera con i suoi figli. Aveva poi ripreso la convivenza, anche se era stata lasciata fuori casa più di una volta. Inoltre, erano stati insieme al loro paese ma al ritorno il marito era ripartito lasciandola senza mezzi per le necessità primarie. Durante la gravidanza, quando aveva scoperto di essere stata infettata dal marito, la donna era arrabbiata e molto spaventata, poiché i medici le avevano detto che il virus che aveva contratto aveva subito una mutazione e, benché silente in quel momento, avrebbe potuto svegliarsi e dare effetti devastanti. Piangeva dicendo che non meritava una vita così. La persona offesa aveva trovato un lavoro saltuario in nero e mostrava di volere andare via, poiché i rapporti con il marito erano sempre critici; si era poi trasferita all'estero e non aveva dato sue notizie; nell'anno 2015 era rientrata, proveniente da Roma.

La relazione in data 5 gennaio 2016 dei servizi sociali di conferma molte delle condotte dell'imputato denunciate dalla S e lo stesso K conferma di avere mantenuto un'amante ir

Le condotte ai mauianamenio nei confronti della minore F riferite dalla S , sono confermate dalla relazione dell'ASL di Pavia in data 17.12.2015, acquisita in sede di ammissione prove e, su accordo delle parti, all'udienza dell'11 maggio 2018 unitamente alle altre relazioni. La minore, ascoltata dalla psicologa, confermava le condotte violente del padre e la circostanza che era costretta a bere alcol. Aggiungeva che non aveva odio verso il padre e non escludeva di volerlo aiutare in futuro; tuttavia, affermava che per il momento non voleva incontrarlo. Le condotte di maltrattamento emergono anche dal decreto del Tribunale dei minori in data 9 maggio 2016 con il quale venne dichiarata la decadenza dalla potestà genitoriale dell'odierno imputato.

In definitiva, le ulteriori prove assunte forniscono specifiche conferme del racconto dalla persona offesa in ordine ai maltrattamenti subiti dalla stessa e dalla figlia minore Fi le dichiarazioni corrispondono a quanto realmente accaduto e alcuni degli episodi riferiti sono stati puntualmente riscontrati dalle persone sentite.

La ricostruzione dei fatti non è stata smentita dall'imputato nel corso del suo esame. K [1] A non ha escluso che durante i litigi abbia minacciato e ingiuriato la moglie. Ha dichiarato che i rapporti erano divenuti difficili fin dall'arrivo in Italia della S perché lei pretendeva tanto, non voleva lavorare , non accompagnava i bambini a scuola e la sera si metteva a guardare

film africani fino al mattino; dei figli e della casa si occupava solo lui, perché aveva "la 104" e lavorava poche ore. Non aveva mai buttato fuori casa la moglie, era lei che andava via perché le piaceva farsi cercare. Dormiva spesso fuori casa e una volta, dopo overla lungamente cercata, l'aveva trovata da suo fratello. Dal 2009 al 2013 non era mai stato in Costa d'Avorio; vi era andato nel 2013 ma dopo dieci giorni era dovuto tornare perché era morta la madre e si doveva rimpatriare la salma. Era rimasto al suo paese fino a ottobre (più avanti nel corso dell'esame ha rettificato, dicendo che era rimasto un mese dopo ottobre). Ha forse inteso giustificare il fatto di avere lasciato la famiglia senza mezzi per provvedere alle primarie necessità, affermando di avere dovuto pagare i debiti di una sua zia per non farla arrestare. Quando erano rimasti senza riscaldamento era colpa della moglie che non aveva pagato la bolletta perché il denaro che le dava lo mandava in [1] a un uomo che aveva lì. Quando era partito, il riscaldamento funzionava, è stato interrotto mentre si trovava in Africa. Ha affermato di avere saputo

di essere malato solo nell’anno 1999, quando era stato ricoverato all'ospedale. La moglie lo sapeva e, vedendolo preoccupato, gli aveva detto "ma si, anche una mia cugina ha questa cosa, non si muore più”. Si erano tranquillizzati e i rapporti erano andati avanti come prima. S si era arrabbiata solo quando aveva visto una carta dove si diceva che il marito era ammalato dal 1992, ma non era così. Ha precisato che i medici gli avevano raccomandato di dovere rapporti sessuali protetti ma la moglie lo aveva tranquillizzato e avevano continuato come prima. Non si era preoccupato per il figlio nato in Italia perché la moglie era rimasta incinta prima di avere Saputo di essere sieropositivo.
viveva ancora in Africa,
pagava l’affitto perché
sostanzialmente lo aveva
però era voluta andare

Su contestazione del suo difensore, il teste ha precisato che, parlando dello scoperta della malattia in data successiva a quando la moglie era rimasta incinta, intendeva riferirsi alla figlia nata nell’anno 2001, quando lo S Quando vivevano a B non

dove

La moglie si recava al loro paese tutti gli anni nel mese di giugno e si fermava quattro mesi. Solo nel 2013, quando lei insisteva per partire, le aveva detto che sarebbero andati insieme ad agosto. La moglie si era arrabbiata e aveva chiamato la Polizia dicendo che era stata picchiata ma non era vero. Un giorno era scomparsa senza dire nulla insieme ai bambini; l’aveva cercata presso tutti i parenti e, poiché nessuno sapeva dove fosse, aveva fatto denuncia. In seguito aveva saputo che era andata da uno zio in

Ha negato di avere indotto F a bere vino o altri alcolici e nulla sapeva di una dipendenza dall’alcol della figlia.
Ha ammesso che, in costanza di matrimonio con la persona offesa, intratteneva ancora un rapporto con la sua prima compagna, con la quale aveva avuto il primo figlio; dopo la sua morte aveva conosciuto un'altra donna.
Si può affermare all'evidenza che quanto riferito dal K oltre a essere generico e contraddittorio in sé, è smentito dall'istruttoria svolta e dalle molte circostanze riferite dai servizi sociali che si erano occupati della vicenda. Inverosimile è la circostanza che la moglie, pur avendo saputo che il marito aveva contratto la malattia ed era molto spaventata, lo aveva tranquillizzato e convinto ad avere rapporti non protetti. Peraltro, l'insorgenza della malattia era antecedente all'anno 1999; inoltre, in un primo tempo l'imputato si è riferito alla seconda gravidanza della moglie; accortosi dell’errore a seguito di contestazione del suo difensore, ha corretto il tiro riferendo la rivelazione della malattia a quando la moglie era incinta della prima figlia. Tuttavia, anche tale correzione è vana, poiché l'imputato ha dichiarato di essere recato in subito dopo la scoperta, avvenuta
nel dicembre 1999, mentre la figlia è nata nel maggio 2001, quindi, un anno e mezzo dopo.
Nessun riscontro, benché si tratti di una circostanza irrilevante, sul fatto che la moglie faceva quattro mesi di vacanza al suo paese. Come si vedrà di seguito, i suoi stessi fratelli hanno confermato, smentendo le sue dichiarazioni, che si fosse recato in solamente nel 2013.
In sostanza, sono molte le falsità malamente dichiarate dall'imputato nel corso del suo esame e quanto dallo stesso riferito, privo di qualunque riscontro, non è idoneo a scalfire le dichiarazioni della persona offesa.
Anche i testi della difesa hanno contribuito a confermare la fondatezza delle contestazioni.
Il teste N , fratello dell'imputato, ha riferito molti “non lo so e non ricordo” circa i suoi rapporti con la famiglia del fratello e sui periodi in cui si erano frequentati. Aveva conosciuto la cognata solo nell'anno 2003; quando S era venuta in Italia, insieme alla moglie e ai figli si recava spesso a casa del fratello e la moglie cucinava per tutti. In casa loro c’era un clima sereno. Ha confermato che una notte S gli aveva telefonato chiedendogli di ospitarla; era andata a prenderla e l'aveva trovata sulla strada nei pressi della stazione ferroviaria di un paese che non ha indicato con esattezza (forse S); non gli aveva riferito il motivo per cui si era allontanata da casa; era rimasta presso di lui due giorni, poi suo marito era andato a riprenderla: inseguito la cognata gli aveva

spiegato che gli aveva chiesto di ospitarla perché il marito aveva il telefono spento e non riusciva a tornare a casa. Aveva saputo di litigi tra i coniugi ma non di fatti gravi; anche lui litigava con sua moglie. Ha confermato di avere dato del denaro a S perché doveva pagare una bolletta anche se ha aggiunto che quando gli erano stati chiesti era presente anche il fratello. Tuttavia, su specifica domanda, ha dichiarato che in una occasione il fratello era andato in e la cognata gli aveva detto che avevano interrotto l'erogazione del gas. Aveva portato tutti a casa sua alla conoscenza del fatto che la cognata tutti gli anni d'estate andava in >; il marito la raggiungeva quando era libero dal
lavoro. Aveva saputo che la cognata era andata via di casa ma a quel tempo frequentava poco il fratello perché aveva molti problemi a causa della malattia della moglie.
Tralasciando i non ricordo e i non so dichiarati dal teste, in sostanza

10. stesso, da un lato ha confermato diverse circostanze riferite dalla S i e, dall'altro, ha smentito il fratello. Era vero che di notte aveva dovuto soccorrere la donna con due bambini piccoli, anche se ha dato una spiegazione risibile (perché doveva portare i congiunti a Milano, piuttosto che portarli a casa loro?). Quanto all'episodio della interruzione del gas, è ragionevole ritenere che dovesse trattarsi della stagione invernale, poiché il teste li aveva "caricati" sull'auto e portati a casa sua, non certo perché non potevano cucinare ma probabilmente perché c'era troppo freddo. Ha riferito ancora, smentendo il fratello, che, quando si recava con la sua famiglia (la moglie e quattro figli) la casa era in ordine e S cucinava molto bene per tutti. Dopo pranzo era $• unitamente a sua moglie, che riordinava la cucina.
11. teste K anch'egli fratello dell'imputato, ha dichiarato di
avere frequentato assiduamente, circa una volta la settimana, la casa dei congiunti e di avere costatato che era in ordine e che i coniugi erano sereni, salvo qualche litigio normale in ogni famiglia; mai aveva sentito parlare di maltrattamenti, né aveva visto segni sui bambini riconducibili a percosse. S cucinava per tuffi. Non ha confermato la circostanze che la cognata si recasse in '
> tutti gli anni per tanti mesi, anche se gli risultava che fosse andata "più di una volta". Ha escluso che la cognata si rifiutasse di imparare l'italiano, aggiungendo che era normale che avesse difficoltà, anche perché non lavorando, non aveva occasioni di esercitare la lingua. Era molto amica di sua moglie e con lei in qualche occasione si era recata presso la discoteca che egli gestiva. S non gli aveva mai chiesto denaro ma non poteva escludere che l'avesse chiesto a sua moglie. Era a conoscenza del fatto che suo fratello andava in < anche senza la
famiglia. Inoltre, ha affermato che, quando S(era arrivata in Italia, viveva nella stessa casa con la compagna (precedente o attuale non è stato chiarito) dell'imputato.
In sostanza, al di là della genericità delle dichiarazioni, si osserva come il teste abbia smentito diverse asserzioni dell'imputato, sia con riguardo al fatto che la persona offesa non avesse voglia di fare niente e tenesse la casa in disordine, sia con riguardo ai viaggi dell'imputato al suo paese.
La ricostruzione dei fatti fin qui illustrata, si ribadisce, è idonea per affermare la responsabilità di K Gl *A*
Con riguardo alla qualificazione giuridica del reato di maltrattamenti in famiglia, giova premettere che la consolidata giurisprudenza della Suprema Corte ha, affermato che i fatti e le condotte che costituiscono maltrattamenti nel senso indicato dalla norma sono di svariato genere, "per *lo più commissivi, ma anche omissivi, i quali isolatamente considerati potrebbero anche essere non punibili (atti di infedeltà, di umiliazione generica, etc.) ovvero non perseguibili (ingiurie, percosse o minacce lievi, procedibili solo a querela), ma acquistano rilevanza penale per effetto della loro reiterazione nel tempo*" (giurisprudenza pacifica fin dagli anni '90, vedi Cass. n. 4636 del 27.4.1995, Cass. Sez. 6 n. 8396 del 12.9.1996).
Le condotte di maltrattamento debbono, poi, esser caratterizzate da abitualità o reiterazione nel tempo; sul punto, va osservato che - come prosegue la sentenza della Suprema Corte Cass. Sez. 6 n. 4636 del 27.4.1995, sopra citata - tale requisito *"si perfeziona allorché si realizza un minimo di tali condotte (delittuose o meno) collegate da un nesso di abitualità e può formare oggetto anche di continuazione ex art. 81 capoverso cod. pen., come nel caso in cui la serie reiterativa sia interrotta da una sentenza di condanna ovvero da un notevole intervallo di tempo tra una serie di episodi e l'altra*". Inoltre, *"Per la configurabilità del delitto di maltrattamenti in famiglia non è necessario un comportamento vessatorio continuo ed ininterrotto. L'elemento unificatore dei singoli episodi è costituito da un dolo unitario, programmatico, che abbraccia e fonde le diverse azioni; esso consiste nell'inclinazione della volontà ad una condotta oppressiva e prevaricatoria che, nella reiterazione dei maltrattamenti, si va via via realizzando e confermando, in modo che il colpevole accetta di compiere le singole sopraffazioni con la consapevolezza di persistere in una attività illecita, posta in essere già altre volte*" (Cass. n. 468/92).
Il dolo del reato di maltrattamenti "é *generico e consiste nella coscienza e volontà di sottoporre il soggetto passivo ad una serie di sofferenze fisiche e morali in modo continuo e abituale, in modo da lederne complessivamente la personalità*" (Cass. n. 11476/97); l'elemento soggettivo del reato, "poi si *concretizza in modo unitario ed uniforme che deve evidenziare nell'agente una grave intenzione di avvilire e sopraffare la vittima e deve ricondurre ad unità i vari episodi di aggressione alla sfera morale e materiale di quest'ultima, pur non rilevando, data la natura abituale del reato, che durante il lasso di tempo considerato siano riscontrabili nella condotta della gente periodi di normalità e di accordo con il soggetto passivo*" (Cass. n. 8510/96 e Cass. n.4332/2014).
Una volta definiti i requisiti oggettivi e soggettivi del reato di maltrattamenti, risulta conseguenza inevitabile affermare che *"Nella valutazione della prova il giudice deve prendere in considerazione ogni singolo fatto ed il loro insieme non in modo parcellizzato e avulso dal generale contesto probatorio verificando se essi, ricostruiti in sè e posti vicendevolmente in rapporto, possano essere ordinati in una costruzione logica, armonica e consonante che consenta, attraverso la valutazione unitaria del contesto, di attingere la verità processuale, cioè la verità limitata, umanamente accertabile e umanamente accettabile del caso concreto*" (Cass. Sez. 6 n. 8314 del 5.9.1996).
Dalla deposizione di S S come si è visto e
dall'istruttoria tutta, risultano innumerevoli condotte dell'imputato definibili come maltrattamenti nel senso indicato dalla giurisprudenza richiamata in premessa, condotte che si sono protratte per lungo tempo e che hanno causato nelle persone offese uno stato di grande sofferenza, sia fisica, a causa della violenza delle aggressioni, sia psicologiche per lo stato di soggezione e paura nel quale vivevano.
Si vuole ricordare, con riguardo a F che le relazioni in atti confermano il suo disagio, dalla stessa manifestato nella lettera scritta a una compagna di scuola, circostanza che ha permesso ai servizi, grazie all'interessamento della madre di questa compagna, di occuparsi della minore.

Sono state provate molteplici condotte: le percosse, le umiliazioni, le cacciate dall'abitazione, l'alcol somministrato alla figlia, il disappunto perché la signora "non voleva lavorare" e, sostanzialmente, non voleva fare la serva ma essere moglie, i tradimenti e le umiliazioni e, non ultimo, il contagio di una malattia così grave.
Le condotte illecite perpetrate dall'imputato hanno provocato una situazione di grave, perdurante sofferenza e mortificazione nella moglie e nella figlia costrette a vivere in uno stato di sottomissione e rassegnazione. Si osserva che la minore, benché abbia dichiarato di avere perdonato il padre, ha chiesto di non vederlo più, almeno per un certo tempo.
La valutazione complessiva e unitaria delle condotte di maltrattamento tenute dall'imputato nei confronti delle persone offese evidenziano l'abitualità nel tempo secondo la definizione accolta dalla giurisprudenza della Suprema Corte e sopra richiamata e la reiterazione delle stesse ha reso insostenibile ed estremamente penosa la quotidianità familiare.
Sul piano soggettivo, la serialità e ripetitività di analoghe di condotte tenute nel tempo, caratterizzate da un evidente e preoccupante crescendo di aggressività, consente di collegarle in un unico contesto e di ritenere provato il dolo generico del reato, attesa l'evidente coscienza e volontà di reiterare tali condotte.
In sostanza, le violenze e le umiliazioni alle quali la persona offesa ha dovuto sottostare dimostrano la volontà e la consapevolezza di avvilire e sopraffare la moglie e la figlia , anche solo per disprezzo e disinteresse.
E' stato ampiamente provato il reato di lesioni gravissime, così come contestato.
Le relazioni acquisite confermano la "disperazione" della S nel momento in cui seppe del contagio e aggiungono un ulteriore elemento alla credibilità della teste quando ha affermato che il marito le aveva taciuto di essere ammalato di HIV. Si osserva, peraltro, che, ove anche la circostanza fosse stata smentita, ma così non è, ciò rileverebbe, al più, sulla gravità del fatto e non sulla qualificazione delle condotte.
Altrettanto credibile è la dichiarazione della persona offesa quando riferisce che il marito aveva affermato di averla contagiata appositamente, per condividere la stessa sorte.
La malattia e il contagio sono documentati dalle certificazioni sanitarie acquisite agli atti e nulla è emerso dal quale eventualmente dedurre altre fonti di contagio.
K A era "sieropositivo noto per HIV" in data precedente all'anno 1999 e soffriva di patologie connesse. Mai aveva riferito alla moglie la circostanza, né le aveva consigliato rapporti protetti. La malattia a carico della persona offesa deve essere ritenuta insorta nell'aprile dell'anno 2010, (data in cui le era stata riferita dai medici, non avendo la stessa mai avvertito alcun sintomo, né era mai stata a conoscenza della malattia del marito; vedi Cass. 2442/99 e 2522/98), quando era stata al Policlinico san per accertamenti relativi allo stato di gravidanza.
Sul punto, le pronunce più recenti (vedi Cass. n. 44335/2016) confermano che per "insorgenza della malattia) deve essere collocata nel momento in cui se ne sono evidenziati i sintomi che, nel caso di specie, corrispondono al momento in cui la persona offesa venne informata dai medici.
La S' non accusava sintomi ma la presenza del contagio e alcuni deficit immunitari derivanti dalla malattia, avevano reso necessario uno specifico trattamento, nonostante la gravidanza in atto. Nella relazione del 28.11.2011 i sanitari del predetto ospedale attestano che, nonostante la malattia si sia mantenuta *"clinicamente asintomatica, la paziente era esposta al rischio di ulteriore deficit quantitativo e funzionale delle difese immunitarie e di evoluzione ... verso patologie ... di infezione da agenti opportunistici o di malattie neoplastiche HlV-correlate*".
Il dottor D< Z , medico al reparto Malattie Infettive del Policlinico ha riferito di avere seguito l'imputato a partire dall'anno 1999 anche se altri lo avevano curato in precedenza; ha confermato che lo stesso era edotto, sia della malattia, sia della necessità che, per evitare il contagio di altri soggetti, doveva evitare di avere rapporti sessuali non protetti.
Sul piano del rapporto causale non vi sono dubbi sul fatto che il contagio sia avvenuto a seguito di rapporti sessuali non protetto. Sul punto, la Suprema Corte ha affermato (Cass. n. 41939/2006) che *"in caso di omissione di regole cautelari, il nesso causale tra la condotta e l'evento sussiste non solo quando emerga con certezza che l'adozione delle norme precauzionali avrebbe scongiurato il prodursi dell'evento dannoso, ma anche nei casi in cui, pur non potendosi escludere in assoluto la possibilità di un diverso meccanismo causale, non risultino dotati di ragionevole concretezza ipotesi alternative all'insorgere dei processi morbosi*".
Nel caso di specie non sussistono ipotesi alternative: la S> non aveva avuto pregressi rapporti sessuali ed era perfettamente sana prima di stringere il legame affettivo con l'imputato. Nessun fattore di contagio diverso è emerso, sia pure in modo indiziario.
Sul punto, la Suprema Corte ha avuto modo di affermare che "la condotta di chi contagia il proprio partner tacendogli di essere affetto da sindrome di HIV integra il reato di lesioni personali gravissime con dolo eventuale; sussiste, infatti, "*l'elemento psicologico del dolo eventuale quando l'agente pur non avendo di mira il fatto a rischio, né accetti la concreta possibilità del suo verificarsi in un necessario rapporto eziologico con l'azione medesima*" (Cass. n. 383388/2012).
Sulla base di quanto emerso dall'istruttoria si deve piuttosto affermare che il contagio sia sfato pianificato e voluto dal K il quale, come le predette circostanze consentono di affermare, ha avuto la consapevolezza del probabile contagio della moglie a seguito di rapporti non protetti e lo ha voluto.
Nel caso di specie, quindi, si deve ritenere sussistente il dolo diretto, in considerazione della affermata credibilità della persona offesa quando ha dichiarato che il marito era stato sostenuto dalla volontà di

contagiarla.
Nessun dubbio sul fatto che il contagio causato alla S. debba essere qualificato malattia, sia per le caratteristiche del contagio medesimo, sia per le conseguenze che potrebbero derivare. In concreto, la persona offesa, pur se oggi non presenti sintomi clinici, si trova in uno stato di immunodeficienza (come indicato nella documentazione sopra commentata) che, al fine di evitare gravi rischi, la costringe ad assumere farmaci antivirali che servono a bloccare il virus.
Il reato di lesioni contestato, oltre che dalle dichiarazioni della persona offesa, è provato dai certificato del Pronto Soccorso in atti. La malattia, come l'unanime scienza afferma, è insanabile, anche se vi sono farmaci che tendono a tenerla sotto controllo.
La contestazione di lesioni personali gravissime è corretta e costituisce reato più grave rispetto al reato di maltrattamenti.
Affermata la responsabilità dell'imputato, allo stesso non possono essere concesse le circostanze attenuanti generiche, sia per la gravità dei fatti, sia perché lo stesso non ha mostrato in alcun modo di avere preso coscienza del disvalore delle condotte, accusando la moglie di avere detto falsità e di essere lei la causa di tutto.
I reati possono essere ritenuti commessi in esecuzione del medesimo disegno criminoso.
Tenuto conto dei criteri di cui all'art. 133 c.p., la pena viene così determinata: anni sette e mesi sei di reclusione, aumentala ad anni otto e mesi sei per la continuazione.
Alla condanna seguono, per legge, la condanna al pagamento delle spese processuali e le alle pene accessorie.
K G A deve essere condannato a risarcire alla parte civile costituita S< S i danni derivanti dal reato da determinarsi in sede civile.
Può essere riconosciuta una provvisionale di euro 50.000,00, relativa al danno morale, oltre al pagamento delle spese processuali che si liquidano in euro 1.250,00.

MOTIVAZIONE

1.11 processo
L'odierno imputato è stato rinviato a giudizio per i reati in epigrafe riportati con decreto emesso dal GUP presso il Tribunale di Milano in data 30 luglio 2018.
All'udienza del 20 novembre 2018, presente l'imputato in custodia cautelare in carcere per questa causa, sono state ammesse le prove come richieste dalle parti, ad eccezione del teste C C ' D sul quale il Tribunale si è riservato e, con il consenso delle parti, è stata acquisita la cartella clinica relativa alla persona offesa B lei 17.3.18, con rinuncia e revoca del teste A: ' '
All'udienza del 18 dicembre 2018 fissata per l'istruttoria si è proceduto all'escussione dei testi del Pubblico Ministero agenti I Ci e A D * A " ' G M (assistente sociale presso il Comune di Milano) e C C D , con il consenso delle parti sono state acquisite le relazioni a firma del teste A del 24.1.18 e dell' 1.4.16, oltre ai messaggi (in parte in lingua rumena in parte in lingua italiana) e all'elenco delle telefonate mostrati alla teste C ' Attesa la necessità di tradurre i messaggi scritti in lingua rumena, è stato nominato il perito, C L ' T ed è stata fissata l'udienza del 10.1.19 per il conferimento dell'incarico e la prosecuzione dell'istruttoria.
All'udienza così fissata, conferito l'incarico, sono stati escussi i residui testi del Pubblico Ministero, R F< (dirigente presso la Questura di Milano Squadra Mobile) e B A B ' ;, oltre al teste della difesa Ci R Ci (amico dell'imputato); sono stati acquisiti il verbale di denuncia della B del 17.3.18, remissione di querela del 19.3.18, certificazioni medica relative sia alla C ' del 16.11.16, che alla B * del 17.3.18.
Alla successiva udienza del 17 gennaio 2018, si è proceduto all'esame del perito T e all'esame dell'imputato e, sull'accordo delle parti, sono stati acquisiti i brogliacci relativi alle conversazioni telefoniche del 18 e 19 marzo 2018 tra l'imputato e la madre della B certificato medico del 19.1.2016 relativo alla E e, ai soli fini della procedibilità, le querele presentate dalla C 1 5.3.16, il 7.3.16 e il 3.2.17; le parti hanno poi concluso come sopra riportato.

2. Le imputazioni
Le imputazioni sono cinque.
Le imputazioni di cui ai capi a), b) e c) sono contestate in danno della moglie dell'imputato, C C D nei confronti della quale il C avrebbe tenuto condotte maltrattanti a partire dal gennaio 2016, fino al gennaio 2018, consistite in frequenti episodi di violenza sia verbale che fisica, realizzati alla presenza anche dei figli minori della coppia. In un'occasione, nel marzo 2016, l'imputato avrebbe, con violenza fisica, costretto la moglie a rimanere in casa e a non rivolgersi al centro antiviolenza. Nel gennaio 2018 il C ivrebbe, poi, obbligato la moglie a subire rapporti sessuali completi con la minaccia di uccìderla in caso di rifiuto.

Le imputazioni di cui ai capi d), e) ed 1) sono contestate in danno della compagna B A nei confronti della quale il C avrebbe reiterato condotte violente tra il gennaio e il giugno 2016 e tra il gennaio e il marzo 2018, alla presenza anche dei figli minori della coppia. Tra il 17 e il 19 marzo 2018, l'imputato avrebbe poi sottratto i figli, minacciando la B di non restituirli se non avesse rimesso la querela presentata nei suoi confronti.

3. La ricostruzione dei fatti

3.1 J fatti di cui ai capi a), b) e c)
Per ciò che attiene alle condotte realizzate in danno della moglie C C D l'istruttoria dibattimentale ha consentito di ricostruire quelli che sono stati i contatti tra la persona offesa e il servizio sociale tra il 2016 e il 2018.
Le dichiarazioni rese dalla teste A anno evidenziato come il primo incontro con la C fosse avvenuto nell'aprile del 2016, a seguito di alcuni episodi di violenza che la persona offesa aveva riferito essere stati realizzati da parte dell'imputato. Per timore del marito la donna si era allontanata dalla casa familiare, pernottando per alcuni giorni all'esterno, in un albergo pagato dalla Caritas. Durante i brevi contatti tra la persona offesa e il Servizio Sociale, la prima aveva riferito di violenze fisiche subite nel passato sempre da parte dell'imputato, ma mai denunciate, e di come il rapporto con il marito avesse subito un netto peggioramento a seguito della scoperta della relazione extraconiugale che questi intratteneva e dalla quale era nata anche una figlia, "e *da lì erano nati i litigi e episodi di violenza".* La persona offesa aveva anche mostrato alla teste alcuni messaggi di minacce inviatile dal marito[1][2]. Dopo pochi giorni la C aveva, tuttavia, riferito di non necessitare più di alcun aiuto da parte del servizio sociale in quanto la situazione con il marito era tornata alla normalità[3].
Nel gennaio del 2018 la persona offesa, dopo essersi rivolta alla Rete Antiviolenza, era entrata nuovamente in contatto con il servizio sociale, che l'aveva collocata insieme ai figli nella Comunità di C $_x$, dalla quale la C ' aveva, poi, voluto allontanarsi per tornare presso la propria abitazione[4].
È, inoltre, agli atti un verbale di Pronto Soccorso del 16 novembre 2016, relativo alla persona offesa, con prognosi di quattro giorni per *"contusione della faccia, del cuoio capelluto e del collo escluso l'occhio"[5],* in occasione del quale la C ' aveva riferito di un'aggressione con calci e pugni subita da parte del marito.

È alla luce di tali elementi certi che devono essere lette le dichiarazioni rese dalla persona offesa in sede dibattimentale. La C ha ritrattato tutto quanto riferito in sede di querela, affermando di aver falsamente accusato il marito per gelosia, dopo aver scoperto della relazione da questi intrattenuta con la 13;
La C _ ha, in particolare, riferito di essersi inizialmente allontanata dalla propria abitazione e di essersi rivolta al Servizio Sociale nel 2016 perché gelosa del marito, che spesso la lasciava sola in casa con *"due bambini problematici"[6]* per raggiungere la B :on la quale intratteneva una relazione extraconiugale[7], in Romania. La C ' ha offerto la medesima spiegazione anche in relazione alla querela presentata nel gennaio del 2018, e al suo successivo ingresso in Comunità: in quei giorni la donna aveva, infatti, appreso che la relazione tra il marito e la B per un certo periodo interrottasi, era ricominciata[8].
In merito ai messaggi in atti tradotti, la C ' ha riferito di non sapere da chi provenissero, non avendo il numero del mittente salvato sul telefono cellulare ed essendo il numero del marito
salvato come *"amore"[9],* e di non conoscerne il contenuto: la donna ha ammesso di non saper leggere il e che ai messaggi aveva risposto la figlia senza prima consultarla[10].

Deve ritenersi che le dichiarazioni rese dalla teste in sede dibattimentale siano credibili: emerge dagli atti una perfetta coincidenza tra l'epoca delle denunce presentate dalla C ; le diverse fasi della relazione tra l'imputato e la B quest'ultima era giunta per la prima volta in Italia insieme

all'imputato e alla prima figlia tra il dicembre 2015 e il gennaio 2016 e, dopo aver interrotto la relazione con il C l'aveva ripresa nei primi mesi del 2018[11]. È, pertanto, verosimile la versione dei fatti fornita dalla C ' questa aveva presentato la prima querela nei confronti del marito il 15 febbraio 2016, rimettendola tra l'altro il 7 marzo 2016, e aveva nuovamente querelato il C tei gennaio 2018, in epoca coincidente con la ripresa dei contatti tra l'imputato e la B ' "he i dissidi nella coppia fossero iniziati allorché la C aveva scoperto 'Wz *quest'elitra donna"* è stato confermato anche dal teste C [12][13], il quale ha riferito che la C *'quando ha saputo che ha cominciato ad avere il primo figlio già ha incominciato non solo a ingelosirsi, a perdere tutta la memoria, tutto ha perso"*[x]\ L'attendibilità delle dichiarazioni dibattimentali emerge, inoltre, dalla contraddittorietà del comportamento serbato dalla C nella fase precedente all'instaurazione del giudizio, nel corso della quale aveva più volte sporto querela nei confronti del marito (in data 15 e 17 febbraio, 5 marzo 2016), salvo poi rimetterla (in data 7 marzo 2016) e nuovamente presentarla (in data 17 gennaio 2018), nonostante nel 2017, sentita a sommarie informazioni, avesse confermato che con il C *"va tutto bene"*[14].
Peraltro, non sono emersi elementi volti a far ritenere che la persona offesa abbia subito pressioni da parte dell'imputato per ritrattare quanto dichiarato in sede di indagini: al contrario, la donna ha lamentato il fatto di non aver ricevuto il permesso per le visite al marito in carcere fino ad epoca recente[15].
Tali considerazioni non sono revocate in dubbio dall'attribuibilità al C delle lesioni provocate alla moglie e certificate in data 16.11.2016, atteso che tale fatto non è comunque stato oggetto di querela, non risulta contestato e sul punto nulla è stato chiesto alla teste in quanto il certificato è stato prodotto successivamente alla sua audizione.

Alla luce di quanto riportato, non può ritenersi raggiunta la prova in ordine ai fatti di cui ai capi a), b) e c); l'imputato deve pertanto essere assolto perché il fatto non sussiste.

3.2.1 fatti di cui ai capi d), e) ed f)
In relazione alle condotte contestate in danno di B A B si osserva come la ricostruzione dei fatti muova dalle dichiarazioni rese in udienza dalia stessa persona offesa, rispetto alla quale è possibile formulare un giudizio di piena credibilità e attendibilità.

La B ha intrattenuto una relazione di circa tre anni con l'imputato, dalla quale sono nati due figli, rispettivamente nel f 2015 e nel g 2016.
L'istruttoria non ha rivelato motivi di acredine tra la B ; l'imputato, ulteriori rispetto ai fatti per i quali è processo, né d'altra parte sono emersi elementi di dubbio in ordine alla piena credibilità della teste.

La persona offesa ha, poi, reso dichiarazioni perfettamente coerenti, supportate dalla documentazione in atti e confermate dagli altri testi.
La donna ha riferito di aver conosciuto l'imputato nel 2014 e che tra i due era cominciata fin da subito una relazione sentimentale, dalla quale erano nati due figli, rispettivamente nel febbraio 2015 e nel giugno 2016. La frequentazione tra i due si era svolta prevalentemente in e solo in due occasioni la B si era recata in Italia insieme al C ' ma sempre per periodi molto brevi. In particolare, la teste ha riferito di essersi trattenuta a Milano per circa due settimane tra il dicembre 2015 e il gennaio 2016, e di esservi successivamente tornata nel marzo 2018, per circa una settimana.
Durante il primo soggiorno a Milano la B * all'epoca incinta del secondo figlio, ha riferito di essere stata picchiata dal O ; di essere stata conseguentemente collocata insieme alla figlia "m *una struttura dove ero...insomma, ho avuto una assistenza, sono stata assistita per quello che riguarda i bambini"*[10] e dove era rimasta per circa dieci giorni. In tale occasione la persona offesa era stata soccorsa dalla Polizia, intervenuta perché "*probabilmente qualcuno ha chiamato",* anche in considerazione del fatto che si trovava all'interno di una *"casa abusiva"*[1].
Il certificato di Pronto Soccorso in atti attesta " *altre ferite della faccia, sito non specificato, con complicazioni. Contusione della regione della spalla"* con prognosi di trenta giorni[16][17][18][19]. L'intervento del gennaio 2016 è stato confermato anche dalla teste F la quale ha riferito che la B in quel tempo incinta, era stata trovata dagli operanti all'interno di un'abitazione occupata, insieme alla sua prima figlia: la donna presentava delle ecchimosi e lamentava dolori e *"appariva in uno stato fortemente scosso"* [V).
La B [J] iveva fatto ritorno in Italia il 13 marzo 2018, soggiornando insieme al C< nell'abitazione di via .. Dopo aver trascorso i primi quattro giorni in un clima

sereno, l'imputato aveva ripreso a *"comportarsi male"*[20] per motivi di gelosia: nella notte tra il 16 e il 17 aveva picchiato la B alla presenza di entrambi i figli, causandole *"sospetta lesione viscerale addominale e contusioni multiple in violenza familiare reiterata e continuata. Traumatismo tratto gastrointestinale, sito non specificato. Altro e non specificato traumatismo superficiale di altre, multiple e non specificate sedi, senza menzione di infezione"* con prognosi riservata[21]. In relazione a tale episodio, la persona offesa ha riferito che dopo l'aggressione aveva aspettato che il C si addormentasse per uscire dalla casa in cerca di aiuto e, in tale frangente, era stata costretta a lasciare i figli con il padre in quanto *"dormivano insieme a lui, li avrei svegliati"*[22]. Una volta sopraggiunte le Forze dell'Ordine, la B iveva condotto gli operanti all'abitazione di *"per vedere cosa facevano i miei figli",* ma non vi

aveva trovato nessuno[23][24]. A seguito di alcuni contatti tra la madre della persona offesa e il C quest'ultimo, circa un giorno dopo i fatti, aveva riportato i figli alla B; *'"è stato fissato un incontro in un parco e in questo parco è venuta la sua zia, la zia di lui, per portarmi i figli, lui non era presente"*[2]*. Quasi contestualmente, il 19 marzo 2018, la persona offesa aveva rimesso la querela presentata il 17 marzo 2018, dal momento che *"non voglio più avere a che fare con lui, voglio rompere per sempre"*[25].

L'attività di intercettazione delle utenze dell'imputato e della persona offesa, realizzata tra il 18 e il 19 marzo 2018, ha consentito di definire il contenuto dei contatti tra l'imputato e la madre della E in quei giorni, nonché tra quest'ultima e la figlia.
Nel pomeriggio del 18 marzo sono emerse due telefonate tra l'imputato e la madre della persona offesa, nelle quali il primo chiedeva alla donna di dire alla figlia che *"lui non vuole avere problemi se per caso lo fermano per strada in macchina"* e in risposta la madre della B gli riferiva di aver intimato alla figlia di ritirare la querela, suggerendole anche di dire che non era stato lui a picchiarla *"così come vuole l'uomo"*[26]*", la donna poi chiedeva al C la garanzia che, una volta ritirata la querela, le avrebbe ridato i bambini e l'imputato rispondeva che non sapeva cosa fare con i figli, dicendosi disposto ad andare con loro in ospedale[27].
Nel tardo pomeriggio del 18 marzo risulta una telefonata tra la persona offesa e la madre, nella quale la prima riferiva alla seconda che *"se anche dovesse ritirare la denuncia non le rilasceranno copia"* e, in risposta, la madre le rappresentava che se non avesse ritirato la querela il C sarebbe finito in carcere e loro si sarebbero trovate *"contro i suoi fratelli zingari e tutti gli zingari"* e che, quindi, la cosa importante era *"riprendere i figli e andarsene"*[28]*.
Nella mattinata del 19 marzo il C[1] aveva chiamato la madre della B; che lo aveva informato del fatto che la figlia aveva ritirato la querela e che lei stessa gli aveva *"inviato la denuncia su Messenger per dimostrargli che ha fatto quanto richiestole",* chiedendogli di controllare *"ciò che gli ha mandato e se gli va bene tutto di portarle i bambini perché lei non sa cos 'altro fare"*[29].

3.3. L'esame dell'imputato
Le dichiarazioni dell'imputato rese in sede di esame dibattimentale confermano tale ricostruzione dei fatti: lo stesso ha ammesso di aver talvolta usato violenza nei confronti della B per motivi di gelosia, *"è partito qualche litigio... cioè non è che la picchiavo per ammazzarla...gli ho dato qualche schiaffo..."*[30] e, in particolare, di averla picchiata nel marzo del 2018[31]. In relazione a tale ultimo episodio il C la riferito di essersi spaventato quando il giorno dopo il litigio non aveva trovato la B in casa, temendo che la stessa si fosse rivolta alla Polizia e, per tale ragione, aveva deciso di allontanarsi insieme ai figli[32].

Quanto al rapporto con la moglie C ' C E imputato ha dichiarato di non aver mai aggredito fisicamente la donna, e ha disconosciuto i messaggi minatori estrapolati dal cellulare della stessa.

Gli elementi emersi dall'istruttoria dibattimentale non consentono di ritenere provata la penale responsabilità dell'imputato in ordine ai fatti contestatigli ai capi sub e) e f).
In relazione a quest'ultimo capo, si rileva come gli esiti delle intercettazioni lascino residuare il dubbio che l'imputato avesse richiesto alla persona offesa, per il tramite della madre, di rimettere la querela per paura di poter essere fermato dalle Forze dell'ordine e che proprio per tale motivo avesse esitato a riportare i figli alla B senza che vi fosse alcuna correlazione tra il trattenimento dei minori e la predetta richiesta. D'altra parte, la B non ha mai riferito di minacce da parte dell'imputato, neanche per il tramite della madre, volte a farle rimettere la querela: la persona offesa, in particolare, non ha in alcun modo collegato tale atto di volontà con la restituzione dei figli da parte del C Sbadendo come la rimessione della querela *"non c 'entra con la restituzione dei figli, c 'entra con il fatto che non voglio più avere a che fare con lui, voglio rompere per sempre"*[1].
Attesa la mancanza di prove sufficienti in ordine alla sussistenza dell'elemento oggettivo del delitto dì violenza privata contestato sub f), l'imputato deve essere assolto perché il fatto non sussiste.

In relazione al delitto di cui all'art. 574 c.p. contestato sub e), si osserva, in primo luogo, come dalle dichiarazioni rese dalla B e confermate dall'imputato, sia emerso che il C avesse trattenuto i minori con sé per circa un giorno. Deve escludersi che durante tale lasso di tempo, estremamente breve, possa essersi determinata una lesione apprezzabile del bene giuridico tutelato dalla norma in esame. Anche qualora dovesse ritenersi la sussistenza dell'offesa, mancherebbe, comunque, la prova certa del dolo dell'imputato: ai fini della configurabilità del delitto di sottrazione di persone incapaci è necessario che l'agente sia a conoscenza dell'esistenza della contraria volontà del genitore rispetto alla sottrazione. Nel caso di specie è plausibile ritenere che il C avesse inizialmente portato con sé i figli per non lasciarli da soli nell'abitazione e che, successivamente, li avesse trattenuti solo per il timore di poter essere fermato dalla Polizia una volta uscito di casa. Ciò trova conferma nella circostanza che al momento della restituzione dei minori l'imputato non fosse presente, ma avesse incaricato dell'incombente una propria zia. Il C (d'altra parte, non aveva mai negato la propria disponibilità a riportare i figli alla B , tanto che in una delle telefonate con la madre di quest'ultima aveva riferito di essere disposto ad accompagnare i minori in ospedale.
Alla luce dell'insussistenza dell'elemento oggettivo del delitto di cui all'art. 574 c.p., l'imputato deve essere assolto perché il fatto non sussiste.
Quandanche dovesse ritenersi integrata la fattispecie in esame, perseguibile a querela, non sarebbe comunque possibile procedere attesa la remissione di querela presentata dalla B n data 19 marzo 2018.

5. Valutazione delle prove e responsabilità dell'imputato per i fatti contestati sub d), previa riqualificazione degli stessi ai sensi degli artt. 61 n. 1 Iquinquies e 582 c.p.
Il compendio probatorio illustrato consente di ritenere provata la sussistenza dei due episodi di lesioni, perpetrati dall'imputato in danno della B rispettivamente nel gennaio 2016 e nel marzo 2018: in tal senso depongono tanto le dichiarazioni della persona offesa, supportate dai certificati medici in atti, quanto l'ammissione dei fatti da parte dell'imputato.
Non sono, viceversa, emersi elementi a sostegno dell'esistenza di ulteriori condotte vessatorie realizzate in Italia nei confionti della B ' Questa ha ritrattato quanto denunciato in sede di colloquio con l'assistente sociale e il medico legale del Servizio SVS il 17.3.2018, allorquando

---

[1] Cfr. verbale udienza del 10.1.19 teste B. pag. 20-21.

aveva riferito di essere stata segregata in casa non appena arrivata in Italia nel marzo 2018 e percossa pressoché quotidianamente: in sede dibattimentale la persona offesa, a fronte di specifica contestazione del Pubblico Ministero, ha dichiarato che "*quando ho rilasciato queste dichiarazioni ero abbastanza tormentata dagli eventi..,so con certezza che per qualche giorno si è comportato bene"*[1]. La B ha, invece, riferito di alcuni comportamenti aggressivi tenuti dall'imputato durante il periodo in cui i due si trovavano in si tratta, tuttavia, di condotte non ricomprese nel capo d'imputazione sub d), laddove sono contestati i soli fatti commessi in Italia.
Gli episodi di lesioni come descritti non sono da soli idonei a integrare il delitto di cui all'art. 572 c.p. contestato all'imputato: il lasso di tempo intercorso tra gli stessi non consente di ritenere sussistente il requisito della abitualità della condotta maltrattante, necessariamente richiesto dalla norma incriminatrice.
La materialità del fatto criminoso consiste, invero, in una condotta che si estrinsechi in più atti, realizzati in momenti successivi e collegati da un nesso di abitualità, cioè dalla continuità e ripetitività nel tempo, avvinti nel loro svolgimento da un'unica intenzione criminosa di ledere l'integrità fisica o morale del soggetto passivo infliggendogli abitualmente sofferenze. Ne consegue che per ritenere raggiunta la prova dell'elemento materiale di tale reato, non possono essere presi in considerazione singoli e sporadici episodi di percosse o lesioni, quali quelli realizzati in danno della E lei caso di specie, accaduti a più di due anni di distanza l'uno dall'altro.

I fatti di cui al capo sub d) devono, pertanto, essere riqualificati ai sensi degli artt. 61 n. 11 quinquies e 582 c.p. e, in relazione agli stessi, deve essere affermata la penale responsabilità dell'imputato, non residuando alcun dubbio in merito alla sussistenza dell'elemento soggettivo in capo allo stesso, anche alla luce delle dichiarazioni da questi rese in sede dibattimentale.
La punibilità del C è, tuttavia, esclusa in relazione all'episodio del marzo 2018: in assenza di prova certa in ordine alla durata della malattia conseguita alle lesioni cagionate alla B , dal momento che l'unico elemento valutabile a riguardo è il certificato del Pronto Soccorso, il quale attesta *"prognosi riservata",* deve ritenersi che questa sia stata di durata inferiore ai venti giorni. La fattispecie concreta è pertanto sussumibile nell'ambito dell'ipotesi di cui all'art. 582 c.p. perseguibile a querela di parte. Alla luce della remissione di querela effettuata dalla persona offesa il 19 marzo 2018, manca la condizione di procedibilità in ordine ai fatti descritti come avvenuti in data antecedente e prossima al 17 marzo 2018.

Residua in capo all'imputato la responsabilità per i soli fatti commessi nel gennaio 2016, perseguibili d'ufficio alla luce della durata della malattia conseguente alle lesioni, giudicate guaribili in giorni trenta, come da certificato di Pronto Soccorso in atti.
Sussiste certamente l'aggravante di cui all'art. 61 co. 1 n. 11 quinquies c.p., dal momento che come riferito dalla B i fatti come descritti si sono svolti alla presenza anche dei figli minori della coppia.

Trattamento sanzionatone
Le particolari modalità della condotta di cui al capo sub d), come riqualificata, realizzata nei confronti di persona particolarmente vulnerabile, atteso lo stato di gravidanza della B; all'epoca dei fatti, oltre alla gravità delle lesioni causate, giudicate guaribili in trenta giorni, non consentono di attestare la pena base sul minimo edittale. In ossequio ai criteri direttivi di cui agli artt. 133 e 133 bis c.p. si ritiene, pertanto, di determinare la pena base in mesi sette di reclusione. Non si reputa sussistente la recidiva semplice contestata: l'unico precedente dell'imputato, tra l'altro risalente nel tempo, attiene a delitti contro il patrimonio, sicché non si ritiene che la commissione del nuovo reato sia sintomo di maggior pericolosità e capacità delinquenziale dell'imputato.
Peraltro, la gravità del fatto, commesso in danno di persona legata all'imputato da una relazione sentimentale osta ai riconoscimento delle circostanze attenuanti generiche.
Alla luce di quanto osservato, applicato l'aumento per l'aggravante di cui all'art. 61 n. 11 quinquies c.p., si ritiene che il C debba essere condannato alla pena finale di mesi nove di reclusione, con conseguente condanna di diritto anche al pagamento delle spese processuali. Non si ritengono concedibili i benefici della sospensione condizionale della pena e della non menzione della condanna nel certificato del casellario giudiziale: il fatto che l'imputato, dopo l'episodio del gennaio 2016, nel marzo 2018 abbia reiterato la condotta violenta nei confronti della medesima persona offesa, seppur non perseguibile per intervenuta remissione di querela, non consente di operare una prognosi favorevole in ordine alla futura astensione dell'imputato dalla commissione di ulteriori reati.

All'udienza in data 20.06.2018, il Tribunale, presente la parte civile costituita in udienza preliminare, dichiarato aperto il dibattimento, ritenutane l'ammissibilità e la rilevanza, ammetteva le prove orali e documentali, come richieste dalle parti, Il Tribunale fissava, per la prosecuzione dell'istruzione dibattimentale, l'udienza in data 25.07.2018, calendarizzando le successive udienze. In tale udienza, il processo veniva rinviato, stante l'assenza dei testi.

Nella successiva udienza in data 21.11.2018, il Tribunale, preso atto della dichiarazione dei difensori all'astensione dalle udienze proclamata dagli organismi rappresentativi, rinviava il processo, sospendendo il corso della prescrizione, all'udienza del 05.12.2018, udienza di mero rinvio per impedimento della persona offesa che doveva essere escussa in tale udienza.

Nella successiva udienza in data 30.01.2019, la persona offesa revocava la costituzione di parte civile, essendo intervenuto un accordo risarcitorio. Nella medesima udienza, venivano escussi i testi e veniva acquisito, su accordo delle parti, ex art. 555, comma 4, c.p.p., il verbale di sommarie informazioni rese da C A in data 21.04.2016. .. .. a. Stante la rinuncia della difesa al teste L _ , assentita dal Pubblico Ministero, il Tribunale revocava l'ordinanza ammissiva della prova orale in relazione a detto teste. Nella medesima udienza, l'imputato M si sottoponeva all'esame, rendendo dichiarazioni. Su accordo delle parti, ex art. 555, comma 4, c.p.p., il Tribunale acquisiva il verbale di interrogatorio reso dall'imputato in data 13.06.2017. Il processo veniva rinviato all'udienza del 12.06.2019.

All'odierna udienza, dichiarata chiusa l'istruzione dibattimentale ed utilizzabili tutti gli atti acquisiti e le prove assunte, le parti formulavano le rispettive conclusioni, come sopra riportate.

A fronte delle prove acquisite nel corso del dibattimento, come concordemente richiesto dalle parti, si impone emettersi sentenza di assoluzione dell'odierno imputato da entrambi i reati ascritti perché il fatto non sussiste.

La persona offesa, nel corso dell'esame dibattimentale, ha ricostruito la propria relazione con l'odierno imputato, dal momento della loro conoscenza sino alla rottura del loro rapporto.

Peraltro, all'esito dell'attività istruttoria svolta, al di là dell'esistenza di un rapporto conflittuale con l'imputato, non è emersa, al di là di ogni ragionevole dubbio, una serie di atti lesivi dell'integrità fisica o morale della persona offesa né della libertà del soggetto caratterizzati da una condotta

unitaria ed abituale, elementi, che, secondo costante giurisprudenza, costituiscono l'elemento oggettivo del reato di maltrattamenti in famiglia.

Dagli atti acquisiti e dalle testimonianze assunte, non è emerso un tale quadro di vessazione ai danni dell'odierna persona offesa da parte dell'imputato.

Deve rilevarsi che il concetto di maltrattamenti di cui all'art. 572 c.p., pur non definito dalla legge,

presuppone una condotta abituale, che si estrinseca in più atti lesivi, realizzati in tempi successivi, dell'integrità, della libertà, dell'onore, del decoro del soggetto passivo o più semplicemente in atti di disprezzo, di umiliazione, di asservimento che offendono la dignità della vittima. Il legislatore, con

la previsione in esame,ha attribuito particolare disvalore soltanto alla reiterata aggressione all'altrui personalità,: assegnando autonomo rilievo penale a imposizione di un sistema, di vita caratterizzato da sofferenze, afflizioni, lesioni dell'integrità fisica o psichica, le quali incidono negativamente sulla

personalità della vittima e sui valori fondamentali propri della dignità e della condizione umana.

Risultano quindi esclusi dalla previsione del reato de quo soltanto gli atti episodici, puf lesivi dei diritti fondamentali della persona, ma non riconducibili nell'ambito della descritta cornice unitaria,

perchè traggono origine da contingenti e particolari che sempre possono verificarsi nei rapporti interpersonali di una convivenza familiare, che conservano eventualménte,fise ne ricorrono i presupposti, la propria autonomia come delitti contro la persona (ingiurie, percosse, lesioni), già di per sé sanzionati dall'ordinamento giuridico (cff. Cass. 45037/2010). : ;

Come ribadito dalla- di una condizione di soggezione del partner? non è ' configurabile il delitto dì maltrattamenti in famiglia (cfn Cass. 52-58/2016). .

Nel caso in esame, le risultanze istruttorie hanno accertato la presenza di una situazione di conflitto

fra le parti, elemento che contrasta con l'ipotesi accusatoria in quanto il conflitto postula la contrapposizione tra le parti che esclude lo stato di passività di una nei confronti dell'altra./,.

Deve/inoltre osservarsi- che, secondo costante giurisprudenza, injema di valutazione$_L$ della prova testimoniale, le dichiarazioni rese dalla persona offesa, sottoposte ad un attento controllo di

credibilità, possono...essere assunte,...anche da.sole, come, prova della responsabilità. dell'imputato,

"..fisenza che..sia indispensàbile_ap_plicare le regole probatorie di cui all'art. 1_92, commi terzo e quarto, ■ ...c.p.p., che richiedono..la presenza di riscontri esterni; solo,...qualora la persona offesa si sia anche costituita parte civile e sia, perciò, portatrice di pretese economiche, il controllo di attendibilità deve essere più rigoroso

fino a valutare opportunità di procedere al riscontro di tali dichiarazioni con altri elementi (cfr. Cass. 29372/2010; Cass. S.U. 41461/2012)..

Nel caso in esame, la costituzione di parte civile è stata revocata, a seguito dell'integrale risarcimento del danno.

Peraltro, le dichiarazioni della persona offesa non risultano precise, coerenti, lineari, non inficiate da salti logici o contraddizioni.

Inoltre, le dichiarazioni rese dalla persona offesa non hanno trovato pieno riscontro in quanto riferito da alcuni testi dell'accusa, in particolare C e B

Nessuno dei testi ha assistito alle violenze descritte dalla persona offesa né sono stati acquisiti certificati medici che attestino le lesioni descritte.

L'imputato poi, sin dalla fase delle indagini, ha riferito una versione diversa, anzi opposta, dei fatti che risulta corroborata dalle dichiarazioni, tra l'altro, del teste B e dalla documentazione prodotta dalla difesa (fotografie, messaggi scambiati dalla coppia).

Nessun riscontro è dunque emerso alle dichiarazioni della persona offesa, né dalle dichiarazioni rese dagli ulteriori testi né dalla documentazione acquisita in atti.

Dagli atti acquisiti e dalle testimonianze assunte, non è emerso prova certa, al di là di ogni ragionevole dubbio, di un tale quadro di vessazione ai danni dell'odierna persona offesa da parte dell'imputato, non risultando sufficienti le sole dichiarazioni della persona offesa prive di alcun oggettivo riscontro.

Deve inoltre osservarsi che, ai fini della configurabilità del reato di maltrattamenti in famiglia, non assume alcun rilievo la circostanza che l'azione delittuosa sia commessa ai danni di una persona convivente "more uxorio", atteso che il richiamo contenuto nell'art. 572 cod. pen. alla "famiglia" deve intendersi riferito ad ogni consorzio di persone tra le quali, per strette relazioni e consuetudini di vita, siano sorti rapporti di assistenza e solidarietà per un apprezzabile periodo di tempo (cfr. Cass. 20647/2008).

Il delitto di maltrattamenti è configurabile quindi anche se con la vittima degli abusi vi sia un rapporto familiare di mero fatto, desumibile, anche in assenza di una stabile convivenza, dalla messa in atto di un progetto di vita, basato sulla reciproca solidarietà ed assistenza (cfr. Cass. 22915/2013).

In ogni caso, il delitto di maltrattamenti può essere commesso da qualsiasi membro della famiglia in danno di un altro, anche non convivente purché la relazione tra i due sia di intensità e caratteristiche tali da generare un rapporto stabile di affidamento e solidarietà reciproche (cfr. Cass. 30934/2015).

Nel caso (li specie, non risulta certo che si fosse instaurato alcuno stabile affidamento e solidarietà reciproca tra l'imputato e la persona offesa, anche tenuto conto del brève tempo intercorso dall'inizio della relazione.

Analoghe considerazioni valgono anche quanto al reato sub B). Come ribadito dalla giurisprudenza, ai fini dell'integrazione del reato di cui all'art. 610 c.p., il requisito della violenza si identifica in /
qualsiasi mezzo idoneo a privare coattivamente l'offeso della libertà di determinazione e di azione

(cfr. Cass. 48369/2017).

Ai fini dell'integrazione del delitto di violenza privata, è necessario che la violenza o la minaccia costitutive della fattispecie incriminatrice comportino la perdita o comunque, la significativa

- - riduzione della libertà di movimento o della capacità di autodeterminazione del soggetto-passivo, -

essendo, invece, penalmente irrilevanti, in virtù del principio di offensività, i comportamenti che,

A pure ostruendo violazioni di regole deontologiche,etiche o sociali,si rivelino idone ia limitarne la libertà di moviménto, o ad influenzarne significativamente il processo di formazione della volontà (cfr. Cass. 1786/2017).

Nel caso di spècie; la persona offesa non descrizione chiara del fatto; limitandosi a riferire che M avrebbe cambiato il codice per l'inserimento dell'antifurto, condotta che, anche se vera, non avrebbe comunque impedito alla donna di uscire di casa.

A fronte gli elementi di incoerenza emersi nel corso del dibattimento, non è possibile giungere ad

..... un giudizio, di colpevolezza a carico dell'imputato, al di là di ogni ragionevole dubbio,.. —

Si impone dunque, come concordemente richiesto dalle parti, l'assoluzione dell'imputato da entrambi i réati a lui ascritti perché il.fatto non sussiste.

Gli elementi di prova .

Si anticipa sin d'ora da parte di questo Collegio che l'acquisito compendio probatorio non consente di fondare giudizio di responsabilità penale . dell'imputato per i reati ascrittigli, resistente al vaglio processuale dell'oltre ogni ragionevole dubbio'.
La vicenda di cui è odierno processo trae origine dalla denuncia- querela sporta nei confronti dei l'odierno imputato da S M< in data 9\8\2OI6 e integrata il successivo 19\T\ 2016 A
Pare dunque opportuno prendere le in aula dalla predetta, che verranno qui di seguito sinteticamente riportate .

II 9 agosto 2001 in Marocco S M ;[1] -contraeva matrimonio[2] con F *A* , odierno imputato, il quale per i successivi sette anni rimaneva a vivere nel Paese natio, mentre la moglie faceva ritorno in Italia, ove stabilitasi sin dal 1990, acquisendo anche la cittadinanza italiana .
Nel 2008 S richiedeva il ricongiungimento familiare e il coniuge F la
• raggiungeva: in Italia l'mmo successivo.
, ” “A Per i primi due anni successivi “ah suo arrivo in Italia l'imputato, che non parlava la lingua italiana, non svolgeva attività lavorativa e veniva mantenuto da S che , anche quando nel 2011 il coniuge incomincerà a lavorare, si troverà costretta a continuare a pagare tutte le utenze domestiche e il canone di locazione dell'appartamento[3], in quanto F se ne disinteressava e inviava i soldi in Marocco alla zia, senza neppure provvedere a fare la spesa
“ Dal 2016- l'imputo incominciava à percuotere S che ripercorreva in aula - - " l’episodio , occorso in occasione della festa i si amica di Abramo nel mese di giugno 2016 , in cui E , con un ferro caldo da spiedino che aveva in mano , le Ustionava il braccio a sèguito di una discussione fiata'per il pagaménto delle bollette a cui l'imputato non voleva provvedere *X.* S nell' occasione. non si recava in ospedale.

originato sempre da questioni economiche[5] , in specie dal mancato pagamento di alcune bollette scadute e , come riferito dalla persona offesa , *«anche per la spesa, perché non mi trovo niente al frigo, non mi trovo neanche il latte . Non mi trovo niente. E lui lavora [6][,..] fa 10 ore di lavoro [...]»* [7].

Il successivo 5\8\2016 , ultima giornata lavorativa prima delle ferie estive, l'imputato rincasava alle ore 16.00 e scoppiava un diverbio tra i coniugi

F percuoteva S con un pugno sulla testa e uno sulla schiena , tirandole altresì un calcio nel sedere e afferrandola per i capelli, intimandole di *«stare zitta »* e apostrofandola con il termine *«vecchia».*
Poi l'imputato usciva di casa verso le 17.30-18.00, chiudendovi dentro S e portandosi via le chiavi di casa , anche quelle della persona offesa, e il telefono cellulare di quest'ultima .
Quando F rincasava verso le 21.30 [1][2][3][4] pretendeva di fare l'amore con S e, al rifiuto di questa , si procurava una corda in cucina e le legava la mano destra con il piede destro e la mano sinistra con il piede sinistro, quindi, dopo averle sfilato le mutande , la violentava , consumando un rapporto vaginale, al termine del quale andava in bagno a lavarsi e poi si coricava lasciandola legata nel modo descritto.
S , in lacrime, riusciva lentamente a slegarsi da sola e all'alba del giorno seguente , 6\8\2016, sentiva l'imputato uscire di casa (alle 4.00 di mattina) dopo avere ricevuto una telefonata sul telefono cellulare .
S ' si recava al pronto soccorso dell'ospedale ove le veniva rilasciato un certificato medico recante diagnosi di *«anamnesi personale di trauma psichico da violenza fisica »* in paziente con riferita aggressione fisica e violenza sessuale, con prognosi alla dimissione di giorni *4* [5].
L'imputato il 6\8\2016 partiva per il Marocco, come successivamente appreso dalla persona offesa[6], e vi trascorreva le vacanze estive (22 giorni), spendendo 3.000 euro , mentre S ' rimaneva a casa senza soldi, *«senza mangiare, senza spesa, senza niente. Anche le bollette sono rimaste ...non sono pagate»*"[7] c Al suo rientro al domicilio coniugale , l'imputato e S conducevano vite da separati in casa, ciascuno provvedendo a sé . Si /, ' " intestataria di un conto corrente; continuava a dover provvedere pagamento delle bollette domestiche e del canone di locazione dell'appartamento / ritrovandosi in gravi difficoltà economiche in quanto disoccupata dal 2014 , data dalla quale svolge saltuariamente mansioni di badante per alcune ore, e non minimamente aiutata , per il proprio sostentamento personale , dal coniuge , che le negava 50 euro per una visita medica oculistica (mentre l'imputato pagava le proprie visite mediche e "Spendeva altresì 350,00 euro > nel periodo di Ramadan> per un'offerta a una Moschea, come S scopriva vedendo una quietanza di pagamento che poi l'imputato faceva sparire).
La persona offesa riferiva che P nel novembre 2016.la. minacciava in. due . occasioni con un coltello, per ottenere I documenti che gli erano necessari per il conseguimento della cittadinanza italiana, rifiutatigli dalla persona offesa[8]
... riferiva che E si procurava senza il suo permesso le fotocopie della sua carta di identità e del suo passaporto - fotocopie che la persona offésa trovava nascoste sotto il divano di casa, nel farete pulizie -per poter ottenere la carta di soggiorno Inoltre l'imputato l'apostrofava con il termine << vècchia- - —_. dicendole che .invece lui era ancora giovane e aveva bisogno di cercarsi un'altra - - — ... compagna, la spintonava e spegneva il riscaldamento *in .casa, «perché lui non ..... vuole pagare ...»*
Nel mese di marzo 2017, alla notifica dell'avviso di conclusioni indagini ex art. i fatti-di cui è causa, l'imputato lasciava il domicilio: coniugale e /nell'estate 2018 presentava richiesta di divorzio presso la competente A/Q in Marocco e S promuoveva azione civile , parimenti in Marocco, per ottenere il mantenimento dall'imputato.

La teste C T i .. titolare di un'azienda di materie plastiche e datrice di lavoro dell'imputato,.assunto nell'aprile 2Q14 a tempo determinato e dalla ditta verosimilmente tra le 16. 30 e le 17.00 , giusto « *il tempo di fare la doccia*[9]*, di salutare chi c'era [...]»*[10]

L'imputato , sottopostosi a esame, dichiarava di essere arrivato in Italia nell'anno 2009 , confermando di avere incominciato a lavorare nel 2011 [11][12]e riferendo di avere sin da allora pagato, presso gli Uffici Postali, il canone di locazione dell'appartamento e le bollette delle utenze domestiche (luce elettrica e gas) consegnategli da S . F dichiarava che , ricevuta la retribuzione, provvedeva inoltre a fare la spesa per tutto il mese .
Il venerdì 5\8\2016 l'imputato rincasava alle 17.30 ; S non era in casa né vi faceva rientro nelle ore successive , in quanto all'epoca lavorava come badante in Tra date e rincasava solo nelle giornate di sabato e la domenica.
F nella serata del 5\8\2016 sentiva telefonicamente la moglie, che era a conoscenza della sua partenza per il Marocco e che infatti nei giorni precedenti gli aveva consegnato una valigia di vestiti da recapitare al proprio fratello in Marocco.
F dichiarava di essersi recato in bicicletta a , ove giungeva verso le ore 18.30, da un amico , tale S (fonetico), attualmente dimorante in , con il quale partiva in auto per recarsi in Marocco, passando per la dogana [8]. Con loro viaggiavano altri quattro amici di S , a bordo di un'altra autovettura. Prima di partire perii dopo le 20.00 circa il gruppo, riunitosi a casa di S; verso le 19.30, si recava in per consumarvi la cena,
F negava di avere mai litigato con la moglie per la questione del conseguimento della cittadinanza italiana o per il pagamento delle bollette, negava di aver ustionato S con un ferro arroventato per gli spiedini e di averla mai chiusa in casa .

B Davide, perito elettronico iscritto al ruolo dei periti esperti ' della Camera di Commercio di e specializzato in Informatica Forense, riceveva dalla difesa l'incarico di redigere una consulenza tecnica per verificare i tabulati storici

del traffico telefonico intercorso tra l'utenza cellulare dell'imputato e quella della persona offesa in data 5\8\2016 e nei giorni successivi. Il teste riferiva che dalla disamina dagli acquisiti tabulati dell'operatore telefonico , gestore dell'utenza cellulare intestata all'imputato , risultavano in particolare due telefonate effettuate dall' utenza dell'imputato - aggancianti la cella telefonica di - all'utenza intestata a §. . collegata alla cella di C. . domande; poste dalla Presidente del Collegio,: contribuito porre in evidenza le plurime incongruenze intrinseche che hanno scandito la ricostruzione operata in sede dibattimentale dalla persona offesa delle condotte delittuose addebitate a F minanti la credibilità è attendibilità della stessa.

Prendendo le mosse dalla dinamica del delitto più grave in imputazione , Quello di violenza sessuale aggravata, si deve evidenziare innanzitutto la non congruenza tra le modalità di immobilizzazione della persona offesa da questa descritte, agli Inquirenti in sede di'denuncia - querela; e trasfuse nel capo D) di imputazione - ossia legatura con una corda di ciascuna caviglia della vittima ai piedi del letto - e quelle invece riferite in aula da S nel corso della sua opposizione testimoniale confermate e ribadite espressamente mente dalia predétta

Anche a seguitò, di contestazione del -PM e. di specifiche amabilmente contrastante con i principi della fisica , prima ancora che logica, è inoltre l'ulteriore particolare , narrato, in aula dalla persona offesa , di essere stata spogliata delle mutande dall'imputato dopo essere stata legata nella descritta posizione.

E ancora: S riferiva che il coniuge , consumata la violenza sessuale, si addormentava, lasciandola legata , e che lei riusciva lentamente a slegarsi da sola , circostanza integrante ulteriore incongruenza sia logica - non comprendendosi infatti la fattibilità dinamica di simile operazione, ponendosi mente al fatto che la persona offesa [14] si trovava con le mani e i piedi tra loro legati insieme- sia intrinseca , raffrontando tale descrizione degli eventi riportata in aula con quella fornita agli Inquirenti, cioè di essere stata slegata, dopo circa una decina di minuti dall'asserito, consumato rapporto sessuale vaginale, dallo stesso F

Né persuade della credibilità soggettiva della persona offesa la giustificazione, dalla stessa addotta in risposta alla contestazione del PM sul punto , di non ricordare più con precisione, per il lasso di tempo trascorso dal fatto, in quanto la obiettiva e incontrovertibile traumaticità correlabile a un simile genere di evento delittuoso, *afortiori* se costituente un *unicum* nell'esperienza di vita della persona offesa, come dalla stessa riferito, ben avrebbe dovuto imprimersi indelebilmente nella sua memoria.

A tali profili di incoerenza nella narrazione accusatoria di S si aggiungono ulteriori elementi di incongruenza estrinseca , che evidenziano rilevanti criticità dal punto di vista della credibilità oggettiva della persona offesa, le cui dichiarazioni sono risultate contraddette da riscontri esterni.

S affermava che l'imputato , il giorno 5\8\2016, rincasava dal lavoro alle ore 16.00, quindi usciva verso le 17.30 - 18.00 (dopo un violento diverbio tra i due nel corso del quale F percuoteva S con pugni, calci e la afferrava per i capelli) e rientrava nuovamente al domicilio coniugale tra le ore 21.00 e le ore 22.00, consumando la violenza sessuale in danno di S Quindi F , secondo la testimonianza della persona offesa, usciva di casa all'alba del 6\8\2016 , verso le 4.00 (e partiva per il Marocco , come S sosteneva di avere appreso solo in seguito a una telefonata della sorella).

Orbene , la scansione oraria indicata dalla persona offésa è confutata sia da prove dichiarative sia dall'analisi dei tabulati [15]del traffico telefonico delle utenze intestate all'imputato e alla persona offesa e delle celle di copertura agganciate.

La teste C T , datrice di lavoro di F , dichiarava che in data 5\8\2016 { ultimo giorno di apertura della ditta prima della chiusura estiva) il turno lavorativo di tutti i dipendenti terminava alle ore 16.00 , ossia proprio l'ora in cui, secondo S , il coniuge avrebbe fatto rentro in casa .Dalla deposizione di O emerge che F -, -nel giorno indicato rincasava dopo le 16.30, considerati i tempi tecnici necessari a farsi la doccia (prassi comune operai addettì^&mescola/ marisipne ricoperta dall'odiemo imputato) , a salutare gli altri dipendènti e quindi a spostarsi in bicicletta (mezzo di trasporto utilizzato da F) dalla città di , sede della ditta , al domicilio coniugale, sito nel Comune di * .

La circostanza è Confermata dalla disamina dei tabulati telefonici dell'utenza intestata a F il quale il 5\8\2016 effettuava , nella finestra temporale di interesse, due telefonate a S , una alle ore 16,43 (chiamata della durata di 2 secondi) e una alle successive ore 1'6.47 , chiamata della durata di oltre 15

minuti , che veniva effettuata mentre'F era collegato alla cella' sita in (e S era invece agganciata alla cella ubicata in). Alle . 16.59_S .agganciando la di. , .effettuava una chiamata di.1L.. S colloca temporalmente là violènza sessuale subita dal coniuge dopo il successivo rientro di questi al domicilio, riferito avvenuto tra le 21.00 e le 22.00, zi sostenendo che l'imputato, partiva perii- il 6\8\2Q1 ó all'alba o verso le

Ad analogo giudizio si deve pervenire , in conformità alle richieste assolutorie [u] delle parti, in relazioni a tutte le ulteriori contestazioni in esame, che possono essere affrontate congiuntamente seguendo la scansione descrittiva in fatto di cui al capo A) di imputazione, relativo al delitto di maltrattamenti ex art. 572 c.p., la cui formulazione richiama infatti anche tutti i successivi addebiti delittuosi di lesioni personali, sequestro di persona, estorsione (oltre che di violenza sessuale, di cui si è già trattato).

Le condotte maltrattanti imputate a F rinvengono unica fonte di prova nelle dichiarazioni accusatorie di £ , la cui credibilità oggettiva lascia perplesso questo Collegio 25, come già argomentato, imponendo quindi conferme da elementi probatori esterni , invero difettanti o comunque non dirimenti oltre ogni ragionevole dubbio (con riferimento al reato di lesioni di cui al capo B) di cui si dirà).

S denunciava agli Inquirenti di avere patito, sin dal 2011, un vissuto domestico scandito dalle aggressioni fisiche del coniuge nei suoi confronti e dall'ingiuria, da questi rivoltale, di "*essere vecchia*" .

In aula S ha smentito di essere stata «picchiata » da F sin dal 2011[18][19], come in precedenza sostenuto, spostando temporalmente gli agiti eteroaggressivi del coniuge a decorrere dall'anno 2016 , di preciso dal giorno 5\8\2016 (cioè dal giorno dell'episodio di violenza sessuale) [20], salvo poi, non spontaneamente , ma solo a seguito di contestazione del PM , a sostegno della memoria, riferire l'episodio del precedente mese di giugno 2016 , in cui F le avrebbe ustionato il braccio con un ferro caldo utilizzato per la cottura degli spiedini, evento peraltro non riscontrato da alcun referto medico né riferito da eventuali testimoni.

Anche in relazione alla lamentate percosse ricevute dal coniuge, sempre per questioni economiche legate alle richieste , avanzate dalla persona offesa all'imputato, di provvedere al pagamento delle bollette scadute delle utenze di luce e gas, il narrato di S si caratterizza per genericità, non confortato né da richieste di interventi alle FF.OO , né da certificati medici né da altre testimonianze.

Parimenti generiche le doglianze di S delle condotte sopraffattone, di natura verbale, dell'imputato nei suoi confronti, risolventesi nell'essere apostrofata di sovente con l'epiteto «vecchia» , comportamento maltrattante non provato da altre fonti (al pari di tutte le ulteriori accuse mosse da S -a-[1]

F) e privo altresì di emergenze istruttorie indicative dell'instaurazione di quel sistema di sistematiche vessazioni 'che avviliscono da^ers©nalità----dd—^----[d1]-.--- - soggetto passivo e costituiscono per lo stesso fonte di disagio continuo e incompatibile con normali condizioni di vita, in cui si sostanzia il delitto di maltrattamenti, per costante giurisprudenza di legittimità .

L'unico episodio descritto in termini circostanziati (dunque isolato e non idoneo a integrare il requisito dell'abitualità postulato dal delitto di maltrattamenti ex art. 572 c.p.) è quello del 5\8\2016 in cui F , al suo rientrò a casa dal lavoro, l'avrebbe colpita con un pugno in testa e con uno alla schiena e con un calcio nel sedere, afferrandola inóltre per i capelli, con ciò provocandole le lesioni di cui al certificato rilasciatole il.. giorno successivo dall'ospedale (contestate .autonomamente

Quanto al sequestro di persona -, descritto quale esempio di condotta maltrattante al capo A), è autonomamente contestato al capo C) di imputazione

' rese dalla persona offesa , che in aula lamentava di essere stata chiusa in casa - ;u dall'imputato , sempre in data 5\8\2016, dalle 17.30 circa sino a orario compreso tra le 21.00 e le 22.00, privata sia delle chiavi di casa sia del telèfono cellulare, mentre in sede di denuncia-querela riferiva che il coniuge la chiudeva in camera da letto impedendole di mangiare [28].

Le incongruenze, temporali estrinseche della .ricostruzione dei fatti da sonò già state sottolineate nel trattare accusa di violenza sessuale (à „ dire della persona offesa F' sarebbe uscito di casa alle 17.30 circa, dopo il rientro dal lavoro alle precèdenti ore 16.00, e sarebbe rincasato tra le 21.00 e le 22.00, mentre invece le prove dichiarative - cfr. teste C e soprattutto la disamina dei tabulati telefonici comprovano la versione dell'imputato , collocandone la presenza al domicilio coniugale non molto prima delle ore 17.30, e credibilmente escludendone il successivo rientro in tarda serata, tra le 21.00 e le 22.00 , se è vero che , come emerge dai tabulati telefonici, l'utenza cellulare dell'imputato a partire dalle ore 3.49 del 6\8\2016 agganciava centrali telefoniche francesi e poi- spagnole dato - tecnico - avvalorante la scansionetemporale degli eventi indicata durante l'esame da F che riferiva di

[28] Cfr. contestazioni del PM a pag. 9 della deposizione S

trovarsi in viaggio in auto, diretto in Marocco, nella fascia oraria, tra le 21.00 le 22.00, indicata daS). ®

Ulteriormente si deve sottolineare la telefonata, parimenti attestata dai tabulati [u] telefonici acquisiti agli atti, effettuata da S in data 5\8\2016 a patire dalle ore 18.19 , a utenza telefonica marocchina, telefonata di lunga durata incominciata con il telefono cellulare della persona offesa agganciante cella sita in e terminata con collegamento alla cella di , a dimostrazione del fatto che , in orario in cui S avrebbe dovuto essere sequestrata in casa senza cellulare, la stessa non solo aveva la disponibilità del telefono cellulare ma si trovava anche in spostamento dal Comune di a quello di (né l'apparecchio cellulare poteva trovarsi nella materiale disponibilità dell'imputato , anziché in quelle della persona offesa, posto che negli stessi minuti in cui l'utenza cellulare di S era occupata in una chiamata verso il Marocco e in spostamento, durante là stessa , tra e , l'imputato riceveva sulla propria utenza cellulare una chiamata, alle ore 18.23 , mentre si trovava collegato alla cella di ;, mentre alle successive 19.06 effettuava una telefonata collegandosi a cella ubicata nel diverso Comune di [21]).

Quanto al costringimento , con violenza e minaccia , a pagare le bollette delle utenze domestiche , è la stessa S a dichiarare , durante la sua deposizione testimoniale, che provvedeva a pagare , di fronte al riferito disinteresse del coniuge, causa di frequenti litigi, non in quanto minacciata o percossa con calci e pugni [22][23] , ma per non rischiare l'interruzione degli allacciamenti alla rete idrica, elettrica e del gas : « *PM : [...] Ma lui [* riferito all'imputato : n.d.r.] *le imponeva di pagare le bollette con i suoi soldi oppure semplicemente se ne faceva carico lei ? TESTIMONE S : No signora. Io le bollette obbligatorie da pagare, perché sono tutte intestate a nome mio: l'affitto, il gas, la corrente . Non posso non pagare , perché se staccano io rimango in casa senza niente . Lui che se ne frega , perché non frega niente . Sono tutte a nome mio* » [33].

Peraltro incidentalmente si rileva che la circostanza dell'effettuazione dei pagamenti delle bollette da parte di S , titolare di autonomo conto corrente, non è stata dalla predetta comprovata neppure documentalmente . Intrinsecamente incoerenti e illogiche le accuse mosse da S a F di averle impedito , spegnendolo, di attivare il riscaldamento al fine di non dover pagare le relative spese, posto che è la stessa S a sostenere di provvedere personalmente al pagamento delle spese di riscaldamento e , di conseguenza, non si comprende quale profitto ne avrebbe tratto l'imputato a spegnere il riscaldamento al suo rientro in casa alla sera dal lavoro, impedendo a S di riscaldarsi ma rimanendo così lui stesso al freddo e senza conseguire alcun vantaggio economico. Inoltre ulteriore incongruenza risiede nel fatto che la persona offesa , quando si trovava in casa da sola (trascorrendo il coniuge la^^^ maggior parte della giornata al lavoro fuori casa) non aveva impedimento alcuno ad - accendere il riscaldamento -, -come emerso nel corso della sua deposizione.

Quanto alfine alle contestate condotte minacciose poste in essere da F per costringere S a consegnargli i documenti necessari ad ottenere la carta di soggiorno nel Territorio italiano, il narrato della persona offesa si qualifica ancora una volta di incongruenza sia intrinseca sia estrinseca, Sotto il primo profilo S riferiva due episodi, entrambi collocantisi nel novembre 2016, in cui F. la minacciava con un coltèllo intimandole la consegna dei suoi documénti di identità necessari a richiedere la carta di soggiorno, richiesta alla .....quale S non accedeva ,_ raccontando poi in termini un po' confusi che l'imputato, dopo essere rientrato: dal Marocco a fine agosto 2016, le «rubava - » le fotocopie della sua carta di identità e del suo passaporto , che. rinveniva, poi occultate sotto il divano nel fare le pulizia di casa, per poter ottenere la carta di-soggiorno [24] .... Orbene questa «sottrazione?temporanea, diparte di F delle fotocopie dei documenti di identità della persona offèsa , che sarebbero poi state curiosamente e inesplicabilmente occultate dall'imputato sotto il divano dopo il loro utilizzo, oltre a non integrare in sé gli elementi strutturali materiali del reato di estorsione-, se collocata , sul piano temporale, antecedentemente i riportati episodi di minaccia a mano armata nel novèmbre .. 2016 , agiti proprio .al fine di ottenere i documenti di identità di S , priverebbe gli stéssi di ogni utilità pratica e quindi della loro criminogenesi.

Qualora invece tale sottrazione venisse collocata in epoca temporale successiva "agli episodi di minacciala fini estorsivi del novembre 2016 -, si deve rilevare come questi ultimi si-pongano comunque in,--termini di-- illogicità . e.;; incongruenza con il dato probatorio estrinseco costituito dalla richiesta di rilascio di permesso di soggiornò presentata da F alla competente Questura sin dal precedente mese di settembre 2016 [25], pressoché contestualmente alla trasformazione del contratto lavorativo dell'imputato a tempo indeterminato [26], a riprova del fatto che l'imputato fosse già in possesso dei documenti necessari alla richiesta di rinnovo, sì che i successivi agiti estorsivi di novembre 2016 rimarrebbero orbati del fine di profittò:. - - -

Le argomentazioni che precedono appalesano l'insufficienza e contraddittorietà delle prove acquisite

in ordine a tutte le fattispecie delittuose ascritte all'imputato il quale, dì conseguenza, deve essere mandato assolto dalle stèsse ai sensi del comma 2 dell'art. 530 c.p.p.. .

MOTIVI DELLA DECISIONE

Con decreto emesso dal GIP in data 27/11/2018, a seguito di udienza preliminare in cui si costituiva parte civile M CI , F O: veniva rinviato a giudizio per rispondere dei reati ascrittigli come da allegata imputazione.

All'udienza del 21/2/2019 le parti formulavano le rispettive istanze istruttorie che il tribunale accoglieva procedendo all'esame dei testi M . *C.* M S (all'udienza del 2/5/2019, all'esito della quale si procedeva al confronto tra i predetti testi),]

(all'udienza del 30/5/2019). Nel corso dell'istruttoria si acquisivano copie degli *screenshot* relativi alle *chat* tra le parti e tra la M .e T G. All'odierna udienza si procedeva all'esame dell'imputato e si acquisivano documenti relativi alla situazione familiare ed economica dell'imputato. Quindi, udite le conclusioni delle parti, il tribunale decideva come da dispositivo.

L'odierno procedimento trae origine dalla querela sporta da Nf C nei confronti di F O in data 4/6/2015 per i fatti occorsi la notte del 23/5/2015, il primo presso il cortile dell'abitazione di F ed il secondo lungo la strada che conduceva dalla predetta abitazione a quella della M

L'istruttoria non ha consentito di ricostruire con la necessaria sicurezza la dinamica degli eventi, a causa di alcune contraddizioni tra le dichiarazioni della persona offesa e quelle di altri testi e di alcuni punti oscuri nello stesso narrato della persona offesa. In tale contesto, la rappresentazione di una chiave di lettura alternativa degli eventi, proposta pur rudimentalmente dall'imputato ma avvalorata dal teste T' ha imposto di privilegiare l'opzione ermeneutica di cui all'art. 530 c. 2 c.p.p.

Solo marginalmente valorizzatole, invece, risulta il complicato e fumoso contesto dei rapporti tra le parti, legate da una relazione che i fatti del 23/5/2015 non hanno interrotto, e che si è cercato di inquadrare ora nella relazione puramente sessuale, ora nel tradizionale contrasto di intenti e aspettative tra un certo mondo femminile (alla ricerca di una relazione stabile) e un certo mondo maschile (dedito alla conquista o alla soddisfazione sessuale senza alcuna implicazione sentimentale). Verosimilmente, nel caso di specie, ad un innamoramento della M non è corrisposto alcun sentimento da parte di F *, riducendosi di fatto i rapporti tra i due ad incontri di carattere sessuale, poiché né la prima seppe rinunciare al secondo, per il quale provava una forte attrattiva, nonostante i segnali di disinteresse che riceveva da lui, né quest'ultimo ebbe l'accortezza di non illuderla, forse anche non per crudeltà ma semplicemente per limitata sensibilità, considerato che ancora ad oggi l'imputato sembra non aver svolto alcuna riflessione sul piano morale o psicologico in merito alla vicenda.

Tuttavia, ciò non può seriamente influire sulla valutazione circa la violenza, e a priori circa la manifestazione di dissenso, valutazione che si è condotta in base alla ricostruzione oggettivamente possibile degli accadimenti, alla stregua degli elementi di fatto disponibili, e nell'ottica che l'area del penalmente rilevante è un'area circoscritta, per cui il dissenso non esteriorizzato non rende reato il rapporto sessuale non gradito. In particolare, nel racconto della persona offesa, non convince la manifestazione del dissenso agli atti sessuali compiuti dall'imputato nonché la dinamica del secondo episodio di violenza, considerata - va premesso - la superiorità fisica della prima, alta e robusta, rispetto al secondo, basso ed esile.

C M la riferito che, dopo un periodo di latenza seguito ad un litigio, la notte del 23/5/2015, alle 2.00, F le telefonò annunciandole il suo arrivo e il desiderio di vederla. C scese in strada, lui arrivò e le chiese di accompagnarlo a casa a piedi (abitavano a poca distanza), lei lo accompagnò riscontrando lo stato di ubriachezza - intuito al telefono - a causa dell'alito alcoolico che aveva. Durante il tragitto verso casa di F , i due fecero comunque discorsi compiuti. Arrivati a casa sua, O: fece entrare C . nella veranda, dove si accomodarono sulle sdraio, prima seduti poi sdraiati, parlando e scherzando tra loro. O iniziò a farle delle *avances,* in un clima ironico, avvicinandosi a lei, facendole carezze e baci sulle guance, cui C . si sottraeva ridendo. Chiara non aveva intenzione di cedere, in quanto ancora ferita dal vecchio litigio. O insisteva, *C* allora si sollevò dalla sdraio, ma lui la tirò giù. Lei gli disse "no"e gli chiese di lasciarla andare a casa. Quindi si alzò e raggiunse il cancelletto, ma, non trovando il bottone per aprirlo, gli chiese di aprirle. Lui non le aprì, lei tornò da lui: 0 le mise inaspettatamente una mano attorno al collo e l'altra sulla

bocca e, mentre lei si dimenava lui si mise a cavalcioni su di lei. Quindi le tolse la mano dalla gola e, sempre tappandole la bocca con l'altra, iniziò a slacciarle i jeans, che poi le ... , . 56-2019.pdf . ,

dita di una mano, mentre con I'altra245-20t9ppdfe la bocca. Lui cercò a sua volta di togliersi i pantaloni, non riuscendoci. Lei si divincolava dicendo di smetterla tra le lacrime. Lui continuò a penetrarla per circa cinque minuti, mentre lei si dimenava, poi smise. Lei si rivestì, mettendosi le mutande in tasca, e gli ordinò di aprirle il cancelletto. Lui le disse che le avrebbe aperto solo se gli avesse consentito di accompagnarla. Lei glielo permise. C si mise a camminare velocemente in strada e 0 la tallonava. A un certo punto lei prese il cellulare per chiamare a casa, lui le chiese spiegazioni, lei ripose il cellulare. Allora lui la raggiunse e di colpo la afferrò di nuovo, tappandole la bocca, e, restando in piedi, le abbassò la zip dei jeans intrufolandosi dentro e penetrandola con le dita, per circa tre minuti, smettendo solo alla comparsa di fari d'auto in lontananza. Chiara allora ricominciò ad allontanarsi, e lui da dietro tentava di abbracciarla : alle parole di lei "Ma come, mi hai violentato, adesso mi abbracci?" lui non seppe dare una risposta sensata, dicendo di non saper spiegare il suo comportamento. Infine lei si staccò e si diresse a casa.

Come anticipato, questa prima parte della narrazione, che fisiologicamente non può contare su riscontri esterni, ma deve fondarsi su una propria autonoma attendibilità oggettiva (dal punto di vista soggettivo, invero, C è apparsa serena, lucida, credibile), si scontra con due primi profili che destano perplessità: data la preesistenza di una relazione di conoscenza tra i ragazzi, ed anzi una prima fase di corteggiamento rifiutato da lei, e data la superiorità fisica di lei, non ci si spiega dapprima la reazione di paralisi, quindi - e soprattutto - l'inefficacia della condotta di divincolarsi e dimenarsi rispetto alla penetrazione con le dita, che sarebbe stata protratta per ben cinque minuti. Questa seconda considerazione vale *a fortiori* per l'episodio avvenuto per la strada, che si stenta ad immaginare nella sua fisicità proprio a cagione della superiorità fisica della ragazza, se non supponendone uno stato di paralisi, che, tuttavia, non si concilia con la circostanza che già C si era "ridestata" dalla precedente esperienza, si era imposta nel farsi aprire il cancelletto, aveva cercato di distanziare *O* i che la seguiva nel serrato ritorno a casa, aveva infine avuto l'iniziativa di chiamare a casa col cellulare. C'è qualcosa che sfugge in questo secondo episodio, qualcosa che osta a ravvisarne la verisimiglianza.

Proseguendo nella deposizione della M , la stessa ha poi riferito
che, al rientro a casa, sull'uscio incontrò il fratello S e la fidanzata di lui, B K . Scoppiata in lacrime, si appartò con S e gli raccontò rapidamente, senza dettagli l'accaduto. Salita in casa lo raccontava con più calma alla mamma, M A Quindi andava in bagno, si metteva il pigiama e buttava le mutande (che aveva in tasca) nella spazzatura. Quindi, in camera sua, scriveva su *whatsapp* all'amica del cuore M M , dicendo anche a lei cosa era successo.

La necessità di sfogarsi con le persone care nell'immediatezza depone per l'autenticità dei sentimenti espressi da C racconti fatti a costoro sono stati riscontrati dai medesimi. Tuttavia, la deposizione di M S introduce
due non lievi contraddizioni fattuali rispetto alle dichiarazioni della sorella. Innanzitutto, S - che pure ha appreso i fatti solo *de relato* dalla sorella - ha geograficamente collocato il secondo episodio in un luogo diverso (nel parcheggio del) da quello delineato in dibattimento da C ed incompatibile con il percorso che la stessa ha dichiarato di aver fatto per andare a casa (via). Quindi, e
soprattutto, egli ha riferito di aver visto personalmente che la sorella, al rientro, indossava le mutande, poiché si vedevano uscire dalla cinta dei pantaloni. Ha precisato che la stessa C gliele fece notare, mentre le aveva indosso, per fargli vedere come si erano ridotte, allentate nell'elastico. Il confronto disposto per superare la discrasia con le dichiarazioni della persona offesa non ha sortito lo sperato esito chiarificatore, nel senso che ciascuno dei testi è rimasto della propria idea: in particolare S ha ribadito di aver visto le mutande addosso a C Poco ha risolto la supposizione di quest'ultima secondo cui, rientrata a casa con le mutande in tasca, se le sarebbe poi rimesse prima di buttarle nella spazzatura, poiché è inverosimile: non si reindossano le mutande rovinate dal violentatore, e poi buttate via, ma si indossano delle mutande pulite. Queste discrasie, soprattutto la seconda, senza arrivare ad intaccare la sincerità dei testi, perché sotto questo profilo involgono aspetti marginali, contribuiscono a creare tuttavia coni d'ombra nella ricostruzione dei fatti. Invero, se è tornata a casa con addosso le mutande, c'è qualcosa nella ricostruzione della serata che non torna.

Il rossore che S ha dichiarato di aver colto intorno al collo della sorella, invece, non appare univocamente indicativo di reato, conciliandosi con una presa decisa nel contesto di un rapporto non osteggiato. Invero, l'amica M , che andò a trovarla il giorno dopo il fatto, non memorizzò dettagli relativi a segni fisici sul corpo di C i, sì da doversi ritenere che comunque fossero segni lievi. Anche lo stato di sconvolgimento di cui danno conto i familiari, nonché la B e la M , può conciliarsi con un'esperienza sì negativa, financo degradante, ma non necessariamente integrante reato.

Vi sono poi, nel *post-factum,* alcuni elementi che mescolano ancora di più le carte, impedendo di realizzare una visione univocamente apprezzabile dell'accaduto.

La Mi ha riferito di aver contattato F via *chat* una decina di
giorni dopo e di avergli chiesto spiegazioni della sua condotta. Il ragazzo le rispondeva negando o minimizzando, accusandola di esagerare.

Vi è una duplicità di visuale che si ripete anche nella conversazione con l'amico di F , I G , che il 1/6/2015 contatta la ragazza, la quale nella *chat* menziona poi la "porcata che ha fatto" 0 _ ; per manifestargli l'intenzione di non aver nulla a che fare con lui, in quanto amico di O e simile a lui nei rapporti con le donne. T invece la accusa di essere anche lei interessata solo al sesso come
loro e a un certo punto scrive "e so quello che ha fatto quella sera", "ha fatto davvero bene te lo sei meritata". C risponde secca "beh che schifo, se reputi le violenze una cosa da fare vedi che sei uguale a lui" e T le dà della "ridicola". Dunque
l'interpretazione del fatto accaduto quella sera non è la stessa: per T C
sta esagerando, tanto da darle della ridicola. La ragione l'ha spiegata lo stesso T in dibattimento: il teste ha dichiarato che F , il giorno successivo, gli aveva raccontato che lui aveva penetrato C con le dita, che lei aveva pianto perché lui le aveva fatto male, che avevano poi avuto un litigio in cui si erano insultati e dati uno schiaffo a vicenda, quindi lei se ne era andata sconvolta. Dunque le violenze che C intende come violenze sessuali, per l'interlocutore sono gli insulti e gli schiaffi. Atti per cui la reazione di G poteva apparire ad 0 ed a T "esagerata". Il
teste ha precisato di aver scritto a C che "si era meritata" quello che 0 aveva fatto quella sera - intendendo insulti e schiaffi - perché C era andata da lui, poi si era tirata indietro e lui si era innervosito. Non vi sono elementi per dubitare della credibilità di T< : peraltro, lo stesso ha dichiarato di aver contattato la M , poco dopo l'accaduto e a conoscenza dello stesso, per "provarci con
lei", ciò che conferma che F gliene parlò nei termini descritti da T ,
perché, se F gli avesse confessato di aver praticato gli atti sessuali con violenza e contro la volontà di C , è poco verosimile l'intenzione di Tc anche solo di tentare un approccio sessuale immediatamente dopo tali violenze.

Peraltro, questa versione non è inconciliabile con quanto C avrebbe raccontato del fatto a M D , suo ragazzo in un periodo coevo con la frequentazione con F , il quale ha riferito che C , nello scrivergli via *chat* della violenza subita, aveva precisato che F le aveva fatto malo, espressione che allude ad un atto sessuale doloroso più che ad un atto sessuale contro volontà (il cui disvalore prescinde dal dolore fisico provocato, senza che appaia necessario specificarlo).

Non stupisce in questo contesto ambivalente la difficoltà della decisione di sporgere la querela, né il tentativo di rimetterla. La M ha spiegato infatti
che temeva di non essere creduta, perché "era la parola dell'uno contro quella dell'altra". Ed invero lo è, con la precisazione, ad istruttoria conclusa, che da un lato la parola di lei presenta degli aspetti di perplessità, già menzionati, dall'altro quella di lui è riscontrata dal teste T , portatore nell'immediatezza delle sue confidenze.

A sporgere la querela, il 4/6/2015, C fu convinta soprattutto dalla mamma e dall'amica M Dopo aver fatto alcuni colloqui presso la R , il 23/7/2015 C si presentava tuttavia ai CC per rimettere la querela, e le ragioni di tale tentativo non sono emerse con chiarezza. M M ha ricordato che C durante
l'estate aveva manifestato preoccupazione per la reazione che O _ avrebbe potuto avere apprendendo della denuncia. Per la verità, tra il 4/6/2015 e il 23/7/2015 C si era imbattuta di nuovo in F su una *chat* di incontri, alla quale entrambi erano iscritti, ed aveva poi deciso di rivederlo, perché le piaceva ancora. Gli incontri avvennero dopo le ferie del 2015: furono per la precisione quattro incontri, gli ultimi due culminati con rapporti sessuali orali praticati da lei a lui in macchina. Poi la M delusa
perché veniva usata solo per il sesso, decise di troncare ogni contatto con F

I discorsi intercorsi tra i due in *chat* ad ottobre, con linguaggio scurrile e squallido, danno conto di una relazione incentrata sul sesso, senza altri contenuti. Verosimilmente, mettendosi a quel livello - che non era il suo, considerata la profondità umana mostrata nell'esame dibattimentale, pur nella complessità del suo percorso dì crescita - C sperava di entrare in sintonia con il mascalzone di cui si era invaghita.

La consumazione di rapporti sessuali consenzienti tra vittima e violentatore dopo la violenza - al di fuori di un contesto di convivenza e presupponenti un volontario riallacciamento dei rapporti sospesi proprio in seguito alla violenza - appare tuttavia un dato di fatto che accresce gli interrogativi. Eppure C ne ha dato una spiegazione, che si può anche accettare, tenuto conto della condizione psicologica di fragilità di cui hanno dato conto molti testi (tra tutti l'amica M), e cioè che, essendone innamorata, voleva fare un ultimo tentativo di costruire una relazione con lui. Quello che, tuttavia, crea la maggiore perplessità sono le espressioni che ella usa nelle *chat* di ottobre, laddove, in un contesto di attestati reciproci di disistima, C . così lo riprende: "brutto asino caprone quando dici ste frasi provocatorie prive di fondamento ricordati sempre che stai parlando con una che ti inchiappetti da... un armo...", parole che non agevolmente si immaginano pronunciabili da una donna

violentala dall’interlocutore (nell’anno precedente), perché un conto è evitare di ritornare sull’episodio spiacevole un altro è scherzare sul pregresso in questi termini.

La stessa C , peraltro, aveva confidato la ripresa dei rapporti con O solo all'amica M , tenendone all'oscuro la mamma, il fratello S e l'altra sua amica G O , alla quale aveva in precedenza raccontato della violenza subita, forse percependo lei stessa la contraddittorietà delle sue azioni.

Va, infine, ricordato che alla psicologa C P , con la quale C qualche tempo dopo aveva intrapreso un percorso terapeutico per problematiche alimentari e di autostima, la stessa, nel rievocare la notte dei fatti, raccontò che F aveva iniziato a toccarla e baciarla fino a posizionarsi fisicamente sopra di lei nel tentativo di avere un rapporto sessuale completo, senza riuscirci, poiché lei si divincolava. La ha precisato che la paziente mai ebbe a circostanziare una penetrazione manuale. Tale descrizione dell'episodio, che, in quanto fatta alla psicologa, ci si attende il più possibile autentica, in quanto disinteressata e finalizzata alla cura di sé stessa, non è invece in linea con la dinamica rappresentata dalla stessa dichiarante in dibattimento. E questa è l'ultima grave discrasia che emerge dalle fonti di prova.

In conclusione l'istruttoria svolta non ha consentito di appurare esattamente la dinamica dei fatti. In particolare, residua un ragionevole dubbio che quelle vissute da C come violenze sessuali siano stati atti sessuali compiuti con foga - complice lo stato di ebbrezza - da O ai quali la stessa non si sia oggettivamente sottratta, pur potendo, nel contesto di una relazione fondata su un registro comunicativo esclusivamente sessuale, laddove non sottrarsi implicava non opporsi. Ancora prima, C è a questo registro che non si è sottratta, o meglio, si è sottratta soltanto dopo i deludenti incontri dell'autunno 2015.

Come anticipato, la prospettiva evidenziata conduce all'epilogo assolutorio di cui all'art. 530 c. 2 c.p.p.

Con decreto del 28/6/2016 il giudice dell'udienza preliminare presso il Tribunale di Pavia disponeva il giudizio di A I davanti al Tribunale di Pavia in composizione monocratica per sentirlo rispondere dei reati di cui alla contestazione.

Aperto il dibattimento con l'imputato libero presente e la presenza della parte civile costituita S F , dopo l'indicazione dei fatti da provare venivano acquisiti i documenti prodotti e sentiti i testi del Pubblico Ministero ammessi.

Al termine dell'istruzione il Pubblico Ministero, la difesa della parte civile e il difensore dell'imputato illustravano le rispettive conclusioni enunciate in epigrafe.

È stata raggiunta la prova della colpevolezza dell'imputato in ordine ai reati di maltrattamenti e atti persecutori ai danni di $ F ascrittigli tra il mese di novembre dell'anno 2009 e il mese di ottobre dell'anno 2013.

La prova emerge dalle dichiarar' ' 7 da Si F , M; M , C<
B S F ,F D i, Ai T e dalla documentazione inserita nel fascicolo dibattimentale.

La persona offesa dal reato S F e la madre M M , che visse con la coppia e i loro figli per il primo anno, hanno raccontato del tormentato rapporto sentimentale vissuto da S F con A I dal mese di novembre dell'anno 2009 sino mese di settembre dell'anno 2013.

All'inizio della convivenza non vi erano problemi ma A I cominciò a cambiare atteggiamento nei confronti di S F quando l'ex manto della donna, R F tornò a vivere vicino alia coppia e a trattare con l'ex moglie per la gestione dei loro quattro figli.

A quel punto A I iniziò a mostrare nei confronti della convivente astio e risentimento ingiustificati che si concretizzavano in condotte di sopraffazione come quella di perquisire la borsa di S F toglierle il danaro che si trovava all'interno, sequestrarle il telefono portatile, non darle il denaro necessario al suo mantenimento, nel controllare ossessivamente la spesa che ella effettuava e nell'imporle anche la dieta alimentare. Aveva poi preso l'abitudine di buttare in strada per disprezzo le cose che ella acquistava.

L'apostrofava sempre con l'epiteto "puttana", che era ribadito ogni volta che le rivolgeva la parola anche in pubblico, le diceva poi più volte frasi come "sacco di merda" *e se* la prendeva anche con i figli della donna urlando in continuazione di fronte a loro che erano stati male educati.

A un certo punto le tolse anche l'uso dell'automobile e le impose anche gli abiti da indossare, sempre provocanti, sino a costringerla anche a frequentare più volte un locale di scambisti.

L'acquiescenza di S F a tali condotte di vessazione veniva ottenuta da A
I o con la minaccia di farle portare via i figli dagli assistenti sociali o direttamente picchiando la donna con schiaffi.

In più S
in casa.
si vergognava a raccontare ai parenti e all'ex marito ciò che le capitava

Quando poi cercava di allontanarsi da casa, con o senza i figli, A I la ritrovava sempre e la costringeva a rientrare.

Quando alla fine la convivente fuggì da casa ne) mese di settembre del 2013, approfittando di un periodo in cui A I si trovava agli arresti domiciliari, questi cominciò a tempestarla di telefonate sulla sua utenza, sulle utenze dei figli e sul telefono della madre dell'ex convivente e, quando era libero di muoversi, si recava sotto la casa della donna e restava sul marciapiede ad aspettarla tutto il giorno sino al momento in cui scattava il suo obbligo di rientro.

A I si presentava poi anche presso le ditte dove la donna riusciva a trovare lavoro per screditarla davanti al titolare I fine di farla licenziare.

Sottoposta a tali vessazioni la donna era in condizioni tali da aver paura di tutto, anche perché egli la continuava a raggiungere, seguire e perseguitare anche mentre procedeva l'istruttoria dibattimentale del presente giudizio. Anche al tempo presente S F non esce mai di casa da sola temendo d'incontrarlo.

La precisione e la sostanziale coincidenza testuale e fattuale della narrazione della persona offesa e della madre, che hanno tentato di non infierire sul congiunto, con una narrazione pacata e non esagerata e astiosa dei suoi comportamenti conferiscono piena credibilità al corpo delle dichiarazioni rese in particolare da S F in ordine alle vessazioni, alle molestie, alle ingiurie e alle percosse ricevute durante la convivenza da A I

Le dichiarazioni della persona offesa, sia quelle che descrivono fatti, sia quelle che descrivono il proprio stato d'animo, superano ampiamente il vaglio di attendibilità, da un lato perché prive di contraddizioni interne (anzi del tutto coerenti con il contesto di fatto descritto) e dall'altro perché sono confermate dall'altra teste.

I testi C B,S F ,FD , A T all'epoca dei fatti in servizio presso la squadra volante della questura di Milano, hanno per parte propria confermato che A I i tra la fine dell'estate e l'autunno dell'anno 2013 era solito appostarsi a lungo sotto la casa milanese di S F > contro ogni sua volontà.

È stata quindi, come si è detto, comprovata 1'esistenza delle espressioni ingiuriose, dei comportamenti ossessivi e angoscianti, della vera e propria saturazione assillante di pressioni e costringimenti operati da parte di A I diretta nei confronti di S F prima e dopo la fuga da casa della donna.

La reiterazione di episodi di aggressione, minaccia, ingiuria e umiliazione subiti da S
F tra il 2009 e il mese di agosto 2013 esclude che i fatti considerati possano essere considerati episodi isolati e a sé stanti di violenza, ma, al contrario, permette di riconoscere in loro quel requisito di sistematicità ed abitualità prevaricatoria necessariamente richiesto

dall’art. 572 c.p. per integrare il contestato delitto di maltrattamenti nell’ambito di un rapporto di convivenza familiare di non indifferente durata.

L’assillante presenza fissa di *A* I sotto la casa di S F , già fuggita da casa, hanno ingenerato nella persona offesa uno stato di ansia fondato, genuino e crescente, in ragione dell’aggravarsi delle minacce, delle ingiurie e degli assilli subiti e dell’estensione sistematica degli stessi alla madre e ai propri figli, con punte massime di controllo estese anche al regime alimentare della donna e alle limitazioni della sua capacità di comunicare attraverso l’uso del telefono.

L'accanimento dell’imputato verso la compagna e la sua ostile incontrollabilità s’inquadrano perfettamente tra le condotte idonee a ingenerare nella persona offesa ansie e timori perduranti e gravi, essendosi le condotte d’assillo prolungate per mesi in aggiunte alle precedenti già oggetto d’altro giudizio, peggiorando e aggravandosi sempre di più.

Ciò a cui è stata costretta S F , e cioè il definitivo trasferimento con tutti i figli in luogo lontano da A > li e l’inanità dei tentativi fatti per sfuggirgli, posto che egli la ritrovò subito e iniziò ad appostarsi sotto casa sua, integrano a pieno titolo quel particolare requisito previsto dall'articolo contestato costituito dal sentirsi la persona offesa costretta ad alterare le proprie abitudini di vita.

Atteso quanto sopra, ritenuto che nel caso di specie il reato si sia consumato in una tra le possibili manifestazioni previste dall'articolo 612 bis c.p. e ciò generando nella persona offesa un grave e perdurante stato d’ansia, va affermata la penale responsabilità dell’imputato in ordine al reato ascrittogli.

Il suo comportamento, complessivamente considerato, integra in pieno l’elemento oggettivo del reato di atti persecutori, costituito dalla realizzazione di una serie di atti molesti non occasionali e protrattisi per un apprezzabile arco temporale.

Il dolo, generico, con riferimento ai singoli episodi, nonché unificante, nei confronti del complessivo rapporto con la persona offesa, emerge dalle modalità stesse del comportamento dell’imputato, che comprovano la sua volontà di tenere sotto il proprio totale controllo la persona offesa sia nel corso della convivenza sia dopo la chiusura del rapporto sentimentale.

Sulla base degli elementi sopra esposti risulta pienamente provata la colpevolezza dell’imputato in relazione ai contestati reati di maltrattamenti e atti persecutori ai danni di S F ascrittigli tra il mese di novembre dell’anno 2009 e il mese di ottobre dell’anno 2013, sussistendone gli estremi oggettivi, l’elemento soggettivo e la contestata recidiva.

A favore dell’imputato militano condizioni di vita che consentono il riconoscimento nei suoi confronti della sussistenza delle circostanze attenuanti generiche da ritenere equivalenti alla contestata recidiva.

L’elevato livello di lesività, soprattutto psicologica, degli atteggiamenti dell’imputato, e i gravi precedenti specifici esistenti a suo carico, impediscono di irrogare una pena che si attesti ai livelli minimi edittali.

Pertanto, richiamati i criteri di valutazione dei pari. 133 c.p,. A 1 va condannato all'equa pena di anni tre di reclusione (pena base anni due e mesi sei di reclusione in relazione al più grave reato di maltrattamenti di cui al capo A), determinata dopo il giudizio di comparazione ed equivalenza tra le riconosciute circostanze attenuanti generiche e la contestata recidiva, aumentata ad anni tre di reclusione ex art 81 cpv. c.p.).

Alla pronuncia consegue per legge la condanna dell'imputato al pagamento delle spese processuali.

I precedenti esistenti a carico dell’imputalo sono ostativi alla concessione della sospensione condizionale della pena ma in ogni caso l’insistenza dell’imputato nel perseguitare S
F e la sua manifesta intenzione di non interrompere i propri comportamenti lesivi, impedirebbero comunque, in relazione ai futuri comportamenti dell’imputato, un giudizio prognostico favorevole in ordine alla sua futura astensione dalla commissione di altri reati della medesima indole

L’imputato deve essere condannato al risarcimento dei danni in favore della parte civile che ne ha fatto domanda, con liquidazione demandata al giudice civile ma assegnando alla parte civile una provvisionale immediatamente stessa il relativo diritto nella misura di euro 8000 in ragione del lungo periodo temporale che viene in considerazione nel presente giudizio e tenendo conto dei profondi mutamenti nelle abitudini di vita ai quali, con i propri comportamenti. A l ha costretto la persona offesa.

L’imputato deve inoltre essere condannato al pagamento delle spese processuali sostenute dalla parte civile, liquidate come in dispositivo.

CAPO 3)

Mi A ', in servizio presso il Nucleo Investigativo del Comando Provinciale Carabinieri di ha riferito che venne effettuato un primo servizio di osservazione, controllo e pedinamento a carico dell'imputato, in , nel mese di luglio, il giorno 7 luglio 2016: intorno alle ore dodici si vedeva il C insieme con altri soggetti seduto fuori al bar Caffe nella piazza di 1 >. Dopo qualche minuto, giunse a bordo di un'autovettura Volkswagen Golf un soggetto successivamente identificato in A C . Il *C* , vedendo arrivare il C , si alzò e lo raggiunse. Nel frattempo il soggetto parcheggiò, si salutarono con una stretta di mano e nella circostanza il C consegnò un qualcosa al C .11 successivamente si recò presso l'autovettura Volkswagen Polo che aveva in uso, aprì lo sportello anteriore sinistro, si piegò, per poi uscire nuovamente dall'autovettura, e dirigersi insieme con il CI presso la di lui abitazione che è ubicata in via >, nei pressi del bar dove si trovava.
Dopo qualche minuto i due soggetti uscirono dall'abitazione, si salutarono nuovamente, il Ci salì a bordo della propria autovettura Volkswagen Golf, mentre C; raggiunse gli altri soggetti con cui si trovava prima al bar.
Successivamente, in data 16 di agosto nel corso di un ulteriore servizio di osservazione, controllo e pedinamento a carico del C , il teste osservò che nella circostanza il soggetto, intorno alle qui:": e trenta, si recò presso l'abitazione dell'A C a i, in via i. Giunto nei pressi dell'abitazione del C il C uscì dalla propria abitazione mentre il C rimase a bordo della propria autovettura; il C si avvicinò alla porta anteriore lato passeggero, il finestrino della macchina era abbassato e si i due soggetti che parlarono tra di loro.
Successivamente C si recò alla propria autovettura Golf che era parcheggiata nei pressi, prelevò un qualcosa dall'interno e lo consegnò al C . Dopodiché il C • fece rientro a ~ e nel momento in cui stava parcheggiando nei pressi della propria abitazione venne fermato dai Carabinieri e nella successiva perquisizione venne trovato in possesso di un panetto di hashish del peso di cento grammi circa e un coltello a serramanico. Successivamente venne effettuata una perquisizione presso l'abitazione del C in via e, all'interno camera da letto, venne rinvenuto un bilancino di precisione, 0,5 grammi di marijuana e 0,8 di hashish, quindi venne tratto in arresto.
Tanto risulta anche dal verbale di arresto acquisto agli atti, nel quale si dà atto che in data 16.8.2016, l'odierno imputato venne controllato dal personale del Nucleo Operativo e Investigativo dei Carabinieri di 1 in particolare gli operanti lo fermarono alla guida di un'autovettura, all'interno della quale rinvennero grammi 101,8 di sostanza rivelatasi Hashish tramite Narcotest nonché un coltello OPINEL con lama ricurva e impugnatura in legno.
Inoltre nel corso della perquisizione domiciliare rinvennero, in camera da letto, un bilancino di precisione e due involucri contenenti il primo grammi 0,5, di hashish e il secondo grammi 0,8 di Marijuana (cfr. Anche fotografie in atti).
In merito ai fatti ha deposto anche Q D , il quale ha premesso di conoscere l'imputato e di averlo frequentato nel periodo di giugno - agosto del 2016 perché acquistò hashish da lui circa dieci volte, pagandolo circa dieci Euro.
DL M LI , ha premesso di conoscere imputato che spesso gli cedeva a titolo gratuito dell'hashish che talvolta consumavano insieme.
Confermando quando dichiarato dinanzi il 13 settembre del 2016, dinanzi al Comando Provinciale di P , ha poi dichiarato che in una conversazione intercettata chiese al C; > se avesse delle caramelle intendendo appunto in realtà chiedergli se avesse dell'hashish. Si trattava di una circostanza particolare perché il teste doveva partire per le vacanze e ne aveva bisogno per divertirsi.
Anche M 1 sentito come teste, ha dichiarato di aver acquistato hashish dall'odierno imputato in qualche occasione, in particolare circa tre volte a settimana per tre o quattro mesi, pagandola circa Euro 10,00 al grammo.

Così riassunti i fatti, deve innanzitutto, osservarsi che non può trovare accoglimento l'eccezione della difesa relativa al *bis in idem,* con riferimento alla sentenza del Tribunale di F in data 26.9.2016, irrevocabile il 28.10.2016; infatti con la predetta sentenza il C é stato condannato per trasporto illecito di stupefacenti, all'esito dell'operazione di arresto di cui si é dato conto, mentre in questa sede é imputato per cessione di stupefacenti.

Ciò premesso, al di là della testimonianza di M che dà atto della disponibilità della sostanza da parte dell'imputato, i consumatori nella persona di Q ,D M i, M , hanno confermato di essersi riforniti dal C , in particolare hashish, nell'estate 2016 e hanno descritto gli importi e le dosi, sicché deve dirsi provato il reato così come contestato all'imputato.

CAPI l)e2)

I. principali dati d'accusa a carico del prevenuto sono stati fomiti dalle dichiarazioni della persona offesa C M
Costei ha così riferito di aver conosciuto l'imputato nell'ottobre del 2012, in un mercatino dove entrambi stavano lavorando; dopo una

breve frequentazione, durata circa un mese, andò a convivere con lui nella casa popolare assegnata alla madre dello stesso.
Nel primo periodo la convivenza fu tranquilla; la M già nel febbraio 2013, rimase subito incinta.
Sennonché, dopo circa tre mesi, iniziarono a sorgere i primi problemi.
Infatti, un giorno il C disse alla teste di dover andare a spedire del denaro in Egitto per pagare il “fumo” che aveva acquistato di un egiziano.
Alla M la situazione preoccupava; spiegò all’imputato che una casa dove venivano persone ad acquistare o consumare droga non era un ambiente adatto ad una bambina.
Infatti spesso venivano persone a casa per acquistare lo stupefacente.
Un giorno venne a casa un ragazzo con due “palle” molto grandi di erba, che il C; le spiegò valere diecimila euro.
Preoccupata, la M contattò dunque la madre dell’imputato per chiederle aiuto, ma la donna giustificò tale comportamento, spiegandole che gli uomini “maturano con il tempo”. Da quel momento tuttavia, poiché la persona offesa si ribellava a questi comportamenti del C , quest’ultimo prese ad offenderla, dicendole "stronza”, "donna di merda”; in occasione del suo compleanno le disse che non festeggiava "il compleanno delle merde". Nessuno dei due aveva un impiego fisso; la M percepiva una pensione di invalidità pari ad Euro 290 mensili e lavorava nei mercatini. Aveva infatti sofferto di un disturbo della personalità “borderline”, che aveva poi risolto, per cui aveva assunto farmaci, smettendo poi in concomitanza con la gravidanza.
II. C invece trovò lavoro al terzo mese di gravidanza e guadagnava circa Euro 1.000,00 al mese.
Frattanto venivano a casa gli acquirenti, facevano discorsi che alla persona offesa non piacevano; ma se protestava con il Ci lo stesso la insultava.
Spesso l’imputato si innervosiva se non trovava la sostanza; in un’occasione diede in escandescenza pensando che la madre gli avesse buttato via la droga custodita nel box.
In breve si creò una situazione quotidiana di insulti, di minacce, come " Ti sgozzo!", "Questa sarà l’ultima cosa che farai!”.
Nella coppia sorgevano discussioni per niente; in più, poiché la teste si appoggiava alla suocera, non volendo far preoccupare i propri genitori, iniziò ad essere sminuita anche da lei. La madre dell’imputato infatti le imputava di non essere in grado di gestire una famiglia e sosteneva che fosse una madre snaturata.
Ad ogni modo, dopo la nascita di A , trascorsero due mesi abbastanza sereni, anche se il C _ continuava, comunque, l'uso di sostanze, per cui la teste chiedeva costantemente aiuto alla famiglia del giudicabile ottenendo aggressività anche da parte della suocera, che la insultava, addirittura arrivando a prendere in braccio la nipote dicendo "Tua mamma è una stronza!".
In un’occasione tornando dalla trattoria, arrivò strisciando a terra con la bava alla bocca, ma non volle che la M chiamasse l’ambulanza.
In seguito la situazione peggiorò ancora. Il C iniziò anche a usare la violenza fisica; ogni giorno svegliava madre e figlia con insulti; schiaffeggiava la persona offesa, le toglieva a forza via la sim dal cellulare, le chiavi di casa; incolpava la compagna e la bambina di nascondergli le cose; ad esempio, una mattina presto in cui non trovava le chiavi della macchina, accese tutte le luci, tirò su la rete del letto per cercarle svegliando la M > e la bambina.
Il C insultava e minacciava quotidianamente la persona offesa, dicendo che le avrebbe “infilato un palo nel culo”, che avrebbe sgozzato gli assistenti, che le avrebbe fatto perdere A
Anche sul fronte dei rapporti sessuali, il C non perdeva occasione per deridere la persona offesa, con frasi quali "Sei floscia!", "Sei una negra, piaci solo ai marocchini!", ", "Hai le gambe da gallina!", "Vatti a truccare, che fai schifo!”; le diceva che era un manichino, perché la donna in quella situazione non aveva alcuna voglia di intimità.
Inoltre il C spegneva il riscaldamento in casa, ancora quando faceva freddo, intorno a febbraio - marzo; ogni tanto mandava via di casa sia la teste che la figlia; non lasciava l’auto alla M per portare la bambina dal pediatra; non si fece trovare quando la bimba venne portata al pronto soccorso per una forte reazione allergica. Inoltre non le dava denaro per fare la spesa e quando la faceva acquistava soltanto prodotti per sé. Teneva i soldi del proprio stipendio per acquistare quantitativi di sostanze stupefacenti o per giocare alle “macchinette” o poker. Se la teste voleva acquistare qualcosa per la bambina per lui era sempre superfluo; sosteneva che la figlia fosse “handicappata”, non voleva festeggiare né Natale né il compleanno della bambina.
La M lo pregava di accompagnarla alle visite mediche per le frequenti bronchiti della piccola, ma il C si tirava sempre indietro delegando alla M e ai genitori della stessa. Anche con A aveva reazioni eccessive; in un’occasione in cui andarono a visitare l’asilo, vedendo che la bimba non voleva andarsene, il C la prese con modi bruschi e la mise malamente in auto facendole perdere la scarpina.
Insultava anche i genitori della persona offesa; le diceva di non mettere le loro foto vicino a quella dei propri.
La donna ebbe inoltre la sensazione che il C avesse delle erezioni quando era nel bagno con la figlia e si spaventò molto.
In un’altra occasione, nel corso di una discussione, in cui tentava di avere il telefono, l’imputato strinse la mano della donna fino a romperla.
Nel giugno del 2015, la M esasperata, si rivolse dunque a un centro antiviolenza di Pavia, da una parte rendendosi conto che si era creata una situazione insostenibile, anche se dall'altra parte avrebbe voluto tenere unita la famiglia. Iniziò un percorso non molto costante di incontri presso il centro; temeva infatti che il fatto di essere stata dichiarata invalida dal punto di vista psichico, avrebbe potuto perdere affidamento della figlia, come più volte le era stato paventato dal giudicabile e da sua madre.
Tra l’altro con il braccio ingessato la M partecipò ugualmente ad un mercatino dove vendeva delle coroncine di rafia e il C si preoccupò che il sindaco potesse notarlo dire qualcosa. D’altra parte l’imputato, sempre in occasione dello stesso mercatino, fece amicizia con un’altra ragazza e, nel momento in cui la M > gli chiese spiegazioni, le diede uno schiaffo davanti a tutti mentre tra l’altro ella teneva in braccio la bambina.
Infine, nel maggio 2016 la donna se ne andò finalmente di casa, su impulso della psicologa, Dottoressa G< che le fece contattare le forze dell’ordine spronandola a denunciare l’accaduto.
La M ha poi riferito che solo alla fine confidò tutto ai propri genitori, che vedeva abitualmente; inizialmente temeva le loro reazioni; poi disse loro della droga ed essi non vollero più vedere l’imputato.
Ha poi precisato che dato che era di M faticò anche a trovare delle amiche nel paese; iniziò a fare amicizia grazie ai mercatini con due ragazze della sua età.
Inoltre si confidò con la dottoressa G; e con la dottoressa D B , ossia la psicoterapeuta che la seguiva per il precedente disturbo e alla quale si era rivolta alla nascita della bambina per gestire il cambiamento. Ad ogni modo finché visse con l’imputato, anche con loro la M non fu completamente sincera; ad esempio quando l’imputato le ruppe la mano raccontò a tutti di essersi fatta male mentre montava le coroncine.
La donna andò via di casa senza prendere niente; si recò subito dalla dottoressa G;
Rimase nove mesi senza le sue cose, dovette ricomprare tutto, pur non avendo un lavoro, una casa, mentre né l’imputato né la sua famiglia si facevano sentire. Quando le permisero di riprendere i propri effetti personali mancavano molti oggetti.
Dopo la rottura, inizialmente la giovane visse a casa dei miei genitori, poi trovò un lavoro, un piccolo appartamento e andò a vivere da sola con la figlia.
Attualmente la bambina é affidata esclusivamente alla madre e l’imputato la vede durante gli incontri protetti.
La teste ha soggiunto che già in precedenza ebbe una convivenza difficile cui seguì una denuncia e un processo.
In atti é stato acquisito il certificato medico del pronto soccorso del Policlinico San Matteo che dà atto della “frattura base 5 del

metacarpo mano dx" con prognosi di giorni 21 (cfr. Certificato in atti).
Riscontro di quanto riferito dalla persona offesa é pervenuto dalla deposizione della madre della stessa, M: M R ..
La stessa ha riferito che inizialmente, quando la figlia conobbe l'imputato non osservò nulla di particolare, salvo il fatto che il C non lavorava e quando la figlia lo sollecitava a trovarne uno, reagiva male. In ogni caso alla teste e al marito l'imputato non piaceva e tentarono di ostacolare la relazione. Il C era infatti maleducato e in un'occasione quando era a casa della teste aveva urlato dalla finestra a due loro vicini di casa, ignorando le richieste di smetterla.
In seguito, in modo graduale, la teste apprese inizialmente che il C fumava hashish; e in seguito che il rapporto divenne molto pesante dopo la nascita della bambina.
Il C aveva trovato un lavoro ma gestiva le proprie finanze ignorando le esigenze della compagna e della minore, impedendo altresì alla M: _ di usare l'auto.
Sicché la teste insieme a suo marito cercò di aiutare la famiglia, facendo la spesa per loro, pagando visite mediche specialistiche.
Tanto andò avanti finché la teste seppe che il C; impiegava parte del denaro per l'acquisto di sostanze stupefacenti, destinato ad un successivo smercio che a suo dire aveva lo scopo di ottenere "fumo" gratis per sé, nonché che deteneva le sostanze a casa e che sua figlia lo accompagnava con la bambina ad effettuare delle consegne di sostanza.
A quel punto la M decise di parlare con l'imputato, chiedendogli di mutare atteggiamento, ma lo stesso rispose che non ci sarebbe stato niente da fare.
Dunque la teste prese la decisione che se i soldi fossero finiti ella non li avrebbe più aiutati economicamente, ma avrebbe accolto sua figlia e sua nipote in casa. Accadde così che più volte la M andò a stare per un periodo dai genitori insieme alla bambina, quando il C aveva finito i soldi; poi la teste e il marito riaccompagnavano madre e figlia a casa quando sapevano che era arrivato lo stipendio.
In seguito la teste apprese che il C giocava d'azzardo, andava con le prostitute e che, se la M provava a contestargli qualcosa, dava in escandescenza.
Un giorno mentre era al telefono con sua figlia, la teste sentì delle urla; la figlia le spiegò che l'imputato si era chiuso in camera e non voleva farla entrare e nell'occasione si ruppe la porta a vetri e la figlia si ferì finendo all'ospedale.
La teste e il marito tentavano costantemente ma invano di far aprire gli occhi alla figlia.
Il C si disinteressata della figlia e i nonni materni dovevano intervenire; in un'occasione in cui la bimba era disidratata dovettero acquistare un integratore perché egli si rifiutava; quando faceva la spesa per la bambina comprava prodotti scadenti; accoglieva in casa persone poco raccomandabili.
La teste apprese ancora dalla figlia che a volte dava i pugni contro il muro, beveva, andava a giovare a poker; un giorno tornò in pessime condizioni e con la schiuma alla bocca.
Dunque, su impulso della suocera, la teste organizzò un incontro tra le due famiglie di orìgine; nel frangente la teste espresse la propria opinione e cioè che se sul rapporto tra i due non poteva intervenire, non poteva però tollerare che vi fosse droga e alcol in casa e che l'imputato non provvedesse economicamente alla figlia.
Sapeva infatti che la figlia subiva spintoni, insulti, ma, non riuscendo a fare leva su quegli argomenti, per allontanarla dall'imputato, puntava sulla droga e sull'alcol. Sapeva che il C diceva alla M che era brutta, grassa, che aveva le gambe da gallina, tanto che ancora oggi ha il complesso di non essere adeguata fisicamente; che la costringeva a rapporti sessuali con modalità non volute. Sapeva che al mattino, prima di uscire, se non trovava qualcosa, alzava il letto bestemmiando e incolpando la bambina. Dava della "mongoloide" alla bimba perché si faceva la pipì addosso all'età di due anni e mezzo. Ad ogni modo la figlia non era pronta per denunciare e nonostante la suocera le avesse detto di andarsene, rimase a casa con il C per tenere unita la famiglia.
Nel frattempo la bimba era molto spesso dai nonni, che la portarono anche in vacanza; quando doveva tornare a casa non voleva e chiedeva di poter restare con i nonni.
Analoghe dichiarazioni risultano dal verbale di sommarie informazioni rese da Miglio Gianluca, consensualmente acquisito agli atti.
Ulteriori conferme in merito a quanto addotto dalla vittima si traggono dal verbale di sommarie in formazioni rese da F D :, che conobbe la persona offesa in occasione di un colloquio di lavoro. La M le raccontò che il C stava lunghi periodi via da casa disinteressandosi di lei e della figlia; che le impediva di avere amici, che custodiva stupefacente a casa e lo consumava, che non le piaceva l'atteggiamento che aveva con la figlia A . Seppe che l'aveva minacciata e che infine la M lo aveva denunciato.
Anche D L Li i, collega di lavoro presso un'agenzia assicurativa, sentita a sommarie informazioni, riferì di aver saputo che l'odierno imputato non collaborava alle spese familiari, che denigrava la persona offesa dicendole che era brutta, che faceva schifo e si vergognava di uscire con lei. In seguito, tramite messaggi, seppe che il C era diventato anche violento fisicamente in quanto le aveva lanciato addosso i giochi della figlia, le aveva storto il braccio rompendole la mano, che le aveva dato uno schiaffo davanti a tutti mentre lavorava ad un mercatino. Inoltre seppe dall'amica che il C aveva mantenuto dei comportamenti ambigui anche nei confronti della figlia facendo il bagno insieme a lei.
Sulla vicenda é stata quindi sentita la dottoressa G , dirigente psicologa presso "L'Azienda Ospedaliera o", al centro psicosociale del Comune di
La stessa ha premesso che la M fu sua paziente alcuni anni fa, nel 2007, allorché la venne seguita per una terapia supportiva presso il suo centro psicosociale; in seguito la M > sospese il percorso attivandone un altro percorso presso un centro privato convenzionato, all'ospedale S R :.
La diagnosi fu di "disturbo borderline di personalità", che si manifestava con molta emotività, a volte con il pianto, con emozioni molto intense e anche con la tendenza a essere un po' dipendente nelle relazioni. La terapia che fu stata portata avanti presso il servizio del S R , fu quella specifica sul disturbo di personalità, borderline, che è la DBT, è una terapia di M ' ' di elaborazione di grandissima efficacia, che infatti ebbe degli ottimi risultati, di completo superamento dei sintomi relativi a quella patologia.
La Mi si ripresentò, nel 2016 e fece alcuni colloqui con una collega della teste, dottoressa R , specializzanda, psicoioga, che la teste supervisionava. E poiché dai colloqui
emersero dei fatti di una certa gravità, la G; preferì seguirla personalmente.
Tuttora la segue con incontri quindicinali.
In merito alle dichiarazioni della persona offesa, la teste ha specificato di non aver mai pensato che fossero state ingigantite, sia per l'evidenza del braccio fratturato, sia dall'utilizzo delle parole, della mimica, dall'insieme della situazione; non ebbe dubbi che ci fosse effettivamente uno stato di grande sofferenza, con accenti di vero e proprio trauma.
La prima volta che si ripresentò la M stette in studio per tre ore di seguito, perché piena di angoscia, di ansia, di spavento per tutto quello che era successo; la teste cercò di convincerla a fare una denuncia; in quell'occasione infatti, insieme telefonarono in Questura. L'Agente le parlò, consigliandole di non tornare in quel momento a casa, ma di tornare dai suoi genitori e non fare rientro nella casa con il convivente e il giorno dopo di presentarsi in Questura, cosa che ella fece.
Nell'occasione dunque, la persona offesa raccontò sia la situazione contingente della lite, per cui c'era stato questo colpo al braccio, che aveva generato la frattura, sia moltissime altre vicende analoghe, che resero evidente che la convivenza dovesse essere assolutamente interrotta; si trattava in particolare di umiliazioni, aggressioni verbali, sia verso di lei che verso la bambina, alla quale il C diceva a volte diceva "Handicappata"; alla M _ invece diceva: "Sei grassa, sei brutta, fai schifo, una donna di merda!". Le raccontò di aver ricevuto spintoni, nonché uno schiaffo in pubblico qualche giorno prima.
La M » le riferì anche di cattiverie, come togliere la sim dal telefono per impedirle di telefonare, di non lasciarle la macchina se lei

doveva allontanarsi da casa, fino ad arrivare agli episodi del “bagnetto” in cui si accorse che il C era eccitato mentre era nella vasca con la figlia.
La teste ha poi soggiunto di ricordare che anche la madre del Ci mantenesse comportamenti aggressivi verso la M , mandandole anche messaggi che la teste aveva letto, con i quali sminuiva la sua figura di donna e di madre”.
La stessa, confermando quanto contenuto nella relazione fatta per i servizi sociali, ha infine precisato di non aver mai avuto dubbi né prima né attualmente, in merito all’attendibilità della persona offesa.
Tanto risulta anche dalla “relazione sulla presa in carico” redatta dalla stessa G :, nella quale si dà atto altresì del costante impegno mantenuto dalla M dopo i fatti per cui é processo, nella ricostruzione del nucleo familiare con la bambina, nell’accudimento della figlia nonché nello svolgimento del proprio lavoro.
Anche DBA , psicologa e psicoterapeuta, chiamata a deporre sui fatti, ha premesso che la M si rivolse nel 2012 presso l'ospedale S R di M , pressoi reparti di psicologia clinica e di psichiatria dove lavora la stessa teste. La M era stata ricoverata infatti alcuni anni prima ed era stata fatta una valutazione, da cui emerse un disturbo di personalità borderline. Venne dunque presa in carico dalla teste insieme alla sua equipe, attraverso colloqui individuali al fine era di inserirla in gruppi volti a migliorare la consapevolezza emotiva delle persone.
La teste seguì la M saltuariamente fino dopo la nascita della bambina, A
La persona offesa le riferì della sua preoccupazione rispetto a alcuni atteggiamenti del suo compagno, che lei non condivideva; in particolare l'utilizzo di cannabis, che reputava non adeguato, la preoccupazione per come si era sviluppata la relazione fra il papà e la bambina, per cui non si fidava a lasciarli da soli in casa.
Nonostante dal punto di vista dei rapporti con l’imputato, la M descrivesse soltanto di scontri verbali, accentuati dalla presenza della suocera, la D B percepì la paura della M di non essere in un ambiente adeguato.
La teste venne ricontattata dalla persona offesa alla fine dell'estate del 2015, perché le serviva un’attestazione che non prendesse farmaci.
La teste sul punto ha precisato che smise di prendere i farmaci già da quando seppe di essere rimasta incinta, allorché non manifestava più alcun comportamento ascrivibile al disturbo borderline diagnosticato in precedenza.
Anche Lì S , medico specialista in psichiatria presso l'ospedale S R ha riferito che trattò la persona offesa negli anni 2011/2012 per un disturbo d’ansia che si inquadrava in un disturbo da attacco di panico, trattandolo con un antidepressivo.
In seguito, già nel corso 2012, la terapia venne interrotta e la M _ non venne più segui in quanto totalmente in remissione sintomatologica.
Le medesime circostanze risultano dai verbali di sommarie informazioni rese da S
F e Ti L entrambe “operatrici di accoglienza” presso il centro anti-violenza “Liberamente” di i.
In essi di dà atto che la persona offesa, rivoltasi al predetto centro nell’autunno del 2015, allorché era temporaneamente a casa dei propri genitori con la figlia, raccontò del difficile rapporto con l’imputato, il quale, dopo la nascita della bambina, essendo dalla M richiamato alle proprie responsabilità, iniziò ad insultarla con parole quali “pazza”, “stupida”, “troia”.
Tuttavia in quel momento, la giovane non volle accogliere il consiglio delle operatrici di interrompere la convivenza e denunciare quanto accadeva, approfittando di essere già a casa dei propri genitori, perché voleva mantenere la famiglia unita. Sennonché, dopo un’interruzione dei colloqui, la M si ripresentò al centro, riferendo di essere tornata a casa del C; durante le vacanze di Natale e di essersi resa conto di aver idealizzato la propria famiglia; infatti il C era peggiorato negli atteggiamenti violenti; nell’aprile la donna si presentò con una mano fasciata, dicendo di essersi ferita nel corso di un litigio. Nel mese di maggio di presentò con il braccio ingessato riferendo di essersi fatta male con un tavolo.
Ad ogni modo la M spiegò alle operatrici che le era stato precedentemente diagnosticato un disturbo psichiatrico “borderline”; nel periodo in oggetto la stessa non era sottoposta a terapia farmacologica in quanto non presentava sintomatologia attiva.
In seguito la M contattò il centro per avvertire che aveva denunciato il C e precisando che le aveva rotto il braccio.
Invece Pi , Ai :, madre dell’imputato, ha ricordato che la persona offesa venne dapprima a vivere da lei, sostenendo di avere problemi con la propria madre, che aveva avuto una relazione sentimentale con il suo ex fidanzato. In seguito la P concesse alla coppia di vivere a casa sua, lasciando i mobili nonché l’autovettura del suo compagno in uso.
A metà aprile l’imputato iniziò a lavorare e percepiva uno stipendio di circa Euro 450,00, che divenne in seguito di circa Euro 800,00 mensili. Qualche volta la teste provvide a pagare qualche spesa di casa. In un’occasione il figlio prese in prestito la somma di Euro 50,00 dalla M provvedendo poi a restituirla.
La teste non poteva frequentare la casa in quanto la M non voleva.
La P : ha ricordato di quando incontrò la madre della persona offesa per parlare della situazione, in particolare dei soldi e dei litigi.
S MA. patrigno del giudicabile, ha confermato che all’epoca dei fatti diede in uso la propria auto all’imputato e alla persona offesa; ha ricordato che, dopo che si lasciarono, la M venne a casa con suo padre a ritirare i propri oggetti, che il teste e l’imputato avevano confezionato in scatoloni e sacchetti, accompagnati da due carabinieri, i quali, vedendo che la situazione era serena, ritennero di allontanarsi.

Orbene tanto premesso in punto di fatto appare compiutamente dimostrato l’assunto accusatorio formulato nei confronti dell’odierno prevenuto.
Deve ritenersi innanzitutto fondata l’ipotesi accusatoria di maltrattamenti in famiglia formulata nei confronti dell’imputato.
Infatti la persona offesa ha reso dichiarazioni coerenti e particolareggiate e la sua versione ha trovato riscontro nelle deposizioni dei numerosi testi escussi, quali la madre della stessa p.o. M ; e il padre, le colleghe di lavoro, le operatrici del centro antiviolenza, la psicoterapeuta che la ebbe in cura e la incoraggiò a presentare la denuncia. Sul punto va osservato che la la teste DB :, quale teste qualificata in quanto psicoterapeuta, si espressa sulla piena attendibilità della vittima, non inficiata dalla precedente patologia psichiatrica dalla quale era affetta, che, peraltro, a detta di tutte le spécialiste, doveva ritenersi superata già prima dei fatti per cui é processo.
Viceversa le deposizioni dei testi a discarico, P e S , non hanno scalfito il racconto della vittima, essendo emerso uno scarso coinvolgimento dei testi rispetto al contesto familiare in cui si svolsero i fatti.
E’ configurabile dunque nei fatti descritti dalla vittima il reato di cui all’art. 572 c.p., nella specie aggravato dall’essere avvenuti i fatti in presenza e in danno della minore.
Infatti, le offese e le violenze denunciate sono risultate abituali, sicché le stesse devono considerarsi quali episodi attestanti resistenza di un normale stato di prevaricazione da parte della prevenuta che ha certamente determinato una situazione tale da rendere abitualmente dolorosa e mortificante la vita della p.o.
Tanto si evince dal racconto reso dalla persona offesa, che veniva costantemente insultata, derisa e minacciata, lasciata senza soldi e senza medicine per la minore, costretta a vivere in un contesto abitativo malsano, in cui l’imputato riceveva persone alle quali spacciava sostanze stupefacenti. Particolarmente accentuato nel caso di specie é l’aspetto dell’umiliazione della vittima, che veniva derisa dal compagno, tanto da sentire ancora oggi un senso di inadeguatezza; peraltro tali umiliazioni avevano come obiettivo anche

figlia piccola.
Parimenti, risulta dimostrata la condotta delittuosa di cui all'art. 582 585 c.p., certificata nei referti acquisti agli atti e non potendosi ravvisare, come invocato dalla difesa, una riqualificazione in reato colposo; é infatti emerso dal racconto della vittima che l'imputato le strinse la mano per non farle prendere il cellulare, nell'ambito di un'azione senz'altro volontaria.

Deve essere quindi affermala la penale responsabilità dell'imputalo per tutte le imputazioni ascritte, con la precisazione, quanto al capo 3), che il reato va riqualificato nell'ipotesi di cui al fari. 73 comma 5 D.p.r. 309/90, avuto riguardo al non elevato numero di cessioni riscontrate.
1 fatti così come accertati possono ritenersi in continuazione in ragione delle modalità di svolgimento a carico della stessa vittima nonché dell'analogo contesto spazio temporale in cui si sono verificati, chiara espressione di un medesimo disegno criminoso.
Per il buon comportamento processuale (acquisizione atti a vantaggio della speditezza del procedimento), possono riconoscersi le circostanze attenuanti generiche in misura prevalente rispetto alle aggravanti.
Visti pertanto tutti i criteri di cui all'art. 133 c.p.. appare congruo irrogare la pena di anni uno e mesi cinque di reclusione (p.b. per il reato più grave sub 1) anni due di reclusione, ridotta ex art. 62bis c.p. alla pena di anni uno e mesi 4 di reclusione aumentata per la continuazione con il reato sub 2) alla pena di anni uno e mesi 6 di reclusione c con il reato sub 3) alla pena finale) cui segue per legge la condanna al pagamento delle spese processuali.
I precedenti a carico del l'imputato ostano alla concessione di benefici.
Visti gli artt. 185 c.p., 538 e 540 c.p.p., dalla accertata responsabilità dell'imputato per i reali di cui all''imputazione, deriva la condanna al risarcimento del danno patrimoniale e non patrimoniale subito dalla parte civile da liquidarsi in separato giudizio civile non essendo provato nel suo preciso ammontare.
Tenuto conto del danno da stress patito dalla persona offesa nonché dell'entità della lesione subita, pare equo condannare il giudicabile al pagamento di una provvisionale ai sensi dell'art. 539 c.p.p. liquidata in Euro 5.000.00.
Consegue ai sensi del Tari. 541. comma 1 c.p.p.. la condanna dell'imputato al pagamento delle spese relative all'azione civile in favore della suindicata Parte Civile che liquida in euro 2.700.00 oltre rimborso spese generali. IVA e CPA nelle misure di legge.

All'udienza del 18.01.2019 il giudizio è pervenuto dinanzi allo scrivente giudicante e, chiusa l'istruttoria dibattimentale, le parti hanno concluso come da verbale di udienza. All'esito della Camera di Consiglio, questo Giudice ha pronunciato sentenza, dando lettura dell'infrascritto dispositivo, con deposito della motivazione riservato nel termine di trenta giorni.

MOTIVI DELLA DECISIONE

Alla luce di quanto emerso dall'istruttoria dibattimentale e dalle prove acquisite, si impone l'affermazione della penale responsabilità di T: C F in relazione al reato a lui ascritto e compiutamente
descritto in rubrica, commesso ai danni della convivente, L ' M C S
Alla stregua del compendio probatorio, costituito dalle dichiarazioni della persona offesa L M *C.*
S ■ e dalla documentazione acquisita (in particolare, dall'annotazione di servizio del 20.05.2016 e dal verbale di sommarie informazioni rese da R T: A' Oi il 06.09.2016) è dato pervenire alla seguente ricostruzione della vicenda sottoposta al vaglio dibattimentale.
L'imputato e la p.o. hanno iniziato a frequentarsi nel 2010, dopo poco tempo sono andati a vivere insieme e, il 2012, dalla loro relazione è nato un figlio.
Stando al racconto della p.o., la relazione tra i due è stata sin da subito litigiosa, soprattutto a causa dell'abituale consumo di alcool da parte del T Nell'aprile 2013, mal sopportando tale situazione, la p.o. è tornata nel suo Paese di origine insieme al figlio dove è rimasta fino al Novembre dello stesso anno quando, a causa di un intervento che il bambino avrebbe dovuto sostenere, ha fatto rientro in Italia, tornando a vivere con l'odierno imputato.
Nella deposizione resa, la p.o. ha confermato che il T he intanto continuava ad assumere alcool, era stato molto aggressivo nei suoi confronti nel periodo di cui all'imputazione.
La teste ha, infatti, precisato che, a partire dal Novembre 2015 per futili motivi, legati alla gelosia e al nervosismo, probabilmente legato al suo status di soggetto irregolare sul territorio italiano, l'imputato le urlava contro parolacce, quali ***"puttana",*** mentre lei restava in silenzio per non fare spaventare il figlio che spesso assisteva (cfr. verbale di trascrizione dell'udienza del 19.07.2018 p. 6 nella parte in cui la teste dichiara: *"'Anche (ine.)* ***urlava troppo, urlava troppo che io a volte mi spaventavo*** *perché veramente che lui,* ***aveva paura che lui voleva proprio picchiarmi,*** *dopo alla fine prima della denuncia 1 'ho fatto perché* ***mi tira un calcio"*** e ancora *"[...] ma* ***era contento di niente,*** *perché avevo il problema della documentazione che lui non è in regola e alla fine sempre era con quello, arrabbiato con se stesso immagino, per quello che..."... "Come io ho iniziato a lavorare lui, non lo so, in mente* ***credeva che io andava con un altro*** *non lo so").*
Le tensioni verbali sono sfociate anche in aggressioni fisiche perpetrate dal T nei confronti della convivente la quale, nella sua deposizione, ha sostanzialmente confermato i fatti di cui all'imputazione.
In particolare, la p.o. ha raccontato che l'imputato in un'occasione **le aveva tirato un calcio sulla gamba,** in un'altra occasione **le aveva dato un pugno sul braccio** e **l'aveva strattonata,** noncurante della presenza del figlio.
La teste ha inoltre descritto un ulteriore episodio, avvenuto nel **maggio 2016** in cui, dopo aver litigato con l'imputato, lei era andata a dormire insieme al figlio e, ad un certo punto, il T approfittando del buio, le aveva sferrato **un pugno sotto il mento,** spaventando sia lei che il bambino che, svegliato dalle urla di paura della madre, si era messo a piangere.

La donna ha specificato che le aggressioni verbali avvenivano spesso di notte, quando il bambino dormiva, ma ha, altresì, chiarito che l'imputato le urlava contro anche di giorno e lei stava zitta per evitare che il bambino si spaventasse e piangesse (cfr. verbale di trascrizione dell'udienza del 19.07.2018 p. 8 nella parte in cui la teste dichiara: "*... quando lui urlava, quando era bambino, io era zitta, perché preferirei che il bambino non si spaventa... "... "... anche dopo che ho fatto la denuncia il bambino non voglio vederlo il papà, aveva paura ").*
La p.o. ha raccontato che, il giorno successivo al fatto sopra descritto, aveva chiesto all'imputato di andare via da casa e, dopo aver incontrato il suo rifiuto, aveva chiamato la polizia e sporto denuncia. In quell'occasione, la teste ha precisato che il T , che aveva assistito alla telefonata in viva voce rivolta alle forze dell'ordine, l'aveva minacciata di portarle via il bambino.
Con riferimento a quest'ultimo episodio, dall'annotazione di servizio del 20.05.2016 in atti, risulta che gli agenti erano stati chiamati dalla p.o., la quale aveva chiesto il loro intervento a seguito di un diverbio intervenuto con l'ex compagno che, recatosi presso il suo domicilio per accompagnare il figlio minore prelevato dall'asilo, l'aveva insultata con *"vari epiteti"* per poi allontanarsi dall'abitazione.
Dopo tale accadimento, per un paio di mesi l'imputato e la p.o. non si erano più visti ma, successivamente, avevano ripreso ad avere contatti al solo fine di consentire al T che intanto aveva dichiarato di essersi pentito dell'accaduto - di vedere il bambino, al cui sostentamento aveva comunque continuato a contribuire, tanto da indurre nell'ottobre 2016 la p.o. a rimettere la denuncia querela precedentemente sporta.
Con riferimento allo stato di ubriachezza abituale del T la p.o. ha riferito che l'imputato era solito bere "5 *volte alla settimana, ogni tanto anche 4 [...]"* (cfr. verbale di trascrizione di udienza del 19.07.2018 p. 13), riferendo anche che *"No capitava che* ***veniva ubriaco*** *e se ne andava a dormire e basta, capitava però quasi sempre* ***veniva a urlare e a dirmi di tutto a me"*** (cfr. verbale di trascrizione di udienza del 19.07.2018 p. 13). Tale circostanza, unitamente a quella relativa alla presenza del figlio minore durante le aggressioni verbali subite dalla madre, trova conferma anche nel verbale di sommarie informazioni rese da R T A
O cugino dell'imputato, il quale, aveva riferito di essere a conoscenza del fatto che il T v la p.o. non vivevano più insieme *.perché* ***lui arrivava sempre a casa ubriaco*** *e drogato [...]* ***e la picchiava davanti al bambino"*** (cfr. verbale di sommarie informazioni rese da R T A O 1 6.09.2016).
Nelle dichiarazioni rese da A: 0 T ~ trova, altresì, riscontro la circostanza che l'imputato facesse uso abituale di alcool.
Ancora, nel verbale di sommarie informazioni rese da A O Ri T . quest'ultimo dichiarava di aver appreso sia dalla p.o., sia dal T stesso, delle loro liti violente, cui aveva anche personalmente assistito in un'occasione. Pur non avendo mai visto l'imputato picchiare la sua convivente, il teste ha tuttavia precisato di aver visto il cugino riportare graffi sulla faccia, sulle braccia e sul collo per cui aveva intuito che fossero "venuti alle mani".
Ciò posto, questo giudice ritiene pienamente attendibili le dichiarazioni rese dalla p.o. perché precise e concordanti con le altre risultanze processuali e, pertanto, intrinsecamente ed estrinsecamente coerenti. Né la condotta dell'imputato, rimasto assente, ha consentito di pervenire ad una diversa e alternativa ricostruzione dei fatti.
Come noto, le dichiarazioni della persona offesa possono essere legittimamente poste da sole a fondamento del l'affermazione di penale responsabilità dell'imputato, tanto più in casi come quello di specie in cui la p.o. non si è neppure costituita parte civile, dimostrando di non aver alcun interesse personale rispetto alla decisione.
In considerazione di quanto appena esposto, questo giudice ritiene che l'esame degli atti, utilizzabili per la decisione, consente di affermare la piena responsabilità dell'imputato per avere, nel periodo in contestazione, maltrattato la convivente, C S. L M anche in presenza del figlio minore, ingiuriandola con epiteti di vario genere, minacciandola di portarle via il figlio, aggredendola con pugni al volto e in altre parti del corpo, per futili motivi quali la gelosia.
Giova evidenziare che, alla luce delle emergenze processuali (in particolare dalle dichiarazioni rese dalla p.o. e dal verbale di SIT rese da A D Ri T) si ritiene altresì accertato che il reato è stato realizzato in stato di abituale ubriachezza come definito dall'art.94 c.p.
La peculiarità del caso impone solo di ricordare che integra gli estremi del reato di maltrattamenti in famiglia la condotta di chi, rientrando frequentemente nella dimora coniugale in stato di ubriachezza, sia solito offendere e ingiuriare la moglie, compiendo più atti di natura vessatoria, determinanti sofferenze fisiche o morali, realizzati in momenti successivi.

Come noto, il delitto di maltrattamenti in famiglia ha natura abituale e non presuppone necessariamente una continuità ininterrotta delle vessazioni, ben potendo, una relazione more uxorio, alternarsi a momenti di relativa tranquillità e pacificazione tra le parti. Dunque, l'intervallo di tempo fra una serie e l'altra di episodi lesivi non fa venire meno l'esistenza dell'illecito.
In punto di elemento soggettivo, il dolo del reato non richiede la rappresentazione e la programmazione di una pluralità di atti tali da cagionare sofferenze fisiche e morali alla vittima, in quanto è sufficiente la coscienza e la volontà di persistere in un'attività vessatoria, già posta in essere in precedenza, idonea a ledere la personalità della persona offesa.
La Suprema Corte di Cassazione ha, infatti, a più riprese chiarito che: "*... il dolo del delitto di maltrattamenti in famiglia non richiede la rappresentazione e la programmazione di una pluralità di atti tali da cagionare sofferenze fisiche e morali alla vittima, essendo, invece, sufficiente la coscienza e la volontà di persistere in un'attività vessatoria, già posta in essere in precedenza, idonea a ledere la personalità della vittima medesima (Sez. 6, Sentenza n. 25183 del 19/06/2012, rv. 253042). Non occorre, in altre parole, che l'agente deliberi una volta per tutte di imporre ai familiari un penoso regime di vita, e concepisca unitariamente le proprie condotte*

*in senso strumentale alla realizzazione di quell'obiettivo, essendo piuttosto sufficiente che le condotte vessatorie siano tenute nella consapevolezza del loro carattere ripetuto, e della loro idoneità a creare una stabile e dolorosa patologia della vita familiare (Sez. 6, Sentenza n. 15146 del 19/03/2014, rv. 259677)"*Cass. pen. Sez. VI, Sent., (ud. 22/10/2014) 14-01-2015, n. 1400.

Ed inoltre, ve evidenziato come la circostanza che i singoli episodi, costituenti nel loro complesso la condotta criminosa, siano commessi durante lo stato di abituale ubriachezza è circostanza aggravante e non esclude il dolo.

Ancora, va osservato che la Suprema Corte di Cassazione, in una recente pronuncia, ha enunciato il seguente principio, condiviso da questo giudicante e estensibile al caso in esame, nella parte in cui ha chiarito che: *"Nel reato di cui all'art. 572 c.p. che maturi all'interno di una relazione di coppia il carattere di sistematica vessazione e sopraffazione della personalità della vittima può essere integrato anche da condotte che si configurino quali reazione ad altre che attribuite al coniuge, persona offesa, vengano intese dall'imputato come violative delle regole proprie della convivenza coniugale là dove la reazione sconfini in comportamenti che per pregiudizi arrecati e loro frequenza integrino il reato di maltrattamenti in famiglia. "* Cass. pen. Sez. VI, Sent., (ud. 30-05-2018) 06-07-2018, n. 30745

Facendo applicazione del suddetto principio al caso di specie emerge chiaramente che le condotte tenute dall'imputato, sebbene fossero inserite in un contesto familiare difficile, integrano la fattispecie di reato di cui questi è chiamato a rispondere.

Infatti, la condotta dell'imputato, con il superamento della tollerabile convivenza (che successivamente ha indotto la p.o. ad allontanarlo da casa), deve essere letta come l'espressione di una volontà di creare un clima di sopraffazione, offendendo la p.o., ingiuriandola e aggredendola sia verbalmente sia fisicamente, attraverso l'adozione di comportamenti sconfinanti nel reato di maltrattamenti.

L'imputato, infatti, beveva con frequenza e in modo eccessivo, pur sapendo che quel suo bere avrebbe provocato comportamenti che rendevano dolorosa e intollerabile per la moglie la loro relazione.

Risulta quindi concretizzato il reato di cui alfart. 572 c.p..

Ricorre l'aggravante di cui all'art.94 c.p. giacché il reato è stato commesso con condotte reiterate nel tempo, sovente mentre si trovava in stato di ubriachezza, conseguenza, dell'abituale abuso di sostanze alcoliche.

Sussiste altresì l'aggravante di cui all'art. 61 n. 11 quinquies c.p. giacché le condotte violente si sono verificate in casa, spesso mentre il figlio era presente e se il più delle volte dormiva e sembrava che non si potesse rendere conto di nulla, in realtà, è emerso che per il comportamento alterato del padre, si svegliava e piangeva, percependo ciò che stava succedendo.

Secondo la giurisprudenza della Corte di Cassazione, d'altronde *"La circostanza aggravante dell'essere stato il delitto commesso alla presenza del minore nelle ipotesi previste dall'art. 61 n. 11 quinquies cod. pen., è configurabile tutte le volte che il minore degli anni diciotto percepisca la commissione del reato, anche quando la sua presenza non sia visibile all'autore di questo, sempre che l'agente, tuttavia, ne abbia la consapevolezza ovvero avrebbe dovuto averla usando l'ordinaria diligenza."'* (Cass. Pen. Sez. 1,2/3/2017 n. 12328)

Dunque sono state correttamente contestate le aggravanti dell'aver commesso il fatto in presenza di minori di anni 18 e per futili motivi (quali la gelosia), nonché la recidiva (essendo già stato l'imputato destinatario di una sentenza ex art. 444 c.p. per furto tentato continuato, divenuta irrevocabile il 16.12.2007 e dimostrando una pervicacia nel delinquere).

Ciò nondimeno, questo giudicante non può esimersi dal prendere in dovuta considerazione il ristretto arco temporale della condotta maltrattante, nonché il successivo comportamento dell'imputato il quale, stando ai racconti della p.o., ha posto fine al comportamento contestato, instaurando un discreto rapporto sia con l'ex convivente, sia con il figlio.

Pertanto, anche al fine di adeguare la pena al caso concreto e mitigare gli effetti delle ritenute circostanze aggravanti, possono essere riconosciute in favore dell'imputato le attenuanti di cui all'articolo 62 bis c.p. che possono essere considerate prevalenti sulla contestate aggravanti.

Tenuto conto dei parametri di cui all'articolo 133 c.p., appare congrua, dunque, la pena di anni 1 e mesi 4 di reclusione, determinata partendo da una pena base pari a 2 anni di reclusione (corrispondente al minimo edittale) poi ridotta, in virtù del riconoscimento delle attenuanti generiche come prevalenti sulle contestate aggravanti, a 1 anno e 4 mesi di reclusione.

Ai sensi dell'articolo 535 c.p.p. a tale condanna consegue quella al pagamento delle spese processuali.

Sussistono, peraltro, le condizioni per riconoscere all'imputato il beneficio della sospensione condizionale della pena, nonché quello della non menzione della presente condanna nel certificato del Casellario Giudiziale. Ai sensi dell'articolo 544, comma 3, c.p.p., si fissa in 30 giorni il termine per il deposito della motivazione in considerazione del carico del ruolo e del concomitante impegno di questo giudice nella trattazione di procedimenti con imputati sottoposti a misure cautelari che impongono una più celere trattazione.

Nel corso dell'istruttoria sono stati acquisiti diversi documenti, che saranno di volta in volta richiamati nello sviluppo della presente motivazione. Sono state acquisite con il consenso delle parti delle annotazioni di’ p.g., il verbali dì s.i.-t. della persona verbale di interrogatorio dell'imputato, dei quali si riferirà- I testi non escussi sono stati oggetto di rinuncia delle parti e di revoca del Tribunale.

Si dà atto che la prima udienza è stata presieduta dalla dott.ssa Maria Greca Zoncu, mentre le udienze successive dal dott. Marco Montanari, davanti al quale si è svolta Tiritera attività istruttoria.

2. Fatto e diritto.

— - L'istruttoria dibattimentale non ha consentito di accertare la contestazione cristallizzata nel capo di-imputazione.

In primo luogo, la persona offesa ha integralmente ritrattato ogni dichiarazione accusatoria rilasciata in fase di indagine nei confronti dell'imputato, sostenendo di essersi "*pentita subito*" di aver denunciato il marito, di essere stata "*istigata*" dagli operanti nel momento della denuncia e che le sue dichiarazioni sono state "*riportate in modo esagerato*"[1].

In particolare, la A ha platealmente negato di essere mai stata percossa dall'imputato e che le uniche aggressioni da lei subite furono provocate dai vicini di casa (tali T C e, forse, S G o M. G) che, mentre era in stato di gravidanza, la percossero brutalmente a causa di un banale litigio condominiale. La persona offesa ha poi negato di essere mai stata umiliata, minacciata o ingiuriata. Ha quindi negato di essere mai stata tempestata di telefonate o controllata o limitata nei movimenti, a causa di eccessi di gelosia dell'imputato (al più, il M le "*consigliava*"[1] di tornare a casa entro mezzanotte). La A. ha negato anche che l'imputato sfogasse la sua rabbia danneggiando suppellettili *("non è che li ha buttati in terra, gli sono caduti in terra"*[2]*).*

Quanto ai numerosissimi referti medici in atti riportanti lesioni subite dalla A , la stessa ha spiegato che esse furono provocate da vicini o da banali incidenti domestici[3]. Quanto invece alla fotografia acquisita, raffigurante una escoriazione sullo stinco della persona offesa, scattata in data 27.01.2017, quest'ultima ha chiarito che se la procurò fortuitamente, mentre "*stava scherzando*" con il marito[4].

Il marito non la chiuse mai in casa: una volta si "*dimenticò*" di lei e la chiuse in casa, "*come un uomo normale, quando va al lavoro*"[5].

La persona offesa ha descritto come sostanzialmente idilliaco il suo attuale rapporto con il marito *("in casa nostra c'è amore, c'è regole, c'è organizzazione"*[6]*)* ed ha affermato che in passato tra i due vi furono solamente dei normali litigi e che "*magari gli è volata, una sberla, da parte mia*"[7]*.* Ad ogni modo, nessuno dei litigi avvenne mai alla presenza della figlia.

La A ha quindi apostrofato come una "*supertroia*" B A G , rea - a suo dire - di averci "*provato con mio marito*"[8].

In sede si s.i.t. rese in data 15.02.2017, la persona offesa ha dichiarato di non volere più procedere penalmente nei confronti del marito[9].

B L , amica della persona offesa, modificando le dichiarazioni rese in sede di s.i.t., ha negato di aver mai visto la A essere percossa, minacciata o ingiuriata dal M , così come ha negato di aver mai visto la donna con segni di percosse sul corpo. In una sola occasione vide un "*mini livido*"[10] sulla gamba e un "*lividino*"[11]sul torace o sul braccio della A . Probabilmente, uno di questi lividi fu causato -

non da una percossa - ma dal fatto che l'imputato afferrò la persona offesa per un braccio.

Là tèste ha spiegato che il 31.01’2017 ospitò a casa sua la A "*perché era sera! Non avevo ravvisato nessuna situazione di* perzco/o"[12], anche se la vide spaventata a causa di una ' non mèglio descritta condotta del Mi

La R ha confermato che la A. le confidò che in passato fu aggredita dai vicini di casa. $

Anche RAG , altra amica della persona offesa (con la quale non è più in buoni rapporti), ha negato di aver mai ricevuto confidenze da parte della A. su possibili maltrattamenti da lei subiti da parte del Mi *("c'erano dei battibecchi magari"*[13] u). Non vide nemmeno lividi sul corpo della persona offesa. La testé ha solamente riferito che vide personalmente in una occasione l'imputato tirare uno schiaffo alla A a seguito da un normale diverbio. La teste ha negato di aver saputo... che quest'ultimo chiudesse in casa la moglie per impedirle di uscire.. ..

L'imputato, sottopostosi ad esame[14], ha integralmente respinto le accuse a lui mosse. In particolare, il -M solamente in relazione all'episodio della fotografia scattata in data 27.01.2017 la colpì con un calcio "*giocando*" [15], mentre si rincorrevano intorno al tavolo. Allo stesso modo, ha negato di aver mai giurato o minacciato la persona offesa, così come ha negato di averla mai chiusa in casa

L'uomo ha sostenuto, che la A ;fu spinta dai genitori a

quanto non veniva da loro stimato (addirittura, la persona offesa sarebbe stata "*stalkerizzata*"[16] dal padre per convincerla a denunciarlo). In particolare, erano tesi i rapporti proprio tra lui e il padre della persona offesa,- if quale lo percosse anche con un pugnò in una occasione nel 2016. Il I lo denunciò. Il genitore della A avrebbe à
tal riguardo offerto dei soldi perche l'imputato ritirasse la denuncia presentata. Il M .....
ha poi dichiarato che la moglie gli disse che i Carabinieri avevano travisato il suo racconto nella denuncia sporta nei suoi confronti.

Quanto alle lesioni accertate nei referti medici, l'imputato ha spiegato che in una occasione un signore di. circa 1ÒÓ kg cadde addossò alla A; J méntre questa
svolgeva l'attività di infermiera: in ospedale è in almeno due altre occasioni la donna sh- lesionò a causa di sinistri stradali.

M Si , padre dell'imputato, ha negato che il figlio maltrattò mai la moglie e ha riferito che li padre della donna gli fece pressioni per convincere l'imputato a ritirare la denuncia presentata- a seguito dell'aggressione .subita, proprio da. A G:

Dalle annotazioni di p.g. acquisite con il consenso delle parti non emerge alcun elemento utile alla ricostruzione dei fatti, se non che nel febbraio 2017 la A iniziò
ad accusare i Carabinieri di aver travisato i fatti da lei narrati[17].

Tanto premesso, deve ritenersi che non vi siano elementi sufficienti per ritenere provata la responsabilità penale dell'imputato. Indubbiamente i numerosissimi referti medici della persona offesa presenti in atti (riportanti date compatibili con gli episodi di aggressione descritti nel capo di imputazione) e la sconcertante testimonianza della persona offesa - la quale ha evidentemente tentato in ogni modo di difendere il marito - gettano una inquietante ombra sulla ricostruzione dei fatti. Tuttavia - considerata l'inutilizzabilità della denuncia e dei verbali di s.i.t. ai fini della prova del fatto, considerata la totale assenza di riscontri da parte dei testi , i quali hanno escluso o
minimizzato grandemente i fatti contestati, arrivando a riferire al più di aver visto due isolati piccoli lividi sul corpo della persona offesa, senza specificare chiaramente in che modo gli stessi furono provocati ~ non può che pronunciarsi sentenza di assoluzione *ex* art. 530 co. 2 c.p.p. perché non è stata raggiunta la prova circa la sussistenza dei fatti.

Tale valutazione non può essere scalfita nemmeno dalla testimonianza resa da A G e da O O (genitori della persona offesa). Il primo ha infatti
affermato di aver ricevuto dalla figlia confidenze su maltrattamenti subiti dal M' . e, in particolare, su percosse patite. Tuttavia, il teste ha altresì chiarito di non aver mai visto personalmente condotte aggressive dell'imputato ai danni della figlia e di essersi creato il convincimento che quest'ultima venisse maltrattata solamente in virtù delle confidenze da lei ricevute e attraverso la lettura della denuncia da lei presentata. Il teste non assistette nemmeno a litigi tra i coniugi, così come non vide mai il M ingiuriare o minacciare la figlia. Pertanto, la testimonianza di A G' risulta essere totalmente *de*
relato, inidonea a provare il fatto, in assenza di qualunque conferma da parte della teste diretta, A M . Inoltre, l'A ha confermato di aver colpito con un
pugno il M , sebbene abbia riferito di essere stato a sua volta da quest'ultimo aggredito. Tale circostanza - unitamente al fatto che il teste ha confermato che effettivamente vi fu un pesante litigio tra la figlia e i vicini di casa - conferma almeno in parte le dichiarazioni della persona offesa.

Anche la testimonianza della O , sostanzialmente convergente rispetto a quella
del marito, risulta essere meramente *de relato* e, pertanto, priva di autonoma efficacia probatoria. La teste ha solamente aggiunto di aver personalmente visto la figlia con un livido sul polpaccio, ma non è stata in grado di riferire come la stessa se lo procurò. La O udì personalmente una minaccia pronunciata dal M contro la
A *: "Se mi tocchi ancora ti spacco le gambe"*[18]. Si tratta tuttavia di una minaccia che
- anche a seguito di derubricazione del fatto -- non risulterebbe punibile in virtù della remissione di querela avvenuta in sede di verbale di s.i.t. del 15.02.2017. Anche la O ha confermato che si verificò una lite tra la figlia e i vicini di casa.
'' • ' " ; Pertanto, ' alla luce di tali considerazioni non può che ribadirsi, così come richiesto da tutte le parti, la necessità di assolvere l'imputato *ex* art. 530 co. 2 c.p.p., non essendo stata raggiunta la prova dei fatti.

Il carico di lavoro cui questo Giudice è sottoposto impone la fissazione del termine di 60 giorni per il deposito della motivazione della sentenza.

Verificata la regolare costituzione delle parti, all'udienza del 20 novembre 2017 venivano ammesse le prove richieste dalle parti e l'istruttoria aveva inizio all'udienza del 21 maggio 2018 con l'esame dei testimoni del Pubblico Ministero (la persona offesa S R il Carabiniere S G , D R $_8$, M R) e di Parte Civile (C S). Per l'adesione del difensore dell'imputato all'astensione dalle udienze l'udienza del 25 giugno 2018 veniva rinviata al 19 novembre, quando venivano escussi i testi di Parte Civile (S Z e L V G) e della Difesa (M F C ' e F Pi i. Il 12 dicembre l'imputato si sottoponeva ad esame e all'esito, dichiarata chiusa l'istruttoria, le parti rassegnavano le rispettive conclusioni come riportate in epigrafe e il Giudice, all'odierna udienza, dava lettura del dispositivo della sentenza di seguito motivata.

L'odierno processo origina dall'intervento effettuato dai Carabinieri il 2 settembre 2016 presso l'abitazione della persona offesa, che veniva sentita in dibattimento.

S P dichiarava di conoscere il P da molti anni ma di aver intensificato la frequentazione con l'uomo iniziando ad avere con lo stesso una relazione sentimentale nel luglio del 2014, dopo averlo rivisto in occasione del funerale del suo primo marito. La donna dichiarava che da quel momento i due prendevano a sentirsi più frequentemente e a stare insieme, tanto che nell'ottobre del 2014, quando la stessa veniva operata per una ernia del disco, passava a casa dell'imputato il periodo della convalescenza, lasciando la figlia (avuta nel 2000 con il secondo marito da cui era ormai separata) a casa del padre. La P dichiarava che tra il novembre del 2014 e il gennaio del 2015 (quando veniva nuovamente operata per l'ernia del disco) trascorreva alcuni fine settimana a casa dell'uomo, di cui si diceva molto innamorata. In questo periodo però notava che il P riceveva vari messaggi da altre donne, con cui lo stesso aveva avuto delle relazioni, e dal testo dei messaggi intuiva che il P: stava portando avanti tali frequentazioni nonostante il suo rapporto con la R ciò faceva ingelosire la persona offesa, la quale più volte, arrabbiata per tali messaggi, diceva al P che intendeva porre fine alla loro relazione visto l'atteggiamento dell'uomo.

A queste rimostranze della donna il P reagiva con molta violenza: la R infatti riferiva che in una occasione, quando la stessa era ancora convalescente dopo la prima operazione, l'uomo la scaraventava per terra nel corridoio di casa e la lasciava lì.

La teste precisava che durante queste discussioni era lei a dire al P di volerlo lasciare, ma a volte anche l'uomo le rappresentava di essere stanco della situazione e di voler chiudere il rapporto. In ogni caso la R dichiarava che, dopo brevi periodi di separazione, tornavano sempre insieme e a quel punto il rapporto andava bene per qualche giorno, ma poi ritornavano a litigare per i soliti motivi e con le solite modalità.

La donna precisava che i messaggi che davano origine a queste discussioni, che a volte venivano cancellati dall'uomo davanti a lei per impedirle di leggerli, erano inequivoci in quanto contenevano foto di parti intime di altre donne o frasi quali *""lascia a casa G< ? facciamoci noi una serata",* riferiva infatti che le amiche del P chiamavano la R "G perché, come il personaggio dell'ispettore G indagava per scoprire le relazioni nascoste dell'uomo.

La teste aveva anche letto le risposte del F questi messaggi, vedendo che l'uomo rideva di tali frasi, irridendo la R on le sue amiche.

Di tali dettagli, ovvero che la donna venisse soprannominata in tal modo dall'imputato e che si sentisse oggetto di scherno da parte delle amiche dell'uomo, vi è conferma nei messaggi scambiati tra il P e la F nella chat Whatsapp, che veniva acquisita.

Nei primi messaggi del 18 gennaio 2016, infatti, l'imputato scriveva (alle 10:40) *""essere te stessa (non la prendere come offesa) vuol dire fare gc ' e io sai benissimo che non sopporto essere oggetto di controllo"* e la donna rispondeva "wz *spiace ma proprio il modo di dirmi anzi non dirmi le cose mi faceva fare domande, lo non mi sento g< ' e poi veramente smettila. Ogni volta che sento questo nome mi viene su la rabbia (...) anche lì messa in disparte e schernita (...) a chiunque hai permesso di prendermi in giro e io questo non te lo posso perdonare".*

La persona offesa dichiarava tuttavia che anche l'uomo era geloso di lei e citava come esempio un episodio avvenuto nell'estate del 2015, quando durante una cena con amici a casa del P 'uomo si innervosiva perché un suo amico si offriva di aiutare la donna con l'auto e aveva inizio una discussione tra i due, all'esito della quale la donna decideva di andare via. Uscita per strada si ricordava di dover recuperare alcuni oggetti della figlia che aveva portato con sé a casa del P e, citofonando, gli chiedeva di darle la borsa della figlia. L'uomo si rifiutava e, all'insistenza della donna, la bagnava con la canna dell'acqua che aveva nel giardino davanti agli amici increduli.

A settembre 2015 i due si recavano alla festa della figlia di un'amica del P , Fi
P Durante la serata si verificava una discussione tra i due perché il P accusava la donna di aver fatto sparire dalla sua borsa una busta, all'interno della quale l'uomo aveva messo dei soldi da regalare alla festeggiata. La R , che dichiarava di non sapere nulla neanche del fatto che il P vesse preparato tale busta, iniziava a litigare con l'uomo, perché questo accusava lei o la figlia di aver fatto sparire i soldi. Durante la festa quindi i due si dimostravano arrabbiati, cosa che veniva notata anche dagli altri partecipanti. La 1 poi, che rappresentava di non poter bere il limoncello dopo il vino perché altrimenti stava male, quella sera, avendo bevuto, si sentiva male e a un certo punto chiedeva al P di accompagnarla a casa, ma l'uomo si rifiutava di farlo perché non voleva rovinarsi la serata. Mentre il gruppo di amici si recava al termine della festa presso una focacceria, la donna chiedeva al P di fermare l'auto e accostare perché sentiva di dover rimettere, ma l'uomo si rifiutava di farlo e guidava ad alta velocità, dicendole che se doveva vomitare avrebbe potuto farlo dentro la sua borsa, facendo attenzione a non sporcare l'auto, perché altrimenti l'avrebbe picchiata. La donna, che stava male, così faceva, alla presenza della figlia che sul sedile posteriore osservava la scena terrorizzata. Si fermavano poi vicino ad una focacceria con gli altri amici presenti alla festa e a quel punto anche due amiche del P , che notavano le condizioni in cui si trovava la R suggerivano all'uomo di portarla a casa e nasceva tra loro una accesa conversazione. Alla fine queste due donne le dicevano di salire sulla loro auto con la figlia e la riaccompagnavano a casa.

11 giorno dopo la R sentiva il P il quale le diceva che la violenza e le botte si verificavano solo per colpa degli atteggiamenti della donna, che quindi se le meritava.

Proseguendo, la R 'feriva di un altro episodio particolare verificatosi nel novembre 2015, quando i due andavano a pranzare in un ristorante sito in una zona di montagna. Al ritorno in auto la donna chiedeva all'uomo di mostrarle le foto che avevano scattato con il cellulare e scorrendo la libreria fotografica vedeva anche la foto di una donna nuda, ripresa nelle parti intime; alla richiesta di spiegazioni della donna il P e diceva che era un fotogramma preso da internet e non una foto mandatagli da un'altra donna, ma la R non gli credeva e iniziavano a litigare perché la donna gli rappresentava di sentirsi presa in giro da lui e gli diceva di voler porre fine al rapporto. Durante la discussione l'uomo le diceva di scendere dall'auto, nonostante si trovassero in autostrada, accostava rallentando, le apriva lo sportello e le tirava una gomitata sul fianco sinistro facendole mancare il respiro. Alle lamentele della donna, che rimaneva piegata in due *e* non riusciva a parlare per il dolore, il P continuava ad insultarla dicendole che faceva *"sceneggiate da napoletana" e* dicendole che si meritava quel trattamento perché rovinava sempre le giornate. Quando arrivavano a casa la donna si recava al Pronto Soccorso dell'Ospedale li Milano,
raccontava ai sanitari di essere caduta in montagna aggrappandosi ad un ramo, e te diagnosticavano la rottura di una costola e lo spostamento di una vertebra.

A riscontro veniva prodotto il certificato rilasciato dall'Ospedale il 15 novembre
2015 alle ore 18:56 alla F , che giungeva riferendo di una *"caduta accidentale",* per la quale le diagnosticavano *"contusioni da sedi multiple - contusione emitorace sx e minimo avvallamento limitante somatica superiore di D7"*, rilasciandole una prognosi di trenta giorni e prescrivendole, oltre all'assunzione di farmaci, l'uso di un busto.

Di tale episodio vi è peraltro pieno riscontro nella chat acquisita.

Il 19 gennaio 2016 alle ore 17:37, durante una discussione, la F scriveva all'imputato: *"Se fossi stata furba me la sarei giocata diversamente ...Avrei ottenuto ben altro...Non botte e corna...Dov'è la mia furbizia cosa ho ottenuto da te? Gioielli? Macchine? Case? Viaggi? Cosa? Magari ossa rotte lividi pianti terrore ...Questo è la persona furba e falsa... Queste due parole mi fanno male più di quella botta presa in macchina...Tanto da non riuscivo a respirare...Ma fingevo... e a casa non contento hai infierito ancora perché facevo ulteriormente scene".*

E il caso di evidenziare come a tale messaggio il P ' replicava negando di averla tradita (con l'eccezione di una relazione avuta con tale M .), ma non negava di averla colpita in macchina.

Peraltro che la causa del litigio fosse la fotografia citata dalla F emerge da altro passaggio della chat. Il 21 marzo 2016 alle ore 17:14, durante l'ennesima discussione, la R scriveva: *"Grazie per non farmi più del male fisico e psicologico ...grazie perché almeno non verrò più umiliata da te e da tutte le persone che ti circondano... un ultima cosa...la foto della figa della liz di questa estate ...avrei dovuto mollare in quel momento (...) hai cancellato le chat perché lì c 'era scritto del vostro rapporto ...peccato che la foto ti è rimasta".*

In ogni caso, dopo questo episodio la donna acquistava il busto con il P proseguendo la relazione sentimentale con l'imputato.

A marzo 2016 i due andavano in vacanza a M 2ultimo giorno di vacanza pranzavano fuori bevendo del vino e un limoncello che provocavano alla donna un mal di stomaco; dopo pranzo la R si sentiva male, rimetteva durante il viaggio di ritorno dal ristorante e i due andavano in spiaggia per far sì che si riprendesse. Poiché la donna continuava a stare male tornavano in camera in albergo e lì avevano una nuova discussione perché la R si arrabbiava per il fatto che il P nvece di accudirla rimaneva sul balcone a fotografare il tramonto. Anche in questo caso la banale lite originava una violenta e sproporzionata reazione dell'uomo, che prendeva la R ' 'a sollevava dal letto e la trascinava in bagno facendola prima sbattere contro lo stipite della porta e poi scaraventandola nella vasca dove le versava addosso getti alternati di acqua calda e fredda, dicendole che aveva *"rotto i coglioni".* La R cercava di tirarsi su, ma lui la spingeva facendola urtare contro il bordo della vasca e procurandole anche in questo caso la rottura delle costole sul lato destro del torace. La donna dichiarava che i due si recavano in Ospedale a dove però non le rilasciavano alcun referto ma le riscontravano la rottura di una costola; rientrati in Italia, dopo qualche tempo (5 aprile 2016) la donna andava all'Ospedale di R perché stava ancora male e le dicevano che doveva essere operata alla colecisti, riscontrandole in quell'occasione una (precedente) rottura delle costole.

La R che rappresentava di non aver mai perso i sensi durante quel pomeriggio, dichiarava che il P dopo tale episodio le diceva che si era messa a correre nuda per i corridoi dell'albergo e che lui l'aveva dovuta fermare. La donna però gli diceva di ricordare esattamente cosa fosse successo e che non era andata cosi come diceva l'uomo, al quale a riprova chiedeva di andare a vedere i filmati delle telecamere dell'albergo, cosa che però poi non facevano.

A riscontro delle lesioni riportate in tale occasione si acquisiva il referto dell'Ospedale di R del 5 aprile 2016, con cui veniva riscontrata alla donna una colecistite acuta. Dal referto risulta quale anamnesi che *"la paziente tre settimane fa a M cadeva accidentalmente e riportava frattura della 5 costa dx"* ed effettivamente, all'esito di ecografia dell'emitorace destro, veniva appurata la presenza di *"fratture scomposte dell'arco posteriore della VII a Vili costa".*

Si acquisiva altresì la stampa di cinque fotografie, raffiguranti un taglio al labbro e lividi sulle gambe e sulle braccia della donna.

La teste dichiarava di avere scattato tali fotografie con il proprio cellulare subito dopo questo episodio e di averle successivamente inviate al P via Whatsapp il 4 aprile 2016 nel corso di altra discussione.

Poiché nella trascrizione della chat prodotta quelle che la teste rappresentava essere le fotografie in parola, inviate al P venivano indicate con la dicitura *"media omesso",* la R in aula esibiva la chat in originale, ancora memorizzata nel proprio cellulare, mettendola a disposizione delle parti e del giudice, che ne accertavano la corrispondenza con la trascrizione e le fotografie prodotte.

Il 4 aprile 2016 alle ore 20:51 la R scriveva: *"I coglioni li tiri fuori solo per picchiarmi senza alcuna pietà ma per ammettere non li hai sei grande ...grosso. Ma ti mancano per affrontare una donna di 50 kg".* Alle ore 21:18 mandava le cinque fotografie e continuava: *"Questo è amore ...questo è avere i coglioni. Ma io me lo sono meritato come tutte le altre volte. Sai perché l'ho tenute? Per ricordarmi la persona che amo e che dice di amarmi".*

Tale scambio di messaggi, peraltro, trovava origine in un altro litigio che si verificava in Ospedale, mentre la R vi si trovava ricoverata, e che si concludeva con l'ennesima aggressione fisica da parte del I 1

La teste riferiva infatti che i due scendevano nel parcheggio dell'Ospedale per fumare una sigaretta e durante la conversazione, che verteva sul tema dei tradimenti, il P le diceva *"comunque sappi che non è che ti ho tradito quelle volte che tu pensi, ma ti ho tradito ancora molto prima"-,* allora la donna si arrabbiava e gli urlava di voler chiudere il rapporto, apriva la portiera dell'auto per andare via e l'uomo la bloccava mettendole le mani al collo.

Poiché quel giorno doveva recarsi in Ospedale a fare visita alla R una sua amica, S il P ooi si fermava e non proseguiva nell'aggressione. I due si calmavano e sopraggiungeva l'amica, che notava l'agitazione della R tanto da chiederle spiegazioni, ma la

persona offesa cercava di dirle che andava tutto bene.

Quando l'amica andava via dall'ospedale i due continuavano la conversazione interrotta in precedenza, scendendo nuovamente nel parcheggio, dove la donna diceva al P' ' he non potevano proseguire la relazione e l'imputato, innervositosi, le metteva la mano sulla bocca ferendola e facendole sanguinare il labbro. La R tornava ferita e in lacrime in stanza e raccontava quanto accadutole alla vicina di stanza e ad un operatore socio sanitario. Quella sera scriveva un messaggio al I dicendogli che non poteva farle sempre del male se davvero la amava. Da quel periodo non si vedevano per un po' di tempo, ma alla fine tornavano ancora insieme.

Anche di queste due aggressioni avvenute in Ospedale vi è ampia riprova nella chat.

Il 7 aprile 2016 alle ore 21:26 la R scriveva al P "*esce il sangue dal naso e dal labbro ...adesso avviso di non farli più entrare ...hai avuto il coraggio di mettermi le mani addosso pure in ospedale e nelle condizioni in cui sono...e con la flebo...sfammi lontano perché tu un giorno arriverai ad uccidermi".*

Il P' ' ammettendo l'episodio, rispondeva dicendo ' *Si tu hai continuato a fare la stronzo a cercare la discussione (...) scusa per averti stretto (...) mi rispondi per favore"* e la R *"Ormai non riesci a controllare la tua rabbia. Mi dispiace ma ormai ho troppa paura di te".*

Il P a questo punto rispondeva: *"La mia rabbia la gestisci te perché dovrei farlo io"* e la R ribadiva: *"Ogni volta che mi tocchi mi fai del male (...) nel corridoio mi hai stretto talmente forte il naso e il labbro per chiedere aiuto da farmi uscire sangue. Non riesci a gestire la rabbia di quando vieni scoperto".* Il F replicava: *"io non ho proprio voglia di toccarti in quel modo. Ma te fai e crei i modi",* addossando in tal modo alla R la colpa di quanto accaduto, che quindi non negava.

E ancora, 1'11 aprile 2016 alle ore 15:18 la R scriveva: *"non ho più nessuna intenzione di prendere ancora insulti di finire in ospedale con fratture alle costole o labbra rotte per te... ho visto la tua reazione l'altra sera nel corridoio dell'Ospedale ...nonostante ci fossero le telecamere e gente non ti sei risparmiato ...e poi per cosa? Perché rivolevo le mie chiavi di casa...".*

Anche l'episodio verificatosi in macchina veniva ripreso in un altro passaggio della chat.

Il 17 aprile 2016 alle ore 23:27 la R scriveva: *"io ti ho perdonato troppe volte per amor e... ma purtroppo questa volta non posso proprio farcela...al di là delle tue menzogne che mi hanno ancora una volta ferita mi hai ancora una volta fatto del male fisico...non hai avuto pietà...nonostante io non respirassi più e tiravo calci alla macchina hai continuato a stringere il mio collo...nessuna pietà nemmeno adesso che sono in ospedale (...) ho una figlia e voglio vederla crescere...voglio vivere...e so che un giorno tu preso dalla rabbia mi farai smettere di vivere".* Anche in questo caso il P ton smentiva la vicenda, riversando ancora la colpa sulla donna, alla quale rispondeva *"tu non sai amare perché il tuo amore e odio e continua ricerca di qualcosa per discutere per creare rabbia e nervoso nella persona che ti sta di fianco".*

Dalla lettura della chat emerge quanto riferito dalla donna, ovvero che nonostante i gravi episodi e i reiterati litigi i due sistematicamente riprendevano a frequentarsi.

Il 14 maggio 2016 facevano una gita in moto andando a pranzare fuori. Durante il pranzo la R chiedeva al I li portarla in un ristorante in cui l'uomo era già stato con una sua precedente compagna e questi si arrabbiava e prendeva ad insultarla, dicendole *"fai proprio schifo; sei una donna di merda";* a quel punto la P si alzava da tavola e usciva fuori. Raggiunta dal P l'uomo le diceva che sarebbe tornata a casa a piedi da sola, le prendeva il giubbino di pelle e ci passava sopra con la moto. Quando la donna si allontanava, l'uomo la recuperava dicendole *"adesso sali in moto sennò ti faccio vedere io";* quindi la R saliva sulla moto e l'uomo iniziava a guidare ad elevata velocità percorrendo strade sterrate. A un certo punto si fermava per insultarla *("troia, puttana");* poi riprendeva la marcia e, nonostante la richiesta della donna di andare piano perché aveva paura, guidava a forte velocità e le tirava testate con il casco. Alla prima curva la donna, con l'intento di uscire in qualche modo da una simile situazione, si lanciava giù dalla moto, ma il P i fermava e le diceva che *"se voleva farmi qualcosa, me l'avrebbe fatto lui";*

allora la faceva risalire a bordo della moto, la conduceva su strade sterrate guidando a forte velocità, tanto che la I cadeva per tre volte dalla moto, che scivolava sull'asfalto e alla fine le andava a schiacciare la caviglia. A quel punto la R non riusciva più a rimettersi in piedi ma il P non lo capiva e la insultava; tornati finalmente a casa e visto in che stato era la caviglia della donna, nel frattempo gonfiatasi, il P : diceva *"guarda non pensavo che era così, insomma che ti eri fatta veramente così male"'.* Il giorno dopo la donna, che non riusciva a poggiare il piede, si faceva accompagnare da alcuni amici all'Ospedale o, dove diceva di essere caduta dalla moto
senza spiegare le modalità, e le riscontravano la rottura della caviglia.

Anche con riferimento a tale episodio si acquisiva il certificato dell'Ospedale lei
15 maggio 2016, attestante che la donna vi faceva accesso riferendo di essere caduta accidentalmente dalla moto il giorno prima. I sanitari riscontravano *"fratture profilo articolare anteriore distale della tibia destra",* procedevano all'ingessatura dell'arto e le rilasciavano una prognosi iniziale di venti giorni, cui facevano seguito altri controlli fino al 12 agosto 2016.

Dopo tale episodio seguiva altra discussione in chat.

La R dopo aver informato nella mattina il P del piede fratturato e dei venti giorni di prognosi, nel pomeriggio gli scriveva: *"la cosa peggiore è che tu neppure ti rendi conto di ciò che mi fai... ma > ...fa solo scene peccato che tutte le volte che mi hai toccata o che*
piangevo è perché mi sono sempre fatta male sul serio... non ho mai fatto sceneggiate...e i referti sono lì da vedere".

Il 22 luglio 2016 si verificava un altro litigio: la R _ rendeva un giorno di ferie per stare con il P la sera si presentavano a casa dell'uomo alcuni amici e lui le diceva di cucinare per loro, criticandola poi per come stesse cucinando. La donna, già infastidita dalla situazione, alle critiche dell'uomo decideva di andare via, si dirigeva in camera da letto per preparare la borsa e lui le tirava un pugno sulla schiena lasciandola dolorante e piangente sul letto, dicendole che *"come al solito"* faceva *"sempre scene".* Le diceva di non muoversi dalla camera e restare lì e tornava a divertirsi con gli amici, andando a controllarla di tanto in tanto. Approfittando di un momento di distrazione dell'uomo la R usciva da casa, ma il P che sentiva il rumore del cancello chiudersi, usciva dalla finestra e la insultava. La donna andava direttamente all'Ospedale, dicendo di essere caduta dalle scale. Le diagnosticavano un trauma lombare in discopatia 14-15, con cinque giorni di prognosi (certificato del Centro Specialistico " del 22 luglio 2016 ore 23:52).

La R i dichiarava che ad agosto i due trascorrevano le vacanze insieme e in compagnia dei datori di lavoro del P non si verificavano discussioni significative.

A settembre, invece, si verificava l'ultimo violento litigio.

Il 2 settembre 2016 la P chiamava più volte il P durante il giorno per chiedergli se quella sera sarebbe andato a cenare da lei, senza tuttavia ricevere risposte sino a quando veniva chiamata dall'uomo che le appariva evidentemente ubriaco. Allora la donna gli diceva di non andare da lei, che non era *"a sua disposizione"* visto che non si era fatto sentire per tutto il giorno, e che non voleva vederlo in quello stato. 11 P le diceva che invece sarebbe arrivato quella sera *"cinque minuti e sono lì e ti faccio vedere io"* e lei gli rispondeva che se davvero si fosse presentato in casa lei sarebbe andata a chiedere aiuto dalla sorella e dal cognato, che abitavano nel suo stesso stabile. La R chiariva in udienza che la sorella aveva visto il P solo in un paio di occasioni e che non le aveva mai rivelato quello che succedeva con l'uomo; anche quella sera poi non si recò dalla sorella ma rimase in casa.

Quella sera quindi il P arrivava in casa dicendo alla Ri di aprirgli altrimenti avrebbe sfondato la porta. Entrava in casa indossando ancora il casco e la trascinava sul balcone dove le tirava un calcio sul mento facendola sbattere contro la tapparella: quindi la riafferrava, riportandola in cucina, dove insultandola con le parole *"troia, sei una donna di merda, fai schifo",* tirava un calcio prima ad un'anta della cucina e poi al forno, sfondandolo; lanciava il vaso che si trovava sul tavolo della cucina e le sedie. Nel frattempo riceveva una chiamata e le diceva di rimanere immobile e aspettarlo, che si sarebbe allontanato solo per due minuti. Effettivamente andava via, poi tornava dopo appena cinque minuti e le diceva di dirgli in faccia che voleva lasciarlo, cosa che lei alla fine faceva. Allora il P e prendeva il cellulare, togliendo la batteria di cui si appropriava e gettando il telefono per terra, le toglieva le chiavi di casa ed andava via.

La rimaneva sola in stato confusionale per dieci minuti, non sapendo cosa fare. Ricordatasi ai un vecchio telefono senza scheda che conservava in un cassetto, riusciva ad effettuare una chiamata di emergenza ai Carabinieri. Arrivavano quindi in casa i Carabinieri, che chiamavano anche un'ambulanza che la portava all'Ospedale f ', dove veniva poi accolta
dagli operatori del Servizio Violenza Domestica (SVS), ai quali iniziava a raccontare per la prima volta delle violenze subite.

La R quindi iniziava a seguire una terapia psicologica presso l'SVS, che poi proseguiva privatamente. Inizialmente le venivano prescritti anche dei farmaci ansiolitici, che però assumeva per poco tempo perché non la facevano essere lucida a lavoro.

Al momento della testimonianza rappresentava di essere ancora seguita da una psicologa con incontri settimanali.

La dichiarava di aver visto saltuariamente il P anche dopo questo episodio.

A gennaio 2017 il P i cercava e i due tornavano insieme fino al maggio dello stesso anno. In particolare si riavvicinavano perché il F la aiutava quando il cane della R veniva operato per un tumore, ma anche in questo periodo si verificavano le solite discussioni, seppur non violente.

La donna diceva di aver bloccato più volte il numero del P e il contatto sui *social network,* ma che poi l'uomo si presentava sul posto di lavoro della Ri e i due riprendevano sempre a frequentarsi.

La R rappresentava in udienza di non aver mai sporto denuncia, non volendolo fare, e che l'aver poi scoperto che ci sarebbe stato un processo le aveva procurato molta ansia. La stessa, peraltro, dichiarava di non aver mai parlato delle violenze che subiva neanche con i famigliari; solo dopo l'ultimo episodio del settembre, e solo perché veniva a sapere che ci sarebbe stato un procedimento penale, riferiva gli accadimenti in particolare al fratello e all'ex marito.

La teste dichiarava che la figlia aveva assistito a qualche discussione e aveva visto a volte il F rendere a schiaffi la madre e che l'ultima volta che era successo era intervenuta insultando il P dicendogli che si doveva vergognare di aver messo le mani su una donna.

Anche di questo vi è prova nella chat. Il 19 maggio 2016 alle ore 23:42 la R scriveva: "/z *sei permesso ancora ima volta di alzarmi le mani ...davanti a mia figlia e in casa mia. Mi sono presa della mongoloide da mia figlia. Mi ha detto che la tua è stata una minaccia e ha 16 anni. Mi vergogno per quello che le sto facendo vedere...di come mi faccio trattare (...) anche con la. gamba ingessata per colpa tua mi alzi ancora le mani (...) e chi mi dice che non arrivi a far del male anche a mia figlia"*

Il P rispondeva inizialmente scrivendole ripetutamente *"fai schifo"* e poi, quando la donna lo accusava di essere troppo cattivo e manesco, scriveva *"sono quello che tu vuoi. Sono quello che tu tiri fuori. Sono quello che cerchi",* confermando ancora una volta le accuse della donna.

La R infine, rappresentava di non essere mai stata violenta fisicamente con il P durante i litigi, ma non negava di averlo aggredito verbalmente.

In merito all'intervento effettuato in occasione del litigio del settembre 2016, veniva sentito in udienza il **Carabiniere S: G** il quale dichiarava di essersi recato a casa della
R ' ì 3 settembre e di aver constatato in quella occasione nella casa della donna la presenza del vetro del forno rotto, del vaso con i fiori rotto, i segni del telefono scaraventato contro il muro e che era senza batteria. La F si presentava in stato confusionale, tremante, con vari graffi sul collo e sulle braccia e lamentava dolori su tutto il corpo. Gli operanti appuravano che la donna non aveva le chiavi di casa e la R dopo essersi calmata, iniziava a piangere in loro presenza.

Con il consenso delle parti si acquisiva la annotazione di polizia giudiziaria relativa al predetto intervento.

Nell'atto si chiarisce che l'intervento veniva richiesto dalla stessa R , la quale, dopo aver riferito i fatti, inizialmente rifiutava qualsiasi tipo di assistenza sanitaria, ma, su insistenza dei Carabinieri, accettava infine che venisse chiamata un'ambulanza che la accompagnava all'Ospedale di Milano. La donna, inoltre, veniva invitata più volte dai Carabinieri a sporgere querela per quanto successo, ma rappresentava di non voler procedere penalmente contro il compagno. I militari, infine, acquisivano il certificato medico rilasciato quella notte, alle ore 2:31, da cui si evince che, nonostante la donna riportasse *"trauma cranio facciale in percosse, concussione con nessuna perdita di coscienza",* rifiutava ogni tipo di osservazione medica e quindi veniva dimessa con prognosi di zero giorni.

Veniva tuttavia prodotto dalla Difesa di Parte Civile ulteriore certificato, del 3 settembre, quando la R. si presentava nuovamente al Pronto Soccorso del medesimo ospedale, lamentando *persistenza di vertigine e dolore facciale in seguito a trauma da aggressione* della sera precedente; la R ' veniva dimessa con la medesima diagnosi e una prognosi di otto giorni.

Il fratello della persona offesa, **D R<**dichiarava di aver visto a volte il P in compagnia della sorella e di non aver mai assistito a discussioni tra loro.

Sapeva inizialmente dalla sorella che i due litigavano per motivi di gelosia, ma veniva a conoscenza dei dettagli del rapporto solo dopo l'intervento dei Carabinieri. La sorella, infatti, non gli raccontava nulla in precedenza, probabilmente per vergogna, decidendosi a farlo solo dopo aver intrapreso l'iter di cura presso l'SVS. Il teste, a conferma della estrema riservatezza della donna sull'argomento, riferiva quanto detto anche dalla R ' ovvero che i loro genitori non sapevano ancora nulla (al momento delle testimonianze) della vicenda che portava al presente procedimento.

Il teste riferiva che solo una volta, in precedenza, aveva ricevuto a casa la sorella completamente bagnata e che gli riferiva di essere stata ridotta in quello stato dal P" opo una discussione.

Con riferimento all'episodio del settembre del 2016, invece, il teste dichiarava di aver visto il forno rotto e, soprattutto, di aver constatato la condizione in cui versava la sorella, che appariva emotivamente molto scossa, quasi da non riuscire a parlare neanche con lui di quanto successo.

Solo successivamente, quindi, il fratello veniva a sapere che la fasciatura alla caviglia con cui l'aveva vista tempo prima era dovuta ad una discussione avuta con il P' e rimaneva sconcertato del fatto che la R avesse continuato la relazione con l'uomo nonostante gli episodi che la sorella gli raccontava. Alla richiesta di chiarimenti sul punto la donna gli diceva di averlo fatto perché nonostante tutto ne era innamorata.

Il teste riferiva di essere venuto a conoscenza del fatto che la sorella, anche dopo l'episodio del settembre 2016, si era riavvicinata per un periodo al P il fratello aveva discusso di questo con la donna, non approvando tale condotta.

A domanda della difesa dichiarava che la sorella non abusa di bevande alcoliche e non ha problemi di alcolismo.

L'ex marito della persona offesa, **M R** , dichiarava di aver visto il F in un paio di occasioni con la R e di non avere mai assistito a discussioni tra i due. Come il fratello della donna, diceva di aver saputo dalla ex moglie cosa fosse successo nel settembre del 2016 solo dopo l'intervento dei Carabinieri e poiché questi le dicevano che lo avrebbero contattato. La donna, pur non rappresentandogli mai di voler denunciare l'uomo, gli riferiva che il P l'aveva picchiata anche in altre occasioni, prima di quella del settembre; tuttavia, quando veniva a scoprire che dal suo racconto sarebbe nato un procedimento a carico del P si dimostrava molto preoccupata, anche perché riferiva al fratello di aver ricevuto un messaggio dell'uomo che le diceva che se avesse denunciato sarebbe stato peggio per lei.

La psicologa-psicoterapeuta **C S** in servizio all'epoca dei fatti presso il Centro SVS della clinica , dichiarava di aver incontrato la R il 7 settembre del 2016 in
occasione del primo colloquio di accoglienza a seguito dell'accesso al Centro da parte della donna verificatosi nella notte tra il 2 e il 3 settembre. La teste riferiva che la R le raccontava l'ultima aggressione, quando il P e tirava un calcio e le spaccava il telefono e il forno, e rispondendo alle domande rivelava che non si trattava della prima aggressione che aveva subito da parte dell'uomo, ma che ve ne erano state altre, in occasione di alcune delle quali si era anche recata al Pronto Soccorso. Tuttavia la P riferiva di aver sempre raccontato ai sanitari di essersi procurata accidentalmente le lesioni che di volta in volta le riscontravano e di non aver parlato in precedenza della aggressività del compagno neanche ai propri familiari.

La dottoressa chiariva che tale riserbo - che appurava di persona perché la donna inizialmente faticava a parlare di tali episodi anche con la psicologa - era dovuto al fatto che la donna appariva avere una autostima molto bassa e aveva vergogna per quanto accaduto anche perché era molto combattuta tra i sentimenti che provava per l'uomo, di cui comunque era molto innamorata e che quindi non riusciva a lasciare, ma delle cui reazioni al contempo aveva paura, poiché, diceva, "/e *stesse braccia che la abbracciavano erano le braccia che la colpivano".* La R esentava quindi questa ambivalenza, "era *una donna spaccata in due"* e che non riusciva a comunicare tale sofferenza all'esterno. Inoltre la donna si sentiva sola nell'affrontare tale separazione e pertanto la S la stimolava a crearsi una rete di supporto, raccontando quanto accaduto ai suoi familiari, cosa che pian piano la donna fece. La R poi si dimostrava molto spaventata di una eventuale reazione violenta dell'uomo qualora lei lo avesse seriamente allontanato, non sapendo cosa sarebbe potuto accadere, e rappresentava di non voler sporgere denuncia, dimostrandosi preoccupata dell'inizio del procedimento penale, poiché nutriva un senso di colpa per quanto successo, pensando quasi di esserselo meritato, e temendo le conseguenze pregiudizievoli per il P *"come una donna innamorata".*

La teste infine rappresentava che alla R vennero prescritti degli ansiolitici, perché la donna non riusciva a dormire e piangeva spesso.

S Z dichiarava di essere una amica intima della Ri li aver saputo dalla stessa, nel periodo in cui frequentava il P ' che l'uomo a volte era violento con lei.

Ricordava infatti che l'amica spesso si sfogava al telefono con lei e, in particolare, ricordava che la stessa le aveva raccontato di essere stata picchiata a quando l'uomo l'aveva *"buttata in una vasca dove gli si buttava addosso dell'acqua fredda e dell'acqua calda"',* in occasione di questo episodio l'amica aveva anche scattato alcune fotografie delle ecchimosi provocategli dal PI. 3 le aveva poi fatto vedere.

Pur non avendo assistito a litigi, avendo peraltro visto il P n l'amica solo in un paio di occasioni, la teste ricordava con molta chiarezza la visita all'Ospedale, narrata anche dalla persona offesa. Dichiarava infatti di essersi recata a trovare l'amica ad aprile del 2016, quando questa era ricoverata, e di averla incontrata nel parcheggio in compagnia del P . Salite in camera notava subito una strana agitazione nell'amica e. approfittando di un momento di distrazione del P che rispondeva ad una telefonata sul cellulare, gliene chiedeva conto. La R ' allora le diceva: *"Menomale che sei arrivata, perché eravamo arrivati alla lite e mi stava strozzando. Me la son vista brutta, pensavo di ammazzasse*

dichiarava di non essere uscita molto spesso con l'amica durante la relazione di questa con il P ma di averla sentita frequentemente al telefono e confermava quanto detto dalla donna e dal fratello, ovvero che la R non è astemia, ma fa un uso molto blando di bevande alcoliche, e di non averla mai vista ubriaca.

L Vi **GL** dichiarava di essere stato il direttore del supermercato di presso il quale la R prestava l'attività lavorativa dal 6 gennaio 2017 fino al 2018 e rappresentava di non aver avuto mai problemi con la donna, di cui non notava mai atteggiamenti violenti; né aveva mai visto la donna assumere alcolici.

F 'j amica del P dichiarava di aver avuto modo di frequentare spesso la coppia durante il periodo in esame e di non aver mai notato atteggiamenti violenti, fisici o verbali, dell'uomo nei confronti della compagna.

L'unico episodio particolare che ricordava si era verificato durante la festa di compleanno della figlia, nel settembre del 2015.

Durante la festa il F e la R litigarono perché l'uomo non trovava una busta con i soldi che avrebbe voluto regalare alla festeggiata e che diceva di avere riposto nella borsa della R ' I due quindi iniziarono a discutere e ad insultarsi reciprocamente, senza smettere neanche dopo l'invito della teste. La P , che riferiva di non aver mai visto la R ubriaca, dichiarava che durante la discussione ad un certo punto la donna diceva al P *"adesso mi ubriaco e vediamo come va a finire".* Quando lasciavano il locale si dirigevano presso una focacceria e, una volta arrivati, inizialmente la donna faceva una passeggiata con la R ' che le sembrava tranquilla, per farle prendere un po' d'aria perché non stava bene; quando poi la teste entrava a comprare le focacce, la R< rimaneva fuori dal locale con altri amici e due amiche della P a cui chiedeva di essere riaccompagnata a casa. La l dichiarava di aver litigato con queste amiche, che effettivamente accompagnavano a casa la R , perché riteneva che la donna sarebbe dovuta tornare a casa con il Pi ' che in quel frangente stesse *"esagerando con l'atteggiamento...quasi volesse suscitare pietà"-,* tuttavia le amiche le rispondevano che, a loro parere, sarebbe stato meglio che non fosse stato il P' riaccompagnare a casa la donna.

Infine **M;** F. **C** dichiarava di conoscere il P la quando aveva dieci anni e rendeva una testimonianza particolarmente confusa. Dichiarava di aver spesso frequentato la coppia P R ' , incontrandoli a cena e avendo casa vicina a quella del P La teste riferiva che la R le aveva raccontato di essere stata maltrattata in qualche occasione dal compagno, ma la C non le aveva mai creduto. Pur dichiarando di aver visto a volte la donna dare in *"escandescenze",* faceva poi specifico ad una reazione di stizza avuta dalla persona offesa quando intavolavano una discussione in merito alla chirurgia plastica e ad una reazione, a parere della teste eccessiva, che la R aveva avuto durante una festa in piscina, quando il P pubblicava su *Facebook* una foto di loro due che si baciavano e lei gli chiedeva di cancellarla perché altrimenti l'avrebbero vista i suoi genitori e sua figlia e non lo riteneva opportuno. Tale richiesta, insistente a detta della teste, faceva arrabbiare il P che poi si allontanava in moto con un amico per calmarsi. La stessa teste peraltro riferiva che in tale occasione, nonostante la R ' volesse tornare a casa, la C la convinceva ad aspettare il ritorno del P rassicurandola e dicendole che sarebbe rimasta in sua compagnia fino al ritorno dell'uomo e le avrebbe dato anche il proprio numero di cellulare, che la R ' avrebbe potuto chiamare in qualsiasi momento se necessario.

La R s aveva raccontato anche l'episodio che si era verificato alla festa di compleanno della figlia della P , dicendole che quella sera le era venuta una congestione ed aveva vomitato, ma nonostante ciò il P non l'aveva riaccompagnata a casa. La teste dichiarava di avere appreso poi dalla P una diversa versione dei fatti, ovvero che quella sera la R si era ubriacata.

La teste infine dichiarava di aver consigliato alla R ' di *"lasciare in pace"* il P quando questi beveva e diventava aggressivo, perché in questo modo si comportava una precedente fidanzata dell'uomo, tale SI che in simili occasioni lo lasciava smaltire l'arrabbiatura e dormire sul divano.

Si sottoponeva infine ad **esame l'imputato,** il quale negava di avere mai picchiato la donna, ammettendo di avere avuto con la stessa frequenti litigi durante i quali entrambi diventavano verbalmente aggressivi e poteva capitare che l'uomo, per contenerla e farla calmare, la trattenesse per le braccia o per le mani.

Negava di averla picchiata in auto al ritorno dal pranzo in montagna, dichiarando che quella volta dopo pranzo andavano a fare una escursione durante la quale la R ' si arrampicava ad un ramo e cadeva colpendo la schiena, ma non accusava alcun dolore. Quando tornavano a casa la donna si appisolava e, al risveglio, avvertiva un forte dolore al fianco e quindi la mattina dopo il P la accompagnava in Ospedale.

In merito all'episodio del 2 settembre riferiva che quel giorno aveva avuto problemi sul lavoro e la donna aveva continuato a tartassarlo di telefonate e messaggi insinuando che fosse in compagnia di due ragazze che avevano un bar vicino al cantiere dove lavorava l'uomo. Nonostante le risposte dell'imputato, che le rappresentava la situazione lavorativa, la donna continuava a chiamarlo e quando il P arrivava a casa i due litigavano perché l'uomo le diceva che lei non poteva comportarsi in quel modo e, essendosi innervosito, con la mano colpiva il vetro del forno, che si rompeva; negava invece di aver rotto altro, compreso il cellulare, pur dichiarando di essersi infastidito perché durante la discussione la donna passava più tempo al cellulare che a confrontarsi con lui. Negava di averla colpita o di averla trascinata per i capelli dal balcone fino a dentro casa. Quella sera i due non dormivano insieme perché il P andava via per il litigio e solo la mattina dopo, quando la donna lo chiamava per essere accompagnata in Ospedale perché diceva di avere una crisi di ansia, veniva a scoprire al Pronto Soccorso che la sera prima erano intervenuti i Carabinieri e l'Ambulanza che l'aveva condotta in Ospedale. La donna gli diceva che i Carabinieri erano intervenuti perché allertati dai vicini che li avevano sentiti litigare.

L'uomo quindi dichiarava che la R sin da quando trascorreva da lui la convalescenza nell'autunno del 2015 e aveva modo di leggere alcuni messaggi che gli mandavano sue amiche, diventava estremamente gelosa e quindi litigavano spesso per questo motivo.

II. P riferiva che i due decidevano di non convivere, pur avendo passato molte notti nella stessa casa (o sua o della donna quando questa si trasferiva a [1] i, sia perché litigavano spesso e frequentemente il P andava via o diceva alla donna di tornarsene a casa, per cui era la stessa R ' a dirgli *"io e te insieme non possiamo vivere'[1]",* sia perché entrambi avevano dei cani che non potevano stare assieme, e quindi ognuno rimaneva nella propria casa anche per accudire il cane.

III. riferiva di aver saputo dai colleghi di lavoro che, dopo l'interruzione del rapporto, la R ' compariva spesso negli esercizi commerciali vicini al luogo in cui lavorava il Pi , in una occasione, si era anche sfogata piangendo con la moglie del suo datore di lavoro, che aveva chiamato il P" chiedendogli di presentarsi perché la R ' lon smetteva più di piangere.

Dichiarava infine di averla contattata nel maggio del 2017 e di averla aiutata con il cane che doveva essere sottoposto ad una operazione; in quell'occasione la donna rimaneva a casa sua a dormire per una settimana durante la convalescenza del cane. Dopodiché i due non si vedevano più.

Veniva infine acquisita la scheda dell'SVS, in cui è riportata la narrazione della persona offesa in merito al rapporto con il P lei tutto sovrapponibile a quella poi resa in udienza.

Così sintetizzato il compendio probatorio deve riconoscersi la penale responsabilità del F per i reati contestati.

Deve innanzitutto osservarsi come, nonostante i tentativi della Difesa di scalfire l'attendibilità della persona offesa e nonostante le dichiarazioni rese dall'imputato, che ha negato di avere picchiato la donna, le dichiarazioni dibattimentali della R appaiono totalmente credibili.

La R in udienza ha reso una testimonianza estremamente chiara, contenuta nelle espressioni ma chiaramente rappresentativa della gravità degli episodi vissuti dalla stessa.

Le dichiarazioni appaiono del tutto lineari, logiche, scevre da qualsiasi contraddizione e certamente idonee a fondare l'accusa contro l'imputato, unitamente a tutte le altre prove raccolte.

La persona offesa, infatti, risulta sia intrinsecamente che estrinsecamente credibile, per plurimi motivi.

Oltre alla linearità e coerenza delle dichiarazioni, è emersa in dibattimento da più fonti la totale assenza di intenti calunniatori nei confronti dell'imputato.

È risultato infatti che la donna non ha mai parlato con nessuno di quanto successo (ad eccezione di qualche accenno fatto alla amica più intima) in quanto, come chiarito dalla psicologa, si sentiva in colpa e si vergognava sentendosi responsabile, e anche quando intervenivano i Carabinieri nell'ultimo grave episodio rifiutava categoricamente e ripetutamente sia di denunciare l'uomo - cosa che infatti non faceva mai - sia di richiedere l'assistenza dei sanitari. La stessa infatti aveva chiarito che in precedenza, nonostante si fosse dovuta rivolgere più volte al Pronto Soccorso in occasione delle lesioni (che in parte avvenivano anche quando era in Ospedale) non aveva mai rivelato la causa reale delle lesioni, non volendo accusare il compagno.

E anche nella notte del 2 settembre, quando si faceva accompagnare in Ospedale (peraltro solo per l'insistenza dei Carabinieri) e finalmente dichiarava ai sanitari di essere stata picchiata dal compagno e che non era la prima volta (come risulta dal referto in atti), successivamente rifiutava qualsiasi tipo di osservazione medica e andava via (infatti venivano indicati zero giorni di prognosi), tanto da dover tornare il giorno dopo perché persisteva lo stato di malessere dovuto all'aggressione (solo il giorno dopo, infatti, i sanitari indicavano otto giorni di prognosi).

La donna, inoltre, anche dopo l'episodio del settembre continuava almeno fino al maggio 2017 a frequentare il P il quale la aiutava anche con i problemi di salute del cane.

L'assenza di finalità calunniatone, peraltro, emerge in maniera lampante da quanto riferito dalla psicologa, la quale riscontrava la paura e l'ansia della donna quando questa apprendeva che nei confronti del P sarebbe iniziato un procedimento penale, proprio perché *da donna innamorata* si preoccupava delle conseguenze pregiudizievoli per l'uomo.

Tuttavia va chiarito che le dichiarazioni in un primo momento acquisite dalla psicologa e dagli operatori dell'SVS si sovrappongono pienamente a quelle poi rese in udienza dalla persona offesa, costituitasi poi parte civile.

Peraltro si ritiene che neanche tale qualifica processuale vada ad inficiare la credibilità della donna, sia perché come appena detto le dichiarazioni dibattimentali rispecchiano quelle rese prima dell'inizio del procedimento penale, sia perché la donna non appare mossa da alcun intento economico, tanto da aver chiesto a titolo di risarcimento la somma simbolica di un euro, sia, e soprattutto,

perché le dichiarazioni della persona offesa trovano plurimi e importanti elementi esterni di riscontro.

Innanzitutto i referti medici di cui già si è dato conto, che pur attestando che la donna riferiva di volta in volta cause accidentali alle lesioni riportate, scansionano le varie fasi della relazione tra la persona offesa e l'imputato, così come raccontate dalla stessa.

In secondo luogo estremamente chiaro appare il consistente scambio di messaggi via chat tra la persona offesa e l'imputato, di cui si acquisiva la trascrizione, e di cui si è già dato conto di volta in volta con riferimento alle singole vicende narrate dalla persona offesa e che trovano puntuale riscontro nei messaggi.

Come visto, infatti, la descrizione della relazione sentimentale fatta dalla donna in udienza si rispecchia pienamente nella chat con il compagno, che rappresenta plasticamente il rapporto malato tra i due, le emozioni della donna, le continue e ingravescenti aggressioni dell'uomo contro la R e la giustificazione data dall'uomo a tali gesti.

Deve infatti evidenziarsi come l'uomo, che mai negava in chat di averle fatto del male, ammetteva sempre le aggressioni di cui la donna lo accusava, ma gliene addossa ogni volta la colpa, dicendole che i suoi gesti erano dovuti solo alla eccessiva gelosia della donna (pur ammettendo in parte anche i tradimenti) e al suo voler sempre litigare.

Solo in una occasione il P pur chiarendole di ritenerla responsabile di tali gesti, le chiedeva anche scusa per averla stretta, ovvero quando la aggrediva in Ospedale e le faceva sanguinare il naso e il labbro per non farla parlare durante un litigio, nonostante la donna si trovasse in quel momento ricoverata.

Sono estremamente significative le frasi utilizzate dal P con la compagna nel corso della relazione e cristallizzate nella chat: *"ho cercalo in tutti i modi di andare avanti sopportando arrabbiandomi soffrendo reagendo con rabbia. Ma da parte tua ho solo visto che arrivavo a farti provare paura ma nessun risultato nell'andare d'accordo e anche quando (sicuramente sbagliando) ho dato sfogo alla mia rabbia dopo due giorni tutto tornava indietro come nulla fosse stato (...) Io ho vissuto la dall'amore all'odio ti assicuro che è molto difficile si sono la persona che ti ha alzato le mani come sono la persona che passava il suo tempo seduto di fianco a te in ospedale (...) mi ha portato a odiarti a avere scatti di rabbia da alzarti le mani quanto odio gratuito mi hai fatto provare non puoi capire".*

Tali frasi, assieme a quelle altrettanto chiare già riportate sopra, come pienamente compreso dalla psicologa, hanno prodotto nella R l'effetto di farla sentire responsabile delle percosse subite, portandola anche per tale ragione a non parlarne mai con soggetti terzi e a legarsi in maniera sempre più malata al P

Infine, le dichiarazioni della R ' trovano plurime conferme nelle altre testimonianze acquisite.

Innanzitutto in quanto riferito dai Carabinieri, che appuravano le condizioni in cui si trovava l'appartamento della R e la stessa persona offesa dopo l'aggressione del settembre; è appena il caso di osservare che la descrizione dei Carabinieri appare del tutto incompatibile con il narrato dell'imputato (il quale in ogni caso appare certamente non credibile avendo radicalmente smentito di aver aggredito la compagna, nonostante le plurime ammissioni contenute nei messaggi di cui si è detto).

Il fratello della R poi, all'oscuro di tutto sino all'arrivo dei Carabinieri, ricordava però di aver ricevuto in una occasione a casa la sorella completamente bagnata dopo una discussione con il P , confermando sul punto quanto riferito dalla R.

Ancora, la caduta in moto (cui si fa cenno come visto anche nei messaggi) viene addebitata alla condotta del F‘ ' dal fratello, a cui naturalmente la Ri 'a raccontava solo successivamente.

Infine, le gravissime aggressioni verificatesi a poi in Ospedale venivano confermate dall'amica S " che nel primo caso aveva avuto modo di visionare le fotografie (poi inviate dalla R ‘ al P ; e nel secondo caso percepiva direttamente l'agitazione dell'amica, che le confermava di essere stata poco prima aggredita in Ospedale dal P che tentava di *"strozzarla"* (altra circostanza, come visto, pienamente confermata dai messaggi).

Peraltro è appena il caso di osservare che i messaggi di cui si è dato conto venivano scambiati tra i due dal gennaio all'ottobre del 2016, in un momento quindi in cui la R , nonostante i violenti litigi, continuava poi a stare assieme al P' ' soprattutto, in un momento in cui la R non aveva alcuna intenzione di accusare il compagno svelando cosa stava subendo (almeno fino al 2 settembre). Nulla infatti aveva detto in quei mesi ai parenti e, come già visto, nulla avrebbe voluto dire la donna quando intervenivano i Carabinieri e, nonostante le ripetute insistenze degli stessi, la stessa si mostrava sempre ferma e determinata nel non voler denunciare l'uomo. Infatti, lo si ribadisce, la R non ha poi mai denunciato il P'

Pertanto non può certo insinuarsi che tali messaggi siano stati scritti ed inviati dalla donna al fine di precostituirsi una prova, anche perché, come ampiamente chiarito, le circostanze narrate hanno trovato piena conferma nelle risposte fornite via chat dallo stesso imputato.

Infine anche la tesi della Difesa, cha ha tentato di screditare la persona offesa sostenendo, tra l'altro, che la stessa avesse problemi di alcolismo (argomento che peraltro ha trovato sonora smentita nelle prove acquisite) non ha trovato alcun riscontro neanche nelle testimonianze richieste dalla difesa. La P e la C , infatti, pur tentando di dire che la R fosse una persona "capricciosa", non hanno indicato episodi rappresentativi di un atteggiamento aggressivo della stessa; anzi hanno entrambe alla fine riferito tale caratteristica al P ammettendo la P ' di essere intervenuta in occasione del litigio in piscina per tranquillizzare la R dopo un litigio con il compagno e di averle suggerito di far passare l'arrabbiatura e l'ubriacatura all'uomo prima di affrontarlo, così come faceva una precedente compagna dell'uomo. Le stesse confermavano l'episodio relativo alla festa della figlia della P quando addirittura due amiche del P decidevano di accompagnare a casa la R ' che stava male, non ritenendo opportuno che lo facesse il compagno perché avevano litigato.

Peraltro la stessa P ha ammesso che durante i litigi diventava verbalmente aggressiva, pur non avendo mai aggredito fisicamente il compagno, e tale circostanza emerge dai messaggi, che risultano carichi di rabbia sia da parte della donna che dell'uomo. Tale circostanza, tuttavia, non può certo far venire meno le violenze fisiche che la donna si trovava sistematicamente a subire da parte del suo compagno e la gravità delle stesse.

Ciò detto occorre soffermarsi sulla qualificazione giuridica della accertata condotta del f che veniva posta in essere nel corso di circa due anni durante i quali i due intrattenevano la relazione sentimentale.

Com'è noto, nel delitto previsto dall'articolo 612-bis c.p., che ha natura abituale, l'evento deve essere il risultato della condotta persecutoria nel suo complesso e la reiterazione degli atti considerati tipici costituisce elemento unificante ed essenziale della fattispecie, facendo assumere a tali atti un'autonoma ed unitaria offensività, in quanto è proprio dalla loro reiterazione che deriva nella vittima un progressivo accumulo di disagio che infine degenera in uno stato di prostrazione psicologica in grado di manifestarsi in una delle forme descritte dalla norma incriminatrice (Sez. 5, n. 54920 del 08/06/2016).

A tale riguardo la sussistenza della relazione sentimentale tra l'imputato e la persona offesa, salvo il rispetto della clausola di

sussidiarietà prevista dal fart. 612 *bis,* comma primo, c.p. - che rende applicabile il più grave reato di maltrattamenti quando la condotta valga ad integrare gli elementi tipici della relativa fattispecie - è semmai valutabile come circostanza aggravante a norma dell'articolo 612 *bis* c.p., comma 2 (Sez. 6, Sentenza n. 30704 del 19/05/2016).

In ogni caso, proprio in ragione della frequente sussistenza di tale rapporto, è stato più volte osservato come sia comune la possibile ambivalenza dei sentimenti provati dalle persone offese nei confronti dei presunti responsabili di siffatta tipologia di condotte, sì che la prosecuzione del rapporto personale può essere dettata *"sia per paura, sia perché gli voleva bene"* (cfr. Sez. 6, n. 31309 del 13/05/2015, S., Rv. 264334) e tale dato fattuale, in definitiva, non appare rivestire valore scriminante.

Peraltro si è statuito che l'attendibilità e la forza persuasiva delle dichiarazioni rese dalla vittima del reato non sono inficiate dalla circostanza che all'interno del periodo di vessazione la persona offesa abbia vissuto momenti transitori di attenuazione del malessere in cui ha ripristinato il dialogo con il persecutore. Non va sottovalutato che la vittima di questo reato deve assumere atteggiamenti di difesa e di accusa nei confronti di un persecutore, che, in un passato più o meno lontano, è stato al centro del proprio mondo di affetti e di umana solidarietà. (Sez. 5, Sentenza n. 5313 del 16/09/2014).

Declinando tali principi nel caso di specie ne deriva che - non rilevandosi spazi di riqualificazione del fatto contestato nel più grave reato di maltrattamenti in famiglia, avendo lo stesso imputato ribadito, confermando sul punto la persona offesa, che i due non hanno mai stabilmente convissuto proprio perché consci di non poterlo fare alla luce del burrascoso rapporto sentimentale che li legava - le violenze al P certamente sussistenti per quanto già detto, integrano pacificamente il reato di atti persecutori, nonostante si siano verificate nell'ambito di una relazione voluta e portata avanti, seppur in maniera altalenante, da entrambi i soggetti.

Le continue aggressioni fisiche fatte subire alla donna ogni qual volta la stessa rappresentava, seppur in maniera a volte pedante, le proprie lamentele per l'atteggiamento non gradito del compagno, integrano certamente le molestie e le violenze richiamate dalla norma in esame e, come emerso dalle stesse dichiarazioni della persona offesa e dalla lucida analisi della psicologa, tali condotte hanno ingenerato nella R uno stato di ansia e di timore per la propria incolumità, che emerge anche dalla lettura dei messaggi. La donna infatti scriveva molto spesso di temere per la propria vita e, infine, anche per quella della figlia, data l'incapacità del P di controllare la propria rabbia.

Peraltro le condotte del P' le conseguenze a cui ogni volta portavano, costringendo la donna a ricoveri o a periodi di convalescenza, appaiono anche solo astrattamente idonee a causare simili eventi, la cui sussistenza per la configurazione del reato di atti persecutori è richiesta anche solo in via alternativa con gli altri eventi del reato in esame tipizzati dal Legislatore.

Inoltre alla persona offesa, che alla fine della relazione faceva fatica a dormire e piangeva spesso, venivano anche prescritti degli ansiolitici e la donna dal settembre del 2016 seguiva costantemente una terapia individuale e di gruppo con una psicologica. Peraltro l'evidente stato di prostrazione, sia fisica che psicologica, in cui versava la R a causa del P veniva riscontrata e testimoniata anche da soggetti terzi e non qualificati come la dottoressa S ovvero dal fratello della donna e dai Carabinieri, che intervenivano dopo l'ultimo grave episodio.

Quanto al profilo soggettivo del reato, risulta certamente sussistente in capo al P dolo generico, ovvero la volontà di porre in essere più condotte di minaccia e molestia, nella consapevolezza della loro idoneità a produrre uno degli eventi alternativamente previsti dalla norma incriminatrice e dell'abitualità del proprio agire. Oltre al reiterarsi delle percosse e alla necessitate cure conseguenti, di cui spesso lo stesso P i faceva carico, e alla ripetuta rappresentazione all'uomo da parte della donna della paura nutrita per la propria incolumità e del timore che questi potesse arrivare prima o poi ad ucciderla, la sussistenza del dolo emerge in maniera cristallina da una frase utilizzata dall'uomo nella chat: "Ho *cercato in tutti i modi di andare avanti sopportando arrabbiandomi soffrendo reagendo con rabbia. Ma da parte tua ho solo visto che arrivavo a farti provare paura ma nessun risultato nell'andare d'accordo e anche quando (sicuramente sbagliando) ho dato sfogo alla mia rabbia dopo due giorni tutto tornava indietro come nulla fosse stato*

Peraltro la condotta violenta del P appare aggravata dalle pressioni psicologiche esercitate sulla donna dopo le aggressioni descritte. In tali frangenti, infatti, rendendosi pienamente conto della gravità di quanto commesso (che come visto nei messaggi non negava mai) e di fronte alla compagna che ancora recava le lesioni procuratele tramite le percosse, non mutava mai condotta chiedendo scusa (se non quando picchiava la donna già ricoverata in ospedale), ma "rincarava la dose" dando la colpa esclusivamente alla R delle percosse che lui sistematicamente le infliggeva per farla zittire e per farla smettere di lamentarsi di quelle che riteneva essere mancanze dell'uomo nei suoi confronti. La condotta del P appare quindi da questo punto di vista ancora più riprovevole, in quanto atta ad amplificare l'efficacia vessatoria ed

afflittiva delle gravissime percosse. Si sono già riportate le significative espressioni utilizzate ogni volta dal P (io *non ho proprio voglia di toccarti in quel modo. Ma te fai e crei i modi...sono quello che tu tiri fuori)* per addebitare alla R ' ' i esclusiva responsabilità delle percosse che le
infliggeva.

Si ritiene quindi certamente integrato il reato di atti persecutori, procedibile d'ufficio nel caso di specie nonostante la mancanza di querela da parte della persona offesa, in ragione della connessione con il reato, procedibile d'ufficio, di lesione personale di cui al capo 2), commesso il 15 maggio 2015 quando il P on una gomitata in macchina provocava alla R la rottura della costola che veniva giudicata guaribile dai sanitari dell'ospedale in trenta giorni con
l'utilizzo di un busto. Anche tale episodio risulta ampiamente provato, oltre che per le dichiarazioni della persona offesa e per il certificato medico anche per l'inequivoco contenuto dei messaggi di cui si è già dato conto.

Alla luce della gravità dei fatti e delle dichiarazioni dibattimentali del P" er quanto già detto non credibili, non si ritengono concedibili all'imputato le circostanze attenuanti generiche, non ravvisandosi indici che consentano di riconoscere una diminuzione del trattamento sanzionatorio; peraltro l'imputato è soggetto gravato da diversi precedenti penali, anche relativi a reati contro la persona.

Venendo al trattamento sanzionatorio, in considerazione dalla perpetrazione di fatti così gravi per circa due anni e della commissione di alcune condotte in presenza della figlia minore della R i quando la persona offesa si trovava ricoverata in Ospedale, la pena finale va determinata in misura superiore ai limiti edittale e, cioè, in anni due di reclusione, così calcolata: pena base per il più grave reato di cui al capo 1) anni uno e mesi sei di reclusione, aumentata per la continuazione con il reato di cui al capo 2) alla pena predetta.

Consegue *ex legge* la condanna dell'imputato al pagamento delle spese processuali.

Alle statuizioni condannatorie consegue la condanna dell'imputato al risarcimento del danno certamente cagionato alla persona offesa, nella simbolica misura richiesta di un euro, e la condanna alla refusione delle spese processuali, che si liquidano in euro 1.640,00 (fase di studio: 350 euro, fase introduttiva 400 euro, fase istruttoria 600 euro, fase decisoria 700 euro; importo aumentato del 20% per la complessità delle imputazioni e ridotto ex art. 106 *bis* DPR 115/2002 in quanto parte ammessa al patrocinio a spese dello stato), oltre il 15% di spese generali, IVA e CPA.

MOTIVI DELLA DECISIONE

Con decreto che dispone il giudizio datato 09.11.2017 I H; ' veniva rinviato a giudizio innanzi a questo Tribunale in composizione collegiale, per rispondere dei fatti di cui alla rubrica (violenza sessuale aggravata, maltrattamenti e lesioni personali ai danni della compagna convivente Oh R(i.

Alla prima udienza del **08.01.2018** veniva dichiarata l'assenza dell'imputato e, dichiarato aperto il dibattimento, venivano ammesse le prove richieste dalle parti e si rinviava l'udienza al 23.04.2018. Con decreto del 22.03.2018, stante il trasferimento ad altro ufficio di

un componente del collegio, tale udienza veniva differita a quella del **20.06.2018** alla quale, stante il mutamento del Collegio, le parti si richiamavano alla richiesta di prove già effettuata e si procedeva ad istruttoria. Venivano escussi i testi E ' > Mi Agente Vi P a e l'Agente Gi > Ci
Alla citata udienza veniva acquisita scheda SVS e documentazione sanitaria della p.o.
Alla successiva udienza del **10.10.2018,** dato atto dell'ulteriore mutamento del Collegio, le parti manifestavano il consenso alla piena utilizzabilità dell'attività istruttoria già svolta e prestavano, altresì, il consenso all'acquisizione dell'annotazione di PG. datata 03.08.2018 che veniva quindi acquisita dal Tribunale. Alla medesima udienza veniva sentita la p.o. O R< e, dichiarato chiuso il dibattimento e utilizzabili gli atti acquisiti, le parti rassegnavano le loro conclusioni. All'esito della camera di consiglio, tuttavia, il Collegio disponeva procedersi ad accertamento peritale sui tamponi vaginali pre lavati sulla p.o. e non precedentemente analizzati, ritenendo il predetto accertamento assolutamente necessario al fine del decidere. A tale scopo, veniva fissata l'udienza del **18.10.2018** alla quale veniva conferito il relativo incarico al perito Ai P All'udienza del **26.11.2018,** rilevato l'ulteriore mutamento della composizione del Collegio, le parti manifestavano il consenso alla piena utilizzabilità dell'attività istruttoria già svolta. Il perito depositava la propria relazione e, su richiesta del P.M., si disponeva ampliamento dell'incarico peritale con integrazione del quesito già formulato al professionista.
In data 14.01.2019 il perito depositava la propria relazione ed alla successiva udienza del **21.01.2019** il Tribunale pronunciava sentenza mediante pubblica lettura del dispositivo.

Ritiene il Tribunale che durante l'istruttoria dibattimentale siano emersi elementi fondanti un giudizio di sussistenza della penale responsabilità dell'imputato per i reati a lui ascritti ai capi b) e c) della rubrica, mentre residuino dubbi circa la penale responsabilità dello stesso in ordine al reato di cui al capo *a).*

Va fin da subito evidenziato che il nucleo fondamentale delle fonti di conoscenza per la ricostruzione dei fatti qui in esame poggia sulle dichiarazioni della persona offesa, C R le quali hanno trovato puntuali conferme nella documentazione medica acquisita agli atti e nell'annotazione di P.G. del 03.08.2016.
In particolare, *O* affermava che aveva conosciuto l'imputato nel 2016 e che, a
partire da fine maggio di tale anno, lo aveva invitato a vivere a casa sua in quanto egli era rimasto privo di abitazione e, siccome erano entrambi ucraini, la donna aveva voluto aiutarlo.
Allorché era iniziata la convivenza, fra i due era nata una relazione sentimentale ma, in seguito, avevano iniziato ad avere qualche litigio, anche perché l'uomo non pagava l'affitto come aveva, invece, promesso.
La p.o. riferiva che, da quando avevano iniziato a vivere insieme, I usciva da casa per andare a bere e, quando tornava, *"alzava la voce" e* aveva cominciato ad *"alzare le mani".* Questa situazione aveva creato alla p.o. una situazione di vergogna nei confronti dei vicini e, per tale motivi, la donna aveva tentato di evitare di urlare quando veniva aggredita dal compagno ("mz *vergognavo da vicini, quindi tanti volte mi alzava la mano e io cioè mi faceva male, però io non urlavo").*
La p.o. riferiva di aver chiesto aiuto alla madre di I' riferendole che il figlio la picchiava e non pagava l'affitto, ma che non aveva ricevuto alcun supporto.
O , piangendo, narrava che con il passare dei giorni l'imputato la aggrediva *"di più" ("poi è arrivato occasione di picchiarmi di più")*- ,la aveva sbattuta contro i mobili di casa e contro lo specchio. */f*

A causa delle aggressioni subite, la donna aveva riportato ferite i cui segni erano ancora evidenti quando veniva sentita a dibattimento: una cicatrice sul braccio destro e una sul labbro inferiore che venivano visionate dal Tribunale.
In occasione degli episodi di violenza, la donna si era recata diverse volte al pronto soccorso nonostante II le ripetesse continuamente che, siccome lei viveva da sola in Italia, nessuno l'avrebbe aiutata *("Non ti aiuta nessuno ... non ti aiuta vecchia stronzo"}.* In particolare, la donna confermava di essere andata in Ospedale nelle date 12 luglio, 23 luglio, 26 luglio e 02 agosto del 2016.
Oltre a recarsi al pronto soccorso, O aveva chiesto anche l'intervento delle forze dell'Ordine che, una volta, avevano contattato I al lavoro e questi, rientrato a casa, aveva picchiato la p.o. La donna precisava di non ricordare il giorno in cui era avvenuto questo episodio in quanto l'imputato la aveva aggredita molte volte. Fra queste, un giorno, l'imputato la aveva colpita talmente forte al punto che *"dal dolore non potevo fare la doccia'".*
La p.o. riferiva, altresì, che alcune volte I la aveva chiusa in casa, che quando le violenze fisiche erano divenute più frequenti, tutti i giorni, lei aveva tentato di chiedere aiuto gridando e sperando che i vicini la sentissero, ed aggiunge che l'imputato *"in pochissimo tempo mi ha rovinato la vita così".*
Tra gli episodi di violenza subiti da 01 particolarmente violento è stato quello 02.08.2016, a seguito del quale la donna aveva chiesto l'intervento dei Carabinieri alle 02.00 della notte del 03.08.2016. Precisamente, la p.o. riferiva che quel giorno I la aveva picchiata *"durante la giornata forte che sono caduta con la testa in angolino"* e poi le era salito sopra con le scarpe sul viso e le aveva strappato i capelli dalla parte alta del cranio. In seguito la donna, sentendo molto dolore, era andata a letto ed era svenuta, e poi si era risvegliata

con dolori alla zona della vita e con i vestiti alzati, era uscita di nascosto da casa e aveva chiamato i Carabinieri che la avevano accompagnata in Ospedale.
Ai militari la donna aveva riferito che la sera del 02.08.2016 aveva subito violenza sessuale da parte dell'imputato; tuttavia, in dibattimento, la p.o. affermava che si era svegliata con dolori alla zona del ventre ed i vestiti alzati, ma che non ricordava o comunque non era in grado di capire bene cosa fosse successo perché era svenuta e, quando aveva parlato con i militari, era in stato di confusione anche a causa delle *"botte in testa"* che aveva ricevuto.
A seguito di contestazione emergeva che nelle indagini preliminari la donna aveva più intensamente affermato :"dopo avermi picchiato, io mi allontanavo da lui e mi recavo in camera da letto per dormire. Mi svegliavo poco dopo in quanto mi accorgevo che II ;i trovava sopra di me e stava tentando dia vere un rapporto sessuale pur senza il mio consenso, infatti non riuscivo a oppormi a lui e I riusciva a penetrarmi ottenendo un rapporto per via vaginale non protetto. Al termine del rapporto, pur volendomi allontanare da lui, per vergogna e per timore che i vicini di casa venissero a sapere qualcosa, attendevo che giungesse la notte e verso le 2 uscivo di casa".
Ribadiva che attualmente ricordava di aver sentito l'uomo sopra di sé ma non era sicura di quanto accaduto perché in quel momento "non *ero una persona cosciente".*
La donna precisava, infine, che dopo l'episodio del 02.08.2016 non aveva più visto l'imputato ma che viveva sempre con paura, di aver assunto antidepressivi e di aver cambiato casa in quanto non riusciva più a vivere nello stesso luogo ove aveva subito le narrate violenze fisiche e verbali.

A E M (trascr. ud. 20.06.2018, p. 4 ss): medico legale presso il SVS della Clinica M , riferiva cne nella mattinata del 03.08.2016 si era recato presso la predetta clinica, in
quanto era in turno di reperibilità, ove aveva trovato la p.o. in compagnia della ginecologa.
O che all'esame obiettivo presentava alitosi alcolica, gli aveva riferito che il pomeriggio precedente (02.08.2016) aveva assunto sostanze alcoliche insieme al convivente e si era poi addormentata. In seguito la donna aveva riferito che si era svegliata e aveva trovato il coinquilino che era sopra di lei, la donna non era riuscita ad opporsi e così l'uomo l'aveva penetrata.
Il teste riferiva che la p.o. gli aveva raccontato che il convivente, da qualche giorno, usava violenza fisica contro di lei colpendola con pugni e schiaffi ed egli affermava che, effettivamente, la donna presentava delle ecchimosi sugli arti inferiori e superiori, un piccolo graffio a livello dell'avambraccio destro ed una piccola ferita lacero contusa a livello del malleolo della gamba sinistra. Il teste precisava che, stante la diversa colorazione delle lesioni riscontrate, era possibile che alcune di esse risalissero ad episodi diversi e più risalenti rispetto a quello del giorno precedente la visita.

V P trascr. ud. 20.06.2018, p. 7 ss): agente di P.G. riferiva che attorno alle 02.00
del 02.08.2016 la centrale operativa aveva inviato la sua pattuglia presso via C in
quanto ivi si era verificata un episodio di violenza domestica. Giunti sul posto i militari avevano rinvenuto personale del 118 i quali avevano riferito di aver trovato una donna sulla strada in stato confusionale che presentava diverse ecchimosi in varie parti del corpo, segni che, a parere del personale medico, erano risalenti ai giorni precedenti.
Sul posto la donna veniva identificata in O R nata il .1980 e residente proprio in via C II teste precisava che la p.o. era effettivamente in stato confusionale ma che egli
non era in grado di riferire quale ne fosse il motivo.

La p.o. aveva narrato all'agente che da circa quindici giorni aveva iniziato una relazione sentimentale con un suo concittadino ucraino e, da quel giorno, lo aveva ospitato in casa. L'uomo, tuttavia, aveva iniziato ad usare violenza contro di lei e, secondo la donna, le aveva somministrato sostanze stupefacenti a sua insaputa.
La donna aveva riferito ai militari che il compagno era nell'abitazione a dormire, sicché gli agenti si erano ivi recati e avevano rinvenuto un uomo che avevano identificato nell'imputato e avevano accompagnato presso gli uffici di P.G., mentre la vittima era stata condotta alla Clinica N
Dopo un primo istante in cui la p.o. aveva negato la volontà di sporgere querela, O aveva invece deciso di denunciare I nella stessa mattina del 03.08.2016.
Presso la sede del Nucleo Radiomobile l'imputato aveva dichiarato di essere domiciliato a N cosicché, dopo essere stato riaccompagnato presso l'appartamento di via al solo fine di
recuperare i suoi effetti personali, aveva dichiarato che sarebbe tornato a vivere a N

G C (trascr. ud. 20.06.2018, p. 7 ss): agente di P.G., riferiva che in data 03.08.2016 era intervenuto, in ausilio di un suo collega V P al fine di procedere
all'identificazione dell'autore di un'aggressione che si trovava all'interno di un'abitazione sita in via C n particolare, egli era

intervenuto in ausilio del collega e, insieme, erano saliti
presso l'abitazione della donna, la porta era aperta, erano entrati ed avevano trovato il compagno della p.o. che dormiva sul divano letto.
Il teste riferiva, inoltre, che in precedenza, in data 26.07.2016, egli si era già recato presso il medesimo luogo ad effettuare un altro intervento su richiesta della p.o. OR In tale occasione la p.o. aveva riferito di aver subito un'aggressione da una persona a lei nota ed, effettivamente, la donna presentava segni sul corpo, sul viso e sul braccio. La donna aveva altresì espresso la volontà di allontanare l'uomo dalla casa.
Sul posto l'agente aveva trovato personale medico del 118 che aveva poi trasportato la p.o. all'Ospedale in codice verde.

Ciò posto in relazione alle prove testimoniali, dagli atti e dai documenti acquisiti al dibattimento emerge quanto segue:

Annotazione di P.G. datata 03.08.2016 da cui si evince che in pari data personale del Nucleo Operativo dei Carabinieri di Milano erano stati inviati dalla Centrale Operativa presso via Ci SU richiesta di O R . Ivi giunti, la donna presentava varie ecchimosi su

tutto il corpo e riferiva di aver subito, nella serata appena trascorsa, una violenza sessuale, dopo la quale aveva chiesto l'intervento del 118.

Dalla lettura della citata annotazione si rinviene conferma di quanto dichiarato dal teste Vi

P la p.o. aveva riferito che da circa due mesi intratteneva una relazione sentimentale con

I con il quale aveva iniziato ad abitare e da circa 10-15 giorni aveva iniziato a subire

violenze fisiche da parte sua. L'uomo le avrebbe altresì somministrato sostanze stupefacenti. Gli agenti avevano chiesto l'ausilio di altra pattuglia e, unitamente ai colleghi giunti, erano entrati nell'abitazione ove avevano rinvenivano il compagno della donna che dormiva il quale, dopo essere stato identificato, veniva condotto presso gli uffici di P.G.; mentre la p.o. veniva accompagnata al Policlinico e, in seguito, al SVS Clinica Mangiagalli.

Documenti acquisiti:

- **verbale di pronto soccorso dell'ospedale N latato 12.07.2016**da cui si evince che in

pari data la p.o. si era ivi recata accedendo in codice verde in occasione della quale aveva riferito di essere stata *"aggredita a pugni dal convivente che la colpisce all'addome al volto al bacino"*., all'esame obiettivo era sofferente e presentava ecchimosi al volto, al bacino ed agli arti superiori e addome piano trattabile dolente alla palpazione profonda ai quadranti superiori, riportando 4 giorni di prognosi;

- **TC cerebrale e massiccio facciale** eseguito a causa di trauma da aggressione, da cui emergevano multipli linfonodi aumentati di dimensioni in sede latero-cervicale bilaterale, a morfologia ovalare;
- **verbale del pronto soccorso dell'ospedale N datato 23.07.2016**da cui si evince che la p.o. vi si è recata in pari data ed era stata accettata con codice verde. Ivi la donna aveva riferito di aver subito una *"aggressione in casa da convivente"* e di aver subito *"ripetute aggressioni negli ultimi 5* giorni" e di aver subito una perdita di coscienza nei giorni precedenti. La donna aveva affermato anche di assumere abbondantemente sostanze alcoliche (birra). All'esame obiettivo la p.o. presentava alito etilico, ferita al labbro inferiore, ecchimosi al mento, senza dolori alla mobilizzazione della mandibola né alla pressione del rachide. Riportava una prognosi di giorni 7;
- **verbale di pronto soccorso dell'Ospedale N datato 26.07.2016**da cui emerge che la p.o.

vi si era recata in tale data riferendo di subire percosse dal compagno da circa 15 giorni e, saltuariamente, anche violenze sessuali, ma non nelle ultime 24 ore. All'esame obiettivo la donna risultava vigile, spaventata, con alitosi alcolica, addome dolente, numerosi ematomi agli arti ma non recenti, grossolano ematoma mentoniero ecchimosi nella regione mediale della coscia bilateralmente ed flc labbro inferiore interno. La donna rifiutava ulteriori accertamenti e riportava una prognosi di giorni 7;

- **verbale pronto soccorso dell'ospedale Maggiore Policlinico datato 03.08.2016**da cui si evince che alle 03.25 di tale giorno la p.o. si era ivi recata a causa di un trauma minore al volto, al cranio, alle cosce ed alle braccia destra e sinistra, e riferiva aggressione fisica e sessuale da persona alla stessa nota. All'anamnesi risulta che la donna era stata trasportata presso il pronto soccorso con l'ambulanza e aveva riferito violenza sessuale e assunzione di sostanze alcoliche nonché di essere stata drogata dal fidanzato che la percuoteva frequentemente. La p.o. riferiva, infine, di aver subito plurime aggressioni negli ultimi 15 giorni e di essere stata spinta contro uno specchio. Infine, a donna aveva riferito che lo stesso 03.08.2016 non era stata percossa dal compagno il quale, tuttavia, l'aveva violentata sessualmente mentre lei dormiva.

All'esame obiettivo la donna presentava ecchimosi al livello dei gomiti, al braccio e alla coscia sinistre, graffio a livello dell'avambraccio;

- **cartella SVS Clinica M datata 03.08.2016**da cui emerge che la p.o. aveva riferito di

vivere insieme all'imputato II da circa due mesi e che negli ultimi 15 giorni egli aveva iniziato a percuoterla in plurime occasioni con calci e pugni senza apparente motivo. La donna riferiva che nel pomeriggio del giorno precedente i due avevano assunto sostanze alcoliche e lei si era addormentata per svegliarsi, poco dopo, con l'uomo che cercava di penetrarla e vi riusciva in quanto lei non era riuscita ad opporsi al rapporto vaginale non protetto. In seguito, la p.o. aveva telefonato il 118 che la aveva condotta in Ospedale.

La donna riferiva, inoltre, tristezza e paura di conseguenze future, oltre a dolore toracico e agli arti. Dalla cartella si evince, altresì, che la p.o. presentava alitosi alcolica e che all'esame obiettivo presentava numerosi segni di ematomi di colorazioni diverse in distinte aree del corpo (arti superiori ed inferiori sia sul lato destro che su quello sinistro) nonché una massa biancastra alla mucosa labiale.

Presso la citata Clinica venivano eseguiti prelievi di materiale biologico sulla zona genitale della p.o. e venivano repellati gli slip che la medesima indossava.

Quanto alla disposta **analisi tecnico scientifica** sui tamponi prelavati sulla p.o. il 03.08.2016 presso il SVS della Clinica M e sugli slip ivi repertati, il dott. A P rilevava

l'integrità della catena di custodia degli stessi ed evidenziava (sia con l'anticipazione di relazione inviata via mail il 21.11.2018, sia con la relazione finale depositata il 14.01.2019, a seguito dell'estensione dell'accertamento tecnico agli slip della p.o.) l'assenza di tracce spermatiche nei campioni prelevati. In particolare, il medico legale evidenziava che sui tamponi prelevati sulla zona genitale della p.o. (genitali esterni, vagina e canale cervicale) non erano state riscontrate né

spermatozoi né proteina semenogeliona (sui tamponi) specifica per lo sperma umano, così come non vi erano tracce spermatiche nemmeno sui campioni di slip analizzati.

Valutazione critica del materiale probatorio

Reputa il Tribunale che gli elementi di conoscenza raccolti in sede dibattimentale offrano solida ed univoca prova della sussistenza dei fatti in contestazione ai capi b) e c) della rubrica.

Va anzitutto rilevato che le dichiarazioni rese dalla p.o. in ordine alla sussistenza di una relazione sentimentale e della convivenza con l'imputato non sono state oggetto di contestazione da parte della difesa.

Ciò posto, deve ritenersi che la p.o. sia credibile ed il suo narrato intrinsecamente ed estrinsecamente attendibile.

Non sono emersi, infatti, elementi che possano minare la credibilità di O la quale, anzi, allorché ha ritenuto di non ricordare bene quanto accaduto, con particolare riguardo alla violenza sessuale riferita il 03.08.2016, ha esplicitato il proprio dubbio affermando chiaramente di non riuscire a "*capire cosa sia successo".*

Quanto all'attendibilità delle dichiarazioni della donna, va evidenziato che la p.o. aveva riferito le lesioni subite nell'immediatezza dei fatti sia al personale sanitario che l'aveva visitata nelle diverse occasioni sia ai militari intervenuti. Inoltre, il racconto della p.o. sulle violenze fisiche subite è stato coerente e adeguatamente collocato nel tempo e nello spazio. Preme evidenziare, peraltro, la commozione della donna nel raccontare il proprio vissuto: *"per me è stata una vergogna chiamare amici", "come mi sono sentita in casa mia che pagavo l'affitto io che da anni sono stata là, cioè una persona normale ... io per anni stavo lì nessuno mi ha toccato, cambiato la vita questa situazione", "tante volte mi ha picchiato", "io non riesco a capire questo suo comportamento", "l'ultima volta mi ha fatto proprio cadere, è andato con i piedi sopra la faccia, dappertutto", "stavo proprio male, avevo paura che muoio".*

Quanto all'attendibilità intrinseca della p.o., va rilevato che gli episodi dalla medesima raccontati hanno trovato conferma sia nelle dichiarazioni rese dai testi che nella documentazione medica agli atti.

In particolare, il teste C ' ha riferito di aver visto la donna con plurimi segni di violenza sul corpo in occasione dell'intervento del 26.07.2016 nonché in quello del 03.08.2016; analogamente il teste P ha raccontato di aver visto la p.o. con plurime ecchimosi sul corpo, le quali sono state riscontrate anche dal medico legale M presso il SVS della Clinica M ove la donna era stata accompagnata dal personale del 118 intervenuto la notte del 03.08.2016.

Quanto alla documentazione medica agli atti, l'analisi della medesima consente di affermare che C si era recata al pronto soccorso in plurime occasioni, riportando, ogni volta, varie lesioni in diverse parti del corpo e, in ogni singolo episodio, aveva riferito di aver subito aggressioni fisiche da parte del proprio compagno-convivente.

Alla luce di quanto sopra evidenziato deve ritenersi che sussistano i **presupposti oggettivi** dei delitti di lesioni nonché di quello di maltrattamenti.
Le varie lesioni subite dalla p.o. sono state attestate dai numerosi referti medici agli atti.
Quanto al delitto di maltrattamenti, le aggressioni all'integrità psico-fisica della p.o. si sono verificate numerose volte nell'arco di un tempo di oltre due mesi, periodo che, seppur non lungo, è sufficiente a configurare l'abitualità del reato.

Quanto **all'elemento soggettivo,** dalla ricostruzione dei fatti e dalla lesività delle condotte (strapparle i cappelli, calpestare la p.o. anche sul viso, insultarla) emerge chiaramente che II H. [111] agito con consapevolezza e volontà non solo di ledere l'integrità fisica della donna, ciò che basta ad integrare il dolo delle lesioni, ma, altresì, con l'intento e la consapevolezza di sottoporre la vittima ad una persistente attività vessatoria.

Devono, pertanto, ritenersi integrati sia il delitto di maltrattamenti di cui al cappo b) sia quello di lesioni di cui al capo c).

Deve ritenersi, altresì, che sussista la continuazione interna fra i diversi episodi di lesioni nonché la continuazione fra i reati di cui ai capi b) e c), posti in essere dall'imputato nell'ambito del medesimo contesto spazio-temporale e nei confronti della medesima persona.
Considerata la pena edittale dei delitti contestati, si giudica più grave il reato sub b).

Venendo alla **commisurazione della pena,** valutati gli elementi di cui all'art. 133 c.p. e, in particolare, ricordata la gravità della condotta e gli effetti prodotti sulla parte offesa (elementi che impongono di discostare sensibilmente la pena dal minimo edittale), si ritiene equo comminare all'imputato la pena finale di anni 3 mesi 6 di reclusione, così determinata: pena base per il più grave reato di cui al capo b) anni 3 di reclusione, aumentata come sopra per la continuazione con il reato di cui al capo c).
Alla presente condanna segue ex legge quella al pagamento delle spese processuali.

Stante la condanna a pena non inferiore ad anni 3 di reclusione deve applicarsi all'imputato la pena accessoria dell'interdizione dai pubblici uffici per anni 5 ex art. 29 c.p., nonché l'espulsione dello stesso dal territorio dello Stato a pena espiata ex art. 235 c.p., considerato che la condotta valutata è indice di pericolosità sociale del soggetto.

Quanto al delitto di cui al capo a), nonostante la p.o. abbia più volte riferito, nell'immediatezza dei fatti, di aver subito violenza sessuale la notte del 02.08.2016, la medesima in dibattimento ha dichiarato di non essere certa di quanto accaduto. In particolare, la donna ha riferito di essersi trovata con i vestiti alzati e con dolore alla zona del ventre ma di non ricordare bene e di non sapere spiegare cosa sia successo quella sera.
Nemmeno la perizia disposta dal Tribunale ha consentito di accertare se la riferita violenza sessuale si sia effettivamente verificata. In particolare, gli accertamenti tecnici disposti sui tamponi effettuati nella zona genitale della donna nonché quelli svolti sugli slip che la stessa indossava sono risultati privi di riscontri di materiale spermatico. Ciò, pur non costituendo prova dell'assenza di violenza, non consente di superare il ragionevole dubbio circa l'avvenuta commissione del reato di cui al capo a), per il quale, pertanto, l'imputato deve essere assolto.

Considerato il carico di lavoro assegnato a questo Tribunale ed il contemporaneo impegno nella trattazione di altri processi con imputati detenuti, nonché la complessità del presente procedimento, si fissa in giorni 60 il termine per il deposito della motivazione della presente sentenza.

urlando ed inveendo nei suoi confronti, minacciandola, strattonandola, dandole schiaffi in volto, percuotendola e tirandole i capelli tanto da strapparle alcune ciocche, così rendendo penosa ed intollerabile la convivenza, anche a causa del coinvolgimento dei figli spesso presenti e dei genitori della donna, anch'essi destinatari di urla ingiuriose e minacce; in particolare, tra le reiterate condotte sopra descritte, in atto da anni ed intensificatesi negli ultimi mesi tanto da diventare quotidiane:

- giardino dei suoceri una panchina, prendeva a calci le piante, lanciava uno stendibiancheria ed un portacenere contenente mozziconi di sigarette, urlando nei confronti della moglie e dei suoceri "stasera vi ammazzo, vi faccio fuori" se al ritorno dal lavoro non avesse trovato il parcheggio libero ed un separé tra la propria abitazione e quella dei suoceri;
- il 15.2.2016, nel corso di una lite insorta per motivi economici, colpiva la moglie con un pugno al naso, con schiaffi al volto e le tirava i capelli al punto da strapparle una ciocca; il 3.1.2016 inveiva nei confronti della moglie accusandola di non occuparsi con sufficiente cura della figlia di quattro anni alla presenza di quest'ultima e del figlio S di diciotto anni, che interveniva a AA difesa della madre e riceveva perciò dal padre uno schiaffo; successivamente spintonava G ^{1}

nella mattinata del medesimo 21.4.2016, prima di uscire di casa per recarsi al lavoro, scaraventava nel B e urlava verso di lei epiteti quali "puttana, bastarda", per poi uscire sul balcone ed inveire nei confronti dei suoceri e del cognato, quest'ultimo apostrofato come "bastardo".

MOTIVI DELLA DECISIONE

Con decreto emesso dal GIP in data 9/5/2017 L [1] M veniva rinviato a giudizio per rispondere del reato ascrittogli come da allegata imputazione.

All'udienza del 29/1/2018, aperto il dibattimento, le parti formulavano le rispettive istanze istruttorie, che il giudice accoglieva procedendo all'esame dei testi

L'imputato si limitava a rendere spontanee dichiarazioni. Quindi, all'odierna udienza, le parti illustravano le rispettive conclusioni e il giudice decideva dando lettura del dispositivo.

La presente vicenda processuale trae origine dalla denuncia querela sporta il 16/2/2016 da G B nei confronti del marito L M; , con cui era sposata da circa vent'anni e dal quale si sarebbe separata in data 2016. La G ha tuttavia circostanziato che quella - peraltro rimessa in udienza preliminare - è stata l'ultima di una serie di denunce querele sporte nei confronti del marito e successivamente rimesse.

La deposizione della G , che pure ha ripercorso con fatica i singoli episodi oggetto di denuncia, ha nel complesso riscontrato l'ipotesi accusatoria di maltrattamenti. La difficoltà nel rievocare i singoli episodi, lungi dallo sconfessarne la credibilità, si giustifica, come spesso accade nei procedimenti per maltrattamenti, con il tempo trascorso dai fatti e, soprattutto, con la pluralità di episodi analoghi succedutisi in un arco di tempo non breve, nel caso di specie di circa quattro anni precedenti la separazione, a cui la G si determinava proprio in conseguenza delle condotte del marito. Si aggiunga, nella vicenda che qui ricorre, la verosimile volontà della persona offesa di relegare quei fatti spiacevoli al passato, in seguito alla serenità di vita conquistata con la separazione - volontà suggellata dalla remissione della querela, ribadita anche in dibattimento - .

Pertanto, prescindendo ed astraendo dai singoli episodi, collocati nell'ultimo anno di convivenza, che pure la G ha confermato a seguito delle contestazioni, la stessa ha dato conto, ciò che più conta, di una dinamica familiare caratterizzata da peculiare irascibilità del marito che, nelle discussioni, qualora non si trovasse in accordo con la moglie, la aggrediva verbalmente, insultandola con le parole "puttana, zoccola". La donna spesso gli rispondeva e nascevano accesi litigi. Durante i litigi capitava che lui la percuotesse, dandole qualche sberla o tirandole i capelli. Lei alzava le mani "per difendersi". Tali litigi accadevano "una volta, due anche a settimana, oppure anche dopo un mese..." e sempre alla presenza dei figli, due dei quali minori. A questi litigi seguivano periodi di fredda distanza, ai quali la G cercava di porre rimedio proponendo ogni volta una riappacificazione, L allora le dava ragione, giustificando la propria condotta con "momenti di rabbia", senza tuttavia mai riuscire a superare quella rabbia oppure convogliarla in altra direzione, come significativamente precisato dalla persona offesa: "Però momenti di rabbia una volta, due volte, tre volte, quattro volte...una alla fine non ce la faceva più". Ha precisato, infine, la teste, a domanda conclusiva del giudice volta a capire l'intensità degli atti violenti del marito, che in occasione dei litigi il marito poteva percuoterla con più sberle consecutivamente.

In fase di separazione, tali litigi trascendevano al punto che L

usciva sul balcone ed urlava le medesime ingiurie contro di lei e contro i suoceri, cosi facendosi sentire da tutto il vicinato e dai suoceri che abitavano di fianco. Talvolta la donna o i suoi genitori o addirittura il figlio S ; si vedevano costretti a fare intervenire le forze dell'ordine, perché L "non si calmava" , mentre in
un'altra occasione fu L a chiamare i CC perché aveva avuto uno scontro col
padre della G (circostanze riscontrate dagli operanti di volta in volta
intervenuti). Durante la fase della separazione, infatti, si era innescata una dinamica conflittuale che aveva coinvolto i genitori della G , che, a dire della stessa, erano divenuti immotivatamente un bersaglio delle ire del marito, unitamente a sé medesima.

La G ha spiegato che tali comportamenti improntati ad aggressività nei
suoi confronti avevano caratterizzato gli ultimi quattro anni della vita matrimoniale, seppur a fasi alterne, ciò che, anche a volersi ritenere gli episodi di violenza del 2016 in qualche modo attratti nell'alveo per sua natura conflittuale della separazione, consente di ritenere la condotta di L abituale, in quanto caratterizzata dallo sfogo della
propria rabbia sulla moglie, e sorretta da un dolo unitario, quello di affrontare le divergenze all'interno della coppia o i propri malumori con denigrazione e prevaricazione sulla moglie addivenendo, nei litigi, anche a ripetuti atti di violenza fisica.

Sebbene la persona offesa non si sia mai recata in tali occasioni al pronto soccorso, e dunque le sue dichiarazioni non siano riscontrate da certificati medici, - ciò che peraltro è in linea con la tipologia delle percosse, consistenti in sberle o strattonamenti ai capelli - la condotta manesca dell'imputato è riscontrata dal figlio S (che ha riferito peraltro di non essere stato indenne a sua volta dagli schiaffi "educativi" del padre o dagli spintoni dello stesso, quando cercava di farlo entrare dal balcone), il quale ha confermato che nei litigi talvolta il padre tirava i capelli o colpiva con schiaffi la madre, oltre ad insultarla "pesantemente" e - ha aggiunto - a minacciarla di atti di ritorsione ("ti dò fuoco alla macchina, ti taglio le gomme"). Ha circostanziato che, anche al di fuori dei litigi, quando usciva di casa, lui la intimoriva con le parole "stai attenta".

Deve, invero, escludersi che la dinamica di coppia fosse caratterizzata da reciproca aggressività, in quanto è emerso che la condotta della G fosse
consequenziale a quella del marito. La teste ha in particolare spiegato che l'uso della violenza fisica veniva dalla stessa talvolta adottato per difendersi. La testata ricordata dal figlio S , peraltro isolata, seppure non possa collocarsi in tale contesto di difesa, non è nemmeno indicativa di un contesto di violenza reciproca di coppia, in quanto parrebbe essersi trattato di un atto impulsivo originato, per quanto appreso da parte di S da "tutti i presenti" - il che la rende una circostanza ex se probatoriamente poco valorizzabile - da un moto d'orgoglio, perché L aveva offeso il padre della
G . Il figlio S ha, inoltre, circostanziato che gli argomenti che originavano i litigi potevano essere sì introdotti a volte dall'uno a volte dall'altra, ma che era il padre che, se si arrabbiava, alzava le mani. Questo suggella l'assenza di parità nella condotta dei coniugi.

Che la Gl rispondesse talvolta alle violenze del marito non implica che
lo stato psicologico della donna non fosse stato compromesso dalla condotta di costui - ciò che peraltro non è richiesto per l'integrazione dell'elemento materiale del reato, che è configurato come reato di condotta e non di evento, ma semmai agevola la ricostruzione del dolo dell'agente, tanto più evidente quanto più è marcato lo stato di soggezione morale in cui è ridotta la persona offesa -.

Il figlio S , invero, ha descritto come la madre, a seguito dei comportamenti intemperanti del padre, di solito piangeva "dalla disperazione". Lo stato di preoccupazione della donna è stato altresì riferito dal teste R intervenuto nell'abitazione il 21/4/2016. Peraltro, la madre della G , B [1] R , ha
riferito di aver assistito a molte discussioni della coppia, in cui L insultava
la G , chiamandola "puttana" davanti ai figli, mentre quest'ultima incassava. Il che significa, quanto meno, che la persona offesa, al di fuori dell'intimità della propria casa, subiva senza reagire. D'altro Iato le esplosioni di aggressività in presenza di terzi, a fonte di un contegno remissivo dell'altra parte, contribuiscono a valorizzare la condotta penalmente rilevante, essendo indicative dall'incapacità di autocontrollo dell'agente e della volontà, di infierire sulla persona offesa.

In conclusione, il reato non viene meno in dipendenza di una attiva reazione della vittima. Il reato, semmai, viene meno in presenza di una dinamica relazionale reciprocamente aggressiva - non apparendo sufficiente l'esistenza di una dinamica conflittuale, che può essere endemica nelle relazioni dì convivenza, nella quale le due parti possono per vero adottare condotte diversificate -, circostanza esclusa nel caso di specie.

L'imputato, dal canto suo, non ha offerto elementi specifici valorizzabilì per superare il giudizio dì colpevolezza in ordine ai fatti commessi.

L'invocata riqualificazione del fatto quale abuso dei mezzi di correzione non è pertinente, poiché il marito non ha alcun potere disciplinare sulla moglie.

In punto di trattamento sanzionatorio può osservarsi quanto segue:

- la condotta esemplare tenuta dall'imputato dopo la separazione, di cui hanno
dato conto sia la G sia il figlio S , giustifica appieno il riconoscimento
delle circostanze attenuanti generiche prevalenti sulla contestata aggravante;
- l'assenza di lesioni conseguenti alle percosse inflitte alla moglie consente inoltre l'individuazione della pena base in misura aderente al minimo edittale.

La pena può pertanto essere commisurata come segue:

- pena base: due anni di reclusione;
- ridotta per le circostanze attenuanti generiche: un anno e quattro mesi di reclusione.

Segue la condanna al pagamento delle spese processuali.

La spontanea cessazione della condotta illecita consente inoltre la concessione dei benefici di legge, potendosi presumere che l'imputato si asterrà dal commettere nuovi reati.

MOTIVI DELLA DECISIONE

II GIP di Milano, all'esito dell'udienza preliminare - nell'ambito della quale si costituiva parte civile la persona offesa L G

C " - disponeva il rinvio a giudizio di F D
contestandogli il reato indicato nel capo d'imputazione di cui in epigrafe.
All'udienza del 10.4.18, celebrata in presenza dell'imputato, il Giudice si pronunciava sulle richieste probatorie avanzate dalle parti come da ordinanza allegata al verbale di udienza.
Alla successiva udienza del 18.7.2018 veniva escussa la persona offesa L G C laddove il Giudice ammetteva

l'acquisizione al fascicolo del dibattimento di tutta la documentazione di cui le parti chiedevano la produzione agli atti (veniva in particolare acquisita, su richiesta del P.M. e della parte civile, documentazione inerente gli sms ricevuti dalla 1
All'udienza della 16.1.19, acquisito agli atti, ex artt. 513 e 515 c.p.p., il verbale di interrogatorio reso dall'imputato in data 25.9.17, il Giudice dichiarava utilizzabili ai fini della decisione gli atti inseriti nel fascicolo del dibattimento ex art. 511 c.p.p.: sentite quindi le conclusioni rassegnate dalle parti, il Giudice si ritirava in camera di consiglio per deliberare come da dispositivo di sentenza letto in udienza.

A fronte dell'imputazione di cui in epigrafe, che contesta a F E il reato di atti persecutori in danno di L G Concetta dal 31 ottobre 2016 al 5 maggio 2017, la documentazione prodotta agli atti consente di inquadrare il reato in un più ampio contesto di contrasti tra ex conviventi, contrasto che aveva già condotto all'apertura di altro procedimento penale (portante nn. 924/16 RG NR e 12143/16 RG Trib.) per fatti analoghi.
In data 12 aprile 2016, infatti, il GIP di Milano applicava al F la misura cautelare del divieto di avvicinamento e di comunicazione con le persone offese S C e S V ., padre e sorella di 1 G nonché con la stessa I G:
quale "famigliare" dei primi due, per il reato di atti persecutori commesso tra il 29 giugno 2015 ed il 14 marzo 2016. Il procedimento scaturiva, in particolare, dalle querele sporte da S C il 10 luglio 2015 ed il 31 dicembre 2015 e da
S V il 14 marzo 2016.
L'imputazione aveva ad oggetto il comportamento ingiurioso, molesto e minatorio assunto dal F nei confronti dei familiari della

ex convivente L G a seguito della fine della relazione
sentimentale: si precisava nella stessa imputazione che la L proprio a seguito della condotta illecita tenuta dall'ex convivente, si trasferiva all'estero, in Germania, in data 12 marzo 2016.
La misura cautelare veniva successivamente aggravata con quella degli arresti domiciliari, con ordinanza del 29.5.2017, a seguito della violazione da parte del F lei divieto di comunicare con le persone offese.
In data 5 ottobre 2017, infine, la misura degli arresti domiciliari veniva sostituita con quella della custodia cautelare in carcere - dopo che il F m sentenza del 18 luglio 2017, era stato condannato per il reato di atti persecutori nei confronti di S V e S C alla pena finale di mesi nove e giorni cinque di reclusione - a seguito della riscontrata evasione del F dal luogo degli arresti domiciliari.
Il F veniva poi scarcerato in data 2 marzo 2018, sicché alla data della prima udienza celebrata in questo processo, ossia il 10 aprile 2018, si trovava in stato di libertà.
Orbene, in pendenza del suddetto proced. pen. 924/16 RG NR L
G in data 5 maggio 2017, sporgeva nuova querela nei
confronti del F D
La L in sede di deposizione dibattimentale resa all'udienza del 18 luglio 2018, riferiva, in sintesi, quanto segue:
- che conobbe D F ' in quanto abitavano vicini, nell'anno 2010;
- che i suoi genitori, sin da subito, si opposero alla sua
frequentazione con D sapendo che aveva *"problemi di tossicodipendenza di carcerazioni ed alzava le mani alle sue ex fidanzate"* (cfr. pag. 4 trascr.);
- che, non ascoltando il consiglio dei genitori, iniziò una relazione sentimentale con D verso aprile-maggio 2010;
- che, già dopo pochi mesi di fidanzamento, sporse una prima denuncia contro D per percosse ed aggressioni, denuncia che poi ritirò essendo *"innamorata"* di lui e sentendosi *"in colpa"* (cfr. pag. 4 trascr.);
- che, dopo un periodo di carcerazione di E per altri fatti, riprese la loro relazione;
- che D nel corso della loro relazione, fece sempre uso 'Wz *tanto alcol e tanta cocaina''* *e* spesso usò violenza nei suoi confronti, tanto che presentò una nuova denuncia nel 2015 (cfr. pag. 5 trascr.);
- che nel marzo 2016, dopo la denuncia sporta da suo padre e da sua
sorella, si trasferì in oer alcuni mesi, laddove E pur
essendo gravato dalla misura del divieto di incontro, la raggiunse per alcun periodi, sicché continuarono la loro relazione anche in

- che ad agosto 2016 rientrò in Italia e, non potendosi rivolgere ai
suoi genitori con cui non parlava neppure più (cfr. pag. 8 trascr.), chiese ai genitori di E se potessero ospitarla a casa dello stesso D sita in Milano nonostante fosse ancora
in corso la misura cautelare a carico di D;
- che, a suo dire, rispettarono la misura cautelare, nel senso che quando lei era in casa E rimaneva fuori casa, ma che, di fatto, stavano ancora insieme;
- che la relazione ebbe termine il 16 settembre 2016, allorché accadde quanto di seguito testualmente riportato: *il 16 settembre c'è stata l'udienza preliminare in cui lui assolutamente mi diceva che io dovevo dire quello che diceva lui, che io dovevo chiedere la rimozione della misura cautelare perché l'amavo e perché stavamo insieme, questo sempre sotto minaccia: fallo se no botte. C'è stata l'udienza, io sono entrata non ho potuto parlare perché in quella circostanza non potevo parlare... uscita da lì ci siamo incontrati... e lui si è arrabbiato, ha ingiuriato contro di me dicendo che io avrei dovuto parlare... e mi ha tirato degli schiaffi, poi mi ha tirato le chiavi di casa sua e mi ha detto: vai a casa e aspettami che arrivo, io sono andata a casa sua il 16 settembre, dopo l'udienza, ho preso la valigia e sono andata via.. "* (cfr. pag. 10 trascr.);
- che, andata via dall'abitazione di E ' >ì recò per alcuni mesi presso l'abitazione di un'amica, dalla quale aveva paura anche solo ad uscire per il timore di incontrare D (Testualmente, pag. 11 trascr.: *"non l'ho visto perché non sono più uscita di casa, mi ha ospitato un'amica che abitava vicino a lui, un 50 metri a fianco di casa sua, mi ha ospitato e sono rimasta chiusa in casa per 10 mesi e uscivo soltanto scortata in macchina e non mi affacciavo neanche alla finestra perché poteva vedermi'fi*

- che l'uomo non sapeva lei dove fosse andata, sicché prese ad inviarle messaggi dal contenuto ingiurioso e/o minatorio anche perché lei non gli rispondeva nemmeno più al telefono;
- che temeva realmente per la sua incolumità, e dunque che D desse seguito alle sue minacce di morte, sia perché non riusciva *"più a contenere le sue reazioni"* (cfr. pag. 9 trascr.), sia perché sapeva che E in passato, era stato anche condannato per porto d'arma (un coltello da cucina);

- che, dopo una decina di mesi, trovò un posto di lavoro e si trasferì, sempre a Milano, ma in un'altra zona della città;
- che, tra le minacce dell'uomo, vi era anche quella di diffondere alcuni video raffiguranti i loro rapporti intimi, video girati volontariamente quando stavano insieme (cfr. pagg. 6 e 12 trascr.);
- che, in un messaggio, D minacciò di morte anche suo fratello A di soli 9 anni;
- che nel novembre 2016, quando abitava ancora presso la sua amica, iniziò ad andare da una psicologa, per quasi un anno, per i problemi causatile dalla relazione con D fr. pag. 18 trascr.);
- che, durante il periodo della sottoposizione di D ' alla misura cautelare del divieto di incontro, i due si relazionavano attraverso un falso profilo di Facebook, dove lei compariva con il nome di *"M Mi '* (cfr. pag. 21 trascr.);
- che, ancora nel 2017, mandò alcuni messaggi a D; n risposta alle sue minacce e provocazioni, in quanto la sua volontà era che *"sparisse""* dalla sua vita (cfr. pag. 24 trascr.).

Orbene, la documentazione in atti fornisce un primo concreto riscontro alla genuinità ed attendibilità della persona offesa: emerge infatti dalla certificazione medica della Casa circondariale ove il F venne recluso, che lo stesso era "dipendente da cocaina", il che riscontra quanto lamentato dalla L circa il fatto che D facesse uso di *"tanta cocaina",* ed inoltre affetto da "sindrome ansioso depressiva e disturbo bipolare". A ciò si aggiunga che il certificato penale dell'imputato riscontra quanto lamentato dai genitori della L _ sin dall'inizio della relazione tra la figlia ed il F ' cfr. deposizione L pag. 4 trascr.: *.abbiamo cominciato ad uscire di nascosto dai miei genitori perché conoscevamo già l'elemento ...nel senso che aveva problemi di tossicodipendenza di carcerazioni ed alzava le mani alle sue ex fidanzate, quindi i miei genitori quando hanno saputo che lo frequentavo hanno cominciato ad opporsi...").* in quanto effettivamente il F nel 2010, era già stato condannato per i reati di maltrattamenti in famiglia, violenza sessuale, lesioni personali e minaccia.

Ulteriore e definitivo riscontro è costituito dal tenore degli sms inviati dal F sull'utenza in uso alla L

Di seguito si riporta, testualmente, il contenuto di tali messaggi.

Ciò posto il f ne 11'interrogatorio reso il 25.9.17 agli atti, protestava la sua innocenza imputando viceversa alla L una condotta molesta e minatoria. Sosteneva che la donna, allorché rientrarono in Italia dalla , venne a conoscenza di un suo *"tradimento",* sicché dapprima si allontanò da casa e poi prese a molestarlo con video-telefonate anche notturne e recandosi presso la sua abitazione, ove sapeva che era detenuto agli arresti domiciliari, per "*istigarlo"* ad uscire fuori onde poterlo poi denunciare per evasione. Aggiungeva, infine, che mai minacciò di divulgare i video intimi che avevano girato di comune accordo, anche se, in un *"attimo di rabbia"* dovuto alle molestie della donna, le disse testualmente: DEVI SMETTERLA DI VENIRE QUA SOTTO, DI MANDARMI MESSAGGI, MI DEVI LASCIARE IN PACE, MI DEVI MOLLARE SE NO METTO LA NOSTRA RELAZIONE SU FACEBOOK.

Orbene, la protesta di innocenza manifestata dall'imputato non può che ritenersi evanescente e contraddittoria, ed invero: poiché i fatti in contestazione datano "dal 31.10.2016 al 05/05/2017", laddove il F veniva ristretto in regime di arresti domiciliari solo dal 29.5.17, le pretese "molestie" della donna correlate al tentativo di *"istigarlo"* ad uscire fuori di casa non possono certo giustificare gli sms - sopra riportati - inviati tra il 31.10.16 ed il 17.4.17, in quanto, a quell'epoca, il F non era in stato di detenzione domiciliare; il tenore minatorio e "rivendicativo" dei messaggi del 31 ottobre 2016 ('7/ *ammazzerò; la paghi devi piangere rispondimi merda, infame ti ammazzo devi rispettarmi se divento così è colpa tua vedrai in aula ti ammazzo"')* non appare certo compatibile con quanto preteso dal F ' - ossia che era la L a molestarlo e tormentarlo in quanto "arrabbiata" per il suo tradimento - mentre risulta del tutto compatibile con la versione resa dalla persona offesa, ossia che D aveva preso a cercarla telefonicamente e a perseguitarla una volta che lei si era allontanata da casa a settembre 2016.

D'altra parte anche le minacce di *"menare"* il fratellino della L non possono certo spiegarsi con il "disappunto" del F per il fatto che la donna non si rassegnasse alla fine della relazione sentimentale: sotto altro profilo va sottolineato, a definitiva conferma della attendibilità della persona offesa, che il primo procedimento penale scaturì dalle denunzie del padre e della sorella della L ma che questa, pur essendo già stata oggetto di violenze da parte dell'uomo come spiegato in sede di testimonianza, non volle denunciarlo, determinandosi poi alla denuncia solo quando il comportamento dell'uomo divenne per lei ingestibile ed in particolare quando, a seguito delle minacce rivoltele dall'uomo per determinarla a chiedere la revoca della misura cautelare, iniziò seriamente ad avere paura e a temere per la sua stessa incolumità fisica.

A fronte di simili convergenti risultanze indiziarie, pertanto, si reputa che i messaggi sottolineati dalla difesa, con cui la donna manifestava al F l'intenzione di fargliela pagare (sms del 5.4.17) e di odiarlo per tutto *"questo dolore che mi stai facendo provare"* (messaggio del 2.4.17), non siano affatto sintomatici di volontà calunniatoria, bensì, come convincentemente spiegato dalla persona offesa in sede di testimonianza, di suoi sfoghi contro un uomo che aveva davvero amato e che invece le aveva rovinato la vita non sapendo far *"altro che bere e drogarsi"* (cfr. pagg. 23 e 24 trascr.).

Quanto alla qualificazione giuridica dei fatti, pare opportuno premettere e rammentare quanto segue:

- integrano il delitto di atti persecutori, di cui all'art. 612 bis cod. pen., anche due sole condotte di minaccia o di molestia, come tali idonee a costituire la reiterazione richiesta dalla norma incriminatrice (cfr. ad es., Cass. Pen., Sez. 3, Sentenza n. 45648 del 23/05/2013);
- ai fini della configurabilità del reato di atti persecutori è sufficiente la consumazione anche di uno solo degli eventi alternativamente previsti dall'art. 612 bis cod. pen. (cfr. Cass. Pen., Sez. 5, Sentenza n. 43085 del 24/09/2015);
- in tema di atti persecutori, la prova dell' evento del delitto, in riferimento alla causazione nella persona offesa di un grave e perdurante stato di ansia o di paura, deve essere ancorata ad elementi sintomatici di tale turbamento psicologico ricavabili dalle dichiarazioni della stessa vittima del reato, dai suoi comportamenti conseguenti alla condotta posta in

essere dall'agente ed anche da quest'ultima, considerando tanto la sua astratta idoneità a causare l'evento, quanto il suo profilo concreto in riferimento alle effettive condizioni di luogo e di tempo in cui è stata consumata (cfr. Cass. Pen., Sez. 6, Sentenza n. 20038 del 19/03/2014).

Ciò posto non v'è dubbio che la condotta tenuta dal F - come visto reiteratamente offensiva, minatoria e lesiva della sfera privata e della libertà morale della L - abbia integrato gli estremi oggettivi del reato di cui all'art. 612 bis c.p., anche perché lo stesso tenore dei messaggi inviati dal F - gravemente minatorio e peraltro provenienti da un uomo già in passato condannato per maltrattamenti e violenze - dà debito conto della vera e propria *"paura"* che la donna riferiva di aver nutrito nei confronti di D tanto da aver temuto che l'uomo potesse davvero mettere in pratica le sue minacce di morte (cfr. pag. 9 trascr.), doglianze del tutto idonee, di per sé, a far ravvisare anche l'evento del contestato reato di cui all'art. 612 bis..

Provata, dunque, la penale responsabilità di F D in ordine al reato di cui all'art. 612 bis c.p. ascrittogli in rubrica.

Venendo alla determinazione della pena si reputa di riconoscere all'imputato le circostanze attenuanti generiche - in giudizio di equivalenza rispetto alla contestata recidiva nell'ambito del giudizio di bilanciamento di cui all'art. 69 c.p. - in ragione della riferita cessazione della condotta illecita dopo la denuncia del maggio 2017 e delle precarie condizioni psichiche in cui versava il Fi all'epoca dei fatti in contestazione, in quanto soggetto affetto da "disturbo bipolare e dipendenza da cocaina".

Valutati quindi i parametri di cui all'art. 133 c.p. si reputa equo condannare F D alla pena di anni uno di reclusione.

All'affermazione di penale responsabilità dell'imputato segue, per legge, la condanna del prevenuto:

- al pagamento delle spese processuali ex art. 535 c.p.p;
- al risarcimento dei danni in favore della costituita parte civile

LG C danni che si reputa di liquidare

definitivamente nella misura di euro 5000, ritenendosi tale somma costituire equo ristoro, secondo valutazione equitativa, al danno patrimoniale e non patrimoniale sofferto dalla persona offesa;

- al pagamento delle spese processuali sostenute dalla costituita parte civile ex art. 541 c.p.p., spese che si liquidano come specificato in dispositivo conformemente alla corretta nota spese depositata dal patrono di parte civile in sede di conclusioni (con distrazione in favore dello stato anticipatario, ex HO DPR 115/02, attesa l'intervenuta ammissione della parte civile al gratuito patrocinio)

Si impone infine per legge, non trattandosi di corpo di reato o di cose pertinenti al reato per cui si procede, il dissequestro e la restituzione all'imputato avente diritto dei beni a lui sequestrati con verbale redatto dal C.to di PS " di Milano in data 28.6.2017.

MOTIVAZIONE

Con decreto emesso ex art. 455 dal GUP in data 6.4.2018, si disponeva il rinvio a giudizio di B L L , chiamato a rispondere del reato ascritto in rubrica.
Al dibattimento, svoltosi alla presenza dell'imputato, sottoposto alla misura del divieto di Con il consenso delle parti si acquisivano tutti gli atti d'indagine.
Si disponeva inoltre perizia in ordine alla capacità di intendere e volere dell'imputato al momento dei fatti.
Dopo l'escussione del perito, all'esito del giudizio le Parti concludevano come in epigrafe ed il Giudice decideva secondo dispositivo riservando giorni novanta per il deposito della motivazione tenuto conto del carico di lavoro dell'ufficio.

La condotta istruttoria dibattimentale ha fornito chiari ed univoci elementi di reità nei confronti dell'odierna imputato in ordine alla condotta delittuosa ascritta.
Dagli atti d'indagine consensualmente acquisiti risulta che, immediatamente dopo l'udienza in cui veniva emessa nei confronti dell'odierno imputato, dal GUP presso il Tribunale di Pavia, la sentenza ex art. 444 c.p.p. di applicazione della pena per i reati di cui agli artt. 81 cpv, 612bis, 635 c.p. in danno di S M (ritenuti in continuazione con i reati di cui agli artt. 612bis, 610, 368 c.p. di cui alla sentenza della Corte d'Appello di Milano in data 1.3.2016 irrevocabile il 26.5.2016commessi in danno di altra persona offesa), lo stesso imputato poneva in essere un'altra serie di confronti della stessa persona offesa.
In particolare, nella querela in data 28.10.2017, la persona offesa riferiva che dal febbraio 2014, quando aveva sporto la prima querela contro l'ex compagno al 12.10.2017, giorno in cui era stata emessa la sentenza, il B non aveva mai smesso di inviare Sms, di chiamarla al telefono e di inviarle mail o lettere manoscritte che le faceva trovare nella buca delle lettere. La stessa precisava che tali condotte perduravano anche dopo l'emissione della sentenza richiamata; infatti il B inviava alla M continuamente mail e messaggi, seppure da un numero diverso, chiaramente riconducibili all'imputato perché del medesimo tenore di quelli inviati dallo stesso.
La donna spiegava di essere soggetta a continue crisi d'ansia e di panico e di seguire pertanto un percorso di psicoterapia da due anni; di aver dovuto modificare le proprie abitudini di vita per evitare di incontrare il B che abita nel medesimo piccolo centro. Allegati alla querela vi é la stampa di alcuni messaggi sms e di alcune mail ricevuto nel più recente periodo. Si ricava dunque che dall'utenza , la M riceveva, con
frequenza ossessiva, messaggi ingiuriosi dal contenuto ingiurioso, o di scuse, o di recriminazioni, o di richiesta di tornare insieme:
- 14.10.2017 ore 18,18 "ciao, hai tradito i sentimenti di L e la fiducia anche di tutta la famiglia. Lui ti vuole bene e ti ha voluto bene di che stato pronto ad aiutarti sinceramente e col cuore... il fatto anche condannare e non sei riuscita ad avere un minimo di conversazione amichevole con noi. Lui è stato tanto male perché ti vuole bene ed ha sofferto moltissimo per te. Potevate essere più in sintonia e andare d'accordo ciao G i";

14/10/2017 19.00 12 "scusami ancora una cosa: oltretutto l'hai preso doppiamente in giro sbloccando su Messenger e poi presentati messaggi in tribunale";
16/10/2017 11.00 35 "mi manchi, aspettavo un tuo messaggio";

- 16/10/2017 18.00 25: "era così bello e naturale volersi bene... io ho fatto sacco di sbagli.
  Se si potesse riprovare? Col tempo".

20/10/2017 20.09: "io... sono qua e lo sai";

- 20/10/2017 ore 21.13: "... Diventare genitore, crescere interiormente, ed avere una responsabilità è una cosa bellissima";
- 21/10/2017 ore 21.36: "l'importante nella vita volersi bene, e io so che tu sei una brava persona";
- 26/10/2017 8.49: "prima fai l'amore come per anni e poi mi mandi in merda?? Eh no mia cara non si fa così sai";
- E-mail del 23/10/2017, proveniente dall'indirizzo . @ com" auguriamo alla sarà un felicissimo compleanno... E lo auguriamo anche a te per i tuoi prossimi ormai giunti 46 (come Valentino Rossi V.R. 46!!!!). col tempo si spera sempre che le persone diventano dolci e mansuete! Noi ti vogliamo bene, non abbiamo nessun rancore nei tuoi confronti, maiuscolo si spera che tu possa avere ancora un rapporto amichevole con noi, questo lo puoi fare e sapere solo tu. Ciao !"

Dall'integrazione di querela in data 2/12/2017, risulta che S M in data : 10/2017 mentre stava uscendo di casa con la sua amica S C vedeva comparire il B che, dall'altra parte della strada, iniziava a urlare contro di lei "auguri di buon compleanno, 46 come Valentino Rossi, brutta troia di merda!"; l'uomo si allontanava solo quando la M gridava che avrebbe chiamato i Carabinieri, come in effetti faceva.
In data 16/11/2017, alle ore 21.34, la M riceveva dall'utenza visionato
anche dalla P.G. operante, un messaggio SMS: "ascoltaci bene e molto attentamente, finiscila, smettila sul serio di fare denunce e segnalazioni ai carabinieri e dire che L ti molesta perché non ti ho fatto niente di male e tu gli hai rovinato gli anni più belli e non ti rendi neanche conto che lui ha ti solo cercato perché ti vuole bene e tu hai fatto la pessima donna. Quindi vedi di finirla altrimenti prendiamo seri provvedimenti, ci siamo capiti bene. Smettila di fare la stronza. Al prossimo segnale sei finita. Intesi";
In data 21/11/2017, ore 21.50, la M riceveva una messaggio SMS dall'utenza , visionato dalla P.G.: "tu hai rovinato gli anni migliori ad un ragazzo che ti voleva molto bene ... E ti permetti di dire in giro che hai paura di uscire in paese perché hai una figlia? Ma ti rendi conto di cosa hai fatto, sei una menomata mentale e una donna piccola di testa. Vendi i cani così sei contenta. Che schifo che fai".
Dal verbale di sommarie informazioni rese da C S , si trae conferma di quanto addotto dalla vittima rispetto all'episodio del 31.10.2017; la C infatti confermava che verso le ore 20,30, mentre scendeva da casa della M insieme a quest'ultima, il B compariva dall'altra parte della strada, urlando, appunto, "auguri di buon compleanno, 46 come Valentino Rossi, brutta troia di merda".
Dal verbale di sommarie informazioni rese in data 7.2.2018 da M S , si ricava che, anche dopo la presentazione delle querele sopra richiamate, il B continuava a mandare alla stessa SMS e-mail, nonché le recapitava una lettera scritta a mano.
Lo stesso il 25 e 29 gennaio 2018 chiamava la M in ufficio direttamente al suo interno ed ella riattaccava immediatamente. La frequenza dei messaggi e delle mail era la pressoché settimanale, con picchi in alcuni giorni in cui scriveva tutto il giorno.
Venivano acquisite da parte dei Carabinieri di , le relazioni psicologiche redatte dai centri che avevano avuto in cura la parte offesa, in cui si dà atto e di un disturbo

In quella sede venivano acquisiti ulteriori messaggi ed e-mail inviati dal B alla M
A titolo di esempio:
Mail 27.1.2018 : ": Vorrei un tuo consiglio: secondo te come si fa per reprimere il bene naturale che si prova per una persona?? È una

cosa che mi sta chiedendo tutti giorni da quando ti conosco!! Forse probabilmente si tratta proprio di amore incompreso!!!ke sfiga!! Io ce la metto tutta credimi!
Mail 24.1.2018: “ciao!... Ho solo una cosa da dire... ti interessa se ti fa piacere avere e mantenere una vera amicizia come!?? Se decidi... Fammi sapere in qualche modo. Io sono qua. ATTENZIONE: questo non vuol dire chiedere la carità chiaro! È solo un modo per dimostrarti rispetto bene ciao grazie”
SMS del 1.1.2018 “Ma dio santo mi vuoi scrivere?”
SMS del 1.1.2018 “ma tu come ti permetti di farmi soffrire in questo modo? Non hai un po' di vergogna di rimorsi con te stessa? Fatti un esame di coscienza. Che io me lo sono fatto” SMS del 30 gennaio 2018 20.00 19 “kissà se un giorno vorrai ancora dedicarmi la tua attenzione... E fare l'amore ancora con me??!!! Sarebbe bellissimo”.
In atti é stata acquisita anche una lettera manoscritta ricevuta dalla M dopo la presentazione della querela. Si riportano alcuni stralci: “sei riuscita a farmi condannare ma non hai ottenuto nessun risarcimento! Insomma i soldini non sono arrivati! Bene! Ma questo non è quello che conta, bensì quello che veramente conta sono le parole che ti sto per dire”... “io ti amavo, ti volevo bene ma facevo in modo praticamente in modo sbagliato! Poi sono subentrate le ossessività e le gelosie e logicamente tutto andato a puttane!”... “in tutta questa storia ti voglio solamente dire che ti ho sempre voluto un mondo di bene e amato veramente. Solo che adesso lo posso fare in modo giusto, da sereno, capisci? È tutto diverso. Non ti sto chiedendo niente! Niente!”.
Ancora, nel verbale di integrazione di denuncia orale in data 9/7/2018, La M riferiva che, dal mese di marzo 2018, Il B continuava a inviarle SMS dai numeri e , prodotti in atti; il B la chiamava anche in ufficio, direttamente al suo numero interno. Lo stesso la chiamata diverse volte sul cellulare, tanto che la denunciarne bloccava il numero. A titolo di esempio si riportano alcuni messaggi:
SMS del 14.3.2018: “buonasera S , Sono G non L quindi tranquilla... Volevo dirti che abbiamo saputo che dopo il processo che anche tu non hai avuto momenti belli e hai crisi legate a! fatto di aver paura di incontrare lui in giro eccetera... ci dispiace molto volevamo dirti di stare serena e non preoccuparti più per lui. Non ti cerca più e non viene neanche più al paese e nei luoghi vicini a te. Quindi devi stare pure serena, noi abbiamo rispetto per te sappilo. Ti auguro belle cose e se vorrai parlarmi in futuro fallo pure, buona serata”.
SMS del 13.6.2018: “ma S scusa dimmi se uno ti vuole bene per tutta la vita se speciale per lui... Cosa deve fare con te spiegami??? Ho capito benissimo che vuoi essere lasciata in pace non vuoi rotture... ma non riesce a conversare come ancora alcune volte d'amica??? Ciao grazie spero che sei serena e lucida”;
SMS del 19 giugno 2018 “guarda che comunque a parte gli scherzi... Non devi mai dico mai avere timore o paura di me... perché io sono la persona che ti voglio bene e a cui manchi di più di tutti... Hai capito bene! Ciao”.
In merito al grado di imputabilità del B al momento in cui veniva realizzata la condotta contestata, deve darsi conto delle risultanze della perizia disposta, sulla quale ha relazionato il dott. C all’uopo incaricato.
Segnatamente il perito, confermando le conclusioni riportate nella propria relazione acquisita in atti, tramite colloquio con l’interessato e la disamina della documentazione sanitaria (Relazione clinica deserto di 23/5/2018; Verbale di commissione medica per accertamento dell’handicap dell'Asl di 11/9/18; referto di visita ambulatoriale del 27516 presso l'ambulatorio di psicologia di i; Breve relazione dello psichiatra del CPS di • in data 3/11/2016; Relazione psichiatrica Dott. D
R datata 6/8/2013; Relazione di dimissione della comunità terapeutica C di datata 5/5/2017; fogli scritti a mano dal periziando), ha riscontrato nel B “un'immagine di sé impoverita instabile, un debole senso di autostima, emozioni irragionevolmente notevoli, con sentimenti di disperazione o di gioia incontenibile. Mostra difficoltà a raggiungere obiettivi personali e scarsa capacità di autoriflessione. L'empatia risulta compromessa con difficoltà a comprendere l'altro è riconoscerne sentimenti. Mostra di non essere in grado di prendere in considerazione il punto di vista delle persone a cui si attacca sentimentalmente, attaccamento che diventa ossessivo e pieno di risentimento. Il timore sempre l'abbandono con tendenza idealizzare l'altro ma se non contentato svalutarlo e arrivare ad aggredirlo. Si aggiungono la la labilità emotiva, l'impossibilità senza critica è vera mentalizzazione, la tendenza depressiva con sentimenti cronici di vuoto, l'ostilità con i sentimenti di rabbia in risposta ad offese presunte”.
In tale quadro il perito ha concluso per una diagnosi thè disturbo di personalità di tipo borderline.
Di talché il perito, attingendo dalla storia clinica del B , ha precisato che l’odierno imputato, seppure capace di partecipare coscientemente al processo, è affetto da un vizio parziale di mente, che consente di ritenere, in relazione al momento di commissione dei reati in contestazione, una capacità di intendere e di volere fortemente scemata ma non esclusa, essendo lo stesso al momento della commissione del fatto affetto da alcolismo cronico con grave destrutturazione della personalità.
Lo stesso perito ha pure riconosciuto la non pericolosità sociale del B , essendo assente una sintomatologia prettamente psicotica attiva essendo in corso una terapia in grado di contenere la patologia del B i che viene appoggiato dalla famiglia che sta cercando di aiutarlo seguendolo nel percorso di cura e offrendogli un riferimento lavorativo utile.
Orbene tenuto conto di tali emergenze processuali e degli accertamenti sanitari appositamente espletati, deve essere formulato un giudizio di colpevolezza a carico dell’odierno imputato, essendo stato dimostrato che lo stesso perpetrava la condotta di reato oggetto di addebito versando in una condizione di vizio di mente solo parziale di per sé non idoneo a scongiurare l’imputabilità a suo carico dell’azione criminosa in contestazione.
Ed invero alcun margine di dubbio può riservarsi in merito alla verificazione dei fatti di reato perpetrati in danno della M la quale ha descritto il fatto in modo preciso ed é apparsa particolarmente credibile, apparendo .
A suffragare la credibilità della vittima, soccorrono le dichiarazioni dell’amica della persona offesa, nonché la documentazione - mail e messaggi - acquisita agli atti.
Perché la fattispecie incriminatrice di atti persecutori in parola possa ritenersi integrata occorre infatti che siano state poste in essere reiterate condotte di molestia e minaccia, e che tali condotte abbiano ingenerato nella persona offesa un grave e perdurante stato di ansia o paura, ovvero un fondato timore per l'incolumità propria o dei congiunti, o ancora l'abbiano costretta ad alterare le proprie abitudini di vita.
L’istruttoria processuale ha dato prova di tale situazione, risultando dalla testimonianza della persona offesa che l’imputato, inviando messaggi, mail, lettere, effettuando telefonate ripetutamente alla persona offesa, dal contenuto talvolta affettuoso, talvolta ingiurioso, talvolta minaccioso, ingenerava nella vittima un perdurante stato d’ansia e la costringeva ad alterare le proprie abitudini di vita, dato che l’imputato giungeva a disturbarla più volte sul luogo di lavoro e si presentava sotto casa.
Della fattispecie incriminatrice di cui all’art. 612 bis c.p. sussistono pertanto tutti gli elementi costitutivi.
Deve essere dunque affermata la pena responsabilità dell’imputato in ordine al reato ascritto.
Il reato come da richiesta della difesa può ritenersi in continuazione con i fatti di cui alla sentenza del GUP presso il Tribunale di Pavia emessa in data 12.10.2017, irrevocabile il 13.3.2018, essendo evidente espressione di un medesimo disegno criminoso.
Ciò posto, il buon comportamento processuale (acquisizione consensuale atti a vantaggio della speditezza del procedimento) consente

di riconoscere le circostanze attenuanti generiche.
Tenuto inoltre conto delle conclusioni prospettate dal perito, ricorre nella specie l'attenuante di cui all'art. 89 c.p..
Le predette attenuanti bilanciano in termini di equivalenza la recidiva contestata.
Visti pertanto tutti i criteri di cui all'art. 133 c.p., appare congruo irrogare la pena di mesi 4 di reclusione a titolo di continuazione con la pena inflitta con la sentenza predetta.
All'affermazione della penale responsabilità segue, obbligatoriamente per legge, la condanna dell'imputato al pagamento delle spese processuali. I precedenti a carico dell'imputato ostano alla concessione di benefici.
Visti gli artt. 185 c.p., 538 e 540 c.p.p., dalla accertata responsabilità dell'imputato per i reati di cui all'imputazione, deriva la condanna al risarcimento del danno patrimoniale e non patrimoniale subito dalla parte civile da liquidarsi in separato giudizio civile non essendo provato nel suo preciso ammontare.
Tenuto conto del danno da stress prolungato patito dalla persona offesa, pare equo condannare il giudicabile al pagamento di una provvisionale ai sensi dell'art. 539 c.p.p, liquidata in Euro 6.000,00.
Consegue ai sensi dell'art. 541, comma 1 c.p.p., la condanna dell'imputato al pagamento delle spese relative all'azione civile in favore della suindicata Parte Civile che liquida in euro 2.500,00 oltre rimborso spese generali, IVA e CPA nelle misure di legge.

P.Q.M.

Letti gli artt. 533 e 535 c.p.p.,

DICHIARA

L L responsabile del reato ascritto e ritenute le circostanze attenuanti generiche e il vizio parziale di mente ex art. 89 c.p. equivalenti all'aggravante e alla recidiva e ritenuta la continuazione con i reati di cui alla sentenza del GUP presso il Tribunale di Pavia emessa in data 12.10.2017, irrevocabile il 7.3.2018, lo condanna alla pena di mesi 4 di reclusione a titolo di aumento per continuazione della pena irrogata con la predetta sentenza, oltre al pagamento delle spese processuali.
Condanna l'imputato al risarcimento del danno in favore della parte civile costituita, da liquidarsi in separato giudizio e al pagamento di una provvisionale provvisoriamente esecutiva che liquida in Euro 6.000,00. Condanna altresì l'imputato alla rifusione delle spese di costituzione diparte civile che liquida in euro 2.500,00 oltre a spese generali ed accessori.

la figlia minorenne convivente A li G< (n. 2001) e la moglie
A L , sottoponendo l'intero nucleo familiare ad un sistema di abituali
vessazioni, violenze fisiche e verbali ed umiliazioni dal 2014 in permanenza attuale.
In particolare, l'indagato poneva in essere i seguenti episodi di violenza e minaccia:

- Obbligava il figlio ad alzarsi alle cinque del mattino per esercitarsi in alcune materie scolastiche;
- impediva al minore di svolgere qualsiasi attività extrascolastica (sport, gite scolastiche feste di compagni), obbligandolo a mangiare in pochi minuti senza mai
alzare la testa dal piatto;
- al fine di non farlo uscire a suo insaputa gli tagliava i capelli a strisce in modo da farlo vergognare;
- in numerose occasioni percuoteva il mio con schiaffi e pugni per punirlo a causa del rendimento scolastico, a suo dire scarso;
- se la moglie o la figlia tentavano di frapporsi al fine di tutelare il minore venivano spintonate, percosse e minacciate di venire picchiate;
- sovente brandiva un coltello minacciando di suicidarsi in caso di intervento delle FF.OO..
